PREFACE

AS THE STATESMAN'S YEAR-BOOK enters its second century, an alteration has been made in the title so that the present edition relates to '1964-65' instead of simply to '1964'.

THE STATESMAN'S YEAR-BOOK was first published in January 1864 and, for some decades, January remained the publication month in order to coincide with the normal re-assembly of the British Parliament.

Later, publication was changed to May in order to include the current budgets of countries whose financial year ends on the 30th June (*e.g.*, USA, Australia, Italy, Sweden) as well as the budget estimates of countries whose financial year coincides with the calendar year or ends on the 31st March (*e.g.*, UK, Canada, Denmark, New Zealand).

Since 1918 the size and scope of THE STATESMAN'S YEAR-BOOK has steadily increased and both editorial and production problems have grown with them. For recent years, therefore, publication has been in July or August, *i.e.*, in the middle of instead of at the beginning of the year given on the title-page. But the book's validity for a full 12-month period has remained constant. The new title thus reflects more accurately the intended life of the current issue.

The various special features of the centenary edition seem to have been well received and this has been an added incentive to the editor and his staff to make this, the 101st, issue worthy of its hundred predecessors. If they have succeeded in this aim they owe it once again largely to the co-operation of their correspondents all over the world—government departments, international agencies, officials and private friends of THE STATESMAN'S YEAR-BOOK, to all of whom the editor extends his thanks.

LUXEMBOURG

GRAND-DUCHÉ DE LUXEMBOURG

REIGNING GRAND DUCHESS. Charlotte, born 23 Jan. 1896, daughter of William, Grand Duke of Luxembourg, Duke of Nassau (died 25 Feb.

1912) and of Marie-Anne, Princess of Braganza (died 3 July 1942), succeeded 9 Jan. 1919 on the abdication of her sister Marie-Adelaide (died 24 Jan. 1924); married to Prince Felix of Bourbon-Parma on 6 Nov. 1919. *Offspring*: Prince Jean, Hereditary Grand Duke, born 5 Jan. 1921 (married to Princess Joséphine-Charlotte of Belgium, 9 April 1953; *offspring*: Princess Marie Astrid, born 17 Feb. 1954; Prince Henri, born 16 April 1955; Prince Jean and Princess Margareta, born 15 May 1957). Princess Elizabeth, born 22 Dec. 1922 (married, 9 May 1956, Prince François Ferdinand de Hohenberg); Princess Marie-Adelaide, born 21 May 1924 (married, 10 April 1958, Count Charles-Joseph Henckel de Donnersmarck); Princess Marie-Gabrielle, born 2 Aug. 1925 (married, 6 Nov. 1951, Count Knud of Holstein-Ledreborg); Prince Charles, born 7 Aug. 1927, and Princess Alix, born 24 Aug. 1929 (married, 17 Aug. 1950, Prince Antoine de Ligne).

On 4 May 1961 the Hereditary Grand Duke was sworn in as 'Lieutenant du Grand Duc' and representative of his mother as head of state.

The civil list is fixed at 300,000 gold francs per annum, to be reconsidered at the beginning of each reign.

On 28 Sept. 1919 a referendum was taken in Luxembourg to decide on the political and economic future of the country. The voting resulted as follows: For the reigning Grand Duchess, 66,811; for the continuance of the Nassau-Braganza dynasty under another Grand Duchess, 1,286; for another dynasty, 889; for a republic, 16,885; for an economic union with France, 60,133; for an economic union with Belgium, 22,242. But France refused in favour of Belgium, and on 22 Dec. 1921 the Chamber of the Grand Duchy passed a Bill for the economic union between Belgium and Luxembourg. The agreement, which is for 50 years, provides for the disappearance of the customs barrier between the two countries and the use of Belgian, in addition to Luxembourg, currency as legal tender in the Grand Duchy. It came into force on 1 May 1922.

The Grand Duchy was under German occupation from 10 May 1940 to 10 Sept. 1944. The Grand Duchess and the Government carried on an independent administration in London. Civil government was restored in Oct. 1944.

National flag: Red, white, blue (horizontal).

National anthem: Ons Hemecht (words by M. Lentz, 1859; tune by J. A. Zinnen).

CONSTITUTION AND GOVERNMENT. The Grand Duchy of Luxembourg is a constitutional monarchy, the hereditary sovereignty being in the Nassau family. The constitution of 17 Oct. 1868 was revised in 1919, 1948 and 1956. The revision of 1948 has abolished the 'perpetually neutral' status of the country and introduced the concepts of right to work, social security, health services, freedom of trade and industry, and recognition of trade unions. The revision of 1956 provides for the devolution of executive, legislative and judicial powers to international institutions.

The official languages are French and Luxembourgish.

The country forms one electoral district. An elector must be a citizen (male or female) of Luxembourg and have completed 21 years of age; to be eligible for election the citizen must have completed 25 years of age.

The Chamber of Deputies consists of 21 Christian Social, 17 Socialists, 11 Democrats and 3 Communists (elections of 1 Feb. 1959). Members are elected for 5 years; they receive a salary and a travelling allowance.

The head of the state takes part in the legislative power, exercises the

¹ Until 1954 inclusive, the whole Austrian production was at the disposal of the USSR; reparation deliveries from 1955 to 1961 were 1.2m. tons yearly, thereafter 1m. tons yearly. The last delivery was made in Dec. 1963.

² Without shale oil. In 1960-62 shale oil and oil from coal amounted yearly to an additional 1.7m. tons.

³ Provisional estimate.

⁴ Estimates differ widely because of conversion difficulties of barrels to metric tons. Thus, for instance, for crude petroleum of specific gravity, at 60° F., of 0.78 (corresponding to American Petroleum Institute gravity rating of 49.91), there are 8.08 bbls to a metric ton. At the other end of the scale, for crude petroleum of specific gravity 0.98 (API rating, 12.89), there are only 6.43 bbls to a metric ton. Middle East crude petroleum has an average conversion rate of approximately 7.5 bbls to a metric ton.

INTERNATIONAL ORG

PART I

INTERNATIONAL ORGANIZATIONS

THE UNITED NATIONS

THE United Nations is an association of states which have pledged themselves, through signing the Charter, to maintain international peace and security and to co-operate in establishing political, economic and social conditions under which this task can be securely achieved. Nothing contained in the Charter authorizes the organization to intervene in matters which are essentially within the domestic jurisdiction of any state.

The United Nations Charter originated from proposals agreed upon at discussions held at Dumbarton Oaks (Washington, D.C.) between the USSR, US and UK from 21 Aug. to 28 Sept., and between US, UK and China from 29 Sept. to 7 Oct. 1944. These proposals were laid before the United Nations Conference on International Organization, held at San Francisco from 25 April to 26 June 1945, and (after amendments had been made to the original proposals) the Charter of the United Nations was signed on 26 June 1945 by the delegates of 50 countries. Ratification of all the signatures had been received by 31 Dec. 1945. (For the complete text of the Charter see THE STATESMAN'S YEAR-BOOK, 1946, pp. xxi-xxxii.)

The United Nations formally came into existence on 24 Oct. 1945, with the deposit of the requisite number of ratifications of the Charter with the US Department of State. The official languages of the United Nations are Chinese, English, French, Russian and Spanish; the working languages are English, French and (in the General Assembly) Spanish.

The headquarters of the United Nations is in New York City, USA.

Membership. Membership is open to all peace-loving states whose admission will be effected by the General Assembly upon recommendation of the Security Council.

The table on pp. 11-13 shows the member states of the United Nations and their participation in the Related Agencies, and those non-member states which have been admitted to certain Related Agencies.

The Principal Organs of the United Nations are: 1. The General Assembly. 2. The Security Council. 3. The Economic and Social Council. 4. The Trusteeship Council. 5. The International Court of Justice. 6. The Secretariat.

1. **THE GENERAL ASSEMBLY** consists of all the members of the United Nations. Each member is entitled to be represented at its meetings by 5 delegates and 5 alternate delegates, but has only 1 vote. The General Assembly meets regularly once a year, commencing on the third Tuesday in Sept.; the session normally lasts until mid-December and is resumed for some weeks in the new year. Special sessions may be convoked by the Secretary-General if requested by the Security Council, by a majority of the members of the United Nations, or by 1 member concurred with by the majority of the members. The General Assembly elects its President for each session.

The first regular session was held in London from 10 Jan. to 14 Feb. and in New York from 23 Oct. to 15 Dec. 1946.

Four special sessions have been held, on Palestine, in 1947, 1948 and 1963.

Emergency sessions were held on the Middle East in Nov. 1956, on Hungary in Nov. 1956, on Lebanon in Aug. 1958 and on the Congo in Sept. 1960.

The work of the General Assembly is divided between 7 Main Committees, on each of which every member has the right to be represented by 1 delegate: I. Political Security. II. Economic and Financial. III. Social, Humanitarian and Cultural. IV. Trusteeship. V. Administrative and Budgetary. VI. Legal. VII. Special Political Committee (to assist I).

In addition there is a General Committee charged with the task of coordinating the proceedings of the Assembly and its Committees; and a Credentials Committee which verifies the credentials of the delegates. The General Committee consists of 21 members, comprising the President of the General Assembly, its 13 Vice-Presidents and the Chairmen of the 7 Main Committees. The Credentials Committee consists of 9 members, elected at the beginning of each session of the General Assembly. The Assembly has 2 standing committees—an Advisory Committee on Administrative and Budgetary Questions, and a Committee on Contributions. The General Assembly establishes subsidiary and *ad hoc* bodies when necessary to deal with specific matters. These include the Disarmament Commission, the Interim Committee of the General Assembly, the International Law Commission, Commission for the Unification and Rehabilitation of Korea, Conciliation Commission for Palestine, Advisory Council for Somaliland, Peace Observation Commission, Collective Measures Committee (reports to both Assembly and Security Council), Relief and Works Agency for Palestine Refugees in the Near East, High Commissioner's Office for Refugees, Special Committee on Information from non-self-governing territories, Scientific Committee on the Effects of Atomic Radiation, Committee on the Peaceful Uses of Outer Space.

The General Assembly may discuss any matters within the scope of the Charter, and, with the exception of any situation or dispute on the agenda of the Security Council, may make recommendations on any such questions or matters. For decisions on important questions a two-thirds majority is required, on other questions a simple majority of members present and voting. In addition, the Assembly at its fifth session, in 1950, decided that if the Security Council, because of lack of unanimity of the permanent members, fails to exercise its primary responsibility for the maintenance of international peace and security in any case where there appears to be a threat to the peace, breach of the peace or act of aggression, the General Assembly shall consider the matter immediately with a view to making appropriate recommendations to members for collective measures, including in the case of a breach of the peace or act of aggression the use of armed force when necessary, to maintain or restore international peace and security.

The General Assembly receives and considers reports from the other organs of the United Nations, including the Security Council. The Secretary-General makes an annual report to it on the work of the Organization.

2. THE SECURITY COUNCIL consists of 11 members, each of which has 1 representative and 1 vote. There are 5 permanent and 6 non-permanent members elected for a 2-year term by a two-thirds majority of the General Assembly. Retiring members are not eligible for immediate re-election. Any other member of the United Nations will be invited to participate without vote in the discussion of questions specially affecting its interests.

The Security Council bears the primary responsibility for the maintenance of peace and security. It is also responsible for the functions of the UN in trust territories classed as 'strategic areas'. Decisions on procedural

questions are made by an affirmative vote of 7 members. On all other matters the affirmative vote of 7 members must include the concurring votes of all permanent members (in practice, however, an abstention by a permanent member is not considered a veto), subject to the provision that when the Security Council is considering methods for the peaceful settlement of a dispute, parties to the dispute abstain from voting.

For the maintenance of international peace and security the Security Council can, in accordance with special agreements to be concluded, call on armed forces, assistance and facilities of the member states. It is assisted by a Military Staff Committee consisting of the Chiefs of Staff of the permanent members of the Security Council or their representatives.

The Presidency of the Security Council is held for 1 month in rotation by the member states in the English alphabetical order of their names.

The Security Council functions continuously. Its members are permanently represented at the seat of the organization, but it may meet at any place that will best facilitate its work.

The Council has 2 standing committees, of Experts and on the Admission of new members. In addition, from time to time, it establishes *ad hoc* committees and commissions such as the Sub-committee on Laos and the Truce Supervision Organization in Palestine. It has also appointed a Representative for India and Pakistan.

Permanent Members: China, France, USSR, UK, USA.

Non-Permanent Members: Brazil, Morocco, Norway (1 Jan. 1963–31 Dec. 1964); Bolivia, Ivory Coast (1 Jan. 1964–31 Dec. 1965), Czechoslovakia (1 Jan.–31 Dec. 1964).

3. THE ECONOMIC AND SOCIAL COUNCIL is responsible under the General Assembly for carrying out the functions of the United Nations with regard to international economic, social, cultural, educational, health and related matters. By Jan. 1963, 14 specialized inter-governmental agencies working in these fields had been brought into relationship with the United Nations. The Economic and Social Council may also make arrangements for consultation with international non-governmental organizations and, after consultation with the member concerned, with national organizations; by Jan. 1963, 124 non-governmental organizations had been granted consultative status and a further 180 were on the register.

The Economic and Social Council consists of 1 delegate each of 18 Member States elected by a two-thirds majority of the General Assembly. Six are elected each year for a 3-year term. Retiring members are eligible for immediate re-election. Each member has 1 vote. Decisions are made by a majority of the members present and voting.

The Council holds at least 2 sessions a year, and special sessions may be held if required. The President is elected for 1 year and is eligible for immediate re-election.

The Economic and Social Council has the following commissions:

- (1) Statistical Commission; with subcommission on Statistical Sampling.
- (2) Commission on Human Rights; with subcommission on Prevention of Discrimination and Protection of Minorities;
- (3) Social Commission;
- (4) Commission on the Status of Women;
- (5) Commission on Narcotic Drugs;
- (6) Population Commission;
- (7) International Commodity Trade Commission;
- (8)–(11) Four regional Economic Commissions for Europe, Asia and the Far East, Latin America, Africa.

The Economic and Social Council has the following standing committees: The Economic Committee, Social Committee, Co-ordination Committee, Technical Assistance Committee, Council Committee on Non-Governmental Organizations, Interim Committee on Programme of Conferences, Standing Committee for Industrial Development.

Other special bodies are the Permanent Central Opium Board, the Drug Supervisory Body, the Interim Co-ordinating Committee for International Commodity Arrangements, and the Administrative Committee on Co-ordination to ensure (1) the most effective implementation of the agreements entered into between the United Nations and the specialized agencies and (2) co-ordination of activities.

Membership: Australia, Colombia, India, Senegal, USA, Yugoslavia (until 31 Dec. 1964); Argentina, Austria, Czechoslovakia, Japan, USSR, UK (until 31 Dec. 1965); Algeria, Chile, Ecuador, France, Iraq, Luxembourg (until 31 Dec. 1966).

4. **THE TRUSTEESHIP COUNCIL.** The Charter provides for an international trusteeship system to safeguard the interests of the inhabitants of territories which are not yet fully self-governing and which may be placed thereunder by individual trusteeship agreements. These are called trust territories. The following categories may be placed under trusteeship: territories held under mandate; territories which have been detached from enemy States as a result of the Second World War; and territories voluntarily placed under the system by States responsible for their administration.

The Trusteeship Council consists of the 2 members administering trust territories: Australia (New Guinea; and Nauru, administered on behalf of Australia, New Zealand and UK), USA (Pacific Islands formerly under Japanese mandate); the permanent members of the Security Council that are not administering trust territories: China, France and USSR; and any other members elected for 3-year terms by the General Assembly. Elected member: Liberia (until 31 Dec. 1965). Retiring members are eligible for immediate re-election. Decisions of the Council are made by a majority of the members present and voting, each member having 1 vote. The Council holds one regular session each year, and special sessions if required.

Togoland under British Trusteeship was united with Ghana on 6 March 1957; Cameroons and Togoland under French trusteeship and Somalia under Italian trusteeship attained independence in 1960. Tanganyika became independent on 9 Dec. 1961, Western Samoa on 1 Jan. 1962. The British Cameroons voted in UN-supervised plebiscites in 1960, the northern area joining Nigeria, the southern area joining the Cameroun Republic in 1961. Ruanda-Urundi became independent as Rwanda and Burundi on 1 July 1962.

5. **THE INTERNATIONAL COURT OF JUSTICE** was created by an international treaty, the Statute of the Court, which forms an integral part of the United Nations Charter. All members of the United Nations are *ipso facto* parties to the Statute of the Court.

The Court is composed of a body of independent judges, elected regardless of their nationality from among persons of high moral character, who possess the qualifications required in their respective countries for appointment to the highest judicial offices, or are jurisconsults of recognized competence in international law. There are 15 judges, no 2 of whom may be nationals of the same state. They are elected by the Security Council and the General Assembly of the United Nations sitting independently. Candidates are

chosen from a list of persons nominated by the national groups in the Permanent Court of Arbitration established by the Hague Conventions of 1899 and 1907. In the case of members of the United Nations not represented in the Permanent Court of Arbitration, candidates are nominated by national groups appointed for the purpose by their Governments. The judges are elected for a 9-year term and are eligible for immediate re-election. When engaged on business of the Court, they enjoy diplomatic privileges and immunities.

The Court elects its own President and Vice-Presidents for 3 years and remains permanently in session, except for judicial vacations. The full court of 15 judges normally sits, but a quorum of 9 judges is sufficient to constitute the Court. It may form chambers of 3 or more judges for dealing with particular categories of cases, and forms annually a chamber of 5 judges to hear and determine, at the request of the parties, cases by summary procedure.

Competence and Jurisdiction. Only states may be parties in cases before the Court, which is open to the states parties to its Statute. The conditions under which the Court will be open to other states are laid down by the Security Council. The Court exercises its jurisdiction in all cases which the parties refer to it and in all matters provided for in the Charter, or in treaties and conventions in force. Disputes concerning the jurisdiction of the Court are settled by the Court's own decision.

The Court may apply in its decision: (a) international conventions; (b) international custom; (c) the general principles of law recognized by civilized nations; and (d) as subsidiary means for the determination of the rules of law, judicial decisions and the teachings of highly qualified publicists.

If the parties agree, the Court may decide a case *ex aequo et bono*. The Court may also give an advisory opinion on any legal question to any organ of the United Nations or its agencies.

Procedure. The official languages of the Court are French and English. At the request of any party the Court will authorize the use of a language other than French or English by this party. All questions are decided by a majority of the judges present. If the votes are equal, the President has a casting vote. The judgment is final and without appeal, but a revision may be applied for on the ground of a new decisive factor. No such application may be made after 10 years from the date of the judgment. Unless otherwise decided by the Court, each party bears its own costs.

Judges. The judges of the Court, elected by the Security Council and the General Assembly, are as follows: (1) To serve until 5 Feb. 1967: H.E. Dr Abel Hamid Badawi (United Arab Republic), V. K. Wellington Koo (China), Sir Percy Spender (Australia), Dr Bohdan Winiarski (Poland), Dr Jean Spiropoulos (Greece). (2) To serve until 5 Feb. 1970: J. L. Bustamante y Rivero (Peru), Philip C. Jessup (USA), Vladimir M. Koretsky (USSR), Gaetano Morelli (Italy), Kotaro Tanaka (Japan). (3) To serve until 5 Feb. 1973: Sir Gerald Fitzmaurice (UK), Isaac Forster (Senegal), André Gros (France), Luis Padilla Nervo (Mexico), Sir Zafrulla Khan (Pakistan).

'National' Judges. If there is no judge on the bench of the nationality of the parties to the dispute, each party has the right to choose a judge. Such judges shall take part in the decision on terms of complete equality with their colleagues.

The Court has its seat at The Hague, but may sit and exercise its functions elsewhere whenever it considers this desirable. The expenses of the Court are borne by the United Nations.

Registrar: M. Garnier-Coignet (France).

6. THE SECRETARIAT is composed of the Secretary-General, who is the chief administrative officer of the organization, and an international staff appointed by him under regulations established by the General Assembly. However, the Secretary-General, the High Commissioner for Refugees and the Managing Director of the Fund are appointed by the General Assembly. The first Secretary-General was Trygve Lie (Norway), 1946-53; the second, Dag Hammarskjöld (Sweden), 1953-61.

The Secretary-General acts as chief administrative officer in all meetings of the General Assembly, the Security Council, the Economic and Social Council and the Trusteeship Council.

Secretary-General: U Thant (Burma), appointed Acting Secretary-General in Oct. 1961; unanimously elected Secretary-General on 30 Nov. 1962 (until 2 Nov. 1966).

Under Secretaries: V. P. Suslov (USSR), *Political Affairs*; Ralph J. Bunche (USA), *Dragoslav Protic* (Yugoslavia), *Special Political Affairs*; Philippe de Seynes (France), *Economic and Social Affairs*; Godfrey Amachree (Nigeria), *Trusteeship and Non-Self-Governing Territories*; David Owen (UK), *Chairman of the Technical Assistance Board*; Paul G. THE OFFICE OF THE UN HIGH COMMISSIONER FOR REFUGEES (UNHCR) was established by the General Assembly of the United Nations on 14 Dec. 1950, with effect from 1 Jan. 1951, originally for 3 years; now extended until 31 Dec. 1968. Its main functions are to provide international protection for refugees and to seek permanent solutions for the problems of refugees.

A Convention relating to the status of refugees, adopted in July 1951, is now in force, and has been signed or ratified by 42 Governments. The Convention establishes minimum rights for refugees under the mandate of the High Commissioner including the right to work, to education, to public relief and to freedom of religion. A procedure for the issue of travel documents to refugees is also provided. The High Commissioner's programmes are designed to solve residual problems of former refugee waves, and to solve as rapidly as possible any new refugee problems that may arise.

UNHCR programmes are financed through voluntary contributions from governmental and non-governmental sources. Total annual programmes was over \$95m. for the period 1955-62 by UNHCR. The High Commissioner's programme member committee which has executive as well as advisory functions.

The Office was awarded the Nobel Peace Prize for 1954.

Main current tasks include the residual problem of the 'old' European refugees (50,000, of whom 3,000 still live in camps), as well as the refugees from Rwanda (130,000). The resettlement of physically handicapped

refugees, after the survey made by Dr F. A. S. Jensen (Australia) has been of special significance in solving a most difficult problem.

The United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) was established by the General Assembly in Dec. 1949. An advisory commission of 8 member states advises and assists the Agency's director.

UNRWA is supported by private contributions and by governmental pledges made each year at the General Assembly. In 1962 governmental pledges stood at \$35.7m. UNRWA's operations, direct relief, long-term rehabilitation and vocational training, cover the Gaza Strip, Jordan, Lebanon and Syria where 1m. refugees are now living.

Headquarters: UNESCO House, Beirut, Lebanon.

Commissioner-General: Laurence Michelmore (USA).

The Children's Fund (UNICEF), established by the General Assembly on 11 Dec. 1946, functions under the supervision of the Economic and Social Council. It assists child health, nutrition and welfare programmes in 116 countries and territories. Its work is financed through voluntary contributions from governments and donations from the public.

1. International Atomic Energy Agency (IAEA)

Origin. An International Atomic Energy Agency came into existence on 29 July 1957. Its statute had been approved on 26 Oct. 1956, at an international conference held at UN Headquarters, New York, and came into force after ratification by at least 18 signatory states, including at least 3 of the following: Canada, France, the USSR, the UK and the USA. An agreement concerning the relationship with the United Nations was approved by the General Assembly on 14 Nov. 1957.

Functions. (1) To accelerate and enlarge the contribution of atomic energy to peace, health and prosperity throughout the world, and (2) to ensure that assistance provided by it or at its request or under its supervision or control is not used in such a way as to further any military purpose. The Agency has awarded 1,000 fellowships for the study of atomic energy.

Organization. The Statute provides for an annual General Conference, a Board of Governors of 23 members and a staff headed by a Director-General.

Headquarters: Kärntnerring 11-13, Vienna I, Austria.

Director-General: Sigvard Eklund (Sweden).

2. International Labour Organisation (ILO)

Origin. The ILO, established in 1919 as an autonomous part of the League of Nations, is an intergovernmental agency with a tripartite organization, in which governments, employers and workers are represented. It seeks through international action to improve labour conditions, raise living standards, and promote economic and social stability. In 1946 the ILO was recognized by the United Nations as the specialized agency responsible for international action in the above fields.

Functions. One of the ILO's principal functions is the formulation of international standards in the form of International Labour Conventions and Recommendations. Member countries are required to submit Conventions to their competent national authorities with a view to ratification. If a country ratifies a Convention it agrees to bring its laws into line with its terms and to report periodically how these regulations are being applied. Over 2,800 ratifications of 119 Conventions had been deposited by the end of 1963. Machinery is available to ascertain whether Conventions thus ratified are effectively applied.

Recommendations do not require ratification, but member states are obliged to consider them with a view to giving effect to their provisions by legislation or other action. Member states also undertake to report regularly on their position in regard to Recommendations and unratified Conventions.

Organization. The ILO consists of the International Labour Conference, the Governing Body, and the International Labour Office.

The Conference is the supreme deliberative organ of the ILO; it meets annually at Geneva. National delegations are composed of 2 government delegates, 1 employers' delegate and 1 workers' delegate.

The Governing Body, elected by the Conference, is the executive Council. It is composed of 24 government members, 12 workers' members and 12 employers' members.

Ten governments hold permanent seats on the Governing Body because of their industrial importance, namely, Canada, China, France, Germany (Federal Republic), India, Italy, Japan, USSR, UK and USA. The remaining 14 government seats were, in 1963, held by Algeria, Australia, Brazil, Bulgaria, Ecuador, Gabon, Lebanon, Liberia, Mali, Mexico, Pakistan, Peru, Poland and Tanganyika.

The Office serves as secretariat, operational headquarters, research centre and publishing house.

Activities. In addition to its extensive research and advisory activities, the ILO extends technical assistance to governments under its regular budget and under the UN Expanded Technical Assistance Programme and the UN Special Fund in the fields of manpower and vocational training, co-operation and handicrafts, social security, industrial safety and hygiene, productivity, etc. ILO's technical assistance also includes information to governments and organizations on request, advisory missions and a fellowship programme. The International Institute for Labour Studies, established at Geneva by the ILO is to further a better understanding of labour problems; the International Centre for Advanced Technical and Vocational Training in Turin is to serve the expanding programme of co-operation in the field of training.

Headquarters: 154, rue de Lausanne, Geneva, Switzerland.

Director-General: David A. Morse (USA).

Chairman of the Governing Body: Emilio Calderón Puig (Mexico).

London Office: 38 Parliament St., SW1.

There are also branch offices in Bonn, Buenos Aires, Cairo, Moscow, New Delhi, Ottawa, Paris, Rio de Janeiro, Rome, Tokyo and Washington.

3. Food and Agriculture Organization of the United Nations (FAO)

Origin. The United Nations Conference on Food and Agriculture in May 1943, at Hot Springs, Virginia, set up an Interim Commission in Washington in July 1943 to plan the Organization, which came into being on 16 Oct. 1945.

Functions. FAO continually reviews the food and agricultural conditions in the world and supplies member governments with facts and figures, appraisals and forecasts, relating to nutrition and to production, trade and consumption of the products of agriculture, fisheries and forestry. FAO recommends and, where appropriate, promotes national and international action which it considers necessary to attain: (1) the improvement of production, processing, marketing and distribution of the products of agriculture, forestry and fisheries; (2) higher levels of nutrition and standard of living; (3) the improvement of education and administration in its fields of activity; (4) the conservation of natural resources; (5) the improvement of systems of land tenure and provision of credit for agriculture. FAO also operates part of the UN Expanded Technical Assistance Programme under which technicians are sent, on request, to underdeveloped countries to aid in programmes of national development. FAO's operations are financed by contributions from its member countries (budget for 1958-59, \$17m.; 1960-61, \$18.9m.) and by a share (approximately \$8.5m. in 1960) of the UN Expanded Programme for Technical Assistance.

Organization. FAO is operated by a Conference (composed of 1 representative from each member nation), a Council (consisting of 27 member nations elected by the Conference) and the Director-General and his staff. National FAO Committees have been set up by 55 member governments to serve as primary points of contact between FAO and governmental and non-governmental agencies.

Headquarters: Viale delle Terme di Caracalla, Rome, Italy.

Director-General: B. R. Sen (India).

4. United Nations Educational, Scientific and Cultural Organization (UNESCO)

Origin. A Conference for the establishment of an Educational, Scientific and Cultural Organization of the United Nations was convened by the Government of the UK in association with the Government of France, and met in London, 1-16 Nov. 1945. UNESCO came into being on 4 Nov. 1946, when the instruments of acceptance of 20 signatories of its constitution had been deposited with the Government of the UK.

Functions. The purpose of UNESCO is to contribute to peace and security by promoting collaboration among the nations through education, science and culture in order to further universal respect for justice, for the rule of law and for the human rights and fundamental freedoms which are affirmed for the peoples of the world, without distinction of race, sex, language or religion, by the Charter of the United Nations.

Activities. The education programme has three main objectives: the extension of education; the improvement of education; and education for living in a world community.

To train teachers specialized in the techniques of fundamental education, UNESCO is helping to establish regional and national training centres. A centre for Latin America was opened in Mexico in 1951, one for the Arab States was set up in Egypt in 1953. UNESCO seeks to promote the progressive application of the right to free and compulsory education for all and to improve the quality of education everywhere.

In the natural sciences, UNESCO seeks to promote international scientific co-operation by initiating meetings between scientists and aiding the work of international scientific organizations. It encourages scientific research designed to improve the living conditions of mankind. Science co-operation offices have been set up in Montevideo, Cairo, New Delhi and Jakarta.

In its mass communication work, UNESCO endeavours by disseminating information, carrying out research and providing advice, to increase the scope and quality of press, film and radio services throughout the world.

Organization. The organs of UNESCO are a General Conference (composed of representatives from each member state), and Executive Board (consisting of 24 government representatives elected by the General Conference) and a Secretariat.

National commissions act as liaison groups between UNESCO and the educational, scientific and cultural life of their own countries.

Headquarters: UNESCO House, 9 Place de Fontenoy, Paris (7^{ème}).

Director-General: René Maheu (France).

5. World Health Organization (WHO)

Origin. An International Health Conference, convened by the United Nations Economic and Social Council, met in New York from 19 June to 22 July 1946, and drew up a constitution for the World Health Organization. This constitution came into force on 7 April 1948.

Functions. The Constitution of WHO defines health as 'a state of complete physical, mental, and social well-being and not merely the absence of disease or infirmity'. It sets down as the objective of WHO 'the attainment by all peoples of the highest possible level of health'.

Some of the functions of WHO towards the achievement of this aim are: (1) to act as the directing and co-ordinating authority on international health work in collaboration with the United Nations, specialized agencies, governments, professional and other appropriate groups; (2) to furnish appropriate technical assistance and, in emergencies, necessary aid upon the request of governments; (3) to stimulate and advance work to eradicate epidemic, endemic and other diseases; (4) to promote the prevention of accidental injuries; (5) to promote the improvement of nutrition, housing, sanitation, recreation, economic or working conditions, and other aspects of environmental hygiene; (6) to promote maternal and child health and welfare; (7) to promote research in the field of health; (8) to promote improved standards of teaching and training; (9) to foster activities in the field of mental health; (10) to study and report on administrative and social techniques in the health field; (11) to standardize international nomenclatures of diseases, causes of death and public health practices as well as

diagnostic procedure; and (12) to promote international standards with respect to food, biological, pharmaceutical and similar products.

WHO's main function is to fulfil tasks which require and justify the existence of a single international organization to collate, unify, codify where necessary, standardize, and disseminate data and information. These tasks concern: epidemiology, quarantine, health statistics, biological standardization, unification of pharmacopœias, public health laboratory methods, official and technical publications and publications for the use of the general public.

Activities. WHO operates by means of expert committees, study groups, regional or inter-regional technical conferences, seminars, teaching missions, training courses and centres, provision of experts, consultants, demonstration teams, professors, lecturers and supplies, and award of study fellowships (about 15,500 fellowships awarded to nationals of 173 countries or territories) etc. WHO is expanding its 'inter-country' programmes and mass campaigns; in the field of malaria the programme now extends to world eradication of the disease.

WHO does not undertake any work except at the request of the government concerned. Its role is limited to assisting, guiding, advising, educating, promoting, initiating; the interested government must undertake, after WHO assistance has ended, to continue the work with the local personnel who will in the meantime have been trained for the various tasks.

Organization. WHO consists of a World Health Assembly, representing all member states and associate members, an Executive Board, consisting of 24 technically qualified persons designated by 24 member states and elected by the World Health Assembly, and a Secretariat.

Regional organizations have been established for Africa, South-East Asia, Europe, the eastern Mediterranean and the western Pacific; the Pan American Health Organization serves as the regional organization for the Americas.

By 1963, 42 advisory panels had been established; their 2,100 experts deal with specific health problems.

Headquarters: Palais des Nations, Geneva. *Regional Offices:* Brazzaville, Washington, New Delhi, Copenhagen, Alexandria, Manila.

Director-General: Dr Marcolino Gomes Candau (Brazil).

6. International Monetary Fund (FUND)

The International Monetary Fund was established on 27 Dec. 1945 as a result of the United Nations Monetary and Financial Conference held at Bretton Woods, N.H., in July 1944. The total of all quotas of the 102 members was \$15,549m. at 31 Dec. 1963, when the Fund held \$3,263.7m. in the form of gold and \$11,937.9m. in the form of national currencies.

In Jan. 1963 the Fund provided for up to \$6,000m. in supplementary

resources when it approved an arrangement whereby 10 industrial countries (Belgium, Canada, France, Germany, Italy, Japan, Netherlands, Sweden, UK, USA) will stand ready to lend to the Fund if this is necessary to forestall or cope with an impairment of the international payments system.

Purposes. To promote international monetary co-operation and exchange stability, and to assist in the removal of exchange restrictions. The Fund seeks to facilitate expansion of world trade as a means of promoting high levels of employment and income, and of developing the productive resources of its members.

Activities. The Fund has collaborated with member governments in establishing a pattern of exchange rates fixed in ratio to gold and the US\$. Changes by more than 10% in these rates must be approved by the Fund's Board of Executive Directors. The Fund works towards the removal of restrictions on current exchange transactions, and is consulted by its members on major changes in their foreign-exchange practices. Members may exchange limited amounts of their own currencies for other currencies held by the Fund, for purposes approved by its Directors.

Organization. The Fund's activities are supervised by a Board of Governors on which each member government is represented. The Governors assemble once a year to review the Fund's work.

The Executive Directors are responsible for the general operations of the Fund. Five of them are appointed by nations having the 5 largest quotas. The others, on a board of not less than 12 and currently 19, are elected by member countries not represented by appointed Directors. Voting power in these elections is governed by the amount of each nation's subscription quota. Each appointed Director has voting power proportionate to the quota of the government he represents. Elected Directors cast the number of votes which counted towards their election.

The Managing Director is selected by the Executive Directors; he presides as chairman at their meetings, but may not vote except in case of a tie. His term is for 5 years, but may be terminated at the discretion of the Directors. He is responsible for the ordinary business of the Fund, under general control of the Directors, and supervises a staff of 568.

Co-ordination with the United Nations. The Fund, while an independent international organization, has been brought into relationship with the United Nations by an agreement signed on 15 April 1948.

Headquarters; 19th & H St. NW, Washington, D.C., 20431. Offices in New York, Paris and London.

Managing Director: Pierre-Paul Schweitzer (France).

SCHEDULE OF PAR VALUES. The Fund Agreement requires that 'the par value of the currency of each member shall be expressed in terms of gold as a common denominator or in terms of the US\$ of the weight and fineness in effect on 1 July 1944'.

The following table records the par values as of 21 Oct. 1963; for the values prior to the devaluation of the £ sterling of 18 Sept. 1949 and the subsequent devaluation of other currencies, see THE STATESMAN'S YEAR-BOOK, 1949, pp. 17-19.

Par values have not yet been agreed with the Fund by the following countries: China, Indonesia, Korea, Laos, Nepal, Tunisia, Vietnam. Canada notified the Fund on 30 Sept. 1950, of its intention to permit the Canadian dollar to fluctuate for a temporary period.

7. International Bank for Reconstruction and Development

Conceived at the Bretton Woods Conference, July 1944, the Bank began operations in June 1946. Its purpose is to provide and facilitate international investment for increasing production, raising living standards and helping to bring a better balance in world trade.

The Bank makes loans to member countries out of its subscribed funds, out of funds raised by borrowings, and net earnings. The subscribed capital of the Bank amounted to \$21,097m. at 31 Dec. 1963. Ten per cent of this amount is paid-in capital and the remainder is subject to call if needed by the Bank to meet its obligations. Bank borrowing in the market and by private placement had reached \$2,510m. net by 31 Dec. 1963. In addition, the Bank has sold portions of loans worth \$1,727m. from its portfolio.

At 31 Dec. 1963 the Bank had made 371 loans totalling \$7,465m. in 70 of its 101 member countries or their overseas territories, for projects such as

reconstruction, electric power, transportation, industry, agriculture, communications and general development. In addition to loans, the Bank furnishes a wide variety of technical assistance services, ranging from full-scale economic surveys to investigations or advice on particular projects. The Bank maintains a staff college, the Economic Development Institute in Washington, D.C., for senior officials of the member countries.

The Bank is self-supporting; its net earnings amounted to \$604.5m. by Dec. 1963, of which \$558m. has been allocated to a Supplemental Reserve. Together with a Special Reserve, derived from loan commissions, this brought total reserves to \$829m.

To help nations whose borrowing capacity is limited by foreign exchange stringency, member countries of the Bank established the International Development Association in 1960. This institution is managed by the Bank, but grants development credits on a more flexible basis, with repayments bearing less heavily on the balance of payments than those of the Bank. By 31 Dec. 1963 IDA had extended 47 credits to 20 countries, totalling \$577m. Its more advanced member countries, together with Belgium and Luxembourg (which has applied for membership), are prepared (subject to necessary legislative action) to make available to IDA new resources aggregating \$750m. in freely usable currencies for commitments up to at least 30 June 1966.

8. International Finance Corporation (IFC)

The Corporation, established in July 1956, is an affiliate of the World Bank, with capital of over \$98.7m., subscribed by 76 governments. Its purposes are to promote the flow of private capital internationally, to stimulate the development of capital markets within its member countries and to promote the establishment of new private enterprises and the development of private investment opportunities. IFC's activities consist mainly of investment in manufacturing enterprises, usually on a mixed loan and equity basis; standby and underwriting arrangements; the establishment or the expansion of industrial development finance companies often in collaboration with the World Bank and the International Development Association (IDA); and the sale of participations in its investments.

At 31 Dec. 1963 the Corporation had made 68 investments and underwriting commitments totalling \$94.2m. in 27 countries; sales and participations by private investors totalled \$19.1m. In addition, private investors took up \$5.3m. of IFC's standby and underwriting commitments.

Gross income from investments for the fiscal year ended 30 June 1963 was \$5,475,718, and after deduction of operating expenses, of \$2,161,912, net income for the year was \$3,313,806.

9. International Civil Aviation Organization (ICAO)

Origin. The Convention providing for the establishment of the International Civil Aviation Organization was drawn up by the International Civil Aviation Conference held in Chicago from 1 Nov. to 7 Dec. 1944. A Provisional International Civil Aviation Organization (PICAO) operated from 6 June 1945 until the formal establishment of ICAO on 4 April 1947.

The Convention on International Civil Aviation superseded the provisions of the Paris Convention of 1919, which established the International Commission for Air Navigation (ICAN), and the Pan American Convention on Air Navigation drawn up at Havana in 1928.

Functions. It assists international civil aviation by encouraging use of safety measures, uniform regulations for operation, simpler procedures at borders, etc.; and promotes use of new technical methods and equipment.

Organization. The principal organs of ICAO are an Assembly, consisting of all members of the Organization, and a Council, which is comprised of 21 states elected by the Assembly, for 3 years, and meets in virtually continuous session. In electing these states, the Assembly must give adequate representation to: (1) those member states of major importance in air transport; (2) those member states not otherwise included which make the largest contribution to the provision of facilities for international civil air navigation; (3) those member states not otherwise included whose election will ensure that all major geographical areas of the world are represented. The main subsidiary bodies are: the Air Navigation Commission, composed of 12 members elected by the Council; Air Transport Committee, composed of 12 states appointed by the Council from among its members; and the Legal Committee, on which all members of ICAO may be represented.

Headquarters: International Aviation Building, 1080 University St., Montreal, 3, Quebec, Canada.

Secretary-General: Ronald Macdonnell (Canada).

10. Universal Postal Union (UPU)

Origin. The UPU was established on 1 July 1875, when the Universal Postal Convention adopted by the Postal Congress of Berne on 9 Oct. 1874 came into force. The UPU was known at first as the General Postal Union, its name being changed at the Congress of Paris in 1878.

Functions. The aim of the UPU is to assure the organization and perfection of the various postal services and to promote, in this field, the development of international collaboration. To this end, the members of UPU are united in a single postal territory for the reciprocal exchange of correspondence.

Organization. The UPU is composed of a Universal Postal Congress, which usually meets every 5 years, a permanent Executive and Liaison Committee, which consists of 19 members elected on a geographical basis by each Congress, and an International Bureau, which functions as the permanent secretariat.

Since 1 July 1948 the Union has been governed by the revised Convention adopted by the twelfth Congress in Paris on 5 July 1947.

Headquarters: Case Berne 15, Berne, Switzerland.

Director: Edward Weber (Switzerland).

11. International Telecommunication Union (ITU)

Origin. The International Telegraph Union, founded in Paris in 1865, and the International Radiotelegraph Union, founded in Berlin in 1906, were merged by the Madrid Convention of 1932 to form the International Telecommunication Union. ITU came into being on 1 Jan. 1934. The ITU has been governed since 1 Jan. 1949 by the revised International Telecommunication Convention adopted on 2 Oct. 1947.

Functions. The ITU (1) allocates radio frequencies and registers radio-frequency assignments; (2) seeks to establish the lowest rates possible, consistent with efficient service and taking into account the necessity for keeping the independent financial administration of telecommunication on a sound basis; (3) promotes the adoption of measures for ensuring the safety of life through telecommunication; and (4) makes studies and recommendations and collects and publishes information for the benefit of its members.

Organization. The ITU consists of the Plenipotentiary Conference, administrative conferences, the Administrative Council of 25 members, the General Secretariat, the International Frequency Registration Board, and 3 international consultative committees (radio, telephone, telegraph).

Headquarters: Place des Nations, Geneva, Switzerland.

Secretary-General: Gerald Gross (USA).

12. World Meteorological Organization (WMO)

Origin. A Conference of Directors of the International Meteorological Organization (set up in 1878), meeting in Washington in 1947, adopted a Convention creating the World Meteorological Organization. The WMO Convention became effective on 23 March 1950, and WMO was formally established on 19 March 1951, when the first session of its Congress was convened in Paris. An agreement to bring WMO into relationship with the United Nations was approved by this Congress and came into force on 21 Dec. 1951 with its approval by the General Assembly of the United Nations.

Functions. (1) To promote international co-operation in the field of meteorology and the quick exchange of weather data; (2) to establish world-wide networks of meteorological stations and facilitate the publication and standardization of their observations; (3) to further the application of meteorology to human activities; and (4) to encourage research and training in the field of meteorology.

Organization. WMO consists of a World Meteorological Congress, an Executive Committee, regional meteorological associations and technical

commissions set up by the Congress, and a permanent secretariat. The organization is headed by a President and 2 Vice-Presidents.

Headquarters: 41 Avenue Giuseppe Motta, Geneva, Switzerland.

Secretary-General: David A. Davies (UK).

Publication: WMO Bulletin

13. Intergovernmental Maritime Consultative Organization (IMCO)

Origin. Following a UN Maritime Conference held in Geneva in Feb.-March 1948, 18 nations signed a Maritime Convention which took effect when ratified by 21 states, of which 7 at least had no less than 1m. gross tons of shipping. By March 1958, 21 countries had ratified the convention, including 8 with the required tonnage. IMCO was fully established in Jan. 1959.

Functions. To provide machinery for co-operation among governments in the field of governmental regulations and practices relating to technical matters including those concerning safety of life at sea; to encourage the removal of discriminatory action and of unnecessary restrictions by governments; to consider matters concerning unfair restrictive practices by shipping concerns; to consider any matter concerning shipping that might be referred to it by any organ or specialized agency of the United Nations; to provide for exchange of information among governments on matters under consideration by the organization.

Organization. IMCO has an Assembly of all member states which meets every 2 years, a Council (governing body of the Agency between Assembly sessions) composed of 16 members (Argentina, Australia, Belgium, Canada, France, Federal Republic of Germany, Greece, India, Italy, Japan, Netherlands, Norway, Sweden, USSR, UK and USA), and a Secretariat.

A Maritime Safety Council with 14 members and several subsidiary bodies have been established. In collaboration with the UK Government, IMCO held a 54-nation conference in May-June 1960 to bring up to date the Convention on the Safety of Life at Sea, which has since been signed by most of the participants.

Headquarters: Chancery House, Chancery Lane, London, WC2.

Secretary-General: Jean Roullier (France).

14. General Agreement on Tariffs and Trade (GATT)

Origin. In 1946 the Economic and Social Council of the United Nations established a Preparatory Committee to draw up a draft of an international trade charter. This charter—known as the Havana Charter—was completed in 1948, but was laid aside when it became evident that it would not be ratified by the USA. The member countries of the Preparatory Committee in 1947 concluded a General Agreement on Tariffs and Trade. The Agreement entered into force on 1 Jan. 1948, there being 23 contracting parties. The number of contracting parties had by Feb. 1964 reached 61 (plus 13 countries participating under various special arrangements).

Functions. The GATT may be described as a multilateral contract, which lays down a common code of conduct in international trade, provides machinery for reducing and stabilizing tariffs and the opportunity for

regular consultation on trade problems. The key provision of GATT is a guarantee of most-favoured-nation treatment. The reduction of tariff barriers is provided for through multilateral tariff negotiations. The resulting tariff schedules are 'bound', i.e., cannot normally be increased; they are appended to the Agreement and form an integral part of it. The use of quantitative restrictions on imports is forbidden in principle, but there are certain exceptions, notably balance-of-payments difficulties.

Flexibility has been the key-note in the application of GATT rules. Exceptions to the basic provisions are embodied in the Agreement itself. In addition, individual members may be temporarily allowed to digress from the common rules after waivers have been defined and safeguards instituted. Thus a system has been evolved of international consultation and the settlement of grievances, and a body of decisions and recommendations has come into existence. The regular sessions of the Contracting Parties and their subsidiary bodies have become the recognized forum for the discussion of many aspects of commercial policy.

Since the publication of the Haberler Report (1958) much of the work of GATT has focused on two problems: first, trade in agricultural and food products and the difficulties created for countries exporting these products by national agricultural policies; secondly, the need for developing countries to increase their export earnings and to reduce or eliminate barriers facing their exports. Ministers at their GATT meeting in May 1963 established a programme of action to reduce these barriers; they also called for significant liberalization of trade through comprehensive negotiations, to start in 1964, on all classes of products and dealing with both tariff and non-tariff barriers.

Executive Secretary: E. Wyndham White (UK).

WORLD COUNCIL OF CHURCHES

THE World Council of Churches was formally constituted on 23 Aug. 1948, at Amsterdam, by an assembly representing 147 churches from 44 countries. The second assembly was held at Evanston, Ill., in Aug. 1954, when delegates attended from 163 member churches. The third assembly was held at New Delhi, India, in Nov.-Dec. 1961, with delegates representing 197 churches in 84 countries.

The principal trends leading up to the World Council of Churches may be summarized as follows:

- (i) *Co-operation in overseas missionary work* of Protestant churches. The World Conference on Christian Missions, held at Edinburgh in 1910, was followed in 1921 by the establishment of the *International Missionary Council*. This Council held conferences at Jerusalem in 1928, at Tambaram (Madras) in 1938-39, at Willingen (Germany) in 1952 and in Ghana in 1957-58.
- (ii) *The Faith and Order movement*, which studies the differences of belief and practice separating Christian churches, was founded under the initiative of Charles Brent, Bishop of the Protestant Episcopal Church of the USA in the Philippines. This movement held world conferences at Lausanne in 1927, Edinburgh in 1937, Lund in 1952 and Montreal in 1968.

(iii) *The Life and Work movement*, which promoted common Christian study and action with regard to the social, political and economic problems of the time, was founded largely under the leadership of Nathan Söderblom, Archbishop of Uppsala. World conferences were held at Stockholm in 1925 and at Oxford in 1937.

A provisional committee to prepare the setting up of a World Council was appointed at Utrecht, on 13 May 1938, under the chairmanship of William Temple, then Archbishop of York.

Organization. The Third Assembly, which was held in New Delhi, India, in Nov.-Dec. 1961, appointed a new Central Committee, increasing the number from 90 to 100, an Honorary President and 6 Presidents. 23 new Churches (including the Orthodox Church of Russia) joined the World Council at New Delhi. The International Missionary Council became integrated with the World Council of Churches as the Commission and Division of World Mission and Evangelism.

The work of the Council, since 1962, is carried on under 4 Divisions, each with a Divisional Committee and an Associate General Secretary. The structure of the Council is as follows:

1. *Division of Studies* (Rev. V. E. W. Hayward, acting): Commission and Secretariat on Faith and Order (Dr Paul Minear); Department on Church and Society (Rev. Paul Abrecht); Secretariat on Racial and Ethnic Relations (vacant); Department on Missionary Studies (Rev. V. E. W. Hayward); Department on Studies in Evangelism (Dr. H. J. Margull); Secretariat on Religious Liberty (Dr Carillo d'Albornoz).

2. *Division of Ecumenical Action* (Rev. Fr T. Paul Verghese): Youth Department (Rev. R. French); Department of the Laity (Dr Ralph Young); Department on Co-operation of Men and Women in Church, Family and Society (Dr Madeleine Barot); Ecumenical Institute (Dr H. H. Wolf).

3. *Division of Inter-Church Aid, Refugee and World Service* (Dr L. E. Cooke).

4. *Division of World Mission and Evangelism* (Bishop J. E. L. Newbigin): Theological Education Fund Committee (Dr C. W. Ranson); Committee on the Church and the Jewish People (Dr A. Gjerding).

In addition, there are the *Commission of the Churches on International Affairs* (Dr O. Frederick Nolde, an Associate General Secretary), the *Secretariat for East Asia* (U Kyaw Than) and the *Departments of Information* (Mr Philippe Maury) and *Finance and Administration* (Mr Frank Northam) which are directly related to the General Secretariat.

The Assembly has no legislative power or authority over the member churches, so that all its acts are of an advisory nature, depending upon their acceptance by the member churches for implementation.

The British Council of Churches, which is an associated national council of the World Council, acts as agent for the WCC in the United Kingdom (10 Eaton Gate, London, SW1).

The officers of the World Council are as follows:

PRESIDIUM. *Hon. President:* Dr J. H. Oldham, CBE (Anglican, UK). *Presidents:* The Archbishop of Canterbury, Dr A. M. Ramsey (Anglican, UK), Archbishop Iakovos (Greek Orthodox Diocese of N. and S. America), Sir Francis Ibiam, Governor of Eastern Nigeria (Presbyterian, Nigeria), Dr David G. INTERNATIONAL TRADE UNIONISM

INTERNATIONAL trade-union co-operation is organized through the three major 'Internationals', the democratic International Confederation of Free Trade Unions (ICFTU), the Communist-directed World Federation of Trade Unions (WFTU), and the Christian inspired International Federation of Christian Trade Unions (IFCTU). In addition, federations of specific trades or industries protect their special interests by organizing on an international level and are associated to a varying degree with their corresponding 'Internationals'. The International Trade Secretariats (ITS) are completely autonomous but seek to co-ordinate their policies and activities with those of the ICFTU; the Christian Trade Internationals (TIs) are very closely integrated with the IFCTU; the Trade Union Internationals (TUIs) are completely subservient to WFTU.

History. The first general trade-union International, the International Federation of Trade Unions (IFTU), was set up in 1913, but no real achievement was possible until its post-war reconstitution in 1919. Some trade-union movements, seeking to implement the social precepts of the Christian faith, established the International Federation of Christian Trade Unions (IFCTU) in 1920.

During the Second World War moves to establish universal trade unionism resulted in the formation of the World Federation of Trade Unions (WFTU) in 1945. The Christian trade unions refused to join the new association and reconstituted the IFCTU. Attempts by the Communists to impose their own ideology within the WFTU led to the eventual secession of the democratic elements, which reconstituted themselves in the ICFTU in 1949.

International Confederation of Free Trade Unions

The first congress of ICFTU was held in London in Dec. 1949. The constitution as amended provides for co-operation with the United Nations and the International Labour Organization and for regional organizations to promote free trade unionism, especially in under-developed countries.

Organization. The Congress meets every 3 years. It elects the Executive Board of 27 members nominated on an area basis for a 3-year period; the Board meets at least twice a year. Various committees cover policy *vis-à-vis* the European Economic Community, problems connected with Atomic Energy and also the administration of the International Solidarity Fund. There are joint ICFTU-ITS Committees for co-ordinating activities and also for women workers' problems. Headquarters: 37-47, rue Montagne aux Herbes Potagères, Brussels 1, Belgium.

General Secretary: O. Beçu (Belgium).

Regional organizations exist in Europe, office in Brussels; America, office in Mexico City; Asia, office in New Delhi; Africa, office in Lagos.

Membership. The total membership in Oct 1962 was 56.4m. in 109 countries. The biggest groups are the American Federation of Labor and Congress of Industrial Organizations (18.1m.), the British Trades Union Congress (8.3m.), the West-German Deutscher Gewerkschaftsbund (6.43m.), the Confederazione Italiana Sindacati Lavoratori (2.4m.), the Österreichischer Gewerkschaftsbund (1.5m.), the Swedish Landsorganisationen (1.5m.), the Indian National Trade Union Congress (1.6m.), the Canadian Labour Congress (1.1m.), the French Confédération Générale du Travail Force Ouvrière (600,000) and the Confederation de Trabajadores de Mexico (1.8m.).

Publications (in 4 languages): *Free Labour World* (monthly); *ICFTU Bulletin* (bimonthly); *Press and Radio Service* (weekly); *International Trade Union News* (fortnightly).

The World Federation of Trade Unions

The WFTU formally came into existence on 3 Oct. 1945, representing trade-union organizations in more than 50 countries of the world, both Communist and non-Communist, excluding Germany and Japan, as well as a number of lesser and colonial territories. Representation from the USA was limited to the Congress of Industrial Organizations, as the American Federation of Labor declined to participate.

In Jan. 1949 the British, USA and Netherlands trade unions withdrew from WFTU, which had come under complete Communist control; and by June 1951 all non-Communist trade-unions, including the Yugoslavian Federation, had left WFTU.

Organization. The Congress meets every 4 years. In between, the General Council, of 154 members (including deputies), is the governing body, meeting (in theory) at least once a year. The Executive Committee controls the activities of WFTU between meetings of the General Council; it consists of representatives of various countries, the 11 trade union internationals and the 14 members of the Executive Council, namely, the President, the 12 Vice-presidents and the General Secretary. The Executive Committee is elected by the Congress, the Executive Council by the Committee. Its headquarters is in Prague (Janska 100).

General Secretary: Louis Saillant (France).

Membership. In Feb. 1962 a total membership of 119.5m. was claimed. The biggest groups are the Soviet All-Union Central Council of Trade Unions (53m.), the All-China Federation of Trade Unions (12.5m.), the East-German Free German Trade Union Federation (6.3m.), the Polish Central Council of Trade Unions (6.1m.), the Czechoslovak Central Council of Trade Unions (3.5m.), the Indonesian General Central Trade Union Organization (SOBSI, 2.7m.), the Italian General Confederation of Labour (CGIL, 3.67m.), the Rumanian General Confederation of Labour (2.7m.), the Hungarian Central Council of Trade Unions (1.9m.) and the French Confederation of Labour (CGT, 1.5m.).

Publications: *World Trade Union Movement* (monthly, in 11 languages); *Trade Union Press* (fortnightly, in 6 languages).

International Federation of Christian Trade Unions

The first congress of IFCTU met in 1920; but a large proportion of its 3.4m. members were in Italy and Germany, where affiliated unions were

suppressed by the Fascist and Nazi regimes, and in 1940 IFCTU went out of existence. It was reconstituted in 1945, and declined to merge with WFTU and, later, with ICFTU. The policy of IFCTU is based on the papal encyclicals *Rerum novarum* (1891) and *Quadragesimo anno* (1931), but the Federation claims also some Protestant, Buddhist and Moslem members.

Organization. The Christian International is organized on a federative basis, leaving wide discretion to the autonomy of its constituent unions. Its governing body is the Congress, which meets every 3 years. The General Council, meeting at least once a year, is composed according to the proportion of membership of the Congress. The Executive Committee, elected by Congress, consists of at least 12 members; it appoints the Secretary-General for an indefinite period. Headquarters: 26, rue Juste Lipse, Brussels 4, Belgium.

Secretary-General: August Vanistendael (Belgium).

Regional organizations exist in Europe (office in Geneva), Latin America (office in Santiago (Chile)), Africa (offices in Brazzaville), Asia (office in Saigon) and USA (office in Valley Cottage, N.Y.).

Membership. At the end of 1959 a total membership of 5m. was claimed, representing 62 nationalities (excluding 100,000 extraordinary members in 4 countries). The biggest groups are the French Confederation of Christian Workers (1.4m.), the Federation of Christian Trade Unions of Vietnam (350,000), the Confederation of Christian Trade Unions of Belgium (700,000), the National Confederation of Workers' Associations of Brazil (420,000) and the Netherlands Catholic Workers' Movement (420,000). Twenty-three affiliated confederations have 40,000 or fewer members each, and 12 of these have 10,000 or fewer each.

AGENCY FOR INTERNATIONAL DEVELOPMENT (AID)

THE Agency for International Development is, within the US Department of State, responsible for the administration of the economic assistance programmes of the US Government. The AID, established in Nov. 1961, is the successor to the International Co-operation Administration (ICA), the Development Loan Fund (DLF), the Foreign Operation Administration (FOA), the Mutual Security Agency (MSA), the Technical Co-operation Administration (TCA) and the Economic Co-operation Administration (ECA). TCA was originally established to administer the Point IV programme, while ECA administered the European Recovery Programme, the so-called Marshall Plan, named after the then Secretary of State, the late George Marshall.

The Foreign Assistance Act of 1961 affirms the policy of the US Congress to 'make assistance available, upon request, . . . in scope and on a basis of long-range continuity essential to the creation of an environment in which the energies of the peoples of the world can be devoted to constructive purposes . . .'. The programme emphasizes long-term development, self-help efforts on the part of less developed countries, the value of private investment and the assistance to less-developed areas by industrialized countries.

Funds for these non-military programmes are authorized by Part I of the Foreign Assistance Act of 1961. Loans under the Development Loan Fund

are made to assist long-range plans and programmes as well as to individual projects of high priority in the development plans of less-developed countries. They are payable in dollars and carry low interest rates and long periods of amortization. Funds appropriated for Development Grants and Technical Co-operation finance the sending of US technicians to less-developed countries, bringing people from those countries to the US for training and for other economic development activities, particularly those for the development of human resources in circumstances where even short-term loans are not appropriate. Supporting Assistance is furnished to friendly countries and organizations to support or promote economic or political stability. Funds are authorized and appropriated annually by the Congress. The most important appropriations for the fiscal year beginning June 1963 are as follows (in \$1m.):

Development loans	687.3	International organizations	116.0
Development grants	155.0	Supporting assistance	330.0
Alliance for Progress (grants and loans for Latin America)	455.0	Contingency fund	50.0

ORGANIZATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT (OECD)

On 30 Sept. 1961 the Organization for European Economic Co-operation (OEEC), after a history of 14 years (see THE STATESMAN'S YEAR-BOOK, 1961, p. 32), was replaced by the Organization for Economic Co-operation and Development. The change of title marks the Organization's altered status and functions: with the accession of Canada and USA as full members it ceased to be a purely European body; while at the same time it added development aid to the list of its other activities. The member countries are now Austria, Belgium, Canada, Denmark, France, Germany, Greece, Iceland, Irish Republic, Italy, Japan, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, UK and USA. Finland and Yugoslavia participate in certain of the Organization's activities and have been given special status for these associations.

Chairman of the Council (ministerial): J. Luns (Netherlands).

Chairman of the Council (official level): The Secretary-General.

Chairman of the Executive Committee: Belgium.

Secretary-General: Thorkil Kristensen (Denmark).

Headquarters: Château de la Muette, 2, rue André Pascal, Paris (16e).

The aims of the reconstituted Organization, as defined in the convention signed on 14 Dec. 1960, are as follows: (a) to achieve the highest sustainable economic growth and employment and a rising standard of living in member countries, while maintaining financial stability, and thus to contribute to the development of the world economy; (b) to contribute to sound economic expansion in member as well as non-member countries in the process of economic development; and (c) to contribute to the expansion of world trade on a multilateral, non-discriminatory basis in accordance with international obligations. Responsibility for the achievement of these aims has been vested in the Economic Policy Committee, the Development Aid Committee and the Trade Committee. The second of these is made up of representatives of all the 12 principal capital-exporting member countries, together with Japan and the European Economic Community. Other committees deal with economic and development review; technical co-operation; payments; invisible transactions; insurance; fiscal matters; agriculture; fisheries; scientific and technical personnel; scientific research; manpower and social affairs. There are also a number of technical committees dealing with energy, industry, tourism, maritime transport, etc.; special committees were set up in 1962 to deal with individual sectors of industry and energy.

Two of the purely European aspects of OEEC have been retained: the European Nuclear Energy Agency and the European Monetary Agreement, with its Board of Management.

At a Ministerial Council meeting held in Nov. 1963 it was stated that the increase of the gross national product of the OECD area as a whole for the years 1960-64 would probably correspond to the growth target of 50% set in Dec. 1961 for the decade of the 1960s. The Ministers also stressed the importance of internal stability for balanced growth; the desirability of narrowing the gap between industrialized member countries and less developed members; the need to continue to work for an increase in development

aid; and ways and means of increasing the export earnings of less-developed countries.

An OECD Development Centre and the OECD Central Service for Co-operation in Research began work in 1963.

NORTH ATLANTIC TREATY ORGANIZATION (NATO)

ON 29 April 1948 the Canadian Secretary of State for External Affairs broached the idea of a 'security league' of the free nations, in extension of the Brussels Treaty of 17 March 1948. The United States Senate, on 11 June, recommended 'the association of the United States with such regional and other collective arrangements as are based on continuous self-help and mutual aid, and as affect its national security'. Detailed proposals were subsequently worked out between the Brussels Treaty powers, the USA and Canada.

On 4 April 1949 the foreign ministers of Belgium, Canada, Denmark, France, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, the UK and the USA met in Washington and signed a treaty, the main clauses of which read as follows:

ARTICLE 1. The parties undertake, as set forth in the Charter of the United Nations, to settle all international disputes in which they may be involved by peaceful means in such a manner that international peace and security and justice are not endangered, and to refrain in their international relations from the threat or use of force in any manner inconsistent with the purposes of the United Nations.

ARTICLE 2. The parties will contribute toward the further development of peaceful and friendly international relations by strengthening their free institutions, by bringing about a better understanding of the principles upon which these institutions are founded, and by

They will seek to eliminate conflict in their economic collaboration between any or all of them.

ARTICLE 3. In order more effectively to achieve the objectives of this treaty, the parties, separately and jointly, by means of continuous and effective self-help and mutual aid, will maintain and develop their individual and collective capacity to resist armed attack.

ARTICLE 4. The parties will consult together whenever, in the opinion of any of them, the territorial integrity, political independence, or security of any of the parties is threatened.

ARTICLE 5. The parties agree that an armed attack against one or more of them in Europe or North America

that, if such an attack occurs, they will immediately and jointly take such action as they deem necessary, including the use of armed force, to restore and maintain the security of the North Atlantic area. Any such armed attack and all measures taken as a result thereof shall immediately be reported to the Security Council. Such measures shall be terminated when the Security Council has taken the measures necessary to restore and maintain international peace and security.

ARTICLE 6. For the purpose of Article 5 an armed attack on one or more of the parties is deemed to include an armed attack (i) on the territory of any of the parties in Europe or North

America, on the Algerian Departments of France,* on the territory of Turkey or on the islands under the jurisdiction of any of the parties in the North Atlantic area north of the Tropic of Cancer; (ii) on the forces, vessels or aircraft of any of the parties, when in or over these territories or any other area in Europe in which occupation forces of any of the parties were stationed on the date when the treaty entered into force or the Mediterranean Sea or the North Atlantic area north of the Tropic of Cancer.†

ARTICLE 8. Each party declares that none of the international engagements now in force between it and any other of the parties or any third state is in conflict with the provisions of this treaty, and undertakes not to enter into any international engagement in conflict with this treaty.

ARTICLE 10. The parties may, by unanimous agreement, invite any other European state in a position to further the principles of this treaty and to contribute to the security of the North Atlantic area to accede to this treaty. Any state so invited may become a party to the treaty by depositing its instrument of accession with the government of the United States of America. The government of the United States of America will inform each of the parties of the deposit of each such instrument of accession.

ARTICLE 12. After the treaty has been in force for 10 years, or at any time thereafter, the parties shall, if any of them so requests, consult together for the purpose of reviewing the treaty, having regard for the factors then affecting peace and security in the North Atlantic area, including the development of universal as well as regional arrangements under the Charter of the United Nations for the maintenance of international peace and security.

ARTICLE 13. After the treaty has been in force for 20 years, any party may cease to be a party one year after its notice of denunciation has been given to the government of the United States of America, which will inform the governments of the other parties of the deposit of each notice of denunciation.

The treaty came into force on 24 Aug. 1949. Greece and Turkey were admitted as parties to the treaty in 1951 (effective Feb. 1952), the German Federal Republic in Oct. 1954 (effective 9 May 1955).

As reorganized by the Council at its session in Lisbon in Feb. 1952, the structure of NATO is as follows:

The *Council*, the principal body of the organization, 'charged with the responsibility of considering all matters concerning the implementation of the provisions of the Treaty', incorporates the Council and the Defence Committee originally envisaged. The Council is a Council of Governments, on which NATO nations are normally represented by their Minister for Foreign Affairs and/or the Minister of Defence, or by other competent Ministers, especially those responsible for financial and economic affairs. The Council normally meets at ministerial level two or three times a year.

Each member government appoints a *Permanent Representative* to represent it on the Council when its ministerial representatives are not present. Each Permanent Representative represents his government as a whole. He also heads a national delegation comprising the advisers and experts necessary to assist him in all phases of the Council's work.

The Council is empowered to set up on a permanent or temporary basis committees to assist it in arriving at necessary government agreements.

Headquarters: Place du Maréchal de Lattre de Tassigny, Paris XVI.

Secretary-General: Dr Dirk Stikker (Netherlands), appointed April 1961. The Secretary-General takes the chair at all Council meetings, except at the opening and closing of Ministerial sessions when he gives way to the Council President. The office of President is held annually by the Foreign Minister of one of the Treaty countries.

* The relevant clauses of the treaty have become inapplicable to the Republic of Algeria as from 3 July 1962.

† This Article was modified as a result of the accession of Greece and Turkey to the treaty.

The *Military Committee* is composed of the Chiefs of Staff or their representatives. (Iceland, having no military establishment, may be represented by a civilian.) It meets at Chiefs of Staff level two or three times a year as required, but remains in permanent session in Washington at the level of military representatives. It provides general policy guidance of a military nature to the Council. The *Standing Group*, the executive agent of the Military Committee, which functions continuously in Washington, is composed of one representative of the UK, France and USA.

In Dec. 1950 the Council approved the establishment of an integrated force for the defence of Western Europe under a Supreme Headquarters Allied Powers, Europe (SHAPE). General Eisenhower was the first Supreme Allied Commander Europe (SACEUR); he was succeeded by Generals Ridgway (1 June 1952), Alfred M. Gruenther (11 July 1953), Lauris Norstad (20 Nov. 1956–Nov. 1962) and Lyman L. Lemnitzer (1962–); Deputies: Field-Marshal Lord Montgomery, 1950–58; Gen. Sir Richard Gale, 1958–60; Gen. Sir Hugh Stockwell, GCB, KBE, DSO, 1960–63; Marshal of the Royal Air Force Sir Thomas Pike, GCB, CBE, DFC, 1964–.

The *European Command* covers the land area from the North Cape to the Mediterranean and from the Atlantic to the eastern border of Turkey, but excludes the UK, Portugal and Algeria.

The *Atlantic Command* extends from the North Pole to the Tropic of Cancer and from the coastal waters of North America to those of Europe and Africa, but excludes the Channel and the British Isles. The Supreme Allied Commander Atlantic (SACLANT) is Admiral H. P. Smith (USN). SACLANT is an operational rather than an administrative commander, and, unlike SACEUR, has no forces permanently attached to his command.

The *Channel Command* covers the English Channel and the southern North Sea. The Allied C.-in-C. Channel is Admiral of the Fleet Sir J. W. Woods, KCB, DSO (RN).

WESTERN EUROPEAN UNION

On 17 March 1948 a 50-year treaty for collaboration in economic, social and cultural matters and for collective self-defence was signed in Brussels by the Foreign Ministers of the UK, France, the Netherlands, Belgium and Luxembourg. (See *THE STATESMAN'S YEAR-BOOK*, 1954, pp. 32 f.)

On 20 Dec. 1950 the Western Union defence organization was merged with the North Atlantic Treaty command.

After the rejection by France of the European Defence Community, on 30 Aug. 1954 a conference was held in London from 28 Sept. to 3 Oct. 1954, attended by Belgium, Canada, France, Federal Germany, Italy, the Netherlands, Luxembourg, the UK and the USA, at which it was decided to invite the Federal Republic of Germany and Italy to accede to the Brussels Treaty, to end the occupation of Western Germany and to invite the latter to accede to the North Atlantic Treaty; the Federal Republic agreed that it would voluntarily limit its arms production, and provision was made

for the setting up of an agency to control the armaments of the 7 Brussels Treaty powers; the UK undertook not to withdraw from the Continent her 4 divisions and the Tactical Air Force assigned to the Supreme Allied Commander against the wishes of a majority, i.e., 4, of the Brussels Treaty powers, except in the event of an acute overseas emergency. At a Conference of Ministers held in Paris from 20 to 23 Oct. 1954 these decisions were put into effect. The Union was formally inaugurated on 6 May 1955.

The Council of WEU consists of the Foreign Ministers of the 7 powers or their representatives. An Assembly, composed of the WEU delegates to the Consultative Assembly of the Council of Europe, meets twice a year, usually in Paris. An Agency for the Control of Armaments and a Standing Armaments Committee have been set up in Paris. The social and cultural activities were transferred to the Council of Europe on 1 June 1960.

After the breakdown of the negotiations for Britain's entry into the Common Market (see p. 41) the WEU Council began, from Oct. 1963, regular meetings to take stock of the political and economic situation in Europe.

Secretary-General: Iweins d'Eeckhoutte.

COUNCIL OF EUROPE

In 1948 the 'Congress of Europe', bringing together at The Hague nearly 1,000 influential Europeans from 26 countries, called for the creation of a united Europe, including a European Assembly. This proposal, examined first by the Ministerial Council of the Brussels Treaty Organization, then by a conference of ambassadors, was at the origin of the Council of Europe. The Statute of the Council was signed at London on 5 May 1949 and came into force 2 months later. The founder members were Belgium, Denmark, France, the Irish Republic, Italy, Luxembourg, the Netherlands, Norway, Sweden and the United Kingdom. Turkey and Greece joined in 1949, Iceland in 1950, the Federal Republic of Germany in 1951 (having been an associate since 1950), Austria in 1956, Cyprus in 1961, Switzerland in 1963.

Membership is limited to European States which accept the principles of the rule of law and of the enjoyment by all persons within (their) jurisdiction of human rights and fundamental freedoms. The Committee of Ministers consult the Assembly before inviting any State to become a member. The Statute provides for the possibility of both withdrawal (Art. 7) and suspension (Arts. 8 and 9).

Structure. The Statute provides for only two organs—an inter-governmental body with powers of decision and of recommendation to governments, and an inter-parliamentary deliberative body, the Consultative Assembly—both of which are served by the Secretariat. In practice, however, a large number of special committees have been established, many of them permanent and one of them, the Council for Cultural Co-operation (established in 1961), having a measure of autonomy and its own budget; on municipal matters the Committee of Ministers receives recommendations from the European Local Authorities Conference.

The Consultative Assembly now (1964) consists of 144 persons elected or appointed by their national parliaments (Austria 6, Belgium 7, Cyprus 3,

Denmark 5, France 18, Germany 18, Greece 7, Iceland 3, Irish Republic 4, Italy 18, Luxembourg 3, Netherlands 7, Norway 5, Sweden 6, Switzerland 6, Turkey 10, UK 18); it meets three times a year. The Assembly has set up, in addition to the general Standing Committee, 12 specialized committees. Finally, both organs have 8 representatives each in the *Joint Committee*. This instrument of co-ordination and liaison meets some 4 times a year, Governments being represented either by Ministers or by their Permanent Representatives in Strasbourg.

Under the European Convention of 1950 a special structure has been established for the protection of human rights. A *European Commission* investigates alleged violations of the Convention submitted to it either by States or, in some cases, by individuals. Its findings can then be examined by the *European Court of Human Rights* (set up in 1959), whose obligatory jurisdiction has been recognized by 8 States, or by the Committee of Ministers, empowered to take binding decisions by two-thirds majority vote.

For questions of national refugees and over-population, a Special Representative has been appointed, responsible to the governments collectively.

Aims and Achievements. Art. 1 of the Statute states that the Council's aim is 'to achieve a greater unity between its members for the purpose of safeguarding and realising the ideals and principles which are their common heritage and facilitating their economic and social progress'; 'this aim shall be pursued . . . by discussion of questions of common concern and by agreements and common action'. The only limitation is provided by Art. 1 (d), which excludes 'matters relating to national defence'.

It has been the task of the Assembly to propose action to bring the European countries closer together, to keep under constant review the progress made and to voice the views of European public opinion on the main political and economic questions of the day. The Ministers' role is to translate the Assembly's recommendations into action, particularly as regards lowering the barriers between the European countries, harmonizing their legislation or introducing where possible common European laws, abolishing discrimination on grounds of nationality and undertaking certain tasks on a joint European basis.

Some 40 conventions have been concluded, covering such matters as establishment (both of persons and of bodies corporate), social security, patents, extradition, medical treatment, equivalence of degrees and diplomas, innkeepers' liability, compulsory motor insurance and the protection of television broadcasts. A *Social Charter* sets out the social and economic rights which all member governments agree to guarantee to their citizens.

The official languages are English and French.

EUROPEAN COMMUNITIES

Six countries of western Europe—Belgium, France, Federal Germany, Italy, Luxembourg and the Netherlands—have established three communities with the object of the progressive economic integration of their countries and as a means towards their greater political unity. Each Community has a separate structure but the three share two major institutions:

The European Parliament. Composed of 142 parliamentarians from the six countries. This has to be consulted each year on the budgets of the three Communities and on a wide range of other matters. It meets 7-8 times a year at the Maison de l'Europe, Strasbourg.

President: Jean Duvieusart (Belgium).

EUROPEAN COAL AND STEEL COMMUNITY

The ECSC came into being on 10 Aug. 1952 following the ratification of a treaty signed in Paris on 18 April 1951. The original suggestion for it was made in the Schuman Plan on 9 May 1950; this proposed the pooling of Franco-German coal and steel production in a Community open to other western European countries as a first step towards a United States of Europe. (See MAP in THE STATESMAN'S YEAR-BOOK, 1958.)

The principal institution of the Community is the *High Authority*, a 9-member independent executive which has its own source of finance (a levy on coal and steel producers) and certain supranational powers. It is advised by a *Consultative Committee* consisting of 51 representatives of producers, trade unionists, merchants and consumers. Certain major decisions can only be taken after consultation with, or after the approval of, a *Council of Ministers* composed of one representative of each of the 6 governments.

A common market for coal, iron ore and scrap was established on 10 Feb. 1953, for steel on 1 May 1953 and for special steels on 1 Aug. 1954.

During the first 10 years of the common market steel production went up from 41.9m. in 1952 to 72.7m. metric tons in 1962. Iron ore production rose in the same period by 41%, and supplies of scrap by almost 50%. Coal output, which rose from 238.9m. metric tons in 1952 to 249m. in 1956, decreased steadily thereafter to 226m. metric tons in 1962. This decline was due to changed conditions in the energy market: in 1962 coal supplied only 47.5% of total energy requirements in the Community compared with 72.5% in 1950. To meet the new conditions, which resulted in the closing of 100 pits after the coal crisis of 1958, the High Authority granted readaptation aid to more than 100,000 miners; contributed funds to schemes of

industrial redevelopment; and made special provisions for Belgium, whose high-cost mines were particularly affected.

The total value of intra-Community trade was estimated at \$900m. in 1952 and at about \$3,000m. in 1963.

In 1963, for the first time since the opening of the common market, serious difficulties arose on the steel market. An excess of world capacity led to a sharp rise of imports into the Community (4.7m. tons in 1963 compared with 2.3m. in 1961) and a fall in prices. Therefore quotas for steel imported from East-bloc countries were fixed in the summer, and a temporary uniform tariff of 9% was proposed in Dec. In the coal sector, despite increasing imports and reduced stocks, further pits were closed, and the High Authority allocated £1.25m. for the retraining of 19,500 miners affected.

After the breakdown of the negotiations for British membership in Jan. 1963 contacts were resumed through the Council of Association.

EUROPEAN ATOMIC ENERGY COMMUNITY (EURATOM)

Euratom came into being on 1 Jan. 1958 following the ratification of a treaty signed in Rome on 25 March 1957. Its task is to promote a common effort between its 6 members in the development of nuclear energy for peaceful purposes.

The execution of the treaty rests with the 5-member independent *Commission*, which is advised by a *Scientific and Technical Committee* (20 members) and an *Economic and Social Committee* (101 members). Major decisions are taken by the *Council of Ministers*, which consists of 6 members.

Euratom introduced a common market for nuclear products on 1 Jan. 1959; the common external tariff on imported reactors and parts was temporarily suspended.

Of the \$425m. allocated for the second (1963–67) 5-year research programme, \$94.4m. were used during 1963 to increase activity at Euratom's research centres at Ispra (It.), Geel (Bel.), Petten (Neth.) and Karlsruhe (Ger.), to extend the research contracts with national and private nuclear research bodies, and to participate in a number of international projects including the OECD Dragon project for an advanced gas-cooled reactor at Winfrith Heath (Dorset) and the ENEA boiling water reactor at Halden (Norway). For the fast-breeder reactors the Community opened negotiations for plutonium supplies from the USA and UK nuclear authorities. Financial help for 3 more power reactor projects brought the Community's total contribution in this field to \$32m. It is expected that the nuclear power industry will about 1970 become competitive with other sources of energy in the member countries.

Although negotiations for the membership of the UK were broken off in Jan. 1963, co-operation continued within the framework of the agreement signed in Feb. 1959.

EUROPEAN ECONOMIC COMMUNITY

The EEC, which came into being on 1 Jan. 1958 following the ratification of a treaty signed in Rome on 25 March 1957, has the task of integrating the economies of the 6 member countries during the transition period of 12-15 years. The execution of the treaty rests with a 9-member *Commission*, which is advised by an *Economic and Social Committee* (101 members). Consultative bodies on transport and monetary policy are also provided. Major decisions are taken by the *Council of Ministers*.

The French decision in Jan. 1963 to break off negotiations for the membership of the UK was followed by the suspension of negotiations on the membership of Norway, Denmark and the Irish Republic and on the requests for association presented by Austria, Sweden, Switzerland, Spain and Portugal. The ensuing loss of mutual confidence was only partially restored in July when the Council agreed on a 'synchronized' programme, especially on agricultural policy. At the end of Dec., however, agreement was reached on new marketing arrangements for beef and veal, rice and dairy products; and on the details of the operation of the Agricultural Fund.

The new Association Convention with 18 independent African countries, negotiated in 1962, was signed in July 1963, and on 12 Sept. an association agreement with Turkey was also concluded. In Oct. the Community's first trade agreement was signed with Iran; and in Dec. tariff concessions to India were agreed. Negotiations continued with Israel; and talks were reopened on the association of Austria. The Western European Union was used as a forum for renewed contacts with the UK, the first consultation following the breakdown being held in The Hague in October.

A further cut of 10% in internal industrial tariffs was made on 1 July, bringing the total reduction to 60%, and the Commission presented proposals for the closer co-ordination of monetary and medium-term economic policy. Economic growth continued, though not without considerable anxiety over inflationary tendencies in France and Italy. Internal trade in the first 6 months rose by 13.6% in comparison with the corresponding period in 1962; imports from the rest of the world went up by 8% and exports to it by 2.3%.

EUROPEAN FREE TRADE ASSOCIATION

THE EFTA, consisting of Austria, Denmark, Norway, Portugal, Sweden, Switzerland and the United Kingdom (the 'Seven'), was negotiated during 1959 following the breakdown at the end of 1958 of attempts to create a European Free Trade Area linking the European Economic Community with the other members of the OEEC. The EFTA Convention, initialled at Stockholm on 20 Nov. 1959, was ratified by all members on 3 May 1960 when it entered into force. Finland was associated with EFTA on 27 March 1961.

The Convention provides for the gradual elimination of quantitative restrictions, customs duties and charges with equivalent effect, on industrial products traded between its members.

Originally it was planned that inter-EFTA tariffs should be reduced progressively and eventually eliminated by 1 April 1970. In May 1963, as the process of reducing tariffs had been speeded up, a new time-table was agreed. By 31 Dec. 1963 tariffs had been reduced by 60% and elimination will be achieved by 31 Dec. 1966, by which date quantitative import restrictions will also be eliminated. Finland will follow more slowly; her tariffs, which have been reduced by 50%, will be eliminated by 31 Dec. 1967.

Agricultural products are not included in the general provisions for freer trade, but, in order to increase trade in these products, bilateral agreements, including one between the UK and Denmark, have been negotiated.

The operation of the Convention is the responsibility of a Council assisted by a small secretariat. Each EFTA country holds the chairmanship of the Council for 6 months.

Secretary-General: F. E. Figgures, CMG (Great Britain).

Headquarters: 32, Chemin des Colombettes, Geneva, Switzerland.

COLOMBO PLAN

AFTER several meetings during 1950 in Colombo, Sydney and London the Commonwealth Consultative Committee on South and South-East Asia published on 28 Nov. 1950 the 'Colombo Plan for Co-operative Economic Development in South and South-East Asia'. The plan came into force on 1 July 1951 and was successively extended beyond the original date of 30 June 1957 to 1961 and 1966. Each country is free to revise its programme as it wishes, and has in fact frequently done so.

In 1964 the list of member countries was as follows: Afghánistán (admitted in 1963), Australia, Bhután, Burma, Cambodia, Canada, Ceylon, India, Indonesia, Japan, Korea, Laos, Malaysia, Maldivé Islands (admitted in 1963), Nepál, New Zealand, Pakistan, Philippines, Thailand, UK, USA and Vietnam.

The annual meetings of the Consultative Committee are also regularly attended by observers from the International Bank for Reconstruction and Development, the Economic Commission for Asia and the Far East (UNECAFE) and the United Nations Technical Assistance Board and Special Fund.

⁵ A substantial part of the increase was due to sharply rising costs. In Indonesia the Cost of Living Index increased from 271 (1958 = 100) in the last quarter of 1961 to 711 in the last quarter of 1962 and by March 1963 it was 1,040.

Aid has been provided to member countries within the region by those outside in the following amounts (to 30 June 1963): Australia, £A48.4m.; Canada, \$C423.2m.; Japan, 3,443m. yen; New Zealand, £NZ13m.; USA, US\$12,000m. Loans made by the IBRD to member countries in the area amount to US\$1,622m.

Technical Co-operation. The scheme for technical co-operation is co-ordinated by a council representing the participating governments; it has a bureau at Colombo. Australia, Canada, Ceylon, India, Japan, Malaysia, New Zealand, Pakistan and the UK provided technical assistance valued at more than £31m. up to 30 June 1963. The USA expenditure on technical assistance to the region now exceeds £113m.

In 1962-63 training was arranged for 4,433 persons (28,495 from the beginning of the scheme). Training facilities have been provided by the UK for 5,205 trainees; by Canada for 2,211, and by New Zealand for 1,339. In the Plan area itself India has accepted 2,156 trainees, Pakistan 137, Ceylon 76, Malaysia 250 and Japan 1,149.

Up to 30 June 1963, 5,033 experts (including 552 British) from abroad have gone to the Plan area, working in the fields of medicine, health, engineering, agriculture, fisheries, transport and communications, administration, social services, education, industry and trade. Equipment valued at £53.7m. (of which £48m. provided by USA) has been supplied to institutions and experts for instruction and applied research.

UK Contribution. Up to 30 June 1963 assistance made since 1951 totalled £405.3m., of which £248.3m. has been disbursed in grants, loans, credits and technical assistance. In 1962-63 further loans of £21.5m. to India and £12m. to Pakistan were made under the Export Credit Guarantees Act; these included waivers of interest in addition to the deferment of repayment of principal. During 1962-63 the UK paid £5,465m. into the Indus Basin

Development Fund. Approximately £28m. was invested in the Colombo Plan region by UK private investors.

SOUTH-EAST ASIA COLLECTIVE DEFENCE TREATY

ON 8 Sept. 1954 Australia, France, New Zealand, Pakistan, the Philippines, Thailand, the UK and the USA signed at Manila a pact, which established a collective defence system in South-East Asia.

The following articles define the scope of the pact:

ARTICLE 1. The parties undertake, as set forth in the Charter of the United Nations, to settle any international disputes in which they may be involved by peaceful means in such a manner that international peace and security and justice are not endangered, and to refrain in their international relations from the threat or use of force in any manner inconsistent with the purposes of the United Nations.

ARTICLE 2. In order more effectively to achieve the objectives of this treaty, the parties, separately and jointly, by means of continuous and effective self-help and mutual aid will maintain and develop their individual and collective capacity to resist armed attack and to prevent and counter subversive activities directed from without against their territorial integrity and political stability.

ARTICLE 3. The parties undertake to strengthen their free institutions and to co-operate with one another in the further development of economic measures, including technical assistance, designed both to promote economic progress and social well-being and to further the individual and collective efforts of governments toward these ends.

ARTICLE 4. (1) Each party recognizes that aggression by means of armed attack in the treaty area against any of the parties or against any State or territory which the parties by unanimous agreement may hereafter designate would endanger its own peace and safety, and agrees that it will in that event act to meet the common danger in accordance with its constitutional processes. Measures taken under this paragraph shall be immediately reported to the Security Council of the United Nations.

(2) If in the opinion of any of the parties the inviolability or the integrity of the territory or the sovereignty or political independence of any party in the treaty area or of any other State or territory to which the provisions of paragraph (1) of this article from time to time apply is threatened in any way other than by armed attack or is affected or threatened by any fact or situation which might endanger the peace of the area, the parties shall consult immediately in order to agree on the measures which should be taken for the common defence.

(3) It is understood that no action on the territory of any State designated by unanimous agreement under paragraph (1) of this article or on any territory so designated shall be taken except at the invitation or with the consent of the government concerned.

ARTICLE 5. The parties hereby establish a council on which each of them shall be represented to consider matters concerning the implementation of this treaty. The council shall provide for consultation with regard to military and any other planning as the situation obtaining in the treaty area may from time to time require.

ARTICLE 6. This treaty does not affect and shall not be interpreted as affecting in any way the rights and obligations of any of the parties under the Charter of the United Nations or the responsibility of the United Nations for the maintenance of international peace and security. Each party declares that none of the international engagements now in force between it and any other of the parties or any third party is in conflict with the provisions of this treaty and undertakes not to enter into any international engagement in conflict with this treaty.

ARTICLE 7. Any other State in a position to further the objectives of this treaty and to contribute to the security of the area may by unanimous agreement of the parties be invited to accede to this treaty.

ARTICLE 8. As used in this treaty, the treaty area is the general area of South-East Asia including also the entire territories of the Asian parties and the general area of the South-West Pacific not including the Pacific area north of 21° 30' N. lat. The parties may by unanimous agreement amend this article to include within the treaty area the territory of any State acceding to this treaty or otherwise to change the treaty area.

ARTICLE 10. This treaty shall remain in force indefinitely, but any party may cease to be a party one year after its notice of denunciation has been given to the Government of the Republic of the Philippines which shall inform the Governments of the other parties of the deposit of each notice of denunciation.

To the treaty text was added the following 'understanding' of the USA:

The United States of America in executing the present treaty does so with the understanding that its recognition of the effect of aggression and armed attack and its agreement with reference thereto in article 4, paragraph (1), apply only to Communist aggression, but affirms that in the event of other aggression or armed attack it will consult under the provisions of article 4 (2).

A protocol to the treaty states:

The parties to the South-East Asia collective defence treaty unanimously designate for the purposes of article 4 of the treaty the States of Cambodia and Laos and the free territory under the jurisdiction of the State of Vietnam.

The parties further agree that the above-mentioned States and territory shall be eligible in respect of the economic measures contemplated by article 3.

The 8 nations also issued the following declaration of principles, calling it the Pacific Charter:

The delegates desiring to establish a firm basis for common action to maintain peace and security in South-East Asia and the South-West Pacific; convinced that common action to this end in order to be worthy and effective must be inspired by the highest principles of justice and liberty do hereby proclaim:

FIRST, in accordance with the provisions of the United Nations Charter they uphold the principle of equal rights and self-determination of peoples, and they will earnestly strive by every peaceful means to promote self-government and to secure the independence of all countries whose peoples desire it and are able to undertake its responsibilities.

SECOND, they are each prepared to continue taking effective practical measures to ensure conditions favourable to the orderly achievement of the foregoing purposes in accordance with their constitutional processes.

THIRD, they will continue to co-operate in the economic, social and cultural fields in order to promote higher living standards, economic progress and social well-being in this region.

FOURTH, as declared in the South-East Asia collective defence treaty, they are determined to prevent or counter by appropriate means any attempt in the treaty area to subvert their freedom or to destroy their sovereignty or territorial integrity.

The military and civil organizations established under the treaty have their permanent headquarters at Bangkok, where the Council representatives also normally hold their meetings.

CENTRAL TREATY ORGANIZATION (CENTO)

A PACT of mutual defence was signed in Baghdad by Turkey and Iraq on 24 Feb. 1955. It was joined by the United Kingdom (4 April), Pakistan (23 Sept.) and Iran (3 Nov.). The USA became a full member of the economic and counter-subversion committees in April 1956, of the military committee in March 1957 and of the scientific council in May 1961, and is represented at the council meetings by observers. Bilateral defence agreements between the USA and Turkey, Iran and Pakistan were signed in Ankara on 5 March 1959.

Iraq ceased to participate in the activities of the Pact countries after the revolution in July 1958 and formally withdrew on 24 March 1959.

Headquarters was transferred from Baghdad to Ankara in Oct. 1958. On 21 Aug. 1959 the name of the organization was changed from Baghdad Pact to Central Treaty Organization (CENTO).

Secretary-General. Dr A. A. Khalatbary (Iran).

The main clauses of the Pact may be summarized as follows:

1. Consistent with Art. 51 of the UN Charter, the contracting parties will co-operate for their security and defence. This co-operation may form the subject of special agreements.

3. The contracting parties undertake to refrain from any interference in each other's internal affairs. They will settle any dispute between themselves in a peaceful way in accordance with UN Charter.

4. The contracting parties declare that the dispositions of the Pact are not in contradiction with any of the international obligations contracted by either of them with any third state. They undertake not to enter into any international obligations incompatible with the Pact.

5. The pact is open for accession to any State concerned with the security and peace of this region, and which is recognized by Turkey and Iraq.

7. This Pact remains in force for a period of 5 years, renewable for other 5-year periods. Any party may withdraw by notifying the other parties 6 months before the expiration of any of the above-mentioned periods.

The development programmes include the building of roads, railways and telecommunications joining Turkey with Iran and Pakistan, the development of public health, scientific co-operation, the improvement of agricultural and livestock production and technical assistance. The modernization of the Turkish ports of Trabzon and Iskenderun was completed in 1963.

CENTO maintains training and research centres and institutes in Tehran and Karaj (Iran) and Malir (Pakistan).

ORGANIZATION OF AMERICAN STATES

On 14 April 1890 representatives of the American republics, meeting in Washington at the First International Conference of American States, established an 'International Union of the American Republics' and, as its central office, a 'Commercial Bureau of American Republics', which later became the Pan American Union. This international organization's object was to foster mutual understanding and co-operation among the nations of the Western Hemisphere. Since that time, successive Inter-American conferences have greatly broadened the scope of work of the Organization.

This led to the adoption on 30 April 1948 by the Ninth International Conference of American States, at Bogotá, Colombia, of the Charter of the Organization of American States. This co-ordinated the work of all the former independent official entities in the inter-American system and defined their mutual relationships. The purpose of the OAS is to achieve an order of peace and justice, promote American solidarity, strengthen collaboration among the member states and defend their sovereignty, territorial integrity and independence. The OAS is a regional agency of the United Nations.

MEMBERSHIP. The 21 American republics are members of the Organization, on a basis of absolute equality. Each country has one vote in the Council of the Organization. The list of member countries is as follows: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, El Salvador, Guatemala, Haiti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, USA, Uruguay, Venezuela. Two years have to elapse for ratification of a withdrawal of membership.

The Charter of Punta del Este, signed 17 Aug. 1961 by all members of the OAS with the exception of Cuba, established the *Alliance for Progress*. By this the American republics agree to co-operate in achieving faster economic and social development. Under a 10-year plan, Latin America will raise US\$80,000m., to be matched by US\$20,000m. from outside sources including US\$10,000m. pledged by the USA. On 17 Nov. 1963 an 8-man executive committee was set up to supervise its programme; 19 member states voted for it, Bolivia abstained.

On 31 Jan. 1962 the 8th meeting of consultation of Ministers of Foreign Affairs at Punta del Este (Uruguay) excluded Cuba by 14 votes to one because their type of government was incompatible with the inter-American system; Argentina, Bolivia, Brazil, Chile, Ecuador, Mexico abstained.

ORGANS. The OAS accomplishes its purposes by means of:

(a) The *Inter-American Conference*, meeting generally every 5 years, at which the member governments decide matters pertaining to their relationships and to the general action and policy of the Organization. The latest, tenth, meeting took place in Caracas, Venezuela, in 1954.

(b) The *Meeting of Consultation of Ministers of Foreign Affairs*, held to consider problems of an urgent nature and of common interest to the American republics and to adopt decisions in matters covered in the Inter-American Treaty of Reciprocal Assistance; it is assisted by an *Advisory Defence Committee*, composed of the highest military authorities in the member countries and meeting whenever it is considered advisable to study questions of collective self-defence.

(c) The *Council of the Organization*, with headquarters in Washington, composed of one representative of each member nation especially appointed by the respective government, with the rank of ambassador. The Council supervises the progress of the Organization, acting either directly or through the following technical organs: *Inter-American Economic and Social Council*, with permanent headquarters at the Pan American Union in Washington; *Inter-American Council of Jurists*; *Inter-American Cultural Council*.

(d) The *Pan American Union*, the central and permanent organ of the Organization, with headquarters in Washington.

The Charter of the OAS designated the Pan American Union as the central organ and general secretariat of the Organization. Seven substantive departments deal with: economic affairs; social affairs; legal affairs; cultural affairs; technical co-operation; statistics, and public information. The Assistant Secretary for Economic and Social Affairs is, *ex officio*, executive secretary of the Inter-American Economic and Social Council; the Assistant Secretary for Cultural, Scientific and Informational Affairs is executive secretary of the Inter-American Cultural Council, and the Director of the Department of Legal Affairs serves as executive secretary of the Inter-American Council of Jurists.

Auxiliary services are provided through the council and conference secretariat services; financial services, and publications services. The Pan American Union is also the permanent secretariat of the Inter-American Conferences, the Meetings of Consultation of Foreign Ministers and the Specialized Conferences. It acts as adviser to the Council and its organs in the preparation of these conferences, offers technical assistance and necessary personnel, acts as custodian of documents and archives of the conferences, as well as depository of instruments of ratification of inter-American agreements, and submits reports to the Council and to the inter-American conferences on work accomplished by the various organs. In addition to these duties to the member governments and their official agencies, the Pan American Union renders a wide variety of services through its information and technical offices to the citizens of the American republics, and in general serves as a clearing-house for information on all the member countries.

(e) The *Specialized Conferences*, meeting to deal with special technical matters or to develop specific aspects of inter-American co-operation.

(f) The *Specialized Organizations*, intergovernmental organizations established by multilateral agreements to discharge specific functions in their respective fields of action, such as women's affairs, agriculture, child welfare, Indian affairs, geography and history, and health.

Secretary-General: José A. Mora (Uruguay).

Assistant Secretary-General: William Sanders (USA).

Assistant Secretaries: Walter Sedwitz (USA, acting), *Economic and Social Affairs*; Jaime Posada (Colombia), *Cultural, Scientific, and Informational Affairs*.

Departmental Directors. Economic Affairs: Walter Sedwitz (USA).

Social Affairs: Angel Palerm (Mexico). *Legal Affairs:* Francisco V. García Amador (Cuba). *Cultural Affairs:* Rafael Squirru (Argentina). *Public Information:* Miguel Aranguren (Colombia, acting). *Statistics:* Tulo H. Montenegro (Brazil). *Technical Co-operation:* João Gonçalves de Souza (Brazil). *Administrative Affairs:* Luis Raúl Betances (Dom. Rep.). *Scientific Affairs:* Jesse Perkinson (USA).

Office Directors. Council and Conferences Secretariat Services: Santiago Ortiz (USA). *Financial Services:* Clarence R. Jauchem (USA). *Publication Services:* John A. McAdams (USA).

The Secretary-General and the Assistant Secretary-General are elected by the Council of the Organization for 10-year terms. The Secretary-General appoints the Department Directors as well as the lesser personnel of the Union. The Council approves the annual budget for the Organization, which is financed by quotas contributed by the member governments.

General Secretariat: Pan American Union, Washington 6, D.C., USA.

LATIN AMERICAN ECONOMIC GROUPINGS

The Economic Commission for Latin America, an organ of the United Nations, with headquarters in Santiago, Chile, has facilitated the co-operation of two groups of countries concerning production, tariffs and trade.

Latin American Free Trade Association was concluded in Montevideo on 18 Feb. 1961 by Argentina, Brazil, Chile, Mexico, Paraguay, Peru and Uruguay. Colombia (3 Oct. 1961) and Ecuador (20 Oct 1961) have joined the LAFTA Treaty. The permanent secretariat is at Montevideo.

Central American Common Market. On 13 Dec. 1960, at Managua, El Salvador, Guatemala, Honduras and Nicaragua concluded a general treaty on Central American integration; a protocol on the equalization of import duties and charges; and an agreement establishing the Central American Bank for Economic Integration. Costa Rica acceded in 1962.

The San Salvador Charter, signed on 14 Dec. 1962, expands these provisions, envisaging permanent political, economic, educational, defence, etc. councils.

THE ARAB LEAGUE

Origin. The formation of the League of Arab States in 1945 was largely inspired by the Arab awakening of the 19th century. This movement sought to re-create and reintegrate the Arab community which, though for 400 years a part of the Ottoman Empire, had preserved its identity as a separate national group held together by memories of a common past, a common religion and a common language, as well as by the consciousness of being in part at least descended from a common racial stock. The leaders of the Arab movement in the 19th century and of the Arab revolt against Turkey in the First World War sought to achieve these aims through secession from the Ottoman Empire into a united and independent Arab state comprising all the Arab countries in Asia. However, the 1919 peace settlement divided the Arab world in Asia (with the exception of Saudi Arabia and the Yemen) into British and French spheres of influence and established in them a number of separate states and administrations (Syria, Lebanon, Iraq, Jordan and Palestine) under temporary mandatory control.

By 1943, however, all these countries, with the exception of Palestine, had substantially achieved their independence. An Arab conference therefore met in Alexandria in the autumn of 1944; in it, representatives of the governments of Egypt, Iraq, Syria, Lebanon and Jordan, and an Arab representative from Palestine took part.

The Alexandria Conference formulated the 'Alexandria Protocol', which delineated the outlines of the Arab League. It was found at the time that

neither a unitary state nor a federation could be achieved, but only a league of sovereign states. A covenant, establishing such a league, was signed in Cairo on 22 March 1945 by the representatives of Egypt, Iraq, Saudi Arabia, Syria, Lebanon, Jordan and Yemen. Libya joined the League in March 1953; the Sudan in Jan. 1956; Tunisia and Morocco in Oct 1958; Kuwait in July 1961; Algeria on 16 Aug. 1962.

An annex to the Covenant provides for the co-operation with Arab countries outside the League, in the Arabian Peninsula and North Africa.

Organization. The machinery of the League consists of a Council, a number of Special Committees and a Permanent Secretariat. On the Council each state has one vote. The Council may meet in any of the Arab capitals. Its functions include mediation in any dispute which threatens the peace between any of the League states or a League state and a country outside the League. The Council has a Political Committee consisting of the Foreign Ministers of the Arab states.

The Permanent Secretariat of the League, under a Secretary-General (with the status of ambassador), has its seat in Cairo.

Secretary-General: Abdul Khaliq Hassouna, a former Egyptian Minister for Foreign Affairs (elected 14 Sept. 1952, re-elected in 1957 and 1962, for 5-year periods).

ORGANIZATION OF AFRICAN UNITY

ON 25 May 1963 the heads of state or government of 30 African countries, at a conference in Addis Ababa, signed a charter establishing an 'Organization of African Unity' (*Organisation de l'Unité Africaine*).

Its chief objects are the furtherance of African unity and solidarity; the co-ordination of the political, economic, cultural, health, scientific and defence policies; the elimination of colonialism in Africa; and the common defence of the independence of the member states.

The organs of the Organization are: (1) the conference of the heads of state or government; (2) the council of foreign ministers; (3) the secretariat-general; (4) a commission of mediation, conciliation and arbitration. In addition to the African languages, French and English are recognized as official languages.

PART II
THE COMMONWEALTH

THE COMMONWEALTH

REIGNING QUEEN, HEAD OF THE COMMONWEALTH

Elizabeth II: Alexandra Mary, born 21 April 1926 daughter of King George VI and Queen Elizabeth; married on 20 Nov. 1947 Lieut. Philip Mountbatten (formerly Prince Philip of Greece), created Duke of Edinburgh; Earl of Merioneth and Baron Greenwich on the same day and created Prince Philip, Duke of Edinburgh, 22 Feb. 1957; succeeded to the crown on the death of her father, on 6 Feb. 1952. Offspring: Charles Philip Arthur George, Prince of Wales, born 14 Nov. 1948 (Heir Apparent); Princess Anne Elizabeth Alice Louise, born 15 Aug. 1950; Prince Andrew Albert Christian Edward, born 19 Feb. 1960; Prince Edward Antony Richard Louis, born 10 March 1964.)

The Queen Mother

Queen Elizabeth, born 4 Aug. 1900, daughter of the 14th Earl of Strathmore and Kinghorne; married the Duke of York, afterwards King George VI, on 26 April 1923.

Sister of the Queen

Princess Margaret Rose, born 21 Aug. 1930; married Antony Armstrong-Jones (created Earl of Snowdon, 3 Oct. 1961) on 6 May 1960. Offspring: David Albert Charles (Viscount Linley), born 3 Nov. 1961.

Living Uncles of the Queen

Prince Edward Albert, created Duke of Windsor 12 Dec. 1936, born 23 June 1894; married Mrs Wallis Warfield on 3 June 1937. Reigned as Edward VIII from 20 Jan. 1936 to 10 Dec. 1936 (324 days).

Prince Henry William, born 31 March 1900; created Duke of Gloucester; Earl of Ulster and Baron Culloden, on 31 March 1928; married Lady Alice Montagu-Douglas-Scott (born 25 Dec. 1901), 6 Nov. 1935. Offspring: William Henry Andrew Frederick, born 18 Dec. 1941; Richard Alexander Walter George, born 26 Aug. 1944.

Widow and Children of the late Duke of Kent

Duchess of Kent, Princess Marina of Greece (born 30 Nov. 1906, O.S.); married on 29 Nov. 1934 to the Duke of Kent, third brother of King George VI (born 20 Dec. 1902; died 25 Aug. 1942). Offspring: (1) Edward George Nicholas Patrick, Duke of Kent, born 9 Oct. 1935; married Katharine Worsley on 8 June 1961 (offspring: George Philip Nicholas, born 26 June 1962).

(2) Alexandra Helen Elizabeth Olga Christabel, born 25 Dec. 1936; married 24 April 1963, Angus Ogilvy (offspring: James Robert Bruce, born 29 Feb. 1964).

(3) Michael George Charles Franklin, born 4 July 1942.

Living Aunt of the Queen

Princess Victoria Alexandra Alice Mary, Princess Royal, born 25 April 1897; married on 28 Feb. 1922 Viscount Lascelles (afterwards 6th Earl of Harewood), KG, DSO, who died 24 May 1947. Offspring: George Henry Hubert, 7th Earl of Harewood, born 7 Feb. 1923; Gerald David Lascelles, born 22 Aug. 1924.

The Queen's legal title rests on the statute of 12 and 13 Will. III, c. 3, by which the succession to the Crown of Great Britain and Ireland was settled on the Princess Sophia of Hanover and the heirs of her body being Protestants. By proclamation of 17 July 1917 the royal family became known as the House and Family of Windsor. On 8 Feb. 1960, the Queen issued a declaration varying her confirmatory declaration of 9 April 1952 to the

effect that while the Queen and her children should continue to be known as the House of Windsor, her descendants, other than descendants entitled to the style of Royal Highness and the title of Prince or Princess, and female descendants who marry and their descendants should bear the name of Mountbatten-Windsor. Under the Abdication Act of 1936, the issue, if any, of King Edward VIII, or the descendants of that issue, have no right, title or interest in or to the succession to the Throne, and the Royal Marriages Act, 1772, ceased to apply to King Edward VIII after his abdication. The titles of Queen Elizabeth II are: In the United Kingdom and the Colonies: 'Elizabeth the Second, by the Grace of God, of the United Kingdom of Great Britain and Northern Ireland and of her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith'. In Canada, Australia and New Zealand: 'Elizabeth the Second, by the Grace of God of the United Kingdom, [name of country] and her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith'. In Ceylon, Sierra Leone, Jamaica, Trinidad and Tobago, and Kenya, 'Elizabeth the Second, Queen of [name of country] and of her other Realms and Territories, Head of the Commonwealth'. In India, Pakistan, the Federation of Malaysia, Cyprus, Ghana, Tanganyika, Nigeria, Uganda and Zanzibar: 'Head of the Commonwealth'.

By letters patent of 30 Nov. 1917 the titles of Royal Highness and Prince or Princess are restricted to the Sovereign's children, the children of the Sovereign's sons and the eldest living son of the eldest son of the Prince of Wales.

Provision is made for the support of the royal household by the settlement of the Civil List soon after the beginning of each reign. (For historical details, see *THE STATESMAN'S YEAR-BOOK*, 1908, p. 5, and 1935, p. 4.) According to the Civil List Act of 1 Aug. 1952, the Civil List of the Queen, after the usual surrender of hereditary revenues, was fixed at £475,000, of which £60,000 is appropriated to the privy purse of the Queen, £185,000 for salaries of the royal household, £121,800 for household expenses, £13,200 for alms and bounty and £95,000 as supplementary provision. The Act also provides for £40,000 a year to the Duke of Edinburgh.

The Civil List Acts of 1910, 1937 and 1952 provide for an annuity of £70,000 to Queen Elizabeth (the Queen Mother); £35,000 to the Duke of Gloucester; £6,000 to the Princess Royal; £15,000 to the Princess Margaret.

THE COMMONWEALTH

CONSTITUTION. The British Commonwealth of Nations consists of the United Kingdom, Canada, Australia, New Zealand, India, Pakistan, Ceylon, Ghana, Nigeria, Cyprus, Sierra Leone, Tanganyika, Jamaica, Trinidad and Tobago, Uganda, Zanzibar, Kenya; the Federation of Malaysia; the Colonies and Protectorates; and the Territories under Trusteeship.

Up to July 1925 the affairs of all the British Empire, apart from the United Kingdom and India, were dealt with by the Colonial Office. From that month a new secretaryship of state, for Dominion Affairs, became responsible for the relations between the United Kingdom and all the independent members of the Commonwealth.

MEMBER STATES. The Imperial Conference of 1926 defined Great Britain and the Dominions, as they were then called, as 'autonomous communities within the British Empire, equal in status, in no way subordinate one to another in any aspect of their domestic or foreign affairs, though united by a common allegiance to the Crown, and freely associated as members of the British Commonwealth of Nations'. On 11 Dec. 1931 the Statute of Westminster, which by legal enactment recognized the status of the Dominions as defined in 1926, became law. Each of the Dominions had signified approval of the provisions of the Statute.

In July 1947 the designations of Secretary of State for Dominion Affairs and the Dominions Office were altered to 'Secretary of State for Commonwealth Relations' and 'Commonwealth Relations Office'. As from 15 Aug. 1947 the Secretary of State for Commonwealth Relations assumed responsibility for relations between the United Kingdom and India and Pakistan, and, as from 4 Feb. 1948, between the United Kingdom and Ceylon, as from 6 March 1957, between the United Kingdom and Ghana (formerly the Gold Coast), and, as from 31 Aug. 1957, between the United Kingdom and the Federation of Malaya (renamed the Federation of Malaysia 16 Sept. 1963; including from that date North Borneo, Sarawak and Singapore). On 1 Oct. 1960 Nigeria, on 13 March 1961 Cyprus, on 27 April 1961 Sierra Leone, on 9 Dec. 1961 Tanganyika, on 5 Aug. 1962 Jamaica, on 31 Aug. 1962 Trinidad and Tobago, on 9 Oct. 1962 Uganda, on 10 Dec. 1963 Zanzibar, on 12 Dec. 1963 Kenya became independent members of the Commonwealth. On 15 March 1961 the Prime Minister of the Union of South Africa declared his government's withdrawal from the Commonwealth on the Union becoming a republic on 31 May 1961.

On 31 March 1949 Newfoundland became a Canadian Province and its independent relations with the United Kingdom through the Commonwealth Relations office ceased accordingly.

On 18 April 1949, when the Republic of Ireland Act, 1948, came into force, Southern Ireland ceased to be a member of the Commonwealth. However, the conduct of relations with the Irish Republic continues to be a responsibility of the Secretary of State for Commonwealth Relations.

India became a republic on 26 Jan. 1950, Pakistan on 23 March 1956, Ghana on 1 July 1960, Tanganyika on 9 Dec. 1962, Nigeria on 1 Oct. 1963 and Uganda on 9 Oct. 1963. They remain, however, members of the Commonwealth and accept the Queen as the symbol of the free association of its independent member nations and as such the Head of the Commonwealth.

The Federation of Rhodesia and Nyasaland (comprising the self-governing

Colony of Southern Rhodesia and the Protectorates of Northern Rhodesia and Nyasaland), established on 3 Sept. 1953, was dissolved on 31 Dec. 1963. The date of Nyasaland's independence was named as 6 July 1964, and Northern Rhodesia will also achieve independence in 1964. Meanwhile all three territories reverted to their former status within the Commonwealth. A special Central African Office (with R. A. Butler as head) was set up on 15 March 1962 to deal with all matters pertaining to the Federation, and, following the dissolution of the Federation, retains responsibility for the territories.

COLONIES. Territories dependent on the United Kingdom comprise colonies (properly so-called), protectorates and protected states. Her Majesty's Government exercises its responsibilities through the Colonial Office. A colony is a territory belonging by settlement, conquest or annexation to the British Crown. A protectorate is a territory not formally annexed but in which, by treaty, grant and other lawful means the Crown has power and jurisdiction. A protectorate state is a territory under a ruler which enjoys Her Majesty's protection, over whose foreign affairs she exercises control, but in respect of whose internal affairs she does not exercise jurisdiction.

United Kingdom dependencies administered through the Colonial Office comprise, in West Africa: Gambia (colony and protectorate); in Southern Africa, Basutoland (colony), the Bechuanaland Protectorate and Swaziland (protectorate); in the Far East: Brunei (protected state), Hong Kong (colony); in the Indian Ocean: Aden (colony and protectorate), Mauritius and dependencies, Seychelles (colonies); in the Mediterranean: Gibraltar, Malta (colonies); in the Atlantic Ocean: Falkland Islands, St Helena (colony with dependencies Ascension and Tristan de Cunha); in the Caribbean: Bahamas, Barbados, Bermuda, British Guiana, British Honduras, Cayman Islands, Turks and Caicos Islands, Antigua, Montserrat, St Christopher-Nevis-Anguilla, Dominica, Grenada, St Lucia, St Vincent (colonies); West Pacific: Fiji, Pitcairn (colonies), Tonga (protected state), Western Pacific High Commission Territories (British Solomon Islands protectorate, Gilbert and Ellice Islands colony, New Hebrides Anglo-French Condominium).

While constitutional responsibility to Parliament for the government of the colonial territories rests with the Secretary of State for the Colonies the actual administration is carried out by the various colonial governments.

GREAT BRITAIN AND NORTHERN IRELAND

CONSTITUTION AND GOVERNMENT

THE supreme legislative power is vested in Parliament, which in its present form, as divided into two Houses of Legislature, the Lords and the Commons, dates from the middle of the 14th century.

Parliament is summoned by the writ of the sovereign issued out of Chancery, by advice of the Privy Council, at least 20 days previous to its assembling. Every session must end with a prorogation, and all Bills which have not been passed during the session then lapse. A dissolution may occur by the will of the sovereign, or, as is most usual, during the recess, by proclamation, or finally by lapse of time, the statutory limit of the duration of any Parliament being 5 years.

Under the Parliament Acts 1911 (1 and 2 Geo. V, ch. 13) and 1949 (12 and 14 Geo. VI, ch. 103), all Money Bills (so certified by the Speaker of the House of Commons), if not passed by the House of Lords without amendment, may become law without their concurrence on the royal assent being signified. Public Bills, other than Money Bills or a Bill extending the maximum duration of Parliament, if passed by the House of Commons in 2 successive sessions, whether of the same Parliament or not, and rejected each time, or not passed, by the House of Lords, may become law without their concurrence on the royal assent being signified, provided that 1 year has elapsed between the second reading in the first session of the House of Commons and the third reading in the second session. All Bills coming under this Act must reach the House of Lords at least 1 month before the end of the session.

The House of Lords consists of (1) hereditary peers and peeresses sitting by virtue of creation or descent, other than those who have renounced their titles for life under the provisions of the Peerage Act, 1963; (2) life peers being (a) 17 Lords of Appeal (active and retired), under the Appellate Jurisdiction Act, 1876, as amended; (b) (March 1964) 53 life peers and peeresses under the Life Peerages Act, 1958; (3) 2 archbishops and 24 bishops (as long as they hold their sees). The last Irish representative peer died in Jan. 1961. The full House consists of about 955, of whom about 90 are not in receipt of a writ of summons, and the average attendance is about 140; in 1962-63; 202 peers applied for leave of absence.

The House of Commons consists of members representing county and borough constituencies. No one under 21 years of age can be a member of Parliament. Clergymen of the Church of England, ministers of the Church of Scotland and Roman Catholic clergymen are disqualified from sitting as members; government contractors, civil servants and sheriffs are also

among those disqualified. No English or Scottish peer can be elected to the House of Commons unless he has renounced his title for life under the Peerage Act, 1963, but non-representative Irish peers are eligible. Under the Parliament (Qualification of Women) Act, 1918, women are also eligible.

In Aug. 1911 provision was first made for the payment of a salary of £400 per annum to members, other than those already in receipt of salaries as officers of the House, as Ministers or as officers of Her Majesty's household. As from 1 May 1946 the salaries of members were increased to £1,000 per annum and in 1957 to £1,750 per annum, with entitlement to income-tax relief on expenses incurred in the course of parliamentary duties. Members of the House of Lords are only entitled to recover expenses incurred for the purpose of attendance at sittings of the House, within a maximum of 3 guineas for each day of attendance.

The Representation of the People Act, 1948, abolished the business premises and University franchises, and the only persons entitled to vote at Parliamentary elections are those registered as residents or as service voters. No person may vote in more than one constituency at a general election. Persons may apply on certain grounds to vote by post or by proxy.

All persons who are of full age and not subject to any legal incapacity to vote and who are either British subjects or citizens of the Irish Republic are entitled to be included in the register of electors for the constituency containing the address at which they were residing on the qualifying date for the register and are entitled to vote at elections held during the period for which the register remains in force. The register is to be published on 15 March each year.

Members of the Armed Forces, Crown servants employed abroad, and the wives of members of the Armed Forces or of such Crown servants if residing abroad to be with their husbands, are entitled, if otherwise qualified, to be registered as 'service voters' provided they make a 'service declaration'. To be effective for a particular register, the declaration must be made on or before the qualifying date for that register.

For local government elections there is also an occupier's qualification, but the names of persons having this qualification are marked in the register to show that the entry does not entitle them to vote at Parliamentary elections.

The Act of 1948 effected a redistribution of the constituencies in the United Kingdom. The number of constituencies in Great Britain must be not substantially greater or less than 613, in Scotland not less than 71, in Wales not less than 35 and in Northern Ireland 12. Every constituency returns a single member.

The House of Commons (Redistribution of Seats) Acts, 1944 and 1949, provided for the setting up of Boundary Commissions for England, Wales, Scotland and Northern Ireland. The Commissions are required to make general reports at intervals of not less than 3 and not more than 7 years and to submit reports from time to time with respect to the area comprised in any particular constituency or constituencies where some change appears necessary. Any changes giving effect to reports of the Commissions are to be made by Orders in Council laid before Parliament for approval by resolution of each House. The electorate of the constituencies of the United Kingdom in the register used at the elections of 8 Oct. 1959 numbered 35,111,432, of whom 29,058,370 were in England, 1,791,754 in Wales, 3,387,909 in Scotland and 873,399 in Northern Ireland.

The following is a table of the duration of Parliaments called since the accession of King Edward VII.

The executive government is vested nominally in the Crown, but practically in a committee of Ministers, called the Cabinet, which is dependent on the support of a majority in the House of Commons.

The head of the Ministry is the Prime Minister, a position first constitutionally recognized, and special precedence accorded to the holder, in 1905. His colleagues in the Ministry are appointed on his recommendation, and he dispenses the greater portion of the patronage of the Crown.

LOCAL GOVERNMENT

England and Wales. In each county the Crown is represented by the Lord Lieutenant. There is also a sheriff, who represents the ancient executive of the Crown, an under-sheriff, a clerk of the peace, who is normally also clerk to the county council, coroners, who are appointed and paid by the county councils, and other officers. The licensing of persons to sell intoxicating liquors and the administration of the criminal law—except that which deals with graver offences—are in the hands of the magistrates.

For the purposes of local government, England and Wales are divided primarily into 62 administrative counties, including the County of London, and 83 county boroughs.

Administrative Counties. The counties are administered by a popularly elected county council, which co-opts a prescribed number of aldermen, either from their own body or from outside it. Aldermen are elected for 6 years, half of them retiring every third year. A councillor is elected for 3 years. The jurisdiction of the county councils covers the administration of higher and elementary education, planning, health services, the care of the aged, infirm and physically handicapped persons, maintenance of main roads and bridges, work in relation to agriculture (diseases of animals, destructive insects and pests, fertilizers and feeding-stuffs, small-holdings and allotments) and the prevention of pollution of rivers. The control of the county police is vested in a Standing Joint Committee comprised of equal numbers of magistrates and county councillors. The Metropolitan Police, however, are under the control of the Home Secretary.

The administrative counties, except the County of London, are subdivided into county districts, which are 'non-county boroughs', 'urban districts' or 'rural districts'. Generally speaking, an urban district comprises a town or small area more or less densely populated, and a rural district takes in several country parishes. County district councils administer the Public Health and Highway Acts, and exercise powers under the Housing Acts. Urban authorities may also take over the maintenance and repair of main roads from county councils, provide water supplies, allotments, baths and wash-houses, libraries and museums, and parks and open spaces; besides exercising delegated powers under the Town and Country Planning Acts. Rural district councils may also make arrangements for water supply, and exercise any 'urban powers' conferred on them by the Minister of Health.

London. The main central authority is the County Council, created by the Local Government Act of 1888. It has powers in regard to public health, planning, housing, bridges and ferries, street improvements, parks, main drainage, fire brigades, sanitary control, education and numerous other matters. The City Corporation has powers respecting sanitation, police, bridges, justice, etc., in the City of London. London comprises the ancient city, with an area of 1 sq. mile, and an area of 117 sq. miles beyond the city, which is divided into 28 metropolitan boroughs, each with a mayor, aldermen and councillors. The councils have powers in regard to public health, highways, rating, housing, etc., but they are not municipal boroughs in the strict sense. The County Council has certain powers of control over them.

Elections were held in April and May 1964 for the Greater London Council and the Greater London borough councils, which will form the local authorities for London, Middlesex and the metropolitan areas of Surrey, Kent,

Essex and Hertfordshire as from 1 April 1965. These councils will act alongside the existing authorities during the intervening transitional period.

Boroughs. In all incorporated towns local business is administered by a municipal corporation. There are two kinds of municipal boroughs, county boroughs and non-county boroughs. Most of the county boroughs and a number of the non-county boroughs have a separate court of quarter sessions. The county boroughs are outside the jurisdiction of the county councils. A municipal corporation consists of the mayor, aldermen and burgesses, and acts through a popularly-elected council. As in the county councils, the councillors serve for 3 years, one-third retiring annually: the aldermen are elected by the council and serve for 6 years, half of them retiring every third year. The mayor, who serves for 1 year, is also elected by the council. A town council as an urban authority is invested with all the normal powers of an urban district council.

The Local Government Act, 1948, makes provision for the payment of allowances to members of local authorities towards travelling and subsistence expenses, and towards loss of earnings, or similar expenses, incurred in their duties as members. Local authorities have wide powers to provide entertainments, expenditure on which is allowed up to the product of a 6d. rate. Local authorities may also arrange for the publication within their areas of information on questions relating to local government; this power includes the giving of lectures, holding of discussions and the displaying of pictures, films and exhibitions.

The total number of local government electors on the registers in 1962 was 31,278,504 in England and Wales. Women are eligible for all local government offices. Local government electors include all persons who are qualified to vote at parliamentary elections.

Scotland. A Local Government Act was passed for Scotland in 1889. The powers of local administration in counties formerly exercised by the Commissioners of Supply, the Justices and Road Trustees were either wholly or in part transferred to county councils, which took over their duties and responsibilities in 1890. By the Local Government (Scotland) Act, 1894, a local government board for Scotland was constituted, and a parish council was established in every parish to take the place of the parochial boards. Their principal function was the administration of the poor laws, and in addition they exercised powers similar to those of the parish councils in England. There were 869 civil parishes in 1921. The Scottish Board of Health Act, 1919, transferred the powers and duties of the Local Government Board to the newly constituted Scottish Board of Health. The Reorganization of Offices (Scotland) Act, 1928, established the Department of the Secretary of Scotland, including the Department of Health for Scotland, which took the place of the Scottish Board of Health. In June 1962 the Scottish Development Department took over responsibility for local government affairs, and the Scottish Home and Health Department responsibility for social services, *e.g.*, health, police and fire services.

Each burgh has a town council consisting of a provost or lord provost, bailies and councillors. The provost is the head of the Scottish municipality and holds office for 3 years. Bailies are selected by the councillors from among their own number; they act as magistrates and sit as such in police courts. There are in Scotland three principal kinds of burghs, numbering altogether 199: (1) royal burghs, *i.e.*, burghs created by a charter of the Crown; (2) parliamentary burghs, which possess statutory constitutions almost identical with those of the royal burghs; (3) police burghs, constituted

under a general Police Act. Burghs are classified according to functions as counties or cities (4), other large burghs (20) and small burghs (175). All burghs have town councils and their administration is regulated by the Burgh Police (Scotland), Town Councils (Scotland) and Local Government (Scotland) Acts or corresponding local Acts. The Local Government (Scotland) Act, 1929, abolished parish councils and transferred poor law and certain other functions to county councils and large burghs (with a population of 20,000 or more). The Act established elected district councils for the landward parts of counties. These councils have certain local powers, such as the acquisition of ground for public recreation, and can requisition for expenditure to a limited extent. The National Assistance Act, 1948, repealed the Poor Law. Financial aid to those in need, now a national charge, is provided by the National Assistance Board. County Councils and large burghs have now a duty to provide residential accommodation for the aged and others in need of care and attention, temporary accommodation for persons whose need arises in unforeseeable circumstances and welfare services for the blind and other substantially handicapped persons.

The Local Government (Scotland) Act, 1947, consolidated with amendments the enactments relating to authorities for the purpose of local government in Scotland.

The total number of local government electors in Scotland was 3,401,122 in 1962 and 3,394,156 in 1963.

In 1961 in Wales and Monmouthshire 26,223 persons 3 years of age and upwards were able to speak Welsh only; and 629,779 able to speak Welsh and English; these totals represent 26% of the total population. In Scotland in 1961, 1,079 persons could speak Gaelic only, and 75,508 could speak Gaelic and English, totalling 1.5% of the population.

At the census of 1961, in England and Wales, there were 14,702,823 private families, occupying 14,647,922 dwellings.

The age distribution in 1963 of the population of England and Wales and Scotland was as follows (in 1,000):

Age-group	England and Wales	Scotland	Great Britain
Under 5	3,899	482	4,381
5 and under 10	3,383	435	3,818

Conurbations. These are aggregates of local-authority areas with high population densities. In June 1963 there were 7 in England and Wales, with a population of 16,982,890 (36.1% of total population). Excluding the London conurbation, their populations were: Tyneside, 855,060; W. Yorks., 1,722,850; S.E. Lancs., 2,450,010; Merseyside, 1,390,640; W. Midlands, 2,391,730; S.E. Wales, 1,914,370.

The municipal and parliamentary City of London, coinciding with the registration City of London, has an area of 677 acres. The registration County of London (the London for purposes of the census, the registration of births, deaths and marriages, and for poor law purposes), coinciding with the administrative county, has an area of 74,850 acres, and nearly coincides with the collective area of the London parliamentary boroughs. The population of registration London, of the 'Outer Ring', and of 'Greater London' (the area covered by the City and Metropolitan police) at the dates of the census, was:

	1921	1931	1951	1961
Registration London	4,484,523	4,397,003	3,347,982	3,195,114

Emigration and Immigration

In the years 1815-52 the total number of emigrants from the UK was 3,463,592. Up to 1852 the emigration returns made no distinction between British subjects and foreigners. From 1853 to 1938 inclusive, the number of emigrants of British origin, to places out of Europe, was 16,710,072. The passenger traffic by sea to and from non-European countries in recent years was as follows:

	Outward			Inward		
	Common- wealth citizens	Aliens	Total	Common- wealth citizens	Aliens	Total
1959	243,414	69,042	310,456	214,832	74,046	288,878

There is substantial net emigration from (or *via*) the continent of Europe and from the Irish Republic, as well as by air, but there are no particulars available of emigrants travelling by these routes.

The destinations of Commonwealth citizens leaving the UK by the long sea routes to take up permanent residence in non-European countries in 1961 (1962 in brackets) were mainly Canada, 9,329 (10,724); Australia, 40,558 (35,542); New Zealand, 9,053 (10,765); United States, 7,097 (7,886); British West Indies and Bermuda, 3,776 (6,367).

Of a total of 2,162,392 aliens (not including arrivals from the Irish Republic and foreign servicemen) who arrived in the UK in 1963, 1,646,446 were business visitors and tourists for periods of less than 3 months, 17,922 were visitors for more than 3 months, 112,148 in transit to other countries, 21,332 diplomats and persons on government missions, 39,663 holding Ministry of Labour permits, 3,337 dependants of such permit-holders, 28,460 seamen under contract to join ships in British waters. Foreigners (including residents) returning from temporary absence abroad, 246,956.

Passenger movement (excluding pleasure cruises) totalled: 1961, outward, 6,955,000 (3,469,000 by air); inward, 7,124,000 (3,547,000 by air); 1962, outward, 7.41m. (3,809,000 by air); inward, 7,488,000 (3,866,000 by air).

RELIGION

The Church of England is the originating church of the Anglican Communion, which parallels in its fellowship of autonomous churches the evolution of British influence beyond the seas from colonies to dominions and independent nations. There is no terrestrial head of the Anglican Communion; the Archbishop of Canterbury presides as *primus inter pares* at the decennial meetings of the bishops of the Anglican Communion at the Lambeth Conference.

The Anglican churches, in addition to the Church of England, comprise the churches and provinces in communion with the see of Canterbury which are situated in Wales; Ireland; Scotland; United States of America; Canada; West Indies; South Africa; Central Africa; West Africa; East Africa; Uganda; Rwanda and Burundi; Jerusalem and the Middle East; India, Pakistan, Burma and Ceylon; Japan; China; Australia; and New Zealand.

In addition to the dioceses included within the Provinces of Canterbury and York, the Church of England includes a number of dioceses overseas over which the Archbishop of Canterbury exercises metropolitan jurisdiction, while Church of England chaplaincies in North and Central Europe are under the jurisdiction of the Bishop of London.

England and Wales. The Established Church of England, which baptizes some two-thirds of the children born in England (*i.e.*, excluding Wales but including the Isle of Man and the Channel Islands), is Protestant Episcopal. Civil disabilities on account of religion do not attach to any class of British subjects. Under the Welsh Church Acts, 1914 and 1919, the Church in Wales and Monmouthshire was disestablished as from 31 March 1920, and Wales was formed into a separate Province.

The Queen is, under God, the supreme governor of the Church of England,

with the right, regulated by statute, to nominate to the vacant archbishoprics and bishoprics. The Queen, on the advice of the First Lord of the Treasury, also appoints to such deaneries, prebendaries and canonries as are in the gift of the Crown, while a large number of livings and also some canonries are in the gift of the Lord Chancellor.

There are 2 archbishops (at the head of the 2 Provinces of Canterbury and York) and 41 bishops and 81 suffragan and assistant bishops in England. Each archbishop has also his own particular diocese, wherein he exercises episcopal, as in his Province he exercises metropolitan, jurisdiction. In the Church are 36 deans (including Westminster, Windsor and other Peculiars), 106 archdeacons and 14 provosts of parish church cathedrals. There is an Assembly, called 'the Church Assembly', in England, consisting of a House of Bishops, a House of Clergy and a House of Laity, which has power, under the Church of England Assembly (Powers) Act, 1919, to frame legislation regarding Church matters. The first two Houses consist of the members of the Convocations of Canterbury and York, each of which consists of the diocesan bishops (forming an Upper House), and the archdeacons, deans and provosts, and a certain number of proctors elected as the representatives of the inferior clergy, together with, in the case of Canterbury Convocation, representatives of the Universities of Oxford, Cambridge and London and the chaplains in the Forces (forming the Lower House). The House of Laity is elected by the lay members of the Diocesan Conferences. Parochial affairs are managed by annual parochial church meetings and parochial church councils. Every measure passed by the Church Assembly must be submitted to the Ecclesiastical Committee, consisting of 15 members of the House of Lords nominated by the Lord Chancellor and 15 members of the House of Commons nominated by the Speaker. This committee reports on each measure to Parliament, and the measure receives the Royal Assent and becomes law if each House of Parliament resolves that the measure be presented to the Queen.

At 31 Dec. 1962 there were 14,468 ecclesiastical parishes, inclusive of the Isle of Man and the Channel Islands, but excluding Wales. These parishes do not, in many cases, coincide with civil parishes. Owing to the shortage of clergymen, although each parish has its church, not every one nowadays can have its own incumbent or minister; so that in the least populated areas one or more parishes may be served by a clergymen, who must be in priest's orders, and in these cases he holds the parishes in plurality. At 31 Dec. 1962, of the total of 11,390 parochial livings there were 1,029 vacant; 9,475 rectors, vicars or perpetual curates holding single or permanently united parishes; and 884 other incumbents holding parishes or benefices in plurality—a total of 10,361 incumbents. In addition there were about 3,000 assistant curates working in the parishes.

Private persons possess the right of presentation to over 2,000 benefices; the patronage of the others belongs mainly to the Queen, the bishops and cathedrals, the Lord Chancellor, and the universities of Oxford and Cambridge. In 1962 there were 12,314 benefices. In addition to the 13,361 parochial incumbents and assistant curates, there were 1,937 non-parochial clergymen serving in the Armed Services, universities, colleges, schools, prisons, hospitals and homes, having a total of about 3,000 non-parochial churches or chapels and other places of worship in use.

The income of the Church of England was estimated for 1961 to be at least £45m., made up as to £19.4m. for Cathedrals and parochial church councils, £15.7m. administered by the Church Commissioners, and the remainder by the Church of England Pensions Board, the Central Board of

Finance, the 43 diocesan boards of finance and many central and diocesan church societies.

The membership of the Church at 31 Dec. 1960 was estimated to be 27,323,000 baptized members, of whom 9,792,000 were confirmed.

Of the 41,467 churches and chapels registered for the solemnization of marriages at 30 June 1962, 16,810 belonged to the Established Church and the Church in Wales and 24,657 to other religious denominations. Of the 347,732 marriages celebrated in 1962, 47.4% were in the Established Church and the Church in Wales, 23% in churches or chapels of other denominations and 29.6% were civil marriages in a Registrar's Office.

Roman Catholics in England and Wales were estimated at 3.73m. in 1963. There were 4 archbishops and 14 bishops, 7,412 clergy and 2,867 churches and chapels.

The Unitarians have about 330 places of worship, the Catholic Apostolic Church over 80, the New Jerusalem Church about 75. The Salvation Army, a religious body with a quasi-military organization, carries on both spiritual and social work at home and abroad, and had, in British Territory, 1963, 2,609 officers, 1,001 corps, 49 Red Shield Centres and 56 Red Shield Mobile Units. There were also 32 eventide homes, 14 maternity homes, 2 maternity hospitals, 57 hostels for men, 17 hostels for women and girls, and 11 approved and training schools.

The following is a summary of statistics of certain churches in England and Wales, Channel Islands and Isle of Man:

<i>Denomination</i>	<i>Full members</i>	<i>Ministers in charge</i>	<i>Local and lay preachers</i>

There are about 450,000 Jews in the UK with about 240 synagogues.

Scotland. The Church of Scotland (established in 1560 at the Reformation and re-established in 1688 as part of the Revolution Settlement) is Presbyterian, the ministers all being of equal rank. There is in each parish a kirk session, consisting of the minister and of several laymen called elders. There are presbyteries (formed by groups of parishes), meeting frequently throughout the year, and these are again grouped in synods, which meet half-yearly and can be appealed to against the decisions of the presbyteries. The supreme court is the General Assembly, which now consists of 1,392 members, half clerical and half lay, chosen by the different presbyteries. It meets annually in May (under the presidency of a Moderator appointed by the Assembly, the Sovereign being represented by a Lord High Commissioner, appointed by the Queen on the nomination of the Government of the day), and sits usually for 8 days. Any matters not decided during this period may be left to a Commission which sits at stated intervals until the meeting of the next General Assembly.

On 2 Oct. 1929 the Church of Scotland and the United Free Church of Scotland were reunited under the name of The Church of Scotland, and the two bodies met in General Assembly in Edinburgh as one. The united Church had, in Scotland, on 31 Dec. 1962, 2,200 congregations, 1,231,559 members, besides adherents; 2,710 Sunday schools, with 39,527 teachers

and 278,221 scholars in attendance. The Church courts are the General Assembly, 12 synods, 59 presbyteries in Scotland, 1 in England and 3 on the Continent, in addition to overseas presbyteries. Income in 1962 was £3,059,590. The Church has divinity faculties in the 4 Scottish universities of Edinburgh, Glasgow, Aberdeen and St Andrews, with 36 professors and lecturers. The Church's Foreign Mission agents (including nationals) number approximately 15,000, income exceeds £1m.

The Episcopal Church in Scotland is in full communion with the Church of England and is a Province of the Anglican Church. As at 31 Dec. 1962 it had 7 bishoprics, 361 churches and missions, 334 clergy and 97,894 members, of whom 56,759 were communicants.

There are in Scotland some small outstanding Presbyterian bodies and also Baptists, Congregationalists, Methodists and Unitarians.

The Roman Catholic Church had in Scotland (1962) 2 archbishops and 6 bishops, 1,264 clergy, about 450 churches, chapels and stations, and (1962) 792,640 adherents.

The proportion of marriages in Scotland according to the rites of the various Churches in 1960 was: Church of Scotland, 56.6%; Roman Catholic, 16.9%; Episcopal, 2%; United Free, 0.9%; others, 5.5%; civil, 17.9%.

EDUCATION

STATE SYSTEM OF EDUCATION

England and Wales

County councils and county borough councils are responsible for providing education and are therefore the 'local education authorities'. They build schools and colleges, pay teachers and provide materials, equipment, etc., meeting the cost out of local taxes and grants from the central government.

There are two kinds of school within the public system: the county school, which is provided and maintained entirely by the local authority, and the voluntary school, where a voluntary organization also carries responsibility. Both county and voluntary schools are described as 'maintained schools'. Every maintained primary school has a body of managers and every such secondary school a body of governors. There are three kinds of voluntary school, controlled, aided and 'special agreement'. At a controlled school two-thirds of the managers (or governors) are nominated by the local education authority and the remainder by the voluntary interest. The expenses of maintenance are borne by the local education authority, which also appoints the teachers. At an aided school the voluntary body appoints two-thirds of the managers, who maintain the exterior of the buildings. Three-quarters of the approved expenditure is reimbursed by the central authority, and the local authority pays for the maintenance of the interior of the buildings, pays the teachers and meets the costs of generally running the school. Local authorities may, by special agreement, undertake to pay between half and three-quarters of the cost of a new voluntary secondary school. In such schools two-thirds of the governors are appointed by the voluntary body. Maintenance is usually apportioned between the authority and the voluntary body as in an aided school.

Full-time schooling is available free for all children in publicly maintained primary and secondary (including voluntary) schools.

Primary Education. This continues until about the age of 11 and primary schools consist of infant schools for children aged 5-7 and junior schools for those aged 7-11. Children under 5, whose attendance is not compulsory, are accommodated either in nursery schools or in nursery classes attached to infant schools.

Secondary Education. Secondary provision is normally in grammar or modern schools, with the addition in some areas of technical schools. Each local authority has its own arrangements for deciding what kind of school will best suit each child. A grammar school provides a mainly academic course for pupils remaining at school until 16 years of age or more. A secondary technical school provides a course normally until the age of 16, and the secondary modern school provides a general and practical education up to the minimum school-leaving age of 15 and increasingly for some children beyond it. There are also schools ('comprehensive' schools) organized to cater for two of these groups or for all three.

In Jan. 1963 there were 6,925,328 pupils, aged between 2 and 19, on the registers of primary and secondary schools maintained by local education authorities. The estimated number of such pupils in 1964 is 7,058,400, and for 1965 is 7,101,700.

Direct-Grant Grammar Schools. These schools receive grants direct from the Ministry of Education and are independent of local education authorities. They charge fees, but must offer 25% of their places each year, free of charge, to pupils who have previously attended grant-aided primary schools for at least 2 years. These free places are usually offered through the agency of the local education authority, in which case the authority pays the fees. The school governors must also, if requested by the local education authority, put at the authority's disposal a further 25% of places for pupils who need not have attended a grant-aided school. Tuition fees for the remaining places are payable by parents, but relief may be claimed in certain circumstances. On 1 Jan. 1963 there were 112,586 pupils in 179 direct grant grammar schools.

Special Schools. Each local authority has a duty to provide educational treatment for handicapped children. Ten categories of such handicapped children are defined in regulations: deaf, partially hearing, blind, partially sighted, physically handicapped, educationally sub-normal, epileptic, mal-adjusted, those suffering from speech defects not due to deafness and the delicate. Special educational treatment is provided either in an ordinary school or, in serious cases, at a special approved school. For children at special schools attendance is compulsory between the ages of 5 and 16 years.

In Jan. 1963 there were 754 special schools for mentally or physically handicapped children, excluding hospital special schools, with 65,418 pupils (39,099 boys and 26,319 girls).

Ancillary Services. Local education authorities must make available free medical inspection and treatment and provide a school dental service for children attending maintained schools in their area. Many authorities provide child-guidance clinics, and speech therapy is an important part of school health provision.

Every local education authority is required to make milk and meals available to pupils attending maintained schools. At present one-third of a pint

of milk is provided daily free of charge. Milk is also made available free of charge to pupils at independent schools. Most maintained schools now have facilities for school dinners, for which a small charge is made, but a pupil may receive a dinner free, or at a cheaper rate according to the parent's ability to pay. In primary and secondary schools (including Nursery and Special Schools) maintained by local education authorities, the percentage of pupils taking dinners in autumn, 1962, amounted to 56.1%, and pupils taking milk, 82.5%. For 1963-64 the estimated cost of milk was £12.0m. and of school meals, £58.0m.

Children below the age of 8 with 2 miles or more to travel to school must be provided with free transport by the local education authority, while older children with 3 miles to travel get similar provision.

Further Education. Education for those who have left school is undertaken by local education authorities, by voluntary organizations and by extramural departments of the universities. Vocational courses are connected with the individual's employment, and are provided in technical and commercial colleges, art colleges and schools and in evening institutes, and can be entered at any age from 15 onwards. The main types of technical colleges are: (a) Colleges of advanced technology. Their main purpose is the provision of full-time and sandwich courses of advanced study in technological subjects. Since April 1962 these 10 colleges have been financed by direct grant from the Ministry of Education. (b) National colleges. These 6 colleges have been established and financed jointly by the Ministry of Education and Industry to provide advanced technical studies for particular industries. (c) Regional colleges, 25 in number, provide a substantial amount of advanced study, particularly by full-time and sandwich courses. (d) Other major establishments, numbering some 500, provide a wide variety of courses, some concentrating more on advanced work, others providing mainly part-time courses for younger students. Many part-time students during the day are released by employers as part of their apprenticeship or other training.

Education at institutions of further education is not free, but fees are generally low, and are remitted for most students under the age of 18 by the local authority. In the educational year 1962-63 there were 549 major establishments (other than art), 166 art establishments and 38 agricultural institutes. In addition there were about 7,700 evening institutes. The number of students attending during 1962-63 was, full-time, 156,703 (including 15,979 sandwich students) and part-time, 2,458,440, of which 1,039,132 attended evening institutes.

The number of students released by their employers during working hours in 1962-63 was 531,297, including manufacturing industries, 256,277; building and contracting, 58,248; mining, 23,451.

Awards to Students. In 1962, 1,862 State Scholarships (awarded on results at the examination for the General Certificate of Education) were taken up at universities; the total number of such awards current in 1962 was 16,077. The number of State Scholarships which were supplemental (i.e., those which were awarded to the holders of university and college open scholarships and exhibitions) taken up was 1,565.

In addition 197 Technical State Scholarships were taken up at universities and other educational establishments, and 26 State Scholarships for mature students were taken up at universities.

Awards were also made by local education authorities, and, in 1962,

23,763 of the awards were taken up at universities, making a total of 64,897 current at universities in that year.

Teachers. In order to qualify for work in maintained schools, most teachers take a course of training at a training college. Graduates and holders of some specialist qualifications are at present regarded as qualified to teach without training, but eventually holders of these qualifications will also be obliged to take a training course before being appointed for the first time, and many already do so voluntarily.

Over 140 colleges provide 3-year courses for intending teachers. The majority are known as general colleges and are concerned with most subjects taught in schools. Some are concerned only with the training of women specialist teachers of physical education or housecraft. About two-thirds of the colleges are maintained by local education authorities, and the remainder by voluntary bodies which are usually associated with a religious denomination. In 1963-64 there were about 54,000 students in the colleges.

There are also art training centres for specialist teachers of art, university departments of education for graduates and technical training colleges for people wishing to work mainly in further education. All of these offer one-year courses.

On 1 Jan. 1963 there were 282,418 full-time teachers (116,593 men and 165,825 women) employed by local education authorities in maintained schools.

Finance. Total current and capital expenditure on education in England and Wales from public funds (excluding university education) is estimated at £1,030.3m. for 1962-63, as compared with £1,108m. for 1963-64.

Scotland

Primary Education. In 1962-63 there were 2,758 schools with primary departments and the number on the registers was 583,557. In addition, there were 87 nursery schools, and nursery classes attached to 40 ordinary schools, with a total enrolment of 5,723 pupils.

As at 1 Oct. 1963, 19,169 recognized certificated teachers were employed in schools with primary departments.

There were 21 residential special schools, and 110 day special schools; special classes were attached to 49 ordinary schools. The total number of handicapped children under instruction was 10,556, of which 7,833 were mentally handicapped, 1,311 were physically handicapped, 396 were blind or partially blind and 786 were deaf or partially deaf, and 230 were otherwise handicapped. At 31 March 1963 there were 24 approved schools with a total enrolment of 1,603.

Secondary Education. In 1962-63, secondary schools numbered 744, 96 providing Scottish Certificate of Education courses only, 285 providing Scottish Certificate of Education and non-certificate courses, and 363 providing non-certificate courses only. The number of scholars taking secondary courses was 286,441. The number of teachers in secondary departments at 1 Oct. 1963 was 17,691. In 1962-63 there were 6,144 students training to be certificated teachers, including 1,036 graduates, in 7 colleges of education.

Further Education. Centres for further education numbered 1,124 in 1962-63 with a total attendance of 276,751 students. The number of students attending at the 16 central institutions was 25,989, including 7,956 full-time

and 18,033 part-time, including those in attendance at central institutions within the administrative sphere of the Department of Agriculture and Fisheries for Scotland.

Finance. The total ordinary expenditure of education authorities during 1962-63 was £100,038,000 (subject to correction on audit), and the expenditure for 1963-64 was estimated at £111,032,000.

INDEPENDENT SCHOOLS

Outside the state system of education there were in England and Wales 3,836 independent schools in Jan. 1963, ranging from large 'public' schools to small local ones catering for a handful of children; there were 485,458 pupils in these schools. In Scotland there were 139 independent schools, with a total of 17,883 pupils in 1962. Fees are charged by all these schools, which receive no grant from public funds. All independent schools are open to inspection by H.M. Inspectors, and just over one-third are recognized as efficient by the Ministry. The term 'public schools' refers to those establishments whose headmasters are members of the Headmasters' Conference. Qualifications under which a school may be represented at the Headmasters' Conference include the measure of independence enjoyed by the governing body and the amount of advanced courses undertaken. Some of these schools are for boarders only, but the majority include non-resident 'day-boys'.

The earliest of the schools were founded by, and attached to, the medieval churches. Many were founded as 'grammar' (classical) schools in the 16th century, receiving charters from the reigning sovereign. Reformed mainly in the middle of the 19th century, these schools now provide the highest form of English pre-university education. Among the most well-known independent schools are Eton College, founded in 1440 by Henry VI, with 1,196 boys; Winchester College, 1394, founded by William of Wykeham, Bishop of Winchester, 526 boys; Harrow School, founded in 1560 as a grammar school by John Lyon, a yeoman, 644 boys; Charterhouse, 1611, 660 boys. Among the earliest foundations are King's School, Canterbury, founded 600; King's School, Rochester, 604; St Peter's, York, 627.

UNIVERSITY EDUCATION

In *England* there are 20 degree-giving universities or degree-giving University Colleges. A new university college (Sussex University College) at Brighton was founded in May 1959, with faculties of arts and science. Incorporation as the University of Sussex took place in Oct. 1961. University colleges at York and Norwich also admitted undergraduates for the first time in 1963-64. Others are planned for Lancaster, Essex (Colchester), Warwick (Coventry) and Kent (Canterbury).

In *Wales* there is one university, the University of Wales, with colleges at Aberystwyth, Bangor, Cardiff and Swansea.

All these universities and the university college are independent, self-governing institutions although they receive substantial aid from the state through the University Grants Committee. This is a committee appointed by the Treasury designed to advise the Government on the needs of the universities, and to prepare plans for future development, on which sit representatives of the universities. The Ministry of Education and local education authorities have no responsibility for universities.

All universities charge fees but financial help is available to students from several sources. The universities themselves provide scholarships of

various kinds, the Ministry of Education offers a number of scholarships for nature students every year and all local education authorities have a system of awards to help suitable students to attend university. Most of the undergraduate awards made by local education authorities are offered on the results of the General Certificate of Education. The Ministry also offers supplementary awards to holders of certain scholarships provided by universities. The amount of aid given generally depends upon the parents' means. Over three-quarters of the students at the English and Welsh universities are in receipt of some form of financial assistance.

Awards known as state studentships are offered on a competitive basis by the Ministry from among candidates considered by the universities to be qualified for post-graduate studies in arts subjects; similar awards, tenable at universities or technical colleges, are offered by the Department of Scientific and Industrial Research to students studying science, mathematics and technology at the post-graduate level.

In *Scotland* there are 4 universities, Aberdeen, Edinburgh, Glasgow and St Andrews. The Carnegie Trust, founded in 1901 with a capital of £2m., has an annual income of £100,000, of which half is devoted to the equipment and expansion of the Scottish universities and half to assisting students.

The following table gives the approximate number of professors, lecturers, etc., and students for 1963-64 (the dates of foundation in brackets):

THE BRITISH COUNCIL

The British Council was established in Nov. 1934, and incorporated by Royal Charter in 1940. Its principal purposes are the promotion of a wider knowledge of the UK and the English language abroad and the development of closer cultural relations between the UK and other countries.

The council derives its funds from votes of the Foreign Office, Commonwealth Relations Office, Colonial Office, Central African Office, Department of Technical Co-operation and Board of Trade. For the year ending 31 March 1965 grants totalled £10.01m.

The principal officers of the council are as follows: *President*: Gen. Sir Ronald Adam, Bt, GCB, DSO, OBE. *Vice-President*: Sir Reginald Leeper, GBE, KCMG. *Chairman*: Lord Bridges, PC, GCVO, MC. *Vice-Chairmen*: The Countess of Albemarle, DBE; M. Edelman, MP; Sir Charles Mott-Radclyffe, MP. *Director-General*: Sir Paul Sinker, KCMG, CB.

Under the charter the powers of the council are vested in the Executive Committee of not more than 30 members, of whom 9 are nominated by the following: The Lord President of the Council, the Secretaries of State for Foreign Affairs, the Home Department, Scotland, Commonwealth Relations and the Colonies, the Chancellor of the Exchequer, the President of the Board of Trade and the Minister of Education.

The Secretary of State for Foreign Affairs is responsible to Parliament for the council's work in or relating to foreign countries and the Secretary of State for Commonwealth Relations and for the Colonies is responsible to Parliament for its work in the Commonwealth.

In March 1964 the Council had staff in most Commonwealth countries and in 47 foreign countries. It maintains centres in many of them, with the exception of Latin America, where it co-operates with and assists Anglophil societies, which themselves own English-teaching institutes.

The Council's activities overseas include the encouragement of English language teaching and British studies in schools, universities and other institutions, generally in co-operation with the educational authorities of the countries concerned. It assists in the training of teachers of English and recruits British teachers in the UK on behalf of overseas authorities for short-term service in schools and universities abroad. It maintains 120 libraries of British books and periodicals in its overseas centres and in many parts of the Commonwealth assists in the development of public library services. It fosters a knowledge of British developments and achievements through films, lectures and exhibitions and sponsors music, theatre and ballet tours by leading artists and companies in many parts of the world. In 1962-63 courses in English language, literature and British institutions were provided in 25 countries for 64,561 fee-paying adults at the Council's centres or by organizations with which it is associated. The Council conducted examinations for various British examining bodies, academic and professional, and 472 lecture tours and advisory visits by British experts were arranged.

In the UK, where the Council has 21 centres and 4 student residences, it arranged study programmes for 8,315 visitors, including holders of United Nations and Colombo Plan Fellowships, members of short courses and individual experts, most of these visits being financed from overseas sources. Services to Commonwealth and other students from overseas included meeting 11,633 on arrival, finding accommodation for 5,992, apart from those in the residences, social and cultural activities for 12,097 and vacation and shorter courses and tours for 21,489. On behalf of the Commonwealth Scholarship Commission in the UK, the Council provides administrative and welfare services for Commonwealth Scholars and Teacher-Bursars. The Council awarded 391 scholarships for post-graduate study in Britain and 352 bursaries for short periods of training. Through the Council 26

foreign countries and international bodies offered 130 scholarships to British students.

The Council publishes the following periodicals: *British Medical Bulletin*, *British Medical Book List* and *British Book News*. Brochures are published for the Council in the series: *Writers and Their Work*.

JUSTICE

England and Wales

The legal system of England and Wales, divided into civil and criminal courts, has at the head of the superior courts, as the ultimate court of appeal, the House of Lords, which hears each year a number of appeals in civil matters, including a certain number from Scotland and Northern Ireland, and very occasionally an appeal in a criminal case. In order that civil cases may go from the Court of Appeal to the House of Lords, it is necessary to obtain the leave of either the Court of Appeal or the House itself. An appeal can be brought from a decision of the Court of Criminal Appeal provided that the Court or the House of Lords is satisfied that a point of law 'of exceptional public importance' is involved, and that it is desirable in the public interest that a further appeal should be brought. As a judicial body, the House of Lords consists of the Lord Chancellor, the Lords of Appeal in Ordinary, commonly called Law Lords, and such other members of the House as have held high judicial office. The final court of appeal for certain of the Commonwealth countries is the Judicial Committee of the Privy Council, constituted on a basis similar to the House of Lords.

Civil Law. The main courts of civil jurisdiction are the county courts for less important cases, and the High Court for the more important hearings.

There are nearly 400 county courts located throughout the country, grouped in circuits, and each presided over by a paid judge. They are charged with duties in matters such as rent restriction, workmen's compensation, etc., and have a general jurisdiction (subject to certain rights of transfer to the High Court given to defendants) to determine all actions founded on contract or tort involving sums of not more than £400; but certain matters, such as actions of libel and slander, are entirely reserved for the High Court.

The High Court has both appellate and original jurisdiction, covering virtually all civil causes. The judges of the High Court are attached to one of its 3 divisions: Chancery; Probate, Divorce and Admiralty; and Queen's Bench, each with its separate field of jurisdiction. There are 53 such judges, called puisne judges, and the Lord Chancellor is the president. For the hearing of cases of first instance, the High Court judges sit singly. Appellate jurisdiction is usually exercised by courts consisting of 3 (sometimes 2) judges, though in certain circumstances a judge sitting alone may hear the appeal.

The Court of Appeal hears the more important appeals in civil actions. It consists of the Lord Chancellor, the heads of the 3 divisions of the High Court, and the Lords of Appeal in Ordinary; but effectively its head is the Master of the Rolls, aided by 11 Lord Justices of Appeal sitting in 4 divisions.

Civil proceedings are instituted by the aggrieved person, but, as they are a private matter, they are frequently settled by the parties to a dispute through their solicitors before the matter actually comes to court. In some cases, at the instance of either party, a jury may sit to decide questions of fact and the award of damages.

Criminal Law. At the base of the system of criminal courts are the lay magistrates who, outside the larger towns, try the great proportion of minor offenders (over 97% of all criminal cases) as well as undertaking an increasing proportion of civil work. Most of these magistrates' courts consist of 2 to 6 lay magistrates who are unpaid and need not possess legal qualifications, though they do have the assistance on points of law of a professional clerk to the justices. In central London and large cities there exist stipendiary magistrates, paid for their duties. These are professional lawyers and usually sit alone. Exercising summary jurisdiction in petty sessions, justices have power to pass sentences of imprisonment up to, in general, 7 months, and to impose fines up to, in general, £50. One of their most important functions is to examine accused persons charged with graver offences and to commit them for trial at Assizes or Quarter Sessions. The justices also deal with traffic offences and breaches of such statutes as those dealing with food and drugs, hours of work, etc. Certain persons are *ex-officio* justices, but the vast majority are placed upon the Commission of the Peace by the Lord Chancellor, who is assisted by advisory committees over which the Lords Lieutenants in the counties preside. Women are now eligible to act as justices, and the number on the Commission of the Peace is estimated to be about 4,000.

Specially qualified magistrates sit in juvenile courts to hear cases involving young persons under 17 years of age charged with criminal offences (other than homicide) or brought before the court as being in need of care and attention. These courts normally sit with 3 magistrates, including 1 woman, and are accommodated separately from other courts.

Above these magistrates' courts are courts of Quarter Sessions, sitting at least 4 times a year. In the counties these courts consist of lay magistrates presided over by a legally qualified chairman. In London, Lancashire and Middlesex, where the courts have continuous sittings, the chairman and deputy chairman usually preside alone. In the larger boroughs these courts are presided over by a Recorder, who is a barrister specially appointed to act in this capacity. These courts have a more extensive original jurisdiction than magistrates' courts and have certain powers to hear appeals from the magistrates' courts.

Assize courts are branches of the High Court presided over by High Court judges and sitting in certain large towns. Their responsibility is to try the most serious offences and cases presenting special difficulties. Special criminal courts called Crown Courts sit in Liverpool and Manchester, presided over by whole-time Recorders and acting both as Quarter Sessions for these cities and Assizes for South Lancashire. In London the Central Criminal Court sits at the Old Bailey, acting as the Assizes for London, Middlesex and the surrounding area, presided over by salaried judicial officers.

Appeals from magistrates' courts go to a Divisional Court of the High Court (when a point of law is involved) or to Quarter Sessions if the appeal is against conviction or sentence. Appeals from other courts of criminal jurisdiction go to the Court of Criminal Appeal. Appeals on questions of law go by right, and appeals on other matters by leave. The Court of Criminal Appeal is presided over by the Lord Chief Justice, sitting with 3 or 5 judges of the Queen's Bench Division.

There remains as a last resort the invocation of the royal prerogative exercised on the advice of the Home Secretary. By this means a small number of death sentences are each year commuted for terms of imprisonment.

All criminal trials, except those which come before courts of summary jurisdiction or the House of Lords, are tried by a judge and a jury,

consisting of 12 members, completely independent of the judiciary. The composition of the jury may be challenged if cause can be shown for objection to any juror, and, in a limited number of instances, by the defendant without showing cause. The judge is responsible for sentences given to convicted offenders, but the jury decides whether the accused is guilty or not. A unanimous verdict of guilt or innocence must be obtained. The failure of a jury to agree involves the re-trial of the case before a new jury.

Military Courts. Offences by military personnel against the system of military law created under the powers of the Army Act or Naval Discipline Act are dealt with by courts-martial. Appeals lie to a Courts-Martial Appeals Court, and from that court an appeal may lie to the House of Lords.

The Personnel of the Law. All judicial officers except the Lord Chancellor are independent of Parliament and the Executive. They are appointed by the Crown on the advice of Ministers and hold office until retirement age or, in some cases, for a fixed term of years. The legal profession is divided; barristers, who advise on legal problems and conduct cases in court, act for the public only through solicitors, who deal directly with the legal business brought to them by the public. Higher judicial appointments are made from Queen's Counsel, barristers of long standing appointed as such by the Lord Chancellor.

Aid is provided for persons who are unable through lack of means to pay for legal assistance in civil or criminal proceedings. Under the provisions of the Legal Aid and Advice Act, 1949, a person of poor or moderate means may be provided with the services of solicitor and counsel in civil proceedings in the Supreme Court and the Chancery Court of the County Palatine of Lancaster, either without charge or, if his means allow, on payment of a contribution. Legal aid was extended to County Courts as from 1 Jan. 1956. In 1962-63 there were 123,553 applications for legal aid. Under the Poor Prisoners Defence Act, 1930, any person committed for trial for an indictable offence whose means appear insufficient to enable him to obtain legal assistance in the ordinary way may, on being granted a 'defence certificate', have free legal aid and have counsel and solicitor assigned to him for his defence. In charges of murder a defence certificate must in such circumstances be granted. Persons charged before the justices may similarly be granted a 'legal aid certificate', entitling them to the services of a solicitor. The cost of legal aid is met from: (a) contributions from assisted persons; (b) costs recovered from opposed parties; (c) a grant from the Exchequer. The cost of legal aid in the year 1962-63 was £3,594,000.

The authorized strength of the police force in England and Wales in Dec. 1963 was 82,792 men and 3,079 women. The strength was 77,073 men and 2,503 women. In addition, there were 133 whole-time auxiliaries of the First Police Reserve and 45,906 special constables (including 1,115 women). Total police net expenditure (estimated) in England and Wales for 1962-63 was £136,005,353 (£127,015,198 for 1961-62).

Scotland

The High Court of Justiciary is the supreme criminal court in Scotland and has jurisdiction in all cases of crime committed in any part of Scotland, unless expressly excluded by statute. It consists of the Lord Justice-General, the Lord Justice-Clerk and 14 other judges, who are the same judges as

of the Court of Session, the Scottish supreme civil court. The Court, which is presided over by the Lord Justice-General, whom failing, the Lord Justice-Clerk, exercises an appellate jurisdiction as well as one of first instance, and sits as business requires in Edinburgh as a Court of Appeal (the minimum *quorum* being 3 judges) and also there and on circuit at various towns throughout the country for the trial of criminal cases. The decisions of the Court in either case are not subject to review by the House of Lords. One judge sitting with a jury of 15 persons can, and usually does, try cases, but 2 or more (with a jury) may do so in important or complex cases. It has a privative jurisdiction over cases of treason, murder, rape, deforcement of messengers and breach of duty by magistrates. It also, in practice, is the only court which tries cases of incest, sodomy and other serious or aggravated crimes against person or property and generally those cases in which a sentence greater than imprisonment for 2 years may be imposed either under statute or common law. Moreover, the Court has inherent power to try and to punish all acts which are plainly criminal though previously unknown and not dealt with by any statute.

The appellate jurisdiction of the High Court of Justiciary extends to all cases tried on indictment, whether in the High Court or the Sheriff Court, and persons so convicted may appeal to the Court on any ground involving a question of law alone, or apply for leave to appeal, on any question of fact or of mixed law and fact, or on any other sufficient ground, and also against sentence unless it is one fixed by law. It is also a court of review from courts of summary criminal jurisdiction, and on the final determination of any summary prosecution either party may appeal to the Court by way of stated case on questions of law, procedure, etc., but not on questions of fact. A further or complementary form of process of review which can be resorted to by convicted persons in these courts is by Bill of Suspension (and Liberation); but it is of strictly limited application. A prosecutor in these courts may also bring under review a decision in law, prior to final judgment of the case, by way of Bill of Advocation, but this process is infrequently resorted to. The Court also hears appeals under the Courts-Martial (Appeals) Act 1951.

The Sheriff Court has an inherent universal criminal jurisdiction (as well as an extensive civil one) limited in general to crimes and offences committed within a sheriffdom (*i.e.*, a county or a combination of counties), which has, however, been curtailed by statute or practice under which the High Court of Justiciary has exclusive jurisdiction in relation to the crimes above-mentioned. This Court is presided over by a Sheriff-Principal or a Sheriff-Substitute, and when trying cases on indictment sits with a jury of 15 persons. His power of awarding punishment involving imprisonment is restricted to 2 years in the maximum, but he may under certain statutory powers remit the prisoner, to the High Court for sentence. The Sheriff also exercises a wide summary criminal jurisdiction and when doing so sits without a jury; and he has concurrent jurisdiction with every other court within his sheriffdom in regard to all offences competent for trial in summary courts. The great majority of offences which come before the courts are of a minor nature and, as such, are disposed of in the Sheriff Courts. In cases indicted for trial in the High Court of Justiciary the Pleading, or First Diet, is always held in the Sheriff Court and, in these cases, the Sheriff may dispose of any objection of a preliminary nature, whether to the citation or relevancy or otherwise, or may refrain from doing so. In either case the Sheriff's decision can be reviewed by the High Court at the Second, or Trial, Diet.

Burgh Magistrates (Police Courts) and Justice of the Peace Courts have

jurisdiction in petty cases occurring within the burgh, or county, and in minor offences under various statutes.

The Court of Session, presided over by the Lord President (the Lord Justice-General in criminal cases), and divided into an Inner House comprising 2 divisions of 4 judges each, and an Outer House comprising 8 single judges, exercises the highest civil jurisdiction in Scotland, with the House of Lords as a court of appeal.

The police forces in Scotland at the end of 1963 had an authorized establishment of 10,130 (including 359 women); the strength was 9,409 men and 329 women. Whole-time 'additional' policemen numbered 116, and there were 7,327 part-time special constables. The estimated expenditure on police, borne by the Government, was £7,172,825 for 1962-63.

Daily average population in prisons and borstals in England and Wales in 1962 was 31,063 (convicted, 29,030; unconvicted, persons on remand or awaiting trial, 1,514, and 519 civil prisoners); in Scotland, 1963, 3,505 (convicted, 3,118; untried, 387); 1962, 3,238 (convicted, 2,877, untried, 361).

NATIONAL INSURANCE

The National Insurance Act, 1946, came into operation on 5 July 1948, and the existing schemes of health, pensions and unemployment insurance were repealed from that date.

This Act applies in general to all persons in Great Britain who are over school-leaving age, and divides contributors into three classes, *i.e.*: (a) employed persons who work under contract of service or are paid apprentices; (b) self-employed persons; (c) non-employed or insured persons who are not in one of the other two classes.

From April 1961 a measure of graduated contributions and additions to retirement pensions related to employees' earnings has been introduced into national insurance. Members of an occupational pensions scheme can, subject to certain conditions, be contracted out of the graduated scheme. The main rates of combined weekly contributions payable from 3 June 1963 are as follows:

		Ordinary Flat-rate Contributions			
		Men		Women	
		Age 18 or over	Age under 18	Age 18 or over	Age under 18
Class 1: Employees not contracted out of the graduated part of national insurance . . .	Employee . . .	11s. 8d.	7s. 8d.	9s. 8d.	6s. 4d.
	Employer . . .	9s. 8d.	7s. 0d.	8s. 4d.	5s. 7d.
	Total . . .	21s. 4d.	14s. 8d.	18s. 0d.	11s. 11d.
Graduated national insurance contributions range from 1d. a week by employees earning just over £9 a week, to 7s. 8d. a week by those earning £18 a week or more. The employer pays an equal amount.					
Class 1: Employees contracted out of the graduated part of national insur- ance . . .	Employee . . .	14s. 1d.	—	11s. 2d.	—
	Employer . . .	12s. 1d.	—	9s. 10d.	—

Class 2: Self-em- ployed people . . .		16s. 2d.	9s. 1d.	13s. 2d.	7s. 9d.
Class 3: Non-em- ployed people . . .		13s. 0d.	7s. 4d.	10s. 0d.	6s. 0d.

The weekly flat-rate contributions shown above include for employees in Class 1, the industrial injuries contributions, and for all Classes the National Health Service contributions.

Contributions for a man are payable up to the age of 65. If, at that age, he retires from work, he pays no more contributions. If he continues working, contributions are payable to the age of 70. Comparable ages for women are 60 and 65.

Benefits. The benefits are: (1) Unemployment benefit; (2) Sickness benefit; (3) Maternity benefit; (4) Widow's benefit; (5) Guardian's allowance; (6) Child's special allowance; (7) Retirement pension; (8) Death grant.

Employed persons qualify for all the benefits; self-employed qualify for all except unemployment; non-employed qualify for all except unemployment, sickness and maternity allowance.

Qualification for any benefit depends upon the fulfilment of the appropriate contribution and other conditions laid down in the Act and Regulations.

Sickness and Unemployment Benefit. The normal rate is £3 7s. 6d. a week, plus £2 1s. 6d. a week for an adult dependant, plus £1 for the first child below the family-allowance age limit and 12s. for each subsequent child in addition to any family allowance due.

Maternity Benefit. For a confinement a woman may receive a maternity grant of £16 and, where 2 or more children are born at the confinement, a further grant of £16 for each additional child who is alive 12 hours after its birth. In addition, home confinement grant of £6 is payable where the confinement takes place in the woman's home or otherwise at her own expense. If the woman has been gainfully employed or self-employed, and has been paying full national insurance contributions, she may receive a maternity allowance of £3 7s. 6d. a week normally payable for 18 weeks commencing 11 weeks before the expected week of confinement, provided she does no work during this period. Maternity allowance may be increased in certain circumstances in respect of dependants in the same way as sickness and unemployment benefits.

Widow's Benefit. On her husband's death a widow normally qualifies for 13 weeks for an allowance of £4 15s. a week for herself plus allowances for qualifying children at the following rates: £1 17s. 6d. for the first, £1 9s. 6d. for the second and £1 7s. 6d. for each other child. At the end of the 13 weeks she receives a widowed mother's allowance of £3 7s. 6d. for herself, and the allowances for the qualifying children continue at the same rate as for the first 13 weeks of widowhood. She may also receive her allowance at the personal rate of £3 7s. 6d. a week if she has living with her a child who, although not a qualifying child, is under 19. If she is over 50 (40 if the husband died before 4 Feb. 1957) when this allowance ceases and 3 years have elapsed since marriage, she qualifies for a widow's pension of £3 7s. 6d. a week. A widow left without any children under the age limit will receive a widow's pension of £3 7s. 6d. a week after her widow's allowance ceases if she is 50 or over and has been married not less than 3 years when she loses her husband. A working widowed mother's allowance or widow's pension is reduced for earnings above £7 or £5 a week respectively, but the reduction in a widowed mother's allowance cannot exceed £2 1s. 6d.

Child's Special Allowance. A woman whose marriage has been dissolved or annulled may, on the death of her former husband, be paid an allowance for any children of that marriage who are below the family allowances age limit, and to whose support he had contributed before his death. The allowance is payable at the rate of £1 17s. 6d. a week for the first child, £1 9s. 6d. for the second child and £1 7s. 6d. for each subsequent child in addition to any family allowances due.

Guardian's Allowance. A person who has in his family a child below the family-allowances age limits may be entitled to a guardian's allowance of £1 17s. 6d. a week if both the parents of the child are dead and at least one of them was insured under the National Insurance Acts. When the child is illegitimate, or the parents were divorced, or one parent is missing, the allowance may be paid on the death of one parent only.

Retirement Pension. In order to receive a retirement pension, a standard flat rate of £3 7s. 6d. a week for a man or woman on his or her own insurance and £2 1s. 6d. a week for a woman through her husband's insurance, men between 65 and 70 and women between 60 and 65 must have retired from regular employment. An increase of £2 1s. 6d. a week may be payable for a dependent wife if she does not earn more than £2 1s. 6d. a week. In addition, £1 a week may be payable for the first child of the family under the age limits; and 12s., in addition to any family allowances, for each subsequent child. In certain circumstances an increase of £2 1s. 6d. a week may be payable for a woman having care of the pensioner's children. If, after being awarded a retirement pension, a man under 70 or a woman under 65 earns more than £5 in a calendar week, the pension for the next pension week, including any increase for a wife or child, will be reduced by 6d. for every shilling earned between £5 and £6 and by 1s. for every shilling earned over £6. If retirement is postponed after minimum pension age increments of flat rate pension of 1s. a week can be earned for every 12 contributions which are paid for weeks of employment or self-employment between the ages of 65 and 70 for a man (60 and 65 for a woman). These increments are added to the pension when a person eventually retires or reaches the age of 70 (65 for a woman), whichever is the earlier. At age 70 (65) the pension for which a person has qualified may be paid in full whether a person continues in work or not irrespective of the amount of earnings.

Death Grant. The normal amount of the payment is: For an adult, £25; for a child aged 6 but under 18, £18 15s.; for a child aged 3 but under 6, £12 10s.; for a child under 3, £7 10s. For the death of a person who was within 10 years of pensionable age on 5 July 1948 (i.e., a man over 55 and a woman over 50 on that date) only half the standard amount is payable. No grant is payable for the death of a person over pensionable age on 5 July 1948.

Unemployment benefit is paid through the Employment Exchanges. Retirement pensions are generally paid through Post Offices by order books. Other payments are usually made through local Pensions and National Insurance Offices by a postal draft.

NATIONAL INSURANCE (INDUSTRIAL INJURIES) ACT, 1946

The Industrial Injuries Act, which also came into operation on 5 July 1948, provides a system of insurance against 'personal injury by accident arising out of and in the course of employment' and against certain prescribed diseases and injuries due to the nature of the employment. It takes the place of the Workmen's Compensation Acts and covers broadly the persons who are insured as employed persons under the National Insurance Act. The cost of the contribution is included in the employed person's National Insurance stamp, but there are no contribution conditions for the payment of benefit. Three types of benefit are provided:

(1) *Injury benefit*, payable during incapacity for work for a maximum of 26 weeks from the date of the accident or the development of the prescribed disease. The rate of this benefit is £5 15s. a week, with increases of £2 1s. 6d. for 1 adult dependant and £1 for the first child under the age limits and 12s. for each subsequent child in addition to any family allowances due. If the insured person is under 18 years of age and is not entitled to a dependant's

increase, benefit will be payable at a reduced rate—£4 6s. 3d. for a person between 17 and 18 and £2 17s. 6d. for a person under 17.

(2) *Disablement benefit.* This is payable where, as the result of an industrial accident or prescribed disease, some loss of faculty persists beyond any initial period of injury benefit. The loss of faculty will be assessed at a percentage by comparison with a person of the same age and sex whose condition is normal. If the assessment is 20%, or more, benefit will be a pension varying according to the assessment, from £1 3s. a week to £5 15s. a week. If the assessment is under 20%, benefit will normally be a gratuity of an amount not exceeding £380. Increases of benefit may be payable where a disablement causes special hardship or unemployability, where the pensioner is in need of constant attendance, or where the pensioner is in hospital for treatment for his injury. In the case of an unemployable pensioner, or a pensioner receiving hospital treatment, an increase of £2 1s. 6d. for an adult dependant and £1 for the first child under the age limits and 12s. for each subsequent child in addition to any family allowance due, will be payable. Pensions for persons under 18 are reduced similarly to injury benefit.

(3) *Death benefit.* On the death of a person as the result of an industrial accident or a prescribed disease, certain dependants may qualify for benefit. Benefit for a widow is a pension normally of £4 15s. weekly for the first 13 weeks and thereafter £3 15s., depending on such factors as age, entitlement to a child's allowance and incapacity of self-support. If the conditions for pension at the higher rate are not satisfied the widow may receive a pension of 20s. a week. Children's allowances are payable to the widow, or other person, caring for children of the deceased. For widows, these allowances are usually at the rate of £1 17s. 6d. a week for the eldest or only child, £1 9s. 6d. for the second child and £1 7s. 6d. for any subsequent children: for other persons, the rate is £1 and 12s. respectively. A pension of £1 is payable to a woman having care of a child of the deceased. Benefit for widowers, parents and certain other relatives, take the form of pensions, allowances or gratuities according to the relationship to, and degree of maintenance by, the deceased.

WAR PENSIONS

The number of beneficiaries in receipt of war (1914-18) pensions or allowances in payment as at 31 Dec. 1963 was 351,295. The number of beneficiaries in receipt of war (1939-45) pensions or allowances in payment as at 31 Dec. 1963 was 986,218. The estimated expenditure for both wars for 1964-65 is £110,857,000. The expenditure is exclusive of administrative expenses.

NATIONAL INSURANCE FUNDS

At 1 April 1962 the combined balances of the National Insurance Fund and National Insurance (Reserve) Fund amounted to £1,445,458,633. Income to the National Insurance Fund during the period 1 April 1962 to 31 March 1963, consisting of contributions from insured persons and employers, payments from the Exchequer and interest on investments, etc., was £1,194,731,255. Payments of benefit in respect of unemployment were £64,453,624; sickness, £161,480,201; maternity, £25.5m.; widows, £84m.; guardian's allowance, £450,000; child's special allowances, £20,000; flat-rate retirement pensions, £806,942,119; graduated retirement pensions, £130,000; death grants, £6,704,006. The combined balance at 31 March 1963 was £1,432,859,216.

At 31 Dec. 1961 retirement and contributory old age pensions were paid to about 1,887,000 men and about 3,789,000 women. About 21,000 widows' allowances, about 568,000 other widows' benefits and about 5,800 guardians' allowances, orphans' pensions and children's allowances were in payment at the same date.

Industrial Injuries Fund. At 1 April 1962 there was a balance of £288,093,247. Income during the period 1 April 1962 to 31 March 1963, consisting of contributions from insured persons and employers, payments from the Exchequer and interest on investments, etc., amounted to £82,893,892. Benefits for injury totalled £20,021,362; for disablement, £33,366,476; for deaths, £4m. Administrative and other payments cost £8,863,553. There was a balance at 31 March 1963 of £304,535,748.

FAMILY ALLOWANCES

Family allowances are cash payments, for the benefit of the family as a whole, to families with more than one child. The allowance is at weekly rate of 8s. for the second child and 10s. for each younger child. The children must be under the age limits. These are 15 for children who leave school at that age, 16 for certain handicapped children, and 19 for those who are receiving full-time education at a school or are apprentices with low earnings.

NATIONAL ASSISTANCE BOARD

National Assistance. Under the National Assistance Act, 1948, the National Assistance Board is responsible for the grant of financial assistance to any persons in Great Britain aged 16 years or over who are not in full time remunerative work and who are without resources, or whose resources (including national insurance benefits) need to be supplemented in order to meet their requirements. The general standards by reference to which assistance is granted are determined by statutory regulations approved by Parliament. Persons who are dissatisfied with the amount of assistance granted to them may appeal to one of the local Appeal Tribunals established under the Act.

During the financial year ended 31 March 1963 net payments on national assistance amounted to £192,167,000.

Non-contributory Pensions. The Old Age Pensions Act, 1936, provides for the payment of non-contributory old age pensions, at the expense of the Exchequer, to persons who satisfy certain conditions as to age (they must have reached the age of 70 on or before 29 Sept. 1961, or the age of 40 at any date if they are blind), nationality, residence and means and who are not receiving retirement pensions or widows' benefit under the National Insurance Act, 1946. The rates of pension range from 28s. 4d. to 4s. 4d a week according to means, with a maximum of 18s. 4d. for married women. Claims are decided by the National Assistance Board, subject to a right of appeal to the local Appeal Tribunal established under the National Assistance Act, 1948.

During the financial year ended 31 March 1963 the net expenditure on non-contributory old age pensions was £7,533,000.

NATIONAL HEALTH

The National Health Service in England and Wales started on 5 July 1948 under the National Health Service Act, 1946. There is a separate Act for Scotland and also one for Northern Ireland, where the Health Services are run on similar lines to those in England and Wales.

The National Health Service, which is available to every man, woman and child, is a charge on the national income in the same way as the armed forces and other necessities. Every resident in this country is entitled to use any complete part of the services, and no insurance qualification is necessary.

Most of the cost of running the service is met from the national exchequer, *i.e.*, from taxes, and about half the expenses of the local health services are met from local rates.

Since Sept. 1957 there has been a weekly National Health Service contribution which is now 3s. 4d. for men (employee 2s. 8½d., employer 7½d.). Women, persons under 18, self-employed and non-employed persons pay a smaller contribution. For convenience this contribution is collected with the National Insurance contribution in a single combined weekly stamp and in 1963-64 was estimated at £145m. (£144m. in 1962-63). Eligibility for treatment under the National Health Service does not in any way depend on the payment of contributions.

Organization. England and Wales is divided into 15 hospital regions, each with its own Regional Hospital Board, which administers the hospital and specialist services in the area. The chairmen and members of the boards are appointed by the Minister of Health. Teaching Hospitals have their own boards of governors whose chairmen and members are similarly appointed by the Minister.

Services. The main branches into which the National Health Service is broadly divided are: hospital and specialist services, general medical and dental services, pharmaceutical services and supplementary ophthalmic services; local health authority services. All these services are free of charge except for such things as prescription items, spectacles, dentures and dental treatment, appliances, amenity beds in hospitals and for some of the local authority services, for which a partial charge may be made.

The total cost of the Health and Welfare Services (England and Wales) is estimated at £996m. for 1963-64 (£963m. in 1962-63) and the estimated net expenditure by the Exchequer (except for the Local Health and Welfare Services, where the rates and the Exchequer grants amounted to £117m.) in 1963-64 is £667m.

¹ Excluding £325m. in 1961-62, £393m. in 1962-63 and £397m. in 1963-64, met from receipts under various Acts.

The Exchequer issues shown above were supplied to all departments to meet all their requirements, whether original or supplementary.

In addition to the ordinary expenditure given above, there were advances outstanding at 31 March 1963 (in £1m.), to the National Coal Board, amounting to 949, Electricity Council, 1,120; Gas Council, 157; British Railways Board, 1,564; Local Authorities, 2,575; New Towns Corporations, 322.

Advances outstanding to the Exchange Equalization Account amounted to 525; International Monetary Fund, 696. The money raised by National Savings Certificates in 1962-63 was £181m.; while the principal of National Savings Certificates paid off amounted to £166m.; Premium Bonds raised £73m. The balance in the Exchequer on 31 March 1963 was £3,482,064.

The following were the principal items of the original estimates for supply (civil) services for the years 1963-64 and 1964-65 (in £1,000):

	1963-64	1964-65
Central government and Exchequer	93,000	95,000

Gross National Product. In 1962 (1963 in brackets) gross national product amounted (in £1m.) to 25,052 (26,358); including consumers' expenditure, 18,498 (19,432), public authorities current expenditure on goods and services, 4,857 (5,168), gross fixed capital formation at home, 4,670 (4,816), value of increase in stocks and work in progress, 101 (155), net income from abroad (exports of goods and services less imports of goods and services), -107 (-86), subsidies, 625 (578), less taxes on expenditure -3,913 (-4,046).

Personal income (before tax) amounted in 1962 to £23,926m. (£25,219m. in 1963).

National Incomes Commission. On 5 Nov. 1962 a National Incomes Commission was set up to provide impartial and authoritative advice on certain important matters concerning incomes. Its terms of reference include investigation of claims and questions of pay, conditions of service and employment referred to it by the parties concerned, and review of matters of pay and conditions of employment referred to it by the Government where the cost is met wholly or partly from the Exchequer (excluding the nationalized industries, the higher civil service and other areas where reviewing machinery already exists). It is to take account of evidence from the parties concerned, from parties with a substantial interest in the matter under review, and is to consider the national interest with particular reference to the inter-relationship of increases in incomes and national production, the use of man-power resources and possible repercussions of income settlements on other forms of employment. It may also undertake general or particular studies of matters related to the functions outlined above.

National Economic Development Council. On 7 March 1962 the National Economic Development Council held its first meeting. It consists of some 20 members, representing the Government, the Trade Unions and the management of private and nationalized industries, and independent members. The purpose of the Council is to examine long-term economic objectives and to consider how best they might be achieved. The Council may commission studies for this aim. It is assisted by a full-time (non-civil service) staff working under the director. Its first reports were produced in Feb. 1963.

TAXATION

Income Tax. The gross amount of income brought under the review of the Inland Revenue Department in the year ended 5 April 1939 in Great Britain and Northern Ireland, was £4,158,111,482; in 1961-62 it was estimated to be approximately £24,455m. The income on which tax was chargeable in 1938-39, after allowing for exemptions and reliefs, was £1,482,564,496, and the estimated amount for 1960-61 was £8,873m. The estimated number of incomes in Great Britain and Northern Ireland above the exemption limit in 1938-39 was 9.8m. and was 21.1m. in 1960-61. The estimated number chargeable was 19.2m. for 1960-61.

The tax is mainly on the income of individuals, but it extends also to income accruing to and retained by corporate bodies, e.g., the undistributed profits of companies. It is imposed, for each year of assessment ending 5 April, at a standard rate supplemented in the case of individuals by the surtax (*see below*). The rates and principal allowances for recent years have been as follows:

Standard rate. 1953-55 9s. in the £, 1955-59 8s. 6d., 1959-65 7s. 9d.

Earned income allowance. 1952-57 two-ninths of the first £2,025 of earned income (max. £450); 1957-65 two-ninths of the first £4,005 of earned income (max. £890) and one-ninth of the next £5,940 (max. £660). For 1955-65 the two-ninths allowance was given on investment income also where the total income did not exceed £450. Known as small income relief this relief gives an effective exemption of £257.

Personal allowance (married). 1952-55, £210, 1955-63 £240, 1963-65 £320. A married woman received a separate single personal allowance on her earned income.

Personal allowance (single). 1952-55 £120, 1955-63 £140, 1963-65 £200.

Each child. 1952-55 £85; 1955-57 £100; 1957-63 £100 for a child not over 11, £125 for a child between 11 and 16, and £150 for a child aged 16 and over continuing further education. In 1963 these rates were increased to £115, £140 and £165.

Reduced rates on taxable income.

1953-55, £100 at 2s. 6d., £150 at 5s., £150 at 7s.
 1955-59, £60 at 2s. 3d., £150 at 4s. 9d., £150 at 6s. 9d.
 1959-63, £80 at 1s. 9d., £150 at 4s. 3d., £150 at 6s. 3d.
 1963-65, £100 at 4s., £200 at 6s.

For 1948-65 separate reduced rate relief was allowed on a married woman's earned income.

The Exchequer receipt of income tax was £335,901,000 in 1938-39 and £2,745m. in 1963-64.

Surtax. Surtax is payable by individuals whose total income from all sources, after making certain deductions referred to below, exceeds £2,000. The rates are on a graduated scale, those for 1952-65 rising from 2s. in the £ on the layer of income £2,000-£2,500 to 11s. in the £ on the layer of income exceeding £30,000.

In general, the definition of net income chargeable to surtax follows that used for income tax, but certain exceptions and deductions allowable for income tax are not allowed for surtax, and vice versa. For 1956-57 and subsequent years the amount by which certain personal allowances exceed the single allowance (£140) is allowed as a deduction from total income. As from 1961-62 the earned income relief applicable to income tax will apply to surtax, and the starting level for earned income will be £4,000.

The number of persons assessed for surtax for 1937-38 was 107,116, with a total assessed income of £567.8m. and for 1960-61 the number was 471,000, with a total assessed income of £2,040m. Exchequer receipt from surtax in 1963-64 was £178m.

Profits Tax. This tax applies, with certain exceptions, to trades or businesses carried on by bodies corporate or by unincorporated societies or other bodies. The profits chargeable are computed on income-tax principles, subject to certain modifications. As from 1 Jan. 1952 the rates of profits tax were: nationalized undertakings, industrial and provident societies, businesses carried on by persons not resident in the UK, 2½%; other bodies and societies, profits distributed, 22½%, profits undistributed, 2½%. The rate of profits tax on profits distributed was increased to 27½% as from 1 Nov. 1955 and to 30% as from 1 April 1956; the rate of 2½% on undistributed profits, nationalized undertakings, etc., was increased to 3% as from 1 April 1956. From 1 April 1958 the different rates of profits tax were replaced by a single flat rate of 10% applicable to all cases, but the basis of charge for industrial and provident societies and building societies was altered. From 1 April 1960 the single flat rate was increased to 12½% and from 1 April 1961 to 15%.

No tax is payable where the profits do not exceed £2,000. Where the profits exceed £2,000 but do not exceed £12,000, an abatement is allowed. The estimated total chargeable profit (after deducting abatements) for traders' accounting periods ending in 1959-60 was £2,940m. The corresponding tax chargeable was £294m.

The net receipts were £383m. in 1962-63 and £391m. in 1963-64, including small sums attributable to Excess Profits Tax and the Excess Profits Levy, repealed as from Jan. 1 1947 and 1 Jan. 1954 respectively.

NATIONAL DEBT

Borrowing by the State on the security of taxes was practised in Norman times, but the National Debt really dates from the time of William III. The acknowledged debt in 1689 was about £664,000, on which the annual charge for interest and management was £40,000. At various subsequent dates the amounts (in £1m.) were as follows (including the Irish debt throughout):

		Debt ¹	Annual charge ²	Annuities only

Other assets (excluding shares)		100.1

Share assets include Cable and Wireless, Ltd, nominal value, £30m.; British Petroleum Oil Co., holding of £112.5m. ordinary stock.

On 31 March 1963 the net national debt amounted to £29,847,558,992, including National Savings Certificates, £2,135,819,313; 3% Savings Bonds, 1955-65, £709,343,745; 3% Savings Bonds, 1960-70, £1,018,505,745; Treasury Bills, £4,237,370,000; Premium Savings Bonds, £394,408,528; undated 3½% War Loan, £1,909,424,040; 3% Savings Bonds, 1965-75, £1,073,003,359; Defence Bonds, £1,122,447,855.

Advances to Allied Governments (Second World War), outstanding at

31 March 1963, amounted to: Poland, £51,566,669; USSR, £4,477,093; Czechoslovakia, £19,747,398; China, £12,237,395; total, £88,028,555. Post-war liabilities of Germany and Austria outstanding at 31 March 1963 totalled £3.5m. Amounts due from other overseas governments under agreements, etc., £4.7m.

LOCAL TAXATION

The amount of rates collected by local authorities in 1962-63 in England and Wales is estimated to have been £829m. (£913m. in 1963-64); in Scotland £90m. (£77.4m. in 1961-62).

Rate-deficiency grants payable to county, county borough and county district councils under section 5 of the Local Government Act, 1958, according to the latest estimates amounted to £119.98m. for 1962-63 and £152.37m. for 1963-64.

The General Grant Order, 1962, prescribed the aggregates of the General Grant for 1963-64 and 1964-65 to be paid to county and county borough councils under section 1 of the Local Government Act, 1958. These aggregates were £562m. for 1963-64 and £589m. for 1964-65. These amounts were, however, increased to take account of additional expenditure on teacher's pay awards and for other unforeseen increases in expenditure. The revised figure for 1963-64 is £587m. and that for 1964-65 is £619m. In addition to these grants, local authorities receive other large Government grants, e.g., from the Home Office for police expenses, from the Ministry of Housing and Local Government for housing, and from the Ministry of Transport for highways.

In Scotland, Exchequer Grants under the Local Government (Financial Provisions) (Scotland) Act, 1954, as amended by the Valuation and Rating (Scotland) Act, 1956, the Local Government and Miscellaneous Financial Provisions (Scotland) Act, 1958, and as continued and modified by the Local Government (Financial Provisions) (Scotland) Act, 1963, amounted to £21.04m. (estimated) in 1963-64. General grant under the Local Government (Scotland) Act, 1958, amounted in 1963-64 to £69.11m. (provisional) and payments under Part V of the Local Government Act, 1948, amounted in 1963-64 to £3,416,000.

Local authority loan debt at 31 March 1963 amounted to £8,075m. The Public Works Loan Board provided £2,997m., and £94m. was represented by quoted Stock Exchange securities.

The rateable value on which rates were leviable in England and Wales immediately prior to the revaluation which took effect from 1 April 1963 was £756,164,511. The revised rateable value at 1 April 1963 was £2,039,979,659, but this figure does not include the increase in value of crown properties which were revalued after the beginning of the year. In Scotland the effective rateable values was £98,817,000 in 1963-64.

In England and Wales the average amount of the rates collected per £ of rateable value was 6s. 8½d. in 1913-14; and was estimated to be 2s. 6d. for 1962-63 and 8s. 11d. for 1963-64. In Scotland the estimated average amount per £ of rateable value of the rates, inclusive of water rates, in 1963-64 was 21s. 0d.

The rateable value of the County of London was £332,908,134 in 1963-64. The net debt of the County of London on 31 March 1963 amounted to £386,068,767, including £290,154,788 for housing; the net debt per head of population for 1962-63, was £121 4s. (£112 3s. in 1961-62). The expenditure for 1962-63 was £205,375,069. Of this £61,778,760 was met from rates. Education services of the L.C.C. for 1962-63 cost £69,050,513.

DEFENCE

All problems of defence are considered by the Defence and Overseas Policy Committee presided over by the Prime Minister and consisting of Ministers

of the Government, among whom are the Secretary of State for Defence, the Foreign Secretary, the Home Secretary and the Secretary of State for Commonwealth Relations and the Colonies. The Secretary of State for Defence is responsible to Parliament for carrying out the decisions of this Committee.

The transformation of the First Lord of the Admiralty and the Secretaries of State for War and Air into 3 Ministers of Defence and the complete re-organization of their departments under the Secretary of State for Defence took place in 1964. A Defence Council was also established under the Secretary of State to exercise the powers of command and administrative control previously exercised by the separate service councils. Its membership consists of the Secretary of State for Defence, the 3 Ministers of Defence, the Chiefs of the Defence, Naval, General and Air Staffs, the Chief Scientific Adviser to the Secretary of State for Defence and the Permanent Under-Secretary of State.

NAVY

The Royal Navy is a permanent establishment, governed by the Admiralty Board. The Secretary of State for Defence is Chairman of the Admiralty Board. The members of the Admiralty Board and their responsibilities are as follows: The Minister of Defence for the Royal Navy (formerly First Lord of the Admiralty) normally acting as Chairman of the Admiralty Board on behalf of the Secretary of State; The Parliamentary Under-Secretary of State for Defence for the Royal Navy (formerly Civil Lord); The Chief of Naval Staff and First Sea Lord (professional head of the Royal Navy), assisted by the Vice-Chief of Naval Staff and the Deputy Chief of Naval Staff (formerly also Fifth Sea Lord); The Chief of Naval Personnel and Second Sea Lord, responsible for the manning of the Fleet; The Controller of the Navy (formerly also Third Sea Lord), responsible for research and development, design, production, inspection, repair and maintenance of ships, their weapons and equipment; The Chief of Naval Supplies and Transport and Vice-Controller (formerly also Fourth Sea Lord), responsible for the provision of naval armament, victualling and medical stores and fuels, and for the movement of transport of persons and material, and superintending Dockyard organization and maintenance of the Fleet; The Chief Scientist (Royal Navy), responsible for superintending the conduct of all research and development and the deployment of scientific effort; and The Second Permanent Under-Secretary of State (Royal Navy) (formerly Permanent Secretary), Civil Service head, responsible for general co-ordination of the Admiralty Board business, the interior economy of the Navy department, Navy contracts and the administration of civil staff, and accounting officer for Navy Votes responsible for the control of expenditure and adviser to the Admiralty Board on financial questions.

The following is a summary of the more important units:

ARMY

Control of the British Army is vested in the Defence Council and is exercised through the Army Board, which consists of 5 civilian and 6 military members. The Secretary of State for Defence is Chairman of the Army Board, with the Minister of Defence for the Army as Vice-Chairman. Other civilian members are the Parliamentary Under-Secretary of State for Defence (Army), the Permanent Under-Secretary of State (Army) and the Chief Scientist (Army).

The Military Members of the Army Board are the Chief of the General Staff, the Adjutant-General, the Quartermaster-General, the Vice- and Deputy-Chiefs of the General Staff, and the Master-General of the Ordnance. The Chief of the General Staff deals through the Vice-Chief with Army aspects of operations and intelligence; and, through the Deputy-Chief with the policy for organization, training, equipment, weapons and the Territorial Army. The Adjutant-General is responsible for raising and organizing the personnel of the Army, and for their well-being. This involves man-power planning, recruiting, personnel administration, release and recall of reserves, discipline and the administration of military law, medical services, education, leave, welfare and other personal services. The Quartermaster-General is responsible for the feeding and quartering of the Army; all military movement, including the RAF; the issue and repair of equipment and vehicles; the supply of ammunition; the provision of stores; upkeep and operation of military ports, railways and inland water transport; supply and delivery of petroleum products; provision and operation of transport; barrack services; canteen services; mail; military labour and civil labour in overseas theatres; salvage; fire service; veterinary and remount service; certain services for the RAF in an overseas theatre. Corps controlled by the Quartermaster-General for these purposes include: Royal Engineers (transportation, movement control, engineers stores and postal services), Royal Army Service Corps, Royal Army Ordnance Corps, Army Catering Corps, Royal Electrical and Mechanical Engineers, Royal Pioneer Corps, Royal Army Veterinary Corps.

The Master-General of the Ordnance is responsible for the research, development and production of all arms, vehicles and equipment for the Army, with the exception of aircraft, guided and nuclear weapons, and electronic equipment, for which the Ministry of Aviation is responsible.

The Permanent Under-Secretary (Army) is the accounting officer, responsible for control of expenditure, estimates, accounts and audit, civilian staff, contracts, claims, chaplaincy and pay services, and public relations.

The Army is organized into commands and districts as follows: Scottish (HQ Edinburgh), Northern (York), Southern (Salisbury), Eastern (Hounslow), Western (Chester) and N. Ireland (Lisburn) Commands; Home Commands, other than N. Ireland, are divided into a number of Districts. There are three chief commands overseas: Middle East Land Forces, Far East Land Forces and British Army of the Rhine.

The National Army consists of an Active (or Regular) Army and a Reserve Army, which includes the Regular Army Reserve, the Army Emergency Reserve, the Territorial Army, the Territorial Army Reserve and the Territorial Army Emergency Reserve. The Regular Army is composed of men and women who enlist voluntarily.

Men who enlist voluntarily do so for 22 years with the exception of the Brigade of Guards, into which a man may enlist for 3 years, and some specialists who may also enlist for 3 years if they have certain civilian qualifications on enlistment. A man who enlists for 22 years has the right to transfer to the reserve at the end of 6 or 9 years from the date of attestation, or to terminate his service after 12 years or any succeeding period of 3 years from that date.

Women may enlist for 4 years with extensions of 1 or 2 years at a time up to a maximum of 12 years or for 22 years with the option to terminate their service every 3 years. Discharge is immediately granted on marriage if this is desired.

The Territorial Army is made up of: (a) men who may have voluntarily engaged for an initial period of 2, 3 or 4 years (and who subsequently re-engage for further periods of 1, 2, 3 or 4 years), and (b) former National Servicemen who have completed their 2 years service with the Active Army and have passed on to do 3½ years compulsory part-time service, during which they are normally required to undergo training for a maximum of 20 days, including one continuous period of 15 days in annual camp but this is suspended at present.

The Army Emergency Reserve, consisting mainly of technical or specialized units, is designed to complete units and formations to strength in technical and trade personnel on mobilization. It is maintained by the voluntary enlistment of civilians for periods of 2, 3 or 4 years (which may be extended by periods of 1, 2, 3 or 4 years), and by National Servicemen directed to it instead of to the TA for their part-time service. This reserve is composed of three categories: AER I, with liability for service at home and overseas in a peace-time emergency short of war; AER II, with liability to be called up on threat of war; and AER III, which consists entirely of volunteers who are qualified electronic technicians. This category has identical liability as Category II. The AER generally do 15 days annual training supervised by Regulars; they receive bounties of varying amounts, together with army pay and allowances during training. National Servicemen serving with the AER are also allowed to become volunteers.

Queen Alexandra's Royal Army Nursing Corps consists of Regular, Army Emergency Reserve, and Territorial Army officers and other ranks with their Reserves. Officers commissioned from civil life are required to be State Registered Nurses. Other ranks are trained in many trades suitable for women in the Medical Services at home and overseas, these include: trained nurse (SRN), state enrolled assistant nurse, dental hygienist and medical clerk.

The Women's Royal Army Corps consists of: (a) Regulars; (b) Territorials; (c) Army Emergency Reservists. The WRAC employments include radar signals, motor transport, clerical, catering and postal duties, etc.

The Territorial Army on mobilization will provide with the Active Army, a field force wherever required, anti-aircraft units and a fighting force of all arms to protect the UK against raids and sabotage, and will help maintain the life of the nation in the face of atomic or thermo-nuclear attack.

The appropriate vote in the Defence Estimates fixes the maximum number of officers and other ranks (including those on terminal leave, and enlisted boys) who may be maintained for Army service at any time during the year. It includes a margin of 10,000 for unforeseen contingencies.

Net Defence estimates for the Army, gross estimates less appropriations in aid, 1963-64, £485,916,150; 1964-65, £523.01m.

ROYAL AIR FORCE

In May 1912 the Royal Flying Corps first came into existence with military and naval wings, of which the latter became the independent Royal Naval Air Service in July 1914. On 2 Jan. 1918 an Air Ministry was formed, and in April 1918 the Royal Flying Corps and the Royal Naval Air Service were amalgamated, under the Air Ministry, as the Royal Air Force. In 1937 the units based on aircraft-carriers and naval shore stations again passed to the operational and administrative control of the Admiralty, as the Fleet Air Arm. In 1964 control of the Royal Air Force became a responsibility of the new unified Ministry of Defence.

The Royal Air Force is administered by the Air Force Board, of which the Secretary of State for Defence is Chairman. Members of the Board include the Minister of Defence for the Royal Air Force, who normally acts as Chairman on behalf of the Secretary of State, the Parliamentary Under-Secretary of State for Defence for the Royal Air Force, the Chief of the Air Staff, who is assisted by the Vice-Chief of the Air Staff and the Deputy Chief of the Air Staff, the Air Member for Personnel, the Air Member for Supply and Organization, the Chief Scientist (Royal Air Force) and the Second Permanent Under-Secretary of State (Royal Air Force).

The Royal Air Force is organized into commands as follows:

Home Commands. Bomber, Fighter, Coastal, Transport, Flying Training, Technical Training, Maintenance, and Signals Command. The Air Training Corps and the Air Sections of the Combined Cadet Force are under the control of Flying Training Command.

Overseas Commands. The Near East Air Force (HQ Cyprus); Air Forces Middle East (Aden); the Far East Air Force (Changi); Royal Air Force, Germany (2nd Tactical Air Force).

An RAF Flying College was established in Jan. 1950 to take over certain functions of the Empire Flying School, the Empire Air Navigation School and the Empire Air Armament School, and a RAF Technical College was established in Oct. 1949 to take over certain functions of the Empire Radio School, the Empire Air Armament School and former Engineering School.

Under the Army and Air Force (Women's Service) Act 1948, the commissioning and enlistment of women in the Royal Air Force for non-combatant service, under substantially the same conditions as for men and with a collective title of Women's Royal Air Force, commenced on 1 Feb. 1949.

The estimated strength on 1 July 1964, including WRAF and boys, was 134,100, compared with 142,000 in July 1963. The civilian complement was 72,800 and local forces enlisted abroad 1,100.

Current equipment of Bomber Command consists of Vulcan and Victor medium bombers, supported by squadrons of Valiant flight-refuelling tankers. Squadrons are re-equipping progressively with Mk. 2 versions of the Vulcan and Victor, carrying Blue Steel rocket-powered long-range 'stand-off' missiles, and Victors will also replace Valiants as flight-refuelling tankers. The Command was assigned to NATO in May 1963, but remains available for independent use if required. Valiant medium-bomber squadrons supplement Canberras of the 2nd Tactical Air Force under SACVR. Fighter Command is equipped with Mk. 1 and 2 Lightning supersonic all-weather fighters and Javelin all-weather fighters, armed with Firestreak air-to-air missiles, and Bloodhound surface-to-air missiles. Deliveries of improved Lightning Mk. 3 fighters, armed with Red Top missiles, began in 1964. Javelins also equip 2nd Tactical Air Force all-weather fighter squadrons; day fighter squadrons are equipped with Hunters. Coastal Command's maritime reconnaissance squadrons are equipped entirely with Shackletons. Transport Command's force of Comet jets, turboprop Britannias and Argosy tactical transports, Hastings and Beverley piston-engined transports, and smaller aircraft and helicopters, is to be supplemented by 11 VC10 strategic jet transports, 10 Belfast turboprop strategic freighters and, eventually, the Hawker Siddeley 681 short take-off and landing tactical transport which will replace the Hastings and Beverley.

The net total of Ministry of Defence (Air) estimates for 1964-65 is £503.8m.

¹ Includes wheat, barley, oats, mixed corn and rye, for threshing.

² Green crops include beans, peas, potatoes, turnips and swedes, mangolds, sugar beet, cabbage, etc. for fodder, vegetables, and all other crops.

³ Includes acreage of small fruit in orchards.

⁴ Including lucerne.

⁵ The land beneath the trees is also accounted for as grass, bare fallow, small fruit or other crops.

The number of workers employed in agriculture in Great Britain was, in June 1962, 589,000 (488,000 males, 101,000 females), and in June 1963, 569,100 (471,500 males, 97,600 females).

In 1963, in the UK, land under the plough amounted to 18.2m. acres (crops and fallow, 11.2m. acres; temporary grassland (including lucerne), 7m. acres). Permanent grassland amounted to 12.4m. acres.

FUEL AND POWER

Fuel. The number of National Coal Board mines producing coal on 1 Jan. 1963 was 616, and there were also (1 Jan. 1962) 471 mines worked privately under licence from the Board, each employing less than 30 men underground. Workable coal reserves are estimated to amount to 100,000m. tons. Statistics of the coalmining industry for recent years are as follows:

	1959	1960	1961	1962
Saleable output of coal:				
Total deep-mined (1,000 tons)	195,270	186,051	181,937	190,128
Opencast (1,000 tons)	10,833	7,553	8,528	7,297
Average weekly number of wage-earners on colliery books:				
All workers	665,000	602,100	570,500	550,870
Face workers	259,000	229,500	213,960	204,350
Coal exports:				
Total (1,000 tons)	3,479	5,213	5,695 ¹	4,900 ¹
Bunkers: foreign trade (1,000 tons)	633	387	—	—

¹ The amount of coal shipped to foreign bunkers is now so small that it is included in total exports.

Total stocks of coal on 31 Dec. 1963 amounted to 36.1m. tons (16.5m. tons distributed, 19.6m. tons undistributed). Profits made by the NCB for the first half-year of 1961 amounted to £31,283,000 (collieries, £28,923,000; opencast, £3,083,000). Interest payable to the Ministry of Power, £21,828,000.

Production of coke amounted in 1960 to 28,567,000 tons; 1961, 27.62m. tons.

In 1962 imports of coal, coke and briquette amounted to 76,783 tons (93,886 tons in 1961); exports, 1962, amounted to 6,538,545 tons, valued at £31,172,372 (7,136,220 tons, valued at £29,289,025 in 1961).

In 1962 inland consumption (1,000 tons) of coal at home is estimated to have been 191,184, some of the principal uses being: Railways, 6,714; gas industry, 22,086; coke ovens, 23,528; iron and steel, 2,576; engineering and other metal trades, 2,833; other industries, 22,045; domestic, 33,373; collieries, 4,202; miscellaneous, 13,442; electricity industry, 60,385.

Petroleum. Production in 1961 (monthly average in 1,000 tons; 1962 in brackets): Throughput of crude process and shale oil, 4,092.1 (4,358.1);

output of refinery fuel, 289.2 (301.6); aviation and motor spirits, 696.1 (707.7); kerosine, 223.6 (217.5); diesel oil, 718.1 (830.5); fuel oil, 1,762.5 (1,830.2); lubricating oils, 80 (75); bitumen, 94.5 (101.7).

Gas. On 1 May 1949 the British gas industry passed into public ownership and was vested in 12 Area Boards (10 for England, 1 for Scotland, 1 for Wales), the Chairmen, with an independent Chairman and Deputy Chairman, forming the Gas Council. Gas manufactured (1m. therms), 1961-62 (for 1962-63 in brackets): Coal gas, 1,705 (1,684); water gas, 436 (534); other gases, include oil gas, 122 (186); total gas available, 2,983 (3,206). By-products made in 1962-63 include (1,000 tons), coal tar (crude), 1,621; oil gas tar, 58; crude benzole (1,000 gallons), 25,829; refined benzole, 10,951. In 1962-63 coal used for gas production was 22,155,000 tons; quantity of oil used, 1,214,000 tons. Total cost of gas and gas products in 1961-62, £216,273,537 (in 1962-63 £273,678,614). Gas sales for 1961-62 amounted to £251,517,910 (£273,678,614 in 1962-63). Total number of consumers, 1962-63, was 12,744,634, of whom 12,035,374 were domestic (1961-62, total consumers, 12,780,496). Total number employed in 1962-63 was 125,126.

Electricity. The electricity industry was invested in the British Electricity Authority on 1 April 1948. Following the re-organization of the electricity supply industry after the passing of the Electricity Act, 1957, the statutory bodies comprising the electricity service in England and Wales are the Electricity Council, the Central Electricity Generating Board and the twelve Area Electricity Boards.

The Electricity Council has functioned from Jan. 1958 as the central council for the supply industry in England and Wales for consultation on, and formulation of, general policy; its main functions are to advise the Minister of Power on all matters affecting the supply industry, and to promote and assist the maintenance and development by the Central Electricity Generating Board and the Area Boards (known collectively as Electricity Boards) of an efficient, co-ordinated and economical system of electricity supply. The Council can also perform services for the Boards, and, in addition, has certain specific functions, particularly in matters of finance, research and industrial relations.

The Central Electricity Generating Board is responsible for the generation and bulk supply of electricity to the 12 Area Boards in England and Wales. It therefore plans the provision of new generating and transmission capacity, including the siting and construction of new generating stations, both conventional and nuclear, and is responsible for the operation and maintenance of generating stations and the main transmission systems—the Grid and Supergrid.

Area Electricity Boards. Each of the 12 Area Electricity Boards acquires bulk supplies of electricity from the Generating Board and is responsible for distribution networks and sales of electricity to its Area consumers. Thus distribution and utilization of electricity, and also the contracting and sale of appliances side of the industry, are their responsibilities.

The number of power stations owned by the Generating Board in England and Wales on 31 March 1963 was 236 with a total installed capacity of 34,211,000 kw. and a total maximum output capacity with all plant in service of 31.7m. kw. Total number of consumers on 31 March 1963 was 16,364,000 and on 31 March 1962, 16,098,000.

Electricity generated in England and Wales amounted to 136,537m. units in 1962-63, of which 127,732m. units were sent out. Revenue from sales of electricity in 1962-63 was £753.5m. Coal used for electricity generation in 1962-63 amounted to 53.1m. tons (53.2m. tons in 1961-62). Total fuel (coal equivalent) used in 1961-62 amounted to 63.2m. tons and in 1962-63 to 68.7m. tons. In 1960 the Government announced "a revised programme of 5,000 megawatts of nuclear power by 1968." At the beginning of 1964, 2 nuclear power stations were in operation, 6 more under construction, and consent had been received for one more from the Minister of Power.

The number of persons employed by the Generating Board, the Electricity Council and the Area Boards at the end of March 1963 was 205,929.

METALS

The Iron and Steel Board. The Iron and Steel Board were established pursuant to the Iron and Steel Act, 1953. The Iron and Steel Board are appointed by the Minister of Power and are responsible for exercising a general supervision over the iron and steel industry with a view to promoting the efficient, economic and adequate supply under competitive conditions of iron and steel products. The Board are particularly concerned with securing the provision and use of adequate and efficient production facilities and may, subject to certain powers of the Minister, determine the maximum prices to be charged in the United Kingdom for iron and steel products by producers. In both cases the Iron and Steel Board are bound to consult with such iron and steel producers and such representative organizations as they may consider appropriate.

The Iron and Steel Holding and Realization Agency. The Act of 1953 also established the Iron and Steel Holding and Realization Agency with the duty of returning to private ownership the iron and steel undertakings which came into public ownership by virtue of the Iron and Steel Act, 1949 (repealed by the Act of 1953). As a result of sales of iron and steel companies in Jan. 1963 the process of denationalization of the steel industry has, with the major exception of Richard Thomas and Baldwins Ltd (which remains in public hands), been virtually completed.

Iron and Steel (excluding iron castings). The United Kingdom is the fifth largest steel producer in the world. At the end of 1963 there were 304,900 persons employed in the industry. Capital expenditure in 1962 is estimated to have been about £170m. (£199m. in 1961).

Output in recent years was as follows:

	Iron ore	Pig iron	Crude steel	Home consumption ²
1960	17,087	15,763	24,305	20,329
1961	16,518	14,747	22,086	19,548

1963	14,912	14,591	22,520	19,851 ¹

¹ Provisional.

² Finished steel (ingot equivalent).

In 1963 imports of iron ore amounted to 14,355,000 tons valued at £65,584,000 (for 1962, 12,897,000 tons valued at £62,299,000). Exports of

finished steel products were 3.2m. tons in 1963 and were valued at £186,429,000 (for 1961, 2,899,000 tons valued at £179,388,000).

Iron Castings. Production of iron castings was 3,659,000 tons in 1963 and 3,525,000 tons in 1962. At the end of 1963 the number of persons employed in the production of iron castings was 119,760.

Production of non-ferrous metals in 1962 (in 1,000 tons): Refined copper, 228.1 (234.3 in 1961); refined lead, 88.6 (86.3 in 1961); tin metal, 19.9 (26.4 in 1961); virgin aluminium, 34 (32.3 in 1961); slab zinc, 97.3 (92.9 in 1961).

INDUSTRIAL PRODUCTION

Statistics of a cross-section of industrial production are as follows:

	1960	1961	1962
Sulphuric acid (1,000 tons)	2,701	2,662	2,732
Synthetic resins (1,000 tons)	560	568	654

Newsprint (1,000 tons)	741	712	655

Engineering. In 1962 the number (in 1,000) of passenger cars produced amounted to 1,249 (1,004 in 1961); the average monthly number of industrial and agricultural tractors (wheeled) produced was 16,742 (13,594 for export), valued at £9.43m.; in 1961, 14,644 (11,129 for export) valued at £8.67m.

Production of railway rolling stock added to stock by the British Railways Board and London Transport Board for 1962 (1961 in brackets) was: coaching vehicles, 1,264 (2,048); wagons, 8,729 (8,408). Aircraft production in the same period was: piston-engine, 65 (51); turbine-engine, 60 (85). Internal combustion engines, deliveries of complete engines, monthly average (no.) for 1962, 30,000 valued at £5,621,000 (value of exports £2,584,000).

Electrical Goods. Production (in 1,000) for 1962 (1961 in brackets): Radio sets and radiograms, 2,976 (3,074); television sets, 1,463 (1,256); domestic washing machines, 1,102 (995).

Textile Manufacturers. Production for 1962 (1961 in brackets): Woven cloth, cotton (1m. yd), 1,047 (1,235); woven woollen and mixture fabrics (1m. sq. yd), deliveries, 328 (352).

Construction. Total value of constructional work by all agencies in 1963 was (£1m.), 3,108 (3,011 in 1962), including new housing, 780. Value of industrial buildings for private developers completed in 1963 was £337m. New work (other than housing) for public authorities was valued at £585m.

LABOUR AND EMPLOYMENT

The distribution of total man-power in Great Britain was at Dec. 1963 (in 1,000): Total working population, 25,109 (16,510 males; 8,599 females). Total employed in armed forces and women's services, 423. Total engaged in civil employment, 24,234 (15,764 males, 8,470 females), including agriculture and fishing, 862; mining and quarrying, 670; manufacturing industries, 8,834; national and local government service, 1,344; transport, 1,631; building and civil engineering, 1,693; distributive trades, 3,522; finance, professional, scientific and miscellaneous services, 5,275.

Number of registered and unregistered trade unions at the end of 1962 was 623, with a total membership of 9,872,000 (7,851,000 males, 2,021,000 females); including metal manufacturing and engineering trades, 2,049,920; general labour organizations, 2,156,140; coalmining, 704,750; railways, 451,730; other transport, 467,820. The number of registered unions was 388 in 1962 with a membership of 8,531,935. Funds of registered unions amounted at end of 1962 to £100,839,000.

At Sept. 1963 there were 176 unions affiliated to the Trades Union Congress with 975 delegates and a total membership of 8,315,332 (including about 1,481,000 women). The membership included: Transport (other than railways), 1,450,244; engineering, founding and vehicle building, 1,662,989; mining and quarrying, 563,990; building, woodworking, 530,194; railways, 446,059. Affiliation fees amounted to £363,403 in 1962.

The following table is a statistical summary relating to trade disputes for recent years:

	Number of disputes		No. of workers involved		Aggregate duration in working days

The value of goods imported is generally taken to be that at the port and time of entry, including all incidental expenses (cost, insurance and freight) up to the landing on the quay. For goods consigned for sale, the market value in this country is required and recorded in the returns. For exports, the value at the port of shipment (including the charges of delivering the goods on board) is taken. Imports are entered as from the country whence the goods were consigned to the UK, which may, or may not, be the country whence the goods were last shipped. Exports are credited to the country of ultimate destination as declared by the exporters.

For details of imports and exports for 1962 and 1963, see pp. 115-17.

The total gross tonnage (1,000 tons) of merchant vessels (500 gross tons and over) on the United Kingdom register (excluding foreign-owned vessels on bareboat charter or requisition) was, on 31 Dec. 1963, 20,400 (non-tankers, 12,601; tankers, 7,798). The total number of vessels was 2,538.

At 31 Jan. 1964 the effective strength of the British Merchant Navy (excluding Asiatic seamen signed on in Asia) was 125,278.

At 31 Dec. 1963 the world total of shipping under construction (excluding ships of less than 100 tons gross) amounted to 8,402,000 tons, of which 16.91% was building in the UK, aggregating 156 vessels of 1,421,000 tons (14 steamers, 517,000 tons; 142 motorships, 904,000 tons). Tankers under construction in the UK numbered 35 (773,000 tons) out of a world construction total of 185 (3.98m. tons).

The world oil tanker fleet at 31 Dec. 1963 numbered 3,853 vessels of 47,532,000 gross tons, of which the UK owned the largest fleet of 7,798,000 tons. Ships launched in 1963 in the UK aggregated 928,000 tons (11% of the world total); the UK dropped to third place after Japan (28%) and West Germany (11%). Laid up tonnage on 1 Jan. 1964 included 38 ships (226,000 gross tons) registered in the UK out of a world total of 214 ships (1,345,000 gross tons).

The total net tonnage of entrances at ports of the UK with cargoes during 1963 was 98,089,000 (including 48.06m. tons, Commonwealth); total clearances were 58,409,000 net tons (including 32,375,000 tons, Commonwealth). Of the foreign tonnage, 50,029,000 tons entered; Norway had 10,042,000; Netherlands, 7,615,000; Liberia, 5.33m.; France, 4,186,000; Sweden, 3,787,000; USA, 2,735,000; Denmark, 2,345,000; Panama, 1,166,000.

The total net tonnage of Commonwealth and foreign vessels employed in the coasting trade that arrived at ports in the UK with cargo in 1963 was 43,398,000 tons (43.04m. tons in 1962); departures amounted to 41,828,000 (42,015,000 tons in 1962).

INLAND WATERWAYS

In 1963 there were approximately 2,500 miles of navigable canals and locked river navigations in Great Britain, of which some 1,200 miles, in commercial use, belong to the British Waterways Board.

Statistics of traffic on waterways coming under the British Waterways Board, for the year 1962:

	NE	NW	SE	SW	Scottish	Total
Tonnage originating (in 1,000)	4,766	909	2,297	1,221	41	9,234

Manchester, one of the leading ports in the UK, was opened to maritime traffic in 1894 by the construction of the Manchester Ship Canal, which is 35½ miles in length and owned by the Manchester Ship Canal Co. Between Eastham and Ince Oil Berth the waterway has been excavated to a depth of 30 ft; from Ince Oil Berth to Manchester to 28 ft. The general excavated bottom width of the canal at the depth of 28 ft is 120 ft. The maximum width of the locks is 65 ft, with the exception of the entrance lock, which is 80 ft wide. The canal is in direct communication with all the principal railway systems and barge canals of the kingdom. Total seaborne and barge traffic in 1963 amounted to 15,112,884 tons; tolls, dues, etc., £5,672,104; in 1962, 14,737,434 tons, £5,316,930. The total issued capital of the company at 31 Dec. 1963 was £23,449,330. The net revenue of the whole undertaking in 1963, including the Bridgewater department and the railways, amounted to £1,884,987 (£1,595,216 in 1962).

RAILWAYS, TRAMWAYS, HIGHWAYS AND AVIATION

Under the provisions of the Transport Act, 1947, the 4 main-line railways, together with their associated lines, docks, steamships and hotels, the London Passenger Transport Board and the major canal undertakings, passed on 1 Jan. 1948 into the ownership of the British Transport Commission, as the instrument of the State.

The Commission's gross receipts from its principal carrying activities for the year 1962 amounted to £710,567,273, made up as follows: British Railways, £465,105,990, including road collection and delivery services; British Road Services, £60,345,236; Road Passenger Services of Provincial and Scottish Bus Groups, £69,607,992; London Transport, £92,958,171; ships, £21,675,777, and inland waterway carrying operations, £874,107. The gross receipts from other principal activities were £59,361,884. The Commission's consolidated revenue account after allowing for capital redemption and special items, showed a deficit of £143,624,059.

The Transport Act, 1962, dissolved the Commission and created in its stead separate Boards for British Railways, London Transport, British Transport Docks and British Waterways, and a Transport Holding Company to take over the remaining activities. The new Boards assumed their responsibilities as from 1 Jan. 1963. Other main provisions of the Act reconstructed the finances of the Boards and gave them a greater measure of commercial freedom.

Railways. The system, under the name of British Railways, is organized in 6 regions. There are: *The London Midland Region*, corresponding to

the system of the former LMSR company in England and Wales, with headquarters at Euston station. *The Western Region*, corresponding to the system of the former GWR company, with headquarters at Paddington station. *The Southern Region*, corresponding to the system of the former SR company, with headquarters at Waterloo station. *The Eastern Region*, corresponding to the southern area of the former LNER company (roughly from Doncaster to London), with headquarters at Liverpool Street station. *The North Eastern Region*, corresponding to the north-eastern area of the former LNER company (from Doncaster to Berwick), with headquarters in York. *The Scottish Region*, corresponding to the Scottish systems of the former LMSR and LNER companies, with headquarters in Glasgow.

While responsibility for major policy (including finance) and general direction rests with the British Railways Board, undue centralization is avoided by the delegation, through Regional Railway Boards, to regional offices of responsibility for matters of local importance.

In 1962 the total freight traffic on British Railways amounted to 228m. tons, including merchandise and livestock, 36m. tons; minerals, 47m. tons; coal; coke, etc., 145m. tons. Passengers carried amounted to 998m. Rolling stock at the end of 1962 included 12,628 locomotives, 33,607 passenger-carrying vehicles, 12,482 luggage and parcel vans, etc., and 862,640 freight vehicles. At the end of the year, 17,471 route miles were open to traffic.

The London Transport Board, in Dec. 1962, had 216 route miles of railway open for traffic. Number of vehicles owned: Railways, 4,261 (including 2,849 electric motor vehicles); buses and coaches, 8,442. Total number of miles run in passenger service (1962) was 527m. miles. The number of passengers carried in 1962 was: Railways, 668m.; buses and coaches, 2,485m. Average takings per passenger journey (1962) were: Railways, 10·7d.; road services, 5·91d.

Road Transport. Motor vehicles for which licences were current under the Vehicles (Excise) Act, 1949, numbered, at 30 Sept. 1962, 10,505,000, including 6,556,000 cars, 1,865,000 cycles and pedestrian-controlled vehicles, 92,000 hackneys (excluding tramcars), 1·47m goods vehicles. New vehicle registrations in 1961 numbered 1,192,306.

Road casualties in Great Britain numbered in 1962, 341,696 (53,306 under 15 years), including 6,709 killed; in 1961, 349,767 (55,212 under 15), including 6,908 killed.

Highways. The public highways in Great Britain at 1 April 1962 (Scotland, 15 May 1962) had a total length of 196,135 miles (England and Wales, 167,815 miles; Scotland, 28,320 miles), of which 8,339 were trunk roads, 145 were motorways, 19,753 were Class I, 17,615 were Class II, 48,955 were Class III and 101,323 were unclassified.

The Minister of Transport is the Highway Authority for all trunk roads in England and Wales (in Scotland, the Secretary of State for Scotland). For classified roads, the highway authority may be a county council, county borough council, borough council or urban district council.

The Minister of Transport also possesses powers to construct or approve the construction of special roads which are reserved for certain categories of traffic. In so far as the Minister is the responsible highway authority, these special roads have the status of trunk roads, but special roads may also be constructed as classified roads subject to confirmation by the Minister. The

special roads at present under construction or in use are designed for motor traffic only and are consequently described as motorways.

Approximately 1,000 miles of motorway are planned to form a network carrying through traffic at relatively high speeds between important centres of trade and industry; at 28 Feb. 1963, 199 miles were open to traffic, and a further 143 miles were under construction.

The construction, improvement and maintenance of trunk roads in England and Wales is carried out by county councils as agents of the Ministry of Transport, which bears the full cost of the work. In the case of motorways, construction is often supervised by consulting engineers acting on behalf of the Minister. The Ministry also pays 75%, 60% and 50% of the cost of construction, improvement and maintenance of Class I, Class II and Class III roads respectively. (It does not contribute towards the maintenance or 'minor improvement' of classified roads in London or county boroughs.)

Civil Aviation. The British Overseas Airways Corporation (BOAC) was set up under the British Overseas Airways Act, 1939. The Civil Aviation Act, 1946, set up 2 additional public corporations: British European Airways (BEA) to cover the British Isles and Europe, and British South American Airways (BSAA) to operate to South America and the Caribbean, leaving the North Atlantic and Eastern Hemisphere routes to BOAC. In 1949 BSAA was merged into BOAC.

The provisional operating and traffic statistics of the UK airways corporations and the private companies on scheduled services during the calendar year 1962 (and 1961) are as follows: Aircraft miles flown, 118,136,000 (116,451,000); revenue passengers carried, 7,707,000 (6,850,000); freight carried, 294,440 short tons (252,745); mail carried, 17,082 short tons (14,848).

Traffic between the UK airports and places abroad in 1962 (and 1961) included 264,000 (255,000) commercial transport aircraft movements, 8.09m (7.21m) passengers and 335,000 (309,000) short tons of freight.

The total number of civil aircraft registered in the UK at 31 Dec. 1962 was 2,350, of which 1,570 had current certificates of airworthiness.

POSTS AND TELECOMMUNICATIONS

Number of post offices at 31 March 1963 was 25,054; number of letter boxes other than at post offices, about 76,000; staff employed, 371,744.

In 1962-63 the total value of money orders, including COD trade charge orders, was £355.2m.; postal orders, £462,067,000.

The total number of telegraph acceptance offices is about 11,600.

On 31 March 1963 the London Telecommunications Region had 319 exchanges, 13,041 call offices and 2,772,011 telephone stations. In the provinces there were 5,692 exchanges, 61,564 call offices and 6,154,844

telephone stations. For telephone private wires the accrued revenue in 1962-63 amounted to £13,523,000.

The number of sound broadcast receiving licences issued during the year ended 31 March 1963 was 3.3m. and the figure for combined sound and television broadcast receiving licences was 12.5m.

The approximate surpluses of income over expenditure (after charging interest on capital) are as follows for years ended 31 March (in £1,000 sterling): 1958, 2,573; 1959, 8,705; 1960, 20,939; 1961, 24,329; 1962, 13,593; 1963, 12,144.

MONEY AND BANKING

Sterling. The monetary unit of Great Britain is the pound sterling. A gold standard was adopted in 1816, the sovereign or twenty-shilling piece weighing 7.98805 grammes 0.916 $\frac{2}{3}$ fine. Currency notes for £1 and 10s. were first issued by the Treasury in 1914, replacing the circulation of sovereigns. The issue of £1 and 10s. notes was taken over by the Bank of England in 1928.

Following the post-war fluctuations in the value of the pound, Great Britain returned to the Gold Standard in 1925 with the pound fixed at the pre-war parity of US\$4.8666. But the world financial crisis of 1931 forced the country off the Gold Standard again, and in the following year the Exchange Equalization Account was set up for the purpose of checking undue fluctuations in the value of the pound. (On 31 Dec. 1963 its holding of gold and convertible currencies amounted to £949m.) With the relative stability of the pound which followed, a 'Sterling Bloc' emerged consisting of most Empire countries and those others who voluntarily pegged their currencies to the pound.

The Bloc was superseded at the outbreak of the Second World War by the 'Sterling Area'. The pound was then fixed at \$4.03 and remained at that rate until Sept. 1949, when it was devalued to \$2.80.

The Sterling Area, since renamed the 'Scheduled Territories', now comprises the British Commonwealth (except Canada), the Irish Republic, British Trust Territories, British Protectorates and Protected States, Burma, Iceland, the Hashemite Kingdom of Jordan, Kuwait, Libya, the Republic of South Africa and SW Africa, and Western Samoa.

Coinage. The sovereign (£1) weighs 123.27447 grains, or 7.98805 grammes, 0.916 $\frac{2}{3}$ (or eleven-twelfths) fine, and consequently it contains 113.00159 grains or 7.32238 grammes of fine gold. The shilling (20s. = £1) weighs 87.27 grains, or 5.6552 grammes, and down to 1920 was 0.925 (or thirty-seven-fortieths) fine, thus containing 80.727 grains, or 5.231 grammes, of fine silver, but under the Coinage Act, 1920, the fineness was reduced to 0.500 (one-half). The Coinage Act, 1946, however, provides for the replacement of silver coinage by coins of cupro-nickel of the same weight. An exception was made in regard to Maundy coins, which, by the Act, reverted to a fineness of 0.925. Bronze coins consist of a mixture of copper, tin and zinc. The penny (12d. = 1s.) weighs 145.83 grains, or 9.45 grammes. Threepenny pieces of nickel-brass were issued for the first time in 1937 (standard weight of each coin is 105 grains, or 6.084 grammes); they are legal tender up to 2s. The standard of value is gold. According to the Coinage Act, 1870, silver is legal tender up to 40s. (and according to the

Coinage Act, 1946, cupro-nickel to the same amount); bronze (pennies and halfpennies) up to 12d. Farthings are no longer legal tender.

Value of money (in £ sterling) issued in the UK by the Royal Mint:

¹ Including nickel-brass threepenny pieces.

During the year ended 31 Dec. 1963 the Royal Mint produced 769,548,024 coins. UK coins numbered 473,342,274 and had a face value of £23,322,104. These included 10·4m. sovereigns, no crowns, 17,572,800 half-crowns, 25·58m. florins, 78·52m. shillings, 124·86m. sixpences, 37,432,000 threepenny pieces and 134,013,600 pennies. 44,959,200 halfpennies were minted. It is estimated that the numbers of different denominations in circulation in the UK on 31 Dec. 1963 was as follows (1m. pieces): Half-crowns, 431; florins, 482; shillings, 1,033; sixpences, 1,492; threepences (nickel-brass), 739; pence, 1,819; halfpence, 733.

Bank-notes. The Bank of England issues notes in denominations of 10s., £1, £5 and £10 for the amount of the Fiduciary Note Issue and the value of the gold held in the Issue Department of the Bank (only a small amount has been so held since 1939). Under the provisions of the Currency and Bank Notes Act, 1954, which came into force on 22 Feb. 1954, the amount of the Fiduciary Note Issue is £1,575m., but this figure may be altered by direction of H.M. Treasury and after representations made by the Bank of England.

All Bank of England notes are legal tender in England and Wales, and notes of denominations less than £5 are legal tender in Scotland and Northern Ireland. The banks in Scotland and Northern Ireland have certain note-issuing powers. The average (4 weeks ended 28 Dec. 1963) circulations of such notes were £130m. (Scotland) and £7m. (Northern Ireland); these notes are not legal tender in any part of the UK.

The total amount of notes issued for the week ending 25 Dec. 1963 was £2,650,361,019, of which £2,597,731,547 were in the hands of other banks and the public and £52,629,472 in the Banking Department of the Bank of England.

Banking. The Bank of England, Threadneedle Street, London, is the Government's banker and the 'banker's bank'. It has the sole right of note issue in England and Wales, manages the National Debt and administers the Exchange Control Regulations; it does not accept new commercial business. The bank operates under royal charters of 1694 and 1946. The capital stock has, since 1 March 1946, been held by the Treasury. The holders of Bank stock were given £58,212,000 3% Treasury stock in exchange.

The statutory return is published weekly. End-December figures for the past 5 years are as follows (in £1m.):

	Notes in circulation	Notes and coin in Banking Department	Public deposits (government)	Other deposits

¹ Including Special Deposits.

The proportion of reserves to deposit liabilities at 25 Dec. 1963 was 18.4%.

The fiduciary note issue was £2,650m. at 25 Dec. 1963. All the profits of the note issue are passed on to the Exchequer.

Official holdings (Exchange Equalization Account) of gold and convertible currencies at 31 Dec. 1963 amounted to £949m.

Debit bank clearings (excluding provincial clearings) for 1962, £272,850m.; 1963, £302,338m. Credit clearings for 1962, £6,021m.; 1963, £6,934m.

The following statistics relate to the 11 London clearing banks for the year 1963 (averages of mid-monthly figures in £1m.): Deposits, etc., 7,971 (7,611 in 1962); cash in hand and at the Bank of England, 647 (623 in 1962); money at call and notice, 748 (718 in 1962); Treasury bills discounted, 842 (933 in 1962); other bills discounted, 298 (272 in 1962); investments, 1,244 (1,194 in 1962); advances 3,880 (3,408 in 1962).

In 1963 the 11 clearing banks had a total of net profits of £28,241,427; dividends amounted to £19,313,423; allocations to published reserves to £9m.; declared allocations to contingencies to £0.2m.

Trustee Savings Banks. Trustee Savings Banks originated in 1810. They are still conducted by voluntary trustees who may receive no payment for their services. There are no shareholders or proprietors. The banks are supervised by the National Debt Commissioners and regularly inspected on behalf of a statutory committee. There are 80 Trustee Savings Banks in the UK and the Channel Islands with 1,358 offices. The number of active accounts of depositors and stockholders in these banks on 20 Nov. 1963 was 10,312,154, and the amounts due to them were: In the General or Ordinary Departments, £951,593,448 cash, and £241,445,235 (face value) stock; in the Special Investment Departments, £733,440,198; due to depositors and stockholders, £1,886,478,881; combined surplus funds, £27,487,499; total funds, £1,913,966,380.

NORTHERN IRELAND

CONSTITUTION AND GOVERNMENT. Under the Government of Ireland Act, 1920, as amended by the Irish Free State (Consequential Provisions) Act, 1922, a separate parliament and executive government were established for Northern Ireland, which comprises the counties of Antrim, Armagh, Down, Fermanagh, Londonderry and Tyrone, and the boroughs of Belfast and Londonderry. The Parliament consists of a Senate of 2 *ex-officio* and 24 elected persons and a House of Commons of 52 elected members. The Parliament has power to legislate for its own area, except in regard to (1) matters of Imperial concern (the Crown, making of peace or war, military, naval and air forces, treaties, titles of honour, treason, naturalization, domicile, external trade, submarine cables, wireless telegraphy, aerial navigation, lighthouses, etc., coinage, etc., trade marks, etc.), and (2) certain matters 'reserved' to the UK Parliament (postal service, post office and trustee savings banks, designs for stamps). The executive power is vested in the Governor on behalf of H.M. the Queen: he holds office for 6 years and is advised by ministers responsible to Parliament. Senators, who are elected by members of the House of Commons on a proportional representation basis, hold office for a fixed term of years: the House of Commons continues for 5 years, unless sooner dissolved. The qualifications for membership of the Parliament are similar to those for membership of the UK House of Commons. In 1928 the franchise was conferred upon women upon the same terms as it had hitherto been enjoyed by men; and in 1929 the system of proportional representation (under which the Parliaments which met in 1921 and in 1925 had been elected) was abolished, and parliamentary representation, except for the constituency of the Queen's University of Belfast, was based upon single-member constituencies.

Northern Ireland returns 12 members to the UK House of Commons.

Two Acts of the UK Parliament, passed in 1928 and 1932, modified certain restrictions placed on the powers of the Northern Irish Parliament by the Act of 1920. The legislative and administrative powers relating to Railways, Fisheries and the Contagious Diseases of Animals were transferred to the Parliament and Government of Northern Ireland as from 1 April 1926.

The UK Government's Land Purchase Scheme has been completed, the Land Purchase Commission for Northern Ireland being wound up on 1 April 1937, and the general subject-matter of the Acts relating to land purchase has ceased to be 'reserved' by the Act of 1920. Four further Acts passed by the UK Parliament extended the jurisdiction of the Northern Ireland Parliament and removed minor constitutional difficulties which had tended to hinder the full and free exercise by the Parliament of Northern Ireland of its general legislative power. An Act of 1945 related to criminal law and procedure. A 1947 Act conferred power to deal with schemes extending to the land frontier and with transport services, health services and publicly-owned property. By a 1955 Act the local Parliament was empowered to deal with the administration and distribution of estates of deceased persons, and with the appointment, jurisdiction, etc., of coroners. An Act of 1962 amended the law concerning the administration of justice in Northern Ireland and enlarged the legislative power of the Northern Ireland Parliament with respect to other miscellaneous matters.

The Northern Ireland Parliament met for the first time in June 1921.

State of parties in Feb. 1963: 34 Unionists, 9 Nationalists, 4 Northern Ireland Labour, 1 Republican Labour, 1 Independent Labour, 1 Eire Labour, 1 Independent, 1 Liberal.

Members of the Senate (except those in receipt of salaries as members of the Government or as officers of the Senate) receive payment at the rate of £2.5s. *per diem* in respect of expenses at meetings of the Senate, Select Committees of the Senate, and Joint Committees of the Senate and House of Commons. Members of the House of Commons (including members of the Government) receive £300 per annum in respect of expenses. Senators and members (except those in receipt of salaries as members of the Government or as officers of either House) also receive a salary of £500 and £1,050 per annum respectively.

Governor: The Lord Wakehurst, KG, KCMG. Assumed office 3 Dec. 1952; reappointed 1958.

The Ministry, all the members of which belong to the Ulster Unionist Party, was, in March 1963, composed as follows:

Prime Minister: Capt. the Right Hon. Terence Marne O'Neill.

Minister of Finance: Right Hon. J. L. O. Andrews.

Minister of Home Affairs: Right Hon. William Craig.

Minister of Labour and National Insurance: Right Hon. H. V. Kirk.

Minister of Education: Right Hon. Ivan Neill.

Minister of Agriculture: Right Hon. H. W. West.

Minister of Commerce: Right Hon. A. B. D. Faulkner.

Minister of Health and Local Government: Right Hon. W. J. Morgan.

Minister in and Leader of the Senate: Senator Col. the Right Hon. the Lord Glentoran, HML.

The Attorney-General, who is not in the Cabinet, is W. E. Jones, QC.

The Prime Minister receives a salary of £4,750 per annum, a Minister being head of a department, £3,250; any other Minister, £2,750; in addition, they receive expenses allowances.

The usual channel of communication between the Government of Northern Ireland and the UK Government is the Home Office.

Agent of the Government of Northern Ireland in Great Britain: Sir Francis Evans, GBE, KCMG (13 Regent St., SW1).

LOCAL GOVERNMENT. For local government purposes Northern Ireland comprises 6 administrative counties with the county boroughs of Belfast and Londonderry. The administrative counties are further divided into 9 boroughs, 25 urban districts and 31 rural districts. The pattern of services provided is broadly similar to that in Great Britain, but police, civil defence and (except in Belfast) fire services are centrally administered.

County Councils provide education, personal health and welfare services throughout the administrative county; in the rural districts they are the rating and planning authorities and are responsible for classified roads (other than trunk roads) and public works; and they run the county library service.

Borough and District Councils have duties under the Housing and Public Health Acts, including responsibility for water supply and sewerage and cleansing services; Borough and Urban District Councils are also the rating, planning and road authorities for their areas; and Rural District Councils are responsible for unclassified roads.

County Boroughs are both administrative counties and urban districts and combine the duties and responsibilities of both with the exercise of wide additional powers under local Acts.

AREA AND POPULATION. The land area (revised by the Ordnance Survey Department) and population as estimated in 1962, were as follows:

Counties and county boroughs	Area in sq. miles	Males	Females	Total
Antrim	1,175.78	135,700	142,900	278,600
Armagh	512.35	58,100	59,800	117,900

VITAL STATISTICS for calendar years:

	Marriages	Divorces	Births	Deaths
1960	9,881	108	31,989	15,296
1961	9,861	134	31,915	16,108
1962	9,842	122	32,565	15,226

RELIGION. The religious professions at the census of 1961 were: Roman Catholics, 498,031; Presbyterians, 413,006; Church of Ireland, 344,584 (including Church of England and Episcopal Church of Scotland); Methodists, 71,912; others and not stated, 97,929.

EDUCATION. The following are the statistics for 1962-63:

University. The Queen's University of Belfast (founded in 1849 as a college of the Queen's University of Ireland, and reconstituted a separate university in 1908) had 55 professors, 34 senior lecturers, 298 lecturers, readers and tutors, and 4,319 students. Magee University College, Londonderry (1865-1908 a recognized college of the Royal University of Ireland, 1909-50 associated with the University of Dublin, since 1951 a recognized college of the Queen's University) had 5 professors, 25 lecturers and 357 students.

Secondary Education. Eighty-two grammar schools with 40,160 pupils and 2,023 full-time teachers; 122 secondary intermediate schools with 55,820 pupils and 2,488 full-time teachers; 28 technical intermediate schools with 4,048 pupils.

Primary Education. 1,485 primary schools with 189,486 pupils and 6,235 teachers; 20 nursery schools with 635 pupils and 26 teachers.

Further Education. 166 centres (including non-permanent centres) with 6,486 full-time and 36,460 part-time students and 769 full-time and 1,401 part-time teachers.

Special Educational Treatment. Twenty-one special schools, including hospital schools, with 1,610 pupils and 141 teachers.

Teachers. There were 11,682 full-time teachers (4,594 men and 7,088 women) in grant-aided schools, both county and voluntary. The minimum general teacher-training course is of 3 years' duration, and there were 1,743 students (546 men and 1,197 women) in training.

Expenditure. Expenditure on education for 1963-64 is estimated at £21,989,150 (Ministry of Education), £6,374,458 (Local Authorities) and £3,221,500 (University Grants). Substantial grants are made to all types

of recognized voluntary schools. The Ministry of Education pays the whole salary of the teachers in both county and voluntary primary and intermediate, and in special schools.

HEALTH SERVICES. The Health Services Act (Northern Ireland), 1948, provides for a comprehensive health service similar to that in Great Britain. The services are administered by the Northern Ireland General Health Services Board, the Northern Ireland Hospitals Authority and County and County Borough Health Authorities. The expenses of the General Health Services Board and the Hospitals Authority are recouped in full by the Ministry and those of Health Authorities are grant-aided. The General Health Services Board is responsible for the general medical, dental, pharmaceutical and supplementary eye services, and the great majority of doctors, dentists, pharmaceutical chemists and opticians participate in the arrangements made by the Board. The main function of the Hospitals Authority is to provide an adequate hospital and specialist service.

The County and County Borough Health Authorities are responsible for personal health services, including maternity and child welfare, domiciliary midwifery, home nursing, health visiting, prevention and control of infectious diseases, health education and school health services. A grant of 65% is payable by the Ministry in respect of approved expenditure on the school health service, and a grant of 50% on the other services mentioned. County and County Borough Health Authorities are also the food and drug authorities.

Functions in regard to environmental health or sanitary services remain to a large extent with the councils of borough, urban and rural districts, though the public health inspectors are employed directly by the Health Committees to whom the council recoup part of the inspectors' salaries. Expenditure on these services is not grant-aided by the Government.

The mental health services are administered by the Northern Ireland Hospitals Authority. Its functions include the provision of care and treatment in hospitals and institutions for both the mentally ill and those suffering from arrested or incomplete development of mind (known as 'persons requiring special care'), as well as domiciliary mental health services, including the supervision, training and instruction of persons requiring special care.

Welfare Services are administered by the County and County Borough Welfare Authorities, whose functions relate to the welfare of aged, infirm and handicapped persons, etc. These are partly grant-aided.

Housing. The local authorities are mainly responsible for providing housing accommodation for workers, and this work is subsidized by the Government and the authorities. The Northern Ireland Housing Trust acts in conjunction with the local housing authorities and subsidies on the same scale as for local-authority houses are paid by the Government in respect of houses built by the Trust. Subsidy houses have also been erected by a few housing associations.

Subsidies are payable to private persons erecting houses for letting, and to private persons wishing to build for their own occupation or for sale. Subsidies are available to farmers for the erection of new houses and for the improvement and modernization of existing premises including those of their farm workers.

Grants are available to owners of property, including local authorities, towards the cost of improvements carried out to houses erected before 1940, and the conversion of houses or buildings into flats. Grants are also avail-

able to local authorities for the re-development of areas containing a proportion of unfit houses and towards the acquisition and maintenance of certain houses pending demolition. Government grants are also available to industrialists to provide housing accommodation for their workers.

Water Supply and Sewerage. Government grants can be given to assist local authorities; up to 31 March 1963 grants amounting to £14,557,450 have been paid towards expenditure amounting to £33,021,084. Ten Waterworks Joint Boards, comprising 5 borough councils, 10 urban councils, 22 rural councils, and a Sewerage Disposal Joint Board have been formed.

SOCIAL WELFARE. The social-security schemes in Northern Ireland differ from those in Great Britain only in minor details, the rates of contributions, benefits and allowances being identical. Reciprocal arrangements link the schemes, and close liaison is maintained through the National Insurance Joint Authority and the Industrial Injuries Joint Authority (consisting in each case of the Minister of Pensions and National Insurance in Great Britain and the Minister of Labour and National Insurance for Northern Ireland), which co-ordinate the schemes and make such financial adjustments as may be necessary. There are also comprehensive reciprocal arrangements with the Isle of Man.

Reciprocal arrangements have been made with the Irish Republic in respect of those parts of the insurance schemes in the two countries which are on a comparable basis. Under the arrangements, insurance for sickness benefit and maternity benefit is maintained where an insured person moves from one country to the other, and persons who live on one side and work on the other side of the border between the UK and the Republic are insured for those benefits in the country of residence.

Agreements have been made with Australia, Belgium, Canada, Cyprus, Denmark, Finland, France, Germany (West), Israel, Italy, Jersey, Luxembourg, Malta, the Netherlands, New Zealand, Norway, Sweden, Switzerland, Turkey and Yugoslavia, for reciprocity in respect of most categories of benefits, and with Guernsey in respect of family allowances.

National Insurance. The National Insurance Act (Northern Ireland), 1946, makes substantially similar provision to the corresponding act in force in Great Britain. The whole adult population, whether employed or not, is insured against the main contingencies of life. For details of the contributions payable by insured persons and the benefits to which they may become entitled see GREAT BRITAIN. Persons liable to pay national insurance contributions must also pay health service contributions under the Health Service Contributions Acts (Northern Ireland), 1957 and 1961.

The total number of contributors is about 577,000. During the year ended 31 March 1963 the average number of persons in receipt of sickness benefit was 31,000 and in receipt of unemployment benefit was 27,000. Widow's benefits were in payment to about 15,000 women and retirement pensions to about 122,000 persons. Receipts of the Northern Ireland National Insurance Fund in the year ended 31 March 1963 were £33·21m. and payments £33,439,000. The combined balance of the National Insurance and Reserve Funds at 31 March 1963 amounted to £32,495,000.

Industrial Injuries Insurance. The National Insurance (Industrial Injuries) Act (Northern Ireland), 1946, provides insurance against 'personal injury by accident arising out of and in the course of employment' and against industrial diseases. About 506,000 persons are covered by the scheme, and the contributions they pay and the benefits to which they may

be entitled are the same as in Great Britain. Accidents in respect of which claims to benefit are made occur at the rate of about 220 a week.

Receipts of the Northern Ireland Industrial Injuries Fund in the year ended 31 March 1963 were £1,784,297, and payments £1,128,671.

Family Allowances. An allowance of 8s. per week is payable for the second child and 10s. a week for each subsequent child in a family. The number of families in receipt of allowances is about 119,000, and the cost of the scheme in the year ended 31 March 1963 was as follows: Allowances, £6,225,000; administration, £177,000.

National Assistance. The National Assistance Scheme provides for the grant of assistance to persons who are without resources, or sufficient resources, to meet their requirements. Benefit under the National Insurance Scheme may be supplemented under the National Assistance Scheme. Number of applications in payment at 31 March 1963, 62,744; cost in 1962-63, £6,878,968.

JUSTICE. Under the Government of Ireland Act, 1920, a Supreme Court of Judicature of Northern Ireland was established, consisting of the Court of Appeal in Northern Ireland and the High Court of Justice in Northern Ireland. An appeal lies direct, in certain conditions, from the former to the House of Lords. A Court of Criminal Appeal was established in 1930.

County Courts deal with civil disputes, where the sum at issue does not exceed £300. County Courts have also a criminal jurisdiction, and act as appellate courts from the decisions of Resident Magistrates.

By the Summary Jurisdiction and Criminal Justice Act (Northern Ireland), 1935, the judicial functions of the Justices of the Peace were vested in permanent judicial officers known as Resident Magistrates. The administrative functions of the Justices of the Peace are preserved, and they hear and determine cases of drunkenness, vagrancy and kindred offences, but only when sitting out of Petty Sessions.

Police. The police force consists of the Royal Ulster Constabulary, and the Ulster Special Constabulary, a part-time force.

FINANCE. The bulk of the taxation of Northern Ireland is imposed and collected by the UK Government, which, after certain deductions, remits the balance to the Northern Ireland Exchequer. The allocation of the latter, termed the Residuary Share of Reserved Taxes, is determined by the Joint Exchequer Board, a statutory body consisting of one representative of the UK Treasury, one of the Northern Ireland Ministry of Finance and a chairman appointed by Her Majesty. The deductions made by the UK Treasury represent a contribution towards Imperial liabilities and expenditure, and the net cost to the UK Exchequer of Northern Ireland services 'reserved' to the UK Parliament.

The Northern Ireland Parliament has limited powers of taxation. The powers excluded relate to customs duties, excise duties on articles manufactured and produced, excess profits tax, income tax, including surtax, or any tax on profits or a general tax on capital, or any tax substantially the same in character as any of these duties or taxes. The Government of Northern Ireland also raises money from time to time for capital purposes by means of Stocks, Savings Certificates and Ulster Development Bonds.

The Public Income and Expenditure of the Northern Ireland Exchequer for the past 5 years were as follows (in £ sterling):

	1959-60	1960-61	1961-62	1962-63	1963-64 ²
Public Income ¹	89,738,726	102,456,082	110,235,224	119,058,245	134,694,000
Expenditure	89,682,138	102,351,714	110,169,348	118,986,162	134,620,485
Contribution	7,000,000	5,300,000	8,700,000	7,500,000 ²	3,500,000

¹ Net, after deduction of estimated cost of 'Reserved' Services and contribution to Imperial Services. An adjustment is made when the true Residuary Share of Reserved Taxes has been finally ascertained.

² Provisional.

³ Estimates.

The public debt at 31 March 1963 consisted of £38,398,823 Ulster Savings Certificates, £1,658,425 Ulster Development Bonds, £23,520,287 borrowed from H.M. Treasury, £27,968,000 borrowed from government funds, £7m. N.I. 6% Exchequer Stock 1977 and £12m. N.I. 6½% Exchequer Stock 1974.

Loans to local authorities and others for public-utility services are made from the Government Loans Fund, the amount of principal outstanding at 1 March 1963 being £99,554,231. Loans are financed by issues of Loans Stock supplemented as necessary by other borrowings. Loans Stocks outstanding at 31 March 1963 were £8m. Northern Ireland 3½% Loans Stock, 1969-71, and £7m. Northern Ireland 3½% Loans Stock, 1968-70.

PRODUCTION. Agriculture. Estimated gross output in 1961-62 (provisional figures) including direct subsidies and the value on sale of store animals from the Irish Republic fattened in Northern Ireland:

Livestock, 1963 (provisional figures): Cattle 1,111,000; sheep, 1.13m.; pigs, 1,199,000; poultry, 9,389,000; horses (June 1962), 8,600.

Mining. The output of minerals (in 1,000 tons) during 1962 was: Basalt and igneous rock, 2,394; chalk, 937; clay, 279; coal, 12; diatomite, 6; fireclay, 19; flint, 5; granite, 38; grit and conglomerate, 955; limestone, 1,010; sand and gravel, 1,194; perlite, 2.

Manufactures. Northern Ireland is an important and expanding industrial region, and over 214,000 people are employed in manufacturing industry, building and construction. The manufacture of linen and the shipbuilding industry have long been predominant, but under the policy of industrial development actively encouraged by the Government of Northern Ireland many new industries have been established and a wide diversification of activity has resulted. The textile industry has been widened by the introduction of man-made fibres, although linen remains the most important of the textile industries. (Exports of Northern Ireland linen goods (including yarn and thread) during the year ended 31 May 1963 were valued at over £12m.) The textile and clothing industries together give employment to about 74,000 people. About 53,000 people are employed in engineering, shipbuilding and the production of aircraft. The engineering industries include also the manufacture of textile machinery; turbines; dust-collecting and air-conditioning plant; tea-estate machinery; oilfield equipment; tabulating machines; radios; gramophone equipment and a wide variety of other products.

The Government offers special encouragement towards the establishment of new and the expansion of existing industry, including substantial grants towards capital investment and the provision of government-built factories at a low rent or on repayment terms. By March 1963 the establishment of 168 new firms and over 133 schemes of expansion by existing firms since 1945 had been assisted, giving employment to 45,900 additional workers.

Electricity. The generation of electricity is co-ordinated by the Northern Ireland Joint Electricity Committee which purchases the output of the 'designated' power stations for resale to the owners of those stations, viz., the Belfast Corporation, the Londonderry Corporation and Electricity Board for Northern Ireland (the distributors for Belfast and District, the City of Londonderry and the rest of the Province). Total sales in the year ended 31 March 1963 amounted to 1,733m. units to a total of 371,730 consumers.

The installed capacity of the Board's Ballylumford Power Station is 124,500 kw., of the Belfast Municipal Power Station East 174,750 kw., of the Belfast Municipal Power Station West 240,000 kw., of the Londonderry Municipal Power Station 18,000 kw. A new generating station at Coolkeeragh near Londonderry, which is owned and operated by the Board, has two 30,000-kw. and two 60,000-kw. sets. This station will be brought up to 360,000 kw. by 1967.

COMMERCE. Northern Ireland has a substantial export trade with countries overseas, especially in linen goods, for which the main overseas market is the USA.

Imports and exports including trade with Great Britain (in £1m. sterling) for calendar years:

	1955	1956	1957	1958	1959	1960	1961	1962
Imports.	295	301	318	328	368	373	373	397
Exports.	267	274	298	297	319	334	340	340

In 1962, 73.7% of the total imports (by value) came from Great Britain or from foreign countries *via* Great Britain; 7.3% from the Irish Republic and the balance direct from other countries. Of the exports 90.7% (by value) went to Great Britain or to foreign countries *via* Great Britain; 5.6% to the Irish Republic, and the balance direct to other countries.

Principal imports in 1962 (including imports from Great Britain) were valued at: Machinery, £44m.; tobacco, manufactured and unmanufactured,

£28m.; motor vehicles, £21m.; coal, £20m.; cotton goods, including goods for further processing, £17m.; clothing and footwear, £13m.; animal feeding stuffs, £13m.; maize, £12m.

Principal exports in 1962 (including exports to Great Britain) were valued at: Machinery, £42m.; clothing and footwear, £27m.; linen and man-made fibre goods, £25m.; livestock, £20m.; cotton goods including re-exports after finishing, £18m.; bacon, £18m.; eggs, £12m.; milk, condensed, dried, etc., £5m.; potatoes, £4m.

COMMUNICATIONS. Roads. Under the Roads Act (Northern Ireland), 1948, the Government set up a trunk roads system and took on full financial responsibility for the improvement and maintenance of the main traffic routes of Northern Ireland. At 1 April 1963 the total mileage of roads was 13,838, graded for administrative purposes as follows: Motorway, 7 miles; trunk, 374 miles; class I, 955 miles; class II, 1,733 miles; class III, 2,865 miles; unclassified, 7,904.

The Councils of County Boroughs, Boroughs and Urban Districts are the road authorities for all roads (other than trunk roads) in their areas. The cost of upkeep of such roads is chargeable to the County Borough, Borough or Urban District, as the case may be. For roads (other than trunk roads) situated in rural areas the County Councils are the road authorities. The cost of upkeep of these roads is chargeable to all the rural districts in the county if the road is graded as class I, II or III, but the cost of upkeep of an unclassified road is chargeable only to the rural district or districts in which the road is situated.

A Road Fund to which are credited motor vehicle duties and drivers' licence fees, and out of which are paid grants to local authorities for the maintenance, improvement and reconstruction of public roads (other than trunk roads), is administered by the Ministry of Home Affairs. The net income of the Fund for the year ended 31 March 1963, after deducting collection and other charges, was £4,692,804, and grants amounting to £4,523,608 were paid to local authorities.

Road and Rail Transport. Passenger transport in Belfast is provided by Belfast Corporation, and private hauliers are engaged in freight transport in the cities of Belfast and Londonderry. All other public road passenger and freight services and all rail services are provided by the Ulster Transport Authority, a public body which was established under the Transport Act (N.I.), 1948.

The road passenger section of the Authority's undertaking operates a wide network of omnibus services and an extensive programme of coach tours. The road freight section provides a comprehensive service for the carriage of merchandise (including heavy indivisible loads and livestock), and can supply vehicles under contract for the exclusive use of traders. Six first-class hotels are also owned and operated by the Authority.

In the year ended 30 Sept. 1962 the Authority operated 297 miles of railways, 2,751 road route miles of regular omnibus services; carried 8,746,555 passengers by rail, 85,173,678 passengers by road, 491,542 tons of merchandise by rail and 2,218,875 tons by road, 1,173,445 head of livestock by rail and road. Gross revenue was £10,264,111.

During the year ended 31 March 1963 the Belfast Corporation Transport Department issued 115.4m. passenger tickets. Gross receipts for the year were £3,036,000; net deficit £43,000. The Corporation operate 155 trolley-buses and 397 omnibuses.

The great bulk of road transport in the Province is private. While the

carriage of merchandise for hire or reward is restricted under the provisions of the Transport Act (N.I.), 1948, the owner of a motor goods vehicle is not subject to any restriction in the carriage of his own goods, except in the interest of public safety.

The number of motor vehicles licensed at 30 Sept. 1962 was 259,802, including: Private cars, 150,159; motor cycles, 31,740; goods vehicles, 41,073; agricultural vehicles, 30,612.

Shipping. The principal ports are Belfast, Coleraine, Larne, Londonderry and Newry. Regular passenger and freight services operate to the main ports in Great Britain and to other world ports. Special vehicle ferry and or container services ply between: (a) Belfast and Heysham, Liverpool and Preston; (b) Larne and Stranraer; (c) Londonderry and Preston; (d) Newry and Liverpool.

The tonnage (1,000) of goods imported and exported through the ports during 1962 was:

	Imports	Exports		Imports	Exports
Belfast	4,930	667	Newry	274	2
Coleraine	106	15	Others	656	79
Larne	436	337			
Londonderry	850	134	Total	7,252	1,234

Aviation. Regular services operate between Belfast Airport and Birmingham, Bristol, Cardiff, Carlisle, Derby, Dublin, Glasgow, Isle of Man, Leeds, Liverpool, London, Manchester and Newcastle. During the summer months there are also regular services to Blackpool, Bournemouth and Jersey.

The airline operators are Aer Lingus, BKS Air Transport, Ltd, BEA, British United Airways; Cambrian Airways and Derby Airways.

At Belfast Airport during 1962 there were 16,000 aircraft movements and 585,000 passengers were handled. Over 9,000 short tons of freight were carried, including 3,000 short tons of mail.

ISLE OF MAN

CONSTITUTION AND GOVERNMENT. The Isle of Man is administered in accordance with its own laws by the Court of Tynwald, consisting of the Governor, appointed by the Crown; the Legislative Council, composed of the Lord Bishop of Sodor and Man, 2 Deemsters, the Attorney-General, 2 members appointed by the Governor, and 5 members elected by the House

of Keys, total 12 members, including the Governor; and the House of Keys, a representative assembly of 24 members chosen on adult suffrage with 6-months residence for 5 years by the 6 'sheadings' or local sub-divisions, and the 4 municipalities. The island is not bound by Acts of the Imperial Parliament unless specially mentioned in them.

Flag: Red, with 3 steel-coloured legs armoured and spurred (knees and spurs, yellow) in the centre.

The elections to the House of Keys, 6 Feb. 1962, resulted in the return of 18 Independents and 6 Labour. Number of voters 1961-62, 39,278.

An Executive Council to act with the Governor on all matters of government was set up under the Isle of Man Constitution Act, 1961. It consists at present of 3 members of the House of Keys and 4 of the Legislative Council.

Lieut.-Governor: Sir Ronald Garvey, KCMG, KCVO, MBE (term of office began 8 Sept. 1959).

AREA AND POPULATION. Area, 227 sq. miles (572 sq. km); population, 48,150 (census, 1961). The principal towns are Douglas (population, 1961, 18,837), Ramsey (3,764), Peel (2,487), Castletown (1,549). Vital statistics, 1962: Births, 675; deaths, 793. The number of Manx-speaking people has fallen from 4,657 in 1901 to 355 in 1951, all of whom are bilingual.

EDUCATION. In Jan. 1963 there were 31 primary schools (35 departments), 28 being county schools. The enrolled pupils numbered 3,698. The net expenditure on education from revenue and rates for 1962-63 amounted to £763,712; in addition, capital grants of £34,700 were made for school buildings. There are 6 secondary schools, 4 provided by the Education Authority (2,858 registered pupils), 1 direct grant school for girls (180 registered pupils), 1 independent public school for boys (377 registered pupils), 1 college of further education (66 full- and 1,303 part-time and evening pupils), 3 independent primary schools (173 pupils), 1 domestic science college (20 full- and 237 part-time pupils).

POLICE. The police force numbered 94 all ranks in 1963.

FINANCE. Revenue is derived from customs duties and partly from income tax. In 1962-63 the total revenue amounted to £4,253,654; expenditure to £4,167,427. In addition, capital expenditure, mainly out of borrowings, amounted to £832,345.

AGRICULTURE. The principal agricultural produce of the island consists of oats, wheat, barley, turnips and potatoes, and grasses. The total area under crops in 1962 was 77,558 acres and of rough grazings, 43,823 acres. The total area under corn crops was 12,589 acres, including 9,486 under oats, 599 under wheat and 1,783 under barley or bere. There were also 3,720 acres under turnips and swedes, 1,197 under potatoes, 7,456 under hay and 33,050 under grass, following rotational cropping. Livestock in 1962: 543 horses, 28,211 cattle, 106,207 sheep and 6,654 pigs.

COMMUNICATIONS. The registered shipping (1961) comprised 48 vessels of 10,410 net tons. The railways have a length of 70 miles, and there are 410 miles of roads. Several road races for motor cycles and bicycles take place annually. Number of vehicles (31 March 1962): 9,206

cars and trucks, 739 taxis and buses, 2,507 motor cycles and scooters, 1,255 tractors.

CHANNEL ISLANDS

Area. The Channel Islands are situated off the north-west coast of France and are the only portions of the 'Duchy of Normandy' now belonging to the Crown of England, to which they have been attached since the Conquest. They consist of Jersey (28,717 acres), Guernsey (15,654 acres) and the following dependencies of Guernsey—Alderney (1,962), Brechou (74), Great Sark (1,035), Little Sark (239), Herm (320), Jethou (44) and Lihou (38), a total of 48,083 acres, or 75 sq. miles (194 sq. km).

The climate is mild. Total rainfall (1962), Jersey, 37.43 in.; Guernsey, 31.58 in. Temperature registered (1962): highest, Jersey, 80°; Guernsey, 78°; lowest, Jersey, 27°; Guernsey, 27°.

Constitution. The Lieut.-Governors and C.s-in-C. of Jersey and Guernsey are the personal representatives of the Sovereign, the Commanders of the Armed Forces of the Crown and the channel of communication between H.M. Government in the UK and the insular governments. They are appointed by the Crown and have a voice but no vote in the Assemblies of the States (the insular legislatures). The Secretaries to the Lieut. Governors are their staff officers.

The Bailiffs are appointed by the Crown and are Presidents both of the Assembly of the States and of the Royal Courts of Jersey and Guernsey. They have in the States a casting vote.

Language. The official language is French in Jersey, and English in Guernsey. The language commonly used is English, and, in the country districts, Norman patois. The Alderney dialect has died out.

Church. Jersey and Guernsey each constitutes a deanery within the diocese of Winchester. The rectories (12 in Jersey; 10 in Guernsey) are in the gift of the Crown. The Church of Rome and various Nonconformist Churches are represented.

Justice. Justice is administered by the Royal Courts of Jersey and Guernsey, each of which consists of the Bailiff and 12 jurats, the latter being elected by an electoral college. There is a final appeal in certain cases to Her Majesty-in-Council. A stipendiary magistrate in each, Jersey and Guernsey, deals with minor civil and criminal cases.

Communications. Passenger and cargo steamer services between Jersey, Guernsey, England and St Malo are maintained by British Railways; between Guernsey, Alderney and Sark, and between Guernsey, Jersey, England and cargo services between Guernsey, Jersey and St Malo by the Commodore Shipping Co. Cargo steamer services between Jersey and Guernsey and between Jersey, Guernsey and London are maintained by the British Channel Islands Shipping Co. Ltd; fortnightly cargo service between Liverpool, Jersey and Guernsey by Cunard Steamship Co.

Scheduled air services are maintained by a number of operators between

the Islands and airports in the United Kingdom and Eire and on the continent. During the summer months these services are greatly increased, both in the number of airports served and in the frequency of flights.

Omnibus services operate in all parts of Jersey and Guernsey.

Postal and overseas telephone and telegraph services are maintained by the General Post Office. The local telephone services are maintained by the insular authorities. There were, in 1963, 13,178 subscribers in Jersey and 10,521 in Guernsey.

There is an independent television station in Jersey.

Trade. The trade of the Channel Islands with the UK is now regarded as internal trade. For statistics up to 1958 see THE STATESMAN'S YEAR-BOOK 1960 and earlier.

GUERNSEY

Constitution. The government of the island is conducted by committees appointed by the States.

The States of Deliberation, the parliament of Guernsey, is composed of the following members: The Bailiff, who is President *ex officio*; 12 Conseillers; H.M. Procureur and H.M. Comptroller (Law Officers of the Crown), who have a voice but no vote; 33 People's Deputies elected by popular franchise; 10 Douzaine Representatives elected by their Parochial Douzaines; 2 representatives of the States of Alderney. The Lieut.-Governor has no power of veto.

The States of Election, an electoral college, elects the Jurats and Conseillers. It is composed of the following members: The Bailiff (President *ex officio*); the 12 Jurats or 'Jurés-Justiciers'; the 12 Conseillers; the 10 Rectors; H.M. Procureur and H.M. Comptroller; the 33 People's Deputies; 34 Douzaine Representatives; and (for the election of Conseillers) 4 representatives of the States of Alderney.

Since Jan. 1949 all legislative powers and functions (with minor exceptions) formerly exercised by the Royal Court have been vested in the States of Deliberation. Projets de Loi (Bills) require the sanction of the Queen-in-Council.

Lieut.-Governor and C.-in-C. of Guernsey and its Dependencies: Lieut.-Gen. Sir Charles Coleman, KCB, CMG, DSO, OBE.

Secretary and ADC to the Lieut.-Governor: Capt. M. H. T. Mellish.

Bailiff of Guernsey and President of the States: Sir William Arnold, CBE.

Population. The population at the 1961 census was 45,150. Births during 1962 were 797; deaths, 585. The town is St Peter Port.

Education. There are 2 public schools in the island: Elizabeth College, founded by Queen Elizabeth in 1563, for boys, and the Ladies' College, for girls. The States grammar schools provide for education up to University entrance requirements, and there are numerous modern secondary and primary schools. The total number of school children is 7,569. Facilities are available for the study of art, domestic science and many other subjects of a technical nature. There is also a convent school with boarding facilities for girls.

Finance (year ending 31 Dec. 1962). Revenue £2,853,933 (including £91,181 for Alderney); expenditure, £2,889,680 (including £83,622 for Alderney); States' funded debt less sinking fund provisions, £2,880,570;

note issue, £632,283. The standard rate of income tax is 4s. in the pound. States and parochial rates are very moderate. No supertax or death-duties are levied.

Commerce (1962). Principal imports: Fuel, 122,943 tons; foodstuffs, 19,365 tons; building materials, 41,665 tons; petrol and oils, 23,749,542 gallons. Principal exports: Tomatoes, 42,799 tons net; flowers and fern, 4,166 tons; stone, 43,783 tons.

Shipping. The principal harbour is that of St Peter Port, and there is a harbour at St Sampson's (used mainly for commercial shipping). In 1962 the number of ship tons net entering and leaving Guernsey was 1,753,626. Sea passengers: Arrivals, 82,279; departures, 79,886. Ships registered in Guernsey at 31 Dec. 1962 numbered 61 (sail, 3; yachts, 58).

Aviation. The airport in Guernsey, situated at La Villiaze, has a landing area of approximately 124 acres and a tarmac runway of 4,800 ft. In 1962, 130,809 passengers arrived and 132,815 departed by air.

Alderney. Population (census 1961), 1,449. The island has an airport. The constitution of the island (reformed 1949) provides for its own popularly elected President and States (9 members), and its own Court.

President of the States: Cdr S. P. Herivel, CBE, DSC.

Clerk of the States and Court: P. W. Radice, MA, ICS (Retd).

Sark. Population (census 1961), 556. The constitution is a mixture of feudal and popular government with its Chief Pleas (parliament), consisting of 40 tenants and 12 popularly elected deputies, presided over by the Seneschal. The head of the island is the Seigneur (at present La Dame). Sark has no income tax. Motor cars are not allowed on the roads.

La Dame de Sercq: Mrs R. W. Hathaway, OBE.

Seneschal: W. Baker, MBE.

ADEN

FEDERATION OF SOUTH ARABIA—ITTIHAD AL JANUB AL 'ARABI

FEDERATION OF SOUTH ARABIA. On 11 Feb. 1959, 6 Western Protectorate states—the amirates of Baihan and Dhala, the sultanates of Audhali, Fadhli and Lower Yafa, and the Upper Aulaqi shajkhdom—formed the Federation of the Arab Amirates of the South. The Sultan of Lahej joined the Federation in Oct. 1959, the Lower Aulaqi sultanate and Dathina State in Feb. 1960, the State (formerly colony) of Aden on 18 Jan. 1963 and the Wahidi sultanate (formerly the Eastern Aden Protectorate), the Haushabi sultanate and the shajkhdom of Sha'ib in March 1963. On 4 April 1962 the Federation, now composed of 14 states, changed its name to 'the Federation of South Arabia'. The capital of the Federation is Al Ittihad. The Aden Protectorate Levies, formed in 1928, were on 29 Nov. 1961 handed over to the Federation and now constitute the Federal Regular Army.

Constitution and Government. The constitution confers exclusive legislative and executive authority on the Federal Government in respect of external affairs, defence, internal security, aviation, posts and telegraphs, currency, banking, exchange control and health. The Federation has concurrent authority with the States in respect of agriculture, fisheries and other forms of economic development, roads, immigration, prisons, imports and exports, shipping and navigation (excluding ports and harbours), and insurance.

The legislature, called the Federal Council, consists of 94 members, each State being entitled to be represented by 6 members except the Aqrabi shaikhdom (1 member), Aden (24) and the shaikhdom of Sha'ib (3). Each state is free to select its representatives in the Federal Council by whatever means the State considers appropriate.

The chief executive organ of the Federation is the Supreme Council, which consists of 14 Ministers elected by and from the members of the Federal Council for periods of office not exceeding 5 years. The chairmanship of the Supreme Council is held by Ministers in rotation.

Area and Population. The Federation, including Aden, covers an area of approximately 60,000 sq. miles (155,400 sq. km). The population is estimated at about 712,500; with the exception of the State of Aden, the people are almost 100% Arabs.

Vital statistics for calendar years:

	<i>Live births</i>	<i>Still births</i>	<i>Deaths</i>
1960	6,136	87	1,942
1961	7,336	114	1,721
1962	8,002	158	1,827

Education. The Federal Ministry of Education is responsible for education throughout the Federation. The educational system consists of 4 years of primary, 3 years of intermediate and 4-6 years of secondary schooling. There are 143 government primary schools, 17 intermediate schools and 4 secondary schools, plus a technical institute in Maalla with a branch at Little Aden. In addition, there are 12 government-aided and 5 private primary schools, and 10 grant-aided and 4 private intermediate schools. Teacher-training centres provide nearly 200 places for men and women trainees. Adult education is provided by evening classes.

Justice. The Federal High Court has jurisdiction in respect of the interpretation of the Constitution and the determination of disputes between States.

Health. The Federal Ministry of Health is responsible for 2 hospitals with 770 beds and 40 health units, many of the remoter areas being regularly visited by health assistants. In return for annual contribution to the Aden Government, the Federation also sends patients for treatment to the Queen Elizabeth Hospital in Aden. Two further hospitals are being built.

Finance. In 1962-63 revenue amounted to 1,932,166 East African shillings, expenditure to 3,697,868 East African shillings. Estimates, 1963-64: Revenue, £7,696,711; expenditure, £8,465,587.

Production. Agriculture is the main occupation of the inhabitants of the Federation, excluding Aden State. This is largely of a subsistence nature, sorghum, sesame and millet being the chief crops, and wheat and barley widely grown at the higher elevations. Of increasing importance, however, are the cash crops which have been developed since the Second World War,

by far the most important of which is the Abyan long-staple cotton, now the country's major export.

Owing to paucity of rainfall, cultivation is largely confined to fertile valleys and flood plains on silt, built up and irrigated in the traditional manner. Of recent years these traditional methods have been augmented and replaced by the use of modern earth-moving machinery and pumps. Irrigation schemes with permanent installations are being undertaken.

Nearly all the fruit and vegetables grown in the Federation are sold through the Central Wholesale Produce Market in Aden, through which passes annually some 15,000 tons of locally produced fruits and vegetables worth up to £500,000 annually.

Posts and Telecommunications. The postal service of the Federation is provided through 7 post offices. There are also 9 post offices in the Protectorate and one at Kamaran. There are 13 postal agencies in the Protectorate and one at Perim. The automatic telephone system of Aden State is integrated with a manual switchboard at Al Ittihad to provide service to about 3,500 subscribers. Radio telephone services are available with London (with extensions to Europe and America), Kenya (with extensions to Tanganyika and Uganda), Bombay, French Somaliland, Bahrain and Addis Ababa.

There is no inland public telegraph service. World-wide external telegraph services are operated by Cable and Wireless Ltd, which also operate wireless-telegraph services to Mukalla, Seyum and Meifah in the Protectorate and to Kamaran.

Aviation. Responsibility for Civil Aviation in the Federation of South Arabia is vested in the Minister of Civil Aviation, Shipping and Navigation. The Directorate of Civil Aviation operates all airfields, including the international airport at Aden (Khormaksar), which is jointly operated by the Directorate of Civil Aviation and the Royal Air Force.

Twelve airlines operate scheduled services into the Federation: Aden Airways, Air-India, Alitalia, BOAC, East African Airways Corporation, Ethiopian Airlines, Ghana Airlines, Middle East Airlines, United Arab Airlines, Saudi Arabian Airlines, Sudan Airways, Yemen Airlines.

Aden Airways Ltd, an associate of BOAC operates regular domestic services within the Federation and East Aden Protectorate States, as well as on international trunk routes to East Africa, Ethiopia, Persian Gulf, Somali Republic, Saudi Arabia, Sudan and United Arab Republic.

Currency. The currency in circulation is the East African shilling.

STATE OF ADEN. *Constitution.* A new Constitution came into effect on 18 Jan. 1963, on which date Aden acceded to the Federation of South Arabia. The sovereignty of the Crown over Aden continues and Her Majesty in Council retains the powers to make laws for the peace, order and good government of Aden. The Governor of Aden has been replaced by the High Commissioner for Aden and the Protectorate of South Arabia. The Constitution defines and protects the fundamental rights and freedoms of the individual, changes the constitution of the Legislative Council, replaces the Executive Council by a Council of Ministers and establishes a Public Service Commission and Police Service Commission.

The Legislative Council consists of a Speaker nominated by the High Commissioner, 16 elected members, 6 members nominated by the High Commissioner, and the Attorney-General.

The Council of Ministers consists of not less than 7 Ministers, who are

members of the Legislative Council, and the Attorney-General. The High Commissioner appoints as Chief Minister the member who commands the support of the majority, and the remaining Ministers on the advice of the Chief Minister. The High Commissioner is bound to consult the Council of Ministers in the formulation of policy and in the exercise of all powers conferred upon him by the Constitution, or the law of Aden, except in the exercise of powers which relate to external affairs, defence, internal security and certain other matters, in all of which cases the High Commissioner may consult the Council. In some cases of urgency or emergency the High Commissioner has certain special powers.

Kamaran, Perim and the Kuria Muria islands no longer form part of Aden. New Orders in Council now apply to each group of islands. The High Commissioner is the Legislative Authority for these islands.

Aden has 24 members in the Federal Council and 4 members in the Supreme Council of the Federation. These are appointed by the High Commissioner under a temporary arrangement until provision for appointment is made by the Aden Legislature.

High Commissioner: Sir Kennedy Trevaskis, KCMG, OBE.

Chief Minister: Zain A. Baharoon. *Foreign Affairs:* Sheikh Muhammad Farid al Aulaqi.

Area and Population. The area of the State is 75 sq. miles (195 sq. km). According to the census held in Feb. 1955 the total population was 138,441: Arabs, 55,791; Yemenis, 48,088; Indians, 15,817; Somalis, 10,611; Europeans, 4,484; Jews, 831; others, 2,819. Estimated population in 1963, 210,000.

The principal towns are: Crater (55,000), Sheikh Othman (29,000), Tawahi (20,000) and Maalla (20,000).

Finance. Budgets, in £ sterling, for fiscal years ending 31 March:

	1959-60 ^a	1960-61 ^a	1961-62	1962-63	1963-64 ^a
Revenue	3,888,459	4,366,603	4,366,603	5,925,576	3,841,217
Expenditure ^b	3,833,284	4,334,869	4,334,869	5,841,568	3,806,022

¹ Includes transfer from surplus balances to a development fund (£200,000 in 1958-59, £550,000 in 1959-60 and 1960-61 each, £900,000 in 1961-62 and 1962-63 each).

² Excludes revenue and expenditure on public utilities.

^a Estimates.

Production. The main product of Aden is salt made from sea-water by solar evaporation. There are an oil refinery (in little Aden), a mill for crushing oil-seeds, mainly cottonseed from the Protectorate, and small factories for tiles, bricks, soap, cigarettes, soft drinks, etc.

Commerce. The trade of Aden is mainly transshipment and entrepot, the port serving as centre of distribution to and from neighbouring territories; because of its favourable geographical position it is an important oil bunkering port. Transit trade is mainly in cotton piece-goods, grains, coffee, hides and skins, and cheap consumer goods. There is a flourishing trade in luxury goods sold to visitors from ships.

Imports 1962: By sea, land and air, £85,809,865; bullion and specie, £303,827; total imports £86,113,692 (1961: £84,478,594). Re-exports and exports 1962: By sea, land and air, including ships' stores and bunker fuel, £66,641,211; bullion and specie, £2,129,207; total exports, £68,770,418 (1961: £65,925,326).

Total trade (in £ sterling) between Aden (Colony and Protectorate) and UK (British Board of Trade returns):

	1959	1960	1961	1962	1963
Imports to UK	7,515,399	7,306,316	7,245,546	11,052,859	11,271,569
Exports from UK	7,738,656	9,329,502	10,904,373	11,232,702	12,464,306
Re-exports from UK	80,361	123,680	142,539	136,317	139,189

Shipping. Because of its favourable geographical position and its efficient service to ships, Aden has become one of the busiest oil-bunkering ports in the world, handling some 500 ships a month.

In 1961, 5,942 merchant vessels of 28,166,730 tons (net) entered the Port of Aden, of which 2,259 were British; in the same year 1,410 country (local) craft of 128,741 tons entered.

Roads. The state has 122 miles of roads of which 110.5 are asphalted. Registered motor vehicles in 1961 numbered 12,009.

Cinemas (1963). There are 13 cinemas in the State with a seating capacity of 12,186.

Currency. The currency in circulation is the East African Shilling (see p. 558).

Banking. The following banking facilities are in the State: The National and Grindlays Bank, Ltd, the Eastern Bank, Ltd, the British Bank of the Middle East, Cowasjee Dinshaw & Brothers, the Bank of India, Ltd, the Chartered Bank, Ltd, the Habib Bank, Ltd, the Arab Bank, Ltd. There is also a savings bank operated by the Post Office.

PROTECTORATE STATES. The Eastern Aden Protectorate consists of the Qu'aiti State of Shihr and Mukalla, the Kathiri State of Seiyun, and the Mahri Sultanate of Qishn and Socotra. His Highness Sultan Awadh Bin Saleh Bin Ghalib Al Quaiti, Sultan of Shihr and Mukalla, is the premier chief of the Eastern Aden Protectorate. By treaties of 1938 and 1939 respectively a Resident Adviser was appointed to the Qu'aiti State of Shihr and Mukalla and the Kathiri State of Seiyun; he also advises the Sultan of the Mahra State. Mukalla, the principal port, is the seat of government of the Qu'aiti State; Sai'un is the capital of the Kathiri State. The Sultan of the Mahri sultanate of Qishn and Socotra resides on the island of Socotra (area 1,400 sq. miles, 3,625 sq. km), 150 miles from Cape Guardafui. The population of about 12,000 practises a pastoral economy inland and fishing on the coast. Religion was formerly Christian, but Moslem since the end of the 17th century. Chief products are dates and various gums; sheep, cattle (humpless) and goats are plentiful; butter is exported. The Sultan entered into advisory treaty relations with H.M. Government in 1954. Principal village Hadibo.

Education. An education adviser for the Protectorate was appointed in 1960, and he advises the Directors of Education of the Kathiri and the Qu'aiti States. There are 73 primary streams with 8,191 boys and 1,577 girls. There is one intermediate school for girls and 8 intermediate schools for boys. There is also a teachers' training establishment.

Total expenditure in 1962-63, including capital development provided by the UK and contributions from the Federation and the States, was £10,390.

Finance. The Aden Protectorate is not directly administered, but is under the control of the High Commissioner. Government expenditure in 1963-64 was estimated at £1,400,638, excluding £4,962,266 for Federation.

Revenue and expenditure of State administrations which have adopted regular accounting methods were as follows in 1962-63 (estimates, in £). Quaiti, (R) 713,103, (E) 703,642; Kathiri, (R) 68,427, (E) 64,546.

THE ISLANDS. The island of Kamaran in the Red Sea (area 70 sq. miles) has been in British occupation since 1915. The High Commissioner for Aden has direct legislative powers over the island provided in Kamaran Order in Council 1963, and the Kamaran Royal Instructions 1963, but it does not form part of Aden. The island is administered by the Commissioner of Kamaran and Perim. Expenditure on the administration in 1962-63 was £38,172.

The island of Perim was first occupied by the French in 1738. In 1799 the British took formal possession but evacuated the island the same year. It was re-occupied by the British in Jan. 1851 and was later used as a coaling station. The Perim Order in Council 1963 and the Perim Royal Instructions 1963 vest the High Commissioner for Aden with legislative powers, and the island is administered by the Commissioner for Kamaran and Perim. Expenditure on the administration in 1962-63 was £22,123.

The Kuria Muria islands were ceded to the United Kingdom in 1854 by the Sultan of Oman for the purpose of a cable station. The Kuria Muria Islands Order in Council 1963 and the Kuria Muria Islands Royal Instructions 1963 vest the High Commissioner of Aden with legislative powers over the islands, but administration is carried out through the Political Resident, Persian Gulf.

BERMUDA

HISTORY. The Spaniards visited the islands in 1515, but, according to a 17th-century French cartographer, they were discovered in 1503 by Juan Bermudez, after whom they were named. No settlement was made, and they were uninhabited until a party of colonists under Sir George Somers was wrecked there in 1609. A company was formed for the 'Plantation of the Somers' Islands', as they were called at first, and in 1684 the Crown took over the government.

AREA AND POPULATION. Bermuda consists of a group of some 300 small islands (about 20 inhabited), situated in the western Atlantic (32° 15' N. lat., 64° 51' W. long.); the nearest point of the mainland, about 570 miles distant, is Cape Hatteras, N.C., and 677 miles from New York; noted for its climate and scenery; a favourite winter resort for Americans.

The area is 20.59 sq. miles (53.3 sq. km), of which 2.3 sq. miles were leased in 1941 for 99 years to the US Government for naval and air bases. The civil population (*i.e.*, excluding British and American military, naval and air force personnel) at 31 Dec. 1962 was estimated at 45,921.

In 1962 the birth rate was 25.81 per 1,000 (21.46 white, 28.29 coloured) and the death rate 7.27 per 1,000 (7.37 white, 7.22 coloured); there were 506 marriages. Chief town, Hamilton; population, about 2,800.

CONSTITUTION AND GOVERNMENT. Bermuda is a colony, with semi-representative government. The Governor is assisted by an Executive Council of 3 official members (Colonial Secretary, Colonial Treasurer, Attorney-General) and 6 unofficial members, appointed by the Crown. The Legislative Council consists of 3 official members (Chief Justice as president, Colonial Secretary, Attorney-General) and 8 nominated members, appointed by the Crown. The House of Assembly consists of 36 members elected for a 5-year term. Voters must be British subjects of 25 years or over and, if not possessing Bermudian status, have been resident for 3 years. Electors who own a freehold estate of not less than 2,000 sq. ft have an additional vote. Women received the vote in 1944.

Police force, 31 Dec. 1962, establishment, 273; actual strength, 267.

Governor: Sir Roland Robinson, Kt.

Colonial Secretary: J. W. Sykes, CMG, CVO (appointed 6 Dec. 1956).

EDUCATION. Education is compulsory between the ages of 7 and 13, and government assistance is given by the payment of grants, and, where necessary, of school fees. Free elementary education was introduced on 1 May 1949. In 1962, 46 aided schools, with 9,627 pupils, received government grants. Total amount spent by the Government on education in 1962 was £729,128. There are also 31 private schools with 1,760 pupils.

Cinemas (1962). There are 4 cinemas with a seating capacity of 2,310.

Re-exports from UK	119,074	123,227	149,612	126,324	92,915

Food supplies are mostly from USA, Canada, Australia, UK and New Zealand. The principal imports in 1962 were: Food, £3,812,679; clothing, £2,175,837; alcoholic beverages, £801,879; fuel, £1,963,833; building material, £1,552,473.

COMMUNICATIONS. *Shipping.* consisted (1962) of 8 steam vessels of 36,680 tons net, 107 tons net and

49 motor vessels of 22,198 tons net. In 1962 the total tonnage of vessels entered and cleared was 2,762,035 tons, of which 1,412,044 were British.

Railways and Roads. During April 1948 the railway service was discontinued and a government-operated bus service introduced.

Between 1908 and Aug. 1946 the use of motor vehicles, with the exception of ambulances, fire engines and other essential services, was prohibited. With the passing of the Motor Car Act in 1946, the use of motor vehicles, subject to certain limitations on size and horse-power, became lawful. On 31 Jan. 1963, 7,205 private cars, 512 taxis, 1,102 commercial vehicles, 11,071 auto-cycles, 83 buses and 603 miscellaneous motor vehicles were registered.

Post. There is a private telephone company, with 11,170 exchange lines serving 17,400 telephones (end of 1962). There are also 77 public telephone kiosks. Cables connect the islands with Halifax, Nova Scotia, and through Turks Island with Jamaica and Barbados. Early in 1962 the radio-telephone service was replaced by a co-axial telephone-cable system to New York and Montreal, from whence connexion is made to the UK and Europe via 'CANTAT'. There were (1962) 13 post offices. Post office revenue was £340,442 and expenditure, £207,206.

Aviation. BOAC, Pan American Airways and Eastern Airlines maintain regular services between Bermuda and the USA. BOAC also have regular flights through Bermuda serving London, the Caribbean and Caracas. Trans-Canada Airlines call at Bermuda on their services between Canada, Barbados, Antigua and Trinidad; they also operate services between Bermuda, Toronto and/or Montreal. Iberia calls at Bermuda between Madrid, Lisbon, the Azores and Havana. Aircraft entered and cleared in 1962, 3,407, carrying 410,928 passengers.

MONEY. The currency, weights and measures are British, except that US instead of imperial fluid measures are used. There were £5, £1, 10s. and 5s. Bermuda government notes to the value of £1,565,945 10s. in circulation on 31 Dec. 1962.

BANKING. There are 2 banks, the Bank of Bermuda, Ltd, and the Bank of N. T. Butterfield and Son, Ltd. Post office savings bank deposits in 1962 were £815,073 to the credit of 9,101 depositors.

BRITISH GUIANA

HISTORY. The territory, including the counties of Demerara, Essequibo and Berbice, named from the 3 rivers, was first partially settled by the Dutch West Indian Company about 1620. The Dutch retained their hold until 1796, when it was captured by the English. It was finally ceded to Great Britain in 1814.

CONSTITUTION AND GOVERNMENT. The constitution of Aug. 1961 confers upon British Guiana full internal self-government, only defence and external affairs remaining the responsibility of H.M. Government. The legislature consists of an elected Legislative Assembly of 35 members, and a nominated Senate, with limited delaying powers, of 13 members; of these 8 are appointed on the advice of the Premier, 3 after consultation with the opposition and 2 at the Governor's discretion.

The Council of Ministers, presided over by the Premier, consists of 10 Ministers, 3 of whom are Senators. The Governor has reserved legislative powers.

The elections held on 21 Aug. 1961 gave the People's Progressive Party 20 seats, the People's National Congress 11 seats, the United Force 4 seats.

Governor: Sir Richard Luyt, CMG, DCM.

Premier: Dr Cheddi Jagan (People's Progressive Party).

AREA AND POPULATION. The colony is situated on the north-east coast of South America on the Atlantic Ocean, with Surinam on the east, Venezuela on the west and Brazil on the south and west. Area, 83,000 sq. miles (210,000 sq. km). Estimated population (end of 1962), 602,660; of these 296,770 were East Indians and 191,140 Africans. Births (1960), 23,233 (42.7 per 1,000 population); deaths, 5,003 (9.2 per 1,000). The capital, Georgetown, had, in 1960, a population of 148,451.

In Nov. 1940 sites on the bank of the Demerara River, about 25 miles from the sea, and at Makouria, about 40 miles up the Essequibo River, were leased to the USA as military bases. These bases are not now being used by the US Government. Atkinson Field, on the Demerara River, is being operated by the British Guiana Government as a civil airport.

EDUCATION (1962). There were 348 schools (including 90 in remote and sparsely populated districts), 81 of which were government schools and 260 (excluding 3 infant or nursery schools) received government grants. They had 134,818 pupils and 3,383 full-time teachers. Secondary education was provided for both boys and girls in 3 government-owned, 14 grant-aided and 13 privately owned schools.

The University of Guyana was inaugurated on 1 Oct. 1963 (179 students).

Cinemas (1963). There were 41 cinemas with seating capacity of 32,103.

Newspapers (1963). There are 4 daily newspapers with a combined circulation of 57,754, and 6 weekly papers with a combined circulation of 107,055.

JUSTICE. The law, both civil and criminal, is based on the common and statute law of England, save that, with certain exceptions, the English law of personal property applies to both movable and immovable property, and the principles of the Roman-Dutch law have been retained in respect of the registration, conveyance and mortgaging of land. There is absolute equality of males and females before the law as regards divorce, property, succession and all other matters. Appeals lie to the full court of the Supreme Court and to the British Caribbean Court of Appeal, and from these courts to the Judicial Committee of the Privy Council. A Court of Criminal Appeal was instituted on 1 Jan. 1952, but as from 20 Nov. 1959 its functions were taken over by the Federal Supreme Court of the West Indies. After the dissolution of the Federation criminal appeals now lie to the British Caribbean Court of Appeal.

FINANCE. Revenue and expenditure for calendar years (in British Guiana dollars):

	1960	1961	1962 ¹	1963 ¹	1964 ¹
Revenue . . .	56,094,734	60,046,521	59,000,820	67,500,587	69,700,000

These figures are exclusive of special receipts from the Colonial Development Fund. USA grant and the related expenditure.

¹ Estimates.

Chief items of revenue 1961: Customs and excise, \$29,602,321; licences, \$1,119,344; internal revenue, \$20,359,198. Expenditure: General administration, \$8,236,240; law and order, \$5,287,839; debt charges, \$6,776,157; medical, \$6,580,463; education, \$8,091,783; other social services, \$2,905,693; public works, \$5,873,901; post and telecommunications, \$2,762,161; pensions, \$2,511,750; transport services, \$2,336,354.

Public debt, 31 Dec. 1962, was \$117m.

PRODUCTION. British Guiana can be divided roughly into 3 regions: (1) A low coastal region varying in width up to about 30 miles and constituting the agricultural area; (2) an intermediate area about 100 miles wide, of slightly higher undulating land containing the chief mineral and forest resources of the country; and (3) a hinterland of several mountain ranges and extensive savannahs. Approximately 87% of the land area of the Colony is forested, and about 60,000 sq. miles of this is still available for timber exploitation. Only about 20% of the forest area is at present regarded as being reasonably accessible for timber extraction on an economical basis, however. Large areas of unimproved land in the coastal region, which vary in width up to about 50 miles from the sea, are still available for agricultural and cattle-grazing projects.

Agriculture. Acreage under cultivation (1962): Sugar-cane, 100,334 (sugar output, 326,000 long tons); rice, 260,934 (output 128,000 tons); coconuts, 38,000; coffee, 3,500; cocoa, 1,940; ground provisions, 32,000; citrus and other fruit, 9,933; corn, 2,250.

Livestock estimate (1962): Cattle, 200,000; pigs, 40,000; sheep, 45,000; goats, 15,000; poultry (broiler industry), 1,004,000; horses, mules and donkeys, 7,200.

With the exception of sugar, data exclude all crops and livestock under the direct operation of the sugar estates.

The Boerasirie extension project, completed in 1959, provides water control of the coastland between the Essequibo and Demerara rivers, and of riverain land between the sea and mouth of the Bonasika River, a tributary of the Essequibo, and of the Kamuni, a tributary of the Demerara. It will substantially improve the drainage and irrigation over an area of 75,000 acres, and it will bring into beneficial use 40,000 acres now wholly undeveloped. The area of land suitable for rice cultivation has increased from 9,000 to 32,000 acres.

In Dec. 1963 the Tapakuma irrigation project was opened, which will irrigate 35,000 acres on the Essequibo coast.

Mining. Placer goldmining commenced in 1884, and was followed by diamond mining in 1887. From 1884 to 1952 the output of gold was 3,264,498 bullion oz., while in 1962, 1,903 bullion oz. (1960: 2,364; 1961: 1,702) were produced. From 1901 to 1952 the production of diamonds was 2,602,742 metric carats, while in 1962, 100,145 metric carats (1960: 101,004; 1961: 112,679) were produced. There are large deposits of bauxite;

4m. long tons were produced in 1961. Three tons of columbite-tantalite concentrates were produced and shipped to USA in 1955; no production since. Full-scale production of manganese began in 1960 and 232,877 tons were produced in 1962 (140,473 tons in 1963).

COMMERCE. Imports and exports (in British Guiana dollars) for calendar years:

COMMUNICATIONS. *Shipping.* In 1962, 2,518 vessels of 2,743,365 NRT entered and 2,416 of 2,685,066 NRT cleared.

There are 217 nautical miles of river navigation.

British Guiana is in direct sea-communication with the UK, France, the Netherlands, Canada, the USA, the West Indies and Netherlands and French Guianas.

Georgetown harbour, about $\frac{1}{2}$ mile wide and $2\frac{1}{2}$ miles long, has a minimum depth of 24 ft. New Amsterdam harbour is situated at the mouth of the Berbice River; there are wharves for coastal vessels only. Bauxite is loaded on ocean-going freighters at Mackenzie, 67 miles up the Demerara River, and at Everton on the Berbice River, about 10 miles from the mouth of the waterway. The Essequibo River has several timber-loading berths ranging from 20 to 40 ft. Springlands on the Corentyne River is the point of entry and departure of passengers travelling by launch services to and from Dutch Guiana. It is also a shipping point for rice and other produce from the Corentyne to Georgetown.

Roads. There are 318 miles of driving or motor road, 244 miles of forest road from Bartica at the junction of the Essequibo and Mazaruni rivers to the Potaro goldmining district (including branches to the Upper Potaro River at Kangaruma on the route to Kaieteur, to Issano on the Mazaruni River above the long range of falls and rapids and to the Lower Potaro River

at a point beneath the large fall of Tumatumari) and 400 miles of trails (including a government cattle trail of 182 miles, from Takama on the Berbice River to Annai on the Rupununi savannah). Motor vehicles, as of 31 Dec. 1962, totalled 26,082, including 10,579 passenger cars, 3,561 lorries and vans, 133 buses, 5,403 tractors and 4,407 motor cycles.

Railways. There are 2 government-owned railways: the East Coast Railway, 61 miles of single-line standard gauge, linking Georgetown and New Amsterdam; and the West Coast Railway, 33 miles of 3 ft 6 in. gauge, linking Georgetown and Parika at the mouth of the Essequibo River.

The Demerara Bauxite Co. operates a standard-gauge railway of 80 miles from Mackenzie on the Demerara River to Ituni.

Post. On 31 Dec. 1962 there were 136 post offices and agencies (including travelling post offices and agencies).

Telecommunications. The inland public telegraph and radio communication services are operated and maintained by the Telecommunications Branch of the Post Office Department.

There were 9,159 telephones in use in 1962. 278 sub-exchanges, call offices and private branch exchanges were in operation during the year. The number of route miles in the coastal area was 345 miles approximately. Thirty-seven land-line stations were maintained at post offices in the coastal area. Six wireless telegraph stations in the interior provide communication with the coastal area through a central telegraph office in Georgetown.

Overseas radio-telephone and telegraphic communications are provided by Cable and Wireless (W.I.) Ltd.

In Georgetown, a central radio station provided facilities for radio telephone communication with 4 branch offices operated in combination with the wireless telegraph stations mentioned above, 10 stations operated by other government departments, 37 stations operated by private concerns (including mining, ranching, timber and other commercial interests) and 11 coastal ships and launches. This system is linked with the telephone system and is available to the general public.

The British Guiana United Broadcasting Co., Ltd, operates 2 stations on a commercial basis.

Aviation. British Guiana Airways, Ltd, acquired by the Government in 1955, operates scheduled services within the Colony.

Other services in operation: Pan American World Airways, Inc., to and from North, Central and South America once a week; Air France, to and from Guadeloupe, Paramaribo and Cayenne twice a week; British West Indian Airways, Ltd, to and from Trinidad daily, providing direct connexion with New York and London; KLM, to and from Curaçao and Paramaribo twice weekly; Cruzeiro do Sul, to and from Manaus and Boa Vista once a week.

MONEY. Accounts are kept in dollars and cents (\$1 = 4s. 2d.). In circulation are British Caribbean coinage in denominations of 1, 2, 5, 10, 25, 50 cents. A coin of $\frac{1}{2}$ cent denomination has been authorized to be issued. There are also British Caribbean currency notes of \$1, \$2, \$5, \$10, \$20 and \$100. The face value of the latter in circulation at 31 Dec. 1961 was \$29,205,000.

BANKING. Barclays Bank DCO and the Royal Bank of Canada maintain branches in Berbice, Demerara and Essequibo.

4m. long tons were produced in 1961. Three tons of columbite-tantalite concentrates were produced and shipped to USA in 1955; no production since. Full-scale production of manganese began in 1960 and 232,877 tons were produced in 1962 (140,473 tons in 1963).

COMMUNICATIONS. *Shipping.* In 1962, 2,518 vessels of 2,743,365 NRT entered and 2,416 of 2,685,066 NRT cleared.

There are 217 nautical miles of river navigation.

British Guiana is in direct sea-communication with the UK, France, the Netherlands, Canada, the USA, the West Indies and Netherlands and French Guianas.

Georgetown harbour, about $\frac{1}{2}$ mile wide and $2\frac{1}{2}$ miles long, has a minimum depth of 24 ft. New Amsterdam harbour is situated at the mouth of the Berbice River; there are wharves for coastal vessels only. Bauxite is loaded on ocean-going freighters at Mackenzie, 67 miles up the Demerara River, and at Everton on the Berbice River, about 10 miles from the mouth of the waterway. The Essequibo River has several timber-loading berths ranging from 20 to 40 ft. Springlands on the Corentyne River is the point of entry and departure of passengers travelling by launch services to and from Dutch Guiana. It is also a shipping point for rice and other produce from the Corentyne to Georgetown.

Roads. There are 318 miles of driving or motor road, 244 miles of forest road from Bartica at the junction of the Essequibo and Mazaruni rivers to the Potaro goldmining district (including branches to the Upper Potaro River at Kangaruma on the route to Kaieteur, to Issano on the Mazaruni River above the long range of falls and rapids and to the Lower Potaro River

at a point beneath the large fall of Tumatumari) and 400 miles of trails (including a government cattle trail of 182 miles, from Takama on the Berbice River to Annai on the Rupununi savannah). Motor vehicles, as of 31 Dec. 1962, totalled 26,082, including 10,579 passenger cars, 3,561 lorries and vans, 133 buses, 5,403 tractors and 4,407 motor cycles.

Railways. There are 2 government-owned railways: the East Coast Railway, 61 miles of single-line standard gauge, linking Georgetown and New Amsterdam; and the West Coast Railway, 33 miles of 3 ft 6 in. gauge, linking Georgetown and Parika at the mouth of the Essequibo River.

The Demerara Bauxite Co. operates a standard-gauge railway of 80 miles from Mackenzie on the Demerara River to Ituni.

Post. On 31 Dec. 1962 there were 136 post offices and agencies (including travelling post offices and agencies).

Telecommunications. The inland public telegraph and radio communication services are operated and maintained by the Telecommunications Branch of the Post Office Department.

There were 9,159 telephones in use in 1962. 278 sub-exchanges, call offices and private branch exchanges were in operation during the year. The number of route miles in the coastal area was 345 miles approximately. Thirty-seven land-line stations were maintained at post offices in the coastal area. Six wireless telegraph stations in the interior provide communication with the coastal area, through a central telegraph office in Georgetown.

Overseas radio-telephone and telegraphic communications are provided by Cable and Wireless (W.I.) Ltd.

In Georgetown, a central radio station provided facilities for radio telephone communication with 4 branch offices operated in combination with the wireless telegraph stations mentioned above, 10 stations operated by other government departments, 37 stations operated by private concerns (including mining, ranching, timber and other commercial interests) and 11 coastal ships and launches. This system is linked with the telephone system and is available to the general public.

The British Guiana United Broadcasting Co., Ltd, operates 2 stations on a commercial basis.

Aviation. British Guiana Airways, Ltd, acquired by the Government in 1955, operates scheduled services within the Colony.

Other services in operation: Pan American World Airways, Inc., to and from North, Central and South America once a week; Air France, to and from Guadeloupe, Paramaribo and Cayenne twice a week; British West Indian Airways, Ltd, to and from Trinidad daily, providing direct connexion with New York and London; KLM, to and from Curaçao and Paramaribo twice weekly; Cruzeiro do Sul, to and from Manaus and Boa Vista once a week.

MONEY. Accounts are kept in dollars and cents (\$1 = 4s. 2d.). In circulation are British Caribbean coinage in denominations of 1, 2, 5, 10, 25, 50 cents. A coin of $\frac{1}{2}$ cent denomination has been authorized to be issued. There are also British Caribbean currency notes of \$1, \$2, \$5, \$10, \$20 and \$100. The face value of the latter in circulation at 31 Dec. 1961 was \$29,205,000.

BANKING. Barclays Bank DCO and the Royal Bank of Canada maintain branches in Berbice, Demerara and Essequibo.

BRITISH HONDURAS

HISTORY. The early settlement of the territory was probably effected by British woodcutters about 1638; from that date to 1798, in spite of armed opposition from the Spaniards, settlers held their own and prospered. In 1780 the Home Government appointed a superintendent, and in 1862 the settlement was declared a colony, subordinate to Jamaica. It became an independent colony in 1884.

CONSTITUTION AND GOVERNMENT. Under the constitution, which came into force on 6 Jan. 1964, British Honduras has a 2-chamber legislature, with a ministerial system and cabinet responsibility. The House of Representatives consists of 18 members elected by universal suffrage. The Senate consists of 8 members, 5 of whom are appointed on the advice of the Premier, 2 on the advice of the Leader of the Opposition and 1 by the Governor.

The Governor retains reserve powers in respect of defence, external affairs, internal security, the safeguarding of conditions of service of public officers, and over finance 'so long as the Government of British Honduras is in receipt of budgetary aid from the British Government'.

Governor and C.-in-C.: Sir Peter Stallard, KCMG, CVO, MBE.

Premier: George Price.

AREA AND POPULATION. Area, 8,866 sq. miles (22,963 sq. km).

Population, census 7 April 1960 (preliminary), 90,019 (44,361 males, 45,658 females). Voters on the roll numbered 27,691 in 1962. In 1962 the birth rate per 1,000 was 46.3 and the death rate 8.85; infantile mortality 69.5 per 1,000 births; there were 743 marriages and 3 divorces. Capital, Belize City; population, census 1960, 32,690 (15,021 males and 17,669 females). Following the severe hurricane which struck the territory on 31 Oct. 1961, causing considerable loss of life and extensive damage to housing over a third of the land area, the capital will be moved to a new site further inland; construction began in 1964.

Police. The police force contained (1962) 6 officers, 6 inspectors and 366 n.c.o.s and constables.

EDUCATION. In 1962, 2 government, 129 grant-aided and 27 private primary schools had a total enrolment of 25,893 pupils; 14 secondary schools, 2,099 pupils; a government technical high school, 60 pupils. All aided schools, except the government schools and the technical high school, are under the management of Christian bodies.

Cinemas (1963). There were 9 cinemas with seating capacity of 4,273.

Newspapers (1963). There were 2 daily newspapers with a combined circulation of 5,500.

FINANCE. Revenue and expenditure (in \$BH) for calendar years:

	1959	1960	1961	1962 ¹	1963 ²	1964 ²
Revenue	10,327,091	9,193,876	9,538,847	13,674,475	9,040,803	8,296,085
Expenditure	10,406,464	9,190,376	9,534,479	13,674,475	9,040,803	9,313,579

¹ Approved, including special hurricane expenditure.

² Estimates.

Colonial Development and Welfare grants amounted to \$2,255,712 in 1958, \$3,414,837 in 1959, \$1,690,816 in 1960, \$2,423,492 in 1961.

Debt, 31 Dec. 1962, \$4,591,310; sinking fund, \$972,963.

PRODUCTION. 2,964 sq. miles, 49% of the total land area, are under forests which include mahogany, cedar, Santa Maria, pine and rosewood, and many secondary hardwoods of known or probable market value, as well as woods suitable for pulp production. Exports of forest produce in 1961 amounted to \$BH2,941,298 (26.3% of the total exports).

The main agricultural export is citrus fruit, chiefly grapefruit and oranges, whole, canned, juice and concentrates. The total acreage under citrus for export was 6,944 in 1962.

Food and game fish are plentiful, and domestic consumption is heavy. The main items exported in 1962 were lobsters (Spiny) whole and tails, 290,000 lb. valued at \$BH194,000, fresh and dried fish, 231,000 lb. valued at \$BH67,000. Shrimps and tortoise-shell accounted for the balance of the marine produce exported. Turtles—Hawksbill, Loggerhead and Green—are plentiful but as yet are not exported.

With 14,057 acres under sugar, this crop, with 27,000 tons exported in 1963, has assumed great importance.

A development finance corporation with an authorized capital of \$BH4m. was set up in 1961 to provide medium- and long-term credit for agriculture, forestry, tourism and other industries.

LABOUR (1962). There are an estimated 800 full-time and 200 part-time commercial fishermen, almost all self-employed. Chicle (for chewing gum) collection gives employment to 416 men from July to Jan. (the latex flows only during wet weather). Employment in the timber industries is also largely seasonal; peak employment in timber extraction, sawmills and associated operations is around 1,400 men. Many labourers are also planters, working their plantations during seasonal lay-offs. Altogether about 2,200 men and women are engaged in permanent agricultural work; 1,800 are employed seasonally in the sugar and citrus industries; 2,000 are employed in manufacturing and about 1,000 in transport and retail trade.

In 1962 there were 7 trade unions registered with a nominal membership of 3,927.

COMMERCE. In 1962 total imports amounted to \$31,061,000, of which \$8.91m. was for machinery and transport equipment; \$7,009,000 for food; \$5,804,000 for manufactured goods; \$3,504,000 for miscellaneous manufactures; \$1.7m. for mineral fuel, lubricants, etc. The sharp rise in imports was due to hurricane Hattie and subsequent restocking by all stores and business places. Total domestic exports, \$8.25m., of which \$5.05m. was agricultural products.

The principal domestic exports were, in 1962: Timber, \$1,836,000; sugar, \$3,853,000, and citrus, \$1,409,000.

Total trade between British Honduras and UK (British Board of Trade returns in £ sterling):

	1959	1960	1961	1962	1963
Imports to UK	1,782,266	1,545,297	2,238,613	1,050,207	2,509,508
Exports from UK	1,489,816	1,497,806	1,554,466	2,040,812	1,693,254
Re-exports from UK	31,162	31,148	35,005	38,987	36,126

COMMUNICATIONS. Shipping. Tonnage entered, 1960, 375,461 net tons. Registered shipping, 1961, 28 sailing vessels, 218 net tons, and 35 motor vessels, 677 net tons.

Post. Telephone lines (635 miles) connect Belize with Corozal and Consejo on the coast, Orange Walk on New River, San Antonio on the Rio Hondo and other stations in the north, El Cayo and Benque Viejo in the west, Stann Creek and Punta Gorda and other points in the south. Number of telephones (1963), 508. The government-operated telecommunication services were taken over by Cable and Wireless Ltd in 1962, which installed an automatic telephone service in 1963 and also operates a radio-telephone service.

There are 5 post offices and 29 rural sub-post offices.

Aviation. In 1962, 21,143 passengers and 2,474,359 lb. of freight arrived and departed on international flights.

BRUNEI

History. The Sultanate of Brunei was a powerful state in the early 16th century, with authority over the whole of the island of Borneo and some parts of the Sulu Islands and the Philippines. At the end of the 16th century, its power had begun to decline and various cessions were made to Great Britain, the Rajah of Sarawak and the British North Borneo Company in the 19th century as anti-piracy measures and to combat anarchy which had become rife. By the middle of the 19th century, the State had been reduced to its present limits.

In 1847 the Sultan of Brunei entered into a treaty with Great Britain for the furtherance of commercial relations and the suppression of piracy, and in 1888, by a further treaty, the State was placed under the protection of

Great Britain. Brunei was the only former British dependency inhabited by a Malay people that did not join the Federation of Malaysia in 1963.

Sultan of Brunei: The present (28th) Sultan is His Highness Sir Omar Ali Saifuddin Wasa'dul Khairi Waddin, DK, PSNB, SPMB, DMN, DK (Kel.), DK (Johore), DK (Selangor), KCMG, who succeeded his brother, Sir Ahmed Tajudin, on 6 June 1950.

Constitution and Government. On 29 Sept. 1959 the Sultan promulgated a constitution. Under it there is a Privy Council, an Executive Council and a Legislative Council. The Executive and Legislative Councils replace the State Council. The post of British Resident (to whom the administration of the country was entrusted by treaty in 1906) is abolished. His place is taken by a *Mentri Besar* (Chief Minister) appointed by the Sultan, to whom he is responsible for the exercise of executive authority.

The Executive Council is presided over by the Sultan and consists of 6 *ex-officio* members, the High Commissioner and 4 unofficial members. The Legislative Council is presided over by the Speaker and comprises 6 *ex-officio* members, 10 official members and 19 unofficial members.

The official language is Malay, but English may be used for all official purposes. The official religion is Islam.

British High Commissioner: Edward Ord Laird, MBE.

Mentri Besar: Dato' Seri Paduka Marsal bin Maun, SPMB, DSNB, POAS.

Area and Population. Brunei, on the north-west coast of Borneo, is bounded on all sides by Sarawak territory, which splits the State into two separate parts. Area, about 2,226 sq. miles (5,800 sq. km), with a coastline of about 100 miles. Estimated population at the end of 1962 was 91,816. The capital is Brunei (population 37,511), 9 miles from the mouth of Brunei River, 759 nautical miles distant from Singapore. The climate is of tropical marine type, hot and moist, with cool nights.

Education (1963). Free vernacular education in the Malay language is provided in 67 state schools (11,377 pupils). In addition, there were 8 Chinese schools (4,523 pupils), 7 private English schools (2,959 pupils), 3 Government English schools (1,696 pupils), 2 other private schools and a teachers' training centre (125 students). The technical trade school, maintained by the Brunei Shell Petroleum Co., was closed in July 1963, but is expected to reopen as a government trade school.

Recurrent expenditure on education in 1962 was \$6,470,540; capital expenditure, \$115,543.

Police. The Police Force consists of 520 officers and men.

Industry. Brunei depends primarily on its oil industry, which employs three-quarters of the entire working population. Other important products are rubber, padi, jelutong, firewood and sago. Native industries include boat-building, cloth weaving and the manufacture of brass- and silverware. Most of the interior is under forest, containing large potential supplies of serviceable timber.

The Seria oilfield, discovered in 1929, has passed its peak production. The oilfield extends offshore and many wells have been drilled from jetties extending out to sea. Further search for new sources of oil is being conducted in the offshore areas. Part of the oil produced is refined at Lutong, where a large refinery, destroyed during the War, has been rebuilt.

Finance (1962). Revenue, \$115,287,414; expenditure \$41,776,827. The main sources of revenue were: Customs, \$3,500,779; income tax

\$37,590,534; mining rents and oil royalties, \$28,535,171; interest, etc., \$41,662,591. The main heads of expenditure were: Public works recurrent, \$7,588,325; medical and health, \$3,588,409; education, \$6,470,540.

A National Development Plan for the period 1962-66 to strengthen, improve and further develop the economic, social and cultural life of the people of the State has been implemented by Government.

Commerce. In 1962 imports totalled \$49,104,827; exports, \$199,261,384.

Total trade with UK (British Board of Trade returns, in £ sterling):

	1959	1960	1961	1962	1963
Imports to UK	25,544	1,436	2,683	2,756	2,637
Exports from UK	471,195	380,115	427,408	372,471	501,134
Re-exports from UK	16,321	14,963	13,370	11,330

Communications. The State has about 380 miles of road, of which 186 miles are bituminous surfaced. The main road connects Brunei Town with Kuala Belait and Seria. Considerable work is being undertaken for development of secondary roads. The number of motor vehicles (1962) was 6,128.

There were 6 post offices and a telephone network (900 telephones) linking the main centres. A central wireless station at Brunei is in direct communication with Singapore, Sarawak and Sabah; 3 subsidiary stations at Belait, Seria and Temburong serve internal traffic.

The Sarawak Steamship Company, the North Borneo Trading Company and launches regularly maintain communication with Labuan 35 miles from Brunei.

Malayan Airways maintain a daily air service to and from Singapore with connexion to Jesselton and Kuching; Borneo Airways provide local air services with the main centres in Borneo. Cathay Pacific Airways operate a weekly service to and from Hong Kong.

Currency. The currency is the Malayan Dollar with a par value of 2s. 4d.

FALKLAND ISLANDS AND DEPENDENCIES

AREA AND POPULATION. Crown colony situated in South Atlantic, 300 miles east of Magellan Straits. East Falkland, 2,610 sq. miles; West Falkland, 2,090 sq. miles, including in each case the adjacent small islands; total 4,700 sq. miles (12,000 sq. km); South Georgia, 1,600 sq. miles; South Sandwich, 130 sq. miles. Population: Falkland Islands, 31 Dec. 1962, 2,140 (1,190 males and 950 females); exclusive of the Whaling Settlement in South Georgia (population, 31 Dec. 1962, 93, including 9 women. Chief town, Stanley, 1,074 inhabitants.

The dependencies south of lat. 60° and between 20° and 80° W. long, were on 3 March 1962 created a separate colony called British Antarctic Territory. They comprise the South Shetlands (1,800 sq. miles), the South Orkneys (240 sq. miles) and Graham Land.

CONSTITUTION AND GOVERNMENT. The Governor is assisted by an Executive Council and a Legislative Council. The latter consists of 11 members, namely, 3 *ex-officio* members (Colonial Secretary, Senior Medical Officer, Colonial Treasurer); 2 official and 6 non-official members (2 nominated by the Governor, and 4 elected).

Governor and C.-in-C.: Sir Edwin Arrowsmith, KCMG (appointed 21 Jan. 1957). He is also High Commissioner of the British Antarctic Territory.

Colonial Secretary: Richard Henry David Manders, OBE (appointed 20 July 1960).

EDUCATION. Education is compulsory. In 1962 there were 2 government schools in Stanley, with 160 pupils; in the country districts, 6 travelling teachers and 50 pupils were maintained by the Government. In addition, there are boarding schools at Darwin and Port Howard.

FIJI

HISTORY. The Fiji Islands were discovered by Tasman in 1643 and visited by Capt. Cook in 1774, but first recorded in detail by Capt. Bligh after the mutiny of the *Bounty* (1789). In the 19th century the search for sandalwood, in which enormous profits were made, brought many ships. Deserters and shipwrecked men stayed on; fire-arms salvaged from wrecks were used in native wars, new diseases swept the islands, and rum and muskets became regular articles of trade. Tribal wars became bloody and general until Fiji was ceded to Britain on 10 Oct. 1874, after a previous offer of cession had been refused. British administrators produced order out of chaos, and since then there has been steady political, social and economic progress.

Governor and C.-in-C.: F. D. Jakeway, CMG, OBE.

Colonial Secretary, Fiji. Patrick Donald Macdonald, CMG (appointed 17 Sept. 1957).

CONSTITUTION AND GOVERNMENT. The Constitution is regulated by letters patent of 2 April 1937. The Executive Council consists of the Governor, the Colonial Secretary, the Attorney-General, the Financial Secretary, the Development Commissioner, the Secretary for Fijian Affairs and 4 unofficial members nominated by the Governor.

Until 1963 the Legislative Council consisted of the Governor, the Speaker and 16 official members, 5 European members (3 elected and 2 nominated), 5 Fijian members (selected by the Great Council of Chiefs) and 5 Indian members (3 elected and 2 nominated).

Amendments to the constitution provided for an enlarged Legislative Council of 19 official and 18 unofficial members on a greatly enlarged roll which gave the vote to every Fijian, Indian and European adult, including women, who could read and write a simple sentence. The new legislature met in May 1963. An offer to introduce changes leading to a ministerial system of government with an unofficial majority in the legislature was withdrawn because of opposition by a majority of unofficial members.

The Fijians have always retained a large measure of self-government. This was increased under the terms of the Fijian Affairs Ordinance 1944, which came into operation on 1 Jan. 1945. The Colony is divided into administrative units called *tikina*, each controlled by a Fijian, called a *Buli*, whose rank or ability, or both, commands the co-operation and respect of the people. A *Tikina* Council, at which the *Buli* presides, meets monthly. A number of *tikina* with common ancestry are grouped together to form a *yasana* (province), which is administered by a *Roko Tui*. The *Roko Tui* is assisted by a Provincial Council, which must meet at least once a year. There are 14 *yasana* and 76 *tikina*.

Power is given to *Tikina* Councils to make orders and to Provincial Councils to make by-laws concerning the welfare and good government of the Fijians within their respective spheres. Such orders or by-laws have the force of law when sanctioned by the Secretary for Fijian Affairs. The Fijian Affairs Board may submit to the Governor recommendations and proposals and may make regulations affecting Fijians as a whole. Such regulations may provide for penalties up to a fine of £50 or a term of im-

prisonment not exceeding 1 year, or both; and may also make provision for extra-mural punishment. These regulations require the sanction of the Legislative Council. Two grades of Fijian courts deal with offences against the regulations, by-laws and orders. The lower, or *Tikina* Court, consists of 1 Fijian magistrate, and the higher, or Provincial Court, consists of either 3 Fijian magistrates or 2 Fijian magistrates and a district officer. Each province has its own Treasury, and the Provincial Council imposes its own rates, which vary from £3 to £6 per annum for every male adult. Fijian males maintaining 5 or more children pay a lower rate until the children become tax-payers. Other direct taxation is limited to school rates, which, in some provinces, are collected separately from the provincial rate. Four Senior Administrative Officers are responsible for general supervision over a number of provinces.

The Council of Chiefs, established in 1876, continues to meet bi-annually under the chairmanship of the Secretary for Fijian Affairs. It consists of *Rokos*, 1 or 2 representatives, according to population, from each province elected by the Provincial Councils, 1 Fijian magistrate, 1 Fijian school-teacher, 1 Fijian medical practitioner and 3 representatives from the urban areas nominated by the Secretary for Fijian Affairs, and not more than 6 chiefs appointed by the Governor. The Council of Chiefs advises the Government generally on Fijian affairs.

AREA AND POPULATION. Fiji comprises a group of about 322 islands (about 106 inhabited) lying between 15° and 22° S. lat. and 177° W. and 178° E. long. The largest is Viti Levu, area 4,010 sq. miles; next is Vanua Levu, area 2,137 sq. miles. The island of Rotuma (18 sq. miles), about 12° 30' S. lat., 178° E. long., was added to the colony in 1881. Total area; 7,036 sq. miles (18,233 sq. km).

The estimated population at 31 Dec. 1962 was 427,851. It included: 10,553 Europeans (5,505 males, 5,048 females); 9,226 part-Europeans (4,681 males, 4,545 females); 177,770 Fijians (90,555 males, 87,215 females); 212,829 Indians (109,238 males, 103,591 females); 5,337 Rotumans (2,721 males, 2,616 females); 5,177 Chinese (3,079 males, 2,098 females); 6,842 Pacific islanders (3,618 males, 3,224 females); 117 others (52 males, 65 females).

Suva, the capital, is on the south coast of Viti Levu; the European population (census of Oct. 1956), 3,394. Total population of Suva, 37,371. Suva was proclaimed a city on 2 Oct. 1953.

GAMBIA

HISTORY. Gambia was discovered by the early Portuguese navigators, but they made no settlement. During the 17th century various companies of merchants obtained trading charters and established a settlement on the river, which, from 1807, was controlled from Sierra Leone; in 1843 it was made an independent Crown Colony; in 1866 it formed part of the West African Settlements, but in Dec. 1888 it again became a separate Crown Colony. The boundaries were not delimited until after 1890.

AREA AND POPULATION. Area of Colony (comprising Bathurst and some adjoining land), 29·4 sq. miles (76·1 sq. km); population (1963 esti-

mâte); 34,000. In the Protectorate (area, 3,948 sq. miles, 9,225.3 sq. km) the settled population (1963 estimate) was 288,000, not including temporary immigrants. Total population (census, April 1963), 315,486. The largest tribe is the Mandingo (120,000), followed by the Fulas (70,000). The capital is Bathurst (28,000 inhabitants, including 500 Europeans).

The rainy season lasts from June to Oct. The total rainfall at Bathurst was 37.25 in. in 1963.

CONSTITUTION AND GOVERNMENT. Gambia achieved full internal self-government on 4 Oct. 1963. The House of Representatives consists of a Speaker, Deputy Speaker and 32 elected members (7 from the Colony and 25 from the Protectorate); in addition, 4 Chiefs are elected by the Chiefs in Assembly and 2 members nominated by the Governor, who are without votes.

The Cabinet is composed of the Prime Minister and 6 Ministers drawn from the Legislature.

A closer association with Senegal is being considered.

Governor and Commander-in-Chief: Sir John Warburton Paul, KCMG, OBE, MC.

The Government was in Feb. 1964 composed as follows:

Premier: D. K. Jawara.

Finance: S. S. Sisay.

Local Government, Labour and Lands: S. M. Dibba.

Education: A. D. Camara.

Agriculture: A. Kanyi.

Works and Communications: A. B. N'Jie, MBE, JP.

Health: J. L. B. Daffeh.

Without portfolio: Seyfu O. M. M'Baki; Y. S. Samba.

London Office: The Gambia Office, 147 Grand Buildings, Trafalgar Sq., WC2. *Commissioner:* The Rev. J. C. Faye, MBE.

The town of Bathurst is administered by a Town Council. The Protectorate is divided for administrative purposes into 4 divisions, each having a Commissioner. These are divided into 35 districts, each traditionally under a Chief, assisted by Village Heads and advisers. In 1961 these districts were grouped into 6 Area Councils containing a majority of elected members, with the Chiefs of the districts as *ex-officio* members.

RELIGION. The population is predominantly Moslem. Bathurst is the seat of an Anglican and a Roman Catholic bishop. There are several Methodist mission centres.

EDUCATION. There are 67 primary schools (50 Government and 17 Mission), 8 post-primary schools or departments and 5 secondary schools, 3 of which are recognized for School Certificate Examination. The total school enrolment in 1962 was 12,193 pupils, including 3,300 girls. The technical trade school in Bathurst offers courses in carpentry and metalwork. Yundum College provides training for teachers.

FINANCE AND TRADE. Revenue, expenditure, imports and exports for calendar years were as follows (in £ sterling):

	1959	1960	1961	1962	1963*	1964 ²

GIBRALTAR

History. The Rock of Gibraltar was settled by Moors in 711; they named it after their chief Djebel Tarik, 'the Mountain of Tarik'. In 1462 it was taken by the Spaniards, from Granada. It was captured by Admiral Sir George Rooke on 24 July 1704, and ceded to Great Britain by the Treaty of Utrecht, 1713. The cession was confirmed by the treaties of Paris (1763) and Versailles (1783).

Government. Gibraltar is a Crown colony, commanding the entrance to the Mediterranean. The Governor, who is also Commander-in-Chief, is assisted by an Executive Council of 8 members, 4 official and 4 unofficial selected by the Governor, and by a Legislative Council. The latter is composed of 12 members, 3 official, 7 elected and 2 appointed by the Governor, and a Speaker.

Governor and C.-in-C.: Gen. Sir Dudley Ward, GCB, KBE, DSO.

Chief Secretary: Julian Darrell Bates, CMG, CVO.

Area and Population. Area, 2½ sq. miles (6.5 sq. km). Total population, including port and harbour (census, 3 Oct. 1961), 24,075 (11,061 males; 13,014 females). Estimated population, end of 1962, 24,151. The population are mostly of Italian, Portuguese and Spanish descent. Total births (1962), 561; marriages, 580; deaths, 212.

Religion. Religion of civil population mostly Roman Catholic; 1 Anglican and 1 Roman Catholic cathedral and 2 Anglican and 6 Roman Catholic churches; annual subsidy to each communion, £500.

Education. Education is provided for children between ages 5 and 15 years. There were, in 1962, 14 primary, 6 secondary and 2 technical government schools. Total number of schoolchildren was 4,580, including those in private schools.

Justice. The judicial system is based on the English system. There is a Supreme Court, presided over by the Chief Justice, a court of first instance, and a magistrates' court. In 1962, 2,743 cases were dealt with in the latter court.

Finance and Trade. Revenue and expenditure, and imports and exports (in £ sterling):

	1959	1960	1961	1962	1963
Revenue	1,480,610	1,783,080	2,144,963	2,096,585	2,176,478.

Exports ¹	2,472,181	2,761,754	3,723,396	2,654,400	

¹ Exclusive of petroleum and petroleum products.

The trade of the port is chiefly transit trade and the supply of fuel to ships. A port development scheme which came into operation on 1 Jan. 1960 provides additional facilities for the supply of oil and water and the discharge of cargo.

Industry. Local industry is mainly confined to the manufacture of tobacco, roasted coffee, ice, mineral waters, sweets, canned fish and fruit. Some factories for the manufacture of clothing are being developed. Tourism is of increasing importance.

Labour. The insured labour force on 31 Dec. 1962 consisted of 4,060 male and 1,493 female British workers resident in Gibraltar, and 7,497 male and 3,014 female alien workers most of whom are Spaniards living in Spain. Nearly one-half of these workers are employed by the service departments, the government and the city council.

A considerable proportion of the workers are organized in one or other of the 16 registered trade unions, of which the Gibraltar Confederation of Labour has the largest membership; 8 others are local branches of parent associations in the UK.

Shipping. Gibraltar is a naval and air base of great strategic importance. There is a deep Admiralty harbour of 440 acres. Vessels called in 1962, 4,389, net tonnage, 10,765,623.

Post. An automatic telephone system exists in the town, and there is world-wide communication *via* the cable and/or wireless circuits of Cable and Wireless, Ltd. Air-mails arrive by BEA daily. A direct air-mail service between Gibraltar and Tangier is run by Gibraltar Airways, Ltd. Surface mails arrive direct and through France and Spain.

Money. The legal currency consists of Gibraltar Government notes and UK coins. The amount of local currency notes in circulation at the end of 1962, was £1,397,446.

Banking. There are 3 banks, including a branch of Barclays Bank DCO. Government savings bank, with 15,129 depositors, had £1,115,051 deposits at the end of 1962.

HIGH COMMISSION TERRITORIES

THE 3 Territories of Basutoland, the Bechuanaland Protectorate and Swaziland are administered, under general direction and control from the Colonial Office in London, by a High Commissioner appointed by the Queen. He is the sole legislative authority for Swaziland (but not for Basutoland and the

Bechuanaland Protectorate) and responsible to the Secretary of State for the Colonies. The day-to-day government of the Territories under the High Commissioner is conducted by H.M.'s Commissioners in Swaziland and Bechuanaland and by a Resident Commissioner in Basutoland.

An appeal court for the Territories was established in Maseru on 1 May 1955.

All 3 Territories are members of the South African customs union system, by agreement dated 29 June 1910.

Total trade (in £ sterling) of the 3 Territories with UK (British Board of Trade returns):

	1959	1960	1961	1962	1963
Imports to UK	1,445,668	3,655,682	3,779,055	3,641,504	5,227,090
Exports from UK	472,958	474,208	486,394	271,583	463,499
Re-exports from UK	2,200	1,769	2,374	1,990	1,773

BASUTOLAND

AREA AND POPULATION. Basutoland is bounded on the west by the Orange Free State, on the north by the Orange Free State and Natal, on the east by Natal and East Griqualand, and on the south by the Cape Province. The altitude varies from 5,000 to 11,000 ft. The climate is dry and rigorous, with extremes of heat and cold both seasonal and diurnal. The temperature varies between 93° F. (34° C.) and 11° F. (-12° C.). The rainfall is capricious, the average being about 30 in. per annum.

The area is 11,716 sq. miles (30,350 sq. km). Basutoland is a purely African territory, and the few European residents are government officials, traders, missionaries and artisans. The census taken on 8 April 1956 showed a total population of 641,674 persons (271,851 males, 369,823 females), composed of 638,857 Africans, 1,926 Europeans, 247 Asiatics and 644 of mixed race. Estimated population, 1960, was 888,258.

CONSTITUTION AND GOVERNMENT. Basutoland first received the protection of Britain in 1868 at the request of Moshesh, the first paramount chief. In 1871 the territory was annexed to the Cape Colony, but in 1884 it was restored to the direct control of the British Government through the High Commissioner for South Africa.

The constitution approved by the Queen-in-Council on 21 Sept. 1959 set up a National Council with power to legislate for all persons in Basutoland on all matters except those reserved for the High Commissioner, such as defence, external affairs, internal security and the public service. The Executive Council is advisory to the High Commissioner and the Paramount Chief; it consists of 4 *ex-officio* officials (with the Resident Commissioner as chairman) and 4 unofficial members (1 nominated by the Paramount Chief, 3 chosen by the National Council).

The Paramount Chief is Motlotlehi Moshoeshe II, the son of MaBereng

(second wife of the late Paramount Chief Griffith); for whom 'MaNtsebo (the late Paramount Chief's principal wife) acted as regent until Feb. 1960.

The National Council consists of 40 members elected by district councils, 22 chiefs *ex officio*, 14 nominated by the Paramount Chief and 4 senior officials.

The College of Chiefs settles the recognition and succession of Chiefs and adjudicates cases of inefficiency, criminality and absenteeism among them.

Administratively the country is divided into 9 districts under District Commissioners as follows: Maseru, Qacha's Nek, Mokhotlong, Leribe, Butha-Butha, Teyateyaneng, Mafeteng, Mohale's Hoek, Quthing. Each of the districts is subdivided into wards, most of which are presided over by hereditary chiefs allied to the Moshoeshe family, who are responsible to the Paramount Chief in all matters relating to native law and custom.

District councils were established in each district in 1944; their constitution was revised in 1960. They consist of elected and nominated members, the former choosing the 40 elected members of the National Council.

EDUCATION. African education is largely in the hands of the three main missions (Paris Evangelical, Roman Catholic and English Church), under the direction of the Education Department. The total expenditure on all African schools in 1961-62 was £841,021. There are 1,095 schools and institutions in the territory. The total enrolment in primary schools was 149,346; in secondary schools, 2,209; in teacher-training schools, 584. Post-secondary education is provided by the Pius XII Catholic College at Roma with, in 1962, 173 students. This college became an independent, non-denominational, multi-racial university on 1 Jan. 1964. All primary education is free; bursaries are provided, at all stages for secondary, teacher-training and University work. In 1962, 67 Basotho were studying at universities outside the territory.

POLICE. The police force on 31 Dec. 1963 had an establishment of 33 officers and 672 other ranks.

HEALTH. The government medical staff of the territory consists of 1 Permanent Secretary for Health and chief medical officer, 1 senior medical officer, 21 medical officers, 1 medical officer of health, 1 surgeon-specialist, 1 mental-health officer and 1 superintendent of the leper settlement. There are 9 government hospitals staffed by 86 matrons, sisters and nurses. There is accommodation for 664 patients in government hospitals. The new 200-bed Queen Elizabeth II hospital in Maseru was completed in 1957. There are 6 mission hospitals subsidized by the Government with 467 beds. Health centres and mountain dispensaries provide outpatient medical facilities and maternity services to people living in remote areas. During 1962, 26,846 patients were admitted to hospitals. The leper settlement 4 miles out of Maseru had 302 patients at the end of 1959.

The principal diseases are venereal diseases, chronic rheumatism, malnutrition, infections of the respiratory tract and dyspepsia. The heaviest toll of lives in children is due to tuberculosis, malnutrition, diphtheria, whooping cough and gastro-enteritis. The incidence of nutritional and deficiency diseases is comparatively high and is allied to maize being the staple food. Typhus, plague and smallpox occur only rarely.

FINANCE. Revenue is derived mainly from Basuto tax and customs and excise duties. Other major sources of revenue are posts and telegraphs,

income tax, wool and mohair export duty. Under the Basuto tax law every adult male pays 35s. basic plus a graded tax for higher employees and large cattle-owners, and if he has more than one wife he pays 25s. per annum for each additional wife up to a maximum of 90s. tax in all. Tax receipts for 1961-62 amounted to £875,083 and revenue from customs and excise to £1,817,789. The financial year is from 1 April to 31 March.

Budget ¹ (in R)	1959-60	1960-61	1961-62 ²	1962-63 ²
Revenue	4,150,538	4,734,460	6,963,025	6,347,000
Expenditure	4,681,258	4,978,920	6,981,018	6,347,000

¹ Including Colonial Development and Welfare Fund grants. ² Estimates.

PRODUCTION. The chief crops are wheat, maize and sorghum; barley, oats, beans, peas and other vegetables are also grown.

Soil conservation and the improvement of crops and pasture are matters of vital importance. A total area of 1,006,817 acres has been protected against soil erosion by means of terracing, training banks and grass strips. Efforts are being made to secure the general introduction of rotational grazing in the mountain area.

Livestock (1962): Cattle, 386,302; horses, 95,401; donkeys, 55,494; sheep, 1,434,538; goats, 749,454; mules, 5,231.

The possibilities of industrial development are being investigated. Diamond prospecting is continuing.

COMMERCE. Total values of imports and exports (in £ sterling):

	1958	1959	1960	1961	1962
Imports	2,947,274	2,893,940	3,142,873	3,059,525	3,131,769
Exports	1,343,157	1,652,278	1,473,226	1,410,309	1,711,797

Principal imports are blankets, ploughs, clothing, tin ware and other Basuto requirements, and principal exports in 1962 were wool (8,523,299 lb., £869,376), mohair (1,511,801 lb., £367,332), beans and peas (24,271 bags, £100,849). The main export, however, is labour: some 60,000 workers go every year to the Republic of South Africa.

COMMUNICATIONS. A railway built by the South African Railways, 16 miles long, connects Maseru with the Bloemfontein-Natal line at Marseilles. There are 560 miles of gravel-surfaced main roads along the western border of Basutoland, with outlets to the border ports of exit. Regular motor services of the South African Railways operate between Zastron (OFS) and Quthing, Zastron (OFS) and Mohale's Hoek, and between Fouriesburg (OFS) and Butha Buthe. In addition to the main roads there are 341 miles of by-roads leading to trading stations and missions. Communications into the mountainous interior are by means of bridlepaths suitable only for riding and pack animals, but a mountain road of 80 miles has been constructed, and some parts are accessible by air transport, which is being used increasingly. There are a number of airstrips for light aircraft. There were over 1,000 telephones on 1 Jan. 1963.

CURRENCY. The currency is the same as in the Republic of South Africa. The Standard Bank of South Africa and Barclays Bank DCO have branches at Maseru and elsewhere.

Resident Commissioner. A. F. Giles, CMG, MBE (appointed Jan. 1962).

BECHUANALAND PROTECTORATE

AREA AND POPULATION. The Bechuanaland Protectorate comprises the territory lying between the Molopo River on the south and the Zambezi on the north, and extending from the Transvaal Province and Southern Rhodesia on the east to South-West Africa on the west. The climate is on the whole sub-tropical and the atmosphere throughout the year is very dry. Area about 222,000 sq. miles (712,250 sq. km); population, according to the census of 1956: Europeans, 3,173; Asians, 248; Coloured, 676; Africans, 316,578. The most important tribes are the Bamangwato (109,080), whose capital is Serowe (population, 15,935), 32 miles west of the railway line at Palapye; the Bakgatla (21,600); the Bakwena (43,200), whose Chief Kgari Sechele, OBE, died on 19 Sept. 1962; the Bangwaketse (42,110), under Chief Bathoeñ, CBE, the eldest son of the late Chief Seepapitso; the Batawana (42,130), under Regent Mrs E. P. Moremi, MBE, assisted by a council, during the minority of the heir to the late Chief Moremi; the Bamalete (10,800), under Chief Mokgosi; the Batlokwa (2,160) under Chief Kgosi Gaborone; the Barolong (8,640), under Chief Kebalepile Montshiwa.

GOVERNMENT. In 1885 the territory was declared to be within the British sphere; in 1889 it was included in the sphere of the British South Africa Company, but was never administered by the company; in 1890 a Resident Commissioner was appointed, and in 1895, on the annexation of the Crown Colony of British Bechuanaland to the Cape of Good Hope, the British Government was in favour of transferring the Protectorate to the BSA Company, but the three major chiefs went to England to protest against this proposal, and agreement was reached that their country should remain a British Protectorate if they ceded a strip of land on the eastern side of the country for railway construction. This was in fact carried out, and the railway built in 1896-97. Each of the chiefs rules his own people under the protection and authority of the Queen, who is represented by Her Majesty's Commissioner, acting under the High Commissioner. The headquarters of the administration is in Mafeking, in the Cape Province, where there is a reserve for imperial purposes.

A new constitution came into force in 1961, providing for legislative and executive councils. The Legislative Council has an elected unofficial majority with equal numbers of European and African unofficial members and one Asian elected member; it was inaugurated on 20 June 1961.

The territory is divided for administrative purposes into 12 districts, each under a district commissioner. There is a tax of £2 on every male African in the territory, and under the tribal treasuries scheme, 50% of the tax collected in each tribal reserve is transferred to the tribal treasury of the tribe concerned, which manages expenditure upon such items as education, tribal stock improvement and African courts. Non-Africans are subject to personal tax and income tax. A graded tax on Africans accrues to the tribal treasuries in tribal areas.

EDUCATION (1962-63). There were 245 schools—234 primary, 8 secondary, 2 teacher-training colleges and 1 homecraft centre. The great majority of the primary schools and the junior secondary schools are controlled, under the Director of Education, by school committees with tribal and mission representatives. Three secondary schools and the homecraft centre are run by missions with Government support. The remaining schools are run by the Government. A Government trades school was opened in 1962. Tribal schools are financed by tribal treasuries and assisted with grants from the Central Government. Enrolment in primary schools was 19,695 boys and 26,841 girls, in secondary schools 444 boys and 320 girls, and in the teacher-training college 60 men and 57 women. There were 18 students at the homecraft centre.

POLICE. The police force consists of 63 European and African officers, and 444 African warrant officers and other ranks.

WELFARE. There are 4 government hospitals, 45 government health centres or dispensaries, 6 mission hospitals, 1 missionary maternity centre and 28 mission dispensaries. During 1962, 21,730 patients and 316,661 out-patients were treated in hospital. There are 14 government doctors and a senior medical officer in the territory, in addition to the Director of Medical Services, 2 medical officers of health, 6 mission doctors and 10 doctors doing private work amongst the Africans.

FINANCE. Revenue and expenditure (in £ sterling, from 1961 in Rand) for financial years ending 31 March:

	1959-60	1960-61	1961-62 ¹	1962-63	1963-64 ²
Revenue . . .	2,171,261	2,434,147	6,770,032	7,232,797	6,279,974
Expenditure . . .	2,187,275	2,475,810	6,815,292	7,093,592	6,279,974

¹ Revised estimates.

² Estimates.

Chief items of revenue, 1962-63: Customs, R753,796; taxes and duties, R1,211,894; government property, R471,698; posts and telegraphs, R286,369; Colonial Development and Welfare Fund, R975,369; grant-in-aid from UK, R2,725,828. Chief items of expenditure, 1962-63: Central administration, R,261,768; district administration, R404,235; education, R532,282; medical, R501,820; police, R525,571; public works, R864,596; veterinary, R700,596; Colonial Development and Welfare Fund schemes, R960,116.

Public debt, on 31 March 1963, amounted to R3,597,198.

PRODUCTION. Cattle-rearing and dairying are the chief industries, but the country is more a pastoral than an agricultural one, crops depending entirely upon the rainfall. However, increasing numbers of boreholes are being established where underground supply is adequate. The abattoir at Lobatsi, opened in Oct. 1954, is of great importance to the country's economy. In 1962 the estimated number of cattle was 1,351,778; sheep and goats, 430,016. Livestock, carcasses, hides and skins to the value of over R4m. were exported in 1961, mainly to the Union of South Africa and the Federation of Rhodesia and Nyasaland; of this, carcasses to the value of R2,005,968 were exported overseas.

Production of gold and silver, in 1962, was 321 fine oz.; manganese ore, 25,703 short tons; asbestos, 1,889 short tons.

COMMERCE (1962). Imports amounted to R6,401,233; exports to R7,293,100. Chief items of import: General merchandise (R2,225,716), textiles (R984,376), vehicles (R1,262,568), maize (R552,420). Chief items of export: Carcases (R3,315,995), cattle (R471,780), hides and skins (R543,558), abattoir by-products (R1,337,832), asbestos (R271,169), manganese ore (R165,541), butter and butterfat (R363,989).

When the Union of South Africa was established, an agreement was made with the Union Government on 29 June 1910 under which the previously existing customs union was continued. Duty on all dutiable articles imported into the protectorate continues to be collected by the Republic customs department, a lump sum representing a certain proportion of the annual customs revenue of the Republic being paid over to the protectorate.

COMMUNICATIONS. The telegraph, telephone and railway lines from the Cape of Good Hope to Southern Rhodesia traverse the protectorate. Wireless communication has been established between headquarters at Mafeking and various district offices and police stations. There are 21 post offices and 43 agencies; receipts, in 1962-63, R286,369; expenditure, R226,619. There were 1,143 telephones on 1 Jan. 1963.

Government maintains 2,335 miles of roads.

CURRENCY AND BANKING. The currency is South African. The Standard Bank of South Africa, Ltd, and Barclays Bank DCO have branches in Francistown, Lobatsi, Mahalapye and Gaborones and several agencies.

H.M.'s Commissioner: R. P. Fawcus, CMG, OBE.

SWAZILAND

HISTORY. Up to about 1820 the Swazis occupied the country just north of the Pongola River, but a hostile chief in their vicinity forced them farther north, and, under their chief, Sobhuza, they then occupied the territory now known as Swaziland. This chief, who died in 1836, was succeeded by Mswati II. The further order of succession has been: Ludvonga, Mbandzeni and Bhunu, whose son, Sobhuza II (Hon. CBE, 1950), was installed as Paramount Chief in 1921, after a long minority, during which his grandmother, Labotsibeni, acted as regent.

The many concessions granted by Mbandzeni necessitated some form of European control, notwithstanding the fact that the independence of the Swazis had been guaranteed in the conventions of 1881 and 1884, entered into between the British Government and the Government of the South African Republic. In 1890, soon after the death of Mbandzeni, a provisional government was established representative of the Swazis, the British and the South African Republic Governments. In 1894, under convention between the two European governments, the South African Republic was given powers of protection and administration, without incorporation, and Swaziland continued to be governed under this form of control until the outbreak of the Boer War in 1899.

In 1902, after the conclusion of hostilities, a special commissioner took charge, and under an order-in-council in 1903 the Governor of the Transvaal administered the territory, through the Special Commissioner.

AREA AND POPULATION. Swaziland is bounded on the north, west and south by the Transvaal Province, and on the east by Portuguese territory and Zululand. The area is 6,705 sq. miles (17,400 sq. km).

The territory is divided geographically into 4 longitudinal regions running from north to south; 3 of roughly equal width—Highveld (westernmost), Middleveld, Lowveld—and the Lubombo plateau in the east. The mountainous region on the west rises to an altitude of over 6,000 ft (1,800 metres). The Middleveld is mostly between 1,700 and 3,000 ft, while the Lowveld has an average height of not more than 1,000 ft (300 metres). The whole territory is now virtually free from malaria. The Highveld and the Middleveld are well watered. Innumerable small streams unite with the large rivers, notably the Usutu and Komati, which transverse the country from west to east. Except for these the Lowveld is not very well watered. The climate is good except for a few months in summer, when the heat is somewhat excessive in low lying parts.

The Swazi are akin to the Zulu and other tribes of the south-eastern littoral. Population (census 1956), 240,511; estimate, 1962: 280,300, comprising 270,000 Africans, 8,040 Europeans and 2,260 Euraficans.

GOVERNMENT. In 1907 the High Commissioner assumed control and established the present form of administration. Previous to this, steps had been taken for the settlement of the concessions question by the definition of the boundaries of the land concessions and their partition between the concessionaires and the natives. The boundaries of the mineral concessions were also defined and all monopoly concessions were expropriated. Title to property is, therefore, now clear.

An elected advisory council, representative of the Europeans, was established in 1921 to advise the administration on purely European affairs. It was reconstituted and formally recognized in Dec. 1949.

The Swazi are represented by the Swazi National Council which meets annually with Government.

In May 1963 the Secretary of State published a White Paper outlining a constitution for Swaziland. It provides for an Executive Council of 8 members (4 official and 4 unofficial) and a Legislative Council with 4 official members, 8 Swazi certified by the Ngwenyama-in-Council as elected by traditional methods, 8 Europeans (4 of whom will be elected by voters on a European roll and 4 on a national roll), 8 persons of any race elected by voters on the national roll, and finally up to 3 members nominated by Her Majesty's Commissioner. Election on the national roll will virtually be by universal adult franchise. The elections for the first Legislative Council are due to take place in mid-1964.

The seat of the administration is at Mbabane; altitude, 3,800 ft; population, about 8,400. The name of the town Bremersdorp was changed in 1961 to Manzini.

EDUCATION. At the end of 1962 there were 12 schools for Europeans, all of which were either maintained by government or received grants-in-aid. Three of them are high schools and 9 primary schools; total enrolment, 1,545. There were 5 schools for Eurafican children, all of which received government assistance; 3 of them boarding establishments; the enrolment

was 744. There were 236 African schools falling under the direct superintendence of the missions, 3 national schools financed from the Swazi National Fund, 19 government-controlled schools and 36 small tribal schools; 20 African schools offer secondary education. The Swaziland Trades Training Centre at Mbabane provides courses of training in carpentry, building, electrical wiring and motor mechanics. There are also 2 teacher-training centres and a housecraft training centre. In 1963 the hitherto exclusively European schools admitted African and Eurafrican children. The total enrolment at all African schools was 42,762.

JUSTICE. A High Court, coming on circuit quarterly and having full jurisdiction, and subordinate courts presided over by Magistrates and District Officers are in existence. During 1962 there were 5,948 convictions on 6,315 charges in subordinate courts and 34 convictions in the High Court.

On 15 April 1955 a Court of Appeal with the Chief Justice as President and 2 Judges of Appeal came into existence. This court deals with appeals from the High Court, and a further appeal may lie to the Judicial Committee of the Privy Council.

Until 1951 the Paramount Chief and other Swazi Chiefs exercised jurisdiction according to Swazi law and custom in all civil disputes, in which Africans only were concerned; an appeal lying to the High Court of Swaziland, whose decisions were final. In 1950 better provision was made for the recognition, constitution and jurisdiction of Swazi Courts, which were also accorded jurisdiction in criminal cases where the parties concerned were Africans, except in cases punishable with death or life imprisonment, cases connected with marriage, other than marriages according to Swazi law and custom and, other than with approval of the Judicial Commissioner, cases relating to witchcraft. Criminal cases are reviewable by District Officers. There are 14 courts of first instance, 2 Swazi courts of appeal and a Higher Swazi Court of Appeal. In 1962 these courts convicted 5,943 persons on criminal charges and dealt with 190 civil cases. The channel of appeal lies from Swazi Court of first instance to Swazi Court of Appeal, thence to Higher Swazi Court of Appeal and thence to the High Court of Swaziland.

The police force in 1962 had a strength of 11 senior and 36 subordinate officers, 5 senior civilian staff and 317 other ranks.

FINANCE. Revenue and expenditure (in rands) for financial years ending 31 March:

	1958-59	1959-60	1960-61	1961-62	1962-63 ¹	1963-64 ¹

Expenditure	2,827,372	3,259,430	3,640,219	4,557,136	5,108,534	5,396,520
Grant-in-aid from UK	—	—	—	524,000	1,105,671	1,400,000

¹ Estimates.

Chief items of revenue, 1962-63: Native tax, R140,000; customs and excise, R491,020; posts and telegraphs, R380,744; licences, R170,050; income tax, R1,784,197. Chief items of expenditure, 1962-63: Central administration, R449,980; district administration, R160,454; police, R316,860; public works department, R750,755; medical, R343,718; education, R756,185; agriculture, R473,863; pensions and gratuities, R188,000; posts and telegraphs, R215,511; stores, R98,634.

The public debt expenditure was R426,474 in 1962-63.

In 1950 a Native Administration Treasury was established. The Native Administration estimates are subject to the approval of the High Commissioner. The principal revenue is derived from dog-tax, native court fines, hostel fees, an education levy and a one-third share of native tax. The bulk of expenditure is on personal emoluments, including salaries of the Paramount Chief and Queen Mother, the several Court Presidents and the teaching staff of the Swazi National Schools. Revenue for the financial year 1962-63 was estimated at R188,375 and expenditure at R213,520.

PRODUCTION. The agricultural and grazing rights of natives are safeguarded and delimited. The agricultural products are cotton, tobacco, maize (the staple product), sugar, bananas, timber, pineapples, rice, tomatoes, groundnuts, beans, citrus and sweet potatoes. It is usually necessary to import maize from South Africa.

Livestock (1962): Cattle, 543,393; goats, 229,049; sheep, 42,775; pigs, 9,964.

The territory produces a large tonnage of asbestos from the Havelock Mine, Emlembe, and small quantities of tin, barytes, diaspore, pyrophyllite, beryl, kaolin and gold.

A railway is being built from the Bomvu Ridge haematite deposits to Goba, in Mozambique, chiefly for the transportation of iron ore. The Swaziland Iron Ore Development Company has entered into a contract to supply Japanese buyers with 12m. tons of ore over 10 years; first shipments are scheduled for the end of 1964. The extensive deposits of bituminous coal in the lowveld will be worked to provide coal for the railway and sugar-mills.

There are 3 small goldmines in production in the Mbabane and Pigg's Peak districts. Further rich gold values have been intersected in exploratory work in the Hoho area.

The refractory minerals diaspore and andalusite are being worked in the Mankaiiana district, where pyrophyllite is also being exported. In the same district considerable tonnages of high-grade kaolin are mined.

Geological work and investigation of mineral occurrences has been organized by the geological survey department since 1944.

Total mineral production was valued in 1960, R5,660,776; 1961, R5,144,826; 1962, R5,050,345.

Gold is subject to a mineral tax of 2½% on gross value less certain deductions, asbestos to 2% mineral tax, coal to 2½ cents tax per ton sold, other base minerals to a tax of 2½% on gross value.

EXPORTS. By agreement (dated 29 June 1910) with the Union of South Africa Swaziland is united in a customs union with the Republic of South Africa and receives a *pro rata* share of the customs dues collected.

Total exports in 1962 amounted to R12.67m. The chief items were: Asbestos, 32,830 short tons (R4.94m.); slaughter cattle, 21,213 head (R1,272,780); hides and skins, 70,000 pieces (R74,000); sugar (R5,982,000), cotton (R413,000); rice (R610,000); fresh citrus fruit (R207,000); bananas (R57,000); canned fruit (mainly pineapples) (R287,000); timber products (R923,000); butter (R65,000).

COMMUNICATIONS. There is daily (except Sundays) communication by railway motor-buses between Manzini, Mbabane and Breyten; Manzini, Mankaiiana and Piet Retief; Piet Retief and Hlatikulu; 6 days weekly between Manzini and Stegi; 3 days weekly between Manzini and Gollel;

Golles and Piet Retief; Golles and Ingwavuma; twice weekly between Manzini and Hlatikulu, and Manzini and Balegane. There are 101 miles of tarred trunk roads, 693 miles of gravelled main road and 340 miles of branch roads. There are telegraph and telephone offices at Mbabane and 18 other places. There were 2,452 telephones on 31 Dec. 1962.

Construction of Swaziland's first railway began in mid-1962. The railway, which is scheduled to be completed by end of 1964, will be about 140 miles long, starting at Ngwenya, 13 miles north-west of Mbabane, and connecting at the Mozambique frontier with an extension to the existing line between Lourenço Marques and Goba.

CURRENCY AND BANKING. The currency in circulation in Swaziland is that of the Republic of South Africa. In Feb. 1961 the territory followed the South African change to a decimal currency (10 cents = 1s.; 10s. = 1 Rand; £1 = 2 Rands). Barclays Bank DCO and the Standard Bank of South Africa Ltd maintain branches at Mbabane and Manzini; agencies are operated in 8 other places. Bank rates are those in force throughout South Africa and are prescribed by the main South African offices of the 2 banks.

H.M.'s Commissioner: F. A. Loyd.

HONG KONG

HISTORY. The Crown Colony of Hong Kong was ceded by China to Great Britain in Jan. 1841; the cession was confirmed by the treaty of Nanking in Aug. 1842, and the charter bears date 5 April 1843, since when Hong Kong has been under British administration, with the exception of the period from 25 Dec. 1941 to 30 Aug. 1945, when it was occupied by the Japanese.

CONSTITUTION AND GOVERNMENT. The administration is in the hands of a Governor, aided by an Executive Council, composed of the Commander, British Forces, the Colonial Secretary, the Attorney-General, the Secretary for Chinese Affairs, the Financial Secretary (who are members *ex officio*) and such other members, both official and unofficial, as may be appointed by the Governor. In 1963 there were, in addition to the 5 *ex-officio* members, 1 nominated official and 6 nominated unofficial members, 3 of whom were Chinese, 1 Portuguese and 2 British. There is also a Legislative Council, presided over by the Governor, and consisting of not more than 9 official members (including the same 5 *ex-officio* members listed above) and not more than 8 unofficial members. In 1963 there were 9 official and 8 unofficial members, 5 of whom were Chinese, 2 British and 1 Indian.

Governor and C.-in-C.: Sir David Trench, KCMG, MC.

Commander British Forces: Lieut.-Gen. Sir Richard Walter Craddock, KBE, CB, DSO.

Colonial Secretary: Edmund Brinsley Teesdale, MC.

AREA AND POPULATION. Victoria, the colonial capital, situated on Hong Kong island, is 20 miles east of the mouth of the Pearl River and 91 miles south-east of Canton. The area of the island is 29 sq. miles. It is separated from the mainland by a fine natural harbour. On the opposite side is the peninsula of Kowloon ($3\frac{1}{2}$ sq. miles), which, with Stonecutters Island ($\frac{1}{4}$ sq. mile), was added to the colony by the Convention of Peking, 1860. By a further convention, signed at Peking on 9 June 1898, $365\frac{1}{2}$ sq. miles, consisting of all the immediately adjacent mainland and numerous islands in the vicinity, were leased to Great Britain by China for 99 years. This area is known as the New Territories. Total area of colony, $398\frac{1}{2}$ sq. miles (1,013 sq. km), but this includes large areas of steep and unproductive hillside. Substantial reclamations have been made on both sides of the harbour, and the city of Victoria is built largely on reclaimed land. The New Territories now include several flourishing market towns and two rapidly developing industrial towns, Kwun Tong and Tsuen Wan, with large textile, enamel and rubber factories, iron works, etc. The climate of Hong Kong is sub-tropical, the winter being cool and dry and the summer hot and humid. The average rainfall is 84.76 in., May to Sept. being the wettest months.

A census was taken in Feb.-March 1961, when the population was 3,133,131, including the armed forces and their families. Estimated population at the end of 1962 was 3,526,500. During the war years the population of Hong Kong fluctuated sharply. In Sept. 1945, at the end of the Japanese occupation, it was about 600,000. In the spring of 1950 it was estimated at 2.36m. Since 1956 the net annual increase has been between 100,000 and 150,000. Of the present population 40.5% are under 15 years of age. All but 1.4% of the population was born in Hong Kong and China.

EDUCATION. Education is not compulsory, but all schools have to be registered with the Education Department and, unless specially exempted, are inspected and required to comply with regulations as to staff, buildings, numbers of pupils and health.

By the end of the academic year 1962-63 there were 40,026 pupils in kindergarten (all private), 558,566 (291,433)¹ in primary schools including special afternoon classes, 129,946 (36,499) in secondary schools, 39,807 (26,311) in post-secondary colleges, in institutions offering technical, adult and other further education, and in special schools. In all, there were 2,116 schools and 27,590 teachers.

¹ The figures shown in brackets are for government and aided schools.

Northcote Teachers' Training College had 371 students (including 204 women), Grantham Teachers' Training College, 267 (including 167 women) and Sir Robert Black Teachers' Training College, 347 (including 230 women).

In 1963 the University of Hong Kong had 1,751 students (1,251 men, 500 women), 256 full-time and 124 part-time teachers.

Cinemas. In 1963 there were 79 cinemas with a seating capacity of 84,461; of these 28 are on Hong Kong Island, 34 in Kowloon and 17 in the New Territories.

Newspapers. In 1963 there were 47 daily and 27 weekly and bi-weekly newspapers, including 5 daily and 5 weekly English-language papers; the remaining ones are almost all in Chinese.

Broadcasting. There is a government broadcasting station, Radio Hong Kong, with daily transmissions in English and 4 Chinese dialects. At the

end of 1962 there were 142,546 licence holders. *Rédifusion (HK) Ltd* operates a commercial broadcasting service in English and Chinese to which, at the end of 1962, there were 38,507 subscribers. *Rédifusion* also operates a television service. The *Hong Kong Commercial Broadcasting Co. Ltd* transmits daily in English and 2 Chinese dialects.

JUSTICE. There is a supreme court, having original, summary, criminal, probate, divorce, admiralty and prize jurisdiction, and a court of appeal. There are also 2 district courts and 5 magistracies, each containing several courts. The district courts, apart from hearing civil cases where the claim does not amount to more than HK\$5,000, also have jurisdiction over certain criminal matters. A tenancy tribunal hears cases covering disputes between landlord and tenant, etc.

The police force numbered, in 1963, 8,253, composed of 104 officers, 711 inspectorate, 6,437 Cantonese, 475 Shantung, 174 Pakistanis, 17 Portuguese and a women's section of 14 inspectors and 321 rank and file.

FINANCE. The public revenue and expenditure for the financial year ending 31 March were as follows (in HK \$):

	1960-61	1961-62	1962-63	1963-64 ¹
Revenue	859,234,131	1,030,447,880	1,253,064,554	1,197,065,000
Expenditure	845,297,629	953,205,237	1,113,276,099	1,360,040,510

¹ Estimates.

The revenue is derived chiefly from rates, licences, duties on liquor, tobacco and hydrocarbon oils, and a tax on earnings and profits.

The outstanding public debt as at 31 March 1963 consisted of \$1,416,000 3½% Dollar Loan (1940) and \$46,666,000 3½% Rehabilitation Loan (1947-48). The Dollar Loan is redeemable by equal annual drawings over a period of 25 years. The Rehabilitation Loan is redeemable between 1973 and 1978 by a sinking fund at a rate of not less than 1% per annum; this Fund stood at \$20,677,466 on 31 March 1963. Outstanding loans from the Colonial Development and Welfare Fund total \$349,600; and from the UK Government for Kai Tak airport development, \$41.6m.

INDUSTRY. The growing importance of industry to Hong Kong's economy is shown by the fact that, in 1948, products wholly or principally of Hong Kong origin represented about 15% of total exports, while by 1963 they had climbed to over 75%. Originally the principal industry was shipbuilding and repairing, which grew up with the development of the port. Light industries began to appear at the turn of the century, but it was not until the First World War, and the stimulus of Imperial Preference following the *Ottawa agreements* of 1932 that these had any noticeable impact on the economy. The early years of the Second World War encouraged further expansion, and by 1940 there were some 800 factories in operation. The change of régime in China brought scores of thousands of refugees into the Colony, some with capital to invest, many with industrial skills and an eagerness for hard work. The Korean War and the subsequent impediments to trade with China accelerated the surge of industrial expansion and by June 1963 there were 7,851 registered factories and workshops employing 313,358 people.

The largest group is the cotton textile industry, which covers most processes from spinning to finished garments, but a wide range of light industries is represented. Heavy industry includes shipbuilding and

repairing, shipbreaking, iron foundries and mills rolling steel bars and rounds. Agriculture, fishing and some mining are the main primary industries.

COMMERCE. Hong Kong's magnificent sheltered deep-water harbour is well situated in relation to the exchange of goods with South China and to serve as a commercial centre for the Far East. The Colony's prosperity was originally founded on the entrepôt trade in goods passing into and out of China; in 1938 trade with China still accounted for 41% of total trade. The unsettled state of China in the early post-war years and the impediments which have since been put in the way of trade with that country have wrought a great change. The Colony now relies on industry as the principal source of its livelihood; the composition and direction of the Colony's trade has also undergone a transformation. Merchants have turned increasingly to other sources and markets, and all countries in the Far East now use Hong Kong as an intermediary for the purchase of goods from all over the world and for the sale of their own products. By 1962 China's share in the Colony's trade had fallen to slightly under 12%.

Hong Kong maintains a policy of free enterprise and free trade. Duties are levied only on tobacco, hydrocarbon oils, alcoholic liquors (including proprietary medicines and toilet preparations containing more than 2% of proof spirit), table waters and methyl alcohol, whether imported into or manufactured in the Colony for local consumption. It is a member of the sterling area, but has a free exchange market except for transactions which might damage the sterling area. Foreign merchants may remit profits or repatriate capital. Import and export controls are kept to the minimum, consistent with strategic requirements and the protection of sterling. Merchants and manufacturers from abroad are encouraged to establish themselves in the Colony without discrimination.

The total value of imports in 1962 was HK\$6,657m.; in 1963, HK\$7,412m.; of exports, HK\$4,387m. in 1962, and HK\$4,991m. in 1963.

The adverse balance on visible trade is offset by a favourable balance on invisible items—remittances from overseas Chinese, exchange, shipping and insurance transactions, an inflow of capital from other territories in the Far East and a flourishing tourist industry.

Imports from the British Commonwealth countries (HK\$1,859m. in 1963 and HK\$1,563m. in 1962) amounted to 25.1% and 24.3% of total imports in 1963 and 1962 respectively (17.2% in 1938), and exports to the British Commonwealth countries (HK\$2,163m. and HK\$1,862m.) were 43.3% and 42.4% of all exports from Hong Kong (16.3% in 1938).

The trade of Hong Kong and UK (British Board of Trade returns in £ sterling) is given as follows:

	1959	1960	1961	1962	1963
Imports to UK	33,518,974	43,002,461	45,289,948	54,819,906	68,172,129
Exports to Hong Kong	35,161,435	39,751,591	43,735,793	46,356,222	52,443,118
Re-exports to Hong Kong.	447,375	436,024	675,858	594,006	612,326

COMMUNICATIONS. *Road and Railway.* In 1962 the Colony had 524 miles of roads, distributed as follows: Hong Kong Island, 192; Kowloon, 141; New Territories, 191.

There is an electric tramway of 19½ miles, and a cable tramway connecting the Peak district with the lower levels in Victoria. A railway, 22 miles in length, owned by the Government, runs between Kowloon and the Chinese frontier. It forms a direct overland communication with Canton, Hankow.

and Shanghai, but since Oct. 1949 all through passenger traffic has been suspended.

Shipping. The total vessels entering and clearing the Colony and engaged in foreign trade during the year ending 31 March 1963 amounted to 11,899 ocean-going vessels of 38,252,699 net tons. Launches and junks engaging in local trade totalled 28,392 vessels of 3,048,700 net tons. 3,537 vessels (10,817,008 net tons) were British registered.

Post. There were 35 post offices in 1963; postal revenue (1962-63) totalled \$79,367,774; expenditure, \$34,513,147. Telephone routes of the Hong Kong Telephone Co., Ltd, on 31 July 1963 comprised 468,000 wire miles (234,000 circuit miles), carried in 1,387 miles of cable and 5,000 miles of wire distribution. Telephones numbered 165,000. Cable and Wireless, Ltd, controls the external communications by submarine cable and wireless, and also provides for marine, meteorological and aeronautical communications.

Aviation. Hong Kong airport, Kai Tak, is situated on the north shore of Kowloon Bay. The new runway, opened in Sept. 1958, and the adjacent marine base are suitable for all types of aircraft. British, Canadian, Australian, American, French, Swiss, Burmese, Chinese (Nationalist), Japanese, Philippine, Indian, Korean, Vietnamese, Laotian, Cambodian and Thai airlines connect the Colony by frequent scheduled services to all parts of the world. In 1962-63, 16,046 aircraft arrived and departed on international flights, carrying 606,404 passengers, 1,601.6 metric tons of mail and 7,222.7 metric tons of freight.

MONEY. The currency of the Colony consists largely of notes of a denomination of \$5 or higher, issued by the 3 banks mentioned below. Their combined note issue was, in Sept. 1963, \$1,083,136,395. The Hong Kong Government issues \$1, 50-cent, 10-cent and 5-cent coins; their combined circulation (including \$1 notes, formerly issued and not yet withdrawn) in Sept. 1963 was \$89,801,925. The exchange value of the Hong Kong dollar is maintained by an exchange fund, established in 1935; it works in co-operation with the note-issuing banks and maintains a sterling cover for the note issue. The par value of the Hong Kong dollar is 1s. 3d. (see p. 20).

BANKING. The 3 note-issuing banks are the Hongkong and Shanghai Banking Corporation, whose head office is at Hong Kong, its subsidiary the Mercantile Bank Ltd, and The Chartered Bank. Including these 3, there are 88 licensed banks, many of them Chinese, of which 48 are fully authorized to deal in foreign exchange.

WEIGHTS AND MEASURES. The *Tael (leung)* = $1\frac{1}{2}$ oz. avoirdupois; the *Picul (taam)* = $133\frac{1}{2}$ lb. (often taken as $\frac{1}{17}$ of a ton); the *Catty (kan)* = $1\frac{1}{8}$ lb. avoirdupois; the *Chek* (Chinese foot) = $14\frac{1}{2}$ in. (but varying from $11\frac{1}{2}$ to $14\frac{1}{2}$ in. according to the custom of various trades, the commonest equivalent being 14.14 in.); the *Tsuen* (Chinese inch) = $\frac{1}{10}$ of a *Chek*, the *Cheung* = 10 *Chek*; the *Lei* (Chinese mile) = 707-744 yd.

Besides the above weights and measures of China, those of Great Britain are in general use.

MALDIVE ISLANDS

THE Maldive Islands, 400 miles to the south-west of Ceylon, consist of some 2,000 low-lying coral islands (only 220 inhabited), grouped into 12 clearly defined clusters of atolls but divided into 17 for administrative purposes. Area 115 sq. miles (298 sq. km). Population (estimated 1961) 90,000. Capital Male (12,000 inhabitants). The people are Moslems. The islands are covered with coconut palms and yield millet and fruit as well as coconut produce. The principal industry is fishing, and 'Maldive fish', prepared from bonito, accounts for 95% of the island's trade.

Sultan: H.H. Al Amir Mohamed Farid Didi.

Prime Minister: Ibrahim Nasir.

The islands have been under British protection since 1887. They used to pay tribute to the old kings of Kandy, and a token tribute continued to be paid to the British governor of Ceylon until 1948. The islands enjoy complete independence in their internal affairs; the latest agreement (14 Feb. 1960) leaves only defence and external political relations a British responsibility. This also confirmed the agreement of 1956, which allowed the British Government to reactivate the wartime air staging post on Gan island in Addu Atoll, the southernmost of the group. Another airstrip was built in 1960 at Hulele, some 300 miles from Gan.

In 1960 the British Government made a gift of £100,000 to the Maldivian government and promised economic assistance to the extent of £750,000 over a period of five or more years. The money is being used to finance projects such as a hospital, a floating dispensary, harbour improvements and the expansion of the fishing industry.

MALTA

HISTORY. Malta was held in turn by Phoenicians, Greeks, Carthaginians and Romans and was conquered by Arabs in 870. From 1090 it was joined to Sicily until 1530, when it was handed over to the Knights of St John, who ruled until dispersed by Napoleon in 1798. The Maltese rose in rebellion against the French and the island was subsequently blockaded by the

British, aided by the Maltese, from 1798 to 1800. The Maltese people freely requested the protection of the British Crown in 1802. The Islands were finally annexed to the British Crown by the Treaty of Paris in 1814.

On 17 April 1942, in recognition of the steadfastness and fortitude of the people of Malta during the Second World War, King George VI awarded the George Cross to the island.

CONSTITUTION AND GOVERNMENT. After the war Malta was granted a measure of self-government (subject to the reservation of certain powers to the Governor) under a constitution introduced by letters patent dated 5 Sept. 1947. On the resignation of the government led by D. Mintoff on 24 April 1958 and the disturbances that followed, a state of emergency was declared on 30 April and the direct administration of the island was assumed by the Governor. On 15 April 1959 the state of emergency was brought to an end, the 1947 constitution was revoked and replaced by an interim constitution established by the Malta (Constitution) Order in Council, 1959, and the Malta Royal Instructions, 1959.

Following the report of a Constitutional Commission under the chairmanship of Sir Hilary Blood, a new Constitution for Malta was introduced by the Malta (Constitution) Order in Council, 1961, under which the island is now known as 'the State of Malta'. The Constitution provides for the protection of fundamental rights and freedoms of the individual; the United Kingdom Government still retains responsibility for defence and external affairs; the Governor and Commander-in-Chief is required to consult with the Cabinet composed of a Prime Minister and 7 Maltese Ministers, in exercising all his powers, with certain exceptions; a United Kingdom Commissioner represents the Government of the United Kingdom in Malta. There is also provision for the appointment of a Consultative Council composed of the Governor as Chairman, the Prime Minister, the United Kingdom Commissioner, not more than three members appointed by a Secretary of State and not more than three members appointed by the Prime Minister, providing for consultation on policy relating to defence and external affairs, and on any matters affecting the relations between the United Kingdom Government and the Government of Malta as may be referred to it by either Government.

On 20 Aug. 1962 the Prime Minister made a formal request for independence within the Commonwealth; a constitutional conference was held in London in July 1963. H.M.'s Government in the UK announced on 1 Aug. that Malta would become independent not later than 31 May 1964.

English and Maltese are the official languages.

Governor and C.-in-C.: Sir Maurice Dorman, GCMG, GCVO.

Elections for 50 seats in the Legislative Assembly (40 under the 1947 Constitution) were held on 17-19 Feb. 1962, and resulted as follows: Nationalist Party, 26; Malta Labour Party, 16; Christian Workers Party, 4; Democratic Nationalist Party, 3; Progressive Constitutional Party, 1.

The Cabinet (Nationalist Party) was sworn in on 5 March 1962.

Prime Minister and Minister of Economic Planning and Finance: Dr G. BORG OLIVIER.

Industrial Development and Tourism: Dr G. FELICE. *Education:* Dr A. PARIS. *Agriculture, Power and Communications:* Dr C. CARUANA. *Justice:*

Dr T. Caruana Demajo. *Works and Housing*: Dr J. Spiteri. *Labour and Social Welfare*: Dr A. Cachia Zammit. *Health*: Dr P. Borg Olivier.

Commissioner-General in London: John F. Axisa, MBE (Malta House, 24 Haymarket, SW1).

UK Commissioner: Sir Edward Wakefield, CIE.

USA Representative (Consul-General): Harrison Lewis.

AREA AND POPULATION. The area of Malta is 94.9 sq. miles; Gozo, 25.9 sq. miles; Comino, 1.075 sq. miles; total area, 121.8 sq. miles (316 sq. km). Population, census 30 Nov. 1957, 319,620, including merchant seamen; estimate, 31 Dec. 1962, 329,326. Chief town and port, Valletta: population, 18,202 (1957); estimate (30 June 1962), 18,202. Vital statistics, 1962: Births, 7,513; deaths, 2,840; marriages, 1,873. Net emigration, 1947-62, 78,163; gross emigration (including emigrants who later returned), 86,879.

EDUCATION. In 1963 there were 112 primary and infant schools with 49,796 pupils, 4 grammar schools for girls with 2,176 students, 2 lyceums (for boys) with 1,607 boys, 3 secondary technical schools (1,810 boys, 932 girls), 6 technical schools (1,248 students), 3 industrial training centres (251 trainees), a College of Arts, Science and Technology (365 students) and the Royal University with 433 regular students.

There were 84 private schools with 18,068 pupils.

About 20% of the adult population were illiterate in 1963; adult education classes, instituted in 1946, had an attendance of 900 in 1963.

Newspapers. There are 2 English and 3 Maltese daily newspapers.

Cinemas (1963). There were 64 cinemas with a seating capacity of 31,187.

WELFARE. The National Insurance Act, 1956, which came into force on 7 May 1956, provides cash benefits for marriage, sickness, unemployment, widowhood, orphanhood, old age and industrial injury. An agreement, signed on 26 Oct. 1956, established reciprocity in matters of social insurance between Malta and the UK.

The total number of persons in receipt of benefits on 31 Dec. 1963 was 6,198, viz. 531 in receipt of sickness benefit, 887 unemployment benefit, 137 injury benefit, 54 disablement benefit, 89 death benefit, 3,692 old-age pensions, 801 widows' pensions and 7 guardian's allowance. Social assistance and medical assistance are governed by the National Assistance Act, 1956, which came into force on 6 June 1956.

The number of households in receipt of social assistance and of medical assistance on 31 Dec. 1963 was 5,658 and 1,300 respectively, and the number of old-age pensioners under the Old Age Pensions Act, 1948, was 14,044.

JUSTICE. The number of persons convicted in 1963 of crimes was 653; those convicted for contraventions against various laws and regulations numbered 12,101. 123 were committed to prison, 15 male juveniles were committed to the approved school, 10,363 were awarded fines, 846 released on probation.

Police. In 1963 police numbered 45 officers and 1,124 other ranks including 5 women police constables.

FINANCE. Revenue and expenditure (in £ sterling) for financial years ending 31 March:

	1959-60	1960-61	1961-62	1962-63	1963-64 ²

¹ Including recoverable loans (£218,391 in 1959-60; £280,672 in 1960-61; £241,115 in 1961-62; £155,770 in 1962-63).

² Estimates.

³ Plus capital revenue and expenditure, £7,877,117.

PRODUCTION. Malta's economy was until recently primarily dependent on British military installations, which employed about 12,000 persons. Following the announcement made by the British Government that this figure was to be drastically reduced in view of the proposed run-down of the military establishments, every effort is being made to diversify the economy of the country. The naval dockyard is being converted into a commercial one, new industries are being established and the tourist trade is being enhanced. The Government is making grants and loans for these purposes. The 5-year plan (1959-64) envisaged an expenditure of £35.5m., of which the British Government is providing £29.25m. (£12.48m. in loans and £16.77m. in grants).

Agriculture. The chief products are wheat, barley, potatoes, onions, beans, cumin-seed, vegetables, tomatoes, forages, flowers and seeds, grapes and other fruits. Total value of agricultural produce during the agricultural year 1961-62 was £6.7m. Area cultivated, 35,998 acres.

Livestock in Sept. 1961: Horses, 1,906; mules, 1,599; donkeys, 2,388; cattle, 8,090; sheep, 11,603; goats, 31,012; pigs, 16,392.

Fisheries. The fishing industry occupied 580 motor and 120 other fishing-boats, engaging about 900 persons in 1963. The catch was 1,491 tons, valued at £283,000.

Industry. Under the Five-Year Development Plan launched in 1959, an Aids to Industries Scheme was introduced which provides capital grants and loans to new industries, as well as income tax 'holiday' and exemption from customs duty. Ready-built factories on fully serviced sites are also made available at a low rent. Projects which have received assistance include a large variety of textile and metal plants, the propagation of flower seeds and cuttings, and factories producing light engineering goods, polystyrene insulating materials and furniture.

Electricity. All towns and villages, except Xlendi Bay (Gozo), are provided with electric current. The Malta power station, which supplies both islands, has a capacity of 25,000 kw.; 72,528,470 kwh. were generated during the year ending 31 Dec. 1963. Gozo and Comino obtain their electricity through submarine cables. Construction has started on a station which, in conjunction with the generation of electricity, will also produce 6m. gallons per day of water for public consumption.

Labour. The male working population in 1963 was distributed as follows: Agriculture, 6,310; fishing, 680; service departments, including H.M. Forces, 12,450; private industry, 36,690; government, 13,154. Approximately 15,560 women were in gainful employment. The number of registered unemployed as at 31 Dec. 1963 was 7,015.

Trade Unions. There were 63 trade unions registered as at 31 Dec. 1963, with a total membership of 34,380.

COMMERCE. Imports and exports including bullion and specie (in £ sterling):

	1959	1960	1961	1962	1963
Imports	27,874,520	29,619,089	29,433,070	28,584,317	30,258,000
Exports	4,035,375	3,824,927	4,645,735	4,313,719	5,267,000

In 1963 the principal items of imports were: Meat, £1.7m.; dairy products, £1.5m.; cereals, fruits, vegetables, £4.3m.; chemicals, £1.8m.; fuels, £2.2m.; textile and clothing, £2.7m.; metal manufacture, base metals, £1.7m.; machinery, £3.2m.; transport, £1m. Of domestic exports: Potatoes, £500,000; textiles and yarns, £800,000; scrap metal, £200,000; wines, £240,000; flowers and cuttings, £200,000; rubber manufacture, £180,000; gloves, £120,000; cars, £25,000; onions, £52,000; beer and treated waters, £57,000; cigarettes, £76,000.

In 1963, 38.9% of the imports came from UK, 10.2% from other Commonwealth countries, 8.7% from Italy; of the re-exports, 46.4% went to ships and aircraft stores, 21% to UK; of domestic exports, 45.8% went to UK, 8.8% to Italy, 6.5% to the Commonwealth.

COMMUNICATIONS. *Shipping.* Vessels entered, 1963, 2,057 of 4,301,240 tons, including 502 British and Commonwealth ships of 1,276,729 tons. On 31 Dec. 1963, 67 vessels of 12,091 gross tons were registered in Malta.

Roads. Every town and village is served by motor omnibuses. There are ferry and hydrofoil services running between Malta and Gozo; cars can be transported on the ferries. Motor vehicles registered at 1 Jan. 1964 totalled 18,421 passenger cars, 1,005 hire cars, 5,488 commercial vehicles, 616 buses, 3,871 motor cycles and 352 miscellaneous vehicles.

Post. There is a government system of telephones with exchanges at Malta and Gozo. On 31 July 1963 there were 12,432 exchange lines with 19,262 stations.

Aviation. The principal air companies are British European Airways in association with Malta Airlines and Skyways. Scheduled services are operated between Malta and UK, Italy and Libya.

During the year 1963 there were 3,788 civil aircraft movements at Luqa Airport. 171,296 passengers and 3,467 tons of freight and mail were handled.

MONEY. Government of Malta currency notes issued under the Currency Notes Ordinance, 1949, and British coins are the sole legal tender. The amount of local currency notes in circulation on 31 Dec. 1963 was £25.12m.

BANKING. Commercial banking facilities are provided by Barclays Bank DCO with 25 branches throughout Malta and Gozo, the National Bank of Malta (to which is affiliated Sciclunas Bank) with 23 branches, B. Tagliarferro & Sons, the Bank of Alderney Ltd and the Bank of Industry, Commerce and Agriculture, Ltd.

A government savings bank with 17 branches had, 31 Dec. 1963, 59,515 depositors and £11,491,505 deposits.

MAURITIUS

HISTORY. Mauritius was known to Arab navigators probably not later than the 10th century. It was probably visited by Malays in the 15th century, and was discovered by the Portuguese between 1507 and 1512, but the Dutch were the first settlers (1598). In 1710 they abandoned the island which was occupied by the French under the name of Isle de France (1715). The British occupied the island in 1810, and it was formally ceded to Great Britain by the Treaty of Paris, 1814.

CONSTITUTION AND GOVERNMENT. The government is vested in a Governor with an Executive and a Legislative Council. The Mauritius (Constitution) Orders in Council, 1958-62, provide for a Legislative Council consisting of the Speaker (appointed by the Governor from outside the Council), 3 *ex-officio* members (the Chief Secretary, the Attorney-General and the Financial Secretary), 40 elected members and such nominated members, not exceeding 12, as the Governor may appoint.

The elections held on 21 Oct. 1963 returned 19 Labour, 4 Moslems (government coalition), 8 Conservatives, 7 Forward Block, 2 independants.

The Executive Council consists of 13 Ministers, namely the 3 *ex-officio* members above-mentioned and 10 members appointed from the elected or nominated members of the Legislative Council, by the Governor acting in his discretion. Ministers are responsible to the Governor in the Executive Council, and to the Legislative Council, for all matters affecting the departments with which they are associated.

A court of criminal appeal was set up on 1 Jan. 1955.

English and French are the official languages.

Governor and C.-in-C.: Sir John Shaw Rennie, KCMG, OBE (sworn in on 17 Sept. 1962).

Chief Secretary: Thomas Douglas Vickers, CMG.

Chief Minister: Dr S. Ramgoolam.

AREA AND POPULATION. The island, situated 20° S. lat., 57½° E. long., is of volcanic origin. The climate is free from extremes of weather, except for tropical cyclones at times. A devastating cyclone occurred on 27/28 Feb. 1960. Yearly rainfall varies from 30 in. on the north-west coast to 200 in. in the uplands.

Mauritius has an area of about 720 sq. miles (1,865 sq. km). According to the census of 30 June 1962, the population of the island was 681,619 (342,350 males, 339,269 females); that of the dependencies was 19,400. The estimated resident population of Mauritius at the end of 1962 was 692,350; population of Port Louis, the capital, with its suburbs, 121,750.

Vital statistics, 1962: Births, 26,267 (38.5 per 1,000); marriages, 3,893 (11.4 per 1,000); deaths, 6,325 (9.3 per 1,000).

RELIGION. In 1952 there were 165,086 Roman Catholics, 5,467 Protestants (Church of England and Church of Scotland). State aid is granted to the Churches, amounting in 1961-62 to Rs 646,220. The Indo-Mauritians are mostly Hindus but more than 100,000 are Muslims.

EDUCATION. Primary education is free but not compulsory, though under the Education Ordinance of 1957 compulsion may be introduced as circumstances permit. At the end of Oct. 1962 there were 124 government and 75 state-aided schools. Average attendance at government schools was 59,267 (72,241 on roll) and at state-aided schools, 38,836 (47,389 on roll). There were, in Oct. 1962, 158 unaided primary schools with an enrolment of 6,037 and 8 grant-aided secondary schools with primary sections with an enrolment of 1,505.

Pre-primary education was provided to 11,627 children by 367 unaided dame and infant schools.

For secondary education there were, in Oct. 1962, 3 government boys' schools and 1 government girls' school with 1,750 pupils, and 13 aided and 88 unaided secondary schools for boys and girls, with a roll of 4,688 and 20,423 respectively.

There is a government post-secondary agricultural college (66 on roll) and a teachers' training college (553 on roll).

The current expenditure by Government on education in 1962-63 is estimated at Rs 22.6m., excluding capital expenditure on new buildings and other development works which cost Rs 2.2m.

Newspapers. There are 6 bilingual French-English daily papers with a combined circulation of 51,200 and 5 Chinese daily papers with a combined circulation of 6,800.

PITCAIRN ISLAND

Pitcairn Island (1.75 sq. miles; 4.6 sq. km) is situated in the Pacific Ocean, nearly equidistant from New Zealand and America (25° 4' S. lat., 130° 6' W. long.). It was discovered by Carteret in 1767, but remained uninhabited until 1790, when it was occupied by the mutineers of HMS *Bounty*, with some women from Tahiti. Nothing was known of their existence until the island was visited in 1808. In 1856 the population having become too large for the island's resources, the inhabitants (194 in number) were, at their own request, removed to Norfolk Island; but 43 of them returned in 1859-64. The population (31 Dec. 1962) numbers 128 persons. It is a British colony by settlement, and was brought within the jurisdiction of the High Commissioner for the Western Pacific in 1898.

Under the Pitcairn Order in Council 1952 (459) the Government is administered by the Governor of Fiji through a council consisting of a chief magistrate, 2 assessors, a secretary and a chairman of the internal committee. The chief magistrate is elected triennially, the others annually by the people. Fruit, vegetables and curios are sold to passing ships; flour, sugar and other foodstuffs are imported.

The uninhabited islands of Henderson (12 sq. miles), Ducie (2½ sq. miles) and Oeno (2 sq. miles) were annexed in 1902, and are included in the Pitcairn group.

The revenue from customs was, in 1959, £22,815; 1960, £27,279; 1961, £24,808; 1962, £25,000 (estimated).

The colony's liabilities at 31 Dec. 1962 exceeded the assets by 11,020.

The principal exports are flax fibre, tow, rope and twine; they totalled 928.75 tons in 1959; 1,189 tons in 1960; 925.75 tons in 1961; 1,305 tons in 1962.

Total trade between Ascension and St Helena and UK (British Board of Trade returns, in £ sterling):

Communications. The number of vessels that called in 1962 was 38; total tonnage entered and cleared was 185,652. There are 65 miles of all-weather motor roads.

The Cable and Wireless cable connects St Helena with Cape Town and with St Vincent. There is a telephone service with 80 miles of wire and 130 telephones.

Banking. Savings-bank deposits on 31 Dec. 1962, £176,280, belonging to 1,093 depositors.

Ascension is a small island of volcanic origin, of 34 sq. miles (88 sq. km), 700 miles north-west of St Helena. In Nov. 1922 the administration was transferred from the Admiralty to the Colonial Office and annexed to the colony of St Helena. There are 10 acres under cultivation providing vegetables and fruit. Population, 31 Dec. 1946, was 292; 1949, 162; 1956, 416; 1958, 326; 1959, 418; 1960, 429; 1961, 336; 1962, 374.

The island is the resort of sea turtles, which come to lay their eggs in the sand annually between January and May. Rabbits, wild goats and partridges are more or less numerous on the island, which is, besides, the breeding ground of the sooty tern or 'wideawake', these birds coming in vast numbers to lay their eggs every eighth month.

Cable and Wireless, Ltd own and operate a cable station, connecting the island with St Helena, Sierra Leone, St Vincent, Rio de Janeiro and Buenos Aires.

Resident Magistrate: J. R. Bruce.

Tristan da Cunha, a small group of islands in the Atlantic, half-way between the Cape and South America, in 37° 6' S. lat., 12° 1' W. long. Besides

Tristan da Cunha and Gough Island, there are Inaccessible and Nightingale Islands, the former 2 and the latter 1 mile long, and a number of rocks. As from 12 Jan. 1938 the 4 islands have become dependencies of St Helena.

Tristan consists of a volcano rising to a height of 6,760 ft, with a circumference at its base of 21 miles. The volcano, believed to be extinct, erupted unexpectedly early in Oct. 1961. The whole population was evacuated without loss and settled temporarily in the United Kingdom. In 1963 they returned to Tristan.

Before that disaster occurred the habitable area was a small plateau on the north-west side of about 12 sq. miles, 100 ft above sea-level. Only about 30 acres was under cultivation, three-quarters of it for potatoes. There were apple and peach trees; bullocks, sheep and geese were reared, and fish are plentiful.

The island is extremely lonely, but the community was growing. In 1880 it numbered 109, in 1960, 281. The original inhabitants were shipwrecked sailors and soldiers who remained behind when the garrison from St Helena was withdrawn in 1817.

At the end of April 1942 Tristan da Cunha was commissioned as HMS *Atlantic Isle*, and became an important meteorological and radio station. In Jan. 1949 a South African company commenced crawfishing operations. An Administrator was appointed at the end of 1948 and a body of basic law brought into operation. The Island Council, which was set up in 1932, consists of 6 nominated and 15 elected members under the chairmanship of the Administrator, with the Society for the Propagation of the Gospel in Foreign Parts' missionary and the company manager as *ex-officio* members. Women's affairs are discussed by the Island Women's Council, which presents them for consideration to the general council.

Administrator: P. A. Day.

SEYCHELLES

History. The islands were first colonized by the French in the middle of the 18th century, in order to establish plantations of spices to compete with the Dutch monopoly. They were captured by the English in 1794 and incorporated as a dependency of Mauritius in 1814. In 1888 the office of administrator was created, with an Executive Council and a Legislative Council. In 1897 the Administrator was given full powers as Governor, and in Nov. 1903, he was raised to the rank of Governor.

Constitution and Government. The Legislative Council consists of the Governor as President, 4 *ex-officio*, 2 nominated official, 1 nominated unofficial and 5 elected members. The Executive Council consists of the Governor as President, 5 *ex-officio* members and 5 unofficial members. The capital is Victoria on Mahé which has a good harbour (population, 11,380).

Governor and C.-in-C.: The Earl of Oxford and Asquith, CMG.

Colonial Secretary: G. P. Lloyd.

Area and Population. Seychelles and its Dependencies consist of 92 islands and islets with a total estimated area of 156½ sq. miles (264 sq. km), including Aldabra lagoon (of over 55 sq. miles). The principal island is Mahé (55½ sq. miles), smaller islands of the group being Praslin, Silhouette, La Digue, Curieuse and Félicité. Among dependent islands are the Amirantes, Alphonse Island, Bijoutier Island, St François, St Pierre, the Cosmoledo Group, Astove Island, Assumption Island, the Aldabra Islands, Providence Island, Coetivy, Farquhar Islands and Flat Island.

The population, in mid-1962 was 43,750. The number of births in 1962 was 1,733; deaths, 505; marriages, 189.

Education. There are 21 pre-primary schools, 2 organized kindergarten schools, 30 primary schools, 6 secondary modern schools, 1 private secondary modern school, 2 secondary grammar schools, 1 technical centre, 1 vocational school, 1 continuation classes centre and 1 teacher-training college.

In Feb. 1962 there were 3,163 boys and 2,927 girls in primary schools; 398 boys and 528 girls in secondary grammar schools and 376 children in kindergarten or pre-primary schools. In Aug. 1962, 21 students were undergoing further education and training in the UK.

Justice. In 1962, 2,941 cases were brought before the courts (criminal side). The police force numbered 174 all ranks, plus 75 special constabulary.

TONGA

FRIENDLY ISLANDS

HISTORY. The kingdom of Tonga attained unity under Taufa'ahau Tupou (George I) who became ruler of his native Ha'apai in 1820, of Vava'u in 1833 and of Tongatapu in 1845. By 1860 the kingdom had become converted to Christianity (George himself having been baptized in 1831).

In 1862 the king granted freedom to the people from arbitrary rule of minor chiefs and gave them the right to the allocation of land for their own needs. These institutional changes, together with the establishment of a parliament of chiefs, paved the way towards the democratic constitution under which the kingdom is now governed, and provided a background of stability against which Tonga was able to develop her agricultural economy.

The kingdom continued up to 1899 to be a neutral region in accordance with the Declaration of Berlin, 6 April 1886. By the Anglo-German Agreement of 14 Nov. 1899, subsequently accepted by the USA, the Tonga Islands were left under the Protectorate of Great Britain. A protectorate was proclaimed on 18 May 1900, and a British Agent and Consul appointed.

CONSTITUTION AND GOVERNMENT. A new treaty of friendship between the United Kingdom and Tonga was signed in Nuku'alofa on 26 Aug. 1958 and ratified on 25 May 1959. Tonga continues to be a state under British protection, but has increased local autonomy and, while external relations generally remain the responsibility of the United Kingdom, certain aspects will now be conducted by the Government of Tonga. The UK responsibilities are vested in the UK Chief Commissioner for Tonga who also holds the position of Governor of Fiji and acts through the British Commissioner and Consul (resident in Tonga).

Queen: Her Majesty Queen Salote Tupou, GCVO, GBE, born 13 March 1900, succeeded on the death of her father, King George Tupou II, on 5 April 1918, and was crowned on 11 Oct. 1918.

Premier: HRH Prince Tungi, KBE, Heir Apparent.

The present constitution is almost identical with that granted in 1875 by King George Tupou I. There is a Privy Council, Cabinet, Legislative Assembly and Judiciary. The legislative assembly, which meets annually, is composed of 7 nobles elected by their peers, 7 elected representatives of the people and the Ministers of the Crown (numbering 7); the Queen appoints one of the 7 nobles to be the Speaker. The elections are held triennially. In 1960, women voted for the first time.

AREA AND POPULATION. The kingdom consists of some 150 islands and islets with a total area of 270 sq. miles (700 sq. km; including inland waters), and lies between 15° and 23° 30' S. lat. and 137° and 177° W. long., its western boundary being the eastern boundary of Fiji. The islands are split up into the following groups reading from north to south: Vava'u, Ha'apai, Kotu, Nomuka, Otu Tolu and Tongatapu. The 3 main groups, both from historical and administrative significance, are Tongatapu in the south, Ha'apai in the centre and Vava'u in the north. The Tongatapu group was discovered by Tasman in 1643.

The islands to the east, being mostly of limestone formation, are low lying and with but a few exceptions seldom exceed 100 ft above sea-level. The islands to the west are of a volcanic nature, approximately 11, average between 350 and 3,380 ft in height. After a violent volcanic eruption in Sept. 1946 on the island of Niuafu'ou (Tin Can Island to philatelists, so named because of the method that was used of collecting and delivering mail) the 1,300 inhabitants were evacuated, most of them to Tongatapu and 'Eua, but more than 600 have returned since 1958.

The climate is mild and healthy, malaria being unknown. The temperature from May to Nov. rarely exceeds 84° F. in the shade, with a minimum temperature of 52° F. Census population at 26 Sept. 1956, 56,838,

including 55,156 Tongans and 277 Europeans, of whom almost half inhabit Tongatapu. Estimated population at the end of 1962 was 67,495. The capital is Nuku'alofa on Tongatapu.

RELIGION. The Tongans are Christian, the vast majority being adherents of the Wesleyan Church.

EDUCATION. The Tongans enjoy free education, free medical attendance and dental treatment. In 1962 there were 77 government and 53 denominational primary schools, with a total of 15,975 pupils. There are 3 government and 5 mission colleges (as well as 7 other mission schools) at which secondary education is provided for both boys and girls, with a total roll of 4,786.

JUSTICE. British and foreign nationals charged with an offence against the laws of Tonga (the enforcement of which is a responsibility of the Minister of Police), excluding crimes punishable by death or by imprisonment exceeding 2 years, are subject to the jurisdiction of the Tongan courts to which they are also subject in all civil matters.

FINANCE. The revised budget estimate of revenue for the year 1962-63 balanced at T£759,573. The estimates for 1963-64 balanced at T£643,015.

PRODUCTION. Tongan produce consists almost entirely of copra and bananas. Imports in 1962 were valued at T£1,229,813; exports, T£833,257, including copra, T£555,003, and bananas, T£191,423.

COMMUNICATIONS. The Union Steamship Co. of New Zealand maintains a monthly service New Zealand-Fiji-Tonga, and cargo steamers visit the group from time to time for shipments of copra. Shipping cleared at Nuku'alofa in 1962 was 168,596 tons; at Vava'u, 37,245 tons.

The kingdom has its own issue of postage stamps. Telephones numbered 623 in 1962.

MONEY. Since 1906 British and Australian coin has been legal tender. In 1935 the exchange standard system was adopted, based on Australian currency. There is a government note issue of £5, £1, 10s. and 4s. In 1957 the decimal coinage system was approved; coins to the value of a tenth, a hundredth and a thousandth of a pound will be minted in London. In April 1963 gold coins were issued in denominations of 1, $\frac{1}{2}$ and $\frac{1}{4}$ koula (1 koula = T£20).

There are no trading banks.

The weights and measures are the same as in Great Britain.

HBM's Commissioner and Consul: E. J. Coode.

WESTERN PACIFIC HIGH COMMISSION

THE office of High Commissioner in, over and for the Western Pacific Islands was created by the Western Pacific Order in Council 1877. The seat of the High Commission is at Honiara in the British Solomon Islands Protectorate.

High Commissioner for the Western Pacific: R. S. Foster, CMG.

Chief Secretary: M. D. I. Gass, CMG.

The jurisdiction of the High Commissioner extends over all islands in the Western Pacific not being within the limits of the territories administered by Her Majesty's Governments in the Commonwealth of Australia and in New Zealand or the Governor of Fiji, and not being within the jurisdiction of any other civilized power. The Pacific Order in Council, 1893, extended the High Commissioner's jurisdiction to foreigners and (in most cases) to natives residing in British settlements or protectorates within the limits of the Order. Under the provisions of the New Hebrides Order in Council, 1922, the jurisdiction of the High Commissioner extends also to the New Hebrides, the Banks Islands and Torres Islands. The expenses of the High Commission are met from the funds of the Gilbert and Ellice Islands Colony and the British Solomon Islands Protectorate, but a contribution is paid from imperial funds for work in connexion with the New Hebrides.

The principal groups under the High Commissioner are: (1) The Gilbert and Ellice Islands Colony; (2) The British Solomon Islands Protectorate, and (3) The New Hebrides.

Justice. On 9 April 1962 the Western Pacific (Court) Order in Council came into operation in the Solomon Islands. It provides for the continuation and reconstitution of the High Commissioner's Court for the Western Pacific under the new style of the High Court for the Western Pacific, with the powers and status appropriate to a superior court of record. The jurisdiction of the High Court is exercised by a Chief Justice and 6 other judges, appointed by the High Commissioner. The High Court has jurisdiction similar to that of the High Court in England.

The order applies to all the territories in which the High Commissioner's Court at present has jurisdiction. Legislation has been enacted for the constitution of magistrates' courts with civil and summary criminal jurisdiction.

Upon the coming into operation of the new Order in Council in any territory, a number of the provisions of the Pacific Order in Council, 1893, either ceased to apply or apply in that territory subject to amendments. At the same time the law of England, which applies in that territory, subject to other laws of local application, is the law which was in force in England on 1 Jan. 1961, and not, as under the Pacific Order in Council, 1893, the law for the time being in force in England.

In addition to the other means of preserving order the High Commissioner has certain special powers for the deportation of persons whose proceedings endanger the peace of the islands.

GILBERT AND ELLICE ISLANDS COLONY

History. The Gilbert and Ellice Islands were proclaimed a protectorate in 1892 and annexed (at the request of the native governments) as the Gilbert and Ellice Islands Colony on 10 Nov. 1915 (effective on 12 Jan. 1916).

Government. In each island of the Gilbert and Ellice groups (except Niulakita) and in 2 islands in the Phoenix group there is a native government under an appointed native magistrate whose court administers a code of native laws. The colony is administered by the High Commissioner through a Resident Commissioner.

Resident Commissioner: Valdemar Jens Andersen, OBE, VRD.

Area and Population. The Colony comprises 4 groups of atolls together with the adjacent Ocean Island. Total population (census 1947) 36,000, including 304 Europeans, 142 Chinese, 29,923 Micronesians and 5,066 Polynesians. Estimated total, Dec. 1961, 47,508. In 1961 there were 1,708 births and 386 deaths.

Ocean Island is situated at 0° 52' S. lat., 169° 35' E. long. and is approximately 2 sq. miles in area. Population (Dec. 1961) 2,564, including 182 Europeans and 104 Chinese. This island was annexed and included in the Colony (at that time a protectorate) by a proclamation of 28 Nov. 1900.

The Gilbert Islands between 4° N. and 3° S. lat. and 172° and 177° E. long. comprise Makin, Butaritari, Marakei, Abaiang, Tarawa (headquarters of the colony and Gilbert and Ellice Islands district), Maiana, Abemama, Kuria, Aranuka, Nonouti, Tabiteuea, Beru, Nikunau, Onotoa, Tamana and Arorae. Population (Dec. 1961) 36,168, including 173 Europeans and 2 Asians; area approximately 100 sq. miles (260 sq. km). The Gilbertese are classed as Micronesians.

The Ellice Islands between 5° 30' and 11° S. lat. and 176° and 180° E. long. comprise Nanumea, Nanumanga, Niutao, Nui, Vaitupu, Nukufetau, Funafuti, Nukulaelae and Niulakita. Population (Dec. 1961) 5,120. Area approximately 9½ sq. miles (24 sq. km). The Ellice Islanders are a Polynesian race; their language is also known as Ellice.

The Phoenix Islands between 3° and 5° S. lat. and 170° and 175° W. long. comprise the islands of Canton (headquarters of the Phoenix Islands district), Enderbury, Birnie, McKean, Phoenix, Hull, Sydney and Gardner. Population (Dec. 1961) 926, excluding American nationals on Canton Island. Area approximately 11 sq. miles (28 sq. km).

The Phoenix Islands were included in the Colony by an order in council of 18 March 1937. In March 1938 the USA claimed sovereignty over

Canton and Enderbury. In an exchange of notes on 6 April 1939 the UK and US Governments agreed, without prejudice to their respective claims, to exercise joint control over the 2 islands for a period of 50 years. Canton used to be an international airport on the trans-Pacific route between Fiji and Honolulu, but, with the use of long-range jet aircraft, is no longer serviced by scheduled flights.

The southern Phoenix Islands of Hull, Sydney and Gardner were colonized by Gilbertese between 1938 and 1940, but due to long droughts permanent settlement on Sydney ceased in 1958. Phoenix, Birnie and McKean Islands are uninhabited.

The Line Islands between 4° 40' and 2° N. lat. and 160° 20' and 157° W. long. comprise Fanning, Washington and Christmas Islands. Fanning Island: population (Dec. 1961) 521, including 31 Europeans and 1 Asian; area approximately 12 sq. miles (31 sq. km). Washington Island: population (Dec. 1961) 355; area approximately 3 sq. miles (8 sq. km). Christmas Island (headquarters of the Line Islands district): population (Dec. 1961) 479, excluding military personnel; area approximately 222 sq. miles (575 sq. km). Fanning and Washington Islands were annexed in 1889 and a repeating station for the Pacific cable was established on Fanning; they were included in the Colony in 1916. Both islands are worked as copra plantations by Fanning Island Plantations, Ltd, using Gilbertese labour. Christmas Island was discovered by Capt. Cook in 1777, annexed by Great Britain in 1888 and included in the Colony in 1919. It is the largest atoll in the Pacific. The island is partially planted with coconut trees and worked as a copra plantation by the Government.

The following 5 Line Islands do not form part of the Colony but are administered directly by the High Commissioner for the Western Pacific.

Starbuck Island, 5° 35' S. lat., 155° 52' W. long.; area 1 sq. mile, uninhabited. Malden Island, 4° S. lat., 155° W. long.; area 35 sq. miles (90 sq. km), containing deposits of guano of doubtful value, uninhabited. Flint Island, 11° 26' S. lat., 151° 48' W. long., and Caroline Island, 10° S. lat., 150° 14' W. long., were, in 1951, leased to Mr T. A. Bambridge of Tahiti. Vostock Island, 10° 06' S. lat., 152° 23' W. long., uninhabited.

Climate. The rainfall varies considerably. In normal years the annual rainfall ranges from 40 in. in the vicinity of the equator to about 100 in. in the North Gilbert Islands and 120 in. in the Ellice Islands. The Southern and Central Gilbert Islands and Ocean Island are subject to periodic droughts. The temperature varies between 80° and 90° F. (27–32° C.) by day and drops to a minimum of 70° F. (21° C.) at night.

Education. The Government maintains a boys' secondary boarding school, the King George V School at Tarawa, with 110 boys; a secondary school for girls at Tarawa had 43 pupils in 1961. In 1961 the Government was also maintaining 27 primary schools with a total of 1,485 pupils.

At Ocean Island the British Phosphate Commissioners also had in 1961 under apprenticeship 45 Gilbert and Ellice Islanders training in various building or mechanical trades or as clerks or storemen. A number of islanders are being sent to Australia and New Zealand for secondary and vocational education, expenses being met by the UK and Australian Governments.

There are 222 village schools throughout the Gilbert, Ellice and Phoenix groups run by the London Missionary Society, the Mission of the Sacred

Heart and the Seventh Day Adventists. Grants-in-aid to Mission Schools amounted to £5,000 for the year 1961.

Welfare. Government maintains free educational, medical and other services. There are no towns, and the people are almost with exception landed proprietors, thus eliminating child vagrancy and housing problems. Destitution is almost unknown.

Police. The Colony has a constabulary of 125 under a Chief Police Officer. Detachments are stationed at colony and district headquarters.

Finance. Revenue for the calendar year 1961 amounted to £A722,122; principal items: customs duties, £A168,498; direct taxation, £A24,138; revenue (largely taxation on phosphate), £A366,826. Expenditure in 1961 amounted to £A714,231. Currency is Australian.

Agriculture. The land is basically coral reefs upon which coral sand has built up, and then been enriched by humus from rotting vegetation and flotsam which has drifted ashore. The principal tree is the coconut, which grows prolifically on all the islands except some of the Phoenix Islands. Other food-bearing trees are the pandanus palm and the breadfruit. As the amount of soil is negligible, the only vegetable which grows in any quantity is a coarse calladium (alocasia) with the local name 'babai', which is cultivated most laboriously in deep pits. There is also a little taro cultivated in the Ellice group. Pigs and fowls are kept throughout the Colony, and there is an abundance of fish.

Copra production is mainly in the hands of the individual native, who collects the coconut products from the trees on his own land.

Trade. The principal imports are rice, flour, cotton piece-goods, tobacco and manufactured articles such as bicycles. The value of imports for 1961 amounted to £A1,384,480. Exports are almost exclusively phosphate and copra. The British Phosphate Commissioners exported 335,600 tons in 1961. Copra exports amounted to 6,187 tons in 1961, valued at £A368,744.

BRITISH SOLOMON ISLANDS PROTECTORATE

THE British Solomon Islands Protectorate is comprised in the approximate area enclosed by 5° to 12° 30' S. lat: and 155° 30' to 169° 45' E. long. The Solomon Islands were first discovered in 1568 by Alvaro de Mandaña, on a voyage of discovery from Peru. The group includes the islands of Guadalcanal, Malaita, San Cristobal, New Georgia, Ysabel, Choiseul, Shortland, Mono (or Treasury), Vella Lavella, Ranongga, Gizo, Rendova, Russell, Florida, Rennell and numerous small islands, including the Lord Howe Group or Ontong Java, the Santa Cruz Islands, Tikopia, and Mitre Islands, and the Duff and Reef Groups. The four first-named were placed under British protection in 1893; the other islands were added to the protectorate in 1898 and 1899. The land area of the protectorate is estimated at 11,500 sq. miles (29,785 sq. km); the larger islands are mountainous and forest-clad. The largest island is Guadalcanal (estimated 2,500 sq. miles or 5,300 sq. km), and the most populous is Malaita (estimated 46,000 inhabitants). The annual

rainfall at Honiara is about 90 in.; elsewhere it may be as much as 300 in. Malaria is prevalent. The estimated population in 1963 was: Europeans, 850; Indians, Chinese and Fijians, 550; Solomon Islanders, 123,000.

The protectorate is administered by the Western Pacific High Commissioner.

Education is mainly in the hands of the churches, but there are also 4 government primary schools and a government secondary school for boys; 4 former government primary schools have been taken over by local councils. A teacher-training college at Kukum, near Honiara, was opened in 1959.

Estimated revenue for the calendar year 1963, £A2,300,916 (including colonial development and welfare funds, £A490,860); Overseas Service Aid Scheme, £A150,580; UK grant-in-aid, £A625,316. Estimated expenditure, £A2,300,916.

Coconuts, sweet potatoes, pineapples, bananas and some cocoa are grown. Copra is the only cash crop of importance. Experimental plantings of rice are being made. The main imports are rice, biscuits, meat, flour, sugar, tea, milk, kerosene, fuel oils, tobacco, soap and cotton piece-goods. Exports go almost entirely to UK and Australia. Exports comprise copra (24,148 tons in 1962), timber, trochus shell, green snail shell and kauri gum. In 1962 total imports amounted to £A2,233,611; total exports and re-exports to £A1,635,281.

Number of telephones (1963), 351.

The medium of exchange is Australian currency. The estimated amount of currency in circulation at 31 Dec. 1962 was £A898,529.

NEW HEBRIDES CONDOMINIUM

NOUVELLES HÉBRIDES

The New Hebrides group lies roughly 500 miles west of Fiji and 250 miles north-east of New Caledonia. Estimated area 5,700 sq. miles (14,760 sq. km). The group is administered for some purposes jointly, for others unilaterally, as provided for by Anglo-French Convention of 27 Feb. 1906, ratified 20 Oct. 1906, and a protocol signed at London on 6 Aug. 1914 and ratified on 18 March 1922. The interests of British, French and natives, respectively, are protected; the conditions of land-holding in the islands fixed, and the regulation of the recruitment of native labour provided for. Within the islands Great Britain and France are represented by High Commissioners, who delegate their powers to Resident Commissioners stationed in the group.

British Resident Commissioner: A. M. Wilkie, CMG.

French Resident Commissioner: M. Delauney.

The larger islands of the group are: Espiritu Santo, Malekula, Epi, Pentecost, Aoba, Maewa, Paama, Ambrym, Efate, Erromanga, Tanna and Aneityum. There are 3 active volcanoes, on Tanna, Ambrym and Lopevi, respectively. Earth tremors are of common occurrence. Rainfall at Vila averages 80 in. per annum. On 28 Dec. 1959 a cyclone almost wiped out the town of Vila on Efate.

Population. Total population in 1962 was estimated at 62,000, of whom 717 were British subjects and *ressortissants*, and 5,231 French citizens and

résortissants. In 1963 a large number of Tonkinese were repatriated to North Vietnam.

Health. Pulmonary complaints and helminthic infections but especially malaria are important causes of death among the natives. The tuberculin sensitivity survey which was begun in 1961 was continued.

French Government hospitals and medical aid posts are established at Vila, Santo and Malekula and staffed by French national medical officers. The British Government subsidizes mission hospitals in Tanna, Efate and Aoba and maintains its own rural clinics in the Banks and Pentecost. British and French national medical officers comprise a Condominium Medical Service providing preventive measures, inspection of plantations and free medical attention to the native population. The joint administration subsidizes the work of the mission medical services.

Education. The Condominium Government has no education service but makes an annual subsidy (at present £30,000) to each national administration for education. The British Administration subsidizes a small multi-racial primary school at Vila and makes grants to Mission voluntary agencies who conduct primary schools throughout the group. The French Government has 7 primary schools and assists French Missions. The training of teachers previously undertaken by individual Missions is being concentrated at the British central teacher-training college near Vila which opened in March 1962.

Finance. Condominium revenue 1962 was £Stg679,648; expenditure, £Stg674,346. British national service revenue, 1963-64 (estimate), £A79,923; expenditure, £A412,410. French national service estimates, 1963, balanced at 95,239,000 NH francs.

Justice. There are English and French national courts and Condominium courts.

Development. A joint plan of economic development, to be financed from Colonial Development and Welfare funds and the French FIDES, has been drawn up to cover the period ending 31 March 1964. The plan is estimated to cost £373,829 and includes a topographical survey (already carried out), the expansion of the agricultural service (with emphasis on extension work), the encouragement of co-operative societies, a geological survey, the rehabilitation of airfields at Vila and Santo and the improvement of other communications. National development plans provide for education and health.

Production. The main commercial crops are copra, cocoa and coffee. Yams, taro, manioc and bananas are grown for local native consumption. A large number of cattle are reared on plantations.

Prospecting licences for more than 900 areas have been issued. Manganese mining has been established at Forari on Efate by the Compagnie Française des Phosphates de l'Océanie. Timber (Kauri pine) is exploited on Aneityum. There are no manufacturing industries.

Subsistence fishing is done by the natives, and a plant for freezing of tuna and bonito commenced operation in 1957. This plant, which is sited on Santo, freezes and packages for export to Japan and elsewhere, fish caught by vessels owned by a Japanese firm working in association with the British company running the plant.

Commerce. In 1962 imports totalled £2,239,368 and exports £1,982,330.

In 1962, 50% of total imports came from Australia, 20% from France and 5% from the UK. Principal imports in 1962 were cement, lubricating and power oils, metal sheeting and other building materials and rice. Principal exports in 1962 were copra (£1,178,286), frozen fish (£467,911) and, for the first time, sintered manganese ore (£231,489). France took 41% of the exports and the Americas 42%.

Shipping. Shipping services link the New Hebrides with Australia, New Caledonia, Hong Kong, France (via Panama Canal), New Guinea and the British Solomon Islands Protectorate. Small vessels give a frequent but non-scheduled inter-island service. In 1962, 142 vessels of 302,335 net tons entered and left the New Hebrides; 69 of them (218,224 tons) were French and 31 (51,245 tons) British.

Roads. The Public Works Department maintains limited roads on Efate, Santo, Tanna and Malekula. There are, in addition, tracks usable by motor vehicles on some of the other islands.

Telecommunication. Telegraphic communication is by direct wireless contact with Honiara, Noumea and Sydney, and there is an internal network of teleradio stations. There is also a radio-telephone service with Honiara, Noumea, Suva and Sydney, from where the service can be extended to USA, Europe, etc. Air radio facilities are provided.

Aviation. Fiji Airways Ltd operates a service 3 times every fortnight—Suva, Vila, Santo, Honiara and return to Suva, where regular services to Australia, New Zealand, USA and Britain are provided by Qantas and TEAL. Transport Aériens Intercontinentaux provides a twice-weekly air service to and from New Caledonia, whence there are regular services to Australia, New Zealand and Tahiti. New Hebrides Airways Ltd operates a charter service throughout the group.

Banking. There are branches of the Bank of Indo-China at Vila and Santo and savings bank agencies of the Commonwealth Bank of Australia at Vila, Santo, Tanna and Aoba.

WEST INDIES

THE West Indies federation, established on 3 Jan. 1958, was dissolved in Feb. 1962 after Jamaica and Trinidad had opted out of it. Subsequently Grenada entered into negotiations with the Government of Trinidad and Tobago regarding a possible union, while the other 7 territories (Antigua, Barbados, Dominica, Montserrat, St Kitts-Nevis-Anguilla, St Lucia, St Vincent) maintain that a federation offers the best prospects for their economic and political progress.

A regional council of the ministers of these 8 territories has been established as a form for discussing matters of common interest.

The following common institutions have been maintained after the dissolution of the federation:

EDUCATION. The University College of the West Indies, situated at Mona, Jamaica, is affiliated to London University. It received a Royal Charter in 1949 and has faculties of Medicine, Arts, Natural Sciences and a Department of Education. The former Imperial College of Tropical

Agriculture in Trinidad is the faculty of Agriculture and Engineering. Registered students 1959-60 numbered 695 and staff members totalled 130.

JUSTICE. The British Caribbean Court of Appeal has replaced the Federal Supreme Court. It has exclusive original jurisdiction and an appellate jurisdiction and can hear and determine appeals from British Guiana and British Virgin Islands by agreement. The Court, which travels between the territories, consists of a Chief Justice and 5 justices.

COMMUNICATIONS. *Shipping.* The West Indies Shipping Corporation continues to provide a regular shipping service for passengers and cargo, the West Indies Shipping Corporation Act 1961 continuing with adaptation to be part of the law of the territories, including Jamaica and Trinidad and Tobago.

The West Indies Meteorological Service continues on a completely re-organized basis. It also serves British Guiana, British Honduras and British Virgin Islands.

Telecommunications. The territories are linked by cable, radio-telegraph and radio-telephone. Cable and Wireless (West Indies), Ltd have installed a multi-channel tropospheric scatter-link between Trinidad and Barbados and a network of VHF circuits covering the other territories.

CURRENCY. The Board of Commissioners of Currency, British Caribbean Territories (Eastern Group), formed in 1951, has the sole right to issue currency notes and coin in Trinidad and Tobago, Barbados, British Guiana, the Leeward Islands (Antigua, St Kitts-Nevis-Anguilla, Montserrat), and the Windward Islands (Grenada, St Vincent, St Lucia, Dominica). Headquarters of the Board is at Port of Spain, Trinidad. The monetary unit of the Eastern Caribbean is the B.W.I. dollar, which is equivalent to 4s. 2d. sterling. Coins issued are $\frac{1}{2}$, 1, 2, 5, 10, 25 and 50 cents; notes 1, 2, 5, 10, 20 and 100 dollars.

On 1 April 1963, \$93,012,645 notes and \$5,069,551 coins were in circulation; demonetized government notes outstanding totalled \$968,622.

BARBADOS

CONSTITUTION AND GOVERNMENT. Barbados was occupied by the British in 1627 and has never changed hands. Since the attainment of full internal self-government on 16 Oct. 1961, the Executive Council has been replaced by a Privy Council; the Judicial and Legal Service Commission and Public Service Commission have full executive powers with regard to appointments and discipline. The Cabinet system was inaugurated on 2 Jan. 1958. There is a Legislative Council of 12 members (appointed by the Queen) and a House of Assembly of 24 members elected quinquennially.

State of parties in the House of Assembly in Feb. 1964: 14 Democratic Labour Party, 4 National Party, 3 Labour Party and 3 Independents.

Governor: Sir John Stow, KCMG (appointed Oct. 1959).

Premier: Errol Walton Barrow.

AREA AND POPULATION. Barbados lies to the east of the Windward Islands. Area 166 sq. miles (430 sq. km). The hot and rainy seasons last from June to December, and the average rainfall is 61 in. per year. On 31 Dec. 1961 the estimated population was 241,706. Births (1961), 6,754; deaths, 3,410. Bridgetown is the principal city; population, 11,289.

RELIGION. The majority (c. 70%) of the population are Anglicans, the remainder mainly Methodists and Moravians.

EDUCATION. There are 116 primary schools, 5 secondary modern schools and 10 secondary grammar schools entirely maintained by Government funds. At the end of the school year 1962-63 children in primary schools numbered 40,952 (20,508 boys, 20,444 girls); in secondary modern schools, 5,241 (2,629 boys, 2,612 girls); in secondary grammar schools, 4,523 (2,664 boys, 1,859 girls). All secondary education in government-aided schools was granted free in 1962. Erdiston Training College for teachers provides a one-year emergency residential training course for 82 teachers, including 28 from the Windward and Leeward Islands and, from Sept. 1962, an additional 2-year course (attended by 35 students, 6 of whom from Dominica). Government expenditure on education during 1962-63 was \$5,732,397.

Newspapers (1963). There are 2 daily newspapers (average combined daily circulation 261,000), 2 weekly (combined circulation 8,000), one bi-weekly (circulation 20,930).

Cinemas. There are 7 cinemas with a seating capacity of 5,337 and a drive-in cinema for 200 cars.

JUSTICE. Justice is administered by the Supreme Court and by magistrates' courts. All have both civil and criminal jurisdiction. There is a Chief Justice and 2 puisne judges of the Supreme Court and 8 magistrates.

PRODUCTION. *Agriculture.* Of the total area of 106,240 acres, about 68,875 are under cultivation. The staple produce is sugar. In 1963, 49,037 acres were under sugar-cane, which produced 160,697 long tons of sugar (including the equivalent of 2,273,090 wine gallons of fancy molasses). There are 20 sugar and molasses plants and 3 rum distilleries in production.

Fishery. There are 483 powered boats and 1,450 men and 1,000 women are employed during the flying fish season. Large numbers of these boats are laid up from July to October. The annual catch is about 7m. lb. valued at \$1.5m.

FINANCE AND TRADE. The fiscal year runs from 1 April to 30 March; accounts in £ sterling.

LEEWARD AND WINDWARD ISLANDS

MINISTERIAL government was introduced in the 7 territories of the Leeward and Windward Islands in 1956. A new constitution for the 7 federated territories of the Leeward and Windward Islands was introduced 1 Jan. 1960: The two posts of Governor were abolished. The Administrators of the territories are now appointed by H.M. the Queen.

Each Legislative Council (except that of Montserrat where the Administrator presides) is presided over by a Speaker elected from among members of the Council or from outside. Subject to the variations set out in brackets, the Council comprises 10 elected members (Dominica 11, St Vincent 9, Montserrat 7), 2 nominated members (Montserrat 1) and the Principal Law Officer *ex officio* (Montserrat: also the Financial Secretary).

Each Executive Council consists of a Chief Minister, 3 other Ministers (Montserrat 2) and 1 other member appointed by the Administrator on the advice of the Chief Minister from the unofficials of the Legislative Council, and the Principal Law Officer *ex officio* (Montserrat: also the Financial Secretary). The Chief Minister is appointed by the Administrator from the elected members of the Legislative Council. The other Ministers are appointed by the Administrator after consultation with the Chief Minister.

The Governors were formerly responsible for the Public Service Commission: this responsibility has now devolved upon the Administrator acting after consultation with his local advisory Public Service Commission.

There are a single Judicial and Legal Service Commission and a single Police Service Commission.

There are 2 separate police forces in the Leewards: one for St Kitts-Nevis-Anguilla and the other for Antigua-Montserrat-Virgin Islands. There is a police force in each territory of the Windward Islands.

Report by the Leeward and Windward Islands Constitutional Conference, 1961. (Cmd 1434)

Leeward Islands. The group, which lies to the north of the Windward group, and south-east of Puerto Rico, consists of the 4 territories of Antigua (with Barbuda and Redonda), St Christopher-Nevis-Anguilla, Montserrat and the Virgin Islands.

The chief products are sugar and molasses (Antigua and St Kitts), cotton (Antigua, Montserrat, St Kitts-Nevis), limes and fruits, vegetables, cotton seed (Montserrat), salt (Anguilla and St Kitts) and livestock, fish, vegetables, fruit and charcoal (Virgin Islands).

Leeward Islands: an Economic Survey. Barclays Bank, London, 1960

Antigua. Area, 108 sq. miles (280 sq. km); the islands of Barbuda (62 sq. miles, 160 sq. km) and Redonda (1 sq. mile) are dependencies; population in 1962 was 65,100. Chief town, St John's, 13,000. In 1962 the birth rate per 1,000 was 32.5, the death rate 7.4; there were 191 marriages.

In Nov. 1940 sites near Parham were leased to the USA as military and naval bases; in Dec. 1960, 900 acres including Coolidge airfield were released; 300 acres are being retained for 17 years.

Administrator: D. J. G. Rose, MBE.

Chief Minister: V. C. Bird.

Education. There are 33 government elementary schools, 3 denominational and 5 private schools; and 4 grant-aided, 3 denominational and 1 undenominational secondary schools; and 2 government secondary schools.

Finance and Trade. Revenue (1962), \$10,278,944 (including colonial development and welfare); expenditure, \$9,165,726. The estimated budget for 1962 showed a surplus of \$84,343. CANADA

HISTORY. The territories which now constitute Canada came under British power at various times by settlement, conquest or cession. Nova Scotia was occupied in 1628 by settlement at Port Royal, was ceded back to France in 1632, and was finally ceded by France in 1713, by the Treaty of Utrecht; the Hudson's Bay Company's charter, conferring rights over all the territory draining into Hudson Bay, was granted in 1670; Canada, with all its dependencies, including New Brunswick and Prince Edward Island, was formally ceded to Great Britain by France in 1763; Vancouver Island was acknowledged to be British by the Oregon Boundary Treaty of 1846, and British Columbia was established as a separate colony in 1858. As originally constituted, Canada was composed of the provinces of Upper and Lower Canada (now Ontario and Quebec), Nova Scotia and New Brunswick. They were united under the provisions of an Act of the Imperial Parliament known as 'The British North America Act, 1867', which came into operation on 1 July 1867 by royal proclamation. The Act provides that the constitution of Canada shall be 'similar in principle to that of the United Kingdom'; that the executive authority shall be vested in the Sovereign, and carried on in his name by a Governor-General and Privy Council; and that the legislative power shall be exercised by a Parliament of two Houses, called the 'Senate' and the 'House of Commons'. The present position of Canada in the British Commonwealth of Nations was defined at the Imperial Conference of 1926 (*see p. 55*).

On 30 June 1931 the House of Commons approved the enactment of the Statute of Westminster emancipating the Provinces as well as the Dominion from the operation of the Colonial Laws Validity Act, and thus removing what legal limitations existed as regards Canada's legislative autonomy. The statute received the royal assent on 12 Dec. 1931.

Provision was made in the British North America Act for the admission of British Columbia, Prince Edward Island, the Northwest Territories and Newfoundland into the Union. In 1869 Rupert's Land, or the Northwest Territories, was purchased from the Hudson's Bay Company; the province of Manitoba was erected from this territory and admitted into the confederation on 15 July 1870. On 20 July 1871 the province of British Columbia was admitted, and Prince Edward Island on 1 July 1873. The provinces of Alberta and Saskatchewan were formed from the provisional districts of Alberta, Athabaska, Assiniboia and Saskatchewan, and admitted on 1 Sept. 1905. Newfoundland formally joined Canada as its tenth province on 31 March 1949.

In Feb. 1931 Norway formally recognized the Canadian title to the Sverdrup group of Arctic islands. Canada thus holds sovereignty in the whole Arctic sector north of the Canadian mainland.

CONSTITUTION AND GOVERNMENT

The members of the Senate are nominated for life by summons of the Governor-General under the Great Seal of Canada. As a result of Newfoundland's admission the Senate now consists of 102 senators, namely, 24 from Ontario, 24 from Quebec, 10 from Nova Scotia, 10 from New Brunswick, 4 from Prince Edward Island, 6 from Manitoba, 6 from British Columbia, 6 from Alberta, 6 from Saskatchewan and 6 from Newfoundland. Each senator must be at least 30 years of age, a born or naturalized British subject, and must reside in, and be possessed of property, real or personal, to the value

of \$4,000 within the province for which he is appointed. The House of Commons is elected by the people, for 5 years, unless sooner dissolved. The British North America Act, 1867, provided that the province of Quebec shall have, in the Canadian Parliament, a fixed representation of 65 seats and all other provinces shall be represented proportionately according to their population, these figures to be readjusted after each decennial census. The twenty-sixth Parliament, elected on 8 April 1963, comprised 265 members, with the representation as follows: 85 for Ontario, 75 for Quebec, 12 for Nova Scotia, 10 for New Brunswick, 14 for Manitoba, 22 for British Columbia, 4 for Prince Edward Island, 17 for Saskatchewan, 17 for Alberta, 1 for Yukon Territory, 1 for Northwest Territories and 7 for Newfoundland. Voting is by ballot. Women have the vote and are eligible.

State of parties in the Senate (March 1964): Liberals, 59; Progressive Conservatives, 34; smaller parties, 3; vacant, 6; total 102.

State of the parties in the House of Commons after the election of 11 Feb. 1964: Liberals, 129; Progressive Conservatives, 95; Social Credit, 11; Social Credit Rally, 13; New Democratic Party, 17; total, 265.

The following is a list of Governors-General of Canada:

Governor-General: General The Rt. Hon. Georges Philias Vanier, DSO, MC (sworn in 15 Sept. 1959).

The office and appointment of the Governor-General are regulated by letters patent, signed by the King on 8 Sept. 1947, which came into force on 1 Oct. 1947. He is assisted in his functions, under the provisions of the Act of 1867, by a Privy Council composed of Cabinet Ministers.

The following is the list of the Liberal Cabinet as on 11 Feb. 1964, in order of precedence, which in Canada attaches generally rather to the person than to the office:

- Prime Minister:* Rt. Hon. Lester Bowles Pearson.
- Secretary of State for External Affairs:* Paul Joseph James Martin.
- Minister of Transport:* John Whitney Pickersgill.
- Minister of National Defence:* Paul Theodore Hellyer.
- Minister of Finance and Receiver-General:* Walter Lockhart Gordon.
- Minister of Trade and Commerce:* Mitchell Sharp.
- President of the Privy Council:* George James McIlraith.
- Minister of Mines and Technical Surveys:* William Moore Benidickson.
- Minister of Northern Affairs and National Resources:* Arthur Laing.
- Secretary of State of Canada:* Maurice Lamontagne.
- Associate Minister of National Defence:* Lucien Cardin.
- Minister of Labour:* Allan Joseph MacEachen.
- Minister of Public Works:* Jean-Paul Deschatelets.
- Minister of Fisheries:* Hedard Robichaud.
- Solicitor-General:* J. Watson MacNaught.
- Minister of Veterans Affairs:* Roger Teillet.
- Minister of National Health and Welfare:* Judy V. LaMarsh.

Minister of Industry and Minister of Defence, Production: Charles Mills Drury.

Minister of Justice and Attorney-General: Guy Favreau.

Postmaster General: John Robert Nicholson.

Minister of Agriculture: Harry Hays.

Minister of Citizenship and Immigration: René Tremblay.

Minister without Portfolio and Leader of the Senate: John Joseph Connolly.

Minister of Forestry: Maurice Sauvé.

Minister without Portfolio: Yvon Dupuis.

The sessional allowance of a member of Parliament is \$12,000. The remuneration of a Cabinet Minister is \$15,000 (and of the Prime Minister \$25,000) a year in addition to the sessional indemnity. A Cabinet Minister is also entitled to a motor-car allowance of \$2,000. The Leader of the Opposition in the House of Commons receives an annual allowance of \$15,000 in addition to the sessional indemnity. The Speakers of the Senate and the House of Commons receive, in addition to their sessional indemnity of \$12,000, a salary of \$9,000 and motor-car allowance of \$1,000, and are also entitled to an allowance of \$3,000 in lieu of residence. Members of the House of Commons receive \$6,000 and of the Senate \$3,000 per annum as an expense allowance, which is not subject to income tax except in the case of Ministers and the Leader of the Opposition, and of members of the Senate. An allowance of \$4,000 is given to each leader of a party with more than 12 members other than Prime Minister and Leader of the Opposition, and to the Chief Government and Opposition Whips.

An Act to provide retiring allowances, on a contributory basis, to members of the House of Commons was given the Royal Assent on 4 July 1952. This Act was amended in July 1963; a member can now opt for a reduced retiring allowance in favour of an additional allowance for his widow; and provision has been made for retiring allowance for former Prime Ministers and their widows.

EDUCATION

By the British North America Act each provincial government is responsible for its education system. While each system differs from the others in particulars, the general plan is the same for all except Quebec, where there are two systems, the Roman Catholic, which is of the French tradition, and the Protestant, which is of the English tradition of the other 9 provinces. Separate elementary schools for minority groups, mainly Roman Catholic, operating within the provincial system are found in most provinces. Secondary education in these provinces is non-sectarian. Though administration of the schools in Newfoundland has a denominational basis, they are not exclusive and a number are non-denominational. In general, education is free to the end of the secondary level. The principal sources of revenue are provincial government grants and direct taxation for school purposes. Except in Quebec the number of private schools is small; their enrolment was over 4% of the total in elementary and secondary grades.

The federal government provides a special school system for the Indian and Eskimo youth, of whom 37,752 were enrolled in its schools in 1962-63.

In 1962-63, 141,388 full-time regular students enrolled in 40 degree-granting institutions, other than purely theological institutions, and 335 affiliated or independent colleges. Some 74,665 enrolled in arts and science, 15,200 in engineering, 8,200 in commerce and business, 4,850 in medicine, 3,000 in law and the remainder in more than 100 other fields. Another 44,000 or more students were enrolled in

JUSTICE

There is a Supreme Court in Ottawa, having appellate, civil and criminal jurisdiction in and throughout Canada. There is an Exchequer Court, which is also a Court of Admiralty. There is a Superior Court in each province and county courts, with limited jurisdiction, in most of the provinces, all the judges in these courts being appointed by the Governor-General. Police magistrates and justices of the peace are appointed by the provincial governments. Police force, *see* p. 230.

For the year ended 31 Dec. 1961 total convictions of adults for indictable offences were 71,262; total offences punishable on summary conviction amounted to 3,109,283. The number of juvenile delinquents convicted of major and minor offences was 15,215 in 1961.

SOCIAL WELFARE

Family allowances are provided by the federal government to the parents of all children under 16 years of age at the following rates: Children under 10 years of age, \$6; aged 10 to 15, \$8. Provincial governments provide allowances on behalf of needy mothers and their dependent children.

Old-age security is paid by the federal government to all citizens of Canada 70 years of age or over. The monthly rate of the pension is \$75. The federal and provincial governments co-operate in providing assistance to persons in need who are aged 65-69, and to those aged 18 and over who are disabled or blind.

Legislation setting up a national hospital insurance and diagnostic services plan whereby the federal government will share with the provinces the cost of standard ward hospital care and diagnostic services was passed in 1957. Agreements to bring the plan into operation have been signed with all provinces. Medical care to low income groups has been provided for some years through provincial schemes in British Columbia and Saskatchewan and somewhat more limited plans have been in effect in Alberta and Newfoundland.

Other welfare programmes to meet local needs are operated by the provinces and municipalities.

Social Insurance. The Canadian Unemployment Insurance Act came into operation on 1 July 1941. At first no person who received more than \$2,000 per year was covered, but by an amendment to the Unemployment Insurance Act, which came into effect on 1 Sept. 1943, all employees paid on a contractual basis of an hourly, daily, weekly or piece rate (including a mileage rate) are now included in insurable employment regardless of the amount of their earnings, together with all other employees who received \$4,800 or less per year under weekly, monthly or yearly rates.

From 1 July 1941 to 31 March 1963 employers and employees paid \$3,203,855,039 into the fund and the federal government added \$640,772,590. The expenditure for benefit payments amounted to \$4,109,066,790.

DEFENCE

All matters relating to defence are the responsibility of the Minister of National Defence. Under his direction the Chiefs of Staff for the Navy, the Army and the Air Force are responsible for the control and administration of their respective Services. The Chairman of the Defence Research Board is responsible to the Minister for defence research and development and related matters.

ARMY. The Canadian Army comprises the Canadian Army (Regular) and the Reserves. The Regular Army consists of a field force of 4 Infantry Brigade Groups, and training, logistic support and headquarters units. One of the Infantry Brigade Groups is stationed in Europe as part of NATO Forces and is under command of the Supreme Allied Commander in Europe (SACEUR). Forces in Canada are organized into 4 Commands and 10 Military Areas, with Army Headquarters at Ottawa, Ontario.

The Reserves include the Canadian Army (Militia), the Regular Reserve, the Supplementary Reserve, the Canadian Officers' Training Corps, the Cadet Services of Canada and the Reserve Militia. Additional, but not an integral part of the Canadian Army, are Services Colleges, officially authorized cadet corps, rifle associations and clubs.

The Canadian Army provides personnel for the UN Emergency Forces in

the Middle East and for service with the UN Force in the Congo. Military observers and members of truce teams are provided in Vietnam, Laos, Cambodia and Kashmir in compliance with UN or other international commitments.

The Canadian Army (Regular) is responsible for maintenance of the Northwest Highway System which consists of 1,138 miles of the Alaska Highway, 117 miles of the Haines Road, access roads to airports and emergency airfields. It also provides postal service, dental service and medical supplies for the Royal Canadian Navy and the Royal Canadian Air Force.

Strength of the Canadian Army (Regular) on 31 March 1963 was 49,760 officers and men; strength of the Army (Militia) was 53,872.

NAVY. The Royal Canadian Navy is administered by Naval Headquarters in Ottawa through principal commands at Halifax, N.S., and Esquimalt, B.C., and the Royal Canadian Naval Reserve through a command at Hamilton, Ontario.

RCN strength in ships, active and reserve, comprises 1 aircraft carrier (*Bonaventure*, ex-*Powerful*, completed in 1957, standard displacement 16,000 tons, 21 aircraft, 8 3-in. guns, 40,000 shaft h.p., speed 24½ knots); 28 destroyer escorts, 1 submarine, 17 frigates, 10 coastal minesweepers, 2 escort maintenance ships, 4 survey ships, 3 patrol craft, 2 cable layers, 5 gate vessels, 1 new 22,000-ton fleet replenishment ship, 4 supply vessels, 2 oilers, 10 tenders and 34 tugs.

Under construction are 2 destroyer escorts in Canada and 3 submarines in Great Britain. Eight projected large general-purpose frigates, armed with guided missiles, have been cancelled.

In fulfilment of Canada's NATO commitments, the RCN has 30 warships earmarked for the NATO naval forces under control of the Supreme Allied Commander, Atlantic (SACLANT).

On 31 March 1963 the strength of the Regular Force was 21,476, and that of the Reserves was 3,583.

The Navy estimates amounted to \$280.5m. in 1958-59, \$287.5m. in 1959-60, \$271.3m. in 1960-61, \$279.9m. in 1961-62, \$287.5m. in 1962-63.

The Canadian Coast Guard (formed in 1962) comprises the arctic patrol vessel (helicopter carrier and icebreaker) *Labrador*, 3 weather-ships (ex-frigates), 9 full icebreakers, 9 light icebreakers, a special arctic service vessel, 9 supply vessels (former landing craft) and 164 other vessels.

AIR FORCE. The Royal Canadian Air Force is administered by Air Force Headquarters at Ottawa through: Air Defence Command, St Hubert, P.Q.; 5 Air Division, Victoria, B.C.; 1 Air Division at Metz, France; Air Transport Command, Trenton, Ont.; Air Materiel Command, Rockcliffe, Ont.; Maritime Air Command, Halifax, N.S.; Training Command, Winnipeg, Man.

On 31 March 1963 the RCAF had 30 squadrons in service—19 Regular and 11 Auxiliary. In Canada there were 3 CF-101B Voodoo interceptor squadrons and 2 squadrons of Super Bomarc long-range surface-to-air missiles with nuclear warheads, fully integrated with the USAF; 4 maritime patrol squadrons (3 Argus, 1 Neptune), 4 transport squadrons, and several communications, search and rescue units. In Europe, under NATO, there are now 8 CF-104 strike-reconnaissance squadrons. The RCAF also trains airmen for other NATO nations.

On 31 March 1963 strength of the RCAF (Regular) was 52,458 and the Auxiliary, 2,223.

DEFENCE RESEARCH BOARD. The Defence Research Board is to make available for the defence of Canada the scientific resources of this country to

the defence forces and to co-ordinate Canadian scientific efforts of its defence capabilities with developments in allied countries. The Board consists of a full-time Chairman and Vice-Chairman, 5 *ex-officio* members and 9 other members who are appointed on a term basis from industry and the universities. The *ex-officio* members are the 3 Chiefs of Staff, the Deputy Minister of National Defence, the President of the National Research Council and a representative from the Department of Defence Production.

MUTUAL AID. Canada's Mutual Aid Programme, since its inception in April 1950, has provided military assistance to her NATO allies to an estimated total value of \$1,750m. The principal elements in the Programme are the transfers of equipment from Service stocks and from current production, and the training in Canada of aircrew from other NATO countries; also included are Canada's contributions to NATO common infrastructure programmes and for the budgets of the NATO military headquarters and the NATO International Staff Secretariat.

ROYAL CANADIAN MOUNTED POLICE. The Royal Canadian Mounted Police is a civil force maintained by the federal government. It was organized in 1873, and then known as the North West Mounted Police, to provide police protection in the unsettled portions of the north-west. In 1904 the title 'Royal' was given to the force. In 1920 the Dominion Police was amalgamated with it and the name was changed to the Royal Canadian Mounted Police. The headquarters was moved from Regina to Ottawa, and the force may now be called upon to perform duties in any portion of Canada. In 1928 the Royal Canadian Mounted Police absorbed the Saskatchewan Provincial Police, and in 1932 the Provincial Police Forces of Alberta, Manitoba, New Brunswick, Nova Scotia and Prince Edward Island. During 1932 the Force also assumed the administration of the Preventive Service Branch of the Department of National Revenue. In Aug. 1950 the Royal Canadian Mounted Police absorbed the Newfoundland Rangers and selected members of the Newfoundland Constabulary whose duties are outside the City of St John's. The British Columbia Provincial Police were also absorbed by the Royal Canadian Mounted Police in 1950.

The term of engagement in the Royal Canadian Mounted Police is 5 years. Recruits are trained at Regina, Sask., and Ottawa, Ont.

At 31 March 1963 the Force had a strength of 173 officers, 6,331 non-commissioned officers and constables, 111 marine constables, 232 special constables, 249 civilian members and 181 civilian employees. It maintained 1,871 motor vehicles, 25 police service dogs, 184 sleigh dogs and 237 horses.

The force has a Marine Division with headquarters at Ottawa and establishments at Halifax, NS, and Esquimalt, BC. It is comprised of 71 ships and boats which operate on the east and west coasts, the Great Lakes and St Lawrence River.

Air Division, with headquarters at Ottawa, has 18 aircraft, which are stationed throughout Canada.

PRODUCTION

Agriculture. Though the manufacturing industries now predominate, Canada is largely agricultural, and among her natural resources arable lands stand unrivalled. It is estimated that about 48% of the total land area is forested; according to the census of 1961, 269,611 sq. miles (less than 8% of the total land area) is classed as occupied agricultural land. Grain growing, dairy farming, fruit farming, ranching and fur farming are all carried on successfully. The following table shows the estimated value of agricultural production for 1962, in \$1,000 Canadian:

Field crops . . .	1,800,799	Eggs . . .	152,797	Fruits . . .	58,572
Farm animals . . .	1,948,534	Poultry meat . . .	162,974	Maple products . . .	10,580
Milk production . . .	622,365	Poultry . . .	89,000	Honey . . .	5,306
Butter, creamery . . .	197,017	Tobacco . . .	95,904	Wool . . .	2,833

Number of occupied farms (census of 1961) was 480,903.

Irrigation. Large-scale irrigation in Canada began with the passing of the North West Irrigation Act, 1894. With the transfer of the natural resources in 1931, the administration of water rights, excepting international streams, became a provincial responsibility. The Prairie Farm Rehabilitation Act, 1935, marked the beginning of a new phase whereby the Dominion Government was to undertake construction of large irrigation works, to provide assistance for individual projects, as well as to conduct surveys and prepare plans. About 1.5m. acres have been or are being developed out of a potentially irrigable 3m. acres.

Irrigation projects are in operation in Alberta with an irrigable area of about 1m. acres, when completed; the St Mary and Milk Rivers Project alone will irrigate about 510,000 acres. A total of 216,000 acres of land are irrigated in British Columbia, mainly for the growing of small fruits and vegetables and for dairying. A Conservation and Development Branch was established 1 April 1949, in Saskatchewan, where by March 1959, 125,708 acres of topographic surveys and 242 miles of strip topographic survey were completed on irrigation projects. Construction of the South Saskatchewan River project began in 1959; it is to irrigate 500,000 acres. Other projects are being developed in Manitoba (Wilson Creek, Assiniboine dam, etc.).

Field Crops. In 1962, 60.86m. acres were under principal field crops, those most widely cultivated being wheat, oats, barley, rye, flaxseed and tame hay. The following are the estimates of Nov. 1963 for acreage and yield of grain crops for the year 1963:

Provinces	Wheat		Oats		Barley

the defence forces and to co-ordinate Canadian scientific efforts of its defence capabilities with developments in allied countries. The Board consists of a full-time Chairman and Vice-Chairman, 5 *ex-officio* members and 9 other members who are appointed on a term basis from industry and the universities. The *ex-officio* members are the 3 Chiefs of Staff, the Deputy Minister of National Defence, the President of the National Research Council and a representative from the Department of Defence Production.

MUTUAL AID. Canada's Mutual Aid Programme, since its inception in April 1950, has provided military assistance to her NATO allies to an estimated total value of \$1,750m. The principal elements in the Programme are the transfers of equipment from Service stocks and from current production, and the training in Canada of aircrew from other NATO countries; also included are Canada's contributions to NATO common infrastructure programmes and for the budgets of the NATO military headquarters and the NATO International Staff Secretariat.

ROYAL CANADIAN MOUNTED POLICE. The Royal Canadian Mounted Police is a civil force maintained by the federal government. It was organized in 1873, and then known as the North West Mounted Police, to provide police protection in the unsettled portions of the north-west. In 1904 the title 'Royal' was given to the force. In 1920 the Dominion Police was amalgamated with it and the name was changed to the Royal Canadian Mounted Police. The headquarters was moved from Regina to Ottawa, and the force may now be called upon to perform duties in any portion of Canada. In 1928 the Royal Canadian Mounted Police absorbed the Saskatchewan Provincial Police, and in 1932 the Provincial Police Forces of Alberta, Manitoba, New Brunswick, Nova Scotia and Prince Edward Island. During 1932 the Force also assumed the administration of the Preventive Service Branch of the Department of National Revenue. In Aug. 1950 the Royal Canadian Mounted Police absorbed the Newfoundland Rangers and selected members of the Newfoundland Constabulary whose duties are outside the City of St John's. The British Columbia Provincial Police were also absorbed by the Royal Canadian Mounted Police in 1950.

The term of engagement in the Royal Canadian Mounted Police is 5 years. Recruits are trained at Regina, Sask., and Ottawa, Ont.

At 31 March 1963 the Force had a strength of 173 officers, 6,331 non-commissioned officers and constables, 111 marine constables, 232 special constables, 249 civilian members and 181 civilian employees. It maintained 1,871 motor vehicles, 25 police service dogs, 184 sleigh dogs and 237 horses.

The force has a Marine Division with headquarters at Ottawa and establishments at Halifax, NS, and Esquimalt, BC. It is comprised of 71 ships and boats which operate on the east and west coasts, the Great Lakes and St Lawrence River.

Air Division, with headquarters at Ottawa, has 18 aircraft, which are stationed throughout Canada.

PRODUCTION

Agriculture. Though the manufacturing industries now predominate, Canada is largely agricultural, and among her natural resources arable lands stand unrivalled. It is estimated that about 48% of the total land area is forested; according to the census of 1961, 269,611 sq. miles (less than 8% of the total land area) is classed as occupied agricultural land. Grain growing, dairy farming, fruit farming, ranching and fur farming are all carried on successfully. The following table shows the estimated value of agricultural production for 1962, in \$1,000 Canadian:

Field crops	1,800,799	Eggs	152,797	Fruits	58,572
Farm animals	1,948,534	Poultry meat	162,974	Maple products	10,580
Milk production	622,365	Poultry	89,000	Honey	5,306
Butter, creamery	197,017	Tobacco	95,904	Wool	2,833

Number of occupied farms (census of 1961) was 480,903.

Irrigation. Large-scale irrigation in Canada began with the passing of the North West Irrigation Act, 1894. With the transfer of the natural resources in 1931, the administration of water rights, excepting international streams, became a provincial responsibility. The Prairie Farm Rehabilitation Act, 1935, marked the beginning of a new phase whereby the Dominion Government was to undertake construction of large irrigation works, to provide assistance for individual projects, as well as to conduct surveys and prepare plans. About 1.5m. acres have been or are being developed out of a potentially irrigable 3m. acres.

Irrigation projects are in operation in Alberta with an irrigable area of about 1m. acres, when completed; the St Mary and Milk Rivers Project alone will irrigate about 510,000 acres. A total of 216,000 acres of land are irrigated in British Columbia, mainly for the growing of small fruits and vegetables and for dairying. A Conservation and Development Branch was established 1 April 1949, in Saskatchewan, where by March 1959, 125,708 acres of topographic surveys and 242 miles of strip topographic survey were completed on irrigation projects. Construction of the South Saskatchewan River project began in 1959; it is to irrigate 500,000 acres. Other projects are being developed in Manitoba (Wilson Creek, Assiniboine dam, etc.).

Field Crops. In 1962, 60.86m. acres were under principal field crops, those most widely cultivated being wheat, oats, barley, rye, flaxseed and tame hay. The following are the estimates of Nov. 1963 for acreage and yield of grain crops for the year 1963:

With the discovery of major oilfields in Alberta, the production of petroleum has become a major Canadian industry. In 1951 a 1,150-mile crude-oil pipeline was completed from the oilfields in the Edmonton area to Superior, Wisconsin, USA, on the Great Lakes. It was extended, in 1953, to Sarnia, Ont., an additional 643 miles. It is the longest pipeline in the world. Most of the oil is processed at the Sarnia oil refineries. Another, the Trans Mountain, pipeline, 718 miles long, from Edmonton across the Rockies to Vancouver, B.C., was completed on 15 Oct. 1953. At the end of 1962 Canada's oil pipeline system had 10,037 miles of line in operation. Net oil deliveries in 1962 were 385,294,367 bbls. The Trans-Canada natural gas line is the longest in the world. It brings natural gas from the Alberta-Saskatchewan border across the prairies, through northern Ontario to Toronto, then eastward to Montreal. Natural gas pipeline mileage totalled 35,638 miles in 1961. Production of natural gas in Canada amounted to 946,702,727,000 cu. ft in 1962. (See MAP in THE STATESMAN'S YEAR-BOOK, 1952.)

Fur Trade. In 1961-62 (year ended 30 June), 5,759,819 pelts valued at \$28,938,360, were taken. Mink furs led in total value, followed by beaver, musk-rat, squirrel, white fox, lynx, otter, marten and ermine. Fur auctions are held on a large scale at Montreal, North Bay, Winnipeg, Regina, Edmonton and Vancouver. The more important animals raised on fur farms are mink, fox, nutria and chinchilla. The value of pelts produced from fur farms during the year 1961 was \$18,580,019, of which mink accounted for \$18,405,102 (99.1%). There were in 1961, 2,173 fur farms, of which 61 reported fox and 1,578 mink.

Water Power. Canada is richly endowed with water power resources; on 31 Dec. 1962 the available horse-power at ordinary 6 months' flow was 73,123,000; turbine installation amounted to 27,103,562 h.p. The Central Electric Station industry, which generates 95% of the total electrical output, had a gross production of power valued at \$858,878,000 in 1961. In 1961 there were 4,716,819 domestic and farm customers in Canada, and during that period the amount of electricity consumed domestically was 21,979,672,000 kwh., or 4,460 kwh. per customer.

A treaty signed in Washington on 17 Jan. 1961 provides for the joint development of the Columbia River basin by Canada and the United States. The treaty will run for 60 years. The United States has the option to build the Libby Dam on the Kootenay River in northern Montana within 5 years of ratification. Canada will build 3 dams, at Arrow Lake, Mica Creek and Duncan Lake.

LABOUR

In July-Sept. 1963 the industrial distribution of the employed was estimated as follows (in 1,000): Manufacturing, 1,664; service, 1,703; trade, 1,046; agriculture, 752; construction, 518; transportation, storage and communication, 468; finance, insurance and real estate, 256; mining, quarrying and oilwells, 72; forestry, 85; public utilities, 89; fishing and trapping, 31; total, 6,684, including 271 unemployed.

About 30% of Canada's non-agricultural paid workers belong to trade unions, which had 1,449,200 members in Jan. 1963. Three-quarters of the organized workers are members of unions affiliated with the Canadian Labour Congress, and 7% are in affiliates of another central body, the Confederation of National Trade Unions. More than 1m. of the union members were in international unions, which have branches both in Canada and the United States and in most cases belong to central labour organizations in both countries.

It is generally established by legislation, both federal and provincial, that a trade union to which the majority of employees in a unit suitable for collective bargaining belong, is given certain rights and duties. An employer is required to meet and negotiate with such a trade union to determine wage-rates and other working conditions of his employees. The employer, the trade union and the employees affected are bound by the resulting agreement. If an impasse is reached in negotiation, conciliation services provided by the appropriate government are available. Generally, work stoppages may not take place until an established conciliation procedure has been carried out and are prohibited while an agreement is in effect. Nearly half the workers affected by collective agreements are in the manufacturing industry.

Freedom of association is a civil right in Canada, and under common law workers are at liberty to join unions and participate in their activities. This right has also been guaranteed by statutes which make it an offence to interfere with freedom of association.

Certain specific minimum standards in regard to working conditions are set by law, for the most part by provincial labour legislation. Minimum wages, maximum hours of work or an overtime rate of pay after a specified number of hours, minimum weekly rest periods and annual vacations with pay are established for the majority of workers.

Workmen injured in the course of employment or disabled by industrial disease are required to receive compensation under workmen's compensation laws which apply to most employees except agricultural workers. Benefits during the period of disability for work are set by law at a proportion (now 75%) of the workman's average earnings, subject to a maximum established in each province. Benefits (which also include monthly allowances to dependants in the case of the death of a workman caused by an accident or disease arising out of his employment) are paid out of an accident fund administered by a government board in each province. The fund is made up of contributions from employers according to an annual assessment rate, varying from a few cents to several dollars per \$100 of payroll according to the hazards of the industry.

COMMERCE

The customs tariff of Canada is protective, but there is a preferential tariff in favour of the UK and of the Dominions, and of a number of the Crown Colonies. At the Imperial Economic Conference of 1932, held in Ottawa, the UK developed further the policy of preferential tariffs to the Dominions, and on the part of the latter there was a general lowering of the existing tariffs against certain lines of UK manufactures. Canada is one of the 23 signatories of the Geneva agreement on tariffs and trade, of 1947; and, in addition, has numerous reciprocal tariff arrangements with both Commonwealth and foreign countries.

COMMUNICATIONS

Shipping. The registered shipping on 31 Dec. 1962, including vessels for inland navigation, totalled 22,000 with a gross tonnage of 2,810,111. The sea-going and coasting vessels that entered Canadian ports during the year ending 31 Dec. 1962 were as follows: Foreign service vessels, 30,269; 81,942,501 tons. Coasting service vessels, 112,325; 87,767,018 tons. Total, vessels, 142,594; 169,709,519 tons.

The major canals in Canada are those of the St Lawrence-Great Lakes waterway with their 7 new locks, providing navigation for vessels of 25-ft draught from Montreal to Lake Ontario; the Welland Canal by-passing the Niagara River between Lake Ontario and Lake Erie with its 8 locks; and the Sault Ste Marie Canal and lock between Lake Huron and Lake Superior. These 16 locks overcome a drop of 582 ft from the head of the lakes to Montreal. The St Lawrence Seaway was opened to navigation on 25 April 1959 (see MAP in THE STATESMAN'S YEAR-BOOK, 1957).

Net amount of payments of steamship subventions for maintenance of coastal and inland water shipping services were \$8,264,740 in the year ended 31 March 1963. The value of fixed assets administered by the National Harbours Board was \$392,214,380 at 31 Dec. 1962. In 1962, 22,836 vessels, of 53,510,800 tons, passed through the Canadian canals, carrying 63,568,291 tons of freight, chiefly grain, petroleum products, iron ore and coal.

Railways. The total first maintrack mileage of railways in Canada on 31 Dec. 1962 was 43,654. The total mileage, including second maintrack, yardtrack and sidings, was 58,759.

Canada has 2 great trans-continental systems: the Canadian National Railways, a government-owned body which operates 22,923 miles of the total first-main track, and the Canadian Pacific Railway Company, a joint-stock corporation with first-main track totalling 16,329 miles.

Selected statistics of Canadian railways for 1962: Passengers carried, 19.3m.; revenue freight, 67,937m. ton-miles; freight revenue, \$1,020m.; total railway operating revenues, \$1,165m.

Urban transit. In 1962 urban transit systems (motor bus, trolley coach, street car and subway operations) operated 7,386 vehicles and carried 995,169,878 initial revenue fare passengers over 202,445,806 vehicle-miles for a gross revenue of \$141,608,500. Operating expenses totalled \$141,620,749. Total assets were \$292,158,071 and long-term debt was \$176,600,938. The 29 municipal transit systems had a net operating loss of

\$825,994, while the 52 privately operated systems reporting declared a net operating revenue of \$813,745.

Roads. The total highway mileage in Canada in 1962 was 437,137. Of this total, 291,303 miles were surfaced and 145,834 miles improved and other earth roads. Expenditure (1961-62) on roads, bridges, ferries, etc., reached a total of \$777,432,336. Provincial governments supplied \$632,145,762 towards this sum, with the remainder contributed by federal, municipal and other sources. Federal expenditures were chiefly devoted towards the upkeep of national-park roadways and nationally owned bridges and ferries, although in the building of the 'Mackenzie Highway' from Grimshaw, Alberta, to Hay River, N.W.T., the federal government paid about 68% of the total cost. In general, however, highways are provincially controlled and maintained, and the responsibility of assisting municipalities and townships falls directly on the provinces.

The Alaska Highway is part of the Canadian highway system. For the Trans-Canada Highway see MAP in THE STATESMAN'S YEAR-BOOK, 1962.

Registered motor vehicles totalled 5,774,810 in 1962; they included 4,531,384 passenger cars and taxis, 1,210,325 commercial vehicles and 33,101 motor cycles.

Post. On 31 March 1963 there were 11,336 post offices. Gross revenue, \$222,299,804; expenditure, \$218,872,339. There were also 5,640 rural mail delivery routes, on which were erected 645,115 boxes.

Steamship subventions for the year ended 31 March 1963 amounted to \$8,264,740. This represents the payments by the Canadian Maritime Commission for coastal and inland-water shipping services, including the conveyance of mail on certain routes.

There were 536,331 miles of telegraph wire in Canada in 1962 (exclusive of 5,065,326 miles of multiple channels) and 25,023 miles of cable to foreign stations, with 3,605 offices. There were 28,930,413 miles of telephone wire and 6,329,448 telephones on 31 Dec. 1962 (33.7 per 100 population).

Wireless Communications. There were 252 standard broadcast band stations operating in Canada on 1 Jan. 1964, of which 27 were Canadian Broadcasting Corporation stations and 225 were privately owned stations. In addition, there were 46 short-wave stations, 40 of which were CBC and 6 privately owned, together with 5 CBC and 41 privately owned frequency-modulation stations. Of the 190 television stations, 33 were owned by the CBC and 157 privately owned. Radio and television licence fees were abolished in 1953.

Wireless 'beam' stations are operated at Montreal for direct communications with Great Britain and Australia, and a station at Louisburg, N.S., provides a long-distance service to ships.

Aviation. The Division of the Controller of Civil Aviation is under the jurisdiction of the Director of Air Services, Branch of the Department of Transport, and is responsible for the administration of the air regulations; the location, equipment and maintenance of airways and airports; aeronautical engineering; the licensing of municipal and private aerodromes, and the supervision of flying clubs. The branch is divided into 3 divisions, namely, Civil Aviation, Telecommunication and Meteorological. Three new airport control towers were added in 1960 at Halifax, Edmonton and Fredericton. Landings and take-off controlled by the Department of Transport's 31 towers totalled 2,237,413 in 1962-63. The number of radio stations in 1963 was 98,485.

Canadian air carriers transported 5,268,799 revenue passengers in 1962. There were carried by air 236,578,000 lb. of revenue, including freight and 38,431,000 lb. of mail.

Established by Act of Parliament in April 1937, the Trans-Canada Air Lines system, Canada's national air service, now spans the continent from Newfoundland to Vancouver Island. On 1 May 1947 Trans-Canada Air Lines (Atlantic), Ltd, assumed responsibility for the operation previously provided by the Canadian Government Trans-Atlantic Air Service. In 1962, 3,865,408 revenue passengers were flown on all services routes. A total of 12,862,000 mail-ton miles were flown and 301,506,000 revenue-ton miles, including air express, goods and excess baggage. During 1962 Trans-Canada Air Lines flew 2,659.6m. passenger-miles. At 31 Dec. 1962 scheduled services of Trans-Canada Air Lines extended over 35,246 miles.

MONEY AND BANKING

The British North America Act confers the jurisdiction over currency and banking to the Federal Government.

Currency. The denominations of money in the currency of Canada are dollars and cents. The cent is one-hundredth part of a dollar. Subsidiary coins of the denominations of 1, 5, 10, 25 and 50 cents and \$1 are in use. The monetary standard is gold of 900 millesimal fineness (23.22 grains of pure gold equal to 1 gold dollar). The Currency Act provides for gold coins in the denominations of \$5, \$10 and \$20, which are legal tender. The British and US gold coins are also legal tender, but only at the par rate of exchange. The legal equivalent of the British sovereign is \$4.86 $\frac{2}{3}$.

The Bank of Canada has the sole right to issue paper money for circulation in Canada. Restrictions introduced by the 1944 revisions of the Bank Act cancelled the right of chartered banks to issue or re-issue notes after 1 Jan. 1945; and in Jan. 1950 the chartered banks' liability for such of their notes issued for circulation in Canada as then remained outstanding was transferred to the Bank of Canada in return for payment of a like sum to the Bank of Canada.

On 2 May 1963 the Canadian dollar was stabilized at 92.50 US cents. The value of the US\$ in Canadian funds was 107.93 cents at the end of 1962.

The Bank of Canada issues notes, which are legal tender, in denominations of \$1, \$2, \$5, \$10, \$20, \$50, \$100, \$500 and \$1,000. They may be issued in any amount, so long as the bank maintains a reserve in gold coin or bullion of at least 25% of its note and deposit liability. Under the terms of the Bank of Canada Act, the bank is required to sell gold in bars of 400 oz. to any person tendering legal tender. This obligation is at the present time suspended by Order-in-Council. The exportation of gold from Canada is prohibited except by licence issued by the Minister of Finance to the Bank of Canada or a chartered bank.

The Ottawa Mint was established in 1908 as a branch of the Royal Mint, in pursuance of the Ottawa Mint Act, 1901. In Dec. 1931 control of the Mint was passed over to the Canadian Government, and since that time has operated as the Royal Canadian Mint. The Mint issues silver, nickel, bronze and steel coins for circulation in Canada. No gold coins have been struck since 1919. In 1935, on the occasion of His Majesty's Silver Jubilee, the Royal Canadian Mint issued the first Canadian silver dollars. Commemorative dollars were also issued in 1939 on the occasion of the visit of King George VI and Queen Elizabeth to Canada, and in 1949, when Newfoundland became the tenth Province of Canada. The dollar bearing the design of the canoe manned by an Indian and a Voyageur has been issued in the years 1936-38, 1945-48, and 1950-51. Gold refining is one of the principal activities of the Mint.

In 1962, 3,488,974 fine oz. of gold were received for treatment, and 3,520,406 fine oz. of bullion was issued. Coin issued: Bronze, \$2,284,925; silver, \$16,114,240; nickel, \$2,324,212.

Banking. Commercial banks in Canada are known as chartered banks and are incorporated under the terms of the Bank Act, which imposes strict conditions as to capital, notes in circulation, returns to the Dominion Government, types of lending operations and other matters. In 1962 there were in operation 8 chartered banks incorporated under the provisions of the Bank Act, with 5,332 branches and sub-agencies in Canada and 164 branches and sub-agencies in other countries. The Bank Act is subject to revision by Parliament every 10 years; latest revision, 1954. Bank charters expire every 10 years and are renewed at each decennial revision of the Bank Act. The chartered banks make detailed monthly and yearly returns to the Minister of Finance and are subject to periodic inspection by the Inspector-General of Banks, an official appointed by the Government.

The following are some particulars of the 8 chartered banks at 31 Dec. 1963: Capital paid up, \$281.93m.; rest account, \$862,502,000; Canadian currency deposits, \$16,099,089,000; foreign currency deposits, \$4,214,011,000; liabilities to the public, \$20,949,272,000; total assets, \$22,093,704,000. Cheques cashed at the clearing-house centres of Canada for 1962 amounted to \$335,798,492,000.

Government post office savings banks have been in operation since 1868. They had on 31 March 1963 deposits amounting to \$25,880,479.

The deposits in the Quebec savings banks, incorporated under a special Dominion Act, amounted to \$335,560,105 on 31 March 1963.

The Bank of Canada Act, passed on 3 July 1934, provided for the establishment of a central bank for the Dominion. This bank commenced operations on 11 March 1935 with a paid-up capital of \$5m. By reason of certain changes introduced into the composition of stockholders of the bank (for which see THE STATESMAN'S YEAR-BOOK, 1944, pp. 322-23), the Minister of Finance on behalf of the Dominion of Canada is the sole registered owner of the capital stock of the bank. The chartered banks are required to maintain, in the form of deposits with and notes of the Bank of Canada, a reserve of not less than 5% of their deposit liabilities in Canada. The Bank of Canada is required to maintain a reserve of gold coin or bullion not less than 25% of its note and deposit liabilities. All gold held in Canada by the chartered banks was transferred to the Bank of Canada along with the gold held by the Government as reserve against Dominion notes outstanding at the time of the commencement of operations of the Bank of Canada. The liability of the Dominion notes outstanding at the commence-

ment of business of the Bank of Canada was assumed by the bank. The following are some of the particulars of the Bank of Canada as at 31 Dec. 1962: Notes in circulation, \$2,234m.; chartered bank deposits, \$745m.; total liabilities, \$3,231m.; investments, \$3,035m.

In Aug. 1944 the Industrial Development Bank, a subsidiary of the Bank of Canada, was set up for the purpose of providing credit in the post-war period to small industrial establishments. The monthly statement of assets and liabilities of the Industrial Bank, as at 30 Sept. 1963, showed outstanding loans and investments of \$204,570,345. The authorized, issued and paid-up capital at this date amounted to \$33m.

STATISTICAL INFORMATION. The Dominion Bureau of Statistics, Ottawa, has been the official central statistical organization for Canada since 1918. The Bureau, which reports to Parliament through the Minister of Trade and Commerce, serves as the statistical agency for Federal Government Departments; co-ordinates the statistics of the Provincial Governments along national lines; and channels all Canadian statistical data to international organizations. *Dominion Statistician*: Walter E. Duffett.

Publications of the Dominion Bureau of Statistics are classified as Reports, Memoranda and Reference Papers. The latter two classes are designed to include material that has a limited circulation only and is not intended for general distribution. Memoranda are fairly regular in their appearance, but Reference Papers deal with special subjects. A complete list of these publications is contained in *Current Publications of the Dominion Bureau of Statistics* (latest issue, 1958). Official publications include:

CANADIAN PROVINCES

THE 10 provinces have each a separate parliament and administration, with a Lieut.-Governor appointed by the Governor-General in Council at the head of the executive. They have full powers to regulate their own local affairs and dispose of their revenues, provided only they do not interfere with the action and policy of the central administration. Among the subjects assigned exclusively to the provincial legislatures are: the amendment of the provincial constitution, except as regards the office of the Lieut.-Governor; property and civil rights; direct taxation for revenue purposes; borrowing; management and sale of crown lands; provincial hospitals, reformatories, etc.; shop, saloon, tavern, auctioneer and other licences for local or provincial purposes; local works and undertakings, except lines of ships, railways, canals, telegraphs, etc., extending beyond the province or connecting with other provinces, and excepting also such works as the Dominion Parliament declares are for the general good; marriages, administration of justice within the province; education. Quebec has 2 legislative chambers and other provinces 1 chamber. The Northwest Territories and the Yukon Territory are governed by commissioners assisted by councils.

MUNICIPAL GOVERNMENT. Under the terms of the British North America Act the provinces are given full powers over local government. All local government institutions are, therefore, supervised by the provinces, and are incorporated and function under provincial acts.

The acts under which municipalities operate vary from province to province. A municipal corporation is usually administered by an elected council headed by a mayor or reeve, whose powers to administer affairs and to raise funds by taxation and other methods are set forth in provincial laws, as is the scope of its obligations to, and on behalf of, the citizens.

Similarly, the types of municipal corporations, their official designations and the requirements for their incorporation vary between provinces. The following table sets out the classifications as at 1 Jan. 1962.

¹ Designated by different names in the different provinces.

² Designated by the province as, towns (44), rural districts (4) and local improvement districts (2); all operate under the same Act.

³ In provincial reports these are classed as 'community councils'.

⁴ The Village Service Act, 1951, provides for the incorporation of villages.

⁵ Nova Scotia has 18 counties, 12 of which each comprise 1 municipality and 6 are divided into 2 municipalities each, making the total of 24 municipalities. Counties, as such, do not represent local units of self-government.

⁶ Does not include 58 local improvement districts.

⁷ New Brunswick has 15 counties which are incorporated municipalities comprising the rural areas; they have direct powers of local self-government and are thus classed as 'rural'.

⁸ The Montreal Metropolitan Corporation.

⁹ An incorporated municipality, each county is comprised of the villages and rural municipalities situated therein, which provide the necessary funds for the services falling within the scope of county administration. Included here is the Inter-Urban Corporation of Ile Jesus formerly Laval County.

¹⁰ Includes 19 improvement districts.

¹¹ The Municipality of Metropolitan Toronto, which provides certain overall services and capital financing for the City of Toronto and the 4 towns, 3 villages and 5 townships of which the metropolitan municipality is comprised. There is a metropolitan school board. The constituent municipalities retain responsibility for the local as opposed to area services and levy and collect taxes, including metropolitan requirements.

¹² An incorporated municipality, each county is comprised of the towns, villages and townships situated therein, which provide the necessary funds for those services falling within the scope of county administration. Geographically there are 43 counties but 5 are united with other adjacent counties for purposes of administration.

¹³ Includes 19 urban municipalities.
¹⁴ as jurisdiction, either wholly or in part, over the area.

¹⁵ Excludes 12 local improvement districts.

¹⁶ Includes 23 county municipalities but excludes 50 improvement districts and 2 special areas.

¹⁷ In Alberta 'Counties' are being formed for the administration of municipal affairs, local schools and municipal hospitals by one elected council. These are here classed as rural.

¹⁸ Includes 2 local districts. This is a new classification to cover municipalities that are below the 500 minimum population for villages.

NEWFOUNDLAND

HISTORY. Newfoundland was discovered by John Cabot 24 June 1497, and was soon frequented by the Portuguese, Spanish and French for its

fisheries. It was formally occupied in Aug. 1583 by Sir Humphrey Gilbert on behalf of the English Crown. Guy, Calvert and others made unsuccessful attempts to colonize the island, but in the 17th century English colonists established themselves there. Although British sovereignty was recognized in 1713 by the Treaty of Utrecht, disputes over fishing rights with the French, who also had a station on the island, were not finally settled till 1904.

By the Anglo-French Convention of 1904, France renounced her exclusive fishing rights on a specified section of the coast, retained under the Treaty of Utrecht, but retained the right to fish in territorial waters from Cape St John northwards and southwards to Cape Ray for all sorts of fish, including bait and crustacea.

The Hague Court in 1910 granted the right of Great Britain to make fishing regulations without the consent of the USA, subject to any limitations imposed by treaty. It also confirmed Great Britain's contention that the whole extent of a bay from headland to headland is comprised within territorial waters.

In Jan. 1941 sites on Newfoundland were leased to the USA for naval or military bases (Cmd 7294; Treaty Series No. 1, 1948); these were transferred from the military air transport service to the US Defence Department on 20 Sept. 1950.

CONSTITUTION AND GOVERNMENT. Until 1832 Newfoundland was ruled by the Governor under instructions from the Colonial Office. In that year a Legislature was brought into existence, but the Governor and his Executive Council were not responsible to it. Under the constitution of 1855 which lasted until its suspension in 1934, the government was administered by the Governor appointed by the Crown with an Executive Council responsible to the House of Assembly of 27 elected members and a Legislative Council of 24 members nominated for life by the Governor in Council. Women were enfranchised in 1925. At the Imperial Conference of 1917, Newfoundland was constituted as a Dominion.

In 1933 the financial situation had become so critical that the Government of Newfoundland asked the Government of the UK to appoint a Royal Commission to investigate conditions. On the strength of their recommendations, the parliamentary form of government was suspended and Government by Commission was inaugurated on 16 Feb. 1934.

A National Convention, elected in 1946, made, in 1948, recommendations to H.M. Government in Great Britain as to the possible forms of future government to be submitted to the people at a national referendum. Two referenda were held. In the first referendum (June 1948) the three forms of government submitted to the people were: commission of government for 5 years, confederation with Canada and responsible government as it existed in 1933. No one form of government received a clear majority of the votes polled, and commission of government, receiving the fewest votes, was eliminated. In the second referendum (July 1948) confederation with Canada received 78,408 and responsible government 71,464 votes.

In the Canadian Senate on 18 Feb. 1949 Royal assent was given to the terms of union of Newfoundland with Canada, and on 23 March 1949, in the House of Lords, London, Royal assent was given to an amendment to the British North America Act made necessary by the inclusion of Newfoundland as the tenth Province of Canada.

Under the terms of union of Newfoundland with Canada, which was signed at Ottawa on 11 Dec. 1948, the constitution of the Legislature of Newfoundland as it existed immediately prior to 16 Feb. 1934 shall, subject

to the terms of the British North America Acts, 1867 to 1946, continue as the constitution of the Legislature of the Province of Newfoundland until altered under the authority of the said Acts.

The Constitution of the Legislature of Newfoundland in so far as it relates to the Legislative Council shall not continue, but the Legislature of the Province of Newfoundland may at any time re-establish the Legislative Council or establish a new Legislative Council. The franchise shall be extended to female British subjects who have attained the full age of 21 years and are otherwise qualified as electors.

A Redistribution Act was passed in 1962, constituting 41 electoral districts and 42 members of the Legislature who receive \$5,000 per annum.

The last general election was held on 19 Nov. 1962. State of parties: Liberals, 34; Progressive-Conservatives, 7; Independent, 1.

The Province is represented by 6 members in the Senate and by 7 members in the House of Commons of Canada.

Lieut.-Governor: Fabian O'Dea, QC (assumed office 1 March 1963).

The Liberal Executive Council was, in Jan. 1964, composed as follows:

Premier and Minister of Economic Development: Dr J. R. Smallwood.

Attorney-General: L. R. Curtis, QC.

Minister of Mines, Agriculture and Resources: W. J. Keough.

Minister of Labour: C. H. Ballam.

Minister of Public Welfare and Solicitor-General: M. P. Murray, QC.

Minister of Finance: E. S. Spencer.

Minister of Public Works: J. R. Chalker.

Minister of Highways: Dr F. W. Rowe.

Minister without Portfolio: P. J. Lewis, QC.

Minister of Provincial Affairs: J. T. Cheeseman.

Minister of Fisheries: C. M. Lane.

Minister of Health: Dr J. M. McGrath.

Minister of Education: Dr G. A. Frecker.

Minister of Municipal Affairs and Supply: B. J. Abbott.

Clerk of the Council: J. G. Channing.

Agent-General in London: H. Watson Jamer (60 Trafalgar Sq., WC2).

AREA AND POPULATION. Area, 156,185 sq. miles (383,300 sq. km). The coastline is extremely irregular. Bays, fiords and inlets are numerous and there are many good harbours with deep water close to shore. The coast is rugged with bold rocky cliffs from 200 to 400 ft high; in the Bay of Islands some of the islands rise 500 ft, with the adjacent shore 1,000 ft above tide level. The interior is a plateau of moderate elevation and the chief relief features trend north-east and south-west. Long Range, the most notable of these, begins at Cape Ray and extends north-east for 200 miles; the highest peak reaching 2,673 ft. Approximately one-third of the area is covered by water. Grand Lake, the largest body of water, has an area of about 200 sq. miles. The principal rivers flow towards the north-east. On the borders of the lakes and water-courses good land is generally found, particularly in the valleys of the Terra Nova River, the Ganda River, the Exploits River and the Humber River, which are also heavily timbered.

Census population, 1961, was 457,853; estimated population, 1963, 482,000.

The capital of Newfoundland is the City of St John's (90,838, metropolitan

area); other important towns are City of Corner Brook (25,185), Wabana (8,026), Grand Falls (6,605), Stephenville (6,043), Gander (5,725), Windsor (5,505), Carbonear (4,234), Bonavista area (4,186). Channel-Port aux Basques (4,141).

Vital statistics, see p. 224.

Religion, see p. 225.

EDUCATION. The number of schools in 1962-63 was 1,223. The enrolment was 133,747; teachers numbered 4,502. The Memorial University, offering courses in arts, science, engineering and education, had an enrolment of 2,508 in 1962-63. Total expenditure for education by the Government in 1962-63 was \$20,741,400.

Cinemas (1962). There were 65 cinemas with a seating capacity of 18,508.

FINANCE. Budget¹ in Canadian \$1,000 for fiscal years ended 31 March:

	1958-59	1959-60	1960-61	1961-62	1962-63	1963-64 ²
Revenue	75,299	75,893	80,748	82,142	95,450	99,959
Expenditure	63,888	70,123	76,976	80,550	94,109	99,898

¹ Current account only.

² Estimates.

Public debt as at 31 March 1962, \$76.5m.; sinking fund, \$11,042,000.

PRODUCTION. Agriculture. The estimated value of agricultural products, including livestock, in 1962, was \$12m.

Fisheries. The principal fish are cod, haddock, lobster, salmon, redfish, plaice, greysole and herring. In 1962 some 5,500 men were employed by the industry, and there were about 18,700 fishermen. Twenty-two freezing plants and 60 saltfish plants were in operation. The production of frozen groundfish was 64m. lb. in 1961 and 57.3m. lb. in 1960; in 1961 the total pack of lobster was 180 cases of 36 lb. and 1,367 cases of 48 lb. The catch of whales was estimated at 6,285 in 1961.

The total catch in 1961 was 503m. lb. valued at \$14.9m., of which the main items were: Cod, 328m. lb. (\$9m.); lobster, 3.9m. lb. (\$1.3m.); plaice and greysole, 35m. lb. (\$0.9m.); salmon, 2m. lb. (\$0.7m.); haddock, 41m. lb. (\$1.1m.); salted cod, 73m. lb. (\$9.8m.).

The seal fishery in 1961 was prosecuted by 6 motor vessels with 339 men. The number of pelts landed was 25,945, with a net value of \$89,420. Landsmen accounted for an additional 15,000 pelts.

Forestry. The forest economy in the Province is dependent in the main on the operation of two pulp and paper companies who, in 1961, produced 577,400 tons of newsprint and 42,400 tons of sulphite pulp. Sawlog operations and miscellaneous cuttings are conducted in Crown Land limits with 1,350 saw-mills expected to cut 36.6m. f.b.m. Total value of forest production for 1961 is estimated at \$90m.

Mining. The mineral resources are vast. Large deposits of iron ore, with an ore reserve of 3,000m. tons at Bell Island and over 3,000m. tons at Ruth, Carol and Wabush Lakes, Labrador, are being developed. Fourteen mines are in various stages of production and development; 4 iron ore, 3 limestone, 1 lead, zinc and copper, 1 fluorspar, 1 asbestos and 3 copper, 1 pyrophyllite and 1 gypsum. The value of mineral production in 1961 was \$92.7m. Lead, zinc and copper concentrates shipped amounted to \$184,500 short tons, valued at \$20.9m. Iron ore production was 7,853,973 tons valued at

\$59.8m.; fluorspar products were valued at \$1.9m. and gold, 15,470 oz. valued at \$548,257.

Industry. Two pulp-and-paper mills had a total production in 1960 of 545,000 tons of newsprint and 38,000 tons of sulphite pulp. The mill at Corner Brook, the largest integrated mill in the world, has a daily production of 1,000 tons of newsprint and 180 tons of sulphite pulp, and the mill at Grand Falls a daily production capacity of 900 tons of newsprint and 80 tons of sulphite pulp.

Electricity. There are 28 hydro-electric power plants within the Province with 501,775 h.p. turbine installation.

Trade Unions. There are 102 unions representing 37,362 members of the American Federation of Labour, the Congress of Industrial Organizations, the Canadian Labour Congress and local independent unions (7,574).

COMMUNICATIONS. *Shipping.* On 31 Dec. 1961 ships registered in Newfoundland consisted of 54 sailing vessels of gross tonnage 4,243; 12 steam vessels of 10,380 gross tons and 742 motor vessels of 4,243 gross tons.

Railways. In 1962 there were 1,078 miles of railway, of which the Canadian National Railway operated 705, the Quebec North Shore and Labrador Railway 347, and the Grand Falls Central Railway 26.

Post. There were 658 post offices open in 1961, and the number of telegraph and telephone offices was 662. Telephone wire maintained was 15,762 miles with 9,100 telephone connexions.

Labrador, the most northerly district of the Province of Newfoundland, extends from Blanc Sablon at the north-east entrance of the Straits of Belle Isle to Cape Chidley at the eastern entrance of Hudson's Strait. In March 1927 the Privy Council decided the boundary between Canada and Newfoundland in Labrador. The area now under the jurisdiction of Newfoundland is approximately 110,000 sq. miles (285,000 sq. km). The population (1961 census) is 13,534.

Little is known about the geology of the country; exploratory work is being undertaken both by government and private bodies. The prevailing formation on the coast is granite, gneiss or mica slate, above which, in some places, are beds of old sandstone and a stratum of secondary limestone. The secondary rocks disappear towards the interior. At the headwaters of the Hamilton River the geological formations are structurally similar to the iron-ore bearing area of Lake Superior.

In 1954 the Iron Ore Company of Canada began shipping iron ore from a deposit 365 miles north of Seven Islands. The deposit stretching across the Newfoundland-Labrador boundary contains in excess of 400m. tons of 51% iron. The railway line built by the Company connects the deposit with a major stock-piling and shipping installation at Seven Islands. Up to 13m. tons a year have been shipped from this area.

Further development has taken place farther south in the area around Wabush Lake both by the Iron Ore Company and by Wabush Mines (operated by Pickands Mather of Cleveland). A railway line from Mile 254 some 30 miles to Wabush Lake serves both deposits, which are estimated in excess of several thousand million tons of 36% iron ore. In 1962 the first shipment of iron-ore concentrates, up-graded to 67% iron, began moving out of the Iron Ore Company mines and concentrator at Labrador City on the western side of Wabush Lake. Production was scheduled for 6m. tons

of concentrate a year, and work has begun on a pelletizing plant which will pelletize 5.5m. tons of this concentrate. Across the lake the Wabush Mines project is scheduled for production of some 6m. tons of concentrate a year by 1965.

To serve both iron-ore operations at Wabush Lake and the towns of Labrador City on the western side of the lake and the city of Wabush on the eastern side of the lake, the British Newfoundland Corporation, through its associated company Twin Falls Corporation, has built and put into operation a hydro-electric development at Twin Falls, Labrador, which is part of the Hamilton Falls watershed. Power was delivered in 1962; the capacity of the installation is to be increased to 240,000 h.p. BRINCO also holds a lease of the Hamilton Falls watershed, which contains among other potential, the 6m. h.p. potential at Hamilton Falls.

Between Hamilton Falls and the coast of Labrador there exists one of the largest stands of virgin pulpwood timber in North America. In one area around Goose airport 50m. cords of standing timber have been estimated.

The Moravian Missions have maintained, over the past 150 years, mission stations in Northern Labrador, at Nain, Nakkovik, Hebron and Hopedale; the International Grenfell Association operates hospitals at Mary's Harbour, Cartwright and North West River, as well as a boarding school at North West River. In the months that the coast is ice-free, from June to November, a coastal service is operated every 3 weeks from St John's to Nain. In addition, a motor vessels serves the fishermen on the coast north of Hamilton Inlet.

The Government of Canada has established an airport at Goose Bay located at the bottom of Hamilton Inlet.

The Hamilton River is one of the largest undeveloped power rivers left in North America. It has a length of 560 miles and drains an area of 30,000 sq. miles. The two most important power sites on it are at Grand Falls and at Muskrat Falls. Theoretical continuous horse-power is 4.35m.

PRINCE EDWARD ISLAND

HISTORY. The island was discovered by Sebastian Cabot in 1497; it was first settled by the French, but was taken from them in 1758. It was annexed to Nova Scotia in 1763, and constituted a separate colony in 1769. Prince Edward Island entered the Confederation on 1 July 1873.

CONSTITUTION AND GOVERNMENT. The provincial government is administered by a Lieut.-Governor and a Legislative Assembly of 30 members, who are elected for 5 years, half by real property holders and the remainder by universal male and female suffrage. Women can also be elected to the assembly. State of parties after the elections of 10 Dec. 1962: Progressive Conservatives, 19; Liberals, 11.

Lieut.-Governor: Willibald J. MacDonald (sworn in 1 Aug. 1963).

The members of the Progressive Conservative Executive Council are as follows (Feb. 1963):

Premier, President of the Executive Council: Walter R. Shaw, MBE.

Attorney and Advocate General, Provincial Treasurer: M. Alban Farmer, QC.

Public Works and Highways: J. Philip Matheson.

Education: Dr L. George Dewar.

Industry and Natural Resources and Fisheries: Leo F. Rossiter.

Health: Dr Hubert B. McNeill.

Provincial Secretary, Minister of Tourist Development, Minister of Municipal Affairs: J. David Stewart.

Welfare and Labour: Henry W. Wedge.

Agriculture: Andrew B. MacRae.

Agent-General in London: H. Watson Jamer (40 Trafalgar Sq., WC2).

LOCAL GOVERNMENT. The Village Service Act, 1954, provides for the incorporation of villages. All cities and towns have been incorporated under Special Acts. The Town Act, 1951, supplements the several acts of incorporation of all towns, except the town of Summerside.

AREA AND POPULATION. The province, which is the smallest in Canada, lies in the Gulf of St Lawrence, and is separated from the mainland of New Brunswick and Nova Scotia by Northumberland Strait. The area of the island is 2,184 sq. miles (5,656 sq. km). Total population (census, 1961), 104,629; estimate, 1 June 1962, 106,000. Population of the principal cities (1961): Charlottetown (capital), 18,318; Summerside, 8,611.

Vital Statistics, see p. 224.

Religion, see p. 225.

EDUCATION. There were (1962) 444 schools, 1,007 teachers, 25,505 pupils; exclusive of 2 Roman Catholic convent schools at Charlottetown and Summerside, with 599 pupils. There are 2 colleges, Prince of Wales College, maintained by the Government, and St Dunstan's University, a Roman Catholic institution, both in Charlottetown. Total expenditure on education, exclusive of Roman Catholic institutions, in the year ending 31 March 1962, \$5,704,389.

FINANCE. Revenue and expenditure (in Canadian \$) for 6 financial years ending 31 March:

	1958-59	1959-60	1960-61	1961-62	1962-63	1963-64 ¹
Revenue	15,556,712	17,461,161	22,704,587	22,782,747	25,352,198	26,259,830
Expenditure	18,340,151	25,128,647	23,739,640	24,789,107	29,579,864	29,099,469

¹ Estimates.

Total sinking funds on 31 March 1963 amounted to \$5,930,049; total liabilities of the province to \$36,298,253.

PRODUCTION. *Agriculture.* The farm land occupied is about 1.2m. acres out of a total of 1,260,800 acres. Field crops in 1963 covered about 382,300 acres, and were valued at \$19.5m. The land in natural forest covers 610 sq. miles, and in pasture 315,400 acres. For particulars of agricultural production and livestock, see under CANADA.

Nova Scotia Technical College at Halifax grants degrees in engineering and architecture.

The Department of Education operates through its Vocational Education Division an institute of technology, 6 vocational high schools, vocational evening schools, coalmining schools, a land survey institute, a marine engineering school, a marine navigation school, a correspondence study service, a service for the vocational rehabilitation of the physically handicapped and classes for unemployed persons.

The Adult Education Division of the Department of Education, in co-operation with the local authorities, organizes and supports evening classes in elementary and secondary education and non-vocational subjects. The Provincial Department of Labour conducts apprenticeship classes. Short courses for fishermen and farmers are conducted by the Departments of Trade and Industry, and Agriculture, respectively.

Total expenditure on public education for the year 1962-63 was \$46,742,040, of which 49.9% was borne by the provincial government. 6,868 classrooms operated in 1,174 school sections, with 7,185 teachers and 190,527 pupils, of whom 45,128 were in junior high school and 22,405 were in senior high school grades.

JUSTICE. Justice in Nova Scotia is administered in the Supreme Court, the county courts, the probate courts, the Divorce Court, the magistrates' courts, the municipal and justice courts. The Court of Appeal consists of a panel of judges of the Supreme Court, but a Trial Division and an Appeal Division are being set up. There are also bodies, sometimes referred to as courts, for the revision of assessment rolls, voters' lists and like purposes. There are also juvenile courts in all counties.

For the year ended 31 March 1962, about 5,500 persons were committed to provincial jails for offences against dominion and provincial statutes.

FINANCE. The revenue is raised from federal subsidies granted under the British North America Act and under a Canada-Nova Scotia agreement in lieu of certain income and special taxes surrendered for a period of 5 years to the Government of Canada, royalty on coal and minerals, special fees on incorporated companies, partnerships, automobiles and other statutory fees, a tax on gasoline, theatre tickets, lands and forests, telephones and the sale of liquor as well as a hospital sales tax.

The Federal-Provincial Fiscal Arrangements Act 1961 provides for a reduction of individual income taxes by reducing the federal tax payable in 1962 by 16%, by 17% in 1963, 18% in 1964, 19% in 1965 and 20% in 1966. Federal corporation income taxes were reduced by 9% of taxable income. Nova Scotia levies personal and corporate income taxes to the exact amount of the federal reduction. Provision is made for equalization and stabilization grants applicable as well as certain guarantees. The Federal Government continues to pay those provinces not levying succession duties 50% of the federal estate tax yields. Over the next 5 years covered by the agreement Nova Scotia will also receive \$10.5m. per year as an Atlantic Provinces adjustment grant.

Revenue, expenditure and debt (in Canadian \$) for fiscal years ending 31 March:

	1959-60	1960-61	1961-62	1962-63 ¹	1963-64 ²
Revenue	91,272,617	93,142,036	103,080,710	108,119,127	115,711,570
Expenditure ¹	80,564,948	87,736,682	92,605,724	100,405,190	108,794,010
Public debt	270,739,000	295,860,000	330,870,000	341,470,000	..

¹ Not including sinking-fund instalments.

² Estimates.

Sinking-fund investments totalled \$73,717,114 (31 March 1963). Revenue producing assets: Advances to Nova Scotia Power Commission, \$49,035,577; other revenue producing assets, including balance at credit of province with federal government, \$37,700,336.

PRODUCTION. Agriculture. Dairying, poultry, raising and fruit growing are the most important branches of agriculture. Gross cash income, including income in kind to persons on farms, for 1962 was estimated at \$56m.

Cash income from the sale of dairy products was estimated at \$13m. in 1962. Milk production approximated 397m. lb.

In the poultry industry 6.4m. eggs were set in approved hatcheries during 1962. The marketing of dressed poultry in a graded basis was over 13.3m. lb.

The 1962 apple crop was about 2.3m. bushels.

Interest in the use of ground limestone as a soil conditioner is increasing; over 40,000 tons were used in 1962.

The 124 co-operative organizations, with over 25,000 members, had, in 1962, total assets of about \$6.5m. and a sales volume in excess of \$18m.

Forestry. The estimated forest area of Nova Scotia is 16,389 sq. miles, of which about 31% is owned by the Province. The principal trees are spruce, fir, balsam, hemlock, pine, larch, birch, oak, maple, poplar and ash. Beech, once an important hardwood species, has almost disappeared. The gross value of all forest products in 1960 was \$75m.

Fisheries. The fisheries of the province in 1962 had a landed value of \$32,061,000, including scallop fishery, \$4,648,000, and lobster fishery, \$9,691,000. In 1962 there were 4,387 employees in the fish processing industry and the value of shipments was \$61,527,000.

Mining. Principal minerals are (1962): Coal, 4,205,237 tons; gypsum (crude), 4,259,432 tons; (calcined), 10,000 tons; anhydrite, 245,138 tons; salt, 317,660 tons; barite, 249,190 tons; dolomite and limestone, 61,844 tons. Value of mineral production was approximately \$63m.

Industry. The number of manufacturing establishments was (in 1960) 1,278; the number of employees was 28,606; wages and salaries, \$92,280,125; value of shipments (1962), \$425m.

Trade Unions. Unions affiliated with the Canadian Labour Congress numbered 264 on 1 Jan. 1961. The most important independent organizations are the 7,000 members of District 26, of the United Mine Workers of America, the Brotherhood of Locomotive Engineers and the Teamsters. In 1962 there were 337 local unions in Nova Scotia with 300 reporting a membership of 42,300.

COMMUNICATIONS. The country is covered with a network of railways, 1,730 miles in extent. There were, in 1963, 15,288 miles of highways; 1,747 trunk (1,717 paved), 13,541 county (1,742 paved) highways. The figures are exclusive of highways within cities and towns. Subsidized boats ply round the shores, making regular calls at all the important ports.

NEW BRUNSWICK

HISTORY. Touched by Jacques Cartier in 1534, New Brunswick was first explored by Samuel de Champlain in 1604. It was ceded by the French in the Treaty of Utrecht in 1713 and became a permanent British possession in 1759. It was separated from Nova Scotia and became a province in June 1784, as a result of the great influx of United Empire Loyalists. Responsible government came into being in 1848, and consisted of an executive council, a legislative council (later abolished) and a house of assembly.

CONSTITUTION AND GOVERNMENT. The government is vested in a Lieut.-Governor and a legislative assembly of 52 members elected for 5 years. Any male or female British subject of full age is entitled to vote after 12 months' residence. After the election held on 22 April 1963, the assembly is composed of 32 Liberals (1960: 31) and 20 Progressive Conservatives (1960: 21). The Province has 10 members in the Senate and 10 in the House of Commons of Canada.

Lieut.-Governor: J. Leonard O'Brien (appointed 6 June 1958).

The members of the Liberal Ministry are as follows (Dec. 1963):

Premier and Attorney-General: Louis J. Robichaud, QC.

Education: Henry G. Irwin.

Minister without Portfolio and Chairman of the Electric Power Commission: Daniel A. Riley, QC.

Youth and Welfare: William R. Duffie.

Finance and Industry: L. G. DesBrisay.

Public Works: Andre F. Richard.

Municipal Affaires: Joseph E. LeBlanc.

Fisheries: R. Ernest Richard.

Labour: Kenneth J. Webber.

Health and Social Services: Dr Georges L. Dumont.

Lands and Mines: H. Graham Crocker.

Agriculture: J. Adrien Levesque.

Provincial Secretary: Donald C. Harper.

Agent-General in London: H. Watson James (60 Trafalgar Sq., WC2).

LOCAL GOVERNMENT. For the purposes of certain Acts a Municipality is defined as 'city, town, incorporated village and municipality' or county unit, and a Municipal Corporation as 'a county, city, town, parish, incorporated village, school district and the inhabitants of a defined area within the Province incorporated for the purpose of providing water, fire protection, light, power, streets, sidewalks, or other like utilities within such area'. Municipal corporations are incorporated under Special Acts and constitute a Commission governed by a board of commissioners. Cities may be erected by Special Acts, as may also villages and towns if they have not the statutory requirements of the Village Incorporation Act, 1920, or the Town Incorporation Act, 1896.

AREA AND POPULATION. The area of the province is 28,354 sq. miles (72,000 sq. km), of which 27,835 sq. miles are land area. The population (census 1961) was 597,936 (estimate, 1 June 1963, 614,000); rural population, 319,923. Census population of the cities (1961): Saint John, 55,153; Moncton, 43,840; Fredericton (capital), 19,683; Lancaster, 13,848; Edmundston, 12,791; Campbellton, 9,873.

Vital statistics, *see* p. 224.

Religion, *see* p. 225.

EDUCATION. Public education is free and non-sectarian. There are 6 universities. The University of New Brunswick at Fredericton (founded 13 Dec. 1785 by the Loyalists, elevated to university status in 1823, in 1859 reorganized as the University of New Brunswick) is supported by the province and had 2,476 students (1 Oct. 1963); Mount Allison University at Sackville had 1,228 students; St Joseph's University at Moncton and St Joseph, 780 students; University de Sacre-Cœur at Bathurst, 418 students; St Louis University at Edmundston, 384 students; St Thomas University at Chatham, 276 students. There were as of 30 June 1963, 154,034 pupils and 6,296 teachers in the 1,294 public schools (estimated figures). Large new regional schools are absorbing numbers of small country schools.

FINANCE. The ordinary budget (in Canadian \$) is shown as follows (financial years ended 31 March):

	1959-60	1960-61	1961-62	1962-63	1963-64 ¹
Gross Revenue	83,185,388	88,493,038	103,067,769	111,522,831	117,149,170
Gross Expenditure	83,010,834	94,794,788	103,517,553	112,765,255	123,300,994

¹ Estimates.

Funded debt outstanding (exclusive of Treasury bills) as of 31 March 1963 was \$262.59m. Sinking funds held by Province at 31 March 1963, \$72,786,881.

PRODUCTION. *Agriculture.* The total area under field crops in 1963 was estimated as 441,600 acres, exclusive of pasture land (250,000 acres) and the acreage for blueberries, strawberries and orchards. For particulars of agricultural production and livestock, *see under* CANADA. Agricultural income is about \$60m. annually.

Forestry. The Crown Lands held by the province include 7.4m. acres out of total area of 18m. acres. Over 15.3m acres are covered with productive forest, of which the Crown owns about one-half. In 1961 the value of forest production was \$175m. The manufacture of pulp and paper is the province's most important industry; 7 mills produce woodpulp and paper valued at over \$100m. There are about 70 large and 300 small saw-mills, which together with the larger pulp-mills provide direct employment for over 6,000 people.

Fisheries. Commercial fishing is one of the most important basic industries of the province. More than 6,500 fishermen and 3,000 plant workers are employed; the gross yearly income of the fishermen is over \$9.5m., and the total marketed value of fish products is approximately \$33m. The provincial government is making financial and technical assistance available to fishermen and fish packers. A special Department of Fisheries was created in 1963. In 1962 the provincial government introduced the first steel stern

trawler with a ramp to be built in North America as a prototype unit. A new school of fisheries was opened in 1963. Modern fish processing and storage plants are being built in various fishing communities with a trend towards centralization.

Mining. A considerable variety of minerals exist in the province, such as lead, zinc, copper, tin, tungsten, molybdenum, antimony, manganese, iron, bituminous coal, gypsum, salt, glauberite, oil shale, diatomite, oil and gas. Large reserves of lead-zinc-copper have been proven in the Bathurst-Newcastle district. The Consolidated Mining and Smelting Company of Canada Ltd and Heath Steele Mines Ltd are in production; the ore from both properties is being milled at the Heath Steele concentrator. Brunswick Mining and Smelting Corporation Ltd is constructing a 3,000-ton concentrator. Ore reserves for the area are estimated at 150m. tons.

Quantities of good limestone exist in the southern part of the province and are quarried for lime, the pulp industry and as a fertilizing agent. Various granites are quarried and manufactured at St Stephen and Hampstead. Natural gas and oil are produced near Moncton. Total mineral production for 1962 was \$24,911,143, including 815,529 tons of coal. A cement plant near Havelock, Kings County, in 1962 produced 172,900 tons.

Industry. In 1962 there were about 1,000 industrial establishments, employing about 22,000 persons; gross value of products, \$375m. Pulp and paper is the most important part of the forest industry, followed by food processing, especially fish curing and packing. Other manufacturing includes electronics, stove and heating equipment, clothing and textiles, oil refining and shipbuilding. Important base-metal finds—lead, zinc and copper—are the basis for a developing mining industry in the north-eastern area.

Electricity. Hydro-electric and thermal power plants of the New Brunswick Electric Power Commission had a combined capacity of 320,700 kw. in 1962. A 60,000-kw. thermal unit at Grand Lake and a second unit rated at 100,000 kw. in the Courtenay Bay thermal plant at East Saint John are under construction.

COMMUNICATIONS. *Roads.* The province had on 31 March 1963, 13,150 miles of highway, including 9,343 miles of gravel roads, 2,100 miles of bituminized gravel roads and 1,707 miles of paved roads. Motor vehicles, 31 Dec. 1962, numbered 151,360.

Post. On 31 Aug. 1963 the New Brunswick Telephone Co. Ltd had 149,454 telephones in service.

QUEBEC

HISTORY. Québec was formerly known as New France or Canada from 1535 to 1763; as the province of Quebec from 1763 to 1790; as Lower Canada from 1791 to 1846; as Canada East from 1846 to 1867, and when, by the union of the four original provinces, the Confederation of the Dominion of

Population of the principal cities (1961 census): Montreal, 1,191,062 (metropolitan area, 1,872,437); Quebec (capital), 171,979 (metropolitan area, 331,307); Verdun, 78,317; Sherbrooke, 66,554; Trois Rivières, 53,477; Hull, 56,929.

Vital statistics, *see* p. 224.

Religion, *see* p. 225.

EDUCATION. (1961-62). *Superior Education.* The province has 6 universities: 3 Protestant universities, McGill (Montreal) founded in 1821, Bishop's (Lennoxville) founded in 1845, and the Sir George William's College (Montreal) granted a university charter in 1848; with together 1,443 professors and 28,984 students. Three Catholic universities: Laval (Quebec) founded in 1852, Montreal University opened in 1876 as a branch of Laval and erected independently in 1920, and Sherbrooke University founded in 1954; with together 6,557 professors and 56,508 students. Besides university schools (included with the universities figures) there were 24 Catholic and 3 Protestant theological colleges with 1,159 students.

Secondary Education. Secondary education, for Catholics, is given in 84 classical colleges to 30,520 male students and in 5 colleges of modern secondary education to 3,381 male students. The classical colleges for girls appear in the primary section at the exclusion of colleges having pupils for the BA degree only. There were 2,643 students of this course in 24 colleges for girls. Both Catholic and Protestant high schools are completely included with the primary education.

Primary Education. There were 6,822 Catholic schools, with 48,957 teachers and 1,095,992 pupils and 375 Protestant schools, with 5,677 teachers and 124,670 pupils.

Training of teachers for primary schools is given in 117 Catholic normal schools to 11,605 students and in one Protestant normal school to 864 students.

FINANCE. Ordinary revenue and expenditure (in Canadian \$) for fiscal years ending 31 March:

	1958-59	1959-60	1960-61	1961-62	1962-63	1963-61 ¹
Revenue	546,859,705	598,094,009	636,630,434	754,114,485	859,412,732	899,245,000
Expenditure	453,041,819	489,553,235	618,690,666	713,587,762	808,620,360	881,470,000

¹ Estimates.

The total funded debt at 31 March 1963 was \$766,975,000, and the net funded debt was \$644,962,317.

PRODUCTION. *Agriculture.* In 1962 the total area under cultivation was 7,212,400 acres (including pastures) and the value of the crops on farms \$169,041,000. The principal varieties cultivated were:

Crops	Yield in 1,000	Value in \$1,000	Crops	Yield in 1,000	Value in \$1,000
Tame hay ¹	6,320 tons	93,220	Fodder corn	627 tons	4,076
Oats	55,114 bush.	47,949	Field roots	49 tons	931
Potatoes	9,079 cwt	13,346	Barley	718 bush.	826
Mixed grains	4,205 bush.	4,457	Buckwheat	361 bush.	422

¹ Including clover and alfalfa.

The gross value of agricultural production in 1962 amounted to \$509,192,000. Cash income from the sale of farm products totalled \$457m., the principal items being: Livestock, \$147,448,000; dairy products,

\$180,693,000; poultry and eggs, \$67,487,000; fruits and vegetables, \$17,641,000.

Forestry. Forests cover an area of over 350,000 sq. miles. About 220,000 sq. miles are classified as accessible forests, of which 83,000 sq. miles are leased to industrial companies and 26,000 sq. miles are held in full ownership by individuals or companies. Quebec leads the Canadian provinces in pulpwood production, having over half of the Canadian estimated total. In 1961, 4,597,372 tons of pulp and paper were produced, valued at \$620,710,000.

Fishery. The principal fish are cod, herring, mackerel, lobster and salmon. Total catch of sea fish, 1962, was 130,960,200 lb., valued at \$4,994,246.

Mining (1962). The value of the mineral production was \$519,146,000. Production of metallic minerals (gold, copper, zinc, silver, chrome, molybdenum and others), valued at \$284,925,000; gold, 99,000 fine oz., valued at \$37,354,000.

The second major iron-ore development in northern Quebec is, like the one at Knob Lake which gave birth to Schefferville, based on the Quebec-Labrador Trough which extends from Lac Jeannine to the northern tip of Ungava peninsula. The port of Seven Islands and the railway connecting it with Schefferville allow easy shipment to the furnaces and steel mills of Canada, the USA and Europe. The setting-up of a steel industry is being explored.

Non-metallic minerals produced include: Asbestos (\$116m.; 100% of Canadian production), industrial lime, dolomite and brucite, quartz and pyrite. Among the building materials produced were: Cement, \$34,267,000; sand and gravel, \$24,145,000; building limestone, \$27,831,000; clay products, \$7,625,000.

Industry. In 1961 there were 11,575 industrial establishments in the province; employees, 427,658; salaries and wages \$1,630,886,000; cost of materials, \$4,074,482,000; gross value of production, \$7,439,639,000. Among the leading industries are pulp and paper, non-ferrous metal smelting and refining, chemical products, cotton yarn and cloth, men's and women's clothing, railway rolling stock, shipbuilding, brass and copper products, electrical apparatus, butter and cheese, slaughtering and meat packing, cigars and cigarettes, machinery, boots and shoes.

Electricity. Water power is one of the most important natural resources of the province of Quebec. Its turbine installation represents about 47% of the aggregate of Canada. On 1 Jan. 1963 the turbine installation amounted to 13,297,000 h.p. The Quebec Hydro-Electric Commission will have completed by 1966 the hydro-electric power scheme on the Manicouagan River, capable of producing 1.4m. h.p. Consumption, 1962, was 43,984,902,000 kwh. and energy sold, \$240.2m.

COMMUNICATIONS (1962). Quebec had 5,087 miles of railway, including 100 miles of tramway. Excluding cities, there were 44,800 miles of roads in the province, of which 36,000 were improved; 30,000 miles are maintained in winter. There were 1.6m. telephones and 676 telegraph offices.

ONTARIO

CONSTITUTION AND GOVERNMENT. The provincial government is administered by a Lieut.-Governor, a cabinet and one chamber elected by a general franchise for a period of 5 years. Women have the vote and can be elected to the chamber.

The provincial legislature was, in Dec. 1963, composed as follows: Progressive Conservatives, 77; Liberals, 24; New Democratic Party, 7; total, 108.

Lieut.-Governor: Hon. W. Earl Rowe (appointed 1 May 1963).

The members of the Executive Council in Dec. 1963 were as follows (all Progressive Conservatives):

Prime Minister and President of the Council: John P. Roberts, QC.

Minister of Lands and Forests: A. Kelso Roberts, QC.

Minister of Public Welfare: Louis P. Cecile, QC.

Provincial Treasurer and Minister of Economics and Development: James N. Allan.

Minister of Travel and Publicity: James Auld.

Minister of Public Works: Thomas Ray Connell.

Minister of Health: Dr Matthew B. Dymond.

Minister of Municipal Affairs: J. Wilfrid Spooner.

Attorney-General and Minister in Charge of Department of Insurance: Frederick M. Cass, QC.

Provincial Secretary and Minister of Citizenship: John Yaremko, QC.

Minister of Mines: George C. Wardrope.

Minister of Labour: H. Leslie Rowntree, QC.

Minister of Agriculture: William A. Stewart.

Minister of Highways: Charles S. MacNaughton.

Minister of Reform Institutions: Allan Grossman.

Minister of Transport: Irwin Haskett.

Minister of Education: William G. Davis.

Minister of Energy Resources: John Richard Simonett.

Agent-General in London: J. S. P. Armstrong (Ontario House, 13 Charles II St., SW1).

LOCAL GOVERNMENT. Local government in Ontario is divided into two branches, one pertaining to municipal institutions and the other to education. The present system of municipal institutions was established on 1 Jan. 1850; its scope and functions have been considerably enlarged.

For general municipal and local government purposes, Ontario is divided into counties (or unions of counties), cities, towns, villages and townships. The cities function independently of the county units, as also do 8 towns

which have been separated from the counties for municipal purposes. Every town, village and township which lies within the confines of a county functions for certain specific purposes through the county, but otherwise as a separate unit.

The municipalities have control over all local affairs and undertakings, including the construction and upkeep of roads and streets, other than main traffic arteries, provision of utility services, provision and administration of police forces, fire departments, sanitation services and social welfare services. The annual expenditures for municipal purposes are provided in part by grants received from the Province, but the bulk of the money required is provided by direct taxation imposed upon real property and, in a limited way, upon what is known as business assessment. The council of each municipality also imposes and collects from the taxpayers such moneys as the local educational authority may require.

Each unit of municipal government is governed by a council elected by popular vote. A city council is composed of a mayor and aldermen; a town council of a mayor, reeve (or reeves) and councillors; a village and a township council of a reeve (or reeves) and councillors. The basic unit for a municipal council is the township; it is composed of 5 members, including the reeve and the deputy reeve, if any. The councils in cities, towns and villages vary in number of members, but none of them exceeds 25.

The county council is composed of the reeve and deputy reeve (if any) of each town, village and township within the county boundaries. The only exceptions from that rule are the cities and the 8 separated towns referred to above. The principal functions of a county council are related to construction and maintenance of such traffic arteries as have been included in the county road system, the provision of court houses and jails, homes for the aged and child welfare institutions. Some counties also exercise a certain measure of jurisdiction over secondary education. Funds required for county purposes are apportioned among the towns, villages and townships which form the county, the apportionment being based on an equalization of the capital-value assessment of real property in each such local municipality. A city, situated within the confines of a county, shares the cost of constructing and maintaining court houses, jails and homes for the aged and child welfare institutions.

No municipality in Ontario may incur long-term debts without the sanction of the tribunal created by the Provincial Legislature and known as the Ontario Municipal Board. Debenture obligations incurred by municipalities for utility undertakings (water-works and electric light and power systems) are discharged ordinarily out of revenues derived from the sale of utility services and do not fall upon the ratepayer.

With respect to education, municipal councils have no jurisdiction, except as to the provision of moneys. Responsibility for provision of school premises, their operation and maintenance and the supply of teachers is in the hands of the local education authority, which is an elected body. In cities and towns education falls under the control of one local authority. The smaller urban communities and the townships usually have separate authorities for elementary and secondary education. In many townships there are several local boards for elementary education, the township being divided into school section areas.

The conduct of municipal institutions comes under the guidance of the Provincial Department of Municipal Affairs. The principal functions of the department are of an advisory nature, but it does exercise a limited control with respect to matters relating to municipal audits and other specific

situations. Education comes under the guidance and control of the Provincial Department of Education, which deals with the training of teachers and formulation of the curriculum.

There are considerable areas in the northernmost parts of Ontario, where as yet there is little or no settlement of population. In such areas no municipal organization exists, and control for all purposes over such areas remains in the hands of the provincial government.

AREA AND POPULATION. The total area is 412,582 sq. miles (1,550,000 sq. km), of which 344,092 sq. miles is land area and 68,490 sq. miles fresh water. The province extends 1,000 miles from east to west and 1,050 miles from south to north. About 82% of this area lies south of the isotherm of 60° F. (16° C.) mean July temperature, which is generally considered as the northern limit for the economic production of cereals.

The province is bordered by Quebec on the east and Manitoba on the west. The southern boundary has a fresh-water shoreline of 2,362 miles on the Great Lakes; its northern limits have a salt-water shoreline of 680 miles.

The population of the province (estimate, 1 June 1963) was 6,448,000. Assessed 1962 population of the principal cities: Toronto (provincial capital), 637,715 (city), 1,594,686 (city and metropolitan area); Hamilton, 266,891 (city), 391,446 (city and metropolitan area); Ottawa (federal capital), 268,374 (city), 340,172 (city and metropolitan area in the province of Ontario only); Windsor, 113,550 (city), 193,481 (city and metropolitan area); London, 165,709 (city), 177,218 (city and metropolitan area).

Vital statistics, *see* p. 224.

Religion, *see* p. 225.

EDUCATION. There is a complete provincial system of elementary and secondary schools. In Sept. 1962 there were 7,251 publicly controlled day schools, with 1,528,607 pupils enrolled and 54,172 full-time teachers engaged. The University of Toronto, founded in 1827 as King's College, had a staff of 2,144, and an enrolment of 15,696 students (1962-63). Other universities are Queen's at Kingston, Western Ontario at London, McMaster at Hamilton, Assumption University of Windsor, Ottawa and Carleton at Ottawa, Waterloo and Waterloo Lutheran at Waterloo, Laurentian at Sudbury and York at Toronto. All of them receive provincial grants. The Ontario Agricultural College and the Veterinary College are both located in Guelph. The net ordinary expenditure of the Provincial Department of Education for the fiscal year ending 31 March 1964 is estimated at \$387,538,000, excluding expenditure for the Agricultural College and other agricultural schools amounting to \$10,042,100.

FINANCE. The net ordinary revenue and expenditure and the net capital debt (in Canadian \$) for years ending 31 March were as follows:

	1960-61	1961-62	1962-63 ¹	1963-64 ¹
Revenue . . .	739,391,411	825,352,009	985,303,000	1,029,481,000
Expenditure . . .	739,000,383	824,849,622	985,273,000	1,029,103,000
Capital debt . . .	1,092,616,819	1,209,063,701	1,316,402,700

¹ Estimates.

PRODUCTION. Agriculture. In 1961 there were 18,578,507 acres of occupied farm land, and of this area 12,032,924 acres were improved land. In 1962, 7,565,000 acres were under field crops, excluding sugar beet, seeded pasture and tobacco. The cash income from the sale of farm products

was: 1959, \$855,542,000; 1960, \$869,285,000; 1961, \$890,065,000; 1962, \$931,168,000.

Forestry (1961). The total area of productive forested land was 165,741 sq. miles. The accessible area (130,633 sq. miles) comprised 54,067 sq. miles of softwood, 23,094 sq. miles hardwood and 52,283 sq. miles mixed wood. The merchantable timber stand is approximately 100,053m. cu. ft. Estimated value of forestry production was: 1959, \$131.9m.; 1960, \$154.5m.; 1961, \$148m.

Mining (1962). The estimated mineral production included gold, 2,394,000 fine oz. (\$89,553,000); nickel, 330,882,000 lb. (\$274,493,000); copper, 369,367,000 lb. (\$113,482,000); uranium, 12,842,000 lb. (\$115,289,000). The total value of the mineral production was estimated at \$902,133,708.

Industry (1960). Ontario had 13,387 manufacturing establishments employing 603,467 persons. Total salaries and wages paid, \$2,586m.; estimated selling value of factory shipments, \$11,686m.

Electricity (1962). The Hydro-Electric Power Commission of Ontario recorded for the calendar year a dependable peak capacity of 7,087,550 kw. and a net energy generated and purchased of 39,884m. kwh.

COMMUNICATIONS. *Roads.* There were (in 1961) 85,904 miles of roads, of which 78,220 were surfaced. Motor licences (in 1962) numbered 2,177,151, of which 1,718,413 were passenger cars.

Railways. As of 31 Dec. 1961, there were 10,189 miles of railway, most of which was operated by the Canadian Pacific Railway, Canadian National Railways and Ontario Northland Railway (formerly Temiskaming and Northern Ontario Railway).

Post. There were 2.5m. telephones in use in 1962.

MANITOBA

CONSTITUTION AND GOVERNMENT. Manitoba was known as the Red River Settlement before its entry into the Dominion in 1870. The provincial government is administered by a Lieut.-Governor and a legislative assembly of 57 members elected for 5 years. Women were enfranchised in 1916. The Electoral Division Act, 1955, created 57 single-member constituencies and abolished the transferable vote. The Electoral Divisions Act, 1957, created 36 rural electoral divisions, and 21 urban electoral divisions. The province is represented by 6 members in the Senate and 14 in the House of Commons of Canada. The Crown lands and other natural resources were transferred from the Dominion Government to the province as from 15 July 1930.

Lieut.-Governor: Errick French Willis (sworn in 15 Jan. 1960).

State of parties in Legislative Assembly (elected 14 Dec. 1962): Progressive Conservatives, 35; Liberals, 13; New Democratic Party, 8; Social Credit, 1.

The members of the Progressive Conservative Ministry are as follows (Jan. 1964):

Premier and President of the Executive Council, Provincial Treasurer, Minister Provincial-Dominion Relations: Duff Roblin.
Minister of Industry and Commerce: E. Gurney Evans.
Attorney-General: Stewart E. McLean, QC.
Minister of Mines and Natural Resources: Sterling R. Lyon, QC.
Minister of Education: Dr George Johnson.
Minister of Public Welfare: John B. Carroll.
Minister of Health: Charles H. Witney.
Minister of Agriculture and Conservation: G. Hutton.
Minister of Public Works: Walter C. Weir.
Minister of Labour: Obie Baizley.
Minister of Municipal Affairs: Robert G. Smellie, QC.
Without Portfolio: A. W. Harrison.
Provincial Secretary, Minister of Public Utilities: Maitland B. Steinkopf, QC.

LOCAL GOVERNMENT. The Municipal Act, R.S.M. 1954, c. 173, applies to all incorporated rural municipalities, villages, towns and cities, except cities with special charters (Winnipeg, St Boniface, and in some respects Brandon, St James, Portage la Prairie and East Kildonan).

Rural municipalities are incorporated under the Municipal Boundaries Act.

A locality containing over 500 inhabitants and a taxable assessment of over \$300,000 may be incorporated as a village corporation. No village so incorporated shall occupy an area of more than 640 acres, unless its population exceeds 2,000.

A locality containing over 1,500 inhabitants may be incorporated as a town corporation. No town incorporated after the passing of the Municipal Act, the population of which does not exceed 2,000, shall occupy an area of more than 640 acres. If the population exceeds 2,000, the limits may be increased in the proportion of 160 acres for every additional 1,000 inhabitants. Public parks are excluded in calculating area.

A town containing over 10,000 inhabitants may be erected into a city.

Upon petition from 50% of the householders in a locality which is not included within the limits of a municipality, it may be incorporated as a municipal district. Localities which do not qualify under the provisions of the Municipal Act, Municipal Boundaries Act or Local Government Districts Act, or if they desire special power or privileges, may be incorporated by special act of the legislature.

AREA AND POPULATION. The area of the province is 251,000 sq. miles (652,218 sq. km), of which 211,775 sq. miles are land and 39,255 sq. miles water. In 1912 its boundaries were extended to the shores of Hudson Bay.

The population (1963 estimate) was 956,000, of which the rural population was 333,000. Population of the principal cities (1961): Winnipeg (capital), 265,429 (metropolitan area, 475,989); St Boniface, 37,600; St James, 33,977; Brandon, 28,166; St Vital, 27,269; East Kildonan, 27,305; West Kildonan, 20,077; Transcona, 14,248; Portage la Prairie, 12,388.

Vital statistics, *see* p. 224.

Religion, *see* p. 225.

EDUCATION. Education is municipally controlled, as in all the provinces, and is supported by local taxation and government grants. The University of Manitoba, founded in 1877 in Winnipeg, had (in 1962-63) 8,715 regular students in all courses. There were (1962-63), 8,457 teachers and 205,816 pupils in 7,730 public schoolrooms. There are 47 schools having one room for high school work, 13 two-room high schools, 29 junior high schools, 25 collegiate departments and 148 collegiate institutes.

FINANCE. Revenue and expenditure (current account) for fiscal years ending 31 March (in Canadian \$):

	1958-59	1959-60	1960-61	1961-62	1962-63	1963-64 ¹
Revenue	85,356,800	93,897,600	103,038,602	112,534,139	130,075,946	136,215,633
Expenditure	81,615,122	85,880,954	93,650,490	104,179,716	119,993,410	136,061,241

¹ Estimates.

PRODUCTION. Agriculture. The southern part of Manitoba is rich agricultural land, while the northern three-fifths of the province form part of the Canadian shield, an area underlain by pre-Cambrian rocks which is rich in mineral deposits. For particulars of agricultural production and number of livestock, *see under* CANADA.

Forestry. About 45% of the land area is wooded, of which 37,547,000 acres is productive forest land. Value of forest production in fiscal year 1962-63 was over \$20m.

Fur Trade. Value of fur pelts taken during 1962 from the wild was valued at \$1.3m.; from ranch-bred animals, \$3.4m.

Fisheries. From 39,225 sq. miles of rivers and lakes covering Manitoba 36,110,600 lb. of edible fish were caught in 1963; market value, \$7,271,000. Pickerel, whitefish, saugers, pike and tullibee are the principal varieties caught.

Mining. Total value of minerals, 1963, \$171m. Principal minerals mined are nickel, copper, gold, zinc and silver. Selenium, tellurium and cadmium are recovered as by-products from base-metal operations. The International Nickel Co. of Canada mines came into production in 1961; they are producing 100m. lb. of nickel annually. New deposits of zinc, copper and nickel have been discovered in the northern area. Potential reserves of chromium, gold, bentonite, amber, asbestos, potash, beryl, cesium, kaolin and lithium also occur. The most important non-metallic minerals are cement, gypsum, sand and gravel, and building stone. Oil production in 1963 was estimated at \$9m.

Industry. The manufacturing industry produces a wide range of consumer and industrial products. Shipments were estimated at \$875m. in 1963. Industry employs 45,000 persons, paying \$164m. in salaries and wages. The largest single industry is slaughtering and meat packing, followed by iron and steel, petroleum products, transportation equipment and clothing.

In 1963 Canadian and American tourists contributed about \$41m. to the Provincial economy.

Electricity. Power generated in 1963 was 4,710m. kwh. hydraulic, 97m. kwh. thermal, 121m. kwh. interchange.

COMMUNICATIONS. In the year 1963 the province had 5,591 miles of railway, not including industrial track, yards and sidings. There were 1,332,305 miles of telephone wire and 323,581 telephone stations, excluding 355 in municipal and privately owned systems.

SASKATCHEWAN

HISTORY. Saskatchewan derives its name from the Cree Indian word, 'Kis-is-ska-toche-wan'. It officially became a province when it joined Confederation on 1 Sept. 1905.

In 1670 King Charles II granted to Prince Rupert and his friends a charter covering exclusive trading rights in 'all the land drained by streams finding their outlet in the Hudson Bay'. This included what is now Saskatchewan. The trading company was first known as The Governor and Company of Adventurers of England; later as the Hudson's Bay Company. Independent surveys indicated the need for settlement and a transcontinental railway (moves not favoured by the Hudson's Bay Company), and an established seat of government was demanded. In 1869 the North West Territories was formed, and this included Saskatchewan. In 1870 the Dominion Lands Act provided free homesteads for settlers and attracted many people. In 1882 the District of Saskatchewan was formed. By 1885 the North-West Mounted Police had been inaugurated, with headquarters in Regina (now the capital), and the Canadian Pacific Railway's transcontinental line had been completed, bringing a stream of immigrants to southern Saskatchewan. The Hudson's Bay Company surrendered its claim to territory in return for cash and land around the existing trading posts. Legislative government was introduced.

CONSTITUTION AND GOVERNMENT. The provincial government is vested in a Lieut.-Governor, an Executive Council and a Legislative Assembly, elected for 5 years. Women were given the franchise in 1916 and are also eligible for election to the legislature. State of parties in Dec. 1963: CCF-NDP (Co-operative Commonwealth Federation, renamed New Democratic Party at federal level in July 1961), 34; Liberals, 21.

Lieut.-Governor: Robert Leith Hanbidge.

The CCF-NDP Ministry in Dec. 1963 was composed as follows:

Premier and President of the Council: Woodrow S. Lloyd.

Provincial Treasurer: J. H. Brockelbank.

Minister of Mineral Resources: A. G. Kuziak.

Minister of Highways and Transportation: C. G. Willis.

Minister of Education: O. A. Turnbull.

Minister of Municipal Affairs: E. I. Wood.
Minister of Labour and Minister of Telephones: C. C. Williams.
Minister of Agriculture: I. C. Nollet.
Minister of Social Welfare and Rehabilitation: A. M. Nicholson.
Minister of Natural Resources: Eiling Kramer.
Attorney-General, Provincial Secretary: R. A. Walker, QC.
Minister of Industry and Information and Power Corporation: R. Brown.
Minister of Public Health: A. E. Blakeney.
Minister of Public Works: W. G. Davies.
Minister of Co-operation and Co-operative Development: F. Meekes.

Agent-General in London: Graham Spry, 28 Chester St., SW1.

LOCAL GOVERNMENT. The organization of a city requires a minimum population of 5,000 persons; that of a town, 500; that of a village, 100 people. No requirements as to population exist for the rural municipality and the local improvement district.

Cities, towns, villages and rural municipalities are governed by elected councils, which consist of a mayor and 6-20 aldermen in a city; a mayor and 6 councillors in a town; an overseer and 2 other members in a village; a reeve and a councillor for each division in a rural municipality (usually 6). Local improvement districts are administered by the Department of Municipal Affairs.

AREA AND POPULATION. The province stretches along the Canada-USA boundary for 393 miles east of the 110th meridian, and extends north for 761 miles. Its northern width is 276 miles. The area of the province is 251,700 sq. miles (652,000 sq. km), of which 220,182 sq. miles is land area and 31,518 sq. miles is water. The population (1961 census) was 925,181. Population of principal cities (1961 census): Regina (capital), 112,141; Saskatoon, 103,623; Moose Jaw, 33,206; Prince Albert, 24,168; Swift Current, 12,500; North Battleford, 11,230; Yorkton, 9,995; Weyburn, 9,101; Estevan, 7,728; Lloydminster, 5,667; Melville, 5,191.

Vital statistics, *see* p. 224.

Religion, *see* p. 225.

EDUCATION. The University of Saskatchewan was established at Saskatoon 3 April 1907. In 1962-63 it had 6,000 students and 492 instructors at Saskatoon and 850 students and 52 instructors at Regina Campus. There are 1,870 school districts operating under the School Act, and 16 under the Secondary Education Act, most of them administered through 56 larger school units. At 30 June 1962, 167,005 were enrolled in elementary schools, 56,256 in the high schools. There were 163 deaf and 1,150 auxiliary pupils (physically or mentally handicapped) receiving special tuition. There are two teachers' training colleges; at Saskatoon (586 students) and Regina (712 students).

FINANCE. Budget and net debt (years ending 31 March) in Canadian \$1,000:

	1959-60	1960-61	1961-62	1962-63	1963-64 ^a
Budgetary revenue	142,998	145,050	148,983	195,453	184,306

^b Estimates.

PRODUCTION. Agriculture. Saskatchewan produces more than half the wheat grown in Canada. Wheat production in 1963 was 493m. bushels from 17,910,000 acres; oats for grain, 118m. bushels from 2,216,000 acres; barley, 78m. bushels from 1,930,000 acres; rye, 5.6m. bushels from 275,400 acres; flax, 7.3m. bushels from 506,000 acres; rapeseed, 5.06m. bushels from 232,000 acres. Cash income from the sale of farm products in 1962 was \$721,586,000.

A large irrigation project—the South Saskatchewan River Development—is designed ultimately to provide for an area of 200,000 acres in Central Saskatchewan.

Forestry. Forest products valued at \$7,462,000 were produced in 1962–63.

Fur Production. In 1962–63 fur production in Saskatchewan was \$1,419,939.

Fishing. The market value of the 1962–63 commercial fish catch of 14.8m. lb. was \$1,477,448. There are 37 fish dealers, 47 agents and 26 fish packing and processing plants in the province.

Mining. At 31 Dec. 1962 mineral production was valued at \$237,749,041. Production included 66,034 oz. gold (\$2,499,013); 762,198 oz. silver (\$940,801); 64,033,759 lb. copper (\$18,978,500); 61,799,241 lb. zinc (\$5,784,302); 128,223 lb. cadmium (\$221,987); 61,248 lb. selenium and tellurium (\$351,405); 4,054,983 lb. uranium (\$39,912,340); 2,256,306 tons coal (\$4,608,339); 33,837,466 MSCF natural gas (\$2,850,668); 64,432,467 bbls petroleum (\$141,949,225); salt and potash (\$4,941,140); 246,646 tons sodium sulphate (\$3,941,774); clay products (\$1,279,260); 6,518,262 tons sand and gravel (\$3,490,287); 231,700 tons cement (\$6m.). Potash is now big business in Saskatchewan; 17 international mining interests are exploring, developing or producing potash. In 1958 exploration for petroleum produced significant indications of helium; a helium recovery plant is being constructed at Swift Current, with an estimated production of 12m. cu. ft yearly.

Industry. At 31 March 1963 Saskatchewan had 901 industrial establishments employing 13,200 persons; gross value of products in 1962, \$1,805m.; salaries and wages paid, \$52m.

COMMUNICATIONS (1962). There were approximately 8,500 miles of main railway track in operation. There were 8,289 miles of provincial highways, 121,984 miles of municipal, local and rural roads; 2,796 miles of resources development roads, and 109 miles of federal government roads in a national park.

There were 1,279 post offices, 15 sound broadcasting stations and 6 television stations. Over 250,000 telephones were connected to the Saskatchewan Government Telephone System and about 5,000 subscribers to private systems.

ALBERTA

CONSTITUTION AND GOVERNMENT. The constitution of Alberta is contained in the British North America Act of 1867, and amending Acts; also in the Alberta Act of 1905, passed by the Parliament of the Dominion of Canada, which created the province out of the then Northwest Territories. All the provisions of the British North America Act, except those with respect to school lands and the public domain, were made to apply to Alberta as they apply to the older provinces of Canada. On 1 Oct. 1930 the natural resources were transferred from the Dominion to provincial government control. The province is represented by 6 members in the Senate and 17 in the House of Commons of Canada.

The executive is vested nominally in the Lieut.-Governor, who is appointed by the federal government, but actually in the Executive Council or the Cabinet of the legislature. Legislative power is vested in the Assembly in the name of the Queen.

Members of the Legislative Assembly are elected by the direct vote of the people. Women suffrage has been established in the province.

There are 63 members in the legislature (elected 17 June 1963): 60 Social Credit, 2 Liberal, 1 Coalition.

Lieut.-Governor: His Honour J. Percy Page (appointed 19 Dec. 1959).

The members of the Ministry (all Social Credit Party) are as follows:

- Premier, Attorney-General and President of Council:* E. C. Manning.
- Minister of Public Health:* Dr J. D. Ross.
- Minister of Municipal Affairs:* A. J. Hooke.
- Minister of Railways and Highways:* G. E. Taylor.
- Minister of Education:* A. O. Aalborg.
- Minister of Agriculture:* H. E. Strom.
- Minister of Lands and Forests:* N. A. Willmore.
- Minister of Public Welfare:* L. C. Halmrast.
- Minister of Public Works:* F. C. Colborne.
- Provincial Treasurer:* E. W. Hinman.
- Ministers without Portfolio:* Ira McLaughlin, Mrs Ethel S. Wilson.
- Minister of Industry and Development, Mines and Minerals:* Russell Patrick.
- Minister of Labour and Telephones:* Raymond Reierson.
- Provincial Secretary:* A. Holowach.

Agent-General in London: R. A. McMullen (37 Hill St., W.1).

LOCAL GOVERNMENT. The local government units are City, Town, Village, County and Municipal District.

There are 10 cities in Alberta, namely: Edmonton, Calgary, Lethbridge, Wetaskiwin, Red Deer, Medicine Hat, Drumheller, Camrose, Lloydminster and Grande Prairie. These cities operate under a uniform city charter. The governing body consists of a mayor and a council of from 6 to 12 members. A new city can be incorporated by proclamation of the Lieut.-Governor-in-Council. A population of 6,000 is required, but no area is specified in the statutes.

There is no limit of area for a Town specified in the Town and Village Act. The population requirements are 700 inhabitants, and the area at incorporation is that of the original village and may include adjoining land

on which there is at least 1 *occupied* dwelling or place of business for every 5 acres.

A Village must contain 50 separate and occupied dwellings, but there is no limit of area specified. The Town and Village Act requires each dwelling to have been occupied continuously for a period of at least 1 month.

A County area is an area incorporated through an order of the Lieut.-Governor-in-Council under the provisions of the County Act.

A Municipal District is an area which has been incorporated under the Municipal District Act. Areas not incorporated as Counties or Municipal Districts are termed Improvement Districts and Special Areas. There are no restrictions as to the number of residents of a County or Municipal District nor is the area specified in the statutes.

AREA AND POPULATION. The area of the province is 255,285 sq. miles, 248,800 sq. miles being land area and 6,485 sq. miles water area. The population (1963) was 1,405,000. At the 1961 census the rural population numbered 488,733, and the urban 843,211. Population of the principal cities (civic census 1963): Edmonton, 303,756; Calgary, 276,975; Lethbridge, 36,257; Medicine Hat, 25,109; Red Deer, 23,106.

Vital statistics, *see* p. 224.

Religion, *see* p. 225.

EDUCATION. Schools of all grades are included under the term of public school. The same boards of trustees control the schools from the kindergarten to entrance to the university. All schools are supported by taxes levied on property collected by the municipal authorities, supplemented by government grants. In 1962 there were 1,416 schools in operation containing 11,285 classrooms with 312,684 pupils. The University of Alberta, organized in 1907, had, in 1962-63, 16,839 students.

JUSTICE. Judicial power of the province is vested in the Supreme Court, consisting of 2 divisions, the appellate and trial divisions. The judges are appointed by the Dominion Government, and hold office until retirement at the age of 75. There are also minor courts of civil and criminal jurisdiction. The district courts have full jurisdiction over all matters up to \$1,000. Magistrates have jurisdiction over claims for debts up to \$100. Juvenile courts have power to try boys under 16 and girls under 18 years of age.

The system of procedure in civil and criminal cases conforms as nearly as possible to the English system.

FINANCE. The revenue (in Canadian \$) of the province is derived from federal subsidies, school lands and provincial sources. The fiscal year ends 31 March.

Ordinary budget	1959-60	1960-61	1961-62	1962-63	1963-64 ¹
Revenue	334,816,389	307,854,592	339,495,072	381,069,588	343,999,850
Expenditure	228,156,832	253,966,311	281,165,375	316,015,383	302,458,013

¹ Estimates, income accounts.

The net funded debt of the province on 31 March 1962 amounted to \$22,121,492, and the unfunded debt to \$4,970,353; total public debt, \$27,091,845. Assets at that date were \$270,091,590.

PRODUCTION. Agriculture. Alberta is pre-eminently an agricultural province. The surveyed area of the province comprises about 85m. acres,

of which approximately 70m. acres may be classed as lands capable of agricultural development. Up to the present, however, less than one-third of this area has been brought under cultivation.

For particulars of agricultural production and livestock, see under CANADA. Value of agricultural production in 1962 totalled \$828,786,000.

Grain elevators (1962) had a capacity of 137,013,100 bushels, including grain housed in temporary annexes.

Forestry. Alberta has an estimated net merchantable volume of 50,000m. cu. ft of wood, half coniferous and half deciduous. The estimated value of forest produce in 1962 was \$25.2m.

Fisheries. The lakes of the province abound in whitefish, pickerel, pike and trout, but the industry is not developed. Value of fish marketed in the year ending 31 March 1963 was \$1,141,728.

Mining. A coal survey of Alberta by the Geological Survey of Canada places the coal area at 17,000 sq. miles containing 48,000m. tons, of which 20,000m. tons are mineable. The output in 1962 was 2,087,310 tons, valued at \$9,983,327. Natural gas is found abundantly in numerous localities. In 1962, 781,919,386 cu. ft with a sales value of \$73,868,856, were produced.

In 1962, 165,124,967 bbls of crude oil were produced with a sales value of \$414,438,393. Alberta produced 68% of Canada's production.

Immense deposits of bituminous sand containing on an average 15-18% bitumen are situated in the McMurray district in northern Alberta.

Value of total mineral production in 1962, \$578,821,732.

Industry. The leading industries are: Meat packing, oil refining, iron and steel products, dairy and poultry products, flour and feed milling, industrial chemicals and plastics, pulp and paper mills, brewing and distilling.

Statistics of manufactures for 1961: Number of industrial establishments, 1,850; number of employees, 39,500; salaries and wages, \$165m.; cost of materials \$580m.; value of products, \$935,423,000.

COMMUNICATIONS. In 1962 there were 90,497 miles of roads and highways, including 48,432 miles gravelled and 3,912 miles pavement.

In March 1962, there were 535,459 motor vehicles registered, including 374,636 passenger cars, 155,944 public and commercial vehicles and 4,879 motor cycles.

Length of main railway lines, in 1963, was 5,668 miles. Alberta's modern telephone system is owned and operated by the provincial government, except in the city of Edmonton and most rural lines. In 1963 the total mileage of wire in all the telephone systems in the province was 1,984,536. There were 466,624 telephones in service at 30 June 1963.

BRITISH COLUMBIA

CONSTITUTION AND GOVERNMENT. British Columbia (then known as New Caledonia) originally formed part of the Hudson's Bay Company's concession. In 1849 Vancouver Island and in 1858 British Columbia were constituted Crown colonies and in 1866 the two colonies were united. On 20 July 1871 British Columbia entered the Canadian Confederation.

British Columbia has a unicameral legislature of 52 elected members. Government policy is determined by the Executive Council, responsible to the Legislature. The Lieut.-Governor is appointed by the Governor-General in Council, and is the official representative of the Crown in the Province and acts with and on the advice of the Executive Council.

Lieut.-Governor: Maj.-Gen. The Hon. George R. Pearkes, VC, PC, CB; DSO, MC (sworn in on 13 Oct. 1960).

The Legislative Assembly is elected for 5 years; every male or female Canadian citizen 19 years and over, having resided 6 months in the Province, duly registered, is entitled to vote. Party standings after the elections of 30 Sept. 1963 were as follows: Social Credit, 33; New Democratic Party-CCF, 14; Liberal, 5; total, 52.

The Province is represented in the Federal Parliament by 22 members in the House of Commons, and 6 Senators.

The members of the Social Credit Ministry were, in Dec. 1963, as follows:

Premier, President of the Executive Council and Minister of Finance: W. A. C. Bennett, LL.D.

Provincial Secretary, Minister of Municipal Affairs and of Social Welfare: W. D. Black.

Attorney-General and Minister of Industrial Development, Trade and Commerce: R. W. Bonner, QC.

Minister of Lands, Forests and Water Resources: R. G. Williston.

Minister of Agriculture: F. X. Richter.

Minister of Mines and Petroleum Resources, of Recreation and Conservation and of Commercial Transport: W. K. Kiernan.

Minister of Highways: P. A. Gaglardi.

Minister of Education and of Labour: L. R. Peterson, QC.

Minister of Health Services and Hospital Insurance: E. C. F. Martin.

Minister of Public Works: W. N. Chant.

Agent-General in London: Dr J. V. Fisher (British Columbia House, 1 Regent St., SW1).

LOCAL GOVERNMENT. Vancouver City was incorporated by statute and operates under the provisions of the Vancouver Charter of 1953, and amendments. This is the only incorporated area in British Columbia not operating under the provisions of the Municipal Act. Under this Act municipalities are divided into the following classes: (a) A local district where the population does not exceed 500, governed by a council consisting of a chairman and 2 trustees; (b) a village where the population exceeds 500 but does not exceed 2,500, governed by a council consisting of a chairman and 4 commissioners; (c) a town where the population exceeds 2,500 but does not exceed 5,000, governed by a council consisting of a mayor and 4 aldermen; (d) a city where the population exceeds 5,000, governed by a council consisting of a mayor and 6 or 8 aldermen depending on population;

(e) a district where the area exceeds 2,000 acres and the average density is less than 2 persons per acre, governed by a council consisting of a reeve and 6 or 8 councillors depending on population. The councils of a city or district municipality may petition for supplementary Letters Patent to establish the number of members as 4, 6, 8 or 10 exclusive of the mayor or reeve.

AREA AND POPULATION. British Columbia, Canada's Pacific Coast Province, has an area of 366,255 sq. miles, of which 359,279 sq. miles are land and 6,976 sq. miles are water (but exclusive of territorial seas). It lies between 49° and 60° N. lat. Vancouver Island has an area of about 12,408 sq. miles.

The estimated population as at 1 June 1963 was 1,695,000.

Some of the principal cities and towns and their 1961 census populations are: Victoria (the capital), 54,941; Vancouver, 384,522; Nanaimo, 14,135; Prince George, 13,877; Penticton, 13,859; Prince Rupert, 11,987; Trail, 11,580; Dawson Creek, 10,946.

Vital statistics, see p. 224.

Religion, see p. 225.

EDUCATION. A complete system of free and non-sectarian education was established in 1872. Attendance is compulsory from the age of 7 to 15. During the school year 1961-62 there were 340,290 pupils enrolled in 1,299 public schools instructed by 12,772 teachers. In addition, there are a number of private institutions modelled on the English public-school system. Higher education is provided by 3 universities: the University of British Columbia at Vancouver (13,598 students in 1962); the University of Victoria (1,801) and Notre Dame University of Nelson at Nelson (245).

FINANCE. Ordinary revenue and expenditure in Canadian \$ for fiscal years ending 31 March:

	1959-60	1960-61	1961-62	1962-63 ¹	1963-64 ¹
Revenue	307,366,250	314,382,430	326,076,151	336,000,000	372,907,415
Expenditure	235,729,477	259,217,669	266,645,374	284,804,223	303,940,565

The annual surplus is available for capital investment.

¹ Estimates.

The main items of expenditure in 1962-63 were as follows: Highways, \$77,485,438; education, \$85,163,699; health services, \$57,958,435; finance, \$39,622,659; social welfare, \$30,389,531; lands, forests and water resources, \$17,115,752; public works, \$12,813,815; attorney-general, \$12,577,438.

PRODUCTION. The value of production of British Columbia's 4 major industries in 1962 were: Forestry, \$780m.; minerals and petroleum, \$229,276,385; agriculture, \$151,087,000; fisheries, \$94,673,000. The estimated gross value of manufacturing production was \$2,132,642,000.

British Columbia's labour income for 1962, was \$2,131m.

The external trade through British Columbia customs ports had in 1962 a value of \$1,244.75m. for exports and a value of \$477,037,000 for imports.

COMMUNICATIONS. *Railways.* The province is crossed from east to west by two transcontinental railways, the Canadian Pacific Railway and the Canadian National Railway, both with terminals at Vancouver. The CNR also has a terminal at Prince Rupert. A provincially owned railway,

the Pacific Great Eastern, operates a line running north and south from Vancouver to Dawson Creek and Fort St John. During 1962, 12,765,976 tons of railway freight originated and 13,558,252 tons terminated in British Columbia. As of 31 Dec. 1962 there were 4,527 miles of main-line track in the province.

Roads. As of 31 March 1962 there were exclusive of urban streets, 23,775 miles of highway in the province.

Shipping. Coastal and lake steamship services are provided by the Canadian Pacific Steamship Co., the Canadian National Railway, the B.C. Government Ferry System, the Northland Navigation Co. Ltd, Black Ball Transport Inc., and the Alaska Marine Highway and the Washington State Ferries. The Province has many deep, ice-free harbours, fully equipped for all purposes of modern ocean transport. Total tonnage loaded for foreign countries in British Columbia ports in 1962 were 14,279,758 tons, while 2,356,472 tons of cargo from foreign countries were unloaded.

Aviation. Vancouver and Victoria are connected with the other parts of Canada by airways. In addition to two transcontinental air routes, there are a number of intraprovincial air routes; also there are direct air routes between Vancouver and the United States, Europe, Mexico, South America, Hawaii, Australia and Japan.

BANKING. Bank debits: 1958, \$16,244,464,000; 1959, \$17,626,917,000; 1960, \$18,018,609,000; 1961, \$20,433,555,000; 1962, \$23,089,746,000.

YUKON TERRITORY

CONSTITUTION AND GOVERNMENT. The Yukon Territory was constituted a separate territory in June 1898. It is governed by a Commissioner (appointed) and a Legislative Council of 7 members who are elected for a 3-year term of office. The seat of government is at Whitehorse.

Commissioner: G. R. Cameron.

The legislative authority of council includes direct taxation, education, marriage, property and civil rights, territorial civil service, municipalities and generally all matters of local or private nature.

AREA AND POPULATION. The area of the Territory is 207,076 sq. miles (536,000 sq. km), of which 1,730 sq. miles is water. The population reached its peak in 1901 with 27,219. The census population in 1961 was 14,628 (85% Whites, 14% Indians and less than 1% Eskimos). Principal centres are Whitehorse (capital), 5,031; Dawson, 881; Mayo, 342.

Vital statistics, see p. 224. Religion, see p. 225.

EDUCATION (1962-63). The Territory had 21 schools with 135 teachers and 2,929 pupils; 1 federal residential school for Indian children had 152 pupils. The amount spent on education was \$1,152,807.

FINANCE. The territorial revenue and expenditure (in Canadian \$) for fiscal years ended 31 March was:

	1959-60	1960-61	1961-62	1962-63	1963-64 ¹
Revenue . . .	2,474,418	2,571,483	2,879,766	3,762,368	4,209,503
Expenditure . . .	2,761,867	2,990,141	3,447,547	4,482,642	5,846,951

¹ Estimates.

PRODUCTION. Mining. Mining is the principal occupation of the people. Silver, gold, lead and zinc are the chief minerals. In 1962 the output of gold was 54,086 fine oz. (\$2,023,357); silver 6,581,615 fine oz. (\$7,667,581); lead, 16,252,650 lb. (\$1,612,263); zinc, 12,509,000 lb. (\$1,513,589); total value, \$13,316,782, including copper, cadmium and coal.

At 31 March 1962 oil and gas exploration permits were issued over a total acreage of 10,967,868.

Forestry. The principal forest trees are white spruce, jack-pine, balsam, poplar and birch. In 1962-63, 8,096,274 bd ft measure of lumber, 2,103,375 linear ft of round timber and 6,892 cords of fuelwood were cut.

Game and Furs. The country abounds with big game, such as moose, caribou, mountain sheep and bear. The fur yield for the year ended 31 July 1962 totalled 337,145 pelts, valued at \$888,964. Beaver, muskrat and squirrel constituted the greatest portion of the catch.

COMMUNICATIONS. Shipping. The Yukon River, 1,979 miles long, of which 1,777 are navigable (570 within Yukon Territory), formerly offered water communication from the end of the railway at Whitehorse to Dawson, but, after the construction of an all-weather highway to Dawson, there is now only a barge service from Dawson down-river and up the Porcupine River to Old Crow.

Roads. The Alaska Highway and its side roads connect the Yukon's main cities with Alaska and the provinces and with adjacent mining centres. Construction is under way on a 225-mile, all-weather road between Watson Lake on the Alaska Highway and Ross River on the Canol Road. A 74-mile road from Dawson to Chapman Lake, the first part of the proposed road from Dawson to the Eagle Plain, has been completed. Reconstruction on the Whitehorse-Keno road is nearly completed and the Stewart Crossing-Dawson road has been completed.

Railways. The 110-mile White Pass and Yukon Railway connects Whitehorse with year-round ocean shipping at Skagway, Alaska.

Telecommunication. There were 20 post offices in 1961; revenue, 1961-62, \$146,633. A micro-wave system interconnects the Territory with Alaska, the provinces and the United States. The system can handle 600 telephone

voice channels or, alternatively, a television programme. A landline telephone system now connects Dawson, Mayo and way points with Whitehorse and the provinces. The Canadian Broadcasting Corporation has studios at Whitehorse and relay transmitters at Dawson, Mayo, Elsa and Watson Lake.

Aviation. Commercial airlines provide passenger and express services every weekday between Vancouver and Whitehorse, and Edmonton and Whitehorse. These services, which extend to Fairbanks, Alaska, connect with transcontinental airlines at Edmonton and Vancouver. A service is also maintained twice weekly from Whitehorse to Mayo and Dawson.

THE NORTHWEST TERRITORIES

CONSTITUTION AND GOVERNMENT. The Northwest Territories comprise all that portion of Canada lying north of the 60th parallel of N. lat. except those portions within the Yukon Territory and the Provinces of Quebec and Newfoundland: it also includes the islands in Hudson Bay, James Bay and Ungava Bay except those within the Provinces of Manitoba, Ontario and Quebec.

The Northwest Territories is governed by a Commissioner and a Council. The Council is composed of 9 members, 5 appointed by the Governor-General-in-Council and 4 elected from the Mackenzie District. The seat of the government is at Ottawa, but one meeting a year must be held in the Territories.

Commissioner: B. G. Sivertz. *Deputy Commissioner:* W. G. Brown.

Legislative powers are exercised by the Commissioner-in-Council on such matters as direct taxation within the Territories in order to raise revenue, maintenance of municipal institutions, administration of justice, licences, solemnization of marriages, education, public health, property, civil rights and generally all matters of a local nature.

The administration is carried on by the Territorial Division of the Northern Administration Branch, Department of Northern Affairs and National Resources, Ottawa. District offices are at Fort Smith and Ottawa, and regional offices at Inuvik, Yellowknife, Churchill and Frobisher Bay.

The Royal Canadian Mounted Police are designated as District Registrars of Vital Statistics in most settlements.

AREA AND POPULATION. The total area of the Territories is 1,304,903 sq. miles (3,379,700 sq. km), divided into 3 districts, namely, Mackenzie (527,490 sq. miles), Keewatin (228,160 sq. miles) and Franklin (549,253 sq. miles). The population at the census of 1961 was 22,998, about two-thirds of whom were Indians or Eskimos.

EDUCATION (1962-63). The Department of Northern Affairs and National Resources operated 55 schools with 254 teachers and assisted in the operation of 2 company schools with 3 teachers, 1 part-time school and 1 seasonal summer school; one public school district operated at Yellowknife, and Roman Catholic separate school districts at both Yellowknife and

Hay River. The total enrolment was 5,968, of whom 2,390 were Eskimos and 1,224 Indians. Eight federal pupil residences accommodate a total of 1,118 pupils, and 17 family-type units each accommodate 8 pupils. Free correspondence courses are available to any child whose parents request this service and to adults who desire to enroll. Vocational training courses are also provided. The Northwest Territories Council provides also outright grants or interest-free loans for university students from the Territories.

HEALTH AND WELFARE (1962). There were 11 hospitals in the Territories, 7 operated by missions, 1 by a locally elected hospital board at Yellowknife, 2 by the federal government and 1 by private company. Sixteen nursing stations and 8 health stations were in operation. Physicians, nurses, a dentist, an ophthalmologist, a radiologist and an X-ray technician accompanied the Government's Eastern Arctic supply ship to treat the sick and to conduct physical examinations and X-rays and administer preventive inoculations.

Welfare services are provided by professional social workers. Facilities include 2 rehabilitation centres, 4 children's receiving homes and 2 homes for the aged.

PRODUCTION. Mining, fishing and trapping are the principal industries.

Mining. Mineral production for the year 1962 was valued at \$16,783,145, of which gold accounted for \$14,718,329, silver for \$84,590, copper for \$188,928 and nickel for \$1,791,298.

Yellowknife continues to be the centre of goldmining activity, although prospecting permits were granted and claims recorded in the Contwoyto Lake area, following the discovery of a rich occurrence of gold. Impressive deposits of high-grade iron ore were found along the Yukon-Northwest Territories boundary, and an airstrip and winter road into the area have been built.

As of 31 March 1963, permits for oil and gas exploration were held for 35,628,496 acres on the mainland, 53,619,477 acres on the Arctic Islands north of the 70th parallel and 17,828,162 acres of the continental shelf. An extensive area of oil-saturated sand was discovered in Aug. 1962 on the north-western section of Melville Island in the Arctic.

Crude oil, discovered in 1920, is produced and refined at Norman Wells on the Mackenzie River; production, 1962, 566,168 bbls valued at \$642,095.

Furs. Fur produced during the year ended 30 June 1962 was valued at \$888,964 from 337,146 pelts, largely muskrats. Much the most valuable species is the white fox, worth \$326,847 in 1961-62.

Fisheries. Commercial fishing on Great Slave Lake in the summer of 1962 and winter of 1962-63 produced 6,201,000 lb. of fish; valued at \$1.4m., principally whitefish and lake trout.

Forestry. The principal trees are white spruce, jack-pine, balsam, poplar and birch. In 1962-63, 2,060,055 bd ft measure of lumber, 172,000 linear ft of round timber and 3,741 cords of fuelwood were cut.

Game. More than 6,000 reindeer are maintained in the Mackenzie Delta region in 2 herds; one of 2,000 is owned and managed by Eskimos. A herd of some 10,000 buffalo is protected in Wood Buffalo National Park. Barren ground caribou are increasing; due to effective wolf control.

COMMUNICATIONS. *Shipping.* A direct inland-water transportation route for about 1,700 miles is provided by the Mackenzie River and its tributaries, the Athabasca and Slave rivers. Subsidiary routes on Lake Athabasca, Great Slave and Great Bear River and Lake total more than 800 miles.

Roads. The Mackenzie Highway connects Grimshaw, Alta., with Hay River on Great Slave Lake (381 miles); it has been extended to Yellowknife on the north arm of the lake. All-weather roads east from Yellowknife towards Mackay Lake and from Hay River to Fort Smith *via* Pine Point are under construction.

Railways. Construction began on the 438-mile Great Slave Railway in Feb. 1962. This line will link the south shore of Great Slave Lake to the southern network, with a spur to major base metal deposits at Pine Point.

Post (1962). There were 40 post offices; the 1960-61 revenue was \$112,446. The CBC northern service operated radio stations at Yellowknife, Hay River, Fort Smith, Inuvik and Frobisher Bay. Telephone communication has been established between southern Canada and Fort Smith, Hay River and Yellowknife in the Mackenzie District and Frobisher Bay on Baffin Island. High-frequency telephone service is also available throughout the eastern portions of the Northwest Territories.

Aviation (1962). Twelve airports are operated by the Department of Transport and regular mail, passenger and express services are maintained throughout the Territories. Six private airfields are owned by mining companies and 49 water aerodromes are in operation. Scheduled services join major points with centres in southern Canada.

THE COMMONWEALTH OF AUSTRALIA

HISTORY. On 1 Jan. 1901 New South Wales, Victoria, Queensland, South Australia, Western Australia and Tasmania were federated under the name of the 'Commonwealth of Australia', the designation of 'colonies' being at the same time changed into that of 'states'—except in the case of Northern Territory, which was transferred from South Australia to the Commonwealth as a 'territory' on 1 Jan. 1911.

In 1911 the Commonwealth acquired from the State of New South Wales the Canberra site for the Australian capital. Building operations were begun in 1923 and Parliament was opened at Canberra on 9 May 1927 by HRH the Duke of York (afterwards King George VI). A further area at Jervis Bay was acquired in 1915.

Territories under the administration of the Commonwealth, but not included in it, comprise Papua (1 Sept. 1906), Norfolk Island, the trusteeship territories of New Guinea and Nauru, the territory of Ashmore and Cartier Islands, and the Australian Antarctic Territory (24 Aug. 1936), comprising all the islands and territory other than Adélie Land, situated south of 60° S. lat. and between 160° and 45° E. long.

The British Government transferred sovereignty in the Heard Island

and McDonald Islands to the Australian Government on 26 Dec. 1947. Cocos (Keeling) Islands on 23 Nov. 1955 and Christmas Island on 1 Oct. 1958 were also transferred to Australian jurisdiction.

CONSTITUTION AND GOVERNMENT

FEDERAL GOVERNMENT. Legislative power in the Commonwealth is vested in a Federal Parliament, consisting of the Queen, represented by a Governor-General, a Senate and a House of Representatives. Under the terms of the constitution there must be a session of parliament at least once a year.

The Senate comprises 60 senators (10 for each State voting as one electorate) chosen for 6 years. In general, the Senate is renewed to the extent of one-half every 3 years, but in case of prolonged disagreement with the House of Representatives, it, together with the House of Representatives, may be dissolved, and an entirely new Senate elected. The House of Representatives consists, as nearly as may be, of twice as many members as there are senators, the numbers chosen in the several States being in proportion to population as shown by the latest statistics, but not less than 5 for any original State. The numerical size of the House was determined at 121 members in 1948, and increased to 122 in 1954 (excluding the non-voting members for Northern Territory and the Australian Capital Territory). The Northern Territory has been represented by one member in the House of Representatives since 1922, and the Australian Capital Territory by one member since 1949. The members for the Territories may join in the debates, but are not entitled to vote except on laws, motions, etc., relating solely to the respective Territories. The House of Representatives continues for 3 years from the date of its first meeting, unless sooner dissolved. Every senator or member of the House of Representatives must be a British subject, be of full age, possess electoral qualifications and have resided for 3 years within Australia. The franchise for both chambers is the same and is based on universal adult (male and female) suffrage. Compulsory voting was introduced in 1925. If a member elected to the Federal Parliament holds a seat in a State parliament, he must relinquish it before entering the Federal Parliament.

Formally, executive power in the Commonwealth is vested in the Governor-General, who is advised by an Executive Council. This is presided over by the Governor-General, and its members hold office at his pleasure. All Ministers of State are *ex-officio* members of the Executive Council. Meetings are formal and official in character, and a record of proceedings is kept by the secretary or clerk. At Executive Council meetings the decisions of the Cabinet are (where necessary) given legal form, appointments made, resignations accepted, proclamations issued, and regulations and the like enacted.

The policy of a ministry is, in practice, determined by the Ministers of State meeting without the Governor-General under the chairmanship of the Prime Minister. This group, known as the Cabinet, does not form part of the legal mechanism of government; its meetings are private and deliberative; the actual ministers of the day are alone present; no records of the meetings are made public; and the decisions taken have, in themselves, no legal effect.

In Jan. 1956 the composition of the Ministry was assimilated to the system prevailing in the UK. It now consists of a Cabinet including a limited number of Ministers, and a group of Ministers not in the Cabinet who can be invited to attend Cabinet meetings whenever matters affecting their departments are being considered.

The legislative powers of the Federal Parliament embrace commerce, shipping, etc.; finance, banking, currency, etc.; defence; external affairs; postal, telegraph and like services; census and statistics; weights and measures; copyright; railways; conciliation and arbitration in industrial disputes extending beyond the limits of any one State; social services (an amendment to the constitution in 1946 specifying, in addition to the existing provision for invalid and old-age pensions, the provision of maternity allowances, widows' pensions, child endowment, unemployment, pharmaceutical, sickness and hospital benefits, medical and dental services, etc.). The Senate may not originate or amend money bills; and disagreement with the House of Representatives may result in dissolution or, in the last resort, a joint sitting of the two Houses. No religion may be established by the Commonwealth. The Federal Parliament has limited and enumerated powers, the several State parliaments retaining the residuary power of government over their respective territories. If a State law is inconsistent with a Commonwealth law, the latter prevails.

The constitution also provides for the admission or creation of new States. Proposed laws for the alteration of the constitution must be submitted to the electors, and they can be enacted only if approved by a majority of the States and by a majority of all the electors voting.

The 25th Parliament was elected on 30 Nov. 1963.

House of Representatives: Liberal Party, 52; Country Party, 20 (Government Coalition); Australian Labour Party, 52 (Opposition); total, 124 (including the non-voting members for Territories: ACT, 1 Labour; NT, 1 Labour).

Senate (from 1 July 1963): Liberal Party, 25; Country Party, 6 (Government Coalition); Australian Labour Party, 27 (Opposition); Australian Democratic Labour Party, 1; Independent, 1.

Governor-General: The Rt. Hon. Viscount De L'Isle, VC, PC, GCMG, GCVO (appointed 10 April 1961).

STATE GOVERNMENT. In each of the 6 States (New South Wales, Victoria, Queensland, South Australia, Western Australia, Tasmania) there is a State government whose constitution, powers and laws continue, subject to changes embodied in the constitution of the Commonwealth and subsequent alterations and agreements, as they were before federation. The system of government is the same as that described above for the Commonwealth—*i.e.*, the sovereign, her representative (in this case a governor), an upper and lower house of parliament (except in Queensland, where the upper house was abolished in 1922), a cabinet led by the premier and an executive council. Among the more important functions of the State governments are those relating to education, health, hospitals and charities, law, order and public safety, business undertakings such as railways and tramways, and public utilities such as water supply and sewerage. In the domains of education, hospitals, justice, the police, penal establishments, and railway and tramway operation, State government activity predominates. Care of the public health and recreative facilities are shared with local government authorities

and the Commonwealth government, social services other than those referred to above are now primarily the concern of the Commonwealth government, and the operation of public utilities is shared with local and semi-governmental authorities. Other activities of State government pertain to lands and surveys, agriculture, forestry and public works, including roads (the latter shared with local and semi-governmental authorities).

Deakin, A., *The Federal Story*. Melbourne, 1944

LOCAL GOVERNMENT. The system of municipal government is broadly the same throughout the Commonwealth, although local government legislation is a State matter.

Each State is sub-divided into areas known variously as municipalities, cities, boroughs, towns, shires or district councils, numbering in all 901. Within these areas the management of road, street and bridge construction, health, sanitary and garbage services, water supply and sewerage, and electric light and gas undertakings, hospitals, fire brigades, tramways and omnibus services and harbours is the duty of elected aldermen and councillors. The scope of their duties, however, differs considerably, for in all States the State government, either directly or through semi-governmental authorities, also carries out these types of services. In some instances, e.g., in New South Wales, a number of local government authorities combine to conduct a public undertaking such as the supply of water or electricity.

RELIGION

Under the constitution the Commonwealth cannot make any law to establish any religion, to impose any religious observance or to prohibit the free exercise of any religion, nor can it require a religious test as qualification for office or public trust under the Commonwealth. The figures in the table refer to those religions with the largest numbers of adherents at the census of 1961. The census question on religion was not obligatory, however.

SOCIAL WELFARE

The Commonwealth Social Services Act 1947-63 provides for the payment of age pensions to men 65 years of age and over, and to women 60 years of age and over, who have lived in Australia for at least 10 years, and of invalid pensions to persons 16 years of age and over, who have lived at least 5 years in Australia and who are permanently incapacitated for work or permanently blind. Age and invalid pensions are subject to a means test applied to both income and property; blind persons are not subject to this means test. The maximum rate of pension is £5 5s. per week for married persons and £5 15s. for single persons. During 1962-63 expenditure on age and invalid pensions was £A187,753,563 and expenditure on funeral benefits in respect of pensioners' deaths was £A401,034.

A maternity allowance is paid without means test in respect of every viable child born (alive or dead) in Australia. The rates are £A15 where there are no other children under 16 years; £A16 where there are one or two other children under 16; £A17 10s. where there are three or more other children under 16; in addition, £A5 is paid for each additional child born at a birth. Expenditure during 1962-63 on maternity allowances was £A3,781,380.

Child endowment is paid for children under 16 years at the rate of 5s. per week for first or only child and 10s. per week for other children. Expenditure during 1962-63 was £A67,710,463.

A payment of £A5 15s. per week is made to widows maintaining children under 16 years of age (plus a mother's allowance of £2 and 15s. per week for each child in her custody), and of £A5 2s. 6d. per week to widows 50 years and over not maintaining children. An allowance of £A5 2s. 6d. per week, for not more than 26 weeks (in cases of pregnancy, until the birth of the child) following the death of the husband, is also provided for widows under 50 years in necessitous circumstances not maintaining children. A woman whose husband is in prison is treated as a widow. The cost of widow's pensions in 1962-63 was £A15,676,704.

Unemployment and sickness benefits are paid to persons between the ages of 16 and 65 (males) and 16 and 60 (females) who have suffered a loss of income through unemployment or sickness and are not in receipt of an age, invalid, widow's, service pension or TB allowance. Claimants must have resided in Australia for the 12 months preceding the claim, or they must satisfy the Director-General of Social Services that they intend to reside permanently in Australia. The number of claims granted and amounts paid during 1962-63 were: Unemployment, 200,982, £A10,650,628; sickness, 66,402, £A3,375,235; special, 8,227, £A631,592 (including special benefit payments to migrants in reception and training centres);

Under the National Health Act 1953-62, the Commonwealth Government pays £A1 per day for each insured qualified patient and 8s. per day for all uninsured patients in public and approved private hospitals. The cost of these services in 1962-63 was £A23,663,050.

From Sept. 1950 to March 1960 certain life-saving and disease-preventing drugs were provided free of charge. A fee of 5s. is now paid for each prescription. The cost of these benefits in 1962-63 was £A28,521,767.

Under the medical benefit scheme (operated since July 1953) the Common-

wealth Government subsidizes the payment of medical expenses of members of registered organizations. . . Expenditure was £A11,737,162 in 1962-63.

The pensioners' medical service (begun 21 Feb. 1951) provides free medical service and pharmaceutical benefits to eligible pensioners and their dependants. Expenditure was £A14,506,210 in 1962-63.

The Tuberculosis Act 1948 provides for diagnosis, treatment, after-care and allowances to sufferers and their dependants. The Commonwealth Government meets approved additional maintenance cost and provides all capital money required. Cost of this service in 1962-63 was £A803,516 for allowances, £A4,965,910 for maintenance payments to the States and £A491,993 for capital expenditure.

Service pensions are paid to (a) aged ex-members of the forces, (b) ex-members of the forces who are permanently unemployable and their dependants, (c) ex-members of the forces suffering from tuberculosis and their dependants. The numbers of pensions (dependants stated in brackets) in each class at 30 June 1963 were: (a) 30,818; (b) 14,278 (14,368); (c) 1,160 (1,537).

JUSTICE

The judicial power of the Commonwealth is vested in the High Court of Australia (the federal supreme Court), in the federal Courts created by Parliament (the Federal Court of Bankruptcy and the Commonwealth Industrial Court) and in the State Courts vested by Parliament with federal jurisdiction.

High Court. The High Court consists of a Chief Justice and 6 other Justices, appointed by the Governor-General in Council. The Constitution confers on the High Court original jurisdiction, *inter alia*, in all matters arising under treaties or affecting consuls or other foreign representatives, and between the States of the Commonwealth, or a State and the Commonwealth. Parliament may make laws conferring original jurisdiction on the High Court in matters arising under the Constitution or under any laws made by Parliament.

The High Court may hear and determine appeals from its own Justices exercising original jurisdiction, from any other federal Court, from a Court exercising federal jurisdiction, and from the Supreme Courts of the States. There is a limited right of appeal from the High Court to the Privy Council, and in certain important types of constitutional disputes the leave of the High Court so to appeal is necessary.

Other Federal Courts. Two other federal courts, which have been created to exercise special jurisdiction, are the Commonwealth Industrial Court (*see below*) and the Federal Court of Bankruptcy. The Federal Court of Bankruptcy consists of a Judge appointed by the Governor-General in Council. The State Supreme Courts have been vested with federal jurisdiction in bankruptcy.

State Courts. The general federal jurisdiction of the State Courts extends, subject to certain restrictions and exceptions, to all matters in which the High Court has jurisdiction or in which jurisdiction may be conferred upon it. In matters of non-federal jurisdiction appeal is still possible, as a matter of law, from the State Courts direct to the Privy Council.

Industrial Tribunals. The chief industrial tribunals of the Commonwealth are the Industrial Court, constituted by judges, and the Conciliation and Arbitration Commission, constituted by presidential members (with the status of judges) and commissioners. The Commonwealth Industrial Court deals with questions of law, the judicial interpretation of awards, imposition of penalties, etc. The Commission's functions include settling industrial disputes, making awards, determining the standard hours of work, the basic wage, etc.

FINANCE

COMMONWEALTH. In 1929, under a financial agreement between the Commonwealth and States, approved by a referendum, the Commonwealth

took over, all State debts existing on 30 June 1927 and agreed to pay £A7,584,912 a year for 58 years towards the interest charges thereon, and to make substantial contributions towards a sinking fund to extinguish existing debts in 58 years and future debts in 53 years. The Commonwealth Government arranges all borrowing for both Commonwealth and States through a loan council consisting of representatives of Commonwealth and State governments. Since 1942 the Commonwealth Government alone has levied taxes on incomes. In return for vacating this field of taxation, the States are reimbursed by a grant from the Commonwealth out of revenue received. All figures in the following table are in £A1,000 (for years ending 30 June).

DEFENCE

Army. The military forces of Australia are administered by a Military Board, consisting of the Minister for the Army (President), the Chief of the General Staff (Chairman), Adjutant-General, Quartermaster-General, Master-General of the Ordnance, Deputy Chief of the General Staff, Citizen Military Force Member, and the Secretary of the Department of the Army. The forces consist of the Australian Regular Army and the volunteer Citizen Military Forces together with the Australian Cadet Corps. In peace, Regular Army and Citizen Military Forces together comprise an operational field force, including forces in Papua and New Guinea, and command, training and administrative units of the support area.

The Australian Cadet Corps is composed of students of educational establishments.

The Commonwealth of Australia is divided into Commands, generally corresponding with the boundaries of the States. They are Northern, Eastern, Southern, Central, Western and Northern Territory Commands, with headquarters at Brisbane, Sydney, Melbourne, Adelaide, Perth and Darwin. Tasmania is part of Southern Command, and Papua and New Guinea part of Northern Command.

On 30 June 1963 the strength of the Regular Army was 22,600 all ranks, of whom 1,457 were serving abroad. The strength of the Citizen Military Forces was 28,500.

Navy. The overall control of the Royal Australian Navy is vested in the Naval Board, which consists of the Minister for the Navy with 4 Naval Members (First Naval Member and Chief of Naval Staff; Second Naval Member and Chief of Naval Personnel; Third Naval Member and Chief of Naval Technical Services; Fourth Naval Member and Chief of Supply), and the Secretary, Department of the Navy. Headquarters of the Naval Board and the Department of the Navy are in Canberra. The operation and administration of the Fleet is carried out by the Flag Officer Commanding H.M. Australian Fleet.

Aircraft carriers of the Royal Australian Navy:

Completed	Name	Standard displacement, tons	Principal armament	Shaft-horse-power	Speed, knots
1955	Melbourne (<i>ex-Majestic</i>)	15,960	25 40-mm AA	40,000	24
1949	Sydney (<i>ex-Terrible</i>) ¹	14,380	—	40,000	24

¹ Converted to a fast military transport in 1961.

There are also 6 destroyers (3 'Daring', 1 'Battle', 1 'Tribal' class), 7 fast anti-submarine frigates (4 Type 12, 3 Type 15), 4 frigates (1 fitted for surveying, 2 for recruit training and oceanographic research), 6 coastal mine-sweepers, 1 trials ship, 4 boom working vessels, 2 fishery surveillance vessels,

¹ One of these, *Voyager*, sank on 10 Feb. 1964 off Jervis Bay, with the loss of about 80 officers and men.

1 new survey ship, 1 small survey ship, 4 search and rescue launches, 1 fleet tug, 1 fleet replenishment tanker and 10 servicing craft. Three guided-missile armed destroyers of the 'Charles F. Adams' class (3,370 tons) are being built in USA, 4 submarines of the 'Oberon' class (1,610 tons) in Britain and an escort maintenance ship (14,500 tons) in Australia.

Naval dockyards exist at Garden Island, Sydney, and Williamstown, Victoria. Naval shipbuilding is carried out at Williamstown, at Cockatoo Dock and Engineering Company, Sydney, or by private contract. The main repair base and store depots are at Sydney.

The main training establishments are HMAS *Cerberus* (Flinders Naval Depot) in Victoria, HMAS *Watson* and HMAS *Nirimba* at Sydney, HMAS *Albatross* (Naval Air Station) at Nowra, NSW, and HMAS *Creswell* (Royal Australian Naval College) at Jervis Bay, ACT. Training for junior recruits is carried out at HMAS *Leeuwin* in Fremantle, WA. Reserve training is conducted in naval establishments in all capital cities.

The Fleet Air Arm was established in 1948 as an integral part of the Navy. It has 107 aircraft and 1,046 officers and men. Its operational aircraft consist of Sea Venom all-weather jet fighters, Gannet turbo-prop anti-submarine aircraft, and Westland Wessex anti-submarine helicopters. There is a squadron of Sycamore helicopters for search and rescue, training and communication duties; these are being replaced by Bell Iroquois helicopters.

The serving strength at 30 June 1963 totalled 11,686 officers and ratings. The Navy estimates for 1963-64 totalled £A54,509,000.

Air Force. The Royal Australian Air Force was established as a separate service on 31 March 1921. It is administered by the Air Board, which consists of the Chief of the Air Staff, Air Member for Personnel, Air Member for Technical Services, Air Member for Supply and Equipment, and the Secretary Department of Air. The Air Board is responsible to the Minister of State for Air and determines all policy matters of major importance. The Department of Air is the Headquarters of the Royal Australian Air Force and the centre at which governmental and financial control is exercised.

The RAAF has 2 commands, Operational Command and Support Command. Operational Command with Headquarters near Sydney is responsible to Department of Air for operations, while Support Command with Headquarters in Melbourne is responsible for air and ground training, recruiting, supply and servicing.

Flying establishment comprises 15 squadrons, of which 3 are equipped with Canberra bombers, 5 with Avon-Sabre fighters, 3 with Hercules, Dakota and Conqair transports, 2 with Neptune maritime reconnaissance bombers, 1 with Iroquois helicopters and 1 army light aircraft squadron with Cessnas and Sioux helicopters. The first surface-to-air guided-weapons squadron, equipped with Bloodhound missiles, has been formed. The Dakota transports are being replaced by Caribous and the Sabres by Australian-built Mirage IIIs. As part of Australia's contribution to the Commonwealth Strategic Reserve 2 of the fighter squadrons and 1 bomber squadron, with supporting units, are based in Malaya. One Sabre Squadron is based at Ubon, Thailand, as part of SEATO forces.

At 1 Aug. 1963 the strength of the RAAF was as follows: Permanent Air Force, 15,877; Citizen Air Force, 882; General Reserve, 16,699.

LABOUR

The trade unions in Australia are very diverse in character, and range from the small independent association to the large interstate organization, which, in its turn, may be a branch of a British or international union. At 31 Dec. 1962, 347 separate unions had a total of 1,950,484 members.

In 1927 a central organization, now called the Australian Council of Trade Unions, came into being. It consists of affiliated unions and affiliated Metropolitan and/or State Labour Councils and Provincial Councils. It has authority to deal with industrial matters of an interstate character affecting the trade union movement generally. It also submits to the Commonwealth Government the names of persons suitable for selection as the Australian workers' delegates to the annual International Labour Conference.

COMMERCE

Throughout Australia there are uniform customs duties, and trade between the States is free. For 1962-63 the gross revenue collected from customs duties amounted to £A112,655,054, and from excise to £A274,674,096. The total net revenue from customs and excise for 1962-63, after allowing for drawbacks and repayments, was £A379,447,022.

Value of the total imports and exports for years ending 30 June, in £A1,000 (f.o.b.):

Exports (excluding ships' and aircraft stores)

	Imports	Australian produce	Re-exports	Total
1959-60	927,091	919,688	17,994	937,682
1960-61	1,087,577	942,606	26,237	968,843

1962-63	1,081,335	1,052,910	22,996	1,075,906

Customs tariffs provide for preferences to goods produced in and shipped from the UK and Australia, and for reciprocal trade agreements with other countries. A trade agreement signed on 26 Feb. 1957 maintains the preference between the UK and the Commonwealth of Australia as laid down in the Ottawa agreement of 1932, which it supersedes. Other reciprocal tariff agreements in force are those with Canada (1960), New Zealand (1933), South Africa (1935), Czechoslovakia (1936), France (1936), Switzerland (1938), Brazil (1939), Greece (1940), Israel (1951), Iceland (1952), Federation

of Rhodesia and Nyasaland (1955), Japan (1957), Federation of Malaya (1958), Federal Germany (1959) and Indonesia (1959).

The State railway gauges are: New South Wales, 4 ft 8½ in.; Victoria, 5 ft 3 in. (201 miles, 4 ft 8½ in. and 34 miles, 2 ft 6 in.); Queensland, 3 ft 6 in. (69 miles, 4 ft 8½ in., and 30 miles, 2 ft); South Australia, 5 ft 3 in. for 1,673 miles (the rest 3 ft 6 in.); West Australia, 3 ft 6 in., and Tasmania, 3 ft 6 in. Of the Commonwealth lines, the gauge of the Trans-Australian and Australian Capital Territory is 4 ft 8½ in., for the Central Australia, 3 ft 6 in. for 605 miles and 4 ft 8½ in. for 217 miles and for North Australia, 3 ft 6 in. The Railway Standardization Agreement Act of 1946 authorized the conversion to a standard gauge of 4 ft 8½ in. of the railway systems of Victoria and South Australia, the provision for the completion of the north to south railway and the conversion of existing systems to a standard 4 ft 8½ in. gauge railway. In 1962 a new standard gauge line (4 ft 8½ in.) was opened between Albury and Melbourne enabling through services from Sydney to Melbourne. Work has commenced on both the Kalgoorlie-Perth and the Broken Hill-Port Pirie lines, connecting Brisbane in Queensland to Perth in Western Australia by a 4 ft 8½ in. gauge line which it is expected will be complete by 1967-68. The terminus of the North Australia railway is at Birdum (317 miles from Darwin), while the Central Australia railway extends as far north as Alice Springs (3 ft 6 in. gauge from Marree to Alice Springs).

Roads. The length of roads in Australia used for general traffic is about 535,000 miles, of which approximately 70,000 is sealed, 141,000 of macadam and similar composition, and 324,000 of cleared or natural surface or formed only.

At 30 June 1963, 3,324,311 motor vehicles, including 2,343,485 motor cars, 77,207 motor cycles and 903,619 commercial vehicles, were registered in Australia. The revenue derived from registration fees and motor tax for the year 1961-62 was £A35,227,731, drivers' and riders' licences, £A3,798,648, and miscellaneous, £A10,870,558. (These figures exclude the Australian Capital Territory where the total revenue was £A163,715.) At 30 June 1963 registrations were equivalent to 30½ vehicles per 1,000 of population. New vehicles registered in 1962-63 numbered 284,926 cars and station wagons, 60,057 commercial vehicles and 5,446 motor cycles.

At 30 June 1962, 7,056 telephone exchanges, with 1,718,560 services and 2,322,369 instruments connected, were in operation.

Wireless broadcasting stations are in operation in all the State capitals and in other regional areas throughout the various States of the Commonwealth. At 30 June 1963, 2,239,786 wireless broadcast listeners' licences were in force. Revenue from fees amounted to £A5,434,356 during 1962-63. The National Broadcasting Service controlled by the Australian Broadcasting Commission now operates 60 medium-wave and 8 short-wave broadcasting stations in Australia, 2 medium-wave and 2 short-wave stations in Papua, 8 high-frequency stations in Victoria for overseas services. The 4 experimental frequency modulation stations discontinued services on 30 June, 1961. In addition, 110 other medium-wave commercial broadcasting stations were licensed at 30 June 1963.

The Overseas Telecommunication Commission, established in Aug. 1946, provides the external telegraph and phototelegraph services and, in conjunction with the Postmaster-General's department, the external telephone services. The Commission also operates the coastal radio services with ships in Australian waters and high-frequency radio services with ships anywhere.

Television services are conducted in each State capital and in 6 country areas by the National Television Service and by the Commercial Television Service (23 stations). At 30 June 1963, 1,655,325 viewers' licences were in force.

Revenue from fees amounted to £A7,777,967 during 1962-63.

Aviation. Civil flying in the Commonwealth and Territories is subject to legislative control by the Commonwealth Government. The administration of the Air Navigation Act and Regulations is a function of the Civil Aviation Department under the Minister of Civil Aviation. The permanent head of the department is the Director-General of Civil Aviation.

Hours flown by regular internal air services in Australia (excluding services between Sydney and Lae and Norfolk Island) during 1962-63 numbered 217,897. The total mileage flown was 43,700,300. Paying passengers carried numbered 2,832,934; weight of goods carried was 59,373 short tons, and gross weight of mails was 6,467 short tons.

Australian overseas services operated 71,676 route miles at 30 June 1963. During 1962-63 hours flown numbered 48,669; miles flown, 20,342,900; paying passengers, 294,908; freight, 6,756 short tons; mail, 2,468 short tons.

Expenditure by the Commonwealth Government on civil aviation for the year 1962-63 was £A18,958,000 (including £A5,089,000 on capital works, but excluding £A6,880,533 paid for conveyance of mail).

At 30 June 1963 there were 380 licensed land aerodromes, 122 government land aerodromes and 13 water aerodromes in Australia, excluding Papua and New Guinea.

MONEY AND BANKING

The banking system in Australia comprises:

(a) The Reserve Bank of Australia. This is the central bank which in addition to its central banking business (including the note issue

department) provides special financing facilities through the rural credits department for the processing, manufacture and marketing of primary produce.

(b) The Commonwealth Trading Bank of Australia.

(c) Seven private trading banks: the Australia and New Zealand Bank Ltd, The Bank of Adelaide, the Bank of New South Wales, The Commercial Bank of Australia Ltd, The Commercial Banking Company of Sydney Ltd, The English, Scottish and Australian Bank Ltd and The National Bank of Australasia Ltd.

(d) Other cheque-paying banks: (i) 3 State Government Banks—The Rural Bank of New South Wales, the State Bank of South Australia, and the Rural and Industries Bank of Western Australia; (ii) one joint stock bank—The Brisbane Permanent Building and Banking Co. Ltd, which has specialized business in one district only; (iii) branches of 3 oversea banks—the Bank of New Zealand, the Comptoir National d'Escompte de Paris, and the Bank of China, which are mainly concerned with financing trade, etc., between Australia and oversea countries.

(e) The Commonwealth Development Bank of Australia.

(f) Savings Banks.

Money in circulation comprises legal tender notes issued by the Note Issue Department of the Reserve Bank of Australia and silver and bronze coinage issued by the Commonwealth Treasury and distributed by the Reserve Bank.

The Reserve Bank's functions and responsibilities derive from the Reserve Bank Act 1959 and the Banking Act 1959, which came into effect in 1960. They have their origins, however, in the development of the central banking role of the Commonwealth Bank, which was established in 1911 as a Government savings and trading bank.

Control of the Australian note issue was transferred from the Commonwealth Treasury to a Notes Board in 1920 and, in 1924, to the Bank. The Commonwealth Bank Act 1945 formally constituted the Bank as a central bank, and these powers were carried through into the 1959 Act establishing the Reserve Bank.

The Acts of 1959 provided for: (a) the separation of the central bank from the Commonwealth group of banking institutions and its reconstitution as the Reserve Bank of Australia; (b) the establishment of an entirely separate Commonwealth Banking Corporation, with responsibilities for the non-central-banking elements that had developed from within the original Commonwealth Bank—namely the Commonwealth Trading Bank, the Commonwealth Savings Bank and Commonwealth Development Bank, the latter being basically an amalgamation of the Mortgage Bank and Industrial Finance Department of the Commonwealth Bank.

At 30 June 1963 the capital of the Reserve Bank totalled £A8,714,000 and reserve funds £A23,942,000. The capital was distributed as follows: Central banking business, £A4m.; rural credits department, £A4,714,000. Reserve funds held were: Central banking business, £A21,777,000; rural credits department, £A2,165,000. There was also a special reserve in the note issue department of £A4,755,000. Profits for the year ended 30 June 1963 (including all departments) amounted to £A16,576,000.

Particulars as at 30 June 1963 for the banks under the control of the Commonwealth Banking Corporation: Commonwealth Trading Bank, capital, £A7,429,000; reserve fund, £A4,696,978; profits for the year, £A917,820. Commonwealth Development Bank, capital, £A25,857,000; reserve fund, £A7,447,893; profit for the year, £A890,675. Common-

wealth Savings Bank, reserve fund, £A12,464,309; profit for the year, £A1,371,914.

The average deposits of the trading banks with the Reserve Bank for the month of June 1963 were £A223,636,000 in statutory reserve deposit accounts and £A39,920,000 other accounts.

At 30 June 1963 the 15 trading banks operating in Australia provided full banking facilities at 4,118 branches and 1,661 agencies in all parts of Australia.

The average deposits in Australia with all cheque-paying banks (under (b), (c) and (d) above) for June 1963 amounted to £A2,032,161,000, the average of advances made by the banks to £A1,232,405; the average of total assets was £A2,165,949,000.

At 31 Dec. 1963, 13 savings banks were operating in Australia. These are the Commonwealth Savings Bank with branches throughout Australia; 7 private savings banks being wholly-owned subsidiaries of the 7 trading banks and operating, with certain exceptions, in all States and Territories; the State Savings Banks in Victoria and South Australia; the Rural and Industries Bank of Western Australia, and 2 Trustee Savings Banks in Tasmania. At 30 June 1963 these savings banks provided savings facilities at 4,134 branches and 12,724 agencies throughout Australia and held deposits amounting to £A1,969,846,000.

In 1961 there were 39 companies registered under the Life Insurance Act, 1945-61, transacting life insurance business in Australia; in addition there were 2 state government institutions. Receipts, 1961, £A265,921,000; expenditure, £A125,457,000; liabilities, £A1,591,653,000 (including Life Insurance and Annuity Funds, £A1,517,335,000, at various balance dates).

The following table is a summary of banking and insurance business (in £A1,000) in the several States of the Commonwealth:

Australian notes, issued by the note-issue department of the Reserve Bank, are legal tender throughout Australia. The total value of notes in circulation on 26 June 1963 was £A434,722,000, of which £A371,753,000 were held by the public. Notes have been issued in denominations of 10s., £1, £5, £10, £20, £50, £100 and £1,000. Notes of denominations higher than £10 have not, however, been issued to the public since 1945.

Coins in circulation in Australia are Australian silver and bronze token coins issued by the Commonwealth Treasury and distributed by the Reserve Bank. The silver coins have been issued in denominations of 5s., 2s., 1s., 6d. and 3d.; and bronze coins in denominations of 1d. and $\frac{1}{2}$ d. Coins to the value of £A2,928,000 were issued during the year ended 30 June 1963, bringing the total issued to date to £A50,972,000, after deduction of £A15,224,000 for coin withdrawn.

There are 2 mints in Australia, at Melbourne (opened in 1872) and Perth (1899). They accept gold for refining and issue gold bullion for use in the commercial arts and for export. Australian silver and bronze coins have been minted at the Melbourne mint since 1916 and at the Perth mint in 1922 and since 1940 to the present time.

Norfolk Island. 29° 02' S. lat., 167° 57' E. long., area 13 $\frac{1}{2}$ sq. miles, population, 30 June 1961 (census), 844. The island was formerly part of the colony of New South Wales and then of Van Diemen's Land. It has been a distinct settlement since 1856, under the jurisdiction of the state of New South Wales; and finally by the passage of the Norfolk Island Act 1913, it was accepted as a Territory of the Commonwealth Government. The island, which is very picturesque and possesses a delightful climate, coupled with a fertile soil, is especially suitable for the cultivation of citrus fruits, bananas, vegetables and beans for seed. Tourism is a major industry. The island has many links with Australia's early penal days and the descendants of the *Bounty* mutineers are residents. In 1961-62 the imports (mostly from Australia) totalled £A360,207 and exports £A197,774 (including whale products, £A151,024). In 1962-63 imports totalled £A484,563 and exports £A93,672. A modern whaling station went into operation in 1956 but operations were suspended in 1962 owing to a shortage of whales. A programme of forestry development is being carried out.

Administrator: Maj.-Gen. R. H. Wordsworth, CB, CBE.

Australian Antarctic Territory. An Imperial Order in Council of 7 Feb. 1933 placed under Australian authority 'all the islands and territories other than Adélie Land which are situated south of 60° S. lat. and lying between 160° E. long. and 45° E. long.' The Order came into force with a proclamation issued by the Governor-General on 24 Aug. 1936. The boundaries of Adélie Land were definitely fixed by a decree of 1 April 1938 as the islands and territories south of 60° S. lat. lying between 136° and 142° E. long. The laws of the Australian Capital Territory were declared to be in force, as far as applicable, in the Territory in 1954. In Feb. 1954 Mawson in Mac. Robertson Land and in Jan. 1957 Davis in the Vestfold Hills area, some 400 miles east of Mawson, were set up as meteorological and research stations. In Feb. 1959 the Australian Government accepted custody of Wilkes station, established by the USA.

Territory of Heard and McDonald Islands. These islands, about 2,500 miles south-west of Fremantle, were transferred from UK to Australian control as from 26 Dec. 1947. Heard Island is about 27 miles long and 13

miles wide; Shag Island is about 5 miles north of Heard. The McDonald Islands are 26 miles to the west of Heard. The laws of the Australian Capital Territory were declared to be in force in the Territory by the Heard and McDonald Islands Act, 1953.

Territory of Cocos (Keeling) Islands. The Cocos (Keeling) Islands, 2 separate atolls comprising some 27 small coral islands with a total area of about 5 sq. miles, are situated in the Indian Ocean in 12° 5' S. lat. and 96° 53' E. long. They lie some 1,720 miles north-west of Perth and 2,290 miles west of Darwin while Colombo is 1,400 miles to the north-west of the group.

The islands were discovered in 1609 by Capt. William Keeling of the East India Company. The islands were uninhabited until 1826, when the first settlement was established on the main atoll by an Englishman, Alexander Hare, who left the islands about 1831. In the meantime, a second settlement was formed on the main atoll by John Clunies Ross, a Scottish seaman and adventurer, who landed with several boat-loads of Malay seamen. In 1857 the islands were annexed to the Crown; in 1878 responsibility for their supervision was transferred from the Colonial Office to the Government of Ceylon, and in 1882 to the Government of the Straits Settlement. By indenture in 1886 Queen Victoria granted the land comprised in the islands to John Clunies Ross and his heirs in perpetuity. The head of the family had semi-official status as resident magistrate and representative of the Government. In 1903 the islands were incorporated in the Settlement of Singapore and in 1942-46 temporarily placed under the Governor of Ceylon. In 1946 a Resident Administrator, responsible to the Governor of Singapore, was appointed.

On 23 Nov. 1955 the Cocos Islands were placed under the authority of the Commonwealth of Australia, which accepted them under the Cocos (Keeling) Islands Act, 1955, as the Territory of Cocos (Keeling) Islands.

The main islands of the Territory are West Island (the largest, about 6 miles from north to south), on which is the aerodrome and most of the European community; Home Island, the headquarters of the Clunies Ross Estate; Direction Island, on which is situated the cable and wireless station and the Department of Civil Aviation's marine base; and Horsburgh. North Keeling Island, which forms part of the Territory, lies about 15 miles to the north of the group and has no inhabitants. Main settlements are on West Island, Home Island and Direction Island.

An airport is established on West Island under the control of the Department of Civil Aviation. This is a re-fueling point for aircraft of the overseas air-services between Australia and South Africa operated weekly by Qantas Empire Airways and fortnightly by South African Airways.

The population of the Territory at 30 June 1963 was 664, including 211 Europeans. The Cocos Islanders reside on Home Island.

The group of atolls is low-lying, flat and thickly covered by coconut palms, and surrounds a lagoon in which ships drawing up to 23 ft may be anchored, but which is extremely difficult for navigation.

The climate is equable and pleasant, being usually under the influence of the south-east trade winds for about three-quarters of the year. However, the winds vary at times, and meteorological reports from the Territory are particularly valuable to those engaged in forecasting for the eastern Indian Ocean. The temperature varies between 70° and 89° F., the rainfall is moderate and there are occasional violent storms.

Responsibility for the administration of the Territory rests with the Minister of State for Territories, whose Official Representative is in charge of

the local administration. The laws of the Colony of Singapore, which were in force in the islands immediately before the transfer have, with certain exceptions, been continued in force. They may be amended or repealed by ordinances made by the Governor-General.

Official Representative: C. I. Buffet, MBE (*Acting*).

Christmas Island is in the Indian Ocean, lat. 10° 30' S., long. 105° 40' E. It lies 223 miles S., 8° E. of Java Head, and 259 miles N. 79° E. from Cocos Islands. It is of irregular shape, about 11 miles long (at the longest point), and about 4½ miles wide (at the narrowest point). Area about 55 sq. miles. The climate is healthy. The island was formally annexed on 6 June 1888, placed under the administration of the Governor of the Straits Settlements in 1889, and incorporated with the Settlement of Singapore in 1900. Sovereignty was transferred to the Commonwealth of Australia on 1 Oct. 1958. The population on 30 June 1963 was 3,277, including 2,310 Chinese and 75 Malaysians.

The legislative, judicial and administrative systems are regulated by the Christmas Island Act, 1958-59, which is administered by the Minister of State for Territories, whose Official Representative is responsible for the administration.

Official Representative: J. W. Stokes.

Extraction and export of rock phosphate and phosphate dust is the island's only industry. In Dec. 1948 Australia and New Zealand bought the rights of the Christmas Island Phosphate Company from the government of Singapore. The two governments set up the Christmas Island Phosphate Commission, for which the British Phosphate Commissioners act as managing agents.

Direct radio-telegraph communication with Australia was inaugurated on 8 March 1961. There is also direct radio communication with Singapore. Number of telephones, 30 June 1962, was 103.

There is a school and a hospital on the island.

STATISTICAL INFORMATION. The Commonwealth Bureau of Census and Statistics (West Block, Canberra, A.C.T.) was established in 1906. All the activities of the Bureau are covered by the Census and Statistics Act, which confers authority to collect information and contains secrecy provisions to ensure that individual particulars obtained are not divulged. Under the provisions of the Statistics (Arrangements with States) Act which became law on 12 May 1956, the statistical services of all the States have been integrated with the Commonwealth Bureau. An outline of the development of statistics in Australia is published in the *Official Year Book*, No. 48, 1962. *Commonwealth Statistician:* K. M. Archer.

The principal publications of the Bureau are:

AUSTRALIAN CAPITAL TERRITORY

GOVERNMENT. The area which is now the Australian Capital Territory was first visited by white men in 1820 and settlement commenced in 1824. Until its selection as the seat of government it was a quiet pastoral and agricultural community with a few large holdings and a sprinkling of smaller settlers.

The constitution of the Commonwealth provided (Sec. 125) that the seat of government should be selected by parliament and that it should be within New South Wales but at least 100 miles from Sydney. After prolonged discussion, the Canberra site was adopted by the Seat of Government Act, 1908. The present site, together with an area for a port at Jervis Bay, was surrendered by the State and accepted by the Commonwealth in 1909, and by subsequential proclamation the Territory became vested in the Commonwealth from 1 Jan. 1911. In 1911 an international competition was held for the city plan. The plan chosen was that of W. Burley Griffin, of Chicago. Construction was delayed by the First World War, and it was not until 1927 that, with the transfer of parliament and certain departments, Canberra became in fact the seat of government. Most departments now have their headquarters in Canberra.

The general administration of the Territory is in the hands of the Minister for the Interior, but certain specific services are undertaken by the Department of Health, the Department of Works and the Attorney-General. The Minister is advised on matters of local concern by an advisory council, consisting of 4 official and 8 elected members.

In 1958 the Commonwealth Government established the National Capital

Development Commission as the statutory body charged with the responsibility of planning, developing and constructing Canberra.

The Australian Capital Territory Representation Act, 1948, provided for the representation of residents of the Territory by one elected member in the House of Representatives. He is not entitled to vote, except on a proposed law relating solely to the Territory or on a motion seeking to disallow a Territory ordinance or regulation, but in other ways he enjoys the rights and privileges of a Member of Parliament.

AREA AND POPULATION. The area of the Australian Capital Territory is 911 sq. miles, of which 170 sq. miles in the Cotter River Catchment area are reserved from occupation for water-supply purposes. The area vested in the Commonwealth at Jervis Bay is 28 sq. miles of land and water.

Population at 6 censuses, with distribution by sex:

	Males	Females	Total		Males	Females	Total
1911	992	722	1,714	1947	9,093	7,813	16,905
1921	1,567	1,005	2,572	1954	16,229	14,086	30,315
1933	4,805	4,142	8,947	1961	30,858	27,970	58,828

Estimated population, 30 June 1963, 73,453.

EDUCATION. State education in the Australian Capital Territory is the responsibility of the Department of the Interior. The curricula are those of the NSW Department of Education, which also supplies the staffs. There are 22 public schools including 2 in the Jervis Bay Territory. Secondary education is provided at 5 high schools with accommodation for about 3,200 pupils. The Canberra Technical College provides training for apprentices, journeymen desirous of improving their trade qualifications and for others who desire to take commercial and special courses. There are also 16 private schools, 5 of which provide secondary education.

The Australian National University is situated in Canberra (*see p. 287*).

FINANCE. The revenue of the Territory is derived in part from rent and rates, public utilities, transport and housing and various other fees and services, and partly from parliamentary appropriation.

Local revenue and expenditure (in £A) for years ended 30 June:

	Revenue	Capital works	Expenditure Other services	Total
1961	3,711,760	13,157,102	5,235,567	18,392,669
1962	4,053,732	13,836,525	5,152,545	18,989,070
1963	5,673,015	16,512,104	5,980,581	22,492,685

PRODUCTION. The Territory is predominantly pastoral. Livestock, 30 June 1963: 653 horses, 3,292 dairy cattle, 10,863 beef cattle, 279,206 sheep, 92 pigs. A considerable amount of re-forestation has been undertaken, the total area of plantations at 30 June 1962 being 25,582 acres. There is no secondary industry of any importance.

NEW SOUTH WALES

HISTORY. New South Wales became a British possession in 1770; the first settlement was established at Port Jackson in 1788; a partially elective

Council was established in 1843, and responsible government in 1856. New South Wales federated with the other Australian states to form the Commonwealth of Australia in 1901.

CONSTITUTION AND GOVERNMENT. The legislative power is vested in a Parliament of the two Houses, the Legislative Council and the Legislative Assembly.

The Legislative Council consists of 60 members. At triennial elections 15 members are elected for a term of 12 years at joint sittings of both Houses of Parliament. The President has an annual salary of £A2,650; the Chairman of Committees, £A1,850; the Leader of the Opposition, £A1,750. The President also receives an expense allowance of £A250 and the Chairman of Committees, £A100; other members who are not Ministers receive an allowance of £A750 per annum plus 4 guineas a day attendance allowance if they live outside the metropolitan area.

The Legislative Assembly has 94 members elected for a period of 3 years. Voting is compulsory. British subjects above 21 years of age, having resided 6 months in the Commonwealth, 3 months in the State and 1 month in any one electoral district, are eligible for enrolment as electors. Women were enfranchised in 1902.

The Speaker of the Legislative Assembly receives a salary of £A3,650, the Leader of the Opposition, £A3,750, the Chairman of Committees, the Deputy Leader of the Opposition and the Leader of the Country Party, £A3,100 each, and Government and Opposition Whips, £A3,050 each. The Leader of the Opposition also receives an expense allowance of £A600; the Speaker, £A350; the Leader of the Country Party, £A300; the Chairman of Committees and the Government and Opposition Whips, £A150 each; the Deputy Leaders of the Opposition and Country Party, £A100 each; and the Country Party Whip, £A50. Members who are not Ministers receive an annual salary of £A2,650. All members receive an annual electoral allowance ranging from £A750 to £A1,050 according to the location of their constituencies.

The Legislative Assembly, elected on 3 March 1962, consisted in Jan. 1964 of the following parties: Labour, 53; Liberal and Country Party, 38; Independent, 1; vacant, 2.

The executive is in the hands of a Governor, appointed by the Imperial Government, and an Executive Council consisting of members of the Cabinet. Ministers receive the following annual salaries: Premier, £A5,450; Deputy Premier, £A4,600; Vice-President of the Executive Council and 13 other Ministers, £A4,000 each. Ministers also receive an expense allowance (Premier, £A1,750; Deputy Premier, £A750; other Ministers, £A600 each) and the Vice-President of the Executive Council receives a further special allowance of £A600. In addition, Ministers who are members of the Legislative Assembly receive an electoral allowance ranging from £A750 to £A1,050 according to the location of their constituency.

Governor: Lieut.-Gen. Sir Eric Winslow Woodward, KCMG, KCVO, CB, CBE, DSO (sworn in 1 Aug. 1957).

The Labour Cabinet, in Jan. 1964, was constituted as follows:

Premier: R. J. Heffron, MLA.

Deputy Premier, Treasurer and Minister for Industrial Development and Decentralization: J. B. Renshaw, MLA.

Attorney-General and Vice-President of the Executive Council: R. R. Downing, MLC.

Chief Secretary and Minister for Tourist Activities: C. A. Kelly, M.L.A.
Minister for Local Government and Minister for Highways: P. D. Hills, M.L.A.

Minister for Health: W. F. Sheahan, Q.C., M.L.A.

Minister for Child Welfare and Minister for Social Welfare: F. H. Hawkins, M.L.A.

Minister for Agriculture and Minister for Conservation: A. G. Enticknap, M.L.A.

Minister for Housing and Minister for Co-operative Societies: A. Lands, M.L.A.

Minister for Education: E. Wetherell, M.L.A.

Minister for Labour and Industry: J. J. Maloney, M.L.C.

Minister for Mines: J. B. Simpson, M.L.A.

Minister for Transport: J. M. A. McMahon, M.L.A.

Minister for Public Works: P. N. Ryan, M.L.A.

Minister of Justice: N. J. Mannix, M.L.A.

Minister for Lands: K. C. Compton, M.L.A.

Agent-General in London: Francis P. Buckley (56-57 Strand, WC2).

Commissioner in New York: A. Denning (Suite 1301, 680 Fifth Avenue).

LOCAL GOVERNMENT. A system of local government extends over most of the State, including the whole of the Eastern and Central land divisions and more than two-thirds of the sparsely populated Western division. There are 92 municipalities, and 133 corporate bodies called shires. A number of the municipalities and shires have combined to form 56 county councils, which administer electricity or water supply undertakings or render other services of common benefit.

AREA AND POPULATION. New South Wales is situated between the 28th and 38th parallels of S. lat. and 141st and 154th meridians of E. long., and comprises 309,433 sq. miles (801,400 sq. km), inclusive of Lord Howe Island (5 sq. miles), but exclusive of the Australian Capital Territory (911 sq. miles at Canberra and 28 sq. miles at Jervis Bay).

Census population (excluding aboriginals):

¹ Estimated.

At 30 June 1963 the estimated population of the metropolis of Sydney was 2,256,110; that of the Cumberland statistical division (i.e., the metropolis and contiguous municipalities and shires), 2,379,300; and that of the New-

castle urban area, 215,950. The other chief country municipalities, with their populations, were as follows: Greater Wollongong, 142,170; Greater Cessnock, 34,870; Blue Mountains, 30,220; Broken Hill, 30,100; Maitland, 27,950; Albury, 23,520; Wagga Wagga, 22,840; Goulburn, 20,460; Tamworth, 19,970; Orange, 19,300; Lismore, 19,060; Bathurst, 17,150; Shellharbour, 17,030; Grafton, 15,650; Dubbo, 14,750; Lithgow, 13,950; Armidale, 13,630; Taree, 10,320; Queanbeyan, 10,300; Cooma, 9,200; Parkes, 8,410; Inverell, 8,350; Casino, 8,100.

VITAL STATISTICS for calendar years:

	Live births	Marriages	Divorces	Deaths (excluding still-births)	Infantile mortality per 1,000 live births	Estimated net migration
1960	81,983	29,323	3,243	35,030	21.2	36,231

1962	85,439	30,360	3,113	36,861	21.4	18,637

The annual rates per 1,000 of the population in 1962 were: Births, 21.46; deaths, 9.26; marriages, 7.63.

RELIGION. There is no established church in New South Wales, and freedom of worship is accorded to all.†

The following table shows the statistics of the religious denominations in New South Wales at the census, and of ministers of religion registered for the celebration of marriages, in 1961:

Denomination	Ministers	Adherents	Denomination	Ministers	Adherents

¹ Includes 555,655 'Catholics undefined'.

² Includes 14,248 'no religion' and 388,024 'religion not stated' (this is not a compulsory question in the census schedule).

EDUCATION. The State maintains a system of national education, and attendance at school is compulsory from 6 to 15 years of age. In all State schools education is free. Private schools are subject to State inspection.

There were at the end of 1962, 2,747 State schools, including 360 secondary schools and a correspondence school. At State schools during the year 1962, the average weekly enrolment of children was 616,649 and the average daily attendance was 565,067; teachers numbered 22,043, and there were 6,461 students in training. In Aug. 1962 the effective enrolment was 623,358 children, including 61,423 pupils receiving kindergarten instruction at government schools.

In Aug. 1962 there were 839 private schools with 6,179 full-time teachers and an effective enrolment of 206,984 pupils, of which 702 were Roman Catholic schools, having 4,523 teachers and 178,665 scholars. Church of England schools numbered 40 with 762 teachers and 12,803 scholars; other denominational schools, 45; teachers, 532; pupils, 9,763; undenominational schools, 52; teachers, 362, and scholars, 5,753.

The University of Sydney, founded in 1850, in 1962 had 14,030 students (including 4,129 women). There are 5 denominational colleges, and an undenominational college for women, affiliated to the university. The

principal government training college for teachers is situated in the university grounds.

The University of New England at Armidale, previously affiliated with the University of Sydney, was incorporated on 1 Feb. 1954, and in 1962 had 2,951 students (including 983 women).

The New South Wales University of Technology, renamed in 1958 the University of New South Wales, was established by the State Government in 1949. Enrolments in 1962 numbered 9,164 (including 840 women). Post-school technical education is provided at State technical colleges, principally in the evening. Students enrolled in 1962 totalled 117,593 (including 13,539 correspondence students).

State government expenditure (including loan expenditure) on education in 1962-63 was £A82,414,000.

JUSTICE. Legal processes may be grouped within the Lower or Magistrates Courts, or the Higher Courts presided over by judges. There is also an appellate jurisdiction. Prisoners charged with capital crimes must be tried before the Supreme Court.

Children's Courts have been established with the object of removing children as far as possible from the atmosphere of a public court. There are also a number of tribunals exercising special jurisdiction, e.g., the Industrial Commission and the Workers' Compensation Commission.

In 1962 there were 736,173 convictions (mainly for drunkenness, minor traffic offences, etc.) before magistrates at Courts of Petty Sessions and Children's Courts and 2,513 distinct persons were convicted at the Higher Courts. On 30 June 1962 there were 3,052 convicted prisoners in gaol.

SOCIAL WELFARE. The Commonwealth Government makes provision for social benefits, such as age and invalid pensions, widows' pensions, child endowment, health benefits, maternity allowances, and unemployment and sickness benefits.

The number of age and invalid pensions current in New South Wales on 30 June 1963 was: Age, 238,758 (males, 74,218; females, 164,540); invalid, 45,343 (males, 23,557; females, 21,786). The annual liability at 30 June 1963 was £A63,159,965 for age pensions and £A12,407,813 for invalid pensions.

Commonwealth widows' pensions current in New South Wales at 30 June 1963 numbered 22,321, and the annual liability was £A6,024,271.

The number of claims in force under the child endowment system at 30 June 1963 was 578,948 and endowed children in family units numbered 1,249,410. Endowment was also paid for 7,155 children in institutions. The annual liability as at 30 June 1963 was £A25,144,366.

During the year 1962-63, 84,489 maternity allowances amounting to £A1,360,170 were paid in New South Wales.

Unemployment, sickness and special benefits commenced on 1 July 1945. During the year 1962-63 claims totalling £A5,675,801 were paid in New South Wales. At 30 June 1963 unemployment benefit was being paid to 16,887 persons, and sickness and special benefits to 5,202 persons.

To relieve distress caused by unemployment and other causes, social welfare bureaux are conducted in various districts under the supervision of welfare officers, who are assisted by medical officers and nurses. Food, clothing, medical and dental treatment, etc., is provided for necessitous persons.

LABOUR. Two systems of industrial arbitration and conciliation for the adjustment of industrial relations between employers and employees are

in operation—the State system, which operates within the territorial limits of the State, and the Commonwealth system, which applies to industrial disputes extending to other parts of the Commonwealth.

The industrial tribunals are authorized to fix minimum rates of wages and other conditions of employment, and their awards may be enforced by law. Industrial agreements between employers and organizations of employees, when registered, may be enforced in the same manner as awards. The principal State tribunal is the Industrial Commission, constituted by judges. Subsidiary tribunals are Conciliation Committees for various industries, each having an equal number representing employers and employees and a Conciliation Commissioner as chairman.

The chief industrial tribunals of the Commonwealth are the Industrial Court, constituted by judges, and the Conciliation and Arbitration Commission, constituted by presidential members, commissioners and conciliators. The Court is a separate judicial body which deals with questions of law, the judicial interpretation of awards, imposition of penalties, etc. The Commission's functions include settling industrial disputes, determining the standard hours of work, the basic wage, margins, etc.

The rates of wages prescribed by awards and agreements consist of a basic wage (which applies to an unskilled worker) and margins added for skill, etc. The margins are assessed separately for each industry and vary widely. In Nov. 1963 the predominant basic wage for adult males in New South Wales was 295s. per week in Commonwealth awards and 303s. per week in State awards. The minimum wage payable to females is 75% of the male rate.

A standard working week of 40 hours is prescribed for employees in most industries. Overtime is permitted under prescribed conditions.

Registration of trade unions is effected under the New South Wales Trade Union Act, 1881–1959, which follows substantially the Trade Union Acts of 1871 and 1876 of England. Registration confers a quasi-corporate existence with power to hold property, to sue and be sued, etc., and the various classes of employees covered by the union are required to be prescribed by the constitution of the union. For the purpose of bringing an industry under the review of the State industrial tribunals, or participating in proceedings relating to disputes before Commonwealth tribunals, employees and employers must be registered as industrial unions, under State or Commonwealth industrial legislation respectively.

FINANCE. State revenue and expenditure (in £A1,000) for financial years ending 30 June:

¹ Estimates.

Government revenue in 1962–63 included (in £A1,000) receipts from the Commonwealth of 117,319; namely, towards interest on State debt, 2,917;

general financial assistance, 107,967; hospitals, etc., benefits, 4,683; other purposes, 1,752. State taxes, in £A1,000 (excluding motor taxation, 22,007, which is paid direct to special road and traffic funds), totalled, 56,083, including probate duty, 17,780; stamp duty, 16,937, land tax, 10,144; racing, betting, etc., taxes, 6,263, and liquor licences, 4,780. Revenue of business undertakings (in £A1,000) comprised railways, 91,241; trams and omnibuses, 12,385, and harbour services, 6,856. Provision for debt redemption included in debt charges was 6,063, 6,434, 7,073 and 7,548 in the respective years.

In terms of the financial agreement between Commonwealth and States, the Commonwealth has assumed responsibility for debts of the Australian States, and contributes towards the interest thereon and sinking funds established for redemption of the debts. Loans for the States are raised by the Commonwealth in accordance with decisions of the Australian Loan Council.

The public debt of New South Wales at 30 June 1963 (oversea loans converted to Australian currency equivalent at current rates of exchange) comprised the following: Repayable in Australia, £A898,646,000; in London, £A140,525,000; in New York, £A39,270,000; in Canada, £A2,167,000; in Switzerland, £A1,616,000; in Netherlands, £A1,280,000. Interest payments in 1962-63 amounted to £A46,099,000, of which £A7,979,000 was in respect of the external debt. The Commonwealth contributed £A2,917,000 towards the interest. Contributions to the sinking fund for New South Wales debt, £A11,188,000, included £A2,491,000 contributed by the Commonwealth, and the cost of securities redeemed in the year was £A10,833,000. Since the institution of the sinking fund in 1928 contributions have totalled £A156,396,000 (£A34,855,000 by Commonwealth), and redemptions at cost £A155,660,000.

PRODUCTION. Land Settlement. The total area of land alienated or in process of alienation from the Crown on 30 June 1962 was 66,308,469 acres, exclusive of the Australian Capital Territory; 97,098,480 acres (including 69,330,572 acres in the Western Division) were held under perpetual lease from the Crown; 16,680,382 acres under the Crown leasehold tenures, and the total area of land neither alienated nor leased (including roads, reserves for public purposes, etc.) was 17,954,789 acres.

Rural Industries. The area under cultivation in New South Wales during 3 years (ended 31 March) and the principal crops produced were as follows:

Acres under cultivation	1961		1962		1963	
	Value (farm) of all crops (£A)

In 1962-63, 14,109 acres of sugar-cane were cut for crushing, the yield being 637,310 long tons. The total area under grapes was 17,704 (including 1,751 not bearing) acres; the production of table grapes was 6,537 long tons; of wine (1961-62), 6,442,293 gallons; of sultanas, raisins and currants, 179,194 cwt.

In 1962-63 there were 32,752 acres under citrus fruit, principally oranges; the production from 24,788 acres was 5,464,987 bushels. The area of other orchards was 40,175 acres, and the production from 29,584 acres was 6,343,614 bushels. In addition, there were 24,191 acres of banana plantations, the yield from 22,319 acres being 4,023,753 bushels, and there were 914 acres of passion-fruit, pineapples, berries, etc.

At 31 March 1963 the State had 70m. sheep and lambs, 4,569,000 cattle, 166,000 horses and 392,000 pigs. The production of wool in 1962-63 was 693,734,000 lb. (greasy). In the year ended 30 June 1963 production of butter was 81,338,000 lb.; cheese, 11,881,000 lb., and bacon and ham, 28,698,000 lb.

Forestry. The estimated forest area of Crown and private lands is 19,107,000 acres. The total area of State forests amounts to 6,664,000 acres, and 1,402,000 acres have been set apart as timber reserves. The revenue from royalties, licences, etc., amounted in the year ended June 1962 to £A2,465,331. There were 866 saw-mills in the year ended 30 June 1962, the employees numbered 8,571, the value of plant and machinery was £A4,552,733, and land and buildings £A5,397,798. The estimated value of production from forestry in 1961-62 was £A14,790,000.

Mining. The value of output in 1962 of the mining and quarrying industries of New South Wales was £A80,213,595 and total employment was 21,141 persons. The two principal classes of mining were coalmining, which employed 11,998 persons and produced 19,030,418 long tons of coal valued at £A47,033,829, and silver-lead-zinc mining, which employed 4,826 persons and produced minerals valued at £A17,554,951. The following table shows the mine production of metals (*i.e.*, gross contents of metallic minerals produced) in calendar years:

	1959	1960	1961	1962
Antimony (long tons)	1,279	784	679	874

1961-62	23,629	461,087	487,553	7,365	1,317,576	968,694

Approximately 30% of the work force in New South Wales is employed in factories.

Large iron and steel works, with subsidiary factories, are in operation in proximity to the coalfields, at Newcastle and Port Kembla. The products include iron and steel of various grades, pipes, boilers, steel wire and wire netting, copper wire, copper and brass cables, spun cast-iron pipes, and tinplate.

Statistics of the main classes of secondary industry in 1961-62 were:

	Establishments (No.)	Persons employed	Salaries and wages (£A1,000)	Motive power installed (1,000 h.p.)	Value of production (£A1,000)
Chemicals, paints, oils, etc.	624	22,751	27,039	281	89,739

Footwear (1,000 prs)	9,498	16,441	Tyres (new) (1,000)	1,979	11,657

The estimated gross value of recorded production from the primary and manufacturing industries in 1961-62 was as follows (in £A1,000): Pastoral, 218,914; dairying and farmyard, 91,883; agriculture, 127,352; forests, fisheries and trapping, 21,092; mining (including the output of quarries), 78,356; total primary, 537,597; manufacturing 968,694; total recorded, 1,506,291.

COMMERCE. The external commerce of New South Wales, exclusive of interstate trade, is included in the statement of the commerce of the Commonwealth. The oversea commerce of the State is given in £A1,000 f.o.b. for years ending 30 June:

	Imports	Exports		Imports	Exports
1956-57	314,383	292,432	1960-61	479,481	232,420
1957-58	352,653	230,532	1961-62	412,910	322,762
1958-59	332,713	221,373	1962-63	476,973	311,225
1959-60	414,646	281,164			

In 1962-63 bullion and specie accounted for £A2,386,000 of the imports and £A6,816,000 of the exports; £A16.22m. of the exported merchandise was non-Australian produce.

The chief exports are wool, wheat, flour, dairy produce, meats, hides and skins, coal, iron and steel, machinery, drugs and chemicals.

Of the total value of trade of New South Wales in 1962-63, an amount of £A147,233,000 was imported from the UK and £A33,987,000 exported thereto.

COMMUNICATIONS. *Shipping.* The vessels engaged in the interstate and oversea trade which entered the ports of New South Wales in 1961-62 numbered 3,969, net tonnage 16,631,000; the clearances were 3,905 vessels, 16,348,000 tons. Of the total net tonnage entered, 20.3% was owned in Australia, 33.3% in the UK, 5.9% elsewhere in the British Commonwealth. Sydney Harbour is the principal port of Australia. The number of vessels, coastal, interstate and oversea, which entered in 1962-63 was 3,869; net tonnage, 12,148,000.

Railways. On 30 June 1963, 6,055 miles of government railway were open. The earnings in 1962-63 were £A91,241,000; the working expenses, £A79,326,000; the number of passengers carried, 257,756,000. Also open for traffic are 203 miles of Victorian Government railways which extend over the border; 85 miles of private railways (mainly in mining districts) and 11 miles of Commonwealth-owned track.

Roads. There are 131,032 miles of roads and streets in New South Wales, including 410 miles cement concrete, 905 miles bituminous concrete, 21,906 miles other bitumen surface, 45,601 miles gravel or stone, 28,657 miles formed only, 8,550 miles cleared only, 25,003 miles natural surface. The bridge across Sydney Harbour is the largest arch bridge in the world.

The principal omnibus services in Sydney and Newcastle are the property of the Government. The conversion of metropolitan government tramway services to omnibus operation was completed in 1961.

The number of registered motor vehicles on 30 June 1963 was 1,285,084, including 744,814 cars, 375,788 lorries and vans, 4,573 buses, 19,516 motor cycles, 24,298 tractors and 116,095 trailers.

Aviation. Sydney is the major airport in New South Wales and Australia's principal international air terminal. During the year ended 30 June 1963 aircraft movements at Sydney totalled 55,500. Passengers handled numbered 1,567,000 on domestic services and 250,000 on international services. Freight handled on domestic and international services was 21,300 short tons and 6,500 short tons respectively.

BANKING. There were 12 trading banks operating in New South Wales at 30 June 1963, including the Commonwealth Trading Bank and Rural Bank (Government banks), 2 foreign banks and 1 New Zealand bank. *The trading bank business is transacted chiefly by the Commonwealth Trading Bank and 7 private banks, of which 5 have their head offices in Australia and 2 in London.* At 30 June 1963 the 12 banks operated 1,546 branches and 351 agencies in New South Wales.

The weekly average amount of deposits held in New South Wales by the 12 banks was £A828,668,000 in June 1963, consisting of £A322,535,000 bearing interest and £A506,133,000 not bearing interest. Bank advances, overdrafts, bills discounted, etc., amounted to £A539,068,000. A statement of other assets and liabilities of the banks in New South Wales is of little significance, as banking business is conducted on an Australia-wide basis.

Savings bank deposits at the end of June 1963 amounted to £A703,998,000, representing £A174 per head of population.

Lord Howe Island, 31° 33' 4" S., 159° 4' 26" E., a dependency of New South Wales, situated about 436 miles north-east of Sydney; area, 3,200 acres (1,296 hectares), of which only about 300 acres are arable; population (30 June 1963), 262. The island, which was discovered in 1788, is of

volcanic origin. Mount Gower, the highest point, reaches a height of 2,840 ft (852 metres).

A Board at Sydney and an elected Island Committee manage the affairs of the island and supervise the Kentia palm-seed industry.

VICTORIA

CONSTITUTION AND GOVERNMENT. Victoria, formerly a portion of New South Wales, was, in 1851, proclaimed a separate colony, with a partially elective Legislative Council. In 1855 responsible government was conferred, the legislative power being vested in a parliament of two Houses, the Legislative Council and the Legislative Assembly. At present the Council consists of 34 members who are elected for 6 years, one-half retiring every third year. The Assembly consists of 66 members, elected for 3 years from the date of its first meeting unless sooner dissolved by the Governor. Members and electors of both Houses must be adult natural born or naturalized British subjects. Women are fully enfranchised. No property qualification is required, but ministers of religion and judges may not be members of either House. Single voting (one elector one vote) and compulsory preferential voting apply to Council and Assembly elections. Enrolment of Council and Assembly electors is compulsory. The Council may not initiate or amend money bills, but may suggest amendments in such bills other than amendments which would increase any charge. Any Minister, with the consent of the House of which he is not a member, may sit and speak in that House to explain a bill relating to the department administered by him, but may not vote in that House. A bill shall not become law unless passed by both Houses, except that, in the event of a continued disagreement between the two Houses as to a bill passed by the Assembly, other than certain constitutional bills, the Governor having dissolved the Assembly may subsequently dissolve the Council, and if the disagreement still continues he may convene a joint sitting of the members of the Council and the Assembly; if at such joint sitting the bill in dispute is passed by an absolute majority of all members it shall become law.

Members of both Houses receive reimbursement of expenses (£A2,000 per annum), additional allowances rising from £A550 (metropolitan constituencies) to £A950 (outer country), and a living-away-from-home allowance of 3 guineas for each day of attendance for each member (not being a responsible Minister).

Members holding the following offices receive, in addition to the above amounts, the salaries and allowances specified: The President of the Council, £A1,000 salary and £A275 expense allowance; the Speaker of the Assembly, £A1,100 salary and £A275 expense allowance; the Chairman of Committees of the Council, £A400 salary; the Chairman of Committees of the Assembly, £A500 salary; the Leader of the Opposition in the Assembly, £A1,500 salary and £A600 expense allowance; the Deputy Leader of the Opposition in the Assembly, £A500 salary and £A125 expense allowance; the Leader of any recognized party (other than the Opposition) consisting of at least 14 members of Parliament, of which party no member is a responsible Minister, £A600 salary and £A175 expense allowance; a member of either House who is the Parliamentary Secretary of the Cabinet, £A500 salary and a travelling allowance; the Government Whip in the Assembly, £A225 salary; the Whip of any recognized Party which consists of at least 10 members in the Assembly, of which Party no member is a responsible Minister, £A150 salary. All members have free passes over the Victorian Railways; country members are also entitled to certain allowances for air travel.

At the date of the 1961 census the following were the enumerated numbers of each of the principal religions: Catholic, Roman,¹ 250,822; Catholic,¹ 511,912; Church of England, 893,160; Methodist, 275,205; Presbyterian, 367,346; Protestant (undefined), 39,941; other Christian, 226,525; Hebrew, 29,932; other non-Christians, 2,873; indefinite, 6,651; no religion, 10,796; unspecified, 315,050.

¹ So described on individual census schedules.

EDUCATION. Educational establishments in Victoria are of four kinds, viz., 2 universities, established under special Acts and opened in 1855 and 1961 respectively, State schools (primary and secondary), technical schools or colleges, and registered schools.

Affiliated with the university are 7 residential colleges: Trinity and Janet Clarke Hall (Church of England), Ormond (Presbyterian), Queen's (Methodist), Newman (Roman Catholic), St Hilda's (Presbyterian and Methodist) and the University Women's College, which is not a Church foundation. A Baptist college is being formed. In 1962, 12,055 students were enrolled at the University of Melbourne and 798 at the Monash University.

Primary education of children of the ages of 6 to 14 years inclusive is free, secular and compulsory. The compulsory provisions of the Education Act are rigidly enforced. In 1962 there were 1,940 State primary schools with 14,787 teachers and a census enrolment of 306,083 (at 1 Aug. 1962). There were also 301 State secondary schools, comprising 23 central schools and classes, 9 higher elementary schools, 16 girls' schools, 74 junior technical schools and 179 high schools. At these schools (excluding junior technical) there were 5,611 teachers and a census enrolment of 111,187 (at 1 Aug. 1962). There was also a correspondence school with a total enrolment of 4,485. In addition, there were 82 senior technical schools, attached to which were the 74 junior technical schools, with a staff of 5,868 teachers and 107,164 students. The total cost to the State of public instruction, including grants to the University of Melbourne, was £A58m. in 1961-62 (exclusive of interest on loans).

Schools Not Receiving Government Aid. There were, in 1962, 551 registered schools, excluding commercial colleges, with 5,102 teachers and 168,964 pupils enrolled. Of these schools, 448 were connected with the Roman Catholic community; some were under the control of the Church of England, the Presbyterian, Methodist and other Churches, while a few were managed by private persons or companies.

SOCIAL SERVICES. Victoria was the first State of the Commonwealth to make a statutory provision for the payment of Age Pensions. The Act providing for the payment of such pensions came into operation on 18 Jan. 1901, and continued until 1 July 1909, when the Commonwealth Invalid and Old Age Pension Act came into force. The Social Services Consolidation Act, which came into operation on 1 July 1947, repealed the various legislative enactments relating to age (previously old-age) and invalid pensions, maternity allowances, child endowment, and unemployment and sickness benefits and, while following in general the Acts repealed, considerably liberalized many of their provisions: it has since been amended. On 30

June 1963 there were 156,578 age and 22,982 invalid pensioners in Victoria, and the amount paid in pensions, including payments to wives of invalid pensioners, during 1962-63 was £A46,864,000.

The number of war pensions (members of the forces and their dependants) payable in Victoria on 30 June 1963 was 191,116, and the number of service pensions was 15,394. The amount paid in war and service pensions by the Commonwealth Government during 1962-63 was £A23.42m.

During the year ended 30 June 1963 maternity allowance was granted to 66,021 mothers in the State, the total amount paid in allowances during the year being £A1,059,000.

Under the Commonwealth Unemployment and Sickness Benefit Act, 1944, there were 57,121 claims granted, and the amount paid in benefits totalled £A3,671,000 in the year ended 30 June 1963.

The number of widows' pensions in force in Victoria at 30 June 1963 was 14,549, and the total amount paid in allowances during that year was £A3,879,000.

The number of child endowments in force in Victoria at 30 June 1963 was 421,275, representing 933,628 endowable children. In addition, endowment was being paid in respect of 4,594 children who were being maintained in approved institutions. The total amount paid in endowment in Victoria during the year ended 30 June 1963 was £A18.43m.

STATE HOUSING. The Housing Acts, as amended in 1954, provide for the appointment of a Housing Commission of 3 full-time members as the housing authority of the State. The Housing Commission was established in March 1938, and its activities are now spread throughout the whole State. Since its inception to 30 June 1963, 226 localities, including 127 in the country, have been developed by the commission and 48,992 dwelling units provided thereon. In addition, 1,862 dwellings were under construction. About 44% of the units built in 1962-63 were located in country towns, particularly where decentralized industries have been established. In its normal house programme the commission has expended £A142m. up to 30 June 1962. Rental charges for the year 1961-62 were £A5,887,437, against which £A316,941 was allowed in rent rebates to tenants on low incomes, including pensioners.

JUSTICE. There is a Supreme Court with a Chief Justice and 12 puisne judges. There are courts of general and petty sessions, county courts, courts of mines, court of licensing and children's courts.

Criminal statistics for 1962: 258,670 cases (53,723 arrest cases and 204,947 summonses cases); summarily convicted, 236,074; committed for trial, 5,382.

There are 12 gaols in Victoria. At 30 June 1962 there were confined in these prisons, 1,961 males and 33 females.

FINANCE. The consolidated revenue and expenditure (in £A1,000) of the State in the years shown (ended 30 June) were:

	1958-59	1959-60	1960-61	1961-62	1962-63	1963-64 ¹
Revenue.	151,248	168,310	185,101	198,309	207,075	218,159
Expenditure	153,796	167,997	184,933	196,298	207,074	220,635

¹ Estimates.

The principal items of state consolidated revenue (in £A1,000) during 1961-62 were: Taxation, 116,397 (including Commonwealth reimbursement,

73,014, but excluding 14,436 paid to special funds); railways, 42,983; other Commonwealth payments, 5,159; and water supply, sewerage, etc. (including interest), 4,989. QUEENSLAND

CONSTITUTION AND GOVERNMENT. Queensland, formerly a portion of New South Wales, was formed into a separate colony in 1859, and responsible government was conferred. The power of making laws and imposing taxes is vested in a Parliament of one House—the Legislative Assembly, which comprises 78 members, returned from 3 electoral zones

(each with a different quota for the election of members) for 3 years, elected for single-member constituencies at compulsory ballot. Members are entitled to £A2,501 10s. per annum, with individual electorate allowances for travelling, postage and telephone of from £A325 to £A1,175.

At the general election of 1 June 1963 there were 839,323 persons registered as qualified to vote under the Elections Acts Amendment Act 1959. This provides for male and female adult franchise, qualified by 6 months' residence in the Commonwealth and 3 months in the electoral district.

The Legislative Assembly elected on 1 June 1963 was composed of the following parties: Country, 26; Liberal, 20; Australian Labour, 26; Queensland Labour, 1; North Queensland Labour, 1; Independent, 4; total, 78.

Governor of Queensland: Col. Sir Henry Abel Smith, KCMG, KCVO, DSO (appointed Nov. 1957).

The Executive Council of Ministers, appointed 26 Sept. 1963, consists of the following members:

Premier, Minister for State Development and Vice-President of the Executive Council: George Francis Reuben Nicklin (Country).

Minister for Industrial Development: Alan Whiteside Munro (Liberal).

Minister for Education: Jack Charles Allan Pizzey (Country).

Treasurer: Thomas Alfred Hiley (Liberal).

Minister for Mines and Main Roads: Ernest Evans (Country).

Minister for Health: Henry Winston Noble (Liberal).

Minister for Transport: Gordon William Wesley Chalk (Liberal).

Minister for Lands: Alan Roy Fletcher (Country).

Minister for Local Government and Conservation: Harold Richter (Country).

Minister for Labour and Industry: Alexander Tattenhall Dewar (Liberal).

Minister for Primary Industries: John Alfred Row (Country).

Minister for Works and Housing: Johannes Bjelke-Petersen (Country).

Minister for Justice and Attorney-General: Peter Roylance Delamothé (Liberal).

Each Minister has a salary of £A3,851 10s.; the Premier receives £A5,201 10s., the Deputy Premier, £A4,101 10s., and the Leader of the Opposition, £A3,501 10s.

Agent-General in London: Dr W. A. T. Summerville (409 Strand, WC2).

LOCAL GOVERNMENT. Provision is made for local government by the subdivision of the State into areas denominated respectively cities, towns and shires. These are under the management of aldermen and councillors, who are elected by the Parliamentary electors and are charged with the control of all matters of a parochial nature, such as sanitary and health services, domestic water supplies, and roads and bridges within their allotted areas. Rates are levied on the unimproved capital value of land. Shires for the most part consist of purely rural districts.

The number and area of these subdivisions, together with the receipts and expenditure (including receipts and expenditure from loans) for the year ended 30 June 1962, were:

	No.	Area in sq. miles	Receipts, £A1,000	Expenditure, £A1,000	Rateable values, £A1,000
City of Brisbane	1	385	28,563	27,376	71,755
Other cities	13	411	12,415	12,279	77,331
Towns	5	67	1,319	1,436	2,760
Shires	112	665,115	24,037	23,574	174,278
Total	131	665,978	66,334	64,665	326,124

These figures include loan receipts of £A15,521,000; and the operating receipts and expenditures of business undertakings (principally water supply, electricity and transport). These receipts of local governmental business undertakings were £A17,859,000, and expenditures £A17,726,000.

AREA AND POPULATION. Queensland comprises the whole north-eastern portion of the Australian continent, including the adjacent islands in the Pacific Ocean and in the Gulf of Carpentaria. Estimated area 667,000 sq. miles (1,727,500 sq. km) with a seaboard of 3,236 miles.

The increase in the population as shown by the censuses since 1901 has been as follows:

Year	Population at census date			Intercensal increase	
	Males	Females	Total	Numerical	Rate per annum (%)
1901	277,003	221,126	498,129	—	—
1911	329,506	276,307	605,813	107,684	1.98
1921	398,969	357,003	755,972	150,159	2.23
1933	497,317	450,317	947,534	191,562	1.90
1947	567,471	538,944	1,106,415	158,881	1.13
1954	676,252	642,007	1,318,259	211,844	2.54
1961	774,579	744,249	1,518,828	200,569	2.04

The estimated population at 30 June 1962 was 1,542,629; the estimated aboriginal and part-aboriginal population was 39,230; Torres Strait Islanders, 8,250.

Of the total population of 1,518,828 recorded at the census of 30 June 1961, 1,341,050 persons (exclusive of aboriginals) were born in Australia; 5,756 in New Zealand; 93,354 in the British Isles; 64,915 in other parts of Europe; 13,753 elsewhere.

VITAL STATISTICS for calendar years:

	Total births	Marriages	Divorces	Deaths
1960	35,213	10,227	705	12,370
1961	36,637	10,392	781	12,756
1962	35,690	10,642	928	13,182

The annual rates per 1,000 population in 1962 were: Marriages, 6.9; births, 23.2; deaths, 8.56. The infant death rate was 21.13 per 1,000 births.

Brisbane, the capital, had on 30 June 1962 a metropolitan area population of 635,500. The populations of the other chief towns at the same date were: Townsville, 52,600; Toowoomba, 51,000; Ipswich, 50,000; Rockhampton, 44,500; Gold Coast, 35,000; Cairns, 25,700; Bundaberg, 23,100; Mackay, 21,750; Maryborough, 19,200; Mount Isa (1961), 13,358; Gympie, 11,200; Warwick, 9,900; Ayr (1961), 8,010; Dalby, 7,750; Charters Towers, 7,700; Gladstone, 7,250.

RELIGION. There is no State Church. Membership in 1961: Church of England, 483,316; Roman Catholic, 209,307; Catholic (not further defined), 163,043; Presbyterian, 173,316; Methodist, 165,556; Lutheran, 35,123; Baptist, 22,253; Congregational, 9,166; other Christian, 69,083; Jews, 1,334 all others (including not stated and no religion), 184,331.

EDUCATION. Primary education is compulsory between the ages of 6 and 14 years. Education is free in State primary and high schools. The public expenditure on education, science and art for 1961-62 was £A23,239,000. At Aug. 1962 there were 1,395 State primary schools (including 22 provisional schools, 20 special schools and 1 correspondence school), with 7,219 teachers (including sewing mistresses), and net enrolment of 211,640 scholars. Secondary education was provided during 1962 by 64 State high schools and 50 high 'top' departments attached to State primary schools, with 2,132 teachers, the net enrolment being 39,350 scholars, and by 8 subsidized grammar schools (4 for boys, 3 for girls, 1 mixed), with 148 teachers and a net enrolment of 2,932 secondary and 218 primary pupils. There were, in addition, 316 other, mostly church schools, with 2,520 teachers and a net enrolment of 71,729 children.

There were 15 technical schools with 30,208 students and 6,332 correspondence students. The Queensland University (established in 1911) in Brisbane had, at July 1962, 41 professors and 530 lecturers and demonstrators, with 10,507 students (including 381 at Townsville). There are 6 denominational and 2 undenominational residential colleges attached to the University. A University College was opened in Townsville in 1961.

JUSTICE. Justice is administered by a Supreme Court, a district court, magistrates' courts (civil jurisdiction), courts of petty sessions (criminal jurisdiction) and children's courts. The Supreme Court comprises a Chief Justice, a senior puisne judge and 9 puisne judges; the district court, 6 district court judges. Stipendiary magistrates preside over the lower courts, except in the smaller centres, where justices of the peace officiate.

The total number of persons convicted of serious offences by the superior courts in 1961-62 was 1,175; the summary convictions at petty sessions (including cases of bail estreated) numbered 71,702. There were, at 30 June 1962, 5 gaols, and 3 prison farms conducted on the honour system, with 873 male and 17 female prisoners. The total police force, including 8 women police and 16 native trackers, was 2,764 at 30 June 1962.

SOCIAL WELFARE. Public hospitals are maintained by State and Commonwealth Government endowment, supplemented by fees from patients not in public wards; welfare institutions for aged people, and for orphans and the blind, deaf and dumb, and refuges and homes are also maintained or assisted by the State. A maternal and child welfare service is provided throughout the State. Age, invalid, widows' and war pensions, maternity allowances, child endowment, and unemployment and sickness benefits are paid by the Commonwealth. Age pensioners in the State at 30 June 1962 numbered 93,857; invalid pensioners, 14,650; war pensioners, 94,775 (including dependants). Maternity allowance was paid to 36,339 mothers during 1961-62.

There were 9,452 widows' pensions current at 30 June 1962, and at the same date child endowment was being paid to 215,498 families in respect of 508,823 children.

FINANCE. Revenue and expenditure of the Consolidated Revenue Fund of Queensland during 5 years ending 30 June (in £A1,000):

	1959-60 ¹	1960-61	1961-62	1962-63 ¹	1963-64 ²
Revenue	101,912	108,817	117,325	122,818	125,437
Expenditure	102,077	109,435	117,215	122,791	125,432

¹ Excluding £A1,191,000 in 1959-60 and £A673,000 in 1962-63 transferred from trust and special funds to offset accumulated deficits.

² Estimate.

The principal items of consolidated revenue in 1961-62 were: Taxation (including Commonwealth reimbursement), £A59m.; railways, £A35m.; Commonwealth grants, £A8m. Expenditure included: Railways, £A37m.; public debt charges, £A19m.; education, £A19m.; health, £A17m.; law and order, £A7m.; general administration, £A7m.

A substantial part of the State finances is handled through trust funds, and in 1961-62 total receipts by trust funds was £A86,239,000 and expenditure £A84,806,000. Gross loan expenditure amounted to £A30,688,000.

Revenue and expenditure of Commonwealth departments on account of Queensland are not included.

The gross public debt of the State amounted, on 30 June 1963, to £A385,041,000. The debt was domiciled as follows: Australia, £A330,613,000; Great Britain, £45,687,000; USA, £A7,303,000; Switzerland, £A652,000; Canada, £A435,000; Netherlands, £A351,000. The annual interest charge on the public debt at 30 June 1963 was £A16,403,000.

PRODUCTION. Land Settlement. Of the total area of the State, 26,176,000 acres had been alienated at 31 Dec. 1962; in process of alienation, under deferred payment system, are 2,203,000 acres, leaving 398,501,000 acres still the property of the Crown, or 93.4% of the total area. The receipts from the sale of land up to the end of 1962 amounted to £A17,519,000.

In the western portion of the State water is comparatively easily found by sinking artesian bores. At 30 June 1962, 2,778 such bores had been drilled, of which 1,876 were flowing.

Rural Industries. A large proportion of the area is leased for pastoral purposes, amounting to 243,959,000 acres at 31 Dec. 1962, besides 93,522,000 acres in grazing selections and 15,378,000 acres under occupation licence. Perpetual leases amounted to 6,802,000 acres. Livestock on farms and stations at 31 March 1963 numbered 212,018 horses, 7,233,638 cattle; 22,810,720 sheep and 402,498 pigs. The total area under crops during 1962-63 was 3,473,579 acres. 220,562 acres were irrigated in 1962-63, the principal crops so watered being sugar cane, fodder crops, vegetables, tobacco and fruit. The wool production, expressed as greasy, was, in 1961-62, 230,333,000 lb., valued at £A50,637,000.

Total value of all crops, 1960-61, £A101,721,000; 1961-62, £A105,275,000.

Forestry. A considerable area consists of natural forest, eucalyptus, pine and cedar being the timbers mostly in evidence, although a large quantity of more ornamental woods are utilized by cabinet makers. The amount of native timber sawn in 1961-62 was (in 1,000 sup. ft): Softwoods, 53,141; hardwoods, brushwoods and scrubwoods, 147,785; total value, £A12,188,000. The plywood industry is important; 98,086,000 sq. ft of plywood were produced, the value being set down at £A4,151,000. In addition, 133,014,000 sq. ft of veneer, valued at £A1,115,000, was produced chiefly from cabinet woods of the north. Forest and timber reservations total 8,201,000 acres (31 Dec. 1962); areas for national parks, 929,213 acres. The State Forest Service had planted 102,000 acres for reforestation and had treated 647,000 acres for natural regeneration by June 1962.

Mining. Principal minerals produced during 1962 were: Copper, 82,140 long tons; uranium oxide, 893 long tons; coal, 2,798,841 long tons; lead, 62,517 long tons; zinc, 44,704 long tons; silver, 5,585,000 oz.; tin, 1,038 long tons; gold, 67,841 fine oz.; bauxite, 20,536 long tons; mineral sands concentrates, 81,431 long tons. The 580 mines employed 8,913 workers and had a value of output, at the mine, of £A45,877,692.

Oil was discovered at Moonie in southern Queensland in 1961. A pipeline has been laid from Moonie to Brisbane, where 2 refineries are being built.

Industry. Approximately one-third of the secondary production of the State is from works processing primary products, the most important being sugar-mills, meat works, butter factories and saw-mills. There are 31 cane-crushing mills, 2 sugar refineries, 41 meat works (including bacon factories) producing largely for export, 47 butter factories and many saw-mills of various sizes. Other industries include engineering works, railway workshops, copper refining, rubber, cement and woollen mills and the production of various items of food, clothing and vehicles, chiefly for local use. In 1961-62 there were 5,756 factories, employing 82,160 males and 17,497 females, and making goods worth £A478,564,000. The value of production (value added in manufacture) was £A167,282,000. In addition, there were 52 electricity stations and 16 gasworks.

The gross value of Queensland primary production (in £A1,000) during 1961-62 amounted to 300,792, which included agriculture, 105,275; dairying and pig-raising, 33,012; pastoral, 106,198; poultry and bee-keeping, 4,730; mining, 41,550; forestry, 7,914; fisheries, 1,834; trapping, 279. Manufacturing, including production of light, heat and power, was £A175,298,000 (net value).

Electricity. The State Electricity Commission was established in 1938. It is authorized to co-ordinate and supervise the electricity industry throughout Queensland. Since 1 July 1948 the Commission is under a single Commissioner for Electricity Supply. In 1961-62, 33 generating stations were operated by local authorities, 15 by regional boards, 3 by the Southern Electric Authority of Queensland and 1 by a private concern. Electricity generated by the principal stations in the year ended 30 June 1962 was 2,715m. kwh.; estimate for 1962-63, 2,913m. kwh. Natural gas is being used for electric generation at Roma.

LABOUR. An Industrial Commission is empowered to determine all industrial matters in relation to employers and employees, and to fix minimum wage-rates and other conditions of employment. An Industrial

Court hears appeals and decides points of industrial law. The Commonwealth Industrial Court and Conciliation and Arbitration Commission are superior within their jurisdictions, but in Queensland most employees are working under State awards.

Under the Industrial Conciliation and Arbitration Act, 1961, unions both of employees and employers must be registered. There were 77 employees' and 32 employers' unions at 31 Dec. 1962; the former comprising 296,642, and the latter 36,916 members.

COMMERCE. The overseas commerce of Queensland is included in the statement of the commerce of the Commonwealth of Australia.

Total value of the direct overseas imports and exports of Queensland (in £A1,000 f.o.b. port of shipment for both imports and exports):

	1957-58	1958-59	1959-60	1960-61	1961-62	1962-63
Imports	49,498	47,737	50,858	61,277	48,861	67,105
Exports	156,493	169,998	181,321	163,778	172,443	202,501

In 1961-62 interstate exports totalled £A120,532,000 and imports £A221,652,000. The chief exports overseas are wool, sugar, meat (preserved or frozen), minerals and butter.

COMMUNICATIONS. *Railways.* Practically all the railways are owned by the State Government, and their mileage, 6,077 miles at 30 June 1962, is the greatest of any of the State systems. In 1961-62, 26,701,000 passengers and 8,153,000 tons of goods and livestock were carried.

Roads. At 30 June 1962 the Main Roads Department had constructed 15,757 miles of main roads. Including roads built by local governments, there were 72,131 miles of constructed roads, of which 30,866 miles were surfaced with concrete, bitumen or macadam.

At 30 June 1963 motor vehicles registered in Queensland totalled 462,831, comprising 300,796 cars, 104,747 vans, 1,871 buses, 40,925 trucks, 429 ambulances and 14,063 motor cycles.

Aviation. Airlines provide services between Brisbane, other Queensland centres and the southern capitals, connecting at Sydney with New Zealand, Great Britain, North America and South Africa; also between New Guinea and Sydney, landing at Brisbane and other Queensland coastal cities. Brisbane is a port of call on the service between Melbourne and London, and there is a service from Brisbane to New Zealand. Other services connect Brisbane with towns in Central and Western Queensland and Sydney and the southern States with Coolangatta, Toowoomba, towns in south-western Queensland and Brisbane, via New South Wales coastal and New England towns. Mount Isa is connected with Alice Springs in Central Australia. Subsidiary companies provide planes for taxi and charter work, and the Flying Doctor Service operates throughout western Queensland.

Broadcasting. At 30 June 1963, 36 broadcasting and 5 television stations were in operation throughout Queensland. Listeners' licences totalled 334,566 and viewers' licences, 175,019.

BANKING. There were 9 cheque-paying banks operating in Queensland at 30 June 1962, including the Commonwealth Trading Bank of Australia, the 7 larger Australian trading banks and a Queensland bank with head

office in Brisbane. The Commonwealth Trading Bank had 88 branches and 46 agencies; the private banks had 514 branches and 266 agencies in the State; Queensland deposits of all banks, including the Commonwealth Trading Bank of Australia, amounted to £A253,048,000; and loans, advances and bills discounted in Queensland were £A157,919,000. At 30 June 1962 savings bank business was conducted in Queensland by 7 banks, the Commonwealth Savings Bank with 120 branches and 1,408 agencies, and 6 private banks with 448 branches and 667 agencies. Depositors' balances amounted to £A205.9m. in 1,251,000 accounts.

SOUTH AUSTRALIA

CONSTITUTION AND GOVERNMENT. South Australia was formed into a British province by letters patent of Feb. 1836, and a partially elective Legislative Council was established in 1851. The present constitution bears date 24 Oct. 1856. It vests the legislative power in an elected Parliament, consisting of a Legislative Council and a House of Assembly. The former is composed of 20 members. Every 3 years half the members retire, and their places are supplied by members elected from each of the 5 districts into which the State is divided for this purpose. The qualifications of an elector are, to be a resident of the State, a natural born or naturalized British subject and 21 years of age, and (for the Legislative Council) certain property or war service qualifications. By the Constitution Amendment Act, 1894, the franchise was extended to women, who voted for the first time at the general election of 25 April 1896. The qualifications for election as a member of the House of Assembly are the same as for an elector, but a candidate for the Legislative Council must have attained the age of 30 and be a resident in the State for 3 years. Judges and ministers of religion are ineligible for election to either House.

The House of Assembly consists of 39 members elected for 3 years, representing single electorates. The election of members of both Houses takes place by preferential secret ballot. Voting for the House of Assembly is compulsory.

The House of Assembly consists of the following members: Liberal and Country League, 19; Australian Labour Party, 19; Independent, 1. The Legislative Council consists of 16 Liberal and Country League and 4 Labour members.

Each member of Parliament receives £A3,100 per annum (£A3,300 if 50

miles from Adelaide, £A3,450 if 200 miles), a free pass over government railways and superannuation rights. Electors enrolled (Sept. 1963) numbered 538,301 for the House of Assembly and 207,316 for the Legislative Council.

The executive power is vested in a Governor appointed by the Crown and an Executive Council, consisting of the Governor and the Ministers of the Crown. The Governor has the power to dissolve the House of Assembly but not the Legislative Council unless that Chamber has twice consecutively with an election intervening defeated the same or substantially the same Bill passed in the House of Assembly by an absolute majority.

Governor of South Australia: Lieut.-Gen. Sir Edric Bastyan, KCMG, KVO, KBE, CB (sworn in, 4 April 1961).

The Liberal and Country League Ministry is as follows:

Premier, Treasurer and Minister of Immigration: Sir Thomas Playford, GCMG, MP.

Chief Secretary, Minister of Health and of Mines: Sir Alexander Lyell McEwin, KBE, MLC.

Attorney-General, Minister of Labour and Industry: Colin Davies Rowe, MLC.

Minister of Lands, of Repatriation and of Irrigation: Percival Hillam Quirke, MP.

Minister of Works, of Marine, and of Aboriginal Affairs: Glen Gardner Pearson, MP.

Minister of Agriculture and of Forests: David Norman Brookman, MP.

Minister of Education: Sir Baden Pattinson, KBE, MP.

Minister of Local Government, of Roads, and of Railways: Norman Lane Jude, MLC.

The provision for the payment of Ministers is £A42,650. They are jointly and individually responsible to the legislature for all their official acts, as in the UK.

Agent-General in London: M. A. F. Pearce, CVO, CBE (50 Strand, WC2).

LOCAL GOVERNMENT. The closely settled part of the State (mainly near the sea-coast and the river Murray) is incorporated into local government areas, and sub-divided into district councils (rural areas only), municipal corporations (mainly metropolitan, but including larger country towns) and cities (more densely populated areas with a qualification of 15,000 residents in the metropolitan area, and 10,000 in the country). The main functions of councils are the construction and maintenance of roads and bridges, and the administration of the Health and Building Acts.

The number and area of the subdivisions, together with revenue expenditure and rateable values (in £A1,000) for the year ended 30 June 1961, were:

	No.	Area (sq. miles)	Roads and bridges	Health and recreation	All other	Assessed values
City of Adelaide	1	6	242	454	508	5,988
Metropolitan cities and corporations	20	156	2,661	728	1,099	22,796

The improved capital value of all property in local government areas is approximately 20 times the above assessed values.

AREA AND POPULATION. The total area of South Australia is 380,070 sq. miles (984,300 sq. km). The settled part is divided into counties and hundreds. There are 49 counties proclaimed, covering 56,008,960 acres, of which 48.3m. acres are occupied. Outside this area there are extensive pastoral districts, covering 187,235,840 acres, 112m. of which are under pastoral leases.

Census population (exclusive of aboriginals):

Population, 30 June 1963, 1,008,994; population of the city of Adelaide and suburbs, 600,200.

The number of full-blooded aboriginals in the State has been estimated at 2,100; the nomadic proportion is decreasing. Part-aborigines number about 4,000.

VITAL STATISTICS for calendar years:

	Births	Marriages	Divorces	Deaths
1960	20,966	6,607	610	7,804
1961	22,399	6,804	679	7,815
1962	21,361	7,021	660	8,232

The infant mortality rate in 1962 was 19.15 per 1,000 live births.

RELIGION. No state aid is given for religious purposes.

At the census of 1961 the religious distribution of the population was as follows: Church of England, 255,054; Methodist, 216,770; Roman Catholic and Catholic (so described), 183,053; Lutheran, 53,947; Presbyterian, 37,911; other Christians, 112,165; non-Christian, 1,987; indefinite, 2,614; no religion, 3,234; no reply, 102,605.

EDUCATION. Education is secular and is compulsory to the age of 15. Primary, secondary and technical education at government schools is free. Religious instruction is given by ministers of religion for one lesson a week. In 1962 there were 681 government schools, comprising 545 primary, 37 predominantly primary (with some secondary pupils), 52 high, 23 technical high, and 24 part-time and technical education centres. There were 183,423 full-time and 28,079 part-time pupils. There are an Institute of Technology; an agricultural college; training colleges for teachers; and a university, incorporated in 1874, which is substantially subsidized by the Government. Most of the 164 private schools and colleges are associated with religious denominations (36,402 pupils). There are also 114 free kindergartens.

JUSTICE. There is a Supreme Court, a court of vice-admiralty and over 100 local courts and courts of summary jurisdiction. Circuit courts are held at several places. Bankruptcy jurisdiction is administered by the State Court of Insolvency at Adelaide which is invested with jurisdiction by the Federal Bankruptcy Act. During 1962 there were 619 sequestrations

and schemes under the Bankruptcy Act; 718 convictions for felonies and misdemeanours in the higher courts and 53,531 in the magistrates' courts. The total number of persons in gaols on 30 June 1962 was 658.

SOCIAL WELFARE. Age, Invalidity, War, etc., Pensions are paid by the Commonwealth Government. The number of pensioners in South Australia at 30 June 1963 was: War and service, 73,239; age, 56,229; invalid, 7,927. There are schemes for maternity allowances, childhood endowment, widows, unemployment and sickness and hospital and pharmaceutical benefits. The total annual liability in 1962-63 was £A41,696,000.

LABOUR. Two systems of industrial arbitration and conciliation for the adjustment of industrial relations between employers and employees are in operation—the State system, which operates when industrial disputes are confined to the territorial limits of the State, and the Commonwealth system, which applies when disputes involve other parts of the Commonwealth as well as South Australia.

The industrial tribunals are authorized to fix minimum rates of wages and other conditions of employment, and their awards may be enforced by law. Industrial agreements between employers and organizations of employees, when registered, may be enforced in the same manner as awards.

State industrial legislation is contained in the Industrial Code, 1920-60. Under its terms the Board of Industry declares the 'living wage' to be paid to adult male and female employees. The Board has power also to fix different rates to be paid in different defined areas. The Board of Industry shall hold an inquiry whenever a substantial change in the cost of living or any other circumstance has, in the opinion of the Board, rendered it just and expedient to review the question of the 'living wage', but a new determination cannot be made until the expiration of at least 6 months from the date of its previous determination.

The Board of Industry consists of 5 members, the President being the President or Deputy of the State Industrial Court, 1 member nominated by the South Australian Employers' Federation, 1 by the Chamber of Manufacturers as representatives of employers and 2 nominated by the United Trades and Labour Council of South Australia as representatives of employees.

The first declaration of the 'living wage' ('a sum sufficient for the normal and reasonable needs of the average employee') by the Board of Industry was on 15 July 1921, when the wage was fixed at £3 19s. 6d. The present living wage (last adjusted in July 1961) is £14 3s. per week.

Provision is also made in the Industrial Code for Industrial Boards, which, subject to an appeal to the Industrial Court, determine the margins for skill in an industry. Each Board consists of from 2 to 4 representatives of employers and employees in equal numbers and a chairman nominated by the members or otherwise determined by the President.

The Industrial Code was amended in 1950 to provide that the Governor may by proclamation fix the living wage, if the Minister of Industry is satisfied that the proclamation is desirable in order to avoid unjustifiable differences between the Commonwealth basic wage and the State living wage and the President of the Court recommends it. The living wages since 1956 have been fixed by proclamation.

FINANCE. Revenue and expenditure (in £A1,000) for years ended 30 June:

	1958	1959	1960	1961	1962	1963	1964 ¹
Revenue	70,642	72,680	80,277	86,279	93,202	97,584	102,814

¹ Estimates.

The public debt of the State amounted, on 30 June 1963, to £A403,522,119, representing £A400 per head of the population.

PRODUCTION. Of the total area of South Australia (243,244,800 acres), 16.3m. acres were alienated or in process of alienation under systems of deferred payments, 80.1m. acres were unoccupied, 146.9m. acres were held under lease; 11m. acres were under cultivation, on 31 Dec. 1962.

Soil Conservation. Under the direction of special officers in the Department of Agriculture, determined efforts are made to deal with the problems of erosion and soil conservation. Included in the programme are the planting of cereal rye, perennial rye and other grasses to check sand drifts; contour-furrowing and contour banking; contour planting with vines and fruit trees and several water-diversion schemes.

Irrigation. In 1961-62, 77,058 acres were under irrigated culture, being used as follows: Vineyards, 27,167; orchards, 25,236; vegetables, 11,312; green fodder, 3,753, and other crops, 9,590. These figures are exclusive of 31,342 acres of irrigated pasture land. Most of these areas are along the river Murray.

Agriculture. Value of production (in £A1,000), 1961-62: Crops, 62,011; pastoral, 55,925; dairying, 14,924; fisheries and game, poultry, forestry, etc., 9,616. Total gross value, 142,476; local value (*i.e.*, less marketing costs), 129,711; net value (*i.e.*, less materials used), 107,697.

² Of dried vine fruits.

Fruit culture is extensively carried on, and annually about 300,000 cwt of dried fruit and 6m. cases of fresh fruit are produced. Other products, in addition to all kinds of root crops and vegetables, are grass seeds, eucalyptus oil, olive oil and chicory. Livestock, March 1963: 25,000 horses, 678,700 cattle, 15,737,500 sheep and 145,000 pigs. In 1962-63, 204.9m. lb. of wool and 97m. gallons of milk were produced.

Mining. The value of minerals produced in 1962 was £A26,979,144. The principal minerals produced are iron, pyrite, gypsum, salt, opals, talc, clays, limestone, dolomite and sub-bituminous coal.

Factories. Dissection of 1961-62 statistics according to the main classes of industry is given in the following table:

Classification	Establishments (No.)	Persons employed (No.)	Salaries and wages paid (£A1,000)	Value of output (£A1,000)	Value of produc- tion ¹ (£A1,000)

¹ *I.e.*, value added to materials by treatment.

Machinery, land, buildings, etc., were valued at £A224.8m. in 1962. Practically all forms of secondary industry are to be found, the most important being smelting, motor-body building, shipbuilding, saw-milling and the manufacture of household appliances, agricultural machinery, industrial chemicals and chemical fertilizers.

The remarkable increase in secondary industries in the State is indicated by the increase of factory workers from 43,371 in 1939 to 99,094 in 1962.

COMMERCE. The commerce of South Australia, exclusive of interstate trade, is comprised in the statement of the commerce of Australia given under the heading of the Commonwealth.

Oversea imports and exports direct from South Australian ports, in £A1,000 (year ending 30 June):

	1957-58	1958-59	1959-60	1960-61	1961-62	1962-63
Imports	47,103	45,346	59,747	71,382	51,693	69,915
Exports	99,882	90,916	90,826	99,279	121,988	106,611

Principal exports in 1962-63 were (in £A1,000): Wool, 41,806 (181.8m. lb.); lead 10,898; wheat, 13,543 (18.5m. bu.); barley, 3,484 (6.9m. bu.); concentrates and ores, 10,925; skins and hides, 4,055; meats, 3,176; machinery and vehicles, 2,855; fruit (fresh and dried), 2,705; flour, 2,758; wine, 1,251.

Principal imports in 1962-63 were (in £A1,000): Machines and machinery, 11,394; motor vehicles and parts, 14,433; electrical appliances and equipment, 4,199; textile piece-goods, 3,250; timber, 2,583; iron and steel, 2,490; petrol, 1,807; other oils, 4,325; bags and sacks, 1,599; paper-pulp and manufactures, 3,707.

COMMUNICATIONS. *Railways.* There were (1962) 3,883 miles of railway, including the South Australian portion of the Transcontinental Railway from Port Pirie in South Australia to Kalgoorlie in Western Australia, which, in connexion with various State lines, completes a through rail connexion between Brisbane on the north-east coast and Fremantle on the west coast. It also includes the South Australian portion of the Commonwealth Railway from Port Augusta to the Northern Territory. In the year ending 30 June 1963 the State-controlled sections carried 14,922,200 passengers and 4.53m. tons of freight.

Roads. There are 55,000 miles of roads in use for general traffic in the more settled areas, but 22,300 have been surveyed only and with little or no improvement; 12,400 have been formed but with little or no metal; 16,800 have been metalled, and 3,500 have been improved with bituminous

dressings or are of bituminous concrete, etc. Costs of construction and maintenance are shared by the State and federal governments and by the councils of the local areas. Motor vehicles registered at 30 June 1963 include 248,082 cars, 75,736 commercial vehicles and 14,465 cycles.

Shipping. There are several good harbours, of which Port Adelaide is the principal one. In 1961-62, 1,958 vessels of 7,646,000 tons entered South Australian ports direct from interstate or overseas.

Post. Postal, telephone and telegraph facilities are afforded at 926 offices. Telephone services connected totalled 159,345 on 30 June 1963; there were 16 wireless and 3 television stations; 254,482 wireless listeners' and 167,503 viewers' licences were current.

Aviation. For the year ended 30 June 1963 there were carried 492,643 passengers (375,465 interstate, 117,178 intrastate) and 9,035 short tons of freight (7,576 interstate, 1,459 intrastate). On 30 June 1963 there were 13 government and 15 licensed aerodromes, and 18 scheduled airline services in South Australia.

BANKING AND CREDIT. There were 9 cheque-paying banks at 30 June 1963, including the Commonwealth and State Government Banks. In June quarter, 1963, their average deposits were £A145,446,000 and average advances £A90,581,000.

The 9 savings banks on 30 June 1963 had deposits amounting to £A208,077,000 or £A207 per head of population.

STATISTICAL INFORMATION. The State branch of the Commonwealth Bureau of Census and Statistics is in Prudential Building, 195 North Terrace, Adelaide (GPO Box 1433J). *Deputy Commonwealth Statistician:* D. L. J. Aitchison. Although the first printed statistical publication was the *Statistics of South Australia, 1854* with the title altered to *Statistical Register* in 1859, there is a written volume for each year back to 1838. These contain simple records of trade, demography, production, etc. and were prepared only for the use of the Colonial Office; one copy was retained in the State.

The publications of the State branch include the *Statesman's Pocket Year Book* and the *Statistical Register* (both annual), a printed *Quarterly Abstract* and a duplicated *Monthly Summary of Statistics*, a duplicated quarterly bulletin of building constructions, duplicated monthly bulletins of trade statistics and approximately 20 special duplicated bulletins issued each year as particulars of various sections of statistics become available.

WESTERN AUSTRALIA

HISTORY. In 1791 Vancouver, in the *Discovery*, took formal possession of the country about King George Sound. In 1826 the Government of New South Wales sent 20 convicts and a detachment of soldiers to King George Sound and formed a settlement then called Frederickstown. In 1827 Captain (afterwards Sir) James Stirling surveyed the coast from King George Sound to the Swan River, and in May 1829 Captain (afterwards Sir) Charles Fremantle took possession of the territory. In June 1829 Captain Stirling, newly appointed Lieut.-Governor, founded the colony known as the

Swan River Settlement, now the Commonwealth State of Western Australia. Shortly afterwards settlements were established at Perth and Fremantle.

Large grants of land were made to the early settlers, and agricultural and pastoral occupations were pursued by a small population with varying success, until, in 1850, the colony was in a languishing condition, and the inhabitants' petition that it might be made a penal settlement was acceded to. Between 1850 and 1868, when transportation ceased, 9,668 convicts were sent out. The imperial convict establishment was transferred to the Colonial Government on 31 March 1886.

In 1870 partially representative government was instituted, and in 1890 the administration was vested in the Governor, a Legislative Council and a Legislative Assembly. The Legislative Council was, in the first instance, nominated by the Governor, but it was provided that in the event of the population of the colony reaching 60,000, it should be elective. In 1893 this limit of population being reached, the Colonial Parliament passed an Act (57 Vict. No. 14) amending the constitution. On 1 Jan. 1901 Western Australia became one of the 6 federated States within the Commonwealth of Australia.

CONSTITUTION AND GOVERNMENT. The Legislative Council consists of 30 members, each of the 10 electoral provinces into which the State is divided being represented by 3 members. Election is for 6 years, and one-third of the members retire every 2 years. A candidate must be at least 30 years of age and free from legal incapacity, shall have resided in Western Australia for a minimum of 2 years, be a British subject and be enrolled, or qualified for enrolment, as an elector at Legislative Assembly elections. A member of the Legislative Assembly, a judge of the Supreme Court, the Sheriff of Western Australia, a minister of religion, an undischarged bankrupt or a debtor against whose estate there is a subsisting order in bankruptcy may not be elected. An elector must be at least 21 years of age and not subject to any legal incapacity, be a British subject resident in Western Australia for 6 months and possess certain property qualifications. Aboriginal natives of Australia who satisfy these requirements are entitled to enrolment as electors. Preferential voting applies to Council elections and voting is not compulsory.

There are 50 members of the Legislative Assembly, each member representing one of the 50 electoral districts into which the State is divided for the purpose. Members are elected for the duration of the Parliament, normally 3 years. A candidate must have resided in Western Australia for 12 months, be at least 21 years of age and free from legal incapacity, be a British subject, and be enrolled, or qualified for enrolment, as an elector at Legislative Assembly elections. A candidate must not be a member of the Legislative Council, a judge of the Supreme Court, the Sheriff of Western Australia, a minister of religion, an undischarged bankrupt or a debtor against whose estate there is a subsisting order in bankruptcy. An elector must be at least 21 years of age, a British subject free from legal incapacity, must have resided in Western Australia for 6 months continuously and in the electoral district for which he claims enrolment for a continuous period of 3 months immediately preceding the date of his claim. Enrolment is compulsory for qualified persons except aboriginal natives of Australia, who may, but in general are not required to, enrol. Voting for the Assembly is on the preferential system and is compulsory for all enrolled persons, including Australian aboriginals.

Members of the legislature are paid a basic salary of £A2,500 a year to which periodical adjustments are made (total, £A2,520 in July 1963), with additional expense reimbursement allowances to all members, ranging from £A600 to £A950. Members are entitled to free travel on all government railways. Management and control of the unalienated lands of the Crown in Western Australia is vested in the legislature of the State.

The Legislative Assembly, elected on 31 March 1962, is composed as follows: Labour Party, 24; Liberal and Country League, 18; Country Party, 8.

Governor: Maj.-Gen. Sir Douglas Kendrew, KCMG, CB, CBE, DSO (sworn in 25 Oct. 1963).

Lieut.-Governor: Sir John Dwyer, KCMG.

The Liberal-Country Party Cabinet was, on 12 April 1962, constituted as follows:

Premier, Treasurer and Minister for Tourists: David Brand, MLA.

Deputy Premier, Minister for Agriculture and Electricity: Crawford David Nalder, MLA.

Industrial Development, Railways and the North-West: Charles Walter Michael Court, OBE, MLA.

Education and Native Welfare: Edgar Henry Mead Lewis, MLA.

Works, Water Supplies and Labour: Gerald Percy Wild, MBE, MLA.

Mines, Housing and Justice: Arthur Frederick Griffith, MLC.

Lands, Forests and Immigration: William Stewart Bovell, MLA.

Chief Secretary and Minister for Health and Fisheries: Ross Hutchinson, DFC, MLA.

Local Government, Town Planning and Child Welfare: Leslie Arthur Logan, MLC.

Transport and Police: James Frederick Craig, MLA.

Agent-General in London: E. K. Hoar (Savoy House, Strand, WC2).

LOCAL GOVERNMENT. At 30 June 1963 all land in Western Australia (except King's Park, a public reserve of about 1,000 acres in Perth) was incorporated within the district of a city, town or shire. Including the lord-mayoralty of Perth there were 5 cities (all in the metropolitan area), 15 towns and 125 shires. The executive body in each of these districts is an elective council, presided over by a mayor (city and town) or a president (shire). Their functions include road construction and repair, the provision of parks and recreation grounds, the administration of building controls and local services such as health and traffic. Finance is derived largely from rates levied on property owners as well as charges for services and government grants (mainly for road construction).

AREA AND POPULATION. Western Australia includes all that portion of the continent situated to the westward of 129° E. long., together with the adjacent islands. The total estimated area is 975,920 sq. miles.

The enumerated population at each census from 1901 was as follows:

	Males	Females	Total		Males	Females	Total
1901	112,875	71,249	184,124	1917	258,076	244,404	502,480
1911	161,565	120,549	282,114	1954	330,358	300,413	630,771
1921	177,278	155,454	332,732	1961	375,452	361,177	736,629
1933	233,937	204,915	438,852				

The estimated full-blood aboriginal population in the State on 30 June 1961 was 10,000.

Of the census population in 1961, 572,182 were returned as born in Australia. The number of married persons was 323,294 (162,838 males and 160,456 females); widowers, 7,137; widows, 26,320; divorced, 3,295 males and 3,229 females; unmarried 197,553 males and 165,971 females. The number of males under 21 was 157,344, and of females 150,125.

Perth, the capital, covers an area of 192 sq. miles (with its suburbs) and had an estimated population of 431,000 at 30 June 1962. This, however, includes the chief port of the State, the City of Fremantle, the population of which was 24,500. Principal towns outside the metropolitan area, with estimated population as at 30 June 1962: Kalgoorlie-Boulder, 21,750; Bunbury, 13,600; Geraldton, 11,400; Albany, 10,900; Collie, 7,550; Northam, 7,300; Narrogin, 4,750.

VITAL STATISTICS for calendar years:

1962	17,064	1,005	5,466	582	5,810

RELIGION. There is no State Church, and freedom of worship is accorded to all. At the census, 30 June 1961, the principal denominations were: Church of England, 289,863; Roman Catholic, 106,052; Catholic (not further defined), 74,121; Methodist, 76,465; Presbyterian, 40,583; Churches of Christ, 10,261; Greek Orthodox, 9,057; Baptist, 8,961; Congregational, 8,026; Lutheran, 4,460; Salvation Army, 4,545; Seventh Day Adventists, 3,790; other Christian, 14,847; Hebrew, 2,782; all other, including not stated and no religion, 82,816.

EDUCATION. School attendance is compulsory from the age of 6 until the end of the school year in which the child attains 14 years. Pre-school education is provided by a kindergarten system partly financed from government subsidy. Government primary and secondary schools are free, but fees are charged at non-government schools. In 1962 there were 532 government schools with 129,455 pupils and 346 non-government schools with 40,077 pupils. These figures include 3,358 aboriginal and part-aboriginal native children at government schools and 908 at non-government schools.

Technical education is available at the Perth Technical College and a number of technical and trades schools, all of which are staffed and controlled by the Education Department.

In 1962 the total teaching and research staff of the University of Western Australia was 483 and the number of students enrolled was 3,853.

State Government expenditure from consolidated revenue on education, including financial assistance to the University, during the year ended 30 June 1962, amounted to £A12,645,380.

JUSTICE. In Western Australia justice is administered by a Supreme Court, consisting of a Chief Justice and 6 puisne judges, and magistrates' courts exercising both civil and criminal jurisdiction. The lower courts are presided over by justices of the peace, except in the more important where centres, the court is constituted by a stipendiary magistrate. There are special magistrates' courts for juvenile offenders.

³ Distinct persons convicted.

The total number of admissions to prison for penal imprisonment in the year ended 30 June 1962 was 3,490. Inmates at 30 June 1962 numbered 558 males and 15 females.

All the above figures are exclusive of aboriginal crime.

SOCIAL WELFARE. There are 3 government institutions for the aged and infirm, at Nedlands, Guildford and Canning Bridge, with 886 inmates on 30 June 1963. Forty-two government hospitals (including 4 native hospitals and 3 nursing posts), 5 mental hospitals, 2 mental clinics and 1 mental day hospital are maintained by public funds, while 61 other hospitals are assisted therefrom. In addition, there are numerous private hospitals.

The Department of Native Welfare is administered in accordance with the Native Welfare Act, 1905-60, for the welfare of the native inhabitants of Western Australia. Its jurisdiction extends throughout the State, which is divided into suitable administrative districts, each staffed by field officers who regularly patrol their district and keep in personal contact with the native people, as well as assisting them in a variety of welfare requirements. The following institutions are maintained solely for natives: (1) Bennett House, East Perth, a transit home accommodating natives visiting Perth for specialist medical treatment as out-patients and other welfare purposes; (2) McDonald House, Katukutu and Riverton Hostels, Perth, managed by mission organizations, provide accommodation for apprentices in the metropolitan area; (3) Hostels at Nullagine, Yalgoo, Onslow, Cue and Halls Creek to accommodate schoolchildren from pastoral properties and remote areas. Hostels at Roebourne and Marble Bar opened for the 1964 school year. (4) Missions, controlled by religious organizations and financially assisted by the Department.

The Department maintains 5 mobile welfare units, each manned by a married couple who carry out building maintenance and welfare work on reserves. Eight more units controlled by the South-West Native Mission carry out similar work in the southern part of the State.

The Public Health Department maintains a leprosarium at Derby and 4 northern native hospitals. Natives in other parts of the State receive attention at ordinary public hospitals.

Seven Protestant, 8 Roman Catholic and 4 undenominational orphanages, industrial and farm schools are supported partly by private subscriptions and partly out of public money. They care for wards of the Child Welfare Department and private admissions. There is also a child-welfare reception home for children committed to the care of the State and afterwards boarded out with foster-parents or placed in institutions. On 30 June 1962, 2,852 adults and 3,612 children were in receipt of monetary assistance, payment being met from State revenue.

Age, Invalid, Widows' and War and Service Pensions are paid by the Commonwealth Government. The number of pensioners in Western Aus-

tralia at 30 June 1963 was: Age, 40,661; invalid, 8,170; widows, 4,486, and war and service pensioners and dependants, 65,069.

LABOUR. Working conditions covering most industries in the State are governed by decisions of the Court of Arbitration of Western Australia deriving its jurisdiction and authority from the Industrial Arbitration Act, 1912-61. The Court is also authorized to declare an annual basic wage and to make quarterly adjustments. From 29 July 1963 the State basic wage for the metropolitan area is £A15 1s. 6d. per week for males and £A11 6s. 1d. for females. The Court consists of 3 members: the President, who must be a person qualified for appointment as a Judge of the Supreme Court, and 2 other members representing respectively the employers and employees. A further appointment under the Act of a Conciliation Commissioner provides another authority for decision (subject to appeal) in matters as remitted or delegated by the Court.

Under the Act associations of employees and of employers may be registered and the Act confers upon these associations the exclusive privilege of approaching the Court in connexion with industrial disputes. There were 106 employees' and 15 employers' bodies registered at 30 June 1963; the former comprising 101,738 and the latter 1,657 members.

FINANCE. The revenue and expenditure (in £A) of Western Australia in 6 years, ended 30 June, are given as follows:

	Revenue	Expenditure		Revenue	Expenditure
1959	60,068,237	61,752,970	1962	74,925,736	75,889,798

¹ Revised.

Irrigation has been established by the Government along the south-western coastal plain. Reservoirs with an aggregate capacity of 58,142m. gallons provide water for 3 main irrigation districts of a total rated area of about 27,000 acres. Dairying and stock-raising activities account for about 97% of the water used throughout the irrigation region, and vegetable growing (including potatoes) and fruit cultivation for the remaining 3%.

The livestock on 31 March 1963 consisted of 38,840 horses, 1,297,746 cattle, 18,727,124 sheep and 130,791 pigs.

The wool clip in 1962 was 174m. lb.; the exports for 1962-63, greasy wool, 131,432,619 lb., scoured wool, 25,222,347 lb.

Forestry. The area of State forests and timber reserves on 30 June 1963 was 7,070,357 acres; the number of super feet of sawn timber was (1961-62) 192,788,587, principally Jarrah and Karri hardwoods.

Mining. Gold was first obtained in Western Australia in 1885. The sensational gold-finds at Coolgardie and Kalgoorlie in 1892 and 1893 gave an impetus to Western Australian goldmining, which, in a short time, placed this State at the head of all the Australian states as regards gold output. The aggregate output to the end of Dec. 1962 was 63,366,483 fine oz., valued at £A475,204,181. At 31 Dec. 1962 there were in force 983 goldmining leases, representing an area of 18,025 acres; men employed in the mines, 4,963, viz., 2,411 above and 2,552 underground; refinery production of gold, 1962, 859,368 fine oz., value £A14,057,303.

The total value of mining and quarrying to the State in 1962 was £A24,707,692; in 1961, £A24,267,521. Principal minerals in 1962, other than gold were: Coal, 919,112 tons, value £A1,980,778; silver, 213,987 fine oz., value £A101,331; asbestos, 15,670 tons, value £A1,693,036; lead and silver lead ore, 443 tons, value £A15,251; manganese ore, 67,871 tons, value £A894,879; pyritic ore, 49,461 tons, value £A424,190; iron ore, 1,403,752 tons, value £A1,434,738; mineral beach sands, 180,060 tons, value £A873,717; copper ore and concentrates, 14,552 tons, value £A301,952; tin ore and concentrates, 465 tons, value £A334,269.

Industry. There were, for the year ended 30 June 1962, a total of 4,418 industrial establishments in the State, employing either machinery or at least 4 workers. The average number of persons employed by them over the year was 51,033. The gross output of these establishments for the year was computed at £A243,493,885, while the net production, i.e., the value added in the course of manufacture, was £A98,041,418.

The estimated gross value of Western Australian primary production during 1961-62 was as follows: Agricultural, £A74,382,648; pastoral and trapping, £A52,910,424; mining and quarrying, £A24,267,521; dairy, poultry and bee-farming, £A13,200,059; forestry and fisheries, £A10,896,234.

COMMERCE. The external commerce of Western Australia, exclusive of interstate trade, is comprised in the statement of the commerce of Australia given under the heading of the Commonwealth.

The total value of the imports and exports, including interstate trade in 5 years (30 June) is as follows (in £A):

	1958-59	1959-60	1960-61	1961-62	1962-63
Imports . . .	146,200,948	169,529,312	178,002,435	172,692,838	213,175,725
Exports ¹ . . .	126,492,928	158,998,460	204,769,120	190,811,727 ²	173,181,462

¹ Including ships' stores.

² Revised.

Principal exports for 1962-63: Wheat (£A36,098,464), flour (£A2,320,337), wool (£A42,629,857), timber (£A3,620,408), hides and skins (£A2,169,413), beef (£A4,691,231), petroleum refinery products (£A24,839,630), fresh fruit (£A2,490,883), gold bullion (£A6,524,032), crayfish tails (£A4,455,138), asbestos (£A1,399,440).

COMMUNICATIONS. *Shipping.* There were on the Western Australian register on 31 Dec. 1963, 189 steam and motor vessels of 17,565 net tons, and 211 sailing vessels of 3,395 net tons.

Roads. At 30 June 1962 there were 71,230 miles of prepared and formed roads in Western Australia, namely, 9,850 miles of bituminous surface, 20,116 other constructed surfaces and 41,264 formed but not metalled or otherwise prepared. In addition, there are approximately 23,017 miles unprepared except for clearing which are used for general traffic.

Railways. For the year ended 30 June 1963 the State had 3,797 miles of State government railway; 277 miles of privately owned line open for general traffic and 454 miles of Commonwealth line, the latter being the western portion of the Trans-Australian line (Kalgoorlie-Port Pirie), which links the State railway system to those of the other states of the Commonwealth.

Post. Postal, telephone and telegraph facilities are afforded at 944 offices. Telephones connected totalled 144,843 in 1963. There are 23 wireless broadcasting and 2 television stations and 165,637 listeners' and 95,907 viewers' licences were current at 30 June 1963.

Aviation. Two interstate airlines, one of which is owned and operated by the Commonwealth Government, connect Perth with the other State capitals by a daily service. A route to Darwin (NT) is flown by another airline which also maintains regular communications with inland centres and southern ports. Perth airport is used by the Sydney-London and Sydney-Johannesburg services.

MONEY AND BANKING. A branch of the Royal Mint was opened at Perth in 1899. To 31 Dec. 1962, production of coins was: Gold (minting discontinued in Sept. 1931), £A106,751,535; silver, £A65,800; bronze, £A1,887,970; and of bullion: Gold, £A112,927,690; silver, £A1,969,379.

There are 9 trading banks in Western Australia including the Commonwealth Trading Bank and the Rural and Industries Bank of Western Australia. In June quarter, 1963, the average of customers' balances was £A111,905,000 and average advances £A77.34m.

Nine savings banks had, at 30 June 1963, £A104,406,239 due to 683,417 depositors.

TASMANIA

HISTORY. Abel Janzoon Tasman discovered Van Diemen's Land (Tasmania) on 24 Nov. 1642. The island became a British settlement in 1803 as a dependency of New South Wales; in 1825 its connexion with New South Wales was terminated; in 1851 a partially elective Legislative Council was established, and in 1856 responsible government came into operation. On 1 Jan. 1901 Tasmania was federated with the other Australian states into the Commonwealth of Australia.

CONSTITUTION AND GOVERNMENT. Parliament consists of a Legislative Council and a House of Assembly. The Council has 19 members, elected by the owners or occupiers of any property or their spouses. Certain professional men, officiating ministers of religion and all members of H.M. forces are also electors. Members sit for 6 years, 3 retire annually over 5 years and 4 every sixth year. There is no power to dissolve the Council. Casual vacancies are filled by by-elections. The House of Assembly has 35 members, elected for 5 years by adults with 6 months' residence in the State. Members of both Houses are paid a salary of £A1,850, plus an electorate allowance, according to the division represented. The amounts vary from £A250 (Queenborough) to £A575 (Meander) in the Council and from £A550 (Denison) to £A875 (Wilmot) in the Assembly a year. Women received the right to vote in 1903. Proportional representation was adopted in 1907, the method being the single transferable vote in 7-member constituencies. Casual vacancies in the House of Assembly are determined by a recount of the vacating member's ballot papers.

A Minister must have a seat in one of the two Houses; all except one of the present Ministers are in the House of Assembly.

In addition to the salary and electorate allowance paid to Ministers as members of the House of Assembly, the following allowances are payable: Premier, in conjunction with a ministerial office, £A2,200 plus entertainment allowance £A350; Deputy Premier, in conjunction with a ministerial office, £A1,400; Ministers with portfolio, £A1,200; Ministers without portfolio, £A800.

At the election on 2 May 1959 for the House of Assembly 17 Labour, 16 Liberal and 2 independent members were returned.

Governor: Lieut.-Gen. Sir Charles Henry Gairdner, KCMG, KCVO, KBE, CB.

The Labour Cabinet is composed as follows:

Premier, Treasurer and Minister for Mines: E. E. Reece.

Deputy Premier and Attorney-General: R. F. Fagan.

Minister for Education: W. A. Neilson.

Minister for Lands and Works: D. A. Cashion.

Minister for Agriculture: A. C. Atkins.

Chief Secretary: J. B. Connolly, MLC.

Minister for Housing: S. V. Ward.

Minister for Transport: H. J. McLoughlin.

Minister for Health: W. D. McNeil.

Agent-General in London: A. J. White.

Official Secretary: R. J. Garrad, OBE (457 Strand, WC2).

LOCAL GOVERNMENT. For the purposes of local government, the State is divided into 49 municipal areas comprising the City of Hobart, the City of Launceston and 47 rural municipalities. The cities and municipalities are managed by elected aldermen and councillors respectively with reference to parochial matters such as sanitation and health services, domestic water supplies and roads and bridges within each particular area. The chief source of revenue is rates levied on owners of property.

AREA AND POPULATION. Area (including islands) 26,215 sq. miles (67,900 sq. km) or about 16,778,000 acres, of which 15,571,500 acres form the area of Tasmania proper. The population at 7 consecutive censuses was:

	Population	Increase % per annum		Population	Increase % per annum
1901	172,475	1.64	1947	257,078	0.88
1911	191,211	1.04	1954	308,752	2.87
1921	213,780	1.12	1961	350,340	1.82
1933	227,599	0.51			

The census population on 30 June 1961 consisted of 177,628 males and 172,712 females; 4.8% were natives of the British Isles, 3.7% natives of other European countries and 90.9% natives of Australia and New Zealand. The pure aboriginal is extinct.

Estimated population of the capital, Hobart and suburbs (30 June 1963), 121,275; of Launceston and suburbs, 58,441.

VITAL STATISTICS for calendar years:

	Births	Marriages	Divorces	Deaths	Natural increase
1960	8,853	2,713	210	2,670	6,183
1961	8,982	2,677	236	2,789	6,193
1962	8,894	2,485	249	2,870	6,024

RELIGION. There is no State Church. At the census of 1961 the following numbers of adherents of the principal religions were recorded:

Church of England	159,101	Churches of Christ	2,507
Roman Catholic ¹	63,993	Other religions	15,788
Methodist	42,236	Not stated ²	38,538
Presbyterian	16,757		
Baptist	7,227	Total	350,340
Congregational	4,193		

¹ Includes Catholics (so described).

² Includes 1,766 whose religion was indefinite and 775 who stated 'no religion'.

EDUCATION. Education is controlled by the State and is free, secular and compulsory between the ages of 6 and 16. At 1 Aug. 1962 State schools had an aggregate enrolment of 68,518 pupils, including 20,707 at secondary level. At the end of 1962 private schools had a total enrolment of 13,877 in all grades.

The University of Tasmania, established 1890, had 120 full-time teachers and 1,572 students taking courses for degrees in 1962. University expenditure in 1962 (exclusive of capital expenditure) was £A997,522.

JUSTICE. The Supreme Court of Tasmania, with civil, criminal, ecclesiastical, admiralty and matrimonial jurisdiction, established by Royal Charter on 13 Oct. 1923, is a superior court of record, with both original and appellate jurisdiction, and consists of a Chief Justice and 4 puisne judges. There are also inferior civil courts with limited jurisdiction; licensing courts, mining courts, courts of petty sessions and coroners' courts.

During the year 1962, 26,211 persons were summarily convicted in lower courts and 643 persons were committed for trial in the Supreme Court. The total police force on 30 June 1962 was 579. There was one gaol, with 221 inmates at the end of June 1962.

SOCIAL WELFARE. Old Age, Invalid, War and Widows' Pensions are paid by the Commonwealth Government. The number of pensioners in Tasmania on 30 June 1962 was: Age, 17,522; invalid, 3,299; war, 28,398; widows, 1,912. The total liability of the State for maternity allowances, child endowment, unemployment and sickness and hospital and pharmaceutical benefits was £A11,602,032 in 1961-62.

LABOUR. The Commonwealth Industrial Court (judicial powers) and Commonwealth Conciliation and Arbitration Commission (arbitral powers) have jurisdiction over those unions with interstate membership. The basic wage (applicable to the unskilled worker) is subject to annual review by the Commission.

The majority of employees in the State operate under State Wages Boards established for the various *trades* by resolution of Parliament or proclamation of the Governor. Each Board consists of a Chairman appointed by the Governor with equal representation of employers and employees. The Boards have authority over minimum rates for wages or piece work, number of working hours for which the wage is payable, conditions of apprenticeship, annual leave and adjustment of wage and piece-work rates. There is no State basic wage fixed by a State Authority, and Wages Boards follow to a large extent the rates of the Commonwealth Court of Conciliation and Arbitration.

FINANCE. The revenue is derived chiefly from taxation (motor, land, death duties and lottery taxation), and from grants and reimbursements from the Commonwealth. Customs, excise and income tax are in the hands of the Commonwealth, which makes a special grant to Tasmania and contributes a fixed amount per annum towards interest on the State's public debt. Commonwealth payments under these arrangements totalled £A19,167,478 in 1961-62.

Budgets, in £A, for financial years ending 30 June:

	1958-59	1959-60	1960-61	1961-62	1962-63	1963-64 ¹
Revenue	21,851,053	24,296,249	26,886,193	30,317,657	31,518,193	33,956,977
Expenditure	22,759,189	25,328,254	27,083,666	30,676,074	32,009,514	34,680,580

¹ Estimates.

The public debt amounted to £A202,296,933 at 30 June 1963.

In 1962-63 taxation receipts amounted to £A4,681,618, of which motor vehicles provided £A1,416,371; death duties, £A881,621; other stamp duties, £A1,115,393; land tax, £A628,578. The earlier tax reimbursement grant has been replaced by the financial assistance grant which amounted to £A13,308,052 in 1962-63.

PRODUCTION. The estimated gross value of recorded production from primary industries in 1961-62 was (in £A1,000): Agriculture, 19,835,

pastoral, 11,655; dairying, 9,777; poultry and bees, 1,868; forestry, 5,860; fisheries and trapping, 1,325; mining, 9,440; total gross value, 59,760.

Agriculture. The area occupied by the 10,974 holdings in 1962-63 totalled 6,423,000 acres, of which 403,107 acres were devoted to crops. The following table shows the area and production of the principal crops:

Crop	1960-61		1961-62		1962-63

Livestock at 31 March 1963: Sheep, 3·57m.; dairy cattle, 238,000; beef cattle, 206,000; pigs, 70,000, and horses, 8,200.

Wool produced during 1962-63 was 34,561,000 lb., valued at £A8,886,000. Butter production was 13,098 tons; cheese, 636 tons.

The net value of rural production during 1961-62 was £A25,553,000.

Forestry. Indigenous forests cover a considerable part of the State, and the saw-milling industry is very important. Production of sawn timber in 1961-62 was 149m. sup. ft, valued at £A6,495,000.

Mining. Chief mineral products from local ores for the calendar year 1962: Zinc, 38,168 tons; copper, 13,949 tons; lead, 11,605 tons; tin, 1,211 tons; coal, 272,342 tons; gold, 28,673 fine oz.; silver, 1,441,447 fine oz.

Manufactures. The most important manufactures for export are refined metals, newsprint and other paper manufactures, pigments and paints, woollen goods, fruit pulp and jam, confectionery, butter, preserved and dried vegetables and sawn timber. The electrolytic-zinc works at Risdon near Hobart treats large quantities of local and imported ore, and produces zinc, sulphuric acid, superphosphate, sulphate of ammonia, cadmium and other by-products. The carbide works at North-West Bay is able to supply the needs of all Australia. In 1961-62 the number of industrial establishments was 1,760; number of employees, 30,070; value of output, £A141,774,000; salaries and wages paid, £A30·72m., excluding amounts drawn by working proprietors; cost of materials used, £A63,064,000; value of production, £A63,937,000; value of plant and machinery, £A60,795,000.

COMMERCE. Commerce by sea and air (in £A) for years ending 30 June:

	1957-58	1958-59	1959-60	1960-61	1961-62	1962-63
Imports	79,112,231	83,614,971	88,415,173	98,825,454	93,281,803	..
Exports	86,255,845	87,970,363	103,039,080	103,784,368	110,644,454	..

† Preliminary.

In 1962-63 imports by sea and air from other Australian States totalled £A79,888,121; from the UK, £A4,419,891; from other Commonwealth countries, £A4,431,100; from foreign countries, £A9,027,812. Exports to other Australian States amounted to £A82,046,517; to the UK, £A11,292,669; to other Commonwealth countries, £A4,140,235, and to foreign countries, £A17,962,821.

JUSTICE. The Supreme Court of Tasmania, with civil, criminal, ecclesiastical, admiralty and matrimonial jurisdiction, established by Royal Charter on 13 Oct. 1923, is a superior court of record, with both original and appellate jurisdiction, and consists of a Chief Justice and 4 puisne judges. There are also inferior civil courts with limited jurisdiction, licensing courts, mining courts, courts of petty sessions and coroners' courts.

During the year 1962, 26,211 persons were summarily convicted in lower courts and 643 persons were committed for trial in the Supreme Court. The total police force on 30 June 1962 was 579. There was one gaol, with 221 inmates at the end of June 1962.

SOCIAL WELFARE. Old Age, Invalid, War and Widows' Pensions are paid by the Commonwealth Government. The number of pensioners in Tasmania on 30 June 1962 was: Age, 17,522; invalid, 3,299; war, 28,398; widows, 1,912. The total liability of the State for maternity allowances, child endowment, unemployment and sickness and hospital and pharmaceutical benefits was £A11,602,032 in 1961-62.

LABOUR. The Commonwealth Industrial Court (judicial powers) and Commonwealth Conciliation and Arbitration Commission (arbitral powers) have jurisdiction over those unions with interstate membership. The basic wage (applicable to the unskilled worker) is subject to annual review by the Commission.

The majority of employees in the State operate under State Wages Boards established for the various *trades* by resolution of Parliament or proclamation of the Governor. Each Board consists of a Chairman appointed by the Governor with equal representation of employers and employees. The Boards have authority over minimum rates for wages or piece work, number of working hours for which the wage is payable, conditions of apprenticeship, annual leave and adjustment of wage and piece-work rates. There is no State basic wage fixed by a State Authority, and Wages Boards follow to a large extent the rates of the Commonwealth Court of Conciliation and Arbitration.

FINANCE. The revenue is derived chiefly from taxation (motor, land, death duties and lottery taxation), and from grants and reimbursements from the Commonwealth. Customs, excise and income tax are in the hands of the Commonwealth, which makes a special grant to Tasmania and contributes a fixed amount per annum towards interest on the State's public debt. Commonwealth payments under these arrangements totalled £A19,167,478 in 1961-62.

Budgets, in £A, for financial years ending 30 June:

	1958-59	1959-60	1960-61	1961-62	1962-63	1963-64 ¹
Revenue	21,851,053	24,296,249	26,886,193	30,317,657	31,518,193	33,956,977
Expenditure	22,759,189	25,328,254	27,083,666	30,676,074	32,009,514	34,680,680

¹ Estimates.

The public debt amounted to £A202,296,933 at 30 June 1963.

In 1962-63 taxation receipts amounted to £A4,681,618, of which motor vehicles provided £A1,416,371; death duties, £A881,621; other stamp duties, £A1,115,393; land tax, £A628,578. The earlier tax reimbursement grant has been replaced by the financial assistance grant which amounted to £A13,308,052 in 1962-63.

PRODUCTION. The estimated gross value of recorded production from primary industries in 1961-62 was (in £A1,000): Agriculture, 19,835,

pastoral, 11,655; dairying, 9,777; poultry and bees, 1,868; forestry, 5,860; fisheries and trapping, 1,325; mining, 9,440; total gross value, 59,760.

Agriculture. The area occupied by the 10,974 holdings in 1962-63 totalled 6,423,000 acres, of which 403,107 acres were devoted to crops. The following table shows the area and production of the principal crops:

Crop	1960-61		1961-62		1962-63

Principal imports, 1962-63, in £A1,000: Food and drink, 12,604; tobacco, cigarettes, etc., 5,188; clothing and textiles, 10,191; new motor cars, 7,929; other metals, metal manufactures and machinery, 29,738. Principal exports: Fresh fruit, 7,866; refined copper and zinc, 15,194; potatoes, 1,107; greasy wool, 7,103; woollen manufactures, 9,284; timber, 4,294.

COMMUNICATIONS. *Roads.* The road mileage is about 11,750, consisting of a classified road system of 2,101 miles maintained by the State Department of Public Works, and the remainder which is maintained by the local authorities. Motor vehicles registered at 30 June 1963 comprised 79,670 cars and 29,104 commercial vehicles and motor cycles. Government-controlled bus services carried 25,159,000 passengers in 1962-63.

Shipping. The registered shipping in 1962 consisted of 138 motor (including auxiliary) vessels of 14,037 tons, 42 sailing vessels of 693 tons, 23 steamers of 2,122 tons and 3 dredges of 690 tons.

For railways, posts and telegraphs, see COMMONWEALTH OF AUSTRALIA.

Aviation. Regular daily passenger and freight air services connect the south, north and north-west of the State with the mainland of Australia. Statistics of regular air transport services for the year 1962-63 are as follows: Miles flown, 4.28m.; passengers carried, 312,649; freight carried, 14,396 short tons; mail carried, 394 short tons.

BANKING. Trading bank activity in Tasmania is divided between 6 private banks and the Commonwealth Bank of Australia. For June 1963 average trading bank deposits were £A42,178,000 and average advances, £A27,015,000. The 9 savings banks operating in Tasmania are the Commonwealth Savings Bank, 2 trustee savings banks and 6 private savings banks operated by trading banks. At 30 June 1963 total savings bank deposits were £A56,428,000 or £A154 18s. per head of population.

Macquarie Island. About 1,000 miles south-east of Hobart, is about 21 miles long and 2 miles wide. It has been a dependency of Tasmania since the 19th century. It is uninhabited except for a meteorological and research base maintained by the Australian Government since Feb. 1948. The Judge and Clerk, and Bishop and Clerk groups, together with Macquarie, form part of the Esperance municipality of Tasmania.

THE NORTHERN TERRITORY OF AUSTRALIA

GOVERNMENT. The Northern Territory, after forming part of New South Wales, was annexed on 6 July 1863 to South Australia and in 1901 entered the Commonwealth as a corporate part of South Australia. The

Commonwealth Constitution Act of 1900 made provision for the surrender to the Commonwealth of any territory by any state, and under this provision an agreement was entered into on 7 Dec. 1907 for the transfer of the Northern Territory to the Commonwealth, and it formally passed under the control of the Commonwealth Government on 1 Jan. 1911.

On 1 Feb. 1927 the Northern Territory was divided for administrative purposes into two Territories, North Australia and Central Australia, the dividing line being the 20th parallel of S. lat. Each Territory was under a Government Resident, with headquarters at Darwin and Alice Springs respectively. This division was effected under the authority of the Northern Australia Act, 1926, which also provided for a North Australia Commission, the powers of which extended to matters relating to the development of North Australia, and also to the administration of Crown lands throughout North Australia and Central Australia. The Northern Australia Act, 1926, was repealed as from 12 June 1931 by the Northern Territory (Administration) Act, 1931. The North Australia Commission was abolished, and the whole of the Northern Territory was again placed under the control of an Administrator. The Administrator governs the Territory on behalf of the Commonwealth; his residence is at Darwin.

The Legislative Council for the Northern Territory, constituted in 1947, was reconstituted in 1959 and now consists of the Administrator as President, 6 official, 8 elected and 3 non-official appointed members. The Administrator or the Governor-General may return ordinances with suggested amendments for reconsideration by the Legislative Council. All ordinances (assented to or disallowed) must be laid before each House of the Commonwealth Parliament; when assent is withheld, the reasons must be laid before each House. An Administrator's Council has been set up, in which non-official members are associated with the executive government of the Territory.

The Northern Territory elects a member to the House of Representatives who may take part in debates, but may not vote except on certain matters affecting the Territory.

Administrator: Roger B. Nott.

AREA AND POPULATION. The Northern Territory is bounded by the 26th parallel of S. lat. and 129° and 138° E. long. Its total area is 523,620 sq. miles (335,116,800 acres). On 30 June 1962 the area alienated under freehold tenure was 333,045 acres; 152,479,094 acres were held under leasehold and 21,623,149 acres under licences, etc.; 59,594,723 acres were reserved for aborigines, public requirements, etc.; and 101,086,789 acres were unoccupied and unreserved. Land rents and rates collected for the year amounted to £A92,913. The coastline is about 1,040 miles in length, the principal port being Port Darwin. The greater part of the interior consists of a tableland rising gradually from the coast to a height of about 1,200 ft. On this tableland there are large areas of excellent pasturage. The southern part of the Territory is generally sandy with a small rainfall, but some water may be obtained by means of sub-artesian bores. The climate is tropical, but varies considerably over the whole Territory. In the coastal region, there are two main climatic divisions—the wet season, Nov. to April, and the dry season, May to Oct. Nearly the whole of the rainfall occurs in the summer months. Farther south the climate is of a continental type, showing a great variation between the hottest and coldest months.

The population, excluding full-blood aborigines, has varied as follows:

	Europeans	Total		Europeans	Total
1881 (census)	667	3,451	1933 (census)	3,306	4,850
1901 (census)	782	4,811	1947 (census)	9,116	10,868
1911 (census)	1,418	3,310	1954 (census)	14,028	16,469
1921 (census)	2,459	3,867	1961 (census)	23,599	27,095

The estimated number of aborigines was 18,690 as at 30 June 1963.

FINANCE. The revenue and expenditure for the Northern Territory (in £A) for years ended 30 June cover the transactions of the Commonwealth Consolidated Revenue Fund relating to the Northern Territory and the North Australian Railway.

In previous issues of this volume the transactions of the Central Australia Railway and the Post Office in Northern Territory were also included. These transactions are now omitted because they relate to Commonwealth Business Undertakings which extend beyond the Northern Territory.

	1958-59	1959-60	1960-61	1961-62	1962-63
Revenue	1,427,035	1,698,152	1,888,806	2,155,511	2,252,715
Expenditure	8,767,753	10,342,848	11,598,598	14,334,385	16,179,730

The chief sources of revenue for 1962-63 were: Electricity supply, £A731,867; rents and rates, £A490,895, and railways, £A148,003. The chief items of expenditure (excluding interest, loans, etc.) were: Administrative and social expenditure, £A8,769,075; capital works (excluding business undertakings), £A7,178,768, and railway administration, £A231,887.

PRODUCTION. Pastoral. The beef cattle industry is the main form of pastoral activity, the cattle population being over 1m. head. In 1962 there were about 2,800 miles of stock routes watered by 178 bores. The Government provides veterinary services to pastoralists. A veterinary research institute is being established at Alice Springs. Three abattoirs, 2 in Darwin and 1 in Katherine, were established in 1962-63, one in Darwin catering for local consumption, the other 2 for exports.

Livestock (30 June 1963): 1,054,669 cattle, 39,835 horses, 8,976 sheep, 4,949 goats, 1,430 swine, 195 mules.

Agriculture. In 1952 the Government established an experimental farm at Katherine to test out the economies of a dry farming system, on a commercial scale, in which peanuts and grain sorghum would be grown in rotation with pastures for cattle fattening. The Government is also trying out experiments with drought-resisting grasses, fodder crops, cattle fattening on grains, crop residues, natural and improved pastures, phosphate supplements and rice.

In 1952 the Government also established rice experimental stations at Humpty Doo, about 40 miles from Darwin and at Sixty Mile (60 miles south of Darwin on the Stuart Highway). In 1958-59 all research work on rice in the sub-coastal plains was taken over by the Commonwealth Scientific and Industrial Research Organization (research station at Middle Point near Humpty Doo). The work of the Sixty Mile station has been transferred to the Upper Adelaide River area near Sixty Mile.

In 1956 an experimental farm was established at Berrimah near Darwin to conduct investigations into fruit and vegetables, fodder crops and pastures. Fruit and vegetables are produced near Darwin and at Alice Springs.

On 12 May 1963 the Marrakai land system 'pilot farms' was introduced, to test out mixed farming, the fattening of cattle and the growing of rice.

Fishing. A small pearl shell fishing industry is carried on. There is also trade in fresh fish, some of which is transported by air to southern cities.

Mining. The Territory is rich in mineral resources. The main activities are gold and copper mining centred at Tennant Creek, and uranium mining at Rum Jungle and on the South Alligator River. Tin at Mount Wells and tungsten at Hatchers Creek and Wauchope are being worked on a minor scale. The production of the principal minerals during the fiscal year 1961-62 was as follows: Gold, 68,534 fine oz.; silver, 108,207 fine oz.; copper content, 9,049 tons; uranium concentrate, 822,361 lb.; tungsten concentrate, 12 tons; mica (crude), 83 tons; manganese ore, 223 tons. Total value of 1961-62 mineral production (excluding uranium) was £A4,074,618.

Industry. In 1960-61 the value of factory output, from 130 factories, was £A3,447,000.

COMMERCE. The two main items are cattle and minerals. Value (in £A1,000 f.o.b.):

	1956-57	1957-58	1958-59	1959-60	1960-61	1961-62
Cattle	2,592	3,039	4,187	4,311	5,107	3,135
Minerals ¹	4,140	4,301	4,514	5,200	4,754	4,075

¹ Excluding uranium.

COMMUNICATIONS. **Shipping.** Regular shipping services connect Darwin with Western Australia and with the eastern States.

Roads. The two sealed highways Darwin-Alice Springs (Stuart Highway, 954 miles) and Tennant Creek-Mount Isa (Barkly Highway, 403 miles) are the principal arteries of the Northern Territory; other roads are being constructed, mainly as feeders for the movement of cattle.

Railways. Lines connect Darwin with Birdum (316 miles) and Adelaide with Alice Springs (192 miles north of the southern boundary of the Territory).

Aviation. Darwin is the first port of arrival in Australia for virtually all aircraft from Europe and Asia. Besides regular oversea air services, there are regular inland services connecting Darwin with all the State capitals and many inland towns.

Territory of Ashmore and Cartier Islands. By United Kingdom Order in Council of 23 July 1931, Ashmore Islands (known as Middle, East and West Islands) and Cartier Island, situated in the Indian Ocean, some 200 miles off the north-west coast of Australia, were placed under the authority of the Commonwealth.

Under the Ashmore and Cartier Islands Acceptance Act, 1933, the islands were accepted by the Commonwealth under the name of the Territory of Ashmore and Cartier Islands, and the effective date was proclaimed by the Governor-General to be 10 May 1934. It was the intention that the Territory should be administered by the State of Western Australia, but owing to administrative difficulties the Territory was annexed to and deemed to form part of the Northern Territory of Australia (by amendment to the Act in 1938) and all the laws of the Northern Territory, as far as they are applicable, apply to the Territory of Ashmore and Cartier Islands. The islands are uninhabited.

An automatic weather station on West Ashmore Island (completed in

Sept. 1962) supplies the Commonwealth Meteorological Bureau with regular reports.

TERRITORIES OF THE AUSTRALIAN COMMONWEALTH PAPUA AND NEW GUINEA

THE Papua and New Guinea Act, 1949, which came into force on 1 July 1949, approved the placing of the Territory of New Guinea under the International Trusteeship system and provides for an administrative union with the Territory of Papua, with one Administrator, one Supreme Court and one public service. The Act also provides for an Administrator's Council of 3 official and 3 other members (including 2 members of the Legislative Council) to advise and assist the Administrator, and a Legislative Council with full legislative power, subject to the assent of the Administrator or the Governor-General.

Subject to the Act, provision may be made by Ordinance for the establishment of advisory councils for native matters; and native local government councils. The Act also makes provision for the continuance of the existing laws of the Territory of Papua and the Territory of New Guinea.

Administrator of Papua and New Guinea: Sir Donald Cleland, CBE.

The Legislative Council, inaugurated on 26 Nov. 1951 and reconstituted in 1960, consists of 37 members, namely: The Administrator; 14 official members; 12 elected members (6 indigenous, 6 non-indigenous); 10 appointed members, of whom at least 5 must be resident in the Territory of New Guinea and at least 5 must be indigenous.

An amendment to the Act, passed in May 1963, replaces the Legislative Council by a House of Assembly of 64 members, comprising 44 members elected on a common roll in single-member open electorates, 10 non-indigenous members elected on the same common roll in 10 special electorates and 10 official members. The first elections were held in Feb.-March 1964.

The elections for the reconstituted Council took place on 18 March 1961.

A Papua and New Guinea Division of the Royal Australian Navy was established in July 1951.

Trade between Papua and New Guinea and UK (British Board of Trade returns; in £ sterling):

I. PAPUA

History. To prevent that portion of the island of New Guinea not claimed by the Netherlands from passing into the hands of a foreign power, the

Government of Queensland annexed it in 1883. This step was not sanctioned by the Imperial Government, but on 6 Nov. 1884 a British Protectorate was proclaimed over the southern portion of the eastern half of New Guinea, and in 1887 Queensland, New South Wales and Victoria undertook to defray the cost of administration, and the territory was annexed to the Crown the following year. The Federal Government took over the control in 1901; the political transfer was completed by the Papua Act of the Federal Parliament in Nov. 1905, and on 1 Sept. 1906 a proclamation was issued by the Governor-General of Australia declaring that British New Guinea was to be known henceforth as the Territory of Papua.

Area and Population. Papua comprises the south-eastern part of the island of New Guinea, together with the Trobriand, Woodlark, D'Entrecasteaux and Louisiade groups of islands, and lies between 5° and 12° S. lat., and 141° and 155° E. long. Area 90,540 sq. miles, of which 87,540 are on the mainland of New Guinea and 3,000 on the islands. On 30 June 1962 the non-indigenous population was 10,697; the indigenous population was estimated at 528,856.

Administration. For administrative purposes the Territory is divided into 6 districts (Southern Highlands, Western, Gulf, Central, Northern, Milne Bay), each in charge of a District Commissioner, assisted by a District Officer, Assistant District Officers and patrol officers. There is a supreme court at Port Moresby, but it holds sittings wherever and whenever necessary.

By June 1963, 28 native local government councils had been established in which 188,382 people are represented by 734 councillors.

Education. About 66,000 indigenous students are attending administration and mission schools.

Agriculture. At 30 June 1962, 354,874 acres of land had been leased, of which 297,861 acres were for agricultural purposes, the principal cultures being coconuts, cacao, coffee and rubber. A preferential tariff is granted by the Commonwealth on certain produce from Papua. Freehold alienation is prohibited, but leases may be obtained at low rentals for long terms. Indigenous sago is plentiful in the western portion of the Territory, and there are considerable numbers of native-owned coconut trees. Timber production is expanding and fishing is carried on. A fisheries research vessel is operating in the area.

Finance. Local revenue is mainly from income tax and customs duties.

¹ Imports and exports are now recorded on f.o.b. basis.

² Provisional.

Mining. Gold is the only mineral exported in quantity, but it is no longer important. There are 10 proclaimed mineral fields, 9 of which are also gold-fields. Gold is or has been obtained in the Louisiade Islands, on the mainland, and on Woodlark Island. Oil companies have spent about £36m. in an intensive search for oil but no commercial deposits have yet been discovered.

Industry. In addition to the long-established processing of local materials for export, secondary industries are expanding to meet local needs, including paint manufacture, cigarettes and twist tobacco, boat-building, furniture-

making, brewing, baking, manufacture of building materials, etc. Value of factory output, 1961-62, was £2,932,000.

Labour. In 1962 about 24,000 indigenous wage-earners were in regular employment; the proportion of skilled and semi-skilled workmen is increasing through education in technical schools and apprenticeship schemes.

Trade. The chief imports are foodstuffs, chemicals, manufactured goods, machinery and transport equipment; exports, 1961-62, copra (16,422 tons, £A1,034,686), rubber (4,702 tons, £A1,157,949), shell (£A10,269).

Shipping. There are regular shipping services between Sydney, Port Moresby and Samarai, and also services to Europe, the Far East, and North America. Small coastal vessels run between the various territory ports. Overseas and inter-territorial vessels cleared from Papua ports in 1961-62 totalled 1,407,929 net tons. Cargo discharged from overseas was 99,280 tons; cargo loaded for overseas was 27,945 tons.

Aviation. An air service to and from Australia operates 6 times a week and there is an internal air-transport network.

Telecommunications. There are wireless telegraph stations at Port Moresby, Samarai and Daru. A short-wave station and a local broadcasting service are operated by the Australian Broadcasting Commission from Port Moresby. Telephones numbered 3,600 on 30 June 1962.

Banking. There are branches of the Reserve Bank of Australia, the Commonwealth Development Bank, the Commonwealth Savings Bank, the Commonwealth Trading Bank, the Bank of New South Wales, the Australia and New Zealand Bank and the National Bank of Australia at Port Moresby.

Money. The currency and its legal tender are the same as in the Commonwealth of Australia. The coinage of the Territory of New Guinea is accepted as legal tender throughout the Territory of Papua and New Guinea.

II. NEW GUINEA

The Territory of New Guinea has an area of 93,000 sq miles (240,870 sq. km), extending from the Equator to 8° S. lat., and from 141° E. long. to 160° E. long. An Australian force occupied the Territory in 1914. Under a mandate from the League of Nations on 9 May 1921 the Australian Government established its civil administration and after the Second World War placed the Territory under the trusteeship system established under the Charter of the United Nations. The trusteeship agreement for the Territory, under which the Government of Australia is the sole administering authority, was approved by the General Assembly of the United Nations on 13 Dec. 1946. The laws of the Commonwealth, subject to local modifications as necessary, may be applied.

Administration. The seat of administration is at Port Moresby (headquarters of the administration of the Territory of Papua and New Guinea).

By June 1963, 49 native local government councils had been established in which 536,937 people are represented by 1,502 councillors.

Population. The non-indigenous census population at 30 June 1962 was 15,847, and the indigenous population was estimated at 1,469,320.

Education. About 158,500 indigenous students are attending administration and mission schools.

Agriculture. At 30 June 1962, 365,157 acres of land had been leased, including 231,107 for agriculture and 85,907 for pastoral purposes. Copra, cacao, coffee, rice and peanuts are grown. Tropical fruits grow abundantly. The staple food of the natives includes sweet potatoes, yams, taro, sago and bananas. There are extensive grasslands, and a beef-cattle industry is being developed.

Industry. Manufacture is developing on the same lines as in Papua and industries connected with air and sea transport are expanding. The value of factory output in 1961-62 was £7,994,617.

Timber production is important for both local consumption and export. During the year 1961-62 approximately 58.9m. sup. ft of logs were harvested for conversion to sawn timber, production of plywood or for export. Plywood is produced at a modern factory; the approximate total production in 1961-62 was 32m. sq. ft. Fishing is carried on, mostly for home consumption.

Labour. In 1962 about 49,000 indigenous wage-earners were in regular employment; the proportion of skilled and semi-skilled workmen is increasing through education in technical schools and apprenticeship schemes.

Mining. Gold, with silver and, in some instances, minor quantities of platinum and osmiridium associated, is the only mineral product. Other minerals have been reported, but not in commercial deposits. The total value of mineral production in 1961-62, at £670,218, was the lowest for several years. However, production by indigenes at £88,609 was a record and is expected to increase.

Finance and Trade. Revenue and trade (in £A) for years ended 30 June:

² Provisional.

Shipping. Inter-island trade is carried on by small vessels and schooners. There are regular shipping services from Australia to the main ports of the Territory and also services to Europe, the Far East and North America.

Oversea and inter-territory vessels cleared from New Guinea ports in 1961-62 totalled 1,587,831 net tons. Cargo discharged from overseas was 190,776 tons; cargo loaded for overseas was 141,053 tons.

Aviation. Air services are maintained from Australia 6 times a week, while internal air services connect many places in the Territory.

Telecommunications. External wireless telegraph communication is through the Overseas Telecommunication Commission's stations at Lae and Rabaul and an internal telegraph service is operated by the Administration. Telephones numbered 3,454 at 30 June 1962.

1. New Guinea Mainland. This region, the northern section of south-east New Guinea, lies between $2^{\circ} 35'$ and 8° S. lat. and 141° and 148° E long. The area, including Manam, Karkar, Long, Bagabag, Schouten Kairiru (D'Urville) and some smaller islands, is 70,200 sq. miles. The estimated and enumerated native population at 30 June 1962 was 1,235,586. It was declared a German Protectorate under the name of Kaiser-Wilhelms-Land in 1884, and was under the control of the New Guinea Company from 1885 to 1899. The coastline is very little broken, and there are few good harbours. There are high ranges running parallel with the coastal plain which is from 20 to 100 miles wide and broken with steep spurs in some places extending to the actual coastline. The ranges in the interior have not been completely explored, but some of their summits are known to attain 15,000 ft. The principal rivers are the Sepik, which is navigable for over 250 miles, the Ramu and the Markham. The climate is hot and the rainfall large. There were 34 missionary societies at work in 1962; some of these missions have plantations, saw-mills, etc.

The chief towns are: In the Morobe District (non-indigenous population, 3,887), Wau and Lae; in the Madang District (non-indigenous population, 1,401), Madang; in the Eastern Highlands District (non-indigenous population, 1,248), Goroka; and in the Sepik District (non-indigenous population, 1,081), Wewak. (Census population figures at 30 June 1961.)

2. Bismarck Archipelago. In Nov. 1884 a German Protectorate was declared over the New Britain Archipelago and several adjacent groups of islands, and in May 1885 they were renamed the Bismarck Archipelago.

The archipelago is divided into 3 districts: New Britain, area 14,100 sq. miles (main islands, New Britain and Duke of York group); New Ireland, area 3,800 sq. miles (main islands, New Ireland and Lavongai); Manus, area 800 sq. miles (main islands, Admiralty group, including Manus). Other islands are Mussau Islands, Gardner Islands, Nuguria, Nissan Island, the Witu Islands, Umboi Islands, Hermit Islands, Ninigo Group, Kaniet and Sae Islands. There are upwards of 100 small islands with a total area of 1,115 sq. miles. The enumerated and estimated native population of the archipelago at 30 June 1962 was 174,115.

New Britain, the largest island of this group, is a long island of crescent shape lying east and west. It has a mean breadth of 50 miles and a length of 300 miles. The enumerated and estimated native population (including adjacent small islands) was 115,021 at 30 June 1962. A mountain chain traverses the entire length of the island, and in the centre consists of several irregular ranges. There are several active volcanoes. The highest known peak is the Father, about 7,500 ft high, which is an active volcano. The island has very fine harbours. The chief export products are copra and cocoa. Non-indigenous census population at 30 June 1961 was 4,835.

New Ireland, the second in size and importance, is situated north of New Britain, from which it is separated by St George's Channel. The chief town is Kavieng, at the north-west extremity of the island. The only other town is Namatanai on the south-east coast. The island has a long range of mountains running through it. It is of older formation than New Britain,

and does not show any signs of recent volcanic activity. The principal harbour is Nusa Bay on the north coast on which Kavieng, the seat of the local administration, is situated. The enumerated native population at 30 June 1962 was 40,659, including adjacent islands; non-indigenous census population at 30 June 1961 was 806. The soil is reasonably fertile. The chief industry is coconut growing. There are numerous plantations around the coast near Kavieng. Smaller islands of the group include Tabar, Lihir, Tanga, Feni, Nissan (Green Island), Nuguria, Mussau and Emiraü Groups.

The Admiralty Islands are the most important of the small groups. The chief island is Manus. The chief town is Lorengau on the north-east coast. The enumerated native population of the group at 30 June 1962 was 18,435; non-indigenous census population at 30 June 1961 was 400. Coconuts are the chief cultivated crop, and marine shell is taken for commercial purposes.

3. Solomon Islands. The portion of the Solomon Islands within the area of the Territory of New Guinea consists of Bougainville, Buka and adjacent islands, including Kilinailau (Carteret Island), Taku (Mortlock) and Nukumanu (Tasman) Islands. Bougainville has an area of 4,100 sq. miles, and an enumerated native population in 1962 of 59,619, including Buka, which has an area of 190 sq. miles; non-indigenous census population at 30 June 1961 was 438. Smaller islands have a total area of 30 sq. miles. The islands are very mountainous. Of the several volcanic cones, Bagana (in the Crown Prince range) and Balbi are the only active volcanoes. The principal harbours are Kieta, situated on the east coast of Bougainville, and Raua and Tinputz on the north-east coast of Bougainville. There is a good harbour on the west side of Buka, named Carola Hafen. The natives grow bananas, coconuts, taro, sweet potatoes and cocoa.

NAURU ISLAND

AREA AND POPULATION. The island is situated 0° 32' S. lat. and 166° 55' E. long. Area, 5,263 acres (2,130 hectares). It is an oval-shaped upheaval coral island of approximately 12 miles in circumference, surrounded by a reef which is exposed at low tide. There is no anchorage. On the seaward side the reef dips abruptly into the deep waters of the Pacific. On the landward side of the reef there is a sandy beach interspersed with coral pinnacles. From the sandy beach the ground rises gradually, forming a fertile section ranging in width from 150 to 300 yd and completely encircling the island. On the inner side of the fertile section there is a coral cliff which

risers to a height of from 40 to 100 ft. Above the cliff there is an extensive plateau bearing phosphate of a high grade, the mining rights of which are vested in the British Phosphate Commissioners subject to the rights of the native landowners. It is chiefly on the fertile section of land between the sandy beach and the plateau that the natives have established themselves. With the exception of a small fringe round a shallow lagoon, about 1 mile inland, the plateau, which contains the phosphate deposits, has few food-bearing trees and is not utilized for the purposes of native settlements.

At 30 June 1962 the population totalled 4,849, comprising 412 Europeans, 2,516 Nauruans, 748 Chinese and 1,173 other Pacific Islanders.

Vital statistics, 1961-62: Births, 161; deaths, 12.

GOVERNMENT. The island was discovered by Capt. Fearn in 1798, annexed by Germany in Oct. 1888, and surrendered to the Australian forces in 1914. It was administered under a mandate, dated 17 Dec. 1920, conferred on the British Empire and approved by the League of Nations until 1 Nov. 1947, when the United Nations General Assembly approved a trusteeship agreement bringing Nauru within the United Nations trusteeship system with the Governments of Australia, New Zealand and UK as joint administering authority.

Great Britain, Australia and New Zealand agreed in July 1919 that Australia should appoint the first Administrator for a term of 5 years, and thereafter the Administrator was to be appointed as the 3 governments should decide. By arrangement Australia has continued to appoint the Administrator, who is empowered to make ordinances. The local-government council advises the administrator and carries out certain administrative functions. The expenses of administration are met out of local revenue and the proceeds of phosphate sales.

Administrator: R. S. Leydin, OBE.

Nauru was occupied by the Japanese from 26 Aug. 1942 to 13 Sept. 1945. Civil administration was re-established on 1 Nov. 1945.

EDUCATION. Attendance at school is compulsory for all children between the ages of 6 and 15 (if European) and 6 and 17 (if Nauruan). A system of technical training for native boys under apprenticeships with either the British Phosphate Commissioners or the Administration is in operation. Scholarships are available for Nauruan children to receive secondary education and vocational training in Australia.

FINANCE. Revenue and expenditure (in £A) for financial years ending 30 June:

	1958-59	1959-60	1960-61	1961-62
Revenue	350,344	438,246	490,233	523,780
Expenditure	357,881	409,004	510,690	420,242

The interests in the phosphate deposits were purchased in 1919 from the Pacific Phosphate Company by the Governments of the UK, the Commonwealth of Australia and New Zealand, at a cost of £3.5m., and a Board of Commissioners was appointed to manage and control the working of the deposits. In addition to an annual contribution to the administration from the proceeds of the sales of phosphate, a royalty of 3s. 8d. per ton is being paid by the British Phosphate Commissioners for every ton of phosphate

shipped, of which 1s. 2d. per ton is paid to the Nauruan landowners; 10d. per ton is paid to the Royalty Trust Fund which is used to finance the local-government council; 8d. per ton is paid to the Landowners Royalty Trust Fund and is invested for the benefit of the landowner or his assigns, to whom the interest will be paid after the principal has been invested for a period of 15 years; and 1s. per ton is paid to the Community Royalty Trust Fund and invested until the year 2000.

COMMERCE. The export trade consists almost entirely of phosphate shipped mainly to Australia and New Zealand. Phosphate exported: 1960-61, 1,338,681 tons; 1961-62, 1,541,652 tons; 1962-63, 1,606,425 tons.

The imports consist almost entirely of food supplies, building construction materials and machinery for the British Phosphate Commissioners, for use in connexion with their works. Value of imports: 1957-58, £A971,029; 1958-59, £A1,013,674; 1959-60, £A1,342,401; 1960-61, £A1,463,236. Exports, 1957-58, £A2,421,898; 1958-59, £A2,492,361; 1959-60, £A2,836,261; 1960-61, £A2,945,098; 1961-62, £A3,391,634.

Trade with the UK (British Board of Trade returns, in £ sterling):

	1960	1961	1962	1963
Imports to UK	1,308,892	1,112,404	1,058,246	1,306,401
Exports from UK	78,038	84,932	106,214	103,533
Re-exports from UK	17	51	15	77

COMMUNICATIONS. *Shipping.* Practically the whole of the shipping coming to the island consists of steamers owned by or under charter to the British Phosphate Commissioners. Numbers of vessels entered and cleared in 1961-62, 171 of 1,414,511 gross tons; 1960-61, 148 of 1,197,965 gross tons.

Aviation. There is an airstrip on the island, but no regular services are in operation.

Telecommunication. Direct daily schedules are maintained with Sydney (N.S.W.), Suva and Nandi (Fiji), Tarawa, Ocean Island and Port Moresby, and with merchant shipping—both long- and short-wave transmission. A radio-telephone circuit is maintained Mondays to Fridays with Sydney. A separate tele-radio service exists between Nauru and Ocean Island for the convenience of the British Phosphate Commissioners.

NEW ZEALAND

HISTORY. The first European to discover New Zealand was Tasman in 1642. The coast was explored by Capt. Cook in 1769; in subsequent years it became a resort for whalers and traders, chiefly from Australia. By the Treaty of Waitangi, in 1840, between Governor William Hobson and the

representatives of the Maori race, the Maori chiefs ceded the sovereignty to the British Crown and the islands became a British colony.

The Maoris are a branch of the Polynesian race, having emigrated from the eastern Pacific before and during the 14th century. Between 1845 and 1884, and between 1860 and 1870, a large proportion of them were in revolt against British rule, but peace was permanently established in 1871.

CONSTITUTION AND GOVERNMENT

Definition was given the status of New Zealand by the (Imperial) Statute of Westminster of Dec. 1931, which had received the antecedent approval of the New Zealand Parliament in July 1931. The Governor-General's assent was given to the Statute of Westminster Adoption Bill on 25 Nov. 1947.

The powers, duties and responsibilities of the Governor-General and the Executive Council under the present system of responsible government are set out in Royal Letters Patent and Instructions thereunder of 11 May 1917, published in the *New Zealand Gazette* of 24 April 1919. In the execution of the powers vested in him the Governor-General must be guided by the advice of the Executive Council; but, if in any case he sees sufficient cause to dissent from the opinion of the Council, he may act in the exercise of his powers and authorities in opposition to the opinion of the Council, reporting the matter to Her Majesty without delay, with the reasons for his so doing.

The following is a list of Governors-General, the title prior to June 1917 being Governor:

Earl of Liverpool	1917-20	Sir Cyril Newall	1941-46
Viscount Jellicoe	1920-24	Lord Freyberg, VC	1946-52
Sir Charles Fergusson, Bt	1924-30	Lord Norrie	1952-57
Lord Bledisloe	1930-35	Viscount Cobham	1957-62
Viscount Galway	1935-41	Sir Bernard Fergusson	1962-

Parliament or the 'General Assembly' now consists of the House of Representatives, the former Legislative Council having been abolished since 1 Jan. 1951.

The statute law on elections and the life of Parliament is contained in the Electoral Act, 1956.

The House of Representatives consists of 80 members, including 4 Maoris, elected by the people for 3 years. They are paid £1,550 per annum, plus an expense allowance varying from £350 to £675 per annum according to the type of electorate represented. Every man or woman registered as an elector is eligible as a member of the House of Representatives. For European representation every adult person (of either sex), other than aliens, if resident 1 year in New Zealand and 3 months in an electoral district, is required to be registered as an elector for such electoral district. No person may be registered on more than 1 electoral roll. Every adult Maori who has resided in any of the 4 Maori electoral districts for not less than 3 months is entitled to be registered as an elector of that district. A half-caste Maori is entitled to register either for a European or a Maori electoral district. Women's suffrage was instituted in 1893; women became eligible as members of the House of Representatives in 1919. The House in 1963 included 4 women members.

The right of Maori members of Parliament and of Maori petitioners to use their language is safeguarded by standing orders of the House under the discretionary power of Mr Speaker.

House of Representatives elected 30 Nov. 1963: National Party, 46; Labour, 34; total 80.

The Executive Council was reconstructed as follows on 20 Dec. 1963:

Governor-General and C.-in-C.: Brig. Sir Bernard Fergusson, GCMG, DSO, OBE (assumed office 9 Nov. 1962).

Prime Minister, Minister of External Affairs: K. J. Holyoake, CH, PC.

Deputy Prime Minister, Minister of Industries and Commerce, Minister of Overseas Trade: J. R. Marshall.

Minister of Finance: H. R. Lake.

Attorney-General, Minister of Justice, Minister of Maori Affairs: J. R. Hanan.

Minister of Transport, Minister of Railways, Minister in Charge of Civil Aviation: J. K. McAlpine.

Minister of Labour, Minister of Immigration, Minister of Mines: T. P. Shand.

Minister of Works, Minister of Electricity: P. B. Allen.

Minister of Defence: D. J. Eyre.

Minister of Lands, Minister of Forests, Minister of Marine: R. G. Gerard.

Minister of Internal Affairs, Minister of Island Territories, Minister of Civil Defence: D. C. Seath.

Minister of Housing: J. Rae.

Minister of Education: A. E. Kinsella.

Minister of Customs, Associate Minister of Industries and Commerce: N. L. Shelton.

Postmaster-General, Minister of Broadcasting: W. J. Scott.

Minister of Agriculture and Science: B. E. Talboys.

Minister of Social Security, Minister for the Welfare of
D. N. McKay.

The Prime Minister (provided with residence) has a salary of £4,750 plus a tax-free expense allowance of £1,600 per annum; Ministers with portfolio, £3,150 plus a tax-free expense allowance of £550 (Minister of External Affairs £730) per annum; Ministers without portfolio, £2,500 plus a tax-free expense allowance of £450 per annum; Parliamentary Under-Secretaries, £2,250 plus an expense allowance of £450 per annum. RELIGION

No direct state aid is given to any form of religion. For the Church of England the country is divided into 7 dioceses, with a separate bishopric (Aotearoa) for the Maoris. The dioceses of Melanesia and Polynesia also form part of the Province of New Zealand. The Bishop of Waiapu is Primate and Archbishop of New Zealand.

The Presbyterian Church is divided into 23 presbyteries and the Maori Synod. The Moderator is elected annually. The Methodist Church is divided into 10 districts; the President is elected annually.

The Roman Catholic Church is divided into 4 dioceses, with the Archbishop of Wellington as Metropolitan Archbishop.

EDUCATION

New Zealand has 6 universities, the University of Auckland, University of Waikato, Victoria University of Wellington, University of Manawatu, the University of Canterbury (at Christchurch) and the University of Otago (at Dunedin); number of students (1962), 15,881. There are 2 university colleges of agriculture, Lincoln College near Christchurch and Massey College at Palmerston North, which had, in 1962, a total of 1,302 students (including those on short courses). There were 7 teachers' training colleges with 4,233 students in July 1962.

At the end of 1962 there were 169 public post-primary schools with 5,089 full-time teachers and 103,498 pupils. There were also 92 district high schools with 403 teachers and 7,733 scholars in the secondary division. At 1 July 1962, 63,631 part-time pupils attended technical classes, including 1,591 receiving part-time tuition from the correspondence school, and 6,678 receiving part-time instruction from the technical correspondence school. At the end of 1962, 505 full-time pupils received tuition from the secondary department of the correspondence school. There were also 110 registered private secondary schools with 970 teachers and 21,758 pupils.

At the end of 1962 there were 2,037 public primary schools (including intermediate schools and departments), with 403,028 pupils; average attendance, 383,815; the number of teachers was 12,074. In addition, 3 Chatham Islands schools had 125 pupils and 7 teachers. There is a correspondence school for children in remote areas and those otherwise unable to attend school, with 1,046 primary pupils and 28 teachers. There were also 339 registered primary private schools, with 1,520 teachers and 56,826 pupils.

Education is compulsory between the ages of 7 and 15. Children aged 3 and 4 years may enrol at the 217 free kindergartens maintained by Free Kindergarten Associations, which receive a government subsidy of £2 for each £1 raised. At the end of 1962 there were 16,625 children on the rolls.

There are 16 occupation centres for intellectually handicapped children; 6 cerebral palsy schools; 45 hospital classes, 108 special classes for backward children, 67 speech clinics, 7 health camp schools, 4 classes for partially sighted, 10 remedial clinics, 6 schools for physically handicapped, 2 schools for the deaf and 1 private school for deaf children; 7 classes for the deaf; a school for the blind; a residential school for severely disturbed or maladjusted children; 2 classes for maladjusted children; a special school for mentally backward boys and a similar school for girls and 14 psychological centres employing 39 professional officers.

Total expenditure out of government funds in 1962-63 upon education was £51,415,564.

Organizational Control. The universities and the affiliated agricultural colleges are autonomous bodies each conducting its own affairs. Most post-primary schools are controlled by their own boards. Each public primary school is under the control of the education board for its district: there are 10 education districts. The Department of Education exercises certain defined functions in connexion with the general supervision of the education provided in public primary and post-primary schools and, in particular, disburses the government grants payable to controlling authorities for the running of those schools. Education in state schools is free for children under 19 years of age. Private schools are under the control of the authorities who conduct them, but are regularly visited by state school inspectors.

Maori Education. Maori children may attend the public schools and the majority of them do so, but there are also public Maori schools provided for their education under the direct control of the Department of Education. On 1 July 1962 there were 154 Maori primary schools with 11,937 pupils including 984 European children. The language of instruction in the Maori schools is English, but Maori arts and crafts, songs, legends and history are taught.

The Maori Education Foundation was established in 1961.

Cinemas. There were in 1960, 545 cinemas with a seating capacity of 257,207.

Newspapers. There were in 1963, 42 daily newspapers (10 morning and 32 evening) with a combined circulation of 993,960. Eight of these newspapers (2 each in Auckland, Wellington, Christchurch and Dunedin) had a circulation of 706,600.

JUSTICE

The judiciary consists of the Chief Justice, 3 judges of the Court of Appeal and 12 Supreme Court judges.

A Maori may give evidence in any court in the Maori language and request the services of a licensed interpreter.

At the end of 1962 the gaols and Borstal institutions contained 1,760 prisoners, 1,661 males and 99 females. In 1962, 3,560 persons were received into penal institutions.

The Crimes Amendment Act, 1941, abolished flogging and the death penalty (except for treason), but capital punishment was restored in 1950. In Nov. 1961 death penalty for murder was replaced by life imprisonment.

Police. The police in New Zealand are a national body maintained wholly by the central government. The total strength at 31 March 1963 was 2,575 (including 34 women), the proportion of police to population being

1 to 966. The total cost of police services for the year 1962-63 was £3.86m., equivalent to £1 10s. per head of population.

SOCIAL SERVICES

New Zealand is divided into hospital districts, with elective boards for the administration of the public hospitals. From 1957-58 government has become responsible for all public hospital finance. Expenditure by hospital boards on public hospitals and kindred institutions during the year ended 31 March 1962 was £23,953,950 for maintenance and £8,786,000 for capital expenditure, including loan works. Payments of medical, maternity, hospital, etc.; benefits from the Social Security Fund for 1962-63 were £23,758,225.

A Social Security Act was passed in 1938 and became operative as from 1 April 1939. The principal objects were: (1) to substitute for the system of non-contributory civil pension—*e.g.*, old-age, widows', and other pensions—a system of monetary benefits, on a contributory basis; (2) the inauguration of a system of medical and hospital benefits, and of other related benefits.

MONETARY BENEFITS available and the rates as at 31 Oct. 1963 are as follows: In most cases the rates of benefit quoted are subject to certain deductions on account of income but not property (in excess of certain limits).

Superannuation Benefits. Available as from 1 April 1940 at the rate of £10 per annum during 1940-41; in 1962 rates were fixed at £227 10s. for a married person and £253 10s. for an unmarried person. Subject to certain residential qualifications, every person over the age of 65 is eligible for superannuation irrespective of income or property.

Age Benefits. The qualifying age is 60 years, and the basic rate is £227 10s. per annum. If the applicant's wife is under 60 years of age, and thus cannot qualify for a benefit, the husband's benefit may be increased by an amount not exceeding £227 10s. per annum. The rate for an unmarried person is £253 10s. a year. An age benefit may be granted to unmarried women between 55 and 60 years of age who are unable to engage in regular employment.

Widows' Benefits. A widow may receive a benefit of up to £253 10s. a year, but one who has never had a child cannot qualify unless she is at least 50 years of age. There is no age restriction for a widow with a dependent child or children. A beneficiary with one dependent child may receive, in addition to the basic benefit, a mother's allowance of up to £162 10s. a year, while a beneficiary with 2 dependent children may receive a mother's allowance of up to £188 10s. a year. For a widow with 3 dependent children the rate of mothers' allowance is £214 10s.; with 4 children £240 10s.; with 5 children £266 10s.; and with 6 or more children £292 10s. a year. In addition, the family benefit (referred to under a subsequent heading) is payable in respect of each child under 16 years of age.

Orphans' Benefits. Orphaned children under the age of 16 years, both of whose parents are dead, are each entitled to a benefit ranging up to a maximum of £123 10s. per annum.

Family Benefits. A family benefit of 15s. per week is payable in respect of each child under 16 years of age, irrespective of the circumstances or

income of the parents or child. The benefit may, under certain conditions, be capitalized and paid in advance for family housing.

Invalids' Benefits. Subject to certain restrictions, persons over 16 years of age who are blind or permanently incapacitated for work are eligible for invalids' benefits. For unmarried invalids over 16 and under 20 years of age without dependants the rate is £214 10s. a year, for married men £227 10s., increased by £227 10s. for a dependent wife, and for unmarried persons; 20 years or over, £253 10s. a year.

Miners' Benefits. The basic rate of miners' benefits, which are available for miners suffering from occupational diseases, is £227 10s. per annum, increased by £227 10s. per annum for a dependent wife. The maximum for an unmarried person is £253 10s. a year. There is also a provision for a benefit of £221 per annum for a widow whose husband died while in receipt of a miner's benefit. Miners' benefits are not subject to means test.

Sickness Benefits. The rates are the same as for unemployment.

Unemployment Benefits. Every person except a seasonal worker, who has been unemployed for a longer period than 7 days, and whose unemployment is not of his or her own choosing, is eligible for an unemployment benefit. For persons (without dependants) over 16 and under 20 years of age the rate is £3 10s. per week, for unmarried persons 20 years and over, £4 15s. per week and for all other persons £4 5s. per week, with an addition of £4 5s. per week for a dependent wife.

Emergency Benefits. These are granted to persons who from age, physical or mental disability, domestic circumstances, etc., are unable to earn a livelihood and are ineligible for any other monetary benefit. The rate is fixed as nearly as possible to that of the type of benefit for which the applicant most closely qualifies.

Supplementary Assistance. Supplementary financial assistance is granted when applicants have special commitments which cannot be met out of current income, have insufficient other means and have no possibility of helping themselves.

Domestic Concession. Female beneficiaries are allowed to earn an extra £78 per year, without affecting their benefits, from domestic or nursery employment in a private home, hospital, home for the aged, or other approved institution.

Reciprocity with Other Countries. There are reciprocal arrangements between New Zealand and Australia in respect of age, invalids', widows', family, unemployment and sickness benefits, and between New Zealand and Great Britain and between New Zealand and Northern Ireland in respect of family, age, superannuation, widows', orphans', invalids', sickness and unemployment benefits.

Medical, Hospital and other Related Benefits are also provided from the Social Security Fund. These consist mainly of the payment of certain prescribed fees for medical attention by private practitioners, free treatment in public hospitals and in mental hospitals, certain prescribed fees for treatment in private hospitals, maternity benefits (including ante-natal and post-natal treatment and services of doctors and nurses at confinements), pharmaceutical benefits (medicines, drugs, etc., prescribed by medical practitioners), etc. There are also benefits in connexion with dental services

up to the age of 16, X-ray diagnosis, massage, home-nursing, artificial aids, etc.

Financial Contributions. From 1 April 1960 the principal revenue of the Social Security Fund derives from the payment of 1s. 6d. for each £1 of the national private income (as defined in the Act) for the preceding year as estimated by the Government Statistician.

Total receipts of the Social Security Fund for the year ended 31 March 1963 amounted to £116,761,931, made up of £82.33m. Social Security Income Tax, £34m. from the Consolidated Fund and other receipts of £434,431.

Pensions (including economic pensions). Provision is made for the payment of pensions and allowances, on certain conditions, to members, or dependants of disabled, deceased or missing members, of the New Zealand Forces who served in the South African War, the two World Wars, the Korean War, to members of the New Zealand Mercantile Marine during the Second World War, or in connexion with any emergency whether arising out of the obligations undertaken by New Zealand in the Charter of the United Nations or otherwise. Members of the Emergency Reserve Corps are also provided for. Such pensions are not a charge on the Social Security Fund, but are paid from the Consolidated Fund. Principal rates are: War pensions (mercantile marine and emergency reserve corps pensions on similar lines) are payable to widows at a rate of from £3 15s. to £4 a week according to deceased members' rank, together with a mother's allowance of £3 a week, increased by 10s. a week for the second and each additional child up to the sixth. The rate for total disablement is £5 plus up to £4 5s. a week for a dependent wife if the husband is unable to maintain her. These rates may be increased by an amount not exceeding £2 10s. per week if the pensioner is suffering from total blindness, two or more serious disabilities or one extremely severe disability. Economic pensions in addition may be paid, the maximum rates being £4 7s. 6d. to a member (if unmarried, £4 15s.) and £4 15s. to a widow. War veterans' allowances are £227 10s. a year plus an equal amount to a wife, subject to income qualifications (£247 if unmarried).

The weekly payment of 15s. to each child may be made by way of either family benefit or war pension.

FINANCE

The following tables of revenue and expenditure relate to the Consolidated Fund, which covers the ordinary revenue and expenditure of the general government—i.e., apart from capital items, commercial and special undertakings, advances, etc. Taxation revenue excludes social security taxes, except in 1959-60. All figures in £NZ1,000.

Year ended 31 March	Customs and excise	Sales-tax	Income tax	Other taxes	Interest ¹	Total (including others)
1961	57,220	23,744	131,530	21,645	16,303	284,353

1964 ³	51,649	14,500	56,000	37,500	4,000	321,800

¹ Exclusive of Social Security benefits.

² Estimates.

³ Transfers to the Social Security Fund were: 1959-60, £106.5m.; 1960-61, £34.7m.; 1961-62, £38.1m.; 1962-63, £34m.

⁴ Includes rehabilitation appropriation.

Taxation receipts in 1962-63 for all purposes amounted to £342,014,473, giving an average of £135 per head of mean population. Included in the total taxation is £23,957,882 National Roads Fund taxation. The estimate for 1963-64 is £376m., the total being inclusive of an estimated £24.6m. of National Roads Fund taxation.

The gross public debt at 31 March 1963 was £967.1m., exclusive of £26,191,000 in respect of which interest has been suspended by agreement with the UK Government from 1931. Of the total debt, £74.8m. represents the amount outstanding on account of war and defence expenditure. The majority of the remainder of the debt represents reproductive expenditure or investments. The gross annual interest charge on the public debt at 31 March 1963 was £35,577,198.

DEFENCE

The control and co-ordination of defence activities is obtained through the Department of Defence, the appointment of a Minister of Defence in charge of the three Services, and through a series of inter-Service Committees. There is a Cabinet Committee on Defence, and a Defence Board comprising the chairman of the Chiefs of Staff Committee, the 3 service chiefs and the Secretary to the Treasury and the Secretary of External Affairs. This Committee provides advice to the Minister of Defence on defence policy. The Chiefs of Staff Committee, comprising the Chiefs of the Naval, General and Air Staffs, meeting under an independent chairman, is responsible for advising the Minister of Defence on purely military questions.

Under the Minister of Defence, control and administration is effected by: (a) the Navy Department; (b) the Army Department; (c) the Air Department. Command, training and administration of each service is exercised through a service board, the chairman of which in each case is the Minister of Defence.

Army. The Army Board consists of the Minister of Defence as chairman, 4 Military Members (Chief and Vice-Chief of the General Staff, Adjutant-General, Quartermaster-General), the Army Secretary and a Territorial Officer (associate member).

The New Zealand Army consists of the Regular Force, the Territorial Force, the Army Reserve and the Cadet Corps. The Regular Force comprises a small static component and an operational formation organized as a Brigade Group. The Brigade Group has one battalion stationed in Malaya as part of the Commonwealth Strategic Reserve. The Territorial Force which is manned by volunteers is organized on a Divisional basis.

Militarily, the country is divided into 3 districts—Northern, Central and Southern—each under the command of a senior officer of the regular force. The higher grouping within the Army is Army Troops, District Troops and the New Zealand Division.

Regular personnel, on 31 March 1963, totalled 5,049 all ranks; territorial personnel totalled 5,395 volunteers and 33,740 reservists.

Navy. The Royal New Zealand Navy is administered by the New Zealand Naval Board. This board consists of: (a) The Minister of Defence (as Chairman of the Board); (b) First Naval Member (the Chief of Naval Staff); (c) Second Naval Member (for Personnel); (d) Third Naval Member (for Supply, Transport and Works); (e) The Navy Secretary.

The RNZN ships include the light cruiser *Royalist*, 5 frigates, 1 surveying vessel (*ex*-frigate), 4 escort minesweepers, 1 patrol vessel, 12 seaward patrol craft, 1 antarctic support ship, 2 motor launches and 3 tenders.

Personnel, on 31 March 1963, totalled 2,465 officers and ratings.

Air Force. The Royal New Zealand Air Force is controlled by an Air Board under the chairmanship of the Minister of Defence and administered by the Air Department. The Chief of the Air Staff is an Air Vice-Marshal and the Force consists of the Regular Air Force, the Air Force Reserve, the Air Training Corps and the Women's Royal New Zealand Air Force. Organization, administration and equipment are similar to those of the Royal Air Force.

One transport squadron, equipped with Dakotas and Bristol Freighters, is based on Singapore Island as part of the Commonwealth Strategic Reserve, and a Sunderland flying-boat squadron is based in Fiji for maritime reconnaissance and air/sea rescue duties. A Canberra bomber squadron, a general-purpose squadron equipped with 1 flight of Vampire fighter-bombers and Canberra and Vampire trainers, a maritime reconnaissance and support unit equipped with Sunderlands, and 2 transport squadrons, equipped with DC-6B, Hastings, Dakota and Devon aircraft, are based in New Zealand. Other types in service include Harvard trainers and Auster AOP aircraft. Three C-130E Hercules long-range transports are on order.

The strength on 31 March 1963 was 3,542 all ranks.

PRODUCTION

Agriculture. Two-thirds of the surface of New Zealand is suitable for agriculture and grazing. The total area under cultivation in 1962 was 21,431,724 acres (excluding residential area and domestic orchards, but including 19,047,073 acres in sown grasses and 143,903 in fallow). The area of Crown lands (other than reserves) leased under various tenures at 31 March 1963 was 15,455,582 acres.

The largest freehold estates are held in the South Island. The extent of occupied holdings of or over 10 acres as at 31 Jan. 1960 (exclusive of holdings within borough boundaries) was as follows:

Size of holdings (acres)			Size of holdings (acres)		
	Number	Acres		Number	Acres

Private air companies are carrying out such aerial work as top-dressing, spraying and crop-dusting, seed-sowing, rabbit poisoning, aerial photography and surveying, and dropping supplies to deer cullers and dropping fencing materials in remote areas. The main aerial activity was top-dressing, statistics for the 12 months ended March 1963 being: Hours flown, 69,840; fertilizer distributed, 592,473 tons; area treated, 5,198,615 acres.

Livestock in 1962: 6,597,913 cattle, 48,987,992 sheep and 685,541 pigs. The total number of dairy cows in milk as at 31 Jan. 1962 was 1,968,094, and the total butter-fat production in 1961-62 was 555m. lb. Butter exported, 12 months ended June 1963, was 164,094 tons; cheese exported, 90,562 tons.

Production of wool for the 12 months ended 30 June 1963, 587m. lb. (greasy basis); exports of all wool in the same year was 563.2m. lb.

Ward, R. G. and M. W. (ed.), *New Zealand's Industrial Potential*. Auckland, 1960

Mining. New Zealand's production of minerals in 1962 included 21,742 fine oz. of gold, 416 fine oz. of silver, 17 tons of tungsten ore, 1,874 tons of diatomite earth, 1,476 tons of bentonite, 316,140 tons of clay for bricks, tiles, etc., 7,219 tons of potters' clays, 1,501 tons of iron ore, 844,354 tons of limestone for agriculture and 42,023 tons of limestone for industry, 1,018,152 tons of limestone, marl, etc., for cement, 32,522 tons of pumice, 140,175 tons of serpentine, 62,318 tons of silica sand. Mineral fuel production amounted to 2,550,196 tons of coal, 139,418 gallons of crude petroleum and 4,063,400 cu. ft of natural gas. Mineral production for the year was valued at £NZ18,439,907.

The resources of natural gas discovered in 1961 in the Taranaki area of the North Island are now being developed.

Electricity. The general policy of the Government in regard to electric power is to supply power in bulk, leaving the reticulation and retail supply in the hands of local authorities. Originally these consisted of cities, boroughs, etc., but, to facilitate the extension of electric supply into country areas, Electric Power Boards were created, and these now embrace most urban areas. Some Power Boards operate small generating stations. Practically all stations rely on water-power, but there are 2 important steam-powered stations, one coal-fired with a capacity of 180,000 kw., the other geothermal-operated with a present capacity of 91,000 kw. which could ultimately be raised to 250,000-280,000 kw.

Trade Unions. In 1962 there were 391 industrial unions of workers with a total of 332,801 members.

The primary object of an industrial union is to protect or promote the related interests (wages, hours and conditions of employment) of either employers or workers in a specified industry or related industries in New Zealand or in a specified locality. Other powers are: (a) To enter into industrial agreements relating to conditions of employment and where necessary to refer industrial disputes to councils of conciliation. Where conciliation fails the dispute may be referred to the Court of Arbitration. (b) to affiliate with or be a member of any industrial association in the industry. (c) To take or empower legal and other lawful proceedings. (d) To invest union funds.

The method of government, and the objects of a union, are provided for in the rules which are recorded by the Registrar of Industrial Unions when the union is registered. Such rules may be amended by the union from time to time, but no amendment is effective until it is recorded by the Registrar.

Railways. On 31 March 1963 there were 3,263 miles of government railways open for traffic. Operating earnings from government railways, 1962-63, £31,376,338; operating expenses, £33,437,737. The capital cost of construction of all government lines, open and unopen, to 31 March 1963, was £152,949,273. In 1962-63 the tonnage of goods (including livestock) carried was 10,043,732, and the passengers numbered 25,665,557. In addition, the railways road motor-services carried 21,569,052 passengers. The rail/road ferry GMV *Aramoana* began a regular service between the North and South Islands in Aug. 1962.

The total revenue (including road motor and other subsidiary services) amounted to £36,443,478, and total expenditure £38,293,953.

Roads. Total mileage of formed roads in New Zealand at 31 March 1961 was 57,135, inclusive of 6,082 miles of formed roads and streets which were not paved or surfaced. There were also 9,053 bridges of over 25 ft in length with a total length of 810,796 ft. The network of State highways, which

from 1 April 1960 replaced the system of State and main highways, comprised 6,828 miles, including the principal arterial traffic routes.

Total expenditure on roads, streets and bridges by the central government and local authorities combined for the financial year 1962-63 amounted to £37,204,576.

At 31 March 1963 motor vehicles licensed numbered 1,005,023, of which 587,103 were cars, 2,664 public taxis, 4,785 omnibuses and contract vehicles, 55,484 light commercial trucks and 77,542 heavy trucks. Included in the remaining number were 32,621 motor cycles, 71,270 vehicles exempt from paying fees and 18,307 government vehicles. Licensed road goods-services for the year ended 31 March 1962 recorded a total vehicle mileage of 257m. Total revenue amounted to £45m. The road passenger services vehicle miles amounted to 76,417,960, and passengers carried totalled 189,491,557. Total passenger revenue amounted to £11,460,033.

Post. Receipts of the Post Office for year ended 31 March 1963 were £32,882,209; working expenses, £24,510,080, excluding interest on capital liability, £3,825,656. The officials numbered 26,967 on 31 March 1963.

The telegraph and telephone systems are governmental. Number of telephone subscribers 850,572 (31 March 1963). The telegraph and telephone receipts for the year 1962-63 were £20,634,251.

From 1 April 1962 the New Zealand Broadcasting Corporation took over from the Government the control and operation of radio and television services. A television system of both commercial and non-commercial services serves Auckland, Wellington, Christchurch and Dunedin. Number of radio receiving licences at 31 March 1963 was 610,903; licensed television sets, 81,839.

Aviation. Domestic scheduled passenger services are operated by the New Zealand National Airways Corporation and 3 minor companies. A private company also operates an inter-island freight service under contract to the New Zealand Railways Department. International Services are operated to and from New Zealand, by a local company, Tasman Empire Airways, Ltd, and by 3 overseas companies. Non-scheduled services are run by the main companies and also by a number of small operators and aero clubs.

Domestic scheduled services during the 12 months ended March 1963: Passengers carried, 823,000; mail, 397,400 ton-miles; freight, 6,764,600 ton-miles. International services: Passengers carried, 168,900; mail, 743,000 ton-miles; freight, 1,524,000 ton-miles.

MONEY AND BANKING

New Zealand has its own distinctive silver and bronze coinage, the denominations being similar to those in use in the UK. Up to 31 Dec. 1961 New Zealand coins of a total face value of £10m. have been minted by the Royal Mint in London. In 1947 cupro-nickel coins were issued in place of silver coins.

The constituents of the New Zealand banking system are a Reserve Bank, and 5 trading banks, and of the latter the Bank of New Zealand is a New Zealand institution, 3 are primarily Australian concerns; the fifth has its head office in London. Prior to the operation of the Bank of New Zealand Act, 1945, the Government held approximately one-third of the aggregate

paid-up capital of the Bank of New Zealand, and the Act, which came into force on 1 Nov. 1945, completed the process, the Bank being now state-owned. As originally constituted the Reserve Bank had private shareholders, but these were repaid under the Reserve Bank Amendment Act, 1936, and the bank was in effect nationalized. By the Reserve Bank Amendment Act 1960 the Bank's statutory powers of credit regulation were extended to the regulation and control, on behalf of the Government, of money, banking, credit, currency, interest rates, the transfer of money to and from New Zealand, and particularly the control of trading bank credit. Final authority to determine the London-New Zealand exchange rate has been transferred to the Minister of Finance, subject to consultation with the Bank.

At the end of March 1963 the amount on deposit at trading banks was £328.27m.; while advances amounted to £205,166,000. The weekly average bank-note circulation in 1962 was £66.59m.

There are the post office savings bank and 8 trustee savings banks. The post office savings bank had at 31 March 1963, 1,069 branches; number of accounts, 1,971,000; amount deposited during year, £200,552,000; withdrawn, £189,898,000; total amount to credit of depositors at end of year, £338,597,000. At 31 March 1963, £74,859,000 was on deposit in trustee savings banks to the credit of 523,000 depositors. In addition, amount to credit of depositors in national savings accounts as at 31 March 1963 totalled £52.3m. The Post Office School Savings Scheme is operated by 2,255 schools, deposits totalling £1.52m.

Minor Islands. The minor islands (total area, 320 sq. miles, 775 sq. km) included within the geographical boundaries of New Zealand are the following: Kermadec Islands, Three Kings Islands, Auckland Islands, Campbell Island, Antipodes Islands, Bounty Islands, Snares Islands, Solander Island. With the exception of Raoul Island in the Kermadec Group (population, 10) and Campbell Island (population, 9) none of these islands is inhabited.

The Kermadec Islands, which were annexed to New Zealand in 1887, have no separate administration and all New Zealand laws apply to them. Situation, 29° 10' to 31° 30' S. lat., 177° 45' to 179° W. long., 600 miles N.N.E. of New Zealand. Area, 13 sq. miles (33.5 sq. km). The largest of the group is Raoul or Sunday Island, 20 miles in circuit, while Macaulay Island is 3 miles in circuit.

A meteorological station and an aeradio station have been established on Raoul Island, and the population including the official staff was 10 at 18 April 1961.

Island Territories. Island territories coming within the jurisdiction of New Zealand consist of the Cook Islands, Niue Island and the Tokelau Islands.

The Cook Islands, which lie between 8° and 23° S. lat., and 156° and 167° W. long., were proclaimed a British protectorate in 1888, and on 11 June 1901 were annexed and proclaimed part of New Zealand. The islands within the territory fall roughly into two groups—the scattered islands towards the north (Northern group) and the islands towards the south known as the Lower group. The Tokelau Islands were proclaimed part of New Zealand as from 1 Jan. 1949.

The names of the islands with their populations at census 25 Sept. 1961 are as follows:

Lower Group—		Population	Northern Group—		Population
Rarotonga		8,876	Nassau		109
Mangaia		1,877	Palmerston (Avarau)		88
Atiu		1,266	Penrhyn (Tongareva)		628
Aitutaki		2,582	Manihiki (Humphrey)		1,006
Maue (Parry I.)		785	Rakahanga (Reirson)		319
Mitiaro		307	Pukapuka (Danger)		718
Manuae and Te au-o-tu		18	Suvarrow (Anchorage)		1
Takutea		Nil			
			Total		18,378

Total area of the Cook Islands, excluding Niue, is about 93 sq. miles (241 sq. km). Rarotonga is 20 miles in circumference; Atiu, 20 miles; Aitutaki, 14½ miles.

In 1962, 871 live births, 156 deaths and 123 marriages were registered.

The Minister of Island Territories, a member of the Executive Council of New Zealand, is charged with the administration.

The Cook Islands Amendment Act 1957 replaced the Legislative Council with an official majority by a Legislative Assembly with an elected majority. The Assembly is empowered to appropriate and authorize the expenditure of all revenues derived in the Cook Islands. In July 1962 the Legislative Assembly rejected the New Zealand offer of independence and instead voted for full internal self-government.

Laws governing the whole of the Cook Islands are made by Act of the Parliament of New Zealand or by Orders in Council and regulations issued thereunder. Ordinances applicable to the whole of the Cook Islands may be made by the Legislative Assembly of the Cook Islands, while other ordinances, restricted in their application to the islands where they are made, may be made by local island councils. Both classes of ordinances require the assent of the Resident Commissioner, or they may be reserved for the signification of the Governor-General's pleasure. The Resident Commissioner in Rarotonga and the Resident Agents in the outer islands are the Presidents of the respective island councils, which consist in each case partly of *ex-officio* members (officials and the Arikis or leading chiefs) and partly of elected members. General elections are held in every third year, and all Cook Island Maoris being British subjects of or over the age of 18 years are entitled to vote.

Resident Commissioner: A. O. Dare.

All Cook Islanders receive free medical and surgical treatment in their villages, the hospital and the tuberculosis sanatorium. Cook Island Maori patients in the hospital and the sanatorium and all schoolchildren receive free dental treatment. Twenty-two elementary and secondary government schools are established in the various islands. There are also 6 Roman Catholic missionary schools and a Seventh Day Adventist mission school. Secondary education is provided for by 2 government and 2 mission schools on Rarotonga. The instruction given in government schools is similar to that of the New Zealand state schools, but with a special syllabus suited to the requirements of the people. Regular instruction is given in the Maori language in all classes, while during the first 2 years all instruction is in the vernacular, English being taught only as a subject. Numbers of pupils on the rolls (31 March 1963): Government schools, 4,384; Roman Catholic, 418; Seventh Day Adventist, 40.

Revenue is derived chiefly from customs duties which follow the New Zealand customs tariff, income tax and stamp sales, and for the financial year 1962-63 amounted to £530,493 (excluding grants from New Zealand of

£736,900, mainly for medical and educational purposes); expenditure, £1,091,588. Imports during 1962 were valued at £937,273, and exports at £716,653. Chief exports were citrus fruits (£118,864), fruit juice (£187,070), manufactured goods (apparel) £171,928, copra (£51,350), mother-of-pearl shell (£39,033) and tomatoes (£50,106). Wireless stations are maintained at all the permanently inhabited islands; passenger and mail air services are maintained by a fortnightly service to Aitutaki Island.

Niue Island is one of the Cook Islands, but has been under separate administration since 1903. There is a Resident Commissioner and an Island Council, and legislative measures apply as in the case of the Cook Islands. Distance from Auckland, New Zealand, 1,343 miles; from Rarotonga, 580 miles. Area, 100 sq. miles; circumference, 40 miles; height above sea-level, 220 ft. Population at 30 June 1963 was 4,999. During 1962 live births registered numbered 220, deaths 28 and marriages 38. Revenue, 1962-63, £181,206 (excluding grants from New Zealand, £272,000); expenditure, £505,925. Exports, 1962, £30,753; imports, £183,875. There were 9 government schools with 1,295 pupils in 1962. There is a wireless station at Alofi, the port of the island. Telephones in use at 31 March 1963 numbered 102. The most important products of the island are copra, kumaras and bananas.

Resident Commissioner: L. A. Shanks.

Tokelau Islands. Situated some 300 miles to the north of Western Samoa between 8° and 10° S. lat., and between 171° and 173° W. long., are the 3 atoll islands of Atafu, Nukunono and Fakaofu of the Tokelau (Union) group. Formerly part of the Gilbert and Ellice Islands Colony, the group was transferred to the jurisdiction of New Zealand on 11 Feb. 1926, the administration being carried out by the High Commissioner of Western Samoa. By legislation enacted in 1948, the Tokelau Islands were declared part of New Zealand as from 1 Jan. 1949. The area of the group is 4 sq. miles; the population at 31 Dec. 1961 was 1,960.

Ross Dependency. By Imperial Order in Council, dated 30 July 1923, the territories between 160° E. long. and 150° W. long. and south of 60° S. lat. were brought within the jurisdiction of the New Zealand Government. The region was named the Ross Dependency. From time to time laws for the Dependency have been made by regulations promulgated by the Governor-General of New Zealand.

The mainland area is estimated at 160,000 sq. miles and is completely ice-covered. In Jan. 1957 a New Zealand expedition under Sir Edmund Hillary established a base in the Dependency. In Jan. 1958 Sir Edmund Hillary and 4 other New Zealanders reached the South Pole. Survey parties explored and mapped a large part of the Dependency in 1957-59. On 15 April 1958 the Government set up the Ross Dependency Research Committee to co-ordinate and supervise New Zealand activity beyond the conclusion of the International Geophysical Year. Occupation and exploration of the Territory have continued since.

The territorial waters with their large number of whales are regularly visited by factory whaling ships. Whaling operations within the Ross

Dependency require a licence (annual fee, £200); in addition the Government receives a royalty of 2s. 6d. per barrel (40 gallons) of whale oil.

STATISTICAL INFORMATION. The statistical office for New Zealand is the Department of Statistics (Wellington, C1). *Government Statistician:* J. V. T. Baker, MA, MCom, FRANZ, DPA.

The beginning of a statistical service may be seen in the early 'Blue books' prepared annually from 1840 onwards under the direction of the Colonial Secretary, and designed primarily for the information of the Colonial Office in England. In 1848 New Zealand was divided into two provinces, the province of New Munster being particularly active in the statistical field. Most of the later 10 provinces carried out some form of statistical activity, although there was a general lack of uniformity. A permanent statistical authority was created in 1858. It was originally associated with the Registrar-General of Births, Deaths and Marriages, but with the passage of years the association of the statistical branch with the registration branch became only nominal. By the Census and Statistics Act, 1910, the title of Government Statistician was given to the head of the statistical branch, and in 1915 the 'Census and Statistics Office' replaced the former 'Government Statistician's Office'. From 1858 to 1931 the statistical office was under the political control of the Minister of Internal Affairs; in 1931 it came under the Minister of Industries and Commerce and from 1 April 1936 it was accorded full departmental status under the Minister in charge of Census and Statistics. The Statistics Act, 1955, repealed the former legislation under which the Department operated and now provides the legislative authority for all departmental activities as from 1 Jan. 1956, changing at the same time the title to 'The Department of Statistics'.

The oldest publications consist of (a) census results from 1858 onwards and (b) annual volumes of statistics (first published 1858 but covering years back to 1853). Main current publications:

INDIA

BHARAT

CONSTITUTION. On 26 Jan. 1950 India became a sovereign democratic republic. India's relations with the British Commonwealth of Nations were defined at the London conference of Prime Ministers on 27 April 1949. Unanimous agreement was reached to the effect that the Republic of India remains a full member of the Commonwealth and accepts the Queen as 'the symbol of the free association of its independent member nations and, as such, the head of the Commonwealth'. This agreement was ratified by the Constituent Assembly of India on 17 May 1949.

The constitution was passed by the Constituent Assembly on 26 Nov. 1949 and came into force on 26 Jan. 1950. It has since been amended 16 times.

India is a Union of States and comprises 16 States and 9 Union territories. Each State is administered by a Governor appointed by the President for a term of 5 years while each Union territory is administered by the President through an administrator appointed by him.

Presidency. The head of the Union is the President in whom all executive power is vested, to be exercised on the advice of ministers responsible to Parliament. He is elected by an electoral college consisting of all the elected members of Parliament and of the various state legislative assemblies. He holds office for 5 years and is eligible for re-election. He can be removed from office by impeachment for violation of the constitution. There is also a Vice-President who is *ex-officio* chairman of the Upper House of Parliament.

Central Legislature. The Parliament for the Union consists of the President, the Council of States (*Rajya Sabha*) and the House of the People (*Lok Sabha*). The Council of States, or the Upper House, consists of not more than 250 members; in 1964 there were 224 elected members and 12 members nominated by the President. The election to this house is indirect; the representatives of each state are elected by the elected members of the Legislative Assembly of that State. The Council of States is a permanent body not liable to dissolution, but one-third of the members retire every second year. The House of the People, or the Lower House, consists of not more than 500 members, directly elected on the basis of adult suffrage from territorial constituencies in the States, and not more than 25 members to represent the Union territories, chosen in such manner as Parliament may by law provide; in 1964 there were 500 elected members and 10 members nominated by the President.

The House of the People unless sooner dissolved continues for a period of 5 years from the date appointed for its first meeting.

States Legislature. For every State there is a legislature which consists of the Governor, and (a) 2 Houses in the States of Andhra Pradesh, Bihar, Jammu and Kashmir, Madras, Madhya Pradesh, Maharashtra, Mysore, Punjab, Uttar Pradesh and West Bengal, and (b) 1 House in the other States. Every Legislative Assembly, unless sooner dissolved, continues for 5 years from the date appointed for its first meeting. Every State Legislative Council is a permanent body and is not subject to dissolution.

Legislation. The various subjects of legislation are enumerated in three lists in the seventh schedule to the constitution, List I, the Union List,

consists of 97 subjects including defence, foreign affairs, communications, currency and coinage, banking and customs with respect to which the Union Parliament has exclusive power to make laws; the state legislature has exclusive power to make laws with respect to the 66 subjects in list II, the State List—these include police and public order, agriculture and irrigation, education, public health and local government; the powers to make laws with respect to the 47 subjects (including economic and social planning; legal questions and labour and price control) in list III (Concurrent List) are held by both Union and State governments, though the former prevails. But Parliament may legislate with respect to any subject in the State List under certain circumstances when the subject assumes national importance or during emergencies.

Other provisions deal with the administrative relations between the Union and the states, interstate trade and commerce, distribution of revenues between the states and the Union, official language, etc.

Fundamental Rights. Two chapters of the constitution deal with fundamental rights and 'Directive Principles of State Policy'. 'Untouchability' is abolished, and its practice in any form is punishable. The fundamental rights can be enforced through the ordinary courts of law and through the Supreme Court of the Union. The directive principles cannot be enforced through the courts of law; they are nevertheless fundamental in the governance of the country.

Citizenship. Citizenship is granted by virtue of birth within the Indian Union, descent from Indian parents or residence for a period of 5 years preceding the coming into force of the constitution. Special provision is made for migrants from Pakistan and for Indians residing abroad. These provisions have been supplemented by the Citizenship Act, 1955. The right to vote is granted to every person who is a citizen of India and who is not less than 21 years of age on a fixed date and is not otherwise disqualified.

Parliament. Parliament and the state legislatures are organized according to the following schedule:

Language. The constitution provides that the official language of the Union shall be Hindi in the Devanagari script, provided that English shall continue to be used for all official purposes until 1965. But the Official Languages Act 1963 states that English may continue to be used for such purposes after 1965 and that the position shall be reviewed further in 1975. The following 14 languages are included in the Eighth Schedule to the Constitution: Assamese, Bengali, Gujarati, Hindi, Kannada, Kashmiri, Malayalam, Marathi, Oriya, Punjabi, Sanskrit, Tamil, Teluga, Urdu.

The 1951 census listed 845 languages or dialects (including 63 non-Indian), Hindi or Urdu being spoken by about 45% of the population.

GOVERNMENT

President of the Republic: Dr Sarvepalli Radhakrishnan (elected 13 May 1962).

Vice-President: Dr Zakir Hussain (elected 6 May 1962).

There is a Council of Ministers to aid and advise the President of the Republic in the exercise of his functions; this comprises Ministers who are members of the Cabinet, Ministers of State who are not members of the Cabinet but who hold Cabinet rank, and Deputy Ministers. A Minister who for any period of 6 consecutive months is not a member of either House of Parliament ceases to be a Minister at the expiration of that period.

The salary of each Minister is Rs 27,000 per annum, and that of each Deputy Minister is Rs 21,000 per annum. Each Minister is entitled to the free use of a furnished residence throughout his term of office. At the administrative head of each Ministry is a Secretary of the Government.

Following is the composition of the Cabinet and the portfolios as on 29 Feb. 1964:

Prime Minister, External Affairs, Atomic Energy: Jawaharlal Nehru.

Minister without portfolio: Lal Bahadur Shastri.

Finance: T. T. Krishnamachari.

Home Affairs: Gulzarilal Nanda.

Railways: H. C. Dasappa.

Defence: Y. B. Chavan.

Food and Agriculture: Swaran Singh.

Law: Asoke Kumar Sen.

Education: M. C. Chagla.

Steel, Mines and Heavy Industries: C. Subramanian.

Petroleum and Chemicals: Humayun Kabir.

Parliamentary Affairs, Information and Broadcasting: Satya Narayan Sinha.

Labour and Employment: D. Sanjivayya.

There are also 17 Ministers of State and 21 Deputy Ministers.

LOCAL GOVERNMENT. There were in 1960, 20 municipal corporations, 1,356 municipal committees and boards and 472 small town committees. The municipal bodies have the care of the roads, water supply, drainage, sanitation, medical relief, vaccination and education, particularly primary education; they impose taxes, enact bye-laws and spend money, with the sanction of the State government. All municipal committees and boards are elected on the principle of adult franchise.

For rural areas there were, in 1960, 209 district and other local boards. These are also elected on the principle of adult suffrage. Their principal function is to provide for primary and secondary education, to construct and maintain roads, other than highways, and to manage public health. But district boards are being superseded by a 3-tier system of panchayats at village, block and district level. By 31 March 1962, about 194,000 village panchayats had been established covering about 500,000 villages with a population of about 270m.; the whole of the rural population was covered by village panchayats in Andhra Pradesh, Assam, Jammu and Kashmir, Mysore, Punjab, Rajasthan, Uttar Pradesh, Delhi and Himachal Pradesh, while over 90% was covered in Bihar, Gujarat, Kerala, Madras, Maharashtra and Orissa. Elected by the entire adult population, village panchayats are responsible for civic amenities, sanitation, provision of medical facilities and management of community assets.

AREA AND POPULATION. The area of the Indian Union is 1,262,275 sq. miles (3,268,692 sq. km). Its population according to the 1961 census was 439,235,082 (including Sikkim but excluding the Pakistan-occupied area of Jammu and Kashmir); this represents an increase of 21.5% since 1951. Sex ratio was 941 females per 1,000 males (947 in 1951); density of population, 373 per sq. mile (287 in 1951). Mid-1962 estimate, 450m.

Vital statistics based on registrations, 1960: Birth rate, 22.5 per 1,000 population (1959, 23.2); death rate, 10.4 (9.1); infant mortality (incomplete area coverage), 91 per 1,000 live births (92). But many births and deaths go unregistered. Data from certain areas of better registration and field studies suggest that the 1960 birth rate was about 40 per 1,000 population, the death rate 16.18 per 1,000 population and infant mortality 125-140 per 1,000 live births.

Marriages and divorces are not registered. The minimum age for a civil marriage is 18 for women and 21 for men; for a sacramental marriage, 14 for girls and 18 for youths.

The leading details of census of 1 March 1951 and of 1 March 1961 are:

RELIGION. The principal religions in 1961 (census) were: Hindus, 366,502,000; Sikhs, 7,845,000; Jains, 2,027,000; Buddhists, 3.25m. (180,767 in 1951); Moslems, 46,939,000; Christians, 10,726,000.

The Church of South India was inaugurated in 1947 by the union of the Methodist Church and the South India United Church (Presbyterian and Congregationalist) with the Church of India (Anglican) dioceses of Madras, Travancore, Tinnevely and Dornakal; it had (1961) about 1.2m. members.

EDUCATION. *Literacy.* According to the 1961 census the literacy percentage in the country (excluding age-group, 0-5) was 24 (16.6 in 1951), of which the figure for men was 34.4 (24.9) and for women 12.9 (7.9).

Educational Organization. In the states the general control over education rests ultimately with the state Minister of Education: he is responsible to the legislature, of which he himself is an elected member. Certain forms of technical education are under the technical departments concerned and come within the purview of the Minister in charge of those departments. In the union territories education is under the direct control of the central government. The authority of the Government is in part delegated to universities, boards of secondary and/or intermediate education, local bodies (district boards, municipal boards, cantonment boards, etc.), and some philanthropic and religious societies and organizations.

The central Ministry of Education co-ordinates facilities and standards with the aid of the University Grants Commission, and of All-India Councils for primary, secondary and technical education. It has more direct responsibility for basic education, and education and scholarships for scheduled castes and tribes. It administers education in the union territories and also controls 4 universities (Aligarh, Banaras, Delhi and Visva-Bharati), 18 public schools, including the Lawrence schools at Sanawar and Lovedale, and institutions of national importance such as the Delhi Polytechnic, Central Institute of Education (Delhi) and the Indian Institute of Technology (Kharagpur).

School Education. The school system in India can be divided into four stages: pre-primary, primary, middle and high. The latter two combined together constitute the secondary stage.

There are as yet not many pre-primary schools in India.

The education at the primary stage is imparted either at independent primary (or junior basic) schools or primary classes attached to middle or high schools. The period of instruction in this stage varies from 4 to 6 years and the medium of instruction is the mother tongue of the child or the regional language. Legislation for compulsory primary education has been passed in Andhra Pradesh, Gujarat, Madhya Pradesh, Mysore, Punjab and Delhi.

The period for the middle stage varies from 2 to 4 years and instruction is given in middle classes of high schools or middle schools, the latter having, generally, primary classes attached to them. At this stage English is taught as an optional subject.

The high-school stage extends from 2 to 4 years. Education is given in higher classes of high schools, which have middle or primary (or both) departments attached. English is taught as a compulsory subject. The medium of instruction, which was previously English, is being gradually replaced by the regional language.

There are, in addition, schools for professional subjects such as teachers' training, engineering, technology, medicine, agriculture, etc., and special schools for students of the fine arts, and for adult education generally, and for the physically and mentally handicapped, etc.

Higher Education. Higher education is given in arts, science or professional colleges, universities and all-India educational or research institutions. In 17 universities the sole medium of instruction is English; in almost all others it is English and Hindi or English and the mother-tongue.

The University Grants Committee has 9 members. Its duties include advising the central and state governments on the allocation of grants, on the establishment of new universities, and on the expansion of existing ones. During 1959-60 grants totalling Rs 7,32,11,892 were paid by the UGC to universities.

Approximately 7,396 Indian students were studying abroad in 31 countries on 1 Jan. 1958; of this number, 3,850 were in the UK and 2,648 in the USA.

Technical Education. The number of institutions awarding degrees in engineering and technology in 1961 was 111 (in 1947, 38), and those awarding diplomas in engineering and technology numbered 210 (in 1947: 53); the former are able to admit about 15,500, the latter about 27,500, students. For the training of high-grade engineers and technologists 4 Indian Institutes of Technology have been established; at Kharagpur in 1951, at Bombay in 1958, at Madras in 1959 and at Kanpur in 1960.

Cinemas in 1956 numbered 3,500 with seating capacity of over 2m. and an annual attendance of nearly 600m.

Broadcasting. There were (1962) 29 radio stations in India; on 31 Oct. 1961, 2,245,548 receiver licences were in force. An experimental television service was started at Delhi, 15 Sept. 1959.

JUSTICE. All courts form a single hierarchy, with the Supreme Court at the head, which constitutes the highest court of appeal. Immediately below it are the high courts and subordinate courts in each state. Every court in this chain, subject to the usual pecuniary and local limits, administers the whole law of the country, whether made by Parliament or by the state legislatures.

The Supreme Court of India is the highest court in respect of constitutional matters. The states of Andhra Pradesh, Assam, Bihar, Gujarat, Jammu and Kashmir, Kerala, Madhya Pradesh, Madras, Maharashtra, Mysore, Orissa, Punjab, Rajasthan, Uttar Pradesh and West Bengal have each a High Court. There are Courts of Judicial Commissioners, which are in status equivalent to High Courts, in the Union Territories of Himachal Pradesh, Manipur and Tripura. For Delhi the High Court of Punjab, for the Andaman and Nicobar Islands the Calcutta High Court, and for the Laccadive, Minicoy and Aminidivi Islands the High Court of Kerala are the highest judicial authorities. Below the High Court each state is divided into a number of districts under the jurisdiction of district judges who preside over civil courts and courts of sessions. There are a number of judicial authorities subordinate to the district civil courts. On the criminal side magistrates of various classes act under the general supervision of the district magistrate.

The separation of the judiciary from the executive (Art. 50 of the Constitution) has been enforced in Andhra Pradesh, Gujarat, Kerala, Madras,

Maharashtra, Mysore, West Bengal and in some districts of Punjab, Bihar, Orissa and Uttar Pradesh.

Police. Sanctioned strength of police in 1960: Andhra, 41,440; Assam, 16,518; Bihar, 31,814; Jammu and Kashmir, 5,245; Gujarat, 30,133; Kerala, 13,296; Madhya Pradesh, 40,270; Madras, 29,926; Maharashtra, 61,599; Orissa, 14,084; Mysore, 24,503; Punjab, 31,462; Rajasthan, 32,784; Uttar Pradesh, 62,808; West Bengal, 48,841; Himachal Pradesh, 2,390; Delhi, 11,531; Manipur, 1,554; Tripura, 1,919; Andaman and Nicobar Islands, 780; Pondicherry, 640; Naga Hills-Tuensang Area, 473; total, 504,016.

FINANCE. Revenue and expenditure (on revenue account) of the central government¹ for years ending 31 March, in lakhs of rupees:

	1959	1960	1961	1962	1963 ^a	1964 ^a
Revenue	757,89	870,43	971,67	1,079,11	1,500,25	1,851,63
Expenditure	763,14	827,88	920,42	1,045,15	1,522,31	1,852,40

¹ Under the Constitution (Part XII and 7th Schedule), the power to raise funds has been divided between the central government and the states. By and large, the sources of revenue are mutually exclusive. Certain taxes are levied by the Union for the sake of uniformity and distributed to the states. The Finance Commission (Art. 280 of the Constitution) advises the President on the distribution of the taxes which are distributable between the centre and the states, and on the principles on which grants should be made out of Union revenues to the states. The main sources of central revenue are: customs duties; those excise duties levied by the central government; corporation, income and wealth taxes; estate and succession duties on non-agricultural assets and property, and revenues from the railways and Posts and Telegraphs. The main heads of revenue in the states are: taxes and duties levied by the state governments (including land revenues and agricultural income tax); civil administration and civil works; state undertakings; taxes shared with the centre; and grants received from the centre.

DEFENCE. The Supreme Command of the Armed Forces vests in the President of the Indian Republic. Policy is decided at different levels by a number of committees, including the Defence Committee of the Cabinet presided over by the Prime Minister and the Defence Minister's Committee. Administrative and operational control rests in the respective Service Headquarters, under the control of the Ministry of Defence.

The Ministry of Defence is the central agency for formulating defence policy and for co-ordinating the work of the three services. Among the organizations directly administered by the Ministry are the Research and Development Organization, the Production Organization, the National Defence College, the Defence Services Staff College, the National Cadet Corps and the Directorate-General of Armed Forces Medical Services.

The Research and Development Organization (headed by the Scientific Adviser to the Minister) has under it about 30 research establishments. The Production Organization controls 5 public-sector limited companies (Hindustan Aircraft, Bharat Electronics, Aeronautics (India), Mazagon Dock and Garden Reach Workshops), the Aircraft Manufacturing Depot and 24 ordnance factories at which value of production, 1962-63, amounted to Rs 58 crores.

The National Defence College, New Delhi, was established in 1960 on the pattern of the Imperial Defence College (UK): the 1-year course is for officers of the rank of brigadier or equivalent and for senior civil servants. The Defence Services Staff College, Wellington, trains officers of the three Services for higher command for staff appointments. There is an Armed Forces Medical College at Poona.

The National Defence Academy, Khadakvasla, gives a 3-year basic training course to officer cadets of the three Services prior to advanced training at the respective Service establishments.

The Defence budget estimates for 1963-64 totalled Rs 867 crores, divided:

as follows: Army, Navy and Air Force, 690; non-effective, 118; capital outlay, 59. Revised estimates, 1962-63, totalled Rs 505 crores.

ARMY. The Army Headquarters functioning directly under the Chief of the Army Staff is divided into the following main branches: General Staff Branch; Adjutant-General's Branch; Quartermaster-General's Branch; Master-General of Ordnance Branch; Engineer-in-Chief's Branch; Military Secretary's Branch.

The Army is organized into 4 commands—eastern, central, western and southern—each divided into areas, which in turn are subdivided into sub-areas.

Recruitment of permanent commissioned officers is through the Indian Military Academy, Dehra Dun. It conducts courses for ex-National Defence Academy, National Cadet Corps and direct-entry cadets, and for serving personnel and technical graduates.

The Territorial Army came into being in Sept. 1949, its role being to: (1) relieve the regular Army of static duties and, if required, support civil power; (2) provide coastal defence and anti-aircraft units, and (3) if and when called upon, provide units for the regular Army. The Territorial Army is composed of practically all arms of the Services, viz., artillery, engineers (including railways and ports), signals (including P. and T.), infantry, medical and electrical and mechanical engineers, comprising provincial units recruited from rural areas and urban units from large towns.

In the Lok Sahayak Sena (formerly known as the National Volunteer Force) about 607,000 have been given elementary military training (1955-61), without any liability for military service.

NAVY. Since 26 Jan. 1950 the Royal Indian Navy, which traced its history in an unbroken line from the foundation in 1613 of the East India Company's Marine, has been known as 'Indian Navy', and the ships referred to as 'INS' instead of 'HMIS'.

Principal ships of the Indian Navy:

Completed	Name	Standard displacement Tons	Armour		Principal armament	Shaft horse-power	Speed Knots
			Belts in.	Turrets in.			
<i>Aircraft Carrier</i>							
1961	Vikrant (ex-Hercules)	16,000	—	—	Light AA	40,000	24.5
<i>Cruisers</i>							
1940	Mysore (ex-Nigeria)	8,700	3-4½	2	9 6-in.; 8 4-in.	72,500	31.5
1933	Delhi (ex-Achilles)	7,114	2-4	1	6 6-in.; 8 4-in.	72,000	32

In Jan. 1957 the unfinished aircraft-carrier *Hercules* was acquired from the Government of the UK, large-scale reconstruction and modernization being carried out in Belfast. She was commissioned on 4 March 1961 and renamed *Vikrant*.

The cruiser *Mysore* (ex-HMS *Nigeria*) was purchased from Great Britain in 1957.

The fleet also includes 3 destroyers (*Rajput* [ex-HMS *Rotheram*], *Rana* [ex-HMS *Raider*], *Ranjit* [ex-HMS *Redoubt*]), 2 new anti-submarine frigates, 3 new smaller anti-submarine frigates, 3 new anti-aircraft frigates (all 8 completed in Great Britain, 1958-60), 6 frigates (including 3 'Hunt' class small escort destroyers acquired from Great Britain, 1953), 4 new coastal

minesweepers acquired from Great Britain in 1956, 2 new inshore minesweepers acquired from Great Britain in 1955, 9 seaward defence boats, 4 motor launches, a tank landing ship and a tank landing craft, an ocean tug, 4 surveying vessels, a repair ship and 3 small oilers.

At the naval base at Cochin, the Fleet Requirement Unit of the Naval Aviation Station, INAS *Garuda*, has been developed. At present this unit is equipped with Firefly target tugs and Vampire aircraft which work with the ships and training schools of the Navy. Sea Hawk fighters and Alizé anti-submarine aircraft have also been acquired for the aircraft carrier.

Naval personnel comprises 1,450 officers and 14,550 ratings.

AIR FORCE. The Indian Air Force Act was passed in 1932, and the first flight was formed in 1933.

The Air Headquarters, under the Chief of Air Staff, consists of 4 main branches, viz., Air Staff, Administration, Policy and Plans, and Maintenance. Units of the IAF are organized into 5 commands—Eastern, Western, Central, Training, Maintenance; the last-named has responsibility for units in areas bordering China, Burma and East Pakistan.

Equipment includes Hawker Hunter Mk 56, GAM Dassault Mystère IVA and Folland Gnat fighters (about 14 squadrons); obsolescent Dassault Ouragan and de Havilland Vampire FB9 fighter-bombers; English Electric Canberra B(1)8 and B(1)58 bombers (8 squadrons) and Canberra PR57 photo-reconnaissance aircraft (1 squadron); Fairchild C-119G, Douglas C-47, Antonov An-12, Ilyushin Il-14, Vickers Viscount 723 and 730, de Havilland DHC-3 Otter, DHC-4 Caribou and Dove transport aircraft; Hunter, Vampire, Percival Prentice, North American Texan and Hindustan HT-2 training aircraft. Avro 748s are being manufactured in India as replacements for C-47s; preparations are being made for the manufacture in India under licence of MiG-21 fighters and Sud-Aviation Alouette III helicopters. The indigenous Hindustan HF-24 fighter and HJT-16 trainer may come into service in 1966.

Elementary flying training is provided at the IAF Flying College, Jodhpur, and advanced flying training at the IAF Station, Hyderabad. The IAF Technical College, Jalahalli, imparts technical training, while the IAF Administrative College, Coimbatore, trains officers of the ground duty branch. There are also land-air warfare, flying instructors' and medical schools.

Strength of the Air Force in 1963 was about 28,000 officers and men and 25 operational squadrons. The Auxiliary Air Force had 7 squadrons.

PRODUCTION. Agriculture. The chief industry of India has always been agriculture. About 70% of the people are dependent on the land for their living. The 1951 census showed that out of a total rural population of 295m., 249m. were engaged in agriculture and, of these, about 49m. (or about 20%) were returned as cultivating labourers and their dependants. The 1956-57 Agricultural Labour Enquiry estimated the number of agricultural labour households at 16.3m. comprising about 71.7m. individuals; about 57% were landless; average income per household was Rs 447 per annum.

Agricultural commodities account for 45-50% by value of Indian exports, while agricultural commodities, machinery and fertilizers account for about 25-30% of imports.

The following table shows, in 1,000 acres, according to states and territories, the net area, and the classification of areas of India that were in 1956-57 cultivated and uncultivated, and the areas under forests and irrigation:

State or Territory	Total geographical area according to Surveyor-General of India	Net area according to village papers for which returns exist	Forests	Net area irrigated	Cultivated		Uncultivated

An increase in food production of at least 2% per annum is necessary to keep pace with the rising population. In the first Five-Year Plan (1950-51 to 1955-56) agriculture was given a more dominant part than industry and this, plus a series of good monsoons, produced a satisfactory increase in production. In the second Five-Year Plan (1955-56 to 1960-61) less stress was laid on agricultural expansion, and import of foodstuffs was increased, though largely paid for by foreign aid. Even so, during the decade 1951-61 the rate of growth of agricultural production was ahead of the rate of growth of population; while population increased 21.5%, agricultural production increased by 39.1% (foodgrains by 35%, non-foodgrains by 47.3%). In the third Five-Year Plan (1961-62 to 1965-66) a production target of 100m. tons of foodgrains has been set; this represents an increase of 26% over the 79m.-ton foodgrain harvest of 1960-61. There was no significant increase in agricultural production in the first 2 years of the third Plan.

The Indian Council for Agricultural Research, established in 1929 and attached to the Ministry of Food and Agriculture, co-ordinates agricultural research and education in the Union. The more important central research institutes are the Indian Agricultural Research Institute (New Delhi), the Indian Veterinary Research Institute (Izatnagar), the National Dairy Research Institute (Karnal), the Central Rice Institute (Cutback), the Indian Forest Research Institute and College (Dehra Dun), the Central Marine Fisheries Research Station (Mandapam) and the Rubber Research Institute (Kottayam). Besides, there are 9 Central Commodity Committees which carry on research and development on cotton, wheat, lac, jute, sugarcane, tobacco, oilseeds, coconuts and arecanuts. The directorate of economics and statistics under the Ministry of Food and Agriculture is responsible for various statistical publications, including a monthly journal, *Agricultural Situation in India*.

Land Tenure. There are three main systems of land tenure: *ryotwari* tenure, where the individual holders, usually peasant proprietors, are responsible for the payment of land revenues; *zamindari* tenure, where one or more persons own large estates and are responsible for payment (in this system there may be a number of intermediary holders); and *mahalwari* tenure, where village communities jointly hold an estate and are jointly and severally responsible for payment.

Agrarian reform, initiated in the First Five-Year Plan, being undertaken by the state governments includes: (1) The abolition of intermediaries under *zamindari* tenure. Formerly the *zamindari* system prevailed in about 43% of the country, but by 1958 it had been abolished, usually in favour of *ryotwari* tenure, in all except about 5%. The total amount payable in compensation had been estimated at Rs 640 crores, payable in cash in some states and in transferable bonds in others; up to 31 Dec. 1961 about Rs 216 crores had been paid. (2) Tenancy legislation designed to scale down rents to $\frac{1}{4}$ - $\frac{1}{2}$ of the value of the produce, to give permanent rights to tenants (subject to the landlord's right to resume a minimum holding for his personal cultivation), and to enable tenants to acquire ownership of their holdings (subject to the landlord's right of resumption for personal cultivation) on payment of compensation over a number of years. (3) Fixation of ceilings on existing holdings and on future acquisition, following a census of land holdings. Ceilings vary widely in different states according to local conditions; e.g., on existing holdings, 22 $\frac{1}{2}$ acres in Jammu and Kashmir, 50 acres in the plains of Assam, 18-270 acres in the Telangana area of Andhra Pradesh and the Hyderabad area of Mysore and 25 acres in West Bengal.

(4) The consolidation of holdings in community project areas (29.3m. acres had been consolidated by 31 March 1961, mainly in the Punjab, Madhya Pradesh and Uttar Pradesh) and the prevention of fragmentation of holdings by reform of inheritance laws. (5) Promotion of farming by co-operative village management; at 30 June 1961 there were 6,325 co-operative farming societies.

Further changes in the traditional forms of land tenure are being made by the *Bhoodan* movement, which began in 1951 and which seeks voluntary donation of one-sixth of owner's land for distribution among the landless; by 31 Dec. 1961, 4,177,572 acres had been donated, of which 868,737 acres had been distributed. This has now widened into the *Grandan* movement, whose object is the donation of entire villages so that the land may belong to the village community as a whole; by Dec. 1961, 4,643 villages had been donated.

Agricultural Production. The total cropped area in 1960-61 was 343.6m. acres. The following table shows the estimated total acreage (in 1,000) under the chief crops and the estimated production in tons (in 1,000):

One of the most important industries connected with agriculture is the tea industry, the average number of persons employed daily being 923,459 in 1958; by value tea accounts for about 25% of all India's exports; in 1961, 58% of the production was exported. The area under tea (in 1,000 acres), 1959-60, and production, 1960 (in 1m. lb.) were as follows: Assam, 396 (347.41); West Bengal, 203 (179.37); Kerala, 98 (84.15); Madras, 80 (82.37); total (including other states and territories), 813 (706.37). Estimated production, 1962, 343,800 kg.

The production of coffee (1958-59) was 93.03m. lb. (Mysore, 68.5m. lb.) from 225,791 plucked acres (Mysore, 157,981). Production, 1960-61, was 44,850 tons.

Production of natural rubber (1959) was 52.4m. lb. (Kerala, 47.6m. lb.) from 176,366 tapped acres (Kerala, 165,889 tapped acres). Production, 1962, was 27,392 tons.

Annual production of wool in India is estimated at 72m. lb.

Livestock, census 1961: Cattle, 175.7m.; buffaloes, 51.1m.; sheep, 40.3m.; goats, 60.8m.; horses, 1.4m.; poultry, 116.9m.; compared with 155m. cattle, 39m. sheep, 47m. goats, 1.5m. horses and 73.5m. poultry in 1951.

Opium. By international agreement the poppy is cultivated under licence, and all raw opium is sold to the central government. Opium, other than

for wholly medical use, is available only to registered addicts, of whom there were about 432,000 in 1958. Production, 1957-58:

	Area (hectares)	Licensed cultivators	Raw opium (kg)
Uttar Pradesh	7,530	39,632	156,613
Madhya Pradesh	11,185	37,118	301,905

Forestry. The lands under the control of the state forest departments are classified as 'reserved forests' (forests intended to be permanently maintained for the supply of timber, etc., or for the protection of water supply, etc.), 'protected forests' and 'unclassified' forest land. The following table shows the extent of these areas (in sq. miles) in 1957-58, the production of timber therefrom (in 1,000 cu. ft) and its value (in Rs lakhs):

¹ Includes unclassified forests.

² Includes timber, round wood, pulp and match wood, fire-wood and charcoal-wood, but excludes minor forest products, such as bamboos, gums and resins, etc., the total of which was valued at Rs 8,40-15 lakhs.

³ Inclusive of Pakistan held area.

Of the total area under forests, 1957-58 (274,411 sq. miles) 214,886 sq. miles were classified as merchantable and 59,528 sq. miles as inaccessible. By composition of timber the area was as follows: Coniferous, 10,041 sq. miles; sal, 38,756 sq. miles; teak, 19,205 sq. miles; miscellaneous hard wood, 206,409 sq. miles.

Irrigation. The net area of 60·2m. acres (1960-61) under irrigation exceeds that of any other country except China, and equals about 18% of the total area under cultivation. The length of canals is about 67,000 miles. Irrigation projects have formed an important part of all three Five-Year Plans. Between 1950-51 and 1959-60 the total irrigated area increased by about 7·4m. acres.

Industries. The most important indigenous industry, after agriculture, is the weaving of cotton cloths. Other important indigenous industries are silk-rearing and weaving, shawl and carpet weaving, wood-carving and metal-working.

Indian government industrial policy aims to further a socialist pattern of society. Railways, air transport, armaments and atomic energy are government monopolies. In a number of industries (including the manufacture of iron and steel and mineral oils, shipbuilding and the mining of coal, iron and manganese ores, gypsum, gold and diamond) new units are set up only by the state. In a further group of industries (road transport, manufacture of chemicals such as drugs, dyestuffs, plastics and fertilizers) the state establishes new undertakings, but private enterprise may develop either on its own or with state backing, which may take the form of loans or purchase of equity capital. Under the Industries (Development and Regulation) Act, 1951 as amended, industrial undertakings are required to be licensed; 162 industries are within the scope of the Act. The Government are authorized to examine the working of any undertaking, to issue directions to it and to take over its control if this be deemed necessary. A Central Advisory Council has been set up consisting of representatives of industry, labour, consumers and primary producers, and 16 Development Councils have been instituted for individual industries.

In 1958 India had 8,052 factories (employing 20 or more workers and using power) registered under the Factories Act, 1948. Of these 6,617 (82%) employed 1,820,539 persons (including 1,599,901 workers), who earned Rs 2,68.1 crores; value added by manufacture, Rs 4,90 crores. Details of those factories which made returns for the *Census of Manufacturing Industries, 1958*, are as follows:

Class of industry	No. of factories	No. of workers	Wages, etc. (Rs lakhs)	Value added by manufacture (Rs lakhs)

With regard to cotton spinning and weaving, the number of spindles in 480 mills on 1 Jan. 1962 was 13.8m. and of looms, about 200,000. The production of yarn in 1962 (provisional) was 1,893m. lb. and of cloth, 4,938m. yd. In 1958 the jute industry had a total of 72,365 looms. Production, 1961, was 970,000 metric tons.

Companies. The total number of companies at work in India on 31 March 1963 was 25,429; aggregate paid-up capital was Rs 2,071 crores. There were 6,022 public limited companies with an aggregate paid-up capital of Rs 1,006.6 crores, and 19,407 private limited companies (Rs 1,064.4 crores).

During 1962-63, 1,497 new companies were registered with a total authorized capital of Rs 258 crores; 227 were public limited companies (Rs 176 crores) and 1,497 were private limited companies (Rs 82 crores). Of the new companies, 87 had an authorized capital of Rs 1 crores and above, and 60 of between Rs 50 lakhs and Rs 1 crore; 8 were government companies (*i.e.* companies in which Government owns at least 51% of share capital) with total authorized capital of Rs 20.5 crores.

On 31 March 1963 there were 160 government companies at work with a total paid-up capital of Rs 744.7 crores; 45 were public limited companies (Rs 33 crores) and 117 were private limited companies (Rs 711.7 crores).

On 31 March 1963, 581 companies incorporated elsewhere were reported to have a place of business in India; of these 390 were of UK and 72 of USA origin.

Co-operative Movement. On 30 June 1961 there were in the Indian Union 332,488 co-operative societies of all types with a membership of 35,194,000, and working capital of 1,312 crores. There were 21 state co-operative banks; these advanced loans of Rs 258 crores during the year 1960-61. The central co-operative banks (including banking unions) numbered 390, with a membership of 387,696; total advances were Rs 354.38 crores, and working capital Rs 304 crores. The number of agricultural primary credit societies (which constitute the base of the co-operative credit structure of the country) was 212,129, with a membership of 17,041,000 and a working capital of Rs 273.9 crores. Non-agricultural primary credit societies numbered 11,995, with a membership of 4,573,000 and a working capital of Rs 150.1 crores. There were 18 central land mortgage banks (membership, 274,000; working capital, Rs 47.60 crores) and 463 primary land mortgage banks, the majority of which were in Mysore, Andhra Pradesh and Madras (membership, 669,000; working capital, Rs 27 crores).

Following the recommendations (1954) of a committee appointed by the Reserve Bank of India, the co-operative movement was extended from its chief function of providing credit to include marketing, processing, warehousing, etc. On 31 June 1961 non-credit societies included 3,108 primary marketing societies, 9,172 primary sugar-cane supply societies and 66 sugar factories, 11,947 primary weavers' societies, 6,325 farming societies, 2,355 fisheries societies, 128 cotton ginning and pressing societies and 21 spinning mills; there were 7,058 primary consumers' stores and 6,451 housing societies.

The position in the states, 30 June 1961, was as follows:

State	No. of societies	Membership of primary societies	Total working capital (Rs crores)
Andhra Pradesh	26,719	3,335,974	130.67

Roads. There were in India on 31 March 1961, excluding urban roads, about 147,000 miles of surfaced and 294,000 miles of unsurfaced roads maintained at public expense. Roads are divided into 5 main administrative classes, namely, national and state highways, major district roads, district roads and village roads. The national highways (14,800 miles) connect capitals of states, major ports and foreign highways, and constitute the main arteries of communication in the country. The state highways are the main trunk roads of the states, while the principal district roads connect subsidiary areas of production and markets with distribution centres, and form the main link between headquarters of neighbouring districts.

There were (31 March 1961) about 675,221 motor vehicles in India, comprising 259,994 private cars, 31,538 jeeps, 90,128 motor cycles, 6,293 auto-rickshaws, 21,979 taxis, 57,049 other public service vehicles, 171,045 goods vehicles and 37,197 miscellaneous vehicles.

Post. On 31 March 1962 there were 52,521 permanent and 29,702 experimental post offices and 11,896 telegraph offices (including licensed offices). The department at the end of the year was maintaining 267,549 km of line, including cables, and 4,547,603 km of wire, including cable conductors.

The telephone system is in the hands of the Indian Posts and Telegraphs Department. On 31 March 1962 there were 8,805 telephone exchanges (including private and private branch exchanges) and 521,000 telephones. One licensed telephone company owned 17 exchanges with 3,656 telephones.

Wireless receiver licences on 31 March 1962 numbered 2,748,296.

Aviation. The air transport industry in India was nationalized in 1953 with the formation of two Air Corporations: Air India International for operating long-distance international air services, and Indian Airlines Corporation for operating air services within India and to adjacent countries, viz., Burma, Ceylon, Nepal, Pakistan and Afghanistan. Air India International maintains a daily service to Europe and the UK, with halts at Damascus, Beirut or Cairo; other scheduled flights are made to East Africa (Nairobi via Karachi and Aden), Indonesia and Australia (Sydney, via Singapore, Djakarta and Darwin), the Far East (Tokyo, via Bangkok and Hong Kong) and the USSR (Moscow, via Tashkent). Super Constellation aircraft are in use on these services. Boeing 707s fly non-stop Bombay-London (5 times a week) and Bombay-New York (twice a week). Viscount, Skymaster, Heron and Dakota aircraft are flown by Indian Airlines Corporation.

In 1962 (estimate) Indian aircraft flew 44.9m. km on scheduled services, carrying about 1,027,000 passengers and 44.7m. kg of cargo and mail. On non-scheduled services 9.18m. km were flown, 105,000 passengers and 38.1m. kg of freight were carried.

The Civil Aviation Department maintains and operates 82 aerodromes, including the 3 international airports at Bombay (Santa Cruz), Calcutta (Dum Dum) and Delhi (Palam).

On 31 Dec. 1962, 205 aircraft held current certificates of airworthiness.

MONEY. The monetary unit is the Indian *rupee*, the sterling equivalent of which is 1s. 6d. In 1955 the Government of India decided to adopt the decimal system of coinage. Under the Indian Coinage (Amendment) Act, 1955, which became effective 1 April 1957, the rupee is divided into 100 *naye paise* (instead of 16 *annas*, 64 *pice* or 192 *pies*), the decimal coins being 1, 2, 5, 10, 25 and 50 *naye paise* and rupee.

The paper currency consists of (1) Reserve Bank-notes in denominations of Rs 2, 5, 10, 100, 1,000, 5,000 and 10,000; and (2) Government of India currency notes of denominations of Re 1 (issued in 1917), Rs 2½, 5, 10, 20, 50 and 100. Re 1 notes of a different type, issued since 1940, are deemed to be included in the expression 'rupee coin' for purposes of the Reserve Bank of India Act, 1934. Bank and Government notes bearing the king's effigy and other earlier issues have ceased to be legal tender, 28 Oct. 1957, except at the issue department of the Reserve Bank, government treasuries and sub-treasuries, and agency branches of the State Bank of India and its subsidiaries.

According to the published accounts of the Reserve Bank of India, the total value of India notes in circulation on 4 Oct. 1963 was Rs 2,220,69 lakhs, and that of foreign securities held in the issue department Rs 92,46 lakhs.

Value of pure nickel, cupro-nickel, nickel-brass and bronze money minted at the Alipore, Hyderabad and Bombay Mints (year ended 31 March): 1958, Rs 3,57,74,249; 1959, Rs 3,33,40,300; 1960, Rs 3,96,92,700; 1961, Rs 5,62,89,100; 1962, Rs 8,79,60,720; 1963, Rs 10,58,67,000.

100,000 rupees are called 1 lakh and are written thus: Rs 1,00,000; 100 lakhs are called 1 crore and are written thus: Rs 1,00,00,000. A lakh of rupees at the exchange rate of Re 1 = 1s. 6d. is equivalent to £7,500.

BANKING. The Reserve Bank, the central bank for India, was established in 1934 and started functioning on 1 April 1935 as a shareholder's bank; it became a nationalized institution on 1 Jan. 1949. It has the sole right of issuing currency-notes. The Bank acts as adviser to the government on financial problems and is the banker for central and state governments, commercial banks and some other financial institutions. The Bank manages the rupee public debt of central and state governments. It is the custodian of the country's exchange reserve and supervises repatriation of export proceeds and payments for imports. The Bank gives short-term loans to state governments and scheduled banks and short- and medium-term loans to state co-operative banks and industrial finance institutions. The Bank has extensive powers of regulation of the banking system, directly under the Banking Companies Act, 1949, and indirectly by the use of variations in bank rate, variation in reserve ratios and open market operations. Bank rate has been 4½% since 3 Jan. 1963. Borrowings at bank rate are allowed up to a specified quota and at 6% in excess thereof up to a further limit: Borrowings beyond this limit are subject to discussion between the Reserve Bank and the bank concerned, and such excess borrow-

ings, when allowed, are charged a higher rate of interest. The net profit of the Reserve Bank of India for the year ended 30 June 1963 amounted to Rs 44.5 crores.

The commercial banking system consisted of 79 scheduled banks (*i.e.*, banks which are included in the 2nd schedule to the Reserve Bank Act) and 210 non-scheduled banks on 31 March 1963; total number of offices was 5,280. Total deposits in commercial banks, 31 March 1963, stood at Rs 2,079 crores; in post office savings banks, at Rs 351 crores. The business of non-scheduled banks forms less than 2% of commercial bank business. Of the 79 scheduled banks, 14 are foreign banks which specialize in financing foreign trade but also compete for domestic business. The largest scheduled bank is the State Bank of India, constituted by nationalizing the Imperial Bank of India in 1955. The State Bank acts as the agent of the Reserve Bank and the subsidiaries of the State Bank act as the agents of the State Bank for transacting government business as well as undertaking commercial functions.

WEIGHTS AND MEASURES. Metric weights and measures are now legally standard throughout the country.

A complete change to the metric system by 1966 was envisaged by the Standards of Weights and Measures Act, 1956; in trade and commerce it was completed by 1963. Standardization of industrial equipment, measuring instruments, etc., is in progress.

For weights previously in legal use under the Standards of Weight Act, 1956, see THE STATESMAN'S YEAR-BOOK, 1961, p. 171.

Calendar. The dates of the Saka era (named after the north Indian dynasty of the first century A.D.) are being used alongside Gregorian dates in issues of the *Gazette of India*, news broadcasts by All-India Radio and government-issued calendars, from 22 March 1957, a date which corresponds with the first day of the year 1879 in the Saka era.

STATES AND TERRITORIES

The Republic of India (31 March 1964) is composed of the following 16 States and 9 centrally-administered Union Territories:

<i>States</i>	<i>Capital</i>	<i>States</i>	<i>Capital</i>
Andhra Pradesh	Hyderabad	Maharashtra	Bombay
Assam	Shillong	Mysore	Bangalore
Bihar	Patna	Nagaland	Kohima
Gujarat	Ahmedabad	Orissa	Bhubaneswar
Jammu and Kashmir	Srinagar	Punjab	Chandigarh
Kerala	Trivandrum	Rajasthan	Jaipur
Madhya Pradesh	Bhopal	Uttar Pradesh	Lucknow
Madras	Madras	West Bengal	Calcutta

Union Territories

Andaman and Nicobar Islands; Dadra and Nagar Haveli; Delhi; Goa, Daman and Diu; Himachal Pradesh; Laccadive, Minicoy and Amindivi Islands; Manipur; Pondicherry; Tripura.

State Reorganization. The Constitution, which came into force on 26 Jan. 1950, provided for 9 Part A States (Assam, Bombay, Madhya Pradesh, Madras, Orissa, Punjab, Uttar Pradesh and West Bengal) which corresponded to the previous governor's provinces; 7 Part B States (Hyderabad; Madhya Bharat, Mysore, Patalia-East Punjab (PEPSU), Rajasthan, Saurashtra and Travancore-Cochin) which corresponded to Indian states or unions of states; 10 Part C States (Ajmer, Bhopal, Bilaspur, Coorg, Delhi, Himachal Pradesh, Kutch, Manipur, Tripura and Vindhya Pradesh) which corresponded to the chief commissioner's provinces; and 1 Part D Territory (Andaman and Nicobar Islands). Part A States (under governors) and Part B States (under rajpramukhs) had provincial autonomy with a ministry and elected assembly. Part C States (under chief commissioners) were the direct responsibility of the Union government, although Kutch, Manipur and Tripura had legislatures with limited powers. Andhra was formed as a Part A State on its separation from Madras in 1953. Bilaspur was merged with Himachal Pradesh in 1954.

The main features of the States Reorganization Act, 1956, were the abolition of the constitutional distinction between Part A, Part B and Part C States and of the institution of rajpramukhs, and the establishment of two categories for the units of the Indian union to be called States and Territories. The following were the main territorial changes: the Telugu districts of Hyderabad were merged with Andhra; Mysore absorbed the whole Kannada-speaking area (including Coorg, the greater part of 4 districts of Bombay, 3 districts of Hyderabad and 1 district of Madras); Bhopal, Vindhya Pradesh and Madhya Bharat were merged with Madhya Pradesh, which ceded 8 Marathi-speaking districts to Bombay; the new state of Kerala, comprising the majority of Malayalam-speaking peoples, was formed from Travancore-Cochin with a small area from Madras; Patalia-East

Punjab was included in Punjab, Kutch and Saurashtra in Bombay and Ajmer in Rajasthan; Hyderabad ceased to exist.

On 1 May 1960 Bombay State was divided into two parts: 17 districts (including Saurashtra and Kutch) in the north and west became the new state of Gujarat; the remainder was renamed the state of Maharashtra.

In Aug. 1961 the former Portuguese territories of Dadra and Nagar Haveli became a Union territory. The Portuguese territory of Goa and the smaller territories of Daman and Diu, occupied by India in Dec. 1961, were constituted a Union territory in March 1962. In Aug. 1962 the former French territories of Pondicherry, Karikal, Mahé and Yanam were formally transferred to India and became a Union territory. In Sept. 1962 the Naga Hills Tuensang Area was constituted a separate state under the name of Nagaland.

ANDHRA PRADESH

Andhra was constituted a separate state on 1 Oct. 1953, on its partition from Madras, and consisted of the undisputed Telugu-speaking area of that state. To this region was added, on 1 Nov. 1956, the Telengana area of the former Hyderabad State, comprising the districts of Hyderabad, Medak, Nizamabad, Karimnaga, Warangal, Khammam, Nalgonda and Mahbubnagar, parts of the Adilabad district and some taluks of the Raichur, Gulbarga and Bidar districts, and some revenue circles of the Nanded district. On 1 April 1960, 326 sq. miles in the Chingleput and Salem districts of Madras were transferred to Andhra Pradesh in exchange for 405 sq. miles from Chittoor district.

GOVERNMENT AND CONSTITUTION. Andhra Pradesh has a bicameral legislature. The Legislative Council consists of 90 members. The Legislative Assembly has 300 members: Congress, 179; Communist, 56; Swatantra, 19, others 47. A Telengana Regional Committee advises the Government on matters pertaining to that region.

For administrative purposes there are 20 districts in the state. The capital is Hyderabad.

Governor: Gen. S. M. Shrinagesh.

Chief Minister: Dr N. Sanjiva Reddy.

AREA AND POPULATION. The state has an area of 106,286 sq. miles and a population (1961) of 35,98m., an increase of 15.6% since 1951. The principal language is Telugu. Cities with over 100,000 population (1961 census) see p. 392.

EDUCATION. In 1961 about 21% of the population were literate (29.7% males, 11.8% females). There were, in 1961-62, 41,452 recognized educational institutions with 4,157,979 pupils. High schools numbered 1,435 with 642,593 pupils; middle schools, 1,288, with 292,125 pupils; primary and basic schools, 36,690, with 3,064,409.

Osmania University, Hyderabad (founded in 1918), had (1961-62) 10 constituent colleges, 26 affiliated colleges and 21,684 students; Andhra University, Waltair (1926) had (1960-61) 2,585 students in 5 university

colleges and 24,723 students in 42 affiliated colleges; Sri Venkateswara University, Tirupati (1954) had (1961-62) 9,133 students.

JUSTICE. The High Court of Judicature at Hyderabad has a Chief Justice and 17 puisne judges.

FINANCE. The budget estimates for 1963-64 showed total revenue receipts of Rs 11,853.80 lakhs, and expenditure of Rs 11,825.80 lakhs. Receipts included: Sales tax, Rs 5,028.77 lakhs; land revenue (net), Rs 1,513 lakhs; share from central taxes, Rs 1,800.91 lakhs; motor vehicles tax, Rs 371.47 lakhs. Of the expenditure, education took Rs 2,221.17 lakhs; medical and public health, Rs 904.71 lakhs; agriculture, Rs 435.41 lakhs; police, Rs 41.56 lakhs.

Total outlay on the Third Five-Year Plan is estimated at Rs 305 crores.

PRODUCTION. Agriculture. There are 26.6m. acres of cultivable land. Production of principal crops, 1961: Rice, 3.6m. tons; jowar and bajra, 1.6m. tons; sugar-cane (gur), 800,090 tons; groundnuts, 683,320 tons, and tobacco, 111,180 tons; total foodgrains, 8.9m. tons.

Livestock census, 1961: Cattle, 12.28m.; buffaloes, 6.97m.; goats 4.27m.; sheep, 3.37m. Forests occupy about 20% of the total area of the state; value of forest produce, 1959-60, Rs 78.49 lakhs.

Minerals (1962). Production of principal minerals: Manganese, 58,000 tons; mica, 6,000 tons; iron ore, 217,000 tons; limestone, 1,211,000 tons; coal, 2.85m. tons, barites, 36,000 tons; asbestos, 1,000 tons.

Industry. In 1962 Andhra Pradesh had 6,008 factories subject to the Factories Act, 1948. There were 12 textile-mills, 12 sugar-mills and 2 paper-mills. Other industries include cement, tanning and glass. There is an oil refinery at Visakhapatnam, where India's only major shipbuilding yards are situated.

Cottage industry includes the manufacture of carpets, wooden and lacquer toys, brocades, bidriware, filigree and lace-work. The wooden toys of Nirmal and Kondapalli are particularly well known.

Irrigation. The Tungabhadra dam, inaugurated in 1953, has been completed, thus irrigating about 830,000 acres in Andhra Pradesh and Mysore. The Nagarjunasagar project, which incorporates canals and a dam on the Krishna River 100 miles from Hyderabad, will irrigate over 2m. acres.

Power. The total installed capacity of the Machkund hydro-electric project (financed jointly with Orissa) is 114,750 kw.

COMMUNICATIONS. Shipping. The chief port is Visakhapatnam. There are minor ports at Kakinada, Masulipatam, Bheemunipatnam, Narsapur, Krishnapatnam and Calingapatnam.

Rail. In 1961, the route mileage of railway in the state was 4,544, of which, 2,648 miles were broad gauge, 1,858 miles metre gauge and 36 miles narrow gauge.

ASSAM

Assam first became a British Protectorate at the close of the first Burmese War in 1826. In 1832 Cachar was annexed; in 1835 the Jaintia Hills were included in the East India Company's dominions, and in 1839 Upper Assam was annexed to Bengal. In 1874 Assam was detached from Bengal and made a separate chief commissionership. On the partition of Bengal in 1905, it was united to the Eastern Districts of Bengal under a Lieut.-Governor. From 1912 the chief commissionership of Assam was revived, and in 1921 a governorship was created. On the partition of India almost the whole of the predominantly Muslim district of Sylhet was merged with East Bengal (Pakistan). Dewangiri in North Kamrup was ceded to Bhután in 1951. The Naga Hill district, administered by the Union government since 1957, became part of Nagaland in 1962.

GOVERNMENT AND CONSTITUTION. Assam has a unicameral legislature of 105 members. The state of the parties in the Legislative Assembly in Dec. 1963 was: Congress, 79; Praja Socialist, 6; Hill Leaders' Conference, 5; independents, 15.

There are 11 districts (excluding NEFA). The Constitution of India (6th Schedule) makes special provision for the administration of the Hill Districts.

Governor: Visnu Sahay.

Chief Minister: Bimala Prasad Chaliha.

North East Frontier Agency. The NEFA is administered by the Governor of Assam, acting as the agent of the President, through an Advisor whose status corresponds to that of a Commissioner. It includes the Kameng, Tirap, Subansiri, Siang and Lohit Frontier Divisions, has an area of 31,438 sq. miles and an estimated population of 336,558. The integration of the Agency with Assam was agreed upon in March 1963.

AREA AND POPULATION. The area of the state, excluding the NEFA, is 47,091 sq. miles. Its population (excluding the NEFA) was 11,872,772 at the 1961 census, an increase of 34% since 1951. Principal towns with population (1961) are: Shillong (the capital), 102,398 (?); Gauhati, 100,707; Dibrugarh, 58,480; Silchar, 41,062; Nowgong, 38,600.

RELIGION. In 1961, 66.4% of the population were Hindus, 23.3% Mohammedans, 6.4% Christians and 3.9% professed tribal religions.

EDUCATION. The 1961 census showed 27.4% of the population to be literate (males, 37.3%; females, 16%).

The University of Gauhati (established 1948) is both affiliating and teaching. In 1961 it had 1,486 students; its 41 affiliated colleges had 24,200 students.

In 1961, 19,736 schools for general education had 1,556,952 pupils; 103 schools for professional education had 8,558 pupils; 830 schools for special education had 30,006 students.

JUSTICE. The seat of the High Court is Gauhati. It has a Chief Justice and 1 puisne judge.

FINANCE. The budget estimates for 1963-64 showed total revenue receipts of Rs 52,63.60 lakhs. The receipts included: Taxes on income other

than corporation tax, Rs 5,79.50 lakhs; state excise duties, Rs 1,92.93 lakhs; sales tax, Rs 4,25.13 lakhs; land revenue, Rs 4,19.46 lakhs. Total expenditure on revenue account amounted to Rs 50,96.61 lakhs including education, Rs 9,68.01 lakhs; police, Rs 7,50.90 lakhs; medical, Rs 2,51.70 lakhs; public health, Rs 1,79.91 lakhs; agriculture, Rs 2,85.79 lakhs; community development, Rs 2,14.41 lakhs. Revised budget estimates for 1962-63: Receipts, Rs 45,42.70 lakhs; expenditure on revenue account, Rs 47,34.65 lakhs.

PRODUCTION. The cultivation and manufacture of tea is the principal industry in Assam. Agriculture employs about 90% of the population. Sericulture and hand-loom weaving, both silk and cotton, are the most important home industries. There are some coalfields; output in 1961 was 732,856 tons. In 1958 area under tea was 388,549 acres; production amounted to 394,282,519 lb., 56% of India's total; production in 1961 was estimated at 183m. kg.

Jute production in 1961-62 was 1,131,000 bales (of 400 lb.).

Forestry. There are 6,263 sq. miles of reserved forests under the administration of the Forest Department and 12,538 sq. miles of unclassed forests; the latter includes 9,162 sq. miles under the autonomous district councils.

Oil. Assam contains important oilfields. Production at the Digboi oil refinery amounted to 114.5m. gallons in 1958 (1948: 67.8m. gallons); all from local sources. A refinery at Gauhati went into production in Jan. 1962.

COMMUNICATIONS. Lower Assam depends to a considerable extent on water transport. Air transport is increasingly important; daily scheduled flights connect the principal towns with the rest of India. An important road-rail bridge across the Brahmaputra River was completed in 1962.

Roads. In 1961 there were 7,134 miles of road in Assam, of which 738 miles were national highway. Of this total, 1,480 miles were surfaced, 170 metalled, 5,064 gravelled and 1,596 earth. There were also 922 miles of bridle paths.

Rail. The open mileage of railways in 1957 was 1,455 miles, of which 1,093 miles was running track and the rest sidings.

GUJARAT

On 1 May 1960, as a result of the Bombay Reorganization Act, 1960, the state of Gujarat was formed from the north and west (predominantly Gujarati-speaking) portion of Bombay State, the remainder being renamed the state of Maharashtra. Gujarat includes the former states of Saurashtra and Kutch, and consists of the following districts of the former state of Bombay: Banaskantha, Mehsana, Sabarkantha, Ahmedabad, Kaira, Panch Mahals, Baroda, Broach, Surat, Dangs, Amreli, Surendranagar, Rajkot, Jamnagar, Junagadh, Bhavnagar, Kutch and certain parts of Thana and West Khandesh.

GOVERNMENT AND CONSTITUTION. Gujarat has a unicameral legislature, the Legislative Assembly, which has 154 elected members. The state of the parties in the Assembly, 31 Jan. 1963, was: Congress, 113; Swatantra, 24; Praja Socialist, 7; independents, 8; vacant, 2. The Council of Ministers consists of the chief minister and 4 other ministers.

Gujarati and Hindi in the Devanagari script are the official languages of the state.

The capital is Ahmedabad. A new capital is to be built at Gandhinagar, about 15 miles outside Ahmedabad. There are at present 17 districts; Gandhinagar will form an 18th.

Governor: Nawab Mehdi Nawaz Jung.

Chief Minister: Balwantraj Mehta.

AREA AND POPULATION. The area of the state is 72,245 sq. miles and the population at the 1961 census was 20,633,350, an increase of 26.8% since 1951. The chief cities see p. 392.

JAMMU AND KASHMIR¹

The state of Jammu and Kashmir, which had earlier been under Hindu rulers and Moslem sultans, became part of the Mogul Empire under Akbar from 1586. After a period of Afghan rule from 1756, it was annexed to the

¹ About 31,250 sq. miles of Kashmir is occupied by Pakistan (see p. 447).

Sikh kingdom of the Punjab in 1819. In 1820 Ranjit Singh made over the territory of Jammu to Gulab Singh. After the decisive battle of Sobraon in 1846 Kashmir also was made over to Gulab Singh under the Treaty of Amritsar. British supremacy was recognized.

GOVERNMENT. The Maharajah, Sir Hari Singh, acceded to the Dominion of India, 27 Oct. 1947. The persistent dispute between India and Pakistan consequent upon the people being predominantly Moslem was first brought before the United Nations in 1948; India has refused a plebiscite to decide the issue.

The Maharajah's son, Yuvraj Karan Singh, took over as Regent in 1950 and, on the ending of hereditary rule (17 Oct. 1952), was sworn in as Sadri-i-Riyasat. On his father's death (26 April 1961) Yuvraj Karan Singh was recognized as Maharajah by the Indian Government; he decided not to use the title while he was elected head of state.

The permanent Constitution of the state came into force in part on 17 Nov. 1956 and fully on 26 Jan. 1957. There is a bicameral legislature; the Legislative Council has 36 members and the Legislative Assembly has 75. The state of the parties in the Legislative Assembly, 31 Jan. 1963, was: National Conference, 70; Praja Parishad, 3; independent 2. The 6 representatives of Jammu and Kashmir in the central House of the People are appointed by the President of the Union on the recommendation of the state legislature; a petition for direct election was rejected by the Indian Supreme Court, 30 March 1961.

Kashmir Province and Jammu Province each have 4 districts; the frontier district of Ladakh is in the former. Srinagar is the summer and Jammu the winter capital.

Sardar-i-Riyasat: Yuvraj Karan Singh.

Prime Minister: Khwaja Shamsuddin.

AREA AND POPULATION. The area is 86,024 sq. miles; the population of the territory occupied by India, 1961 census, was 3,560,976. The population of Srinagar and Jammu *see* p. 392.

Geographically the state may be divided into: (1) the Tibetan and semi-Tibetan tracts, which contain the districts of Ladakh and Gilgit; (2) the Jhelum valley, within which is situated the lovely and world-famous 'Happy Valley' of Kashmir, and (3) the submontane and semi-mountainous tract which includes the town of Jammu.

RELIGION. The bulk of the population, except in Jammu, are Moslems.

EDUCATION. Education is free throughout the state from primary to university stage. There were 3,439 educational institutions with a total of 272,681 students in 1959-60; the estimated expenditure was about Rs 159.5 lakhs. Primary schools had 132,394 students and higher secondary schools, 75,156 students. The University of Jammu and Kashmir (founded 1948) has 23 affiliated colleges and (1961-62) 6,566 full-time students.

JUSTICE. The High Court, at Srinagar and Jammu, has a Chief Justice and 2 puisne judges. Its status was assimilated to that of the high courts of other states in 1959.

FINANCE. Revised estimate for 1962-63 show receipts of Rs 23,07.33 lakhs (forests, Rs 4,26.50 lakhs; grant-in-aid for the central government, Rs

4,59.20 lakhs) and expenditure on revenue account of Rs 22,83.56 lakhs (education, Rs 2,78.19 lakhs; police, Rs 1,04.21 lakhs). Budget estimates, 1963-64: Receipts, Rs 25,52.46 lakhs; expenditure on revenue account, Rs 23,15.72 lakhs.

PRODUCTION. *Agriculture.* Area and production of principal crops (1960-61): Rice 511,000 acres, 228,000 tons; maize, 534,000 acres, 199,000 tons; wheat, 410,000 acres, 87,000 tons; rape and mustard, 39,000 acres, 10,000 tons; linseed, 26,000 acres, 7,000 tons.

The 1961 livestock census showed 1,831,067 cattle, 401,194 buffaloes, 1,161,248 sheep, 577,415 goats, 64,152 horses and 1,608,422 poultry; tractors numbered 131.

Besides agriculture, the chief industry is sericulture, which dates back to the 16th century.

Forestry. Forests cover about one-eighth of the area of the state, forming an important source of revenue, besides providing employment to a large section of the population.

COMMUNICATIONS. Kashmir is linked with the railway system of India by the motorable Jammu-Pathankot road. The Jawahir Tunnel, through the Banihal mountain, connects the towns of Srinagar and Jammu, and maintains road communication with the Kashmir Valley during the winter months. Total road mileage, 31 March 1960, 6,188, of which 1,240 miles were surfaced.

KERALA

The state of Kerala, created under the States Reorganization Act, 1956, consists of the previous state of Travancore-Cochin, except for 4 taluks of the Trivandrum district and a part of the Shencottah taluk of Quilon district. It took over the Malabar district (apart from the Laccadive and Minicoy Islands) and the Kasaragod taluk of South Kanara (apart from the Amindivi Islands) from Madras State.

CONSTITUTION. The state has a unicameral legislature. Position of the parties in the Legislative Assembly, 30 July 1963: Congress, 66; Communists, 30; Praja Socialist, 16; Muslim League, 11; independents, 3; nominated to represent Anglo-Indians, 1. There were no state elections in Feb. 1962.

The state has 9 districts. The capital is Trivandrum.

Governor: V. V. Giri.

Chief Minister: R. Sankar.

AREA AND POPULATION. The state has an area of 15,002 sq. miles and a population (1961 census) of 16,903,715, an increase of 24.76% since 1951; density of population is 1,127 per sq. mile (highest of any state). Population of principal cities see p. 392.

Languages spoken in the state are Malayalam, Tamil and Kannada.

The physical features of the land fall into three well-marked divisions: (1) the hilly tracts undulating from the Western Ghats in the east and marked

by long spurs, extensive ravines and dense forests; (2) the cultivated plains intersected by numerous rivers and streams; and (3) the coastal belt with dense coconut plantations, rice fields and picturesque backwaters.

EDUCATION. Kerala stands foremost among the Indian States in literacy—46.8% according to the 1961 census (males, 55%; females, 38.9%), twice the national average.

In 1959-60 there were a total of 9,930 educational institutions with a total enrolment of 3,169,280 students; expenditure was Rs 17,08 lakhs. Primary schools had 1,749,694 students and high schools, 635,366 students.

Kerala University (established 1937) at Trivandrum, is affiliating and teaching; in 1962 it had 48 affiliated arts and science colleges and 32 affiliated professional colleges; total enrolment, 1961-62, 49,990 full-time students.

JUSTICE. The High Court at Ernakulam has a Chief Justice and 9 puisne judges; the Kerala High Court is the only one in India with a female judge.

FINANCE. Revised estimates for 1962-63 show a revenue of Rs 66,88.60 lakhs (sales tax, Rs 11,60 lakhs; taxes on income other than corporation tax, Rs 5,64 lakhs; union and state excise duties, Rs 8,68.70 lakhs) and expenditure on revenue account of Rs 65,56.80 lakhs (education, Rs 20,43.50 lakhs; medical and public health, Rs 6,43.05 lakhs; police, Rs 2,85.23 lakhs). Budget estimates, 1963-64: revenue, Rs 71,67 lakhs; expenditure on revenue account, Rs 70,86.78 lakhs.

PRODUCTION. *Agriculture.* The chief agricultural products of the state are rice, tapioca, coconut, arecanut, oilseeds, pepper, sugar-cane, rubber, tea, coffee and cardamom. About 98% of Indian black pepper and about 95% of Indian rubber is produced in Kerala. Area under principal crops (in 1,000 acres): Coconut, 1,237; rice, 1,923; tapioca, 598; pepper, 246; cardamom, 70; ginger, 29; cashew, 134; arecanut, 134; coffee, 41; tea, 92; rubber, 303. Production of rubber (1959), 47.6m. lb.; black pepper (1961-62), 26,550 tons; rice (1961-62), 1,003,793 tons. Livestock (1961 census): Buffaloes, 485,000; other cattle, 2,753,000; sheep, 24,000; goats, 1,312,000.

Fishing is a flourishing industry; the annual catch is about 260,000 metric tons.

Forestry. About a third of the area is comprised of forests, including teak, sandalwood, ebony and black-wood and varieties of softwood.

Mining. Next to Bihar, Kerala possesses the widest variety of economic mineral resources among the Indian States. The beach sands of Kerala contain monazite, ilmenite, rutile, zircon, sillimanite, etc. There are extensive white-clay deposits; other minerals of commercial importance include mica, graphite, limestone, quartz sand and lignite.

Industries. Most of the major industrial concerns are either owned or sponsored by the Government. The Government owns 10 industrial concerns and has substantial shares in more than 40 concerns. Among the privately owned factories are the numerous cashew and coir factories. Other important factory industries are rubber, tea, tiles, oil, textiles, ceramics, fertilizers, and chemicals, sugar, cement, rayon, glass, matches, pencils, monazite,

ilmenite; titanium oxide, rare earths, aluminium, electrical goods, paper, shark-liver oil, etc.

The number of factories registered under the Factories Act 1948 on 31 Dec. 1960 was 2,400; 1,182 of these had average daily employment (1960) of 167,016.

Among the cottage industries, coir-spinning and handloom-weaving are the most important ones, forming the means of livelihood of a large section of the people. Other industries are the village oil industry, ivory carving, furniture-making, bell metal, brass and copper ware, leather goods, screw-pines, mat-making, rattan work, bee-keeping, pottery, etc. These have been organized on a co-operative basis.

COMMUNICATIONS. *Shipping.* Port Cochin, administered by the central government, is one of India's 6 'major' ports.

Roads. In 1960 there were 11,902 miles of road in the state, of which 5,614 miles were metalled; national highways (1958), 276 miles.

MADHYA PRADESH

Under the provisions of the States Reorganization Act, 1956, the State of Madhya Pradesh was formed on 1 Nov. 1956. It consists of the 17 Hindi districts of the previous state of that name, the former state of Madhya Bharat (except the Sunel enclave of Mandsaur district), the former states of Bhopal and Vindhya Pradesh and the Sironj subdivision of Kotah district, which was an enclave of Rajasthan in Madhya Pradesh.

For information on the former states, see *THE STATESMAN'S YEAR-BOOK*, 1958, pp. 180-84.

GOVERNMENT AND CONSTITUTION. Madhya Pradesh is to have a bicameral legislature, but the Legislative Council (to consist of 90 members) has yet to be formed. The Legislative Assembly has 288 elected members. The state of the parties, 31 Jan. 1963, was: Congress, 141; Jan Sangh, 41; Praja Socialist, 33; Socialists, 14; Swatantra, 2; Communist, 1; other parties, 16; independents, 37; vacant, 3.

For administrative purposes the state has been split into 7 divisions with a Commissioner at the head of each; the headquarters of these are located at Bhopal, Bilaspur, Gwalior, Indore, Jabalpur, Raipur and Rewa. There are 43 districts, each under a Collector, 190 tahsils and 150 municipalities.

The seat of government is at Bhopal.

Governor: H. V. Pataskar.

Chief Minister: D. P. Mishra.

AREA AND POPULATION. Madhya Pradesh is the largest Indian state in size with an area of 171,217 sq. miles. In respect of population it ranks seventh. Population (1961 census), 32,372,408 (males, 16.6m. and females, 15.8m.), an increase of 24.3% since 1951. Density of population was 189 per sq. mile.

Cities with over 100,000 population see p. 392.

The number of persons speaking each of the more prevalent languages (1951 census) were: Hindi, 19,965,972; Urdu, 365,969; Marathi, 582,821; Rajasthani, 896,644; Gujrati, 114,000; Sindhi, 128,041.

PRODUCTION. Agriculture. Agriculture is the mainstay of the state's economy, 78% of the population (1951) being dependent upon it. The Malwa region abounds in rich black cotton soil, the low-lying areas of Gwalior, Bundelkhand and Baghelkhand and the Chhatisgarh plains have a lighter sandy soil, while the Narmada valley is formed of deep rich alluvial deposits. Area and production of principal crops, 1960-61: Rice, 10,089,000 acres (3,364,000 tons); jowar, 4,733,000 acres (1,321,000 tons); wheat, 7,481,000 acres (1,926,000 tons); pulses, 9,315,000 acres (1.87m. tons); groundnuts, 1.08m. acres (297,000 tons); linseed, 1,572,000 acres (144,000 tons), and cotton, 1,926,000 acres (454,000 bales of 392 lb.).

Livestock (1961 census): Buffaloes, 5,576,000; other cattle, 24,774,000; sheep, 1,009,000; goats, 5,539,000; horses and ponies, 203,000.

Major irrigation projects include the Chambal Valley scheme (started in 1952) which will irrigate some 1.4m. acres, and the Tawa project in Hoshangabad district (1958) which will irrigate 750,000 acres.

Forestry. Nearly 30% of the state's area is covered by forests. The forests are chiefly of saji, babul, salai, dhavra, tendu, mahua, bamboo, teak, sal, anjan and harra. They are the chief source in India of best-quality teak.

Mining. The state has extensive mineral deposits. Coal, iron ore and manganese are found in the Chhatisgarh Division, bauxite has been located in Amarkantak, Balaghat, Seoni and elsewhere, while in the Sidhi, Rova, Panna, Chhatarpur and Tikamgarh Districts, coal, ochre, sillimanite,

corundum and diamonds are being exploited. In 1956 there were 67 coal-mines, 277 manganese, 97 limestone, 9 china clay, 6 bauxite, 12 steatite, 2 felspar and 3 diamond (producing 95% of India's diamonds). Output of coal in 1958 was 5,390,510 tons.

Industry. Industries include cotton textiles (19 mills (1959), with 12,466 looms and 513,872 spindles; employment, 41,907), newsprint (India's only plant, with a capacity of 30,000 tons, being located at Neapanagar; production, 1959-60, 22,411 tons), sugar refining, pottery, carpets, art-silk, rayon, jute, glass and engineering goods. The country's largest cement works is at Kymore, near Katni; this and two others have a total licensed capacity of 1,127,000 tons per year.

The Bhilai steel plant near Durg is one of the 3 being built by the central government; production, 1961, included 957,100 metric tons of pig-iron and 701,650 metric tons of steel ingots. A new power station at Korba (Bilaspur) with a capacity of 90,000 kw. serves both Bhilai and the Korba coalfield.

Cottage Industries. The state is known for its traditional village and home crafts such as Chanderi Saree, toys, pottery, lac work, woodwork and metal utensils. The ancillary industries of dyeing, calico printing and bleaching are centred in areas of textile production.

COMMUNICATIONS. Total mileage of roads on 31 Oct. 1963 was 25,867, of which 18,634 miles were surfaced. Transport has been partly nationalized.

MADRAS

The first trading establishment made by the British in the Madras State was at Peddapali (now Nizampatam) in 1611 and then at Masulipatam. In 1639 the English were permitted to make a settlement at the place which is now Madras, and Fort St George was founded. By 1801 the whole of the country from the Northern Circars to Cape Comorin (with the exception of certain French and Danish settlements) had been brought under British rule.

Under the provisions of the States Reorganization Act, 1956, the Malabar district (excluding the islands of Laccadive and Minicoy) and the Kasaragod taluk of South Kanara were transferred to the new state of Kerala; the South Kanara district (excluding Kasaragod taluk and the Amindivi Islands) and the Kollegal taluk of the Coimbatore district were transferred to the new state of Mysore; and the Laccadive, Amindivi and Minicoy Islands were constituted a separate Territory. Four taluks of the Travancore district and the Shencottah taluk of Quilon district were transferred from Travancore-Cochin to the new Madras State. On 1 April 1960, 405 sq. miles from the Chittoor district of Andhra Pradesh were transferred to Madras in exchange for 326 sq. miles from the Chingleput and Salem districts.

GOVERNMENT AND CONSTITUTION. The Governor is aided by a Council of 8 ministers. There is a bicameral legislature; the Legislative Council has 63 members and the Legislative Assembly has 207 members. The state of parties in the Assembly, end of 1963, was: Congress, 138; Dravida Munnetra Kazhagam, 51; Swatantra, 6; Forward Bloc, 3; Communist, 2; Socialist, 1; independents, 5; nominated, 1.

There are 13 districts. The capital is Madras.

Governor: Bishnuram Mehdi.

Chief Minister: M. Bhaktavatsalam.

AREA AND POPULATION. Area, 50,331 sq. miles. Population (1961 census), 33,886,953, an increase of 11·85% since 1951. Tamil is the principal language and has been adopted as the state language with effect from 14 Jan. 1958. The principal towns *see* p. 392.

MYSORE

The state of Mysore, constituted under the States Reorganization Act, 1956, brings together the Kannada-speaking people previously distributed in 5 states, and consists of the territories of the old states of Mysore and Coorg, the Bijapur, Kanara and Dharwar districts and the major portion of the Belgaum district in former Bombay, the major portions of the Gulbarga, Raichur and Bidar districts in former Hyderabad, and South Kanara district (apart from the Kasaragod taluk) and the Kollegal taluk of the Coimbatore district in Madras.

GOVERNMENT AND CONSTITUTION. Mysore has a bicameral legislature. The Legislative Council has 63 members. The Legislative Assembly consists of 208 elected members and 1 nominated member. The state of the parties in the Assembly, 15 May 1962, was: Congress, 138; Praja Socialist, 20; Swatantra, 9; Communists, 3; Socialist 1; independents, 37.

For administrative purposes the state has been divided into 4 divisions: Bangalore, Mysore, Belgaum and Gulbarga. There are 19 districts, of which Coorg is now one. The capital is Bangalore.

Governor: H.H. Jaya Chamaraja Wadiyar, GCB, GCSI.

Chief Minister: S. Nijalingappa.

AREA AND POPULATION. The area of the state is 74,210 sq. miles, and its population (1961 census), 23,586,772, an increase of 21.4% since 1951. Kannada is the language of administration and is spoken by about 60% of the people. Other languages include Telugu (15%), Hindustani (7%) and Tamil (7%). Principal cities see p. 392.

EDUCATION. The proportion of literates to the total population, according to the 1961 census, was 25.3% (males, 36%; females, 14.2%). In 1959-60 the state had 33,349 recognized educational institutions. These included 23,643 primary schools attended by 1,165,316 boys and 696,160 girls and 664 higher secondary schools (174,477 boys and 58,830 girls).

The University of Mysore (the first to be founded in the Indian states—1916) at Mysore has 3 university colleges at Mysore, 1 university college at Bangalore and 50 affiliated colleges; total enrolment, 1961-62, was 36,242. Karnatak University (1950) at Dharwar has 2 constituent colleges and 34 affiliated colleges (14,715 students in 1961-62). The Indian Institute of Science, Bangalore, is unaffiliated; it conducts diploma courses in engineering, metallurgy and technology.

JUSTICE. The seat of the High Court of Mysore is at Bangalore. It has a Chief Justice and 9 puisne judges.

FINANCE. The revised estimates for 1962-63 show a total revenue of Rs 94,93.43 lakhs (civil administration, Rs 15,98.52; contributions from the

central government, Rs 18,14.38; taxes on income other than corporation tax, Rs 5,59.74; land revenue (net), Rs 5,15.29; excise duties (union and state), Rs 9,15.66; sales tax, Rs 11,27.62; forests, Rs 8,65.85). Expenditure on revenue account, 1962-63, was Rs 97,69.10 lakhs (education, Rs 17,07.15; civil works, Rs 12,23.45; police, Rs 4,51.75; medical and public health, Rs 39.68). Estimated receipts, 1962-63, Rs 99,70.86 lakhs; expenditure on revenue account, Rs 1,02,93.49 lakhs.

PRODUCTION. Agriculture. Agriculture forms the main occupation of more than three-quarters of the population. Physically, the original Mysore divides itself into two regions—the 'maidan' or plain country, comprising roughly the districts of Bangalore, Tumkur, Chitaldrug, Kolar, Bellary, Mandya and Mysore, and the 'malnad' or hill country, comprising the districts of Chickmagalur, Hassan and Shimoga. Rainfall is heavy in the 'malnad' tracts, and in this area there is dense forest. The greater part of the 'maidan' country is cultivated. Coorg district is essentially agricultural. Total forest area in the state is about 6m. acres, producing sandalwood, bamboo and other timbers. In 1960-61, 17,321,000 acres were under foodgrains (production, 3,490,000 tons, of which one-third was rice); other crops included groundnuts (423,000 tons) and other oilseeds, cotton (375,000 bales of 392 lb.), chillies, tobacco, sugar-cane (380,000 tons, gur), bananas, oranges, tea, coffee (32,800 tons in 1959: 60% of India total) and rubber.

Livestock (1961 census): Buffaloes, 3,022,000; other cattle, 9,659,000; sheep, 4,765,000; goats, 2,905,000; horses and ponies, 46,000.

About 1.9m. acres were irrigated in 1958-59.

Industry. The Mysore Iron and Steel Works are situated at Bhadravarti, while at Bangalore are national undertakings for the manufacture of aircraft, machine tools, light engineering and electronics goods. Other industries include textiles, cement, chemicals, sugar, paper, porcelain and soap. In addition, much of the world's sandalwood is processed in Mysore, the oil being one of the most valuable productions of the state. Sericulture is a most important cottage industry giving employment, directly or indirectly, to perhaps 1m. persons; 185,000 acres were under mulberry in 1960-61.

Mysore has India's only sources of gold; production, 1960, 160,600 oz., about 90% of which came from the Kolar Gold Fields and the remainder from those at Hutti; about 30,000 men are employed in the goldfields. Production of other minerals (1960-61) included iron ore, 1,887,000 tons, and manganese ore, 375,000 metric tons.

COMMUNICATIONS. Roads. In 1960 the state had 27,247 miles of roads, of which 11,175 miles were gravelled and 4,952 miles were metalled.

Rail (1961). There were 1,667 miles of railway (including 96 miles of narrow gauge) in the state.

Shipping. Mangalore and Karwar are being developed into deep-water ports for the export of mineral ores.

NAGALAND

The state was constituted by the Union Government in Sept. 1962. It comprises the former Naga Hills district of Assam and the former Tuensang

Frontier division of the North-East Frontier Tract; these had been made a Centrally Administered Area in 1957, administered by the President through the Governor of Assam. In Jan. 1961 the area was renamed and given the status of a state of the Indian Union, which was officially inaugurated on 1 Dec. 1963.

For some years Naga leaders sought independence. Military operations from 1960 and the prospect of self-government within the Indian Union led to a general reconciliation, but rebel activity continues. A 2-month amnesty in mid-1963 had little effect.

GOVERNMENT AND CONSTITUTION. There is an Interim Body (Legislative Assembly) of 45 members elected by the Naga people and an Executive Council (Council of Ministers) of 5 members from among the members of the Interim Body. The State Assembly, elected in Jan. 1964, has 46 members: 33 Naga People's Convention, 11 Democrats, 2 independents. The 6 members representing the Tuensang district were indirectly elected. The governor has extraordinary powers, which include special responsibility for law and order and for funds made available by the Union Government; he directly administers the Tuensang district. One nominated member represents Nagaland in the Union Parliament.

The state has 3 districts (Kohima, Mokokchung and Tuensang). The capital is Kohima.

Governor: Vishnu Sahay.

Chief Minister: P. Shilu Ao.

AREA AND POPULATION. Nagaland has an area of 6,236 sq. miles and a population (1961 census) of 369,200. Towns include Kohima, Mokokchung, Tuensang and Dimapur. The chief tribes in numerical order are Ao, Konyak, Sema, Angami, Chakhesang, Lotha, Phom, Khiemnungam, Chang, Shamnyungmang and Yimchunger.

RELIGION. The Naga Baptist Christian Convention had, 1960, 632 churches and a total membership of 73,500.

EDUCATION. In 1962 there were 2 colleges, 28 high schools, 110 middle schools, 8 upper primary schools and 565 lower primary schools with a total of 68,962 students; about 500 students were attending institutions outside the state on government stipend and 99 trainees were similarly attending technical schools.

FINANCE. Revised estimates for 1962-63 show revenue receipts of Rs 15.40 lakhs, of which forests accounted for Rs 4.50 lakhs, and expenditure on revenue account of Rs 4.22.42 lakhs (police, Rs 1.45.09 lakhs; general administration, Rs 74.35 lakhs; education, Rs 63.09 lakhs; medical and public health, Rs 35.50). Budget estimates, 1963-64: Revenue receipts, Rs 15.40 lakhs; expenditure on revenue account, Rs 6,05.33.

ORISSA

Orissa, ceded to the Mahrattas by Alivardi Khan in 1751, was conquered by the British in 1803. In 1804 a board of 2 commissioners was appointed

to administer the province, but in the following year it was designated the district of Cuttack and was placed in charge of a collector, judge and magistrate. In 1823 it was split up into 3 regulation districts of Cuttack, Balasora, and Puri, and the non-regulation tributary states which were administered by their own chiefs under the ægis of the British Government. Angul, one of these tributary states, was annexed in 1847, and with the Khondmals, ceded in 1835 by the tributary chief of the Boudh state, constituted a separate non-regulation district. Sambalpur was transferred from the Central Provinces to Orissa in 1905. These districts formed an outlying tract of the Bengal Presidency till 1912, when they were transferred to Bihar, constituting one of its divisions under a commissioner. Orissa was constituted a separate province on 1 April 1936, some portions of the Central Provinces and Madras being transferred to the old Orissa division.

The rulers of 25 Orissa states surrendered all jurisdiction and authority to the Government of India on 1 Jan. 1948, on which date the Provincial Government took over the administration. The administration of 2 states; viz., Saraikella and Kharswan, was transferred to the Government of Bihar in May 1948. By an agreement with the Dominion Government, Mayurbhanj State was finally merged with the province on 1 Jan. 1949. By the States Merger (Governors' Provinces) Order, 1949, the states were completely merged with the state of Orissa on 19 Aug. 1949.

GOVERNMENT AND CONSTITUTION. Following a 3-month period of presidential rule, elections to the unicameral legislature, the Legislative Assembly, were held on 2-8 June 1961. The state of the parties in the Assembly, 31 Jan. 1963, was: Congress, 77; Ganatantra Parishad, 38; Praja Socialist, 11; Communist, 4; independents, 7; vacant, 3.

The state consists of 17 districts, of which 4 are linked with other districts for administrative purposes.

The capital is Bhubaneswar (18 miles south of Cuttack).

Governor: Dr A. N. Khosla.

Chief Minister: Biren Mitra.

AREA AND POPULATION. The area of the state is 60,162 sq. miles, and its population (1961 census), 17,548,846, an increase of 19.9% since 1951. The second-largest city next to Cuttack (*see* p. 392) is Rourkela, with 90,287 inhabitants.

RELIGION. There were in 1961: Hindus (including scheduled castes and scheduled tribes), 17,123,194; Moslems, 215,319; Christians, 201,017; Buddhists, 454; Sikhs, 5,030; Jains, 2,295.

EDUCATION. Utkal University was established in 1943 at Cuttack and moved to Bhubaneswar in 1962; it is both teaching and affiliating. It has 2 university colleges (engineering and law) and 41 affiliated colleges. The total number of full-time students (1961-62) was 15,663.

The total number of recognized schools in 1961-62 was 24,960. The schools for general education included 2,060 secondary schools with 232,364 pupils and 22,856 primary schools with 1,476,000 pupils. The special schools for the students from scheduled tribes numbered 1,266 with a total of 60,000 students in 1961-62.

JUSTICE. The High Court of Judicature at Cuttack has a Chief Justice and 3 puisne judges.

FINANCE. In the revised estimates for 1962-63 the total revenue receipts were estimated at Rs 65,68.71 lakhs. The principal heads of revenue were: Contributions from central government, Rs 22,12.07 lakhs; union and state excise, Rs 8,97.58 lakhs; taxes on income, Rs 3,30.44 lakhs; sales tax, Rs 4,59.13 lakhs; forest, Rs 4,16.63 lakhs. The principal heads of expenditure were: Education, Rs 7,81.15 lakhs; police, Rs 2,75.42 lakhs; civil works, Rs 12,89.63 lakhs; health and medical, Rs 3,60.54 lakhs. Total expenditure on revenue account was estimated at Rs 68,72.09 lakhs. Budget estimates for 1963-64 show a revenue of Rs 67,59.60 lakhs and an expenditure on revenue account of Rs 67,14.88 lakhs.

Total expenditure under the Second Five-Year Plan, 1956-61, was about Rs 86.74 crores (out of a projected outlay of Rs 91.8 crores); that under the Third Five-Year Plan has been fixed at Rs 166.1 crores; expenditure, 1963-64, was estimated at Rs 29.50 crores).

PRODUCTION. Agriculture. The cultivation of rice is the principal occupation of nearly 80% of the population. The area under paddy, 1961-62, was 9,682,000 acres and production amounted to 3.65m. tons; only a very small amount of other cereals is grown; production of pulses (1960-61) amounted to 221,000 tons from 1.25m. acres. Jute, cotton, tobacco and sugar-cane are also grown. Turmeric is cultivated in the uplands of the districts of Ganjam, Phulbani and Koraput, and is exported.

Livestock (1961 census): Buffaloes, 1,075,000; other cattle, 9.81m.; sheep, 994,000; goats, 2,382,000; horses and ponies, 58,000.

Forests occupy about 42% of the area of the state, the most important species being sal.

Fisheries. A large fish export trade to Calcutta is catered for by 8 ice factories. There are 165 fishery co-operative societies.

Mining. Production, 1961-62, included iron ore, 4,710,910 tons; manganese ore, 417,393 tons; coal, 1,036,540 tons; limestone and dolomite, 4,742,157 tons. About 36,000 workers are employed in the mines.

Industry. The steel plant at Rourkela, which is being built by the central government, will have a capacity of 1.8m. tons per annum; 3 blast furnaces and 3 open-hearth furnaces were commissioned, 1959-61; production, 1961, was 438,855 metric tons of pig-iron and 311,905 metric tons of steel ingots.

There are a modern textile-mill, a few weaving-mills, a cement factory, 2 paper-mills, 2 cold storage plants, a few glass factories, a sugar factory, 2 ferro-manganese plants, an aluminium plant, a number of rice-mills, a few oil- and flour-mills and a few soap factories.

There are cottage and small-scale industries in the state, e.g., handloom weaving and the manufacture of baskets, wooden articles, hats and nets; silver filigree works of Orissa are specially well known.

The Hirakud Dam Project on the river Mahanadi (started 1949) will, when completed, irrigate 1.8m. acres and deliver 232,000 kw. of power. The dam (the largest earth dam in the world) was completed in 1957. Hydro-electric power totalling 85,000 kw. is now serving Cuttack, Puri and Dhenkanal districts. The total installed capacity of the Machkund hydro-electric project (financed jointly with Andhra Pradesh) is 114,750 kw.

COMMUNICATIONS. Roads. On 31 Dec. 1962 mileage of roads was: National highway, 852; state highway, 1,343; major district roads, 3,540; other district roads, 1,053; municipal roads, about 700.

Rail. The total mileage of railway in 1963 was 939 miles:

Shipping. Paradip was declared a 'minor' port in 1958 and is being developed to handle 2m. tons of traffic by Oct. 1965. Other ports are at Chandbali and Gopalpur.

PUNJAB (INDIA)

The Punjab was constituted an autonomous province of India in 1937. In 1947 the province was partitioned between India and Pakistan into East and West Punjab respectively, under the Indian Independence Act, 1947, the boundaries being determined under the Radcliffe Award. The name of East Punjab was changed to Punjab (India) under the Constitution of India. On 1 Nov. 1956 the erstwhile states of Punjab and Patiala and East Punjab States Union (PEPSU) were integrated to form the present state of Punjab.

GOVERNMENT AND CONSTITUTION. Punjab (India) has a bicameral legislature. The state of the parties in the Legislative Assembly, Sept. 1963, was: Congress, 106; Akali Dal, 17; Communists, 9; Jan Sangh, 7; Socialists, 4; Swatantra, 2; Progressive Independent, 13.

For the transaction of some specified subjects of government business, the state is divided into 2 regions, Hindi-speaking and Punjabi-speaking. For each there is a Regional Committee of the Assembly consisting of the members for that region, including the ministers, but not the Chief Minister. Advice tendered by the committee is usually accepted by the government and legislature, but reference can be made to the governor, whose decision is final. The committees are also empowered to make proposals concerning 'general policy not involving any financial commitments other than expenditure of routine and incidental character'.

There are 169 municipalities and 6 notified area committees. Village panchayats have been elected for all rural areas; the number of such panchayats, 1963, was 13,466; panchayats at block and district level have been formed. The capital is Chandigarh.

Both Hindi and Punjabi are recognized as the official languages of the state.

Governor: Pattom A. Thanu.

Chief Minister: Sardar Pratrap Singh Kairon.

AREA AND POPULATION. The area of the state is 47,205 sq. miles, with census (1961) population of 20,306,812, an increase of 25.8% since 1951. The largest cities see p. 392.

EDUCATION. The Punjab (India) University was established on 1 Oct. 1947 as an examining, teaching and affiliating body; all teaching departments are at Chandigarh. There are 102 affiliated colleges and 48 professional colleges with (1962-63) 61,372 full-time students. Kurukshetra University, for the study of Sanskrit, established in 1956, had 548 students; in 1962 Punjabi University was established at Patiala and an agricultural university at Ludhiana.

Compulsory education was introduced in April 1961; at the same time free education was introduced up to 8th class for boys and 9th class for girls as well as various fee concessions.

In 1961-62 secondary schools had 819,396 pupils; middle schools, 434,448, and primary schools, 1,376,383.

JUSTICE. The Punjab High Court exercises jurisdiction over the state of Punjab and the territory of Delhi. It is located in Chandigarh and has a circuit bench at Delhi. It consists of a Chief Justice, 10 puisne judges and 6 additional judges; 2 of these judges sit at Delhi throughout the year. In 1961 the number of criminal cases brought to trial in the Punjab was 232,364 and the number of civil suits instituted was 53,917.

FINANCE. Revised estimates for 1962-63 show total receipts of Rs 89,26.72 lakhs (land revenue, Rs 4,67.16 lakhs; union and state excise, Rs 7,67.95 lakhs; taxes on income other than corporation tax, Rs 4,33.27 lakhs, and sales tax, Rs 9,20.43 lakhs). Expenditure, Rs 84,93.64 lakhs. Chief items: Education, Rs 14,03.10 lakhs; police, Rs 7,48.63 lakhs; medical and public health, Rs 3,36.92 lakhs; civil works, etc., Rs 6,62.42 lakhs; irrigation, Rs 5,01.94 lakhs. Budget estimates, 1963-64: Receipts, Rs 95,10.76 lakhs; expenditure on revenue account, Rs 105,34.91 lakhs.

Expenditure on the First and Second Five-Year Plans amounted to Rs 140.92 crores and Rs 150.61 crores respectively; outlay on the Third Five-Year Plan is to be Rs 231.38 crores.

PRODUCTION. *Agriculture.* About 66% of the population depends on agriculture. Agricultural prosperity is mainly due to irrigation. The canal-irrigated area served by Punjab canals rose from 4.94m. acres in 1950-51 to 7.92m. acres in 1962-63; total production of foodgrains rose from 3.48m. tons to 6.63m. tons. Production, 1961-62: Wheat, 2.72m. tons from 5.54m. acres; maize, 656,000 tons (1.3m. acres); rice, 734,000 tons (1,103,000 acres); pulses, 1,783,000 tons (6.76m. acres); sugar-cane (gur), 823,000 tons (670,000 acres); cotton, 954,000 bales (of 392 lb.) (1.5m. acres).

Livestock (1961 census): Buffaloes, 4,425,100; other cattle, 6,057,200; sheep, 9,013,000; goats, 1,220,300; horses and ponies, 74,400; poultry (1962), 1,699,200.

Forestry. On 31 March 1963 there were 4,919 sq. miles of forests under the Punjab Forests Department. The total receipts of the department in 1962-63 amounted to Rs 1,58.10 lakhs and expenditure to Rs 1,62.89 lakhs. Output of major forest produce, 1962-63: Timber, 4.8m. cu. ft and firewood, 10.2m. cu. ft. Value of minor forest produce, 1962-63: Bamboo, Rs 0.78 lakhs; fodder grass, Rs 14.68 lakhs, and gum and resin, Rs 48 lakhs.

Industry. On 31 July 1963 the number of registered factories in the Punjab (India) was 4,238, employing about 160,000 workers. The chief manufactures are textiles, sewing machines, bicycles, paper, scientific instruments, cement, sugar, machine tools and pine oil.

COMMUNICATIONS. *Rail.* The Punjab possesses an extensive system of railway communications, served mostly by the Northern Railway and partly by the Central Railway.

Roads. The total length of metalled roads on 31 March 1963 was 6,824 miles; total length of unmetalled roads was 5,935 miles.

COMMUNICATIONS. Roads. On 31 March 1961 there were 8,263 miles of surfaced and 8,481 miles of unsurfaced roads in Rajasthan; there were 620 miles of national highway. Motor vehicles numbered 33,022.

UTTAR PRADESH

In 1833 the then Bengal Presidency was divided into two parts, one of which became the Presidency of Agra. In 1836 the Agra area was styled the North-West Province and placed under a Lieut.-Governor. The two provinces of Agra and Oudh were placed, in 1877, under one administrator, styled Lieut.-Governor of the North-West Province and Chief Commissioner of Oudh. In 1902 the name was changed to 'United Provinces of Agra and Oudh', under a Lieut.-Governor, and the Lieut.-Governorship was altered to a Governorship in 1921. In 1935 the name was shortened to 'United Provinces'. On Independence, the states of Rampur, Banaras and Tehri-Garwhal were merged with United Provinces. In 1950 the name of the United Provinces was changed to Uttar Pradesh.

UNION TERRITORIES

ANDAMAN AND NICOBAR ISLANDS. The Andaman and Nicobar Islands are administered by the President of the Republic of India acting through a Chief Commissioner and an Advisory Council of 5 members. The seat of administration is at Port Blair, which is connected with Calcutta (780 miles away) and Madras (740 miles) by a mail steamer which calls about every 10 days; there is a twice-weekly air service from Calcutta. There is an Assistant Commissioner at Car Nicobar.

The population (1961 census) was 63,548, excluding aboriginal tribes.

Revised estimates for 1962-63 show total revenue receipts of Rs 1,83.27 lakhs, and total expenditure on revenue account of Rs 2,99.14 lakhs.

Budget estimates, 1963-64: Revenue receipts, Rs 1,81.05 lakhs; expenditure on revenue account, Rs 2,95.34 lakhs.

Chief Commissioner: B. N. Maheshwari.

The Andaman Islands lie in the Bay of Bengal, 120 miles from Cape Negrais in Burma, 780 from Calcutta and 740 from Madras. Five large islands close by grouped together are called the Great Andamans, and to the south is the island of Little Andaman. There are some 204 islets, the two principal groups being the Ritchie Archipelago and the Labyrinth Islands. The total area is about 2,500 sq. miles. The Great Andaman group is about 290 miles long and, at the widest, 32 miles broad. The group, densely wooded, contains many valuable trees, both hardwood and softwood. The best known of the hardwoods is the *padauk* or Andaman redwood; *gurjan* is in great demand for the manufacture of plywood. Large quantities of softwood are supplied to match factories.

The island possess a number of harbours and safe anchorages, notably Port Blair in the south, Port Cornwallis in the north, and Elphinstone and Mayanbandar in the middle.

Japanese forces occupied the Andaman Islands on 23 March 1942. Civil administration of the islands was resumed on 8 Oct. 1945.

From 1858 to March 1942 the islands were used by the Government of India as a penal settlement for life and long-term convicts, but the penal settlement was abolished on re-occupation in Oct. 1945.

The original inhabitants live in the forests by hunting and fishing; they are of a small Negrito type and their civilization is about that of the Stone Age. Their numbers are not known as they avoid all contact with civilization. The total population of the Andaman Islands (excluding the aborigines) was in 1951, 18,939 (12,723 males and 6,216 females). Under a central government scheme started in 1953, some 3,280 displaced families, mostly from East Pakistan, had been settled in the Islands by 1961. In 1955-56, 4,956,000 bd ft of timber-products were produced; value was Rs 50.19 lakhs. Coconut, coffee and rubber are cultivated. The islands are slowly being made self-sufficient in paddy and rice, and now grow approximately half their annual requirements; production, 1960-61, was 6,000 tons from 17,000 acres. On 1 Jan. 1955 there were 8,058 head of cattle and 1,715 goats. There is a saw-mill at Port Blair and a coconut-oil mill at Dunbar Point. There are about 122 miles of metalled road in and around Port Blair.

The Nicobar Islands are situated to the south of the Andamans, 75 miles from Little Andaman. The British formally took possession in 1869. There are 19 islands, 7 uninhabited; total area, 635 sq. miles. The islands are usually divided into 3 groups (southern, central and northern), the chief islands in each being respectively, Great Nicobar, Camotra with Nancowrie and Car Nicobar. There is a fine land-locked harbour between the islands of Camotra and Nancowrie, known as Nancowrie Harbour.

The population numbered, in 1961, about 14,500. The coconut is the main item of trade, and a major item in their diet.

The Nicobar Islands were occupied by the Japanese in July 1942; and Car Nicobar was developed as a big supply base. The Allies reoccupied the islands on 9 Oct. 1945. The Japanese built some roads in Car Nicobar and small jetties at Malacca in Car Nicobar, and in the harbour at Nancowrie.

DADRA AND NAGAR HAVELI. By the 10th amendment to the constitution the Portuguese territories of Dadra and Nagar Haveli (area, 189 sq. miles; population (1962), 57,963) became a centrally administered Union Territory with effect from 11 Aug. 1961. Formerly for administrative purposes a part of Damao (on the south Gujerat coast), they were separated from it by a 16-mile strip of Indian territory. In July 1954 'nationalist volunteers' occupied Dadra and Nagar Haveli and a pro-India administration was formed; this body made a request for incorporation into the Union, 1 June 1961, and has been recognized by the Indian Government as able to exercise an advisory role on the pattern of territorial councils. The Indian Government appointed an Administrator in Oct. 1960.

Revised budget estimates (1962-63) show revenue receipts of Rs 52.20 lakhs and expenditure on revenue account of Rs 13.69 lakhs. Budget estimates (1963-64): Receipts, Rs 17.41 lakhs; expenditure, Rs 14.07 lakhs;

DELHI. Delhi became a Union Territory on 1 Nov. 1956. It is administered by the Union Minister of Home Affairs with the aid of an Advisory Council (of which he is chairman) composed of Delhi MPs, the Mayor, the Vice-Chancellor of Delhi University, the President of the New Delhi Municipal Committee, the Inspector-General of Police and two Advisers (Chairman, Public Relations Committee, and Chairman, Industrial Advisory Board). The senior executive is the Chief Commissioner.

The municipal corporation, instituted 7 April 1958, has 86 members. The Panchayat Raj system has been introduced into the whole of the rural area.

Chief Commissioner: Shri Bhagwan Sahay, ICS.

Area and Population. Delhi has an area of 573 sq. miles and its population (1961 census) was 2,658,612; density per sq. mile, 4,614. In the rural area of Delhi there are 305 villages in 5 community development blocks.

Education. The proportion of literates to the total population was 51% according to the 1961 census (provisional), higher than any other territory or state (national average, 23.7%).

The total number of educational institutions in 1959-60 was 1,287, with an enrolment of 445,399 students and a total expenditure of Rs 8.94 lakhs. Primary schools had 172,406 students and higher secondary schools, 184,005 students.

The University of Delhi was founded in 1922; it has 33 constituent colleges and institutions with, 1961-62, a total of 18,630 students.

Finance. The revised revenue receipts of the territory in 1962-63 were Rs 14.84.58 lakhs and the expenditure on revenue account, Rs 16.07.26 lakhs. The biggest source of revenue was the sales tax, which brought Rs 6.52.52 lakhs; education took Rs 4.80.25 lakhs. Budget estimates, 1963-64: Revenue receipts, Rs 15.36.66 lakhs; expenditure on revenue accounts, Rs 18.68.64 lakhs.

Industry. The modern city of Delhi and New Delhi is not only the largest commercial centre in northern India, but is also an important industrial centre. Since 1947 a large number of industrial concerns have been established; these include factories for the manufacture of watches, razor blades, sports goods and parts for radios, bicycles and station wagons. The number of factories registered under the Factories Act, 1948, was 1,005 in 1960; during the period July-Dec. 1958 average number of workers em-

ployed was 59,280. There are also about 8,000 small-scale industrial and cottage establishments employing about 60,000 workers.

An industrial estate was established at Okhla, 10 miles south of the city, in 1957; it has 35 light engineering factories.

Some traditional handicrafts, for which Delhi was formerly famous, still flourish; among them are ivory carving, miniature painting, gold and silver jewellery and papier mâché work. The handwoven textiles of Delhi were particularly fine; this craft is being successfully revived.

Agriculture. About 365,000 acres are cultivated. Animal husbandry is increasing and mixed farms are common. Chief crops are wheat (29,000 tons from 69,000 acres in 1960-61), jowar and bajra (111,000 tons from 68,000 acres), pulses (21,000 tons from 72,000 acres), sugar-cane (8,000 tons, gur; from 14,000 acres), fruit, vegetables and flowers.

Communications. Delhi is a hub of the country's transport system—3 national highways pass through the city, it is an important rail junction and is served by 2 airports.

There were (1962) 74,826 registered motor vehicles in Delhi including about 2,000 taxis. The city transport service has over 700 buses covering about 60,000 miles daily.

GOA, DAMAN AND DIU. Goa, bounded on the north by Maharashtra and on the east and south by Mysore, has a coastline of 65 miles; the coast was captured for Portugal by Afonso de Albuquerque in 1510 and the inland area was added in the 18th century. Daman (Damão) on the Gujarat coast, 70 miles north of Bombay, was seized by the Portuguese in 1531 and ceded to them (1539) by the Shah of Gujarat. The island of Diu, captured in 1534, lies off the south-east coast of Kathiawar (Gujarat); there is a small coastal area. Indian troops invaded the territories in Dec. 1961, which were incorporated into the Indian Union.

Legislation passed the Indian Parliament in March 1962 by which Goa, Daman and Diu became a Union Territory with retrospective effect from 20 Dec. 1961. Goa is represented by 2 members (nominated) in the Indian House of the People. For judicial purposes the territory comes under the High Court of Bombay. The capital is Panjim (Nova Goa).

State of parties in the Legislative Assembly after the election of 11 Dec. 1963: Maharashtrawadi Gomantak, 14; United Goan Party, 12; Congress, 1; independents, 3.

Chief Minister: Dayanand B. Bhandarkar.

The area of the territory is 1,426 sq. miles, that of Goa itself being about 1,350 sq. miles. Population (1960) 626,978. Panjim (population in 1950, 31,950) is the largest town. The predominant language is Konkali. About 40% of the population is Christian.

Budget estimates, 1962-63: Revenue receipts, Rs 5,01.19 lakhs; expenditure on revenue account, Rs 5,27.71 lakhs.

Mineral resources include iron ore, manganese ore and salt. The principal port is Marmagao.

Lieut.-Governor: Tumkur Sivasankar.

HIMACHAL PRADESH. The Union Territory of Himachal Pradesh lies to the north of Uttar Pradesh and to the east and south of Punjab (India); Tibet is on its eastern boundary. The northern district of Chamba is separated from the rest of the territory by the Kangra district of Punjab.

The territory came into being on 15 April 1948 and comprises 30 former Hill States. The state of Bilaspur was merged with Himachal Pradesh in 1954.

There are 6 districts: Mahasu, Sirmur, Mandi, Chamba, Bilaspur and Kinnaur. The capital is Simla (actually situated in Punjab).

The Legislative Assembly (reconstituted 1 July 1963) has 43 members of whom 2 are nominated. There is a 3-member Cabinet.

Lieut.-Governor: Bhagwan Sahai.

Chief Minister: Y. S. Parmar.

Area and Population. The area of the territory is 10,885 sq. miles and it had a population at the 1961 census of 1,351,144.

Finance. Revised estimates, 1962-63, show total revenue of Rs 4,88.45 lakhs (of which forest revenue was Rs 2,16.33) and expenditure on revenue account of Rs 18,76.99 lakhs. Budget estimates 1963-64: revenue receipts, Rs 5,26 lakhs; expenditure on revenue account, Rs 19,80.86 lakhs.

Production. The main agricultural wealth of the Pradesh consists in potatoes and fruits such as apples, peaches, apricots, nuts, pomegranates.

Seed potato is the chief crop. Livestock (1961 census): Buffaloes, 208,000; other cattle, 1,213,000; sheep, 662,000; goats, 595,000.

Salt is another important item; while forests yield timber, firewood and charcoal. Handicrafts, which include Pashmina shawls, wool of quality, resin, herbs, musk and skins, are a third source of income.

Forestry. Himachal Pradesh forests supply the largest quantities of coniferous timber in northern India. They are the main source of revenue of the Pradesh. The forests also ensure the safety of the catchment areas of the Jumna, Sutlej, Beas, Ravi and Chenab rivers.

LACCADIVE, MINICOY AND AMINDIVI ISLANDS. The territory consists of a group of 19 islands (10 inhabited), about 200 miles off the west of the Malabar coast of Madras. It was constituted a Union Territory in 1956. The total area of the islands is 10.76 sq. miles. The northern portion is called the Amindivis. The remaining islands are called the Laccadives (including Minicoy Islands). The largest island, Minicoy, which is considerably to the south of the other islands, has an area of 1.25 sq. miles. An Advisory Council of 5 members assists in the administration of the islands; it is constituted annually. Population (1961 census), 24,108, nearly all Moslems. The language is Malayalam, but the language in Minicoy is Mahl. There were, 1959-60, 10 primary schools with 3,222 pupils. The staple products are coconut-husk fibre (coir) and coconuts. Headquarters of administration, Kozhikode.

Administrator: M. Ramunni.

MANIPUR. Formerly a state under the political control of the Government of India, Manipur, on 15 Aug. 1947, entered into interim arrangements with the Indian Union and the political agency was abolished. The administration was taken over by the Government of India on 15 Oct. 1949 under a merger agreement, and it is now centrally administered by the Government of India through a Chief Commissioner. The Territorial Council was, on 1 July 1963, replaced by a Legislative Assembly, consisting of 30 elected and 2 nominated members, with a Chief Minister and 2 other Ministers. Capital, Imphal (population, 1961, 67,717).

Chief Commissioner: J. M. N. Raina, IAS.

Chief Minister: M. Koiren Singh.

Area and Population. Manipur has an area of 8,628 sq. miles and a population (1961) of 780,037. The valley, which is about 700 sq. miles, is 2,600 ft above sea-level. The hills rise in places to nearly 10,000 ft, but are mostly about 5,000-6,000 ft. The average annual rainfall is 65 in. The hill areas covering nearly 8,000 sq. miles are inhabited by various hill tribes who constitute about one-third of the total population of the state. There are about 40 tribes and sub-tribes falling into the two main groups of Nagas and Kukis. A large number of dialects are spoken, while Hindi is gradually becoming prevalent.

Finance. Revised estimates for 1962-63 show revenues of Rs 99,89,900 and expenditure on revenue account of Rs 6,03,77,000. Budget estimates, 1963-64: revenue, Rs 94,52,000; expenditure on revenue account, Rs 6,11,69,000.

PONDICHERRY. Formerly the chief French settlement in India, was founded by the French in 1674, taken by the Dutch in 1693, and restored to the French in 1699. The English took it in 1761, restored it in 1765, re-took it in 1778, restored it a second time in 1785, retook it a third time in 1793 and finally restored it to the French in 1814. Administration was transferred to India on 1 Nov. 1954. A Treaty of Cession (together with Karikal, Mahé and Yanaon) was signed on 28 May 1956; instruments of ratification were signed on 16 Aug. 1962 from which date (by the 14th amendment to the Indian constitution) Pondicherry, comprising the four territories, became a Union Territory.

Government. By the Government of Union Territories Act 1963 Pondicherry is governed by an Administrator, appointed by the President, and a Council of Ministers responsible to a Legislative Assembly of 30 members. This body will be elected in Aug. 1964 when the term of the former Representative Assembly expires. The state of the parties in the Assembly (Sept. 1963) was: Congress, 23; People's Front, 10; Praja Socialist, 1; independents, 2.

Chief Commissioner and Administrator: K. J. Somasundram, IAS.

Chief Minister: Eduard Goubert.

Area and Population. The total area of Pondicherry (with Karikal, Mahé and Yanaon) is 186 sq. miles and the population (1961) 369,072; Pondicherry city had 40,421 inhabitants. The principal languages are French and Tamil.

Finance. Revised budget estimates for 1962-63 show revenue receipts of Rs 2,40.62 lakhs and expenditure on revenue account of Rs 3,95.25 lakhs. Budget estimates, 1963-64, provide for revenue receipts of Rs 2,54.07 lakhs and expenditure on revenue account of Rs 3,76.67 lakhs.

Production. The main food crop is rice (36,000 tons in 1959-60); cash crops include groundnut, coconut, gingelly, pepper, chillies and sugar cane. The main industry is cotton textiles (2,116 looms and 84,484 spindles in 1961).

TRIPURA. Under the Constitution of India the state of Tripura became a centrally administered area, the date of the merger being 15 Oct. 1949. With effect from 1 Nov. 1956 Tripura became a Union Territory.

Government. The Government of Union Territories Act 1963 (effective 1 July 1963) appointed as head of government an Administrator assisted by a small Council of Ministers and a Legislative Assembly with 32 members, of whom 2 are nominated. The territory has 1 district, divided into 10 administrative subdivisions, namely, Sadar, Khowai, Kailasahar, Dharmanagar, Sonamura, Udaipur, Belonia, Kamalpur, Sabroom and Amarpur.

The capital is Agartala (population, 1961, 54,878).

Administrator: S. P. Mukherjee, IAS.

Chief Minister: Sachindra Lal Singh.

Area and Population. Tripura is one of the oldest Hindu states in India. It is bounded on the north, west and south by East Pakistan, and on the east by the Lushai Hill Tract of Assam. The major portion of the state is hilly and full of jungles. It has an area of 4,036 sq. miles and a population of 1,142,995 (1961 census).

Finance. Revised estimates 1962-63 show revenue receipts of Rs 60,60,000 and expenditure on revenue amount of Rs 7,28,89,000. Budget estimates 1963-64: Revenue receipts Rs 62,18,000; expenditure on revenue account, Rs 8,29,95,000.

Production. The agricultural wealth of the territory consists of rice, jute, cotton, tea and fruits, while its forests yield timber, firewood and charcoal. Production of rice, 1961-62, 156,000 tons from 432,000 acres.

PROTECTORATE

SIKKIM. Until the transfer of power in India in Aug. 1947, Sikkim was under British paramountcy. Under a treaty, signed in Gangtok on 5 Dec. 1950, Sikkim continues to be a protectorate of the Government of India, which has special responsibility in respect of her defence, external relations and communications. The ruler is His Highness Maharaja Gyalsay Palden Thondup Namgyal, OBE, born 1923, succeeded 2 Dec. 1963.

Government. An Indian civil servant, the Dewan, assists the Maharaja in the administration and Indians are at the head of important departments of government. A State Council, on which 14 out of 20 seats are elective, has a purely advisory role; on this council 6 seats are reserved for Bhutias and Lepchas, 6 for Nepalese, 6 for the Maharaja's nominees and one for the lama. In the 1960 elections the National party (which enjoys royal patronage) won 7 seats, the National Congress (largely supported by the Nepalese), 4 seats and the State Congress, 3 seats. Both Congress parties demand popular rule, the chief obstacle to which is the formulation of safeguards for the Lepcha and Bhutia minorities. In June 1961 citizenship was granted to those who had been resident for 15 years; previously the qualification had been 15 years residence prior to 1951 and possession of landed property. The number of Nepalese eligible to vote has thus been substantially increased.

The capital is Gangtok (population, 1961, 6,848).

The Government of India has a diplomatic representative at Gangtok.

Indian Representative: Avtar Singh.

Dewan of Sikkim: Baleshwar Prasad, IAS.

Area and Population. Area, 2,818 sq. miles (7,298 sq. km). Census population, in 1961, 161,080; about 75% are Nepalese, the remainder Lepchas and Bhutias of Tibetan origin.

Religion. The state religion is Tibetan Buddhism. Nearly 60% of the population are Hindu.

Education. Sikkim has 96 government, 52 government-aided and 11 privately managed schools, besides a basic training college.

Welfare. Four hospitals, 20 dispensaries, a maternity ward, chest clinic and 2 blocks for TB patients are in use. Medical care and hospitalization is free.

Finance. The revenue is Rs 78 crores per year.

Production. Sikkim produces rice, corn and millet, cardamom, oranges, apples and pineapples. Potatoes are a main cash crop. Forests occupy one-third of Sikkim but are largely unexploited. A distillery at Rangpo and a fruit preservation factory at Singtam produce for export.

Communications Sikkim has neither airfields nor railways, but Gangkok is connected to the Indian air terminal and railhead of Siliguru by a motorable road *via* Rangpo; an alternative Rangpo-Gangkok highway, to be open for heavy traffic during the monsoon, was begun in 1961. India is aiding the building of strategic roads such as that between Nathu La and Gangkok and the North Sikkim highway which is opening up the northern areas.

PAKISTAN

CONSTITUTION AND GOVERNMENT. Pakistan, on 23 March 1956, was proclaimed an Islamic republic, after the Constituent Assembly had adopted the draft constitution on 29 Feb. The Republic of Pakistan continues her full membership of the Commonwealth of Nations, accepting the Queen as the symbol of the free association of its independent member nations and, as such, the Head of the Commonwealth.

Pakistan was constituted as a Dominion on 14 Aug. 1947, under the provisions of the Indian Independence Act, 1947, which received the royal assent on 18 July 1947. The Dominion consisted of the following former territories of British India: Baluchistan, East Bengal (including almost the whole of Sylhet, a former district of Assam), North-West Frontier, West Punjab and Sind; and those States which had acceded to Pakistan.

Between one-third and one-half of Kashmir is occupied by Pakistan. This area is known as Azad (Free) Kashmir, and is the northern and western portion of the country. There is a President (K. H. Khurshid) and a nominated council of ministers. The seat of government is Muzaffarabad.

National flag: Dark green with a white vertical bar at the mast, the green portion bearing a white crescent in the centre and a 5-pointed white heraldic star. The white portion is one-quarter of the size of the rectangular flag.

Governors-General of Pakistan: Quaid-I-Azam Mohammed Ali Jinnah (14 Aug. 1947–11 Sept. 1948); Khawaja Nazimuddin (14 Sept. 1948–17 Oct. 1951); took over the premiership after the assassination of Liaquat Ali Khan; Ghulam Mohammad (17 Oct. 1951–6 Aug. 1955); Maj.-Gen. Iskander Mirza (acting from 7 Aug. 1955, elected Provisional President on 5 March 1956).

On 7 Oct. 1958 President Mirza declared martial law in Pakistan, dismissed the central and provincial Governments, abolished all political parties and abrogated the constitution. Gen. Mohammed Ayub Khan, the Army Commander-in-Chief, was appointed as chief martial law administrator.

President: Field Marshal Mohammed Ayub Khan, assumed office on 28 Oct. 1958, after Maj.-Gen. Iskander Mirza had handed all powers to him. His authority was confirmed by a ballot in Feb. 1960 when he received 75,283 votes out of a total of 78,720 'basic democracies' entitled to vote.

On 1 March 1962 President Ayub Khan proclaimed a new constitution. The President is head of both the state and the executive. The legislature consists of a National Assembly of 75 members each from East and West Pakistan, elected by the 80,000 members of the 'basic democracies', and 6 women elected by the provincial assemblies. The provincial assemblies have 150 members each. Elections for the National Assembly were held on 28 April 1962.

The Political Parties Act passed by the National Assembly in July 1962 debars about 125 politicians from seeking election until Dec. 1966.

The central and provincial ministers and the provincial governors are appointed by the President.

The Presidential Cabinet was, in March 1964, composed as follows:

Presidential Secretariat and Defence: Field Marshal Mohammed Ayub Khan.

Law and Parliamentary Affairs: Shaikh Khursid Ahmed. *Finance:* Muhammad Shoaib. *External Affairs and Atomic Energy:* Zulfikar Ali Bhutto. *Agriculture and Works:* Rana Abdul Hamid. *Home and Kashmir Affairs:* Habibullah. *Commerce:* Wahiduzzaman. *Communications:* Abdul Sabur Khan. *Health, Labour and Social Welfare:* A. A. Zaheeruddin. *Education:* A. T. M. Mustapha. *Industries and Natural Resources:* Abdullah Al-Mahmud. *Information and Broadcasting:* Abdul Waheed Khan.

COMMUNICATIONS. *Railways.* Pakistan Railways comprises the North-Western Railway in West Pakistan and the Eastern Bengal Railway in East Pakistan. The North-Western Railway has a route mileage of 5,334 (broad gauge, 4,635 miles; metre gauge, 318 miles, and narrow gauge, 381 miles). The Eastern Bengal Railway has route mileage of 1,712 (broad gauge, 548 miles; metre gauge, 1,145 miles, and narrow gauge, 20 miles).

The second 5-year plan envisages capital expenditure of Rs 650m. for the NW Railway and Rs 310m. for the E. Bengal Railway.

Shipping. There are 3 ports in Pakistan: Karachi, Chittagong and Chalna. During the year 1959-60, Karachi handled 4m. tons; Chittagong, 3.3m. tons, and Chalna, 1.6m. tons.

Roads. In March 1958 Pakistan had 64,374 miles of roads, of which 10,093 were of superior type; of the latter, 8,879 were in West Pakistan. The number of motor vehicles on 31 Dec. 1954 totalled 60,943 (excluding those of the armed forces), including 7,323 motor cycles, 31,901 private cars, 1,537 taxis, 6,232 buses, 11,922 trucks.

Post. Telephones, on 31 Dec. 1961, numbered 89,900, some 30,000 being in Karachi; all are government-owned. The number of post and telegraph offices was 10,165.

Civil Aviation. Karachi is on the main BOAC, KLM, Pan American Airways and Air France services between the UK and India, Singapore and Sydney. Dacca airport, too, can now operate heavy aircraft.

Two Pakistani airlines are operating: Pakistan International Airlines (founded 1953; the majority of shares is held by the Government), and Pakistan Aviation, Ltd, which provides common technical repair facilities for the other airlines and for the Royal Pakistan Air Force.

CURRENCY. The monetary unit is the Pakistani rupee, the sterling equivalent of which, since 30 July 1955, is 1s. 6d. (parity with the Indian rupee). The notes are of Rs 100, 10, 5, 2 and Re 1 denominations and the coins nickel of Rs 1, $\frac{1}{2}$, $\frac{1}{4}$; copper-nickel of annas 2, 1, $\frac{1}{2}$, and bronze of 1 pice ($\frac{1}{4}$ anna). The coins are minted at the government mint at Lahore and the notes are printed at the Security Printing Press in Karachi. Currency in circulation on 30 June 1963 amounted to Rs 4,214m.

The decimal coinage system has been introduced in Pakistan from 1 Jan. 1961. The rupee will remain the basic unit of currency without any change in its present value, but the rupee, which consisted of 64 pice, will consist of 100 pice. The smaller coins to be issued will be half-rupee, quarter-rupee, tenth, twentieth and hundredth of a rupee.

BANKING. A state bank came into operation on 1 July 1948, with an authorized capital of Rs 3 crores. Total deposits at 29 Dec. 1962 amounted to Rs 1,430m.

An Agricultural Development Bank was established in Feb. 1961, by the merger of the Agricultural Development Finance Corporation and the Agricultural Bank of Pakistan, with a paid-up share capital of Rs 100m.

The depositors with the post office savings bank, as at 31 March 1962, had Rs 344.6m. to their credit.

WEIGHTS AND MEASURES. The principal units in all the scales of weights are the maund, seer and tola, and the standard weights for each of these are 82.27 lb., 2.057 lb. and 180 grains troy respectively.

The tola has the same weight as the rupee, viz., 180 grains troy; the standard or railway seer is equal to 2.057 lb., while the standard or railway maund of 40 seers is equivalent to 82 lb. $\frac{3}{4}$ oz. (troy).

The decimal system will be introduced; details are being worked out.

PROVINCES FEDERAL CAPITAL

On 23 July 1948 the city of Karachi, with 566 sq. miles of its surrounding area and the islands of Manora, Bhit, Baba, Bunkor and Shamspir (Sandspit), were taken over by the Pakistan central government. The area is 812 sq. miles; the population (1961), 2,153,000 (1.22 m. male, 930,000 female). In 1962 the federal territory was re-incorporated in West Pakistan.

In 1959-60 there were 387 primary schools (3,315 teachers, 111,320 pupils) and 131 secondary schools (2,237 teachers, 56,355 pupils).

In 1959 it was decided to shift the federal capital from Karachi to an area on the Potwar plateau near Rawalpindi. It will be called 'Islamabad'. The President and the Ministries have their temporary headquarters in Rawalpindi. Dacca is the seat of the National Assembly.

WEST PAKISTAN

West Pakistan comprises the former provinces of the Punjab, the North-West Frontier, Sind and Baluchistan, the states of Bahawalpur and Khairpur, the Baluchistan States Union, the frontier states and the tribal areas of Baluchistan and the north-west. These were merged into a single unit on 14 Oct. 1955.

Area and Population. The area of West Pakistan, including Karachi, is 309,424 sq. miles (801,408 sq. km), with a census population (1961) of 40,815,000 (21,748,000 male, 19,067,000 female). The capital is Lahore.

Governor: Malile Amir Mohammad Khan.

The province is divided into 10 Commissioners' Divisions, as follows:

Divisions	Area (in sq. miles)	Population (in 1,000)	Population per sq. miles
Peshawar	27,536	5,088	184
Dera Ismail Khan	21,261	2,085	98
Rawalpindi	11,855	3,879	327
Lahore	9,119	5,340	586
Multan	16,761	6,953	415
Bahawalpur	32,443	3,205	98
Khairpur	20,449	2,586	126
Hyderabad	35,998	2,342	65
Quetta	35,027	585	14
Kalat	98,975	589	6

The divisions of Lahore, Rawalpindi and Multan are subdivided into 4 districts each; Bahawalpur, Hyderabad and Khairpur into 5 districts each;

Kalat into 4 districts and 2 agencies; Peshawar and Dera Ismail Khan into 4 districts and 3 agencies each; Quetta into 1 district and 3 agencies.

Religion. 97.1% of the population are Moslems, 1.3% Christians, 1.1% Scheduled-caste Hindus and 0.5% Caste Hindus.

Education. In 1959 there were 16,558 primary schools in West Pakistan, with 1,341,541 boys and girls; 1,857 middle schools with 860,643 pupils; 853 high schools with 428,309 students; 107 colleges had 50,942 students. Total expenditure on education in 1962-63 was Rs 276m.

The official language is English; the main languages spoken in the province are Urdu, Sindhi, Punjabi, Pushto and Baluchi.

There were, in 1959, 87 daily and 335 bi-weekly and weekly newspapers.

Finance. The budget for 1962-63 envisaged revenue amounting to Rs 1,159.2m. and expenditure amounting to Rs 1,086.8m. The development budget provides Rs 1,586m., Rs 179m. to agriculture, Rs 276m. to education, Rs 65m. to roads, Rs 27.5m. to railways.

Agriculture. The entire area in the north and west is covered by great mountain ranges. The rest of the province consists of a fertile plain watered by 5 big rivers and their tributaries. Agriculture is the occupation of a vast majority of the population, and is dependent almost entirely on the irrigation system based on these rivers. The main crops are wheat, cotton, barley, sugar-cane, millet, rice, maize and fodder crops, while the Quetta and Kalat divisions (formerly Baluchistan) are known for their fruits and dates.

By 1963, 2.3m. acres of land had been resumed from 6,000 landlords, and 1.25m. acres had been distributed to 74,000 tenants.

Agricultural statistics (1962-63), in 1m. acres and 1m. tons:

Produce	Acreage	Production	Produce	Acreage	Production
Rice	2.8	1.09	Cotton	3.3	0.34
Wheat	11.9	3.91	Bajra	2.1	0.41
Gram	2.7	0.65	Maize	1.1	0.48
Sugar-cane	1.3	18.14	Jowar	1.2	0.24

Livestock (1955 census). 8,665,154 cattle, 5,680,288 buffaloes, 5,773,366 sheep, 4,458,493 goats, 520,668 camels, 432,243 horses, 6.8m. poultry.

Forestry. Forests cover about 5.14m. acres (3% of the land surface).

Mining. Coal is mined at Sharigh and Harnai on the Sind-Pishin railway and in the Bolan pass, also in Sor Range in the Quetta-Pishin district. Chromite is extracted in the Zhob district near Hindubagh. Limestone is quarried in small quantities. Gypsum is mined in the Sibi district near Spintangi railway station. Natural gas has been found at Sui. Iron ore is being worked in Kalabagh.

Irrigation. The Indus water treaty of 1960, concluded between India and Pakistan, has created the basis for a large-scale development programme. The Indus Basin Development Fund Agreement has been subscribed by Australia, Canada, Germany, New Zealand, UK and USA and is administered by the International Bank; the works to be constructed call for expenditure of US\$1,000m. and are scheduled to be completed by 1973. The main purpose of the treaty is the division of the water power of the Indus and its 5 tributaries between India and Pakistan. After the construction of some 460 miles of canals, the Indus and the 2 western tributaries will

serve Pakistan and the entire flow of the 3 eastern tributaries will be released for use in India.

The Lloyd Barrage and Canal Construction Scheme, which consists of a barrage across the river Indus at Sukkur and 7 canals—4 on the left and 3 on the right bank—is designed to provide an assured supply of water to an area of about 1.83m. acres in territory which used to be dependent upon inundation canals. It also brings under irrigation a further area of 3.62m. acres in Sind, the Khaipur state and the Nasirabad tahsil in Balúchistán.

Another barrage across the Indus, 4½ miles north of Kotri, called the Ghulam Muhammad Barrage, was completed in 1955. The fourth and last of the main canals taking off the Ghulam Muhammad Barrage was opened in Sept. 1958. The irrigable area to be served by this scheme will be about 2.75m. acres in the Lower Sind area. In 1958-59 irrigation facilities were extended to about 360,000 acres.

The Taunsa barrage on the Indus, 80 miles downstream of Kalabagh, was completed in 1958. It will eventually irrigate 1.4m. acres in the Muzaffargah and Dera Ghazi Khan districts.

The Gudu barrage, 10 miles from Kashmore, serves 2.6m. acres of the rice-growing tracts north of Sukkur; it was completed in 1962.

The former province of the Punjab set up in 1949 the Thal Development Authority to colonize the Thal desert between the Indus and Jhelum rivers. The project envisages the irrigation of some 2m. acres and the establishment of a balanced economy of agriculture, trade and industry.

Other projects are in varying stages of preparation on the Kurram River, the Upper Jhelum and the Upper and Lower Chenab canals.

The total area dependent on irrigation was 24m. acres in 1961.

Industry. Industry employs about 10% of the population. Woollen and other cottage industries, especially cotton weaving (with 17,000 workers), have made great strides. Annual production of cloth is 20m. sq. yd. Industries recently started include sodium silicate, chocolate, tanning, and paint and varnish factories. The cottage industry produces for export lacquered and embroidered articles and glazed pottery. Large quantities of raw hides and skins, wheat and rice are also exported. The population engaged in the fishing industry is about 39,000.

The cotton industry of West Pakistan had (end of Dec. 1962) an installed capacity of 1,723,000 spindles and 28,000 looms. Eight woollen-mills had an aggregate of 22,760 woollen and 21,832 worsted spindles.

In 1956 West Pakistan had 1,800 registered factories. In March 1955 there were employed 153,601 unskilled, 223,414 skilled and semi-skilled, 39,847 administrative and 18,492 highly trained technical workers.

Co-operative Societies. At the end of 1957 there were 20,907 co-operative societies with a total membership of 973,372 and a working capital of Rs 446.9m. The 11,865 agricultural credit societies formed the most important group (435,320 members, Rs 46.5m.).

Electric Power. The total generating capacity in 1956 was 127,000 kw. A hydro-electric power-station at Malakand supplies the districts of Mardan, Peshawar, Kohat and Hazara. The Warsak and Multan hydro-electric stations meet the most urgent needs of the province. The Gujranwala Hydel project is nearing completion.

Roads. There are approximately 42,000 miles of roads, of which 9,820 were, in 1963, metalled. In 1958 motor vehicles numbered about 30,000.

Railways. See p. 453.

Post. In 1956 there were 4,790 post offices, 600 telegraph offices and 36,372 telephones.

EAST PAKISTAN

East Pakistan comprises the eastern territories of the partitioned province of Bengal and the former Assam district of Sylhet, with the exception of certain thanas of the Karimganj sub-division. East Pakistan is administratively divided into 3 divisions and 17 districts: (1) Dacca Division—the districts of Dacca, Mymensingh, Faridpur and Bakarganj; (2) Chittagong Division—the districts of Chittagong, Tipperah, Noakhali, Chittagong Hill Tracts and Sylhet; (3) Rajshahi Division—the districts of Rajshahi, Dinajpur, Rangpur, Bogra, Pabna, Kushtia, Jessore and Khulna.

Governor: Abdul Monem Khan.

Area and Population. The area is 55,134 sq. miles (142,797 sq. km); population (1961 census), 50,844,000 (26,522,000 male, 24,322,000 female). The capital of the province is Dacca (population, 556,712 in 1961) and its ports are Chittagong and Chalna.

Education. The compulsory primary education scheme has been replaced by model primary education, and the Government has dissolved the District School Boards and taken over the administration of the schools. There are 2 universities, one at Dacca and the other at Rajshahi.

The second 5-year plan (1960–64) envisages the spending of Rs 382.4m. on educational projects, including 8 new technical institutes and a total of 7,000 primary schools.

Health. The province has 6,668 beds in various hospitals, including a mental and 2 tuberculosis hospitals. There were in 1959, 3 medical colleges and 5 nursing training centres.

Agriculture. East Pakistan is primarily an agricultural area; agriculture employs about 82% of her population. 64% of the total area of the province is under cultivation. The area which can be classified as cultivable waste is about 1.5m. acres. Among food crops, rice is the most important; the average annual production of rice is about 7m. tons (1962–63: 8.3m. tons). Other products in 1962–63 include sugar-cane (4.4m. tons), wheat (44,000 tons), gram (33,000 tons), tea (23,000 tons).

East Pakistan produces about 80% of the world production of raw jute; the area under jute in 1963 was 1.7m. acres and the production 919,000 tons.

Forests. The total area under forests is 8,000 sq. miles, of which 4,600 sq. miles are Reserved Forests. The annual output of timber is nearly 15m. cu. ft. Among minor forest products, East Pakistan produced 76.5m. stems of bamboos, 415,000 canes, 6,500 maunds of honey in 1958–59.

Fishery. Being bounded on the south by the Bay of Bengal and having numerous rivers, streams, khals and bils, East Pakistan is pre-eminently a fish-producing area and possesses great possibilities for the manufacture of various oils and fish products. The estimated annual production of fresh fish is over 33.2m. maunds and that of sea fish is about 70,000 tons. About 20,000 tons of fish used to be exported annually to India.

Industry. In 1961–62, 1,045 industrial establishments employed 168,000 workers. Out of the existing industries, its 22 textile-mills, 7 sugar factories,

18 match factories, 7 glass works, 178 hosiery factories, a paper-mill, 14 jute-mills, 28 aluminium works and a cement factory are the most prominent. There is also a newsprint factory, a fertilizer factory, a shipyard and a dockyard. Jute factories in 1961-62 had 1,253 looms and produced (1962-63) 291,000 tons, of which 80% was exported. Cotton factories had 422,000 spindles in 1962. Paper production in 1961 was 24,700 tons and newsprint production, 28,800 tons.

Shipping. East Pakistan possesses important natural resources in her navigable channels which render valuable services in carrying produce by cheap water routes. There are 3 principal waterways, the Ganges, Brahmaputra and Maghna. These are freely used by inland steam vessels, which serve areas where railways cannot be economically constructed.

Roads. The province is probably the most backward in the whole Indo-Pakistan sub-continent in the matter of road communications. Since partition the Government have taken up the construction of nearly 2,000 miles of road. Further construction development will provide for a further 6,000 miles of trunk, district and feeder roads.

CEYLON

SRI LANKA

HISTORY. According to the Mahawamsa chronicle, an Indian prince from the valley of the Ganges, named Vijaya, arrived in the 6th century B.C. and became the first king of the Sinhalese. The monarchical form of government continued until the beginning of the 19th century when the British subjugated the Kandyan Kingdom in the central highlands.

In 1505 the Portuguese formed settlements on the west and south, which were taken from them about the middle of the next century by the Dutch. In 1796 the British Government annexed the foreign settlements to the presidency of Madras; in 1802 the maritime provinces of Ceylon were separated from India and formed into a Crown colony. Passing through various stages of increasing self-government, Ceylon reached fully responsible status within the British Commonwealth when the Ceylon Independence Act, 1947, came into force on 4 Feb. 1948.

CONSTITUTION AND GOVERNMENT. The 'Proposals for conferring on Ceylon fully responsible Status within the British Commonwealth of Nations' (Cmd 7257), which form the basis of the Independence Act, include agreements on defence, external affairs and public officers. The defence agreement provided that the UK and Ceylon would give to each other such military assistance as it may be in their mutual interest to provide. The UK may base such naval and air forces and maintain such land forces in Ceylon as may be required for these purposes, and as may be mutually agreed. The UK naval base at Trincomalee and the air base at Katunayake were taken over by the Ceylon Government on 15 Oct. and 1 Nov. 1957 respectively.

An agreement signed on 7 June 1957 provided that the United Kingdom establishments would be completely withdrawn from Ceylon within 3 years though some facilities would remain up to 5 years. The Ceylon Government would pay a sum of Rs 22m. spread over 5 years for the fixed assets which

were to be taken over and in final settlement of certain claims arising out of the occupation or disposal of the bases.

The agreement on external affairs declares the readiness of Ceylon to adopt and follow the resolutions of past imperial conferences; provides that in external affairs generally the two governments will conform to the principles and practice observed by other members of the Commonwealth; provides that Ceylon will enjoy reciprocal rights and benefits enjoyed by the UK, and bear the obligations carried by the UK, which arise out of any valid international instrument which applies to Ceylon.

The public officers agreement protects the positions of specified classes of persons holding offices in the public service of Ceylon.

Governor-General: William Gopallawa (sworn in 2 March 1962, after the resignation, on 26 Feb., of Sir Oliver Goonetilleke, GCMG, KCVO, KBE).

The elections held in July 1960 had the following results: 75 Sri Lanka Freedom Party, 30 United National Party, 16 Tamil Federal Party, 12 Lanka Sama Samaja Party, 4 Communist Party, 14 others. There are also 6 nominated members.

The following is the composition of the Cabinet in March 1963:

Prime Minister, Defence and External Affairs: Senator Mrs Sirima R. D. Bandaranaike.

Education and Culture: P. B. G. Kalugalla. *Lands, Irrigation and Power:* C. P. De Silva. *Public Works and Posts:* M. P. de Z. Siriwardena. *Commerce and Industries:* Maithripala Senanayake. *Finance:* T. B. Ilangaratne. *Home Affairs and Local Government:* Senator A. P. Jayasuriya. *Agriculture, Food and Co-operatives:* F. R. Dias Bandaranaike. *Health and Housing:* Alhaj Badi-Ud-Din Mahmud. *Communications:* Mahanama Samaraweera. *Labour and Social Services:* D. S. Gunasekera.

For purposes of general administration, the island is divided into 22 districts, each presided over by a government agent, with assistants and subordinate headman. There are 8 municipalities, with 35 urban councils and 46 town councils.

AREA AND POPULATION. Area (in sq. miles) and estimated population in 1961:

Provinces	Area	Population	Provinces	Area	Population
Western	1,432	2,730,000	North-Central	4,140	327,000
Central	2,158	1,670,000	Uva	3,277	597,000
Southern	2,146	1,439,000	Sabaragamuwa	1,893	1,704,000
Northern	3,429	707,000			
Eastern	3,840	479,000	Total	25,332 ¹	10,168,000
North-Western	3,016	1,116,000			

¹ 65,610 sq. km.

At the census of 1 July 1963 the total population was 10,644,809; details are still being worked out.

Population (in 1,000) according to race and nationality (estimate mid-1960): 6,993 Sinhalese, 1,088 Ceylon Tamils, 584 Ceylon Moors, 54 Burghers and Eurasians, 32 Malays, 1,052 Indian Tamils, 49 Indian Moors, 7 Europeans, 2 Veddas, 34 others. Non-nationals of Ceylon totalled 1,019,578 (census 1953).

Vital statistics, 1961: Births, 363,677; marriages, 61,089; deaths, 81,653.

The urban population is 14.9% of the total population. The principal towns and their population according to the census of 1963 (provisional) are: Colombo, 510,947; Jaffna, 94,248; Kandy, 67,768; Galle, 64,942; Negombo, 47,028; Kurunegala, 21,293; Nuwara Eliya, 19,988.

The official language is Sinhala.

RELIGION. Buddhism was introduced from India in the 3rd century B.C., and is the religion of the majority of the inhabitants. There were (1953) 5,209,439 Buddhists, 1,610,561 Hindus, 724,461 Christians, 541,506 Moslems, 1,295 Zoroastrians and 10,633 others.

EDUCATION. In the seventh year after the introduction of free education from the kindergarten to the university stage an Amendment Act was passed by Parliament in 1951 embodying a comprehensive scheme. According to this Act, primary education, for the age-group 5-11 years, is a uniform type of education imparted through the medium of the mother tongue. English is taught as a second language from Standard 3. Secondary education is organized in 3 types of schools—junior secondary, age-group 11-14; senior secondary, age group 14-16; collegiate, age-group 16-19.

A national system of education is being established by various Acts, 1960 and 1961. Twelve regional education offices and 11 sub-offices have been set up. The assisted schools were abolished in Dec. 1960, and 2,854 such schools were taken over by the Government; 42 schools remain unaided and private.

The medium of instruction in the junior and secondary schools is the mother tongue of the pupil; at the senior secondary stage schools may teach science and mathematics in either English or the mother tongue.

Provincial distribution of government and assisted schools as on 30 June 1962:

Province	Schools	Pupils	Province	Schools	Pupils
Western	1,738	663,835	North-Central	446	84,488
Central	1,455	538,833	Uva	569	117,030
Southern	1,115	343,416	Sabaragamuwa	1,085	245,194
Northern	783	177,860			
Eastern	487	104,054	Total	8,765	2,351,433
North-Western	1,087	276,723			

The total expenditure by the Government during the financial year 1961-62 was Rs 286m.

The training of teachers is carried on in 26 training colleges. The number of teachers in training in 1962 was 5,228.

The University of Ceylon was established on 1 July 1942 by the incorporation of the Ceylon Medical College (founded 1870) and the Ceylon University College (founded 1921). In 1960 the university had faculties of oriental studies, arts, science, medicine, law, engineering, agriculture and veterinary science, with a total of 3,177 students.

In 1959 the Vidyalkara and Vidyodaya Universities were established; both have faculties of arts, science, Buddhism and oriental studies.

The Ceylon Technical College provides a series of full-time and part-time courses in science, engineering, commerce, arts, and arts and crafts.

Newspapers (1962). There were 10 daily newspapers with a total circulation of 382,000 and 7 Sunday papers with a total circulation of 486,000.

Cinemas (1955). There were 140 cinemas with a seating capacity of 94,650.

JUSTICE. The systems of law which obtain in Ceylon are the Roman-Dutch law, the English law, the Tesawalamai, the Moslem law and the Kandyan law.

The Kandyan law applies to the Kandyan Sinhalese in the Central, North-Central, Uva and Sabaragamuwa provinces in respect of all matters relating to inheritance, matrimonial rights and donations. The law of England is observed in most maritime and commercial matters. The law of Tesawalamai is applied to all Tamil inhabitants of Jaffna, in all matters relating to inheritance, marriages, gifts, donations, purchases and sales of land. The Moslem law is applied to all Moslems in respect of succession, donations not involving Fidei Commisum, marriage, divorce and maintenance. These customary and religious laws have been modified in many respects by local enactments.

District courts and Courts of Requests administer justice on the civil side. The Supreme Court exercises only an appellate jurisdiction in civil matters. On the criminal side magistrates' courts, district courts and the Supreme Court exercise an original jurisdiction. The Supreme Court also exercises an appellate jurisdiction in cases decided by magistrates' courts and district courts. A Court of Criminal Appeal exercises an appellate jurisdiction in cases tried by the Supreme Court in its original criminal jurisdiction. Rural courts exercise a criminal and civil jurisdiction in rural areas in respect of petty crimes and civil disputes where the subject matter is valued less than Rs 100.

Police. The strength of the police service on 31 Dec. 1962 was 9,781.

SOCIAL WELFARE. The activities of the Department of Social Services fall into two main divisions and these, together with the more important sub-divisions grouped under them, are as follows:

Social Assistance Services. Public assistance (monthly allowances); casual relief; financial assistance to tuberculosis patients and their dependants; relief of widespread distress due to failure of crops, floods, storms, etc., including relief to individual cases of distress among fishermen due to acts of God such as fire, storms and accidents; rehabilitation and resettlement of flood victims; state homes for the aged; grants-in-aid to voluntary agencies and local authorities for the running of charitable and welfare institutions, homes for children, homes for the aged, and crèches; services for orthopaedically handicapped persons; services for the deaf and blind; vagrancy and administration of the house of detention.

Workmen's Compensation. The payment of compensation to workmen meeting with accidents in the course of their work is provided for under the Workmen's Compensation Ordinance No. 19 of 1934. It was brought into operation in 1935, and has been administered by the Director of Social Services since 1948.

FINANCE. Budgets, in Rs, for financial years ending 30 Sept.:

The principal sources of revenue in 1961-62 were (in Rs 1m.): Customs, 686.9; ports, harbour, wharf, warehouse and other dues, 28; excise and salt, 238.1; income tax, stamps, etc., 319.3; licences and internal revenue, 27; post and telecommunications, 47.3.

The principal items of expenditure in 1961-62 (in Rs 1m.): Finance, 232; transport and works, 218.4; education and broadcasting, 298.1; agriculture, irrigation and power, 128.9; health 144; justice 13; defence and external affairs, 113.9; home and cultural affairs, 89.8; labour and nationalized services, 32.8; commerce, trade, food and shipping, 258.6; local government, and housing, 42.6.

The gross public debt on 30 Sept. 1962 was Rs 3,037.8m., consisting of domestic loans (2,693.7m.) and foreign loans (344.1m.).

DEFENCE. *Army.* The Ceylon Army came into being on 10 Oct. 1949. The Army consists of the Regular Force, the Regular Reserve the Volunteer Force and the Volunteer Reserve. Service is entirely voluntary; there is no conscription.

Navy. The Royal Ceylon Navy was constituted on 9 Dec. 1950. It comprises 2 frigates, 2 escort minesweepers, a seaward defence boat, 6 small patrol boats and 1 sea-going tug. HMCyS *Gemunu* and HNCyS *Rangalla* are commissioned as shore establishments. Personnel in 1963 numbered 150 officers and 1,850 ratings. Officers and men are sent to the UK for their training. There is also the Royal Ceylon Naval Volunteer Force.

Air Force. The Ceylon Air Force was formed on 10 Oct. 1950. Its flying bases are at Katunayake and China Bay, Trincomalee. Aircraft currently in service include 12 Jet Provost (armed), 12 Chipmunk and 4 Balliol trainers, 2 Heron and 6 Dove light transports (also used for coastal reconnaissance) and 4 Pioneer aircraft and 3 Dragonfly helicopters for internal security operations. Total strength is about 100 officers and 1,500 airmen. There is also a Royal Ceylon Air Force Reserve.

PRODUCTION. *Agriculture.* The area of the island is approximately 16,212,480 acres, of which about 4.5m. acres are under cultivation, and about 456,000 acres pasture land. The acreage under the main crops in 1962 were as follows: Paddy, 1,535,932 (48m. bushels); tea, 591,118 (467m. lb.); coconuts, 1,070,942 (2,570m. nuts); rubber, 674,272 (102,402 tons).

Livestock in 1962: 1,326,147 cattle, 667,472 buffaloes, 69,409 swine, 453,812 goats and 148,636 sheep.

Fisheries. The Government is implementing a programme for the development of fisheries in inland as well as deep-sea waters. Estimated fish landings for 1962 were 80,397 metric tons; 1961, 58,218 metric tons.

Mining. Graphite is the chief mineral mined and exported from Ceylon. There were 9 mines working at the end of 1962. The total quantity of graphite exported during the year was 8,630 tons.

The Ceylon Mineral Sands Corporation is running a plant at Pulmoddai on the NE coast for the recovery of ilmenite from the beach deposits nearby. The Geological Survey Department is running a small plant for the recovery of monazite from beach concentrates gathered on the SW coast. There are several gem pits from which sapphire, ruby, aquamarine, moonstone, topaz, chrysoberyl (cat's eye), zircon, spinel, tourmaline and other precious and semi-precious stones are obtained. There are also deposits of kaolin, iron-ore and glass-sand. The miocene limestone of the north is the basis of Ceylon's cement industry.

Manufacture of salt is a government monopoly.

Trade Unions. The registration and control of trade unions are regulated by the Trade Unions Ordinance (Ch. 138 of the Legislative Enactments). As at 30 Sept. 1962 there were 1,026 unions; 721 employees' unions reported a membership of 863,316; and 11 employers' unions reported 815 members.

COMMERCE. The values of total imports and exports (both including bullion, specie and postal articles; exports, including re-exports and ship's stores) for calendar years are given in the following table (in Rs 1,000):

	1958	1959	1960	1961	1962
Imports	1,718,646	2,006,799	1,961,495	1,705,207	1,661,426
Exports	1,710,589	1,753,877	1,831,610	1,732,825	1,808,421

Principal exports (domestic), in 1962 (in Rs 1,000): Cocoa, 7,700; cinnamon (quills), 15,508; copra, 58,975; coconut oil, 112,322; plumbago, 5,610; desiccated coconuts, 56,119; arecanuts, 174; rubber, 260,235; tea, 1,147,924.

Principal imports in 1962 (in Rs 1,000): Rice, 195,025; textiles, 162,471; liquid fuel and gas oil, 110,214; wheat flour, 71,211; fish and fish preparations, 55,699; sugar, 57,328; fertilizers, 62,847; milk products, 76,123; coal, 8,787.

In 1962 the principal sources of imports were (in Rs 1,000) the UK (342,532); Burma (189,045); Japan (181,445); India (162,843); Australia (92,269); the principal countries of destination, the UK (529,442); USA (152,139); China (133,196); Australia (89,316); South Africa (77,866); Canada (77,568); India (63,243).

Of the 451,632,955 lb. of black tea exported in 1962, the following countries received the largest amounts: UK, 176,866,436; USA, 45,407,415; Iraq, 38,785,837; Australia, 37,307,632; South Africa, 27,043,591; Canada, 18,764,289; New Zealand, 15,610,950; Chile, 13,876,495; Netherlands, 7,932,034; Saudi Arabia, 6,943,238; Libya, 5,096,353; Irish Republic, 4,346,994.

Trade with UK, according to British Board of Trade returns (in £ sterling):

	1959	1960	1961	1962	1963
Imports to UK	39,737,187	41,011,116	40,329,363	42,008,120	41,507,755
Exports from UK	31,726,662	28,951,077	26,695,894	24,846,243	23,006,681
Re-exports from UK	178,366	144,575	132,591	83,302	76,691

COMMUNICATIONS. *Shipping.* In 1962, 4,272 ocean-going merchant vessels of 10,677,625 net tons entered and 3,453 vessels of 7,771,422 net tons cleared the ports of Ceylon.

Railways and Roads. There are 898 miles of railway open, 811 miles being 5 ft 6 in. gauge, and 86 miles 2 ft 6 in.

Number of motor vehicles, 31 Dec. 1962, 145,216, including 83,161 private cars and cabs, 26,936 lorries and vans, 6,883 buses, 912 tractors, 7,401 land vehicles, 17,657 motor-cycles.

Post. On 30 Sept. 1962 there were 2,180 offices of various classes open for postal business; 1,067 telegraph offices; 1,719 money-order offices; 65 receiving offices; 74,616 miles of telegraph wire overhead and 98,419 miles underground; telephones, 37,113, of which 21,116 were in Colombo.

The Overseas Telecommunication Service operates telegraph and telephone services through submarine cables and/or radio circuits to most parts of the world.

Aviation. Air Ceylon Ltd operates internal and international services.

Foreign airlines which operated scheduled services to Ceylon are BOAC and Indian Airlines Corporation; various others operate charter services.

MONEY AND BANKING. The Monetary Law Act No. 58 of 1949 provides that the standard monetary unit is the Ceylon rupee having a par value equal to 2.88 grains of fine gold.

The Central Bank of Ceylon was established in 1950 as the authority responsible for the administration and regulation of the monetary and banking system of Ceylon. The Central Bank is the sole authority for the issue of currency in Ceylon, and all currency notes and coins issued by the Central Bank are legal tender in Ceylon for the payment of any amount. Currency notes are issued in the denominations of Re 1, Rs 2, 5, 10, 50 and 100. The following coins are legal tender: (1) nickel brass, 50, 25, 10 and 2 cents; (2) cupro-nickel and nickel brass, 5 cents; (3) copper and bronze, 1 cent, and copper, $\frac{1}{2}$ cent. The note circulation stood at Rs 789.4m. on 31 Dec. 1962. The official rate between Ceylon and the UK is 1s. 6d. per rupee.

Foreign exchange assets at 31 July 1963 stood at Rs 559.3m.

The leading banks in Ceylon are: The Bank of Ceylon and the People's Bank (state-managed), The Mercantile Bank of India, the State Bank of India, National Overseas & Grindlays Bank, the Hongkong and Shanghai Banking Corporation, the Chartered Bank, the Eastern Bank, the Hatton Bank, the Indian Bank, the Habib Bank and the Indian Overseas Bank.

The state-owned Ceylon Insurance Corporation has a monopoly of all insurance business.

The Ceylon Savings Bank had 150,546 depositors, and deposits amounting to Rs 73,281,579 on 31 Dec. 1962. The post office savings bank on 31 Dec. 1962 had 3,317,686 depositors, and the balance to their credit was Rs 355,699,144. The loans granted by the Ceylon State Mortgage Bank for the year ended 30 Sept. 1962 amounted to Rs 2.7m.

WEIGHTS AND MEASURES. The Imperial weights and measures of the UK are established as the standard weights and measures of Ceylon. Local and customary weights and measures are still used in various parts of the country.

FEDERATION OF RHODESIA AND NYASALAND

THE Federation of Southern Rhodesia, Northern Rhodesia and Nyasaland was brought into being on 1 Aug. 1953, when the Queen signed the Order in Council proclaiming the Federal State. (See MAP in THE STATESMAN'S YEAR-BOOK, 1955.) The Federation was dissolved with effect from 31 Dec. 1963. The following statements and statistics contain the latest and last information on the Federation.

HISTORY. The possibility of a form of closer political association at least between the two Rhodesias seems to have been mooted first about 1910. The proposal to amalgamate the Rhodesias was first officially made by Dr Jameson in 1916 on behalf of the British South Africa Company, but it was opposed by the settlers of Southern Rhodesia, who feared that amalgamation would defer responsible government.

In response to a request from the Rhodesias, the Bledisloe Commission was appointed in 1938; it reported against immediate amalgamation, but suggested the creation of a body to co-ordinate common services between the three territories. The war made it impossible to implement this suggestion till 1945, when the consultative Central African Council was established, which succeeded in extending or creating a number of common services. A series of conferences to examine the possibilities of closer co-operation took place in 1951, 1952 and 1953. The final proposals were endorsed by a referendum in Southern Rhodesia in April 1953 by a two-thirds majority; and later approved by the UK Parliament and the Legislative Councils of Northern Rhodesia and Nyasaland.

An advisory commission under Lord Monckton submitted a 'Report on the review of the constitution' together with a 'Survey of developments since 1953' and 'Possible constitutional changes' (HMSO 1960).

With the break-up of the Federation, all Federal functions returned to their respective territories, with the exception of the following which will be kept under common administration: Central African Airways, Rhodesia Railways, Federal Power Board and Agricultural Research Council. The currency of the Federation is to continue to be legal tender in the territories until 1 Jan. 1965, or not later than 1 June 1965. The Bank of Rhodesia and Nyasaland will be dissolved not later than 31 Dec. 1965.

CONSTITUTION AND GOVERNMENT. The Federation consists of the self-governing territory of Southern Rhodesia and the Protectorates of Northern Rhodesia and Nyasaland, all of which retain the constitutional status as before federation.

The constitution vests the responsibility for economic and financial affairs, defence, external affairs, transport and communications, immigration, education (other than African primary and secondary education), medical services and a number of other functions in the Federal Government.

The Territorial Governments deal with all matters affecting the day-to-

day life of the African people, local government, industrial relations, mining and roads other than inter-territorial main roads.

The Queen is represented in the Federation by the Governor-General, and in the territories by the governors to the territories.

The Federal Assembly consists of 59 members, of whom 12 are Africans and 3 are Europeans specially elected to represent African interests. Southern Rhodesia is represented by 29, Northern Rhodesia by 19, Nyasaland by 11 members. As a result of the Federal Election held on 27 April 1962, the state of the parties is: United Federal Party, 54; Independent, 1; specially elected African members, 2; nominated European members, 2.

The federal capital is at Salisbury in Southern Rhodesia.

The review conference met in London in Dec. 1960 and in 1962. In 1963 Nyasaland was granted permission to opt out of the Federation.

Acting Governor-General: Sir Humphrey Gibbs, KCMG, OBE.

The Federal cabinet was in Dec. 1963 constituted as follows:

Prime Minister and Minister for External Affairs: The Rt. Hon. Sir Roy Welensky, KCMG.

Deputy Prime Minister and Minister of Economic Affairs, Minister of Defence and Minister of Power: Sir Malcolm P. Barrow, CBE.

Minister of Home Affairs and Minister of Law: J. M. Greenfield, CMG, QC.

Minister of Finance: Sir John M. Caldicott, KBE, CMG.

Minister of Transport and Minister of Posts: F. S. Owen, CBE.

Minister of Health: B. D. Goldberg, CMG.

Minister of Agriculture: J. C. Graylin.

Minister of Works: G. N. R. L'Ange, CBE.

Minister of Commerce and Industry: J. A. Clark.

Minister of Education and Minister of Public Service: J. P. G. Duncan, MBE.

High Commissioner in the UK: M. J. Lamb.

British High Commissioner: J. B. Johnston, CMG.

Representative in the Republic of South Africa: J. W. M. Fitt, OBE.

Representative for the Republic of South Africa: H. L. T. Taswell.

Minister in Washington: O. B. Bennett, OBE.

Belgium, Germany, France, Italy, Netherlands, Portugal and the USA are represented by Consuls-General.

AREA AND POPULATION. The Federation extends from 22° 30' to 8° 15' S. lat. On the south it is bordered by the Republic of South Africa, on the west by the Bechuanaland Protectorate and Portuguese West Africa, on the north-west and north by the Congo, on the north by Tanganyika and on the east by Portuguese East Africa.

Most of the two Rhodesias is at an altitude of between 3,000 and 5,000 ft (1,000-1,800 metres) above sea-level; some mountains on the eastern border of Southern Rhodesia rise above 8,000 ft (2,200 metres). In the large river valleys, the Zambezi, Sabi, Kafue and Luangwa, the level falls to below 2,000 ft (650 metres).

In Nyasaland the level of the littoral of Lake Nyasa and in parts of the Shire River Valley is 1,500 ft (500 metres) above sea-level. Elsewhere the altitude varies between 2,500 and 7,000 ft (900-2,000 metres), with the crest of the Manje Mountain massif rising to 10,000 ft (3,000 metres). Lake

Nyasa itself, the greatest depth of which is 2,300 ft (800 metres), is a southward extension of the Great Rift Valley.

Though the entire federal area lies within the tropics, most of it is at an altitude which gives climatic conditions favouring permanent European settlement.

The main rainfall throughout the area is concentrated into a season extending from about Nov. to March. Average rainfall (except for certain somewhat arid low-lying regions and some high-altitude areas of very heavy rainfall) is in the vicinity of 25-30 in. a year.

Area and estimated population at 31 Dec. 1962:

Territories	Area		European	African	Asian and Coloured	Total
	(sq. miles)	(sq. km)				
S. Rhodesia	150,333	389,300	223,000	3,690,000	18,700	3,930,000
N. Rhodesia	290,323	751,900	77,000	2,490,000	10,600	2,580,000
Nyasaland	46,086 ¹	127,400 ¹	9,400	2,960,000	12,900	2,980,000
Federation	486,722	1,267,800	309,400	9,140,000	42,200	9,490,000

¹ Including 9,380 sq. miles (30,600 sq. km) of water.

The European birth rate was 24 per 1,000, death rate 6 per 1,000 in 1962.

EDUCATION. The Federal Government relinquished its responsibility for non-African education at the end of 1963. Total government expenditure on education for the year ending 30 June 1963 is estimated at £8,404,000.

The following table shows details of the enrolment figures and the number of schools during 1962:

Type of school	Enrolment			No. of schools		
	S.R.	N.R.	Ny.	S.R.	N.R.	Ny.
European govt. primary	29,219	11,294	1,045	138	48	7

Non-European private primary and secondary	1,341	289	178	6	2	2

HEALTH. The Federal Ministry of Health has taken over the territorial health services with the exception of the Silicosis Bureau in Northern Rhodesia.

In 1962 Government maintained the following hospitals (with number of beds): *European*, 33 general (1,766), 5 maternity (173; plus 150 in maternity sections of 27 general hospitals), 1 mental (239), 1 nervous disorders (23) and a home for retarded children (80); *Asian and Coloured*, 17 general (252); *African*, 72 general (9,281), 3 mental (1,071), 11 leprosy, 2 maternity (210), 4 tuberculosis (444), 112 rural (4,291), 244 rural health centres (546), 33 urban clinics (7).

The staff includes 323 medical officers, 16 dental surgeons, 1,230 nurses and midwives, and 83 pharmacists.

Industrial and mining companies, missionary societies, voluntary organizations, Native Authorities and private practitioners supplement these services.

Fight against malaria, bilharzia, smallpox and other endemic diseases is being undertaken, with the help of the government research laboratory in Salisbury and the World Health Organization.

The Medical School of the University College of Rhodesia and Nyasaland

took its first students in March 1963 for degrees awarded by the University of Birmingham.

JUSTICE. The Federal Supreme Court, which was established on 1 July 1955, has both original and appellate jurisdiction. It has exclusive original jurisdiction in the following matters: (i) in any dispute between the Federation and a Territory or between Territories if and in so far as that dispute involves any question (whether of law or fact) on which the existence or extent of a legal right depends; (ii) to hear and determine—(a) any question whether by reason of circumstances prescribed by a law of the Federal Legislature or this Constitution a vacancy exists in the Federal Assembly; or (b) a petition complaining of an undue return or an undue election of a member of the Federal Assembly by reason of want of qualification or by reason of disqualification, corrupt or illegal practice or irregularity or by reason of any other cause whatsoever; (iii) in any matter in which a writ or order of mandamus or prohibition or any injunction or interdict is sought against an officer or authority of the Federation. The Federal Supreme Court also has original jurisdiction to the exclusion of any court in the Federation in deciding questions as to the interpretation of the Constitution referred to it by a lower court.

The Federal Supreme Court has jurisdiction to hear appeals in civil and criminal matters from the High Court of a Territory, and also on any question as to the interpretation of any provision of the Federal Constitution or of the Constitution of a Territory.

The Federal Supreme Court consists of a Chief Justice of the Federation, 2 permanent Judges of Appeal and the Chief Justices of Southern Rhodesia, Northern Rhodesia and Nyasaland.

Save in the case of any party seeking redress in regard to the infringement of any of his rights under the Declaration of Rights as prescribed under the Constitution of Southern Rhodesia, 1961, no Federal law is in force conferring the right of appeal to the Queen-in-Council from a determination of the Federal Supreme Court, but the Queen-in-Council retains the inherent right to grant special leave so to appeal.

FINANCE. The financial year ends 30 June. Figures in £1,000:

	1959-60	1960-61	1961-62	1962-63	1963-64 ¹
Revenue	54,715	63,272	66,723	69,750	71,295
Expenditure:

From loan funds	14,231	10,926	8,003	8,140	3,946

¹ Estimates.

Of the 1963-64 revenue, £25.7m. is expected to come from income tax and £18.1m. from customs and excise.

DEFENCE. Army. The Rhodesia and Nyasaland army consists of (a) the regular force, (b) the territorial force, (c, d) the Class A and B reserves, Infantry; Medical Corps; Army Services Corps; Pay Corps; Chaplain's Department.

There are 4 regular African Battalions: the 1st and 2nd Battalions, The King's African Rifles (Central Africa Rifles); the 1st Battalion, The Northern Rhodesia Regiment; the 1st Battalion, The Rhodesian African Rifles. These African battalions are officered by Europeans and an African officer is training at Sandhurst; warrant officers and n.c.o.s are found from both European and African ranks. Three regular European regiments were

formed in 1960 (1st Battalion the Rhodesian Light Infantry, the Rhodesian Armoured Car Regiment (Selous Scouts), 'C' Squadron Rhodesian Special Air Service Regiment).

The Territorial Force comprises Artillery, Engineers and Signals units as well as 4 active-force and 5 reserve battalions of the Royal Rhodesian Regiment and supply and transport platoons. The infantry battalions of the Royal Rhodesia Regiment, together with their supporting Transport and Supply platoons, are stationed in Salisbury, Bulawayo, Umtali, Gwelo and Northern Rhodesia. Europeans, Coloureds and Asians between the ages of 18 and 23 are liable for continuous military training for 4½ months, after which they continue part-time training with one of the Territorial Battalions for a further 3 years. Coloureds and Asians serve in the Supply and Transport units.

Air Force. The Royal Rhodesian Air Force (regular) has 1 squadron of Canberra bombers, 2 squadrons of Hunter Mk. 9 and Vampire fighter-bombers, a reconnaissance squadron of T.52 (armed) Provosts, a transport support squadron equipped with Canadair North Star and Dakota aircraft, and a squadron of Alouette III helicopters. Provost and Vampire aircraft are also used for training. Headquarters RRAF and New Sarum RRAF station, at which are based the transport and reconnaissance squadrons, are in Salisbury. The fighter and bomber squadrons and the training organization are based at Thornhill, Gwelo. Total strength is about 1,000 men and 75 aircraft.

PRODUCTION. *Agriculture.* European agriculture in Southern and Northern Rhodesia only is the administrative responsibility of the Federal Government. Agriculture in Nyasaland is still in the charge of the Territorial Government. There is ample scope for agricultural development in both Northern and Southern Rhodesia, and the territories are well adapted for European settlement.

The total area of crops under European cultivation during the 1962 season was 1,002,910 acres in Southern Rhodesia (428,760 maize, 204,280 flue-cured Virginia tobacco) and 193,420 acres in Northern Rhodesia (100,870 maize, 16,870 flue-cured tobacco). The acreage in Nyasaland is unknown.

The most important single food crop is maize, staple diet of a large proportion of Africans and widely used for animal feed. Tobacco is the most important cash crop of the Federation, the largest production being in Southern Rhodesia. Tea is the next most important cash crop, Nyasaland being the principal producer. European production figures of the principal crops in 1961 were: Maize (including African sales), 8,417,000 bags of 200 lb. (£9.1m.); flue-cured tobacco, 234,354,000 lb. (£34.1m.); total tobacco crop (including fire-cured, sun- and air-cured, Burley and Turkish), £37.5m.

Livestock. Southern Rhodesia is the most important meat producer, with a cattle population of about 3.7m., of which 2m. are African owned. Northern Rhodesia has 1.3m. head and Nyasaland 380,000. Large areas of the Federation are still unsuited to cattle-raising, because of the presence of tsetse fly.

Power. The Kariba hydro-electric undertaking, started in 1955, in Dec. 1959 began to provide a commercial supply of power from the first machine of 100 Mw. capacity. All 6 turbo-generators had been installed by March 1962. A second power station with a final capacity of 900 Mw. is to be con-

structed when justified by demand. (See map in STATESMAN'S YEAR-BOOK, 1961.)

From Kariba there is now an interconnected system linking Sherwood, Umniati, Salisbury and Bulawayo in S. Rhodesia to Lusaka and the Copper Belt in N. Rhodesia, where an interconnexion is made with the Congo system extending to Jadotville. Lake Kariba, created by the Kariba dam, had expanded to 82.2m. acre-ft by Sept. 1961. When full it will contain 130m. acre-ft and have a length of 175 miles and an average width of 12 miles.

The Governments of Southern and Northern Rhodesia will continue to operate and develop the Kariba scheme under joint ownership; a Central African Power Corporation will take over the management.

COMMERCE. The leading commodities exported from the Federation are tobacco, tea, hides, meat, wood, asbestos, chrome ore, gold, copper, zinc, radios, lead, cobalt, textiles, cigarettes, ferrochrome and maize.

	1959	1960	1961	1962
Imports . . .	150,149,964	156,839,067	155,035,240	142,640,000
Exports . . .	186,949,743	205,869,642	213,900,745	216,784,000

Total imports of merchandise in 1962 from UK amounted to £46.7m.; from the Republic of South Africa, £43.2m.; from USA, £8m. Domestic exports to UK were £87.1m.; to Western Germany, £23.1m.; to Italy, £14.4m.; to the Republic of South Africa, £13m.; to USA, £6.8m.

Principal articles of merchandise imported in 1962 (in £1,000): Wheat (2,000); motor spirit (3,335); gas oil (2,088); fertilizers (2,080); cotton fabrics (4,807); rayon fabrics (3,171); passenger cars (5,091); motor trucks and chassis (3,311); clothing (5,265); electric cable and wire (1,060); explosives (1,630); jute bags (1,482).

COMMUNICATIONS. The Minister of Transport is responsible for the Federal Government's relations with the two railway systems (the Rhodesia Railways and the Nyasaland Railways) and with the Central African Airways Corporation. He controls Federal (i.e., major trunk) roads and the Directorate of Civil Aviation.

Railways. The two Rhodesias are served by the Rhodesia Railways, which connect with the South African Railways to give access to the South African ports; with the Portuguese East African Railways to give access to the ports of Beira and Lourenço Marques; and with the Congo Republic rail system, with which are connected the Benguela railway and (across Lake Tanganyika) the East African railways. The total mileage was 2,626 in 1962. In

1962 Rhodesia Railways carried 4,119,000 passengers and 11.8m. tons of freight.

Nyasaland is served by the Nyasaland Railway system (the Trans-Zambesi Railway Co. Ltd, the Central African Railway Co. Ltd, and the Nyasaland Railways Ltd) which connect Beira with Nyasaland. The total length of the system is nearly 500 miles.

Roads. Main roads connect all the main centres of the Federation with one another and with adjacent territories, and secondary roads serve rural areas. The total mileage of roads is over 62,000 (36,277 in Southern Rhodesia, 19,885 in Northern Rhodesia and 5,970 in Nyasaland), of which some 11,600 miles are designated as main or principal roads (5,115 in Southern Rhodesia, excluding roads in towns, 3,800 in Northern Rhodesia and 2,800 in Nyasaland). The Federal Government has assumed responsibility for 1,372 miles in Southern Rhodesia, 1,896 miles in Northern Rhodesia and 1,072 miles in Nyasaland. Major bridges, many of them the gift of the Beit Trustees, span the larger rivers on main roads, noteworthy being the Beit Bridge over the Limpopo, the Otto Beit Bridge at Chirundu over the Zambezi and the Birchenough Bridge over the Sabi River.

Number of motor vehicles excluding military (Dec. 1962) in Southern Rhodesia: Private cars, 107,754; commercial vehicles (excluding farm tractors), 38,097. In Northern Rhodesia: Private cars, 36,930; commercial vehicles (excluding farm tractors), 11,136. In Nyasaland: Private cars, 7,864; commercial vehicles, 6,520.

Aviation. Central African Airways Corporation operate a system of air services within the Federation and to centres such as Nairobi, Beira, Lourenço Marques, Durban, Johannesburg, as well as to London.

Post. There are 265 post offices and 268 post office agencies in the Federation. All normal postal and telegraphic services are available, including a direct radio cable and telephone service to the UK. At 30 June 1963 there were 72,408 telephones in Southern Rhodesia, 24,661 in Northern Rhodesia and 5,824 in Nyasaland.

Broadcasting. The Federal Broadcasting Corporation serves listeners throughout the Federation. The Corporation, from its studios in Salisbury, Lusaka and Blantyre, also provides radio services in the main African vernaculars. Commercial broadcasting was introduced on 6 April 1959. A television service started in 1960 and covered in 1961 the Salisbury, Bulawayo and Copperbelt areas.

BANKING. The Bank of Rhodesia and Nyasaland, which is the Central Bank for the Federation of Rhodesia and Nyasaland, is responsible for the issue and management of the currency in circulation.

The balance sheet published by the Bank of Rhodesia and Nyasaland on 1 July 1963 showed: Capital £1m.; general reserve fund, £1,383,323; notes and coin in circulation, £29,349,176; Federal Government deposits, £7,806,087; bankers' deposits, £5,227,213; other deposits, £10,923,845; other liabilities, £2,054,575; gold and foreign assets, £47,528,666; internal bills purchased and discounted, £3.62m.; loans and advances, £1,629,000; investments, £3,792,290; other assets, £1,174,263.

The 3 territorial post office savings banks were amalgamated on 1 Sept. 1954. At 31 Dec. 1962 the balance due to 514,615 depositors amounted to £27,109,000.

SOUTHERN RHODESIA

GOVERNMENT. Prior to Oct. 1923 Southern Rhodesia, like Northern Rhodesia, was under the administration of the British South Africa Company. In Oct. 1922 Southern Rhodesia voted in favour of responsible government. On 12 Sept. 1923 the country was formally annexed to His Majesty's Dominions, and on 1 Oct. 1923 government was established under a governor, assisted by an executive council, and a legislature.

The government proposals for a new constitution were endorsed by 41,949 votes against 21,846 at a referendum on 26 July 1961.

By an Order in Council dated 6 Dec. 1961, Southern Rhodesia was granted the new constitution. Under this the Legislative Assembly consists of 65 members—50 on the upper roll and 15 on the lower roll, thus ensuring African representation.

A person to be registered as a voter must be an adult citizen of Rhodesia and Nyasaland, who has been resident in the Federation for 2 years or more and who possesses certain educational and means qualifications.

The majority of the reserved rights of the United Kingdom are eliminated and replaced by a Declaration of Rights, a Constitutional Council and other safeguards.

After the dissolution of the Federation of Rhodesia and Nyasaland on 31 Dec. 1963 Southern Rhodesia reverted to the status of a self-governing member of the Commonwealth.

Governor: The Hon. Sir Humphrey Vicary Gibbs, KCMG, OBE.

The Legislative Assembly, elected on 14 Dec. 1962, consists of 35 Rhodesian Front, 29 United Federal Party, 1 independent.

The cabinet was in Dec. 1963 composed as follows:

Prime Minister: Winston Joseph Field, CMG, MBE.

Treasury: Ian Douglas Smith.

Justice and Law and Order: Clifford Walter Dupont.

Mines: John Gaunt.

Agriculture, Lands and Natural Resources: The Duke of Montrose.

Irrigation, Roads and Road-Traffic: William John Harper.

Internal Affairs, Local Government and African Education: John Hattley Howman.

Labour and Social Welfare: Ian Finlay McLean.

Trade, Industry and Development: George Wilburn Rüdland.

High Commissioner in London: E. R. Campbell, CBE.

AREA AND POPULATION. Southern Rhodesia lies between the northern border of the Transvaal and the Zambezi River and is bordered on the east by Portuguese East Africa and on the west by the Bechuanaland Protectorate. The area is 150,333 sq. miles (389,300 sq. km). The growth of the population is given in the following table:

(May)	European (census)			Asiatic and Coloured	Native total (estimated)	Total population (estimated)

INTERNAL AFFAIRS. With the coming into operation of the 1961 Constitution the functions previously administered by the Native Department were taken over by the Ministry of Internal Affairs, which is responsible for district and general government administration for all races and the development of the Tribal Trust Land. The land areas previously known as Native Reserves and Special Native Areas have been reclassified as Tribal Trust Land and are set aside entirely for African occupation. In 1963 the distribution of land under the Land Apportionment Act, 1941, was:

Tribal Trust Land	40,020,000 acres
Native Purchase Area	4,220,000 "
Unreserved Land	5,769,600 "
European Area	35,750,400 "
Forest Area and National Parks	10,840,000 "

In the Native Purchase Area only Africans may purchase and lease land, while in the Unreserved Land ownership and occupation of land is un-

restricted on racial lines. Out of a total African population of 3.6m., 1.5m. are resident in European farming areas or urban areas.

In 1962 Native Agriculture was divorced from Native Affairs under a new Ministry of Southern Rhodesia Agriculture. In addition, a new Ministry of Lands and Natural Resources takes over from Native Affairs the administration of Native Purchase Areas. All judicial work (excluding Native Customary Law civil cases) previously performed by Native Affairs has been transferred to the Department of Justice. The Ministry is responsible for the supervision of the Government's policy of community development.

Native Councils are intended to foster a sense of community and citizenship; promote initiative and responsibility; promote the development and economic progress of the area with the participation of the inhabitants. These bodies may be authorized to provide services, facilities and amenities for the persons in the area; to establish and maintain any undertaking for the benefit of the inhabitants of the area; to make grants for purposes which are of benefit to the inhabitants of the area. Councils have powers to impose rates on adults in the area; in regard to stock or buildings; on the value of any land; on any grazing right.

There are 55 established Native Councils which meet at intervals of not more than 4 months unless some other period is specified.

The District Commissioner is President of every Council established in his district. He controls the elections and method of voting.

RELIGION. The largest religious groups are the Anglicans with 85,640 members (36% of the non-African population), the Presbyterians with 28,630 members (12%) and the Roman Catholics with 35,500 (15%), according to the 1961 census. There are no accurate figures for Africans.

EDUCATION (1963). For the financial year 1963/64 the estimates for African education were £5.84m. There were 3,043 schools with 15,635 African teachers, 608 European teachers and 624,526 pupils.

Mission and government training centres are available for primary teachers' courses. In Jan. 1963 the Government opened the Gwelo Teachers' College. Secondary schools number 49; in 1963, 8 new junior secondary schools were opened. There are post-primary schools offering courses in building, carpentry, agriculture, tailoring, homecraft. Four special schools cater for the blind, the deaf and the dumb. Over 95% of the children aged 6 to 16 years are in school.

SOCIAL WELFARE. The Children's Protection and Adoption Act provides for the establishment of juvenile courts, the protection, welfare and supervision of children and juveniles; the establishment of corrective institutions and the treatment therein; the recognition, registration and inspection of certified institutions for the reception and custody of juveniles; for the adoption of minors and other matters. Administrative procedures make provision for public assistance and certain grants-in-aid.

JUSTICE. There is a high court (composed of a chief justice and 6 judges) with criminal and civil jurisdiction. The Chief Justice and 4 other judges are stationed at Salisbury; and 2 judges are stationed at Bulawayo. Sittings are also held at three other principal towns six times a year. There are 16 principal courts of magistrates and several periodical courts.

The Native Law and Courts Act, 1957, has established native courts with jurisdiction in civil matters which can be decided by native customary law.

FINANCE. Revenue and expenditure (in £1,000) for 5 years (year ended 30 June):

Total	27,444	31,270	29,536	31,477	34,089

¹ Unaudited.

² Estimates.

Receipts from Southern Rhodesia's share (14%) of basic tax on income or profits during the year ended 30 June 1963 were £6,114,510; territorial surcharge on income tax, £3,89m.; customs duty on motor spirit, £4,394,906; stamp duties and fees, £758,258; business licences, £542,831; personal tax, £2,610,265; mining revenue, £460,543 (from royalties and mining fees); interest on loans and advances, £2,471,334; vehicle tax and registration fee, £1,149,057; death duty, £355,543; transfer duty, £231,032.

Principal items of expenditure from revenue funds were as follows: £4,131,782 for service of loans; £4,792,911 for police; £478,954 for irrigation; £429,209 for mines and industrial development; £1,260,469 for local government, housing and public works; £3,584,077 for internal affairs (including agriculture, lands and natural resources); £2,001,916 for roads and bridges; £2,101,176 for pensions; £5,123,539 for African education; £532,738 for social welfare.

The net amount of the public debt outstanding at 30 June 1963 was £74,320,920.

NATURAL RESOURCES. When responsible government was granted, the British South Africa Company relinquished all rights and interests in the land in Southern Rhodesia, except in the estates which it was already developing and working on 10 July 1923, but was recognized by the Crown as the owner of the mineral rights throughout both Southern and Northern Rhodesia. In 1933 the mineral rights in Southern Rhodesia were purchased by the Government for £2m.

The Natural Resources Board, set up in 1941, is regarded as the trustee of the natural resources of the Colony. The resources are clearly defined as the soil, water and minerals, the animals, bird and fish life; the trees, grasses and other vegetation; the springs, marshes, swamps and public streams; other features the Governor may proclaim as natural resources such as landscapes and scenery. The principal executive bodies are the Intensive Conservation Area Committees of which there were 144 in 1963, covering the whole of the European farming area and about 50% of the African Purchase Areas. In the Tribal Trust Areas the Board has its Tribal Trust Land Committee.

Agriculture. Total production of African grown crops in 1961-62 season was: Maize, 4,306,000 bags (of 200 lb.); Kaffir corn, 916,000 bags; munga, 1,208,000 bags; beans, 100,000 bags; groundnuts, 1,175,000 bags; rice, 28,000 bags; wheat, 15,000 bags; cotton, 407,237 lb.; Turkish tobacco, 54,192 lb. Total sales of African grown crops harvested in 1962 amounted to £2,891,259.

African-owned livestock (1962): Cattle, 2,090,725; sheep, 144,342; pigs, 54,143; goats, 451,498. Cattle sold, 91,310 heads; cattle slaughtered, 49,174 heads.

Mining. The total value of all minerals produced in 1962 was £25,001,000 (1961: £27,162,000): Output (in 1,000 tons) and value (in £1,000):

	Output			Value		
	1960	1961	1962	1960	1961	1962
Asbestos	134	162	142	7,472	8,747	7,310
Gold (1,000 oz.)	563	570	555	7,073	7,164	6,946
Chrome ore	668	591	508	3,746	3,364	2,708
Coal	3,700	3,387	3,115	3,756	3,259	2,972
Copper	15	15	15	2,560	2,641	2,723

Industries. Manufacturing industries are becoming increasingly important and have been stimulated by the abrogation of the Customs Convention with the Union in 1955 and the substitution of a trade agreement. The gross output of manufacturing industries in 1959-60 was £120,067,000 (1958-59, £109,194,000). The net output, in 1959-60 was £48,83m. (1958-59, £44,661,000).

Labour. In 1962 the monthly average of non-Africans in employment was 88,600 and of Africans, 613,000. Largest employers in 1961 were agriculture (241,334), manufacturing (97,350), construction (48,933), mining (50,153) and domestic service (80,080).

The conditions of service for all workers in all industries other than agriculture and private domestic service are negotiated through the 25 Industrial Councils and the 51 Industrial Boards established under the Industrial Conciliation Act. The training, including full-time technical training, and conditions of employment for apprentices of all races are determined by Apprenticeship Committees established in terms of the Apprenticeship Act. There is a system of national employment exchanges including youth employment and careers advisory services.

Workmen's compensation is by compulsory insurance through a Government established fund. Health and safety in industry is safeguarded through the Factories and Works Act.

BANKING. Barclays Bank DCO maintains 32 branches and 47 agencies; National Overseas & Grindlays Bank, 9 branches; Netherlands Bank of South Africa, 7 branches, 1 agency; Standard Bank of South Africa, 28 branches, 53 agencies; Ottoman Bank, 2 branches.

NORTHERN RHODESIA

CONSTITUTION AND GOVERNMENT. By an Order in Council dated 4 May 1911 the two provinces of North-eastern and North-western Rhodesia were amalgamated under the name of Northern Rhodesia, with effect from 17 Aug. 1911.

By an Order in Council dated 20 Feb. 1924 the office of Governor was created, an executive council constituted and provision made for the institution of a legislative council. This latter council has, since 1945, an unofficial majority. On 1 April 1924 the British South Africa Company was relieved of the administration of the territory by the Crown.

Governor: Sir Evelyn Dennison Hone, KCMG, CVO, OBE.

After the dissolution of the Federation of Rhodesia and Nyasaland a new constitution for Northern Rhodesia came into force on 3 Jan. 1964. The country has internal self-government in preparation for independence to be achieved in 1964 (after which Northern Rhodesia will be renamed Zambia).

The Executive Council has been replaced by a Cabinet, consisting of the Prime Minister and not more than 13 other Ministers.

The legislature consists of 75 members, of whom 65 are elected on main roll (adult franchise) African constituencies and 10 in reserved European constituencies. Asians and Coloured can choose which roll they wish to vote on, and members of any race can stand as candidates.

All laws passed by the Legislative Assembly must have the consent of the Litunga of Barotseland, before they can be applied to this British protectorate inside Northern Rhodesia.

The Governor has the usual reserved powers in self-governing constitutions. There is a constitutional council whose functions include the considering whether Bills referred to it by members of the legislature are consistent with the Bill of Rights.

The elections held on 21 Jan. 1964 returned 55 United National Independence Party, 10 African National Congress, 10 National Progress Party.

The UNIP cabinet, sworn in on 23 Jan. 1964, is composed as follows:

Prime Minister: Kenneth Kaunda. *Home Affairs:* Simon Kapwepwe. *Finance:* Arthur Wina. *Agriculture:* Elija Mudenda. *Land and Works:* Solomon Kalulu. *Justice:* Mainza Chona. *Commerce and Industry:* Alexander Grey Zulu. *Education:* John Mwanakatwe. *Transport and Communications:* Reuben Kamanga. *Natural Resources:* Munukayumbwa Sipalo. *Housing and Social Development:* H. D. Banda. *Local Government:* Nalumino Mundia. *Labour and Mines:* Justin Chimba. *Health:* Sikota Wina.

Commissioner in London: J. P. Murray, OMB (57 Haymarket, SW1).

The territory is divided into 8 provinces, including the Barotseland Protectorate. Their names, headquarters, area (in sq. miles) and census population (in 1963) are as follows:

Province	Headquarters	Area	Population
Western	Ndola	11,430	496,200
Luapula	Fort Rosebery	19,522	359,000
Northern	Kasama	51,018	563,000
Central	Broken Hill	43,300	472,000
Eastern	Fort Jameson	30,870	485,200
Southern	Livingstone	38,290	485,500
North-Western	Solwezi	48,780	210,000
Barotseland Protectorate	Mongu Lealui	44,920	366,100

The seat of government is at Lusaka, on the railway about 30 miles north of the Kafue River, having been moved from Livingstone, the old capital, on 28 May 1935. The other important centres are Ndola, Luanshya, Mufulira, Kitwe, Bancroft, Kalulushi, and Chingola, on the Copperbelt; Broken Hill, the oldest mining township; Fort Jameson, centre of a tobacco farming area.

The establishment of the Northern Rhodesia Police Force in 1963 was 132 superior officers, 866 subordinate officers, 5,141 other ranks, 18 cadets and 50 buglers.

AREA AND POPULATION. The area is 290,323 sq. miles (751,900 sq. km). The population at 30 June 1963 consisted of: Europeans, 77,000; Africans, 3.41m.; Asians, 8,400; Coloureds, 2,200.

European vital statistics, 1962: Births, 2,121; deaths, 308. Immigration, 1962: 3,068 Europeans; 255 Asians and Coloureds.

AFRICAN EDUCATION (1962). About 62% of the children of primary school age were enrolled at school. 322,074 attended aided and maintained primary schools, and 4,876 secondary schools. There were also 12 teacher-training schools and 29 technical and vocational institutions.

Bursaries are awarded for students to attend higher courses outside the territory, and 90 such bursaries were current in 1962. Recurrent expenditure on education during the fiscal year 1961-62 was £3,028,000.

FINANCE. Revenue and expenditure (in £1,000) for fiscal years ending 30 June:

The public debt at 30 June 1962 was £50,811,907, of which the Federal Government was responsible for servicing and repaying £19,745,711.

DEFENCE. The Northern Rhodesia Defence Force has an air-wing of 4 Dakota and 2 Pembroke transports transferred from the Royal Rhodesian Air Force. Planned strength is 2 squadrons of transport and reconnaissance aircraft.

PRODUCTION. Agriculture. Principal agricultural products are maize (1961-62 sales by Europeans, 1,288,000 bags of 200 lb; by Africans, 871,000 bags); tobacco, Kaffir corn, millet, cassava and groundnuts. The most important timber is Rhodesian 'redwood' (*Baikiaea plurifuga*).

Livestock (1962): African-owned, 1,056,184 cattle, 176,515 sheep and goats, 61,233 pigs; European-owned, 215,000 cattle, 940,400 sheep and goats; 11,200 pigs.

Mining. The total value of minerals produced in 1961 was £121,122,591 (1962: £117,594,345), the most important items being (in 1,000 tons and £1,000):

	Output		Value	
	1961	1962	1961	1962
Copper (blister)	166.7	111.9	28,349	21,991
Copper (electrolytic)	458.9	426.4	85,810	90,187
Zinc	33.4	39.8	2,205	2,310
Lead	17.0	14.5	1,010	639
Manganese	58.9	45.9	466	132
Cobalt	..	47.8	1,985	946

Systematic prospecting by the copper mining companies continues in the Copperbelt area, large areas to the north-west and south-west of the Copper-

belt and on the Luapula River. Prospecting activities by individual prospectors are carried out on a small scale only; since all but about 5% of the Territory is held by companies under exclusive prospecting rights.

Power. There are hydro-electric power-stations at Mulungushi and Lunsemfwa, which serve the Broken Hill mine and township, and at the Victoria Falls, which serves Livingstone. The Kariba hydro-electric undertaking on the Zambezi River is now in operation (*see* p. 500).

Labour. In 1962 there were 49,250 non-Africans in employment. In 1961 African employment was 238,000, principally in agriculture (40,300), mining (37,800), manufacturing (21,600), construction (30,000) and domestic service (33,400).

BANKING. Barclays Bank DCO has 15 branches and 12 agencies; the Standard Bank of South Africa Ltd, 13 branches and 9 agencies; National Overseas & Grindlays, 3 branches, and Netherlands Bank of South Africa Ltd, 2 branches; the Federal post office savings bank has branches throughout the territory.

The Land and Agricultural Bank of Northern Rhodesia, founded in 1953, and the Northern Rhodesia Industrial Development Corporation (financed by the Government) assist agriculture and industry by providing loans.

GHANA

CONSTITUTION AND GOVERNMENT. The State of Ghana came into existence on 6 March 1957 when the former Colony of the Gold Coast and the Trusteeship Territory of Togoland attained Dominion status. The name of the country recalls a powerful monarchy which from the 4th to the 13th century A.D. ruled the region of the middle Niger.

The Ghana Independence Act received the Royal assent on 7 Feb. 1957. The General Assembly of the United Nations in Dec. 1956 approved the termination of British administration in Togoland and the union of Togoland with the Gold Coast on the latter's attainment of independence.

National flag: Red, white, green (horizontal) with a black star in the centre.

On 23 Nov. 1958 Ghana and Guinea agreed to constitute the two countries as the nucleus of a union of West African states. In Dec. 1960 Mali was admitted to the Ghana-Guinea union. The charter of the union was formally published on 1 July 1961.

The country was declared a republic within the Commonwealth on 1 July 1960.

The Constitution of Ghana, which came into force on 1 July 1960, provides for a Parliament, consisting of the President of the Republic and the National Assembly. The National Assembly consists of 104 members elected by direct election and 10 specially elected women members.

The executive power is vested in the President of the Republic and a cabinet of at least 8 members collectively responsible to Parliament.

Both the President and Parliament are elected at the same time for a 5-year term; the President shall be a member of the political party in majority in the National Assembly. The candidate for the Presidency need not necessarily be a member of Parliament, but if he is, he has to vacate his seat on his election to the office of President.

The results of the general election held in July 1956 were as follows: Convention People's Party, 71; Northern People's Party, 15; National Liberation Movement, 12; Togoland Congress, 2; Moslem Association Party, 1; Federation of Youth Organization, 1; Independents, 2. In Oct. 1957 the opposition parties formed the United Party. State of parties in Dec. 1963 was as follows: Convention People's Party, 87; United Party, 15; independent, 1.

In Jan. 1964 President Nkrumah introduced the one-party state in which only his Convention People's Party is permitted to operate. A fraudulent referendum approved this measure by a 99.99% majority.

President of the Republic and Minister of Finance: Osagyefo Dr Kwame Nkrumah, PC.

The cabinet was in April 1964 constituted as follows:

Foreign Affairs: Kojo Botsio. *Trade:* A. Y. K. Djin. *Interior:* Kwaku Boateng. *Justice:* Kofi Asante Ofori-Atta. *Health:* L. R. Abavava. *Works and Communications:* E. K. Bensah. *Agriculture:* Krobo Edusei. *Education:* A. J. Dowuona Hammond. *Defence:* Kofi Baako. *Information and Broadcasting:* A. E. Inkumsah. *Labour and Social Welfare:* O. Owusu Afriyie. *Industries:* Imoru Egala.

In Oct. 1961 a State Planning Commission and a State Control Commission were set up with wide powers 'to ensure proper planning, co-ordination and control of all government activities'. President Nkrumah is chairman of both commissions. Forty special boards, with special subjects assigned to them, have been set up; they work under the general supervision of the President.

The 5-year development plan, launched in July 1959, was suspended in Jan. 1962 and, in Jan. 1964, replaced by a 7-year development plan.

REGIONAL ORGANIZATION: Ghana is divided into 8 regions: Eastern, Western, Ashanti, Northern, Volta, Central, Upper and Brong-Ahafo.

Each Region is administered by a Commissioner with the rank of a Minister. Regional Assemblies were dissolved in 1959.

EDUCATION. In the 1963-64 the 2 independent universities—Nkrumah University of Science and Technology and the Kwame Ninsin University of Education with the con-

The Institute of Physical Education established in 1962, had in Dec. 1962 an enrolment of 1,000. The Government has established workers' colleges in the principal towns.

Compulsory, fee-free primary and middle school education was introduced in Sept. 1961. Primary and middle schools, in 1962-63 numbered 8,677; they were attended by nearly 900,000 children.

There was 74 secondary schools with 23,000 students, while 3,000 were in training at the 9 government technical institutes. The number of training colleges was 32, with over 5,000 trainees.

Since Sept. 1963 the Government has been supplying free textbooks to all pupils in primary, middle and secondary schools.

Recurrent expenditure by the Ministry of Education in 1962-63 was £4.6m. on primary schools and £2.4m. on middle schools.

RESEARCH. The West African Inter-Territorial Research Organisation with its headquarters in Accra has been abolished, and each country (Ghana, Nigeria, Sierra Leone and Gambia) has taken over the research units within its borders. In Ghana its functions have been taken over by the Ghana Academy of Science, which plans and co-ordinates all research activities in the country.

Newspapers. In Oct. 1962 the last independent newspaper was brought under government control, apart from the (Roman) 'Catholic Standard' and the (Presbyterian) 'Christian Messenger'.

Ghana Airways, operating domestic, regional and international services, was incorporated in Accra on 4 July 1958. On 14 Feb. 1961 it bought up the 40% share held by BOAC.

CURRENCY. The unit of currency is the Ghana pound, issued by the Bank of Ghana and in circulation since 14 July 1958 to replace the currency issued by the West African Currency Board. From 1 July 1959 the Ghana pound has been the sole legal tender. It consists of notes of £G5 and £G1 and 10s.; coins of 2s., 1s., 6d., 3d., 1d., ½d.

The Ghana pound is freely interchangeable with the pound sterling.

The currency outstanding at 31 Dec. 1962 was £G54m.

Decimal currency will be introduced on 5 July 1965; the unit will be the *cedi* (= 8s. 4d.) divided into 100 *pesewa* (= 1d.).

BANKING. The Bank of Ghana was established in Feb. 1957 as the central bank of the country. The Ghana Commercial Bank, also established in Feb. 1957, is the former Bank of the Gold Coast. It is a purely commercial institution and has 66 branches in the country and one in London. Barclays Bank DCO has 55 branches and agencies and the Bank of West Africa Co. has 42 branches.

The Ghana National Investment Bank, opened in June 1963, is a finance-development agency with an authorized share capital of £G10m.

At 31 March 1962 the post office savings bank had 656,000 depositors with £G4.4m. to their credit.

In Oct. 1962 all private insurance business was taken over by the State Insurance Corporation.

FEDERATION OF MALAYA

PERSEKUTUAN TANAH MELAYU

CONSTITUTION AND GOVERNMENT. The Federation of Malaya comprises the 11 States of Johore, Pahang, Negeri Sembilan, Selangor, Perak, Kedah, Perlis, Kelantan, Trengganu, Penang, and Malacca. On 31 Aug. 1957 the Federation became the eleventh sovereign member-state of the Commonwealth of Nations. For earlier history of the States and Settlements see THE STATESMAN'S YEAR-BOOK, 1957, pp. 241 f.

The constitution is based on the agreements reached at the London conference of Jan-Feb. 1956, between H.M. Government in the United Kingdom, the Rulers of the Malay States and (which at the first federal elections on 27 July 1955 52 elected members), and subsequently worked out by the Constitutional Commission appointed after that conference.

The constitution provides for one of the 9 Rulers of the Malay States to be elected from among themselves to be the Yang di-Pertuan Agong (Supreme Head of the Federation). He holds office for a period of 5 years. The Rulers also elect from among themselves a Deputy Supreme Head of State, also for a period of 5 years.

Supreme Head of State (Yang di-Pertuan Agong): H.M. Tuanku Syed Putra ibni Al-marhum Syed Hassan Jamalullail, DMN, SMN, DK, KCMG, Ruler of Perlis (elected 21 Sept. 1960).

Deputy Head of State (Timbalan Yang di-Pertuan Agong): H.H. Sultan Ismail Nasiruddin Shah ibni Al-marhum Sultan Zainal Abidin, DK, SPMT, DMN, DK, KCMG, Ruler of Trengganu (elected 21 Sept. 1960).

Parliament consists of the Yang di-Pertuan Agong and two Majlis (Houses of Parliament), known as the Dewan Negara (Senate) of 38 members and Dewan Rakyat (House of Representatives) of 104 members. The life of the Senate is 6 years, and the maximum life of the House of Representatives is 5 years, subject to its dissolution at any time by the Yang di-Pertuan Agong on the advice of his Ministers.

The first elections to the House of Representatives were held on 19 Aug. 1959. The strength of parties in Dec. 1962 was: Alliance Party, 74; Pan-Malayan Islamic Party, 12; People's Progressive Party, 5; Socialist Front, 8; Malayan Party, 1; Independents, 4.

Sultan of Pahang: H.H. Sultan Abu Bakar Ri'ayatu'd-din Al-mu'adzam Shah ibni Al-marhum Al-mu'tasim Bi'llah Sultan Abdullah, DMN, DK, GCMG.

Sultan of Selangor: Sultan Ismail Nasiruddin Shah ibni Al-marhum Sultan Zainal Abidin, DK, SPMT, DMN, DK, KCMG, acceded 16 Dec. 1945.

Sultan of Perak: H.H. Sultan Idris Shah Ibni Sultan Iskandar Shah, acceded Jan. 1963.

Sultan of Kedah: H.H. Sultan Abdul Halim Maudzam Shah ibni Al-marhum Sultan Badlishah, DMN, KOM, acceded 14 July 1958.

Sultan of Johore: H.H. Sultan Ismail ibni Al-marhum Sultan Ibrahim, DMN, DK, SMN, SPMK, SPMK, DK, KBE, CMG, acceded 8 May 1959; crowned 10 Feb. 1960.

The public debt of the Federation at the end of 1962 was \$1,491,615,285, excluding treasury bills and treasury deposits.

DEFENCE. *Army.* The active army is an all regular force consisting of infantry, reconnaissance and artillery regiments with supporting engineers, signals and logistics units. Infantry units are Malay and the remainder of the army is multi-racial.

Since the emergency ended in 1960, emphasis has been placed on organizing a small but balanced force which is being equipped with modern weapons.

Navy. The administration of the Royal Malayan Navy was transferred from the Singapore Government to Federation Government in 1958. Command is exercised by the Chief of the Naval Staff from the integrated Ministry of Defence in Kuala Lumpur. The main naval base is KD *Malaya* situated on Singapore Island near the RN dockyard. This establishment is responsible for the operation and administration of the ships and the training of personnel.

The ships include 1 frigate, 4 coastal minesweepers, 4 inshore minesweepers and 6 fast patrol craft; 4 more fast patrol craft are under construction in Britain. The peace-time tasks are primarily fishery protection and anti-piracy patrols.

Air Force. The Royal Malayan Air Force is equipped primarily for tactical military air transport roles. Its main task is to support the Army, Navy and Police. Equipment includes 4 Herald turboprop transports, 2 Herons, 3 Doves, 14 Twin Pioneer and 8 Pioneer light transports, able to operate from jungle airstrips, Alouette helicopters and Provost and Chipmunk trainers.

Volunteer Forces. The Army Volunteer Force (Territorial Army) consists of first-line infantry, signals, engineer and logistics units able to take the field with the active army, and a second-line organization to provide local defence. There is also a small Naval Volunteer Reserve with Headquarters in Penang and Kuala Lumpur. The Royal Malayan Air Force Volunteer Reserve has both air and ground elements.

Federation Military College. The College, founded in 1953, is now accommodated at Sungei Besi near Kuala Lumpur. It has a Boys' Wing which prepares young Malaysians 'to take their places as officers in the Armed Forces, in the higher divisions of the public service and as leaders in the professional, commercial and industrial life of the country'. The Cadet Wing trains officers for both regular and short service commissions in the Armed Forces.

PRODUCTION. *Agriculture.* Total area under agricultural crops (1962), 6.1m. acres.

Rice: Production in 1961 (and 1962): 604,970 (574,090) tons from 948,710 (961,540) acres.

CONSTITUTION AND GOVERNMENT. For the early history of the settlement (1819) and colony (1867) see *THE STATESMAN'S YEAR-BOOK*, 1959, pp. 246 f.

An agreement signed in London on 11 April 1957 provided for the constitution of a State of Singapore with full internal self-government and the creation of a Singapore citizenship. The State of Singapore Bill, an enabling Act to give effect to the agreement, received the royal assent on 1 Aug. 1958. The constitution came into force on 3 June 1959.

The Queen's representative is a Malayan Yang di-Pertuan Negara or Head of State. The Cabinet is presided over by the Prime Minister. The elected Legislative Assembly consists of 51 members from single-member constituencies and is presided over by a Speaker of their own selection. The High Commissioner remains responsible for defence and external affairs and the Government of Singapore, acting with the assent of the UK Government, is responsible for trade and cultural relations with other countries.

The right to vote in Legislative Assembly elections is confined to citizens, as defined in the Citizenship Bill passed in 1957. Citizenship is automatic by birth. It may also be acquired on registration by citizens of the United Kingdom and colonies, those born in the Federation of Malaya, British Borneo territories, and citizens of other states in the Commonwealth which recognize Singapore citizenship, after 8 years' residence: and by naturalization. There is no disqualification on grounds of sex, literacy or property. There is a common roll without communal electorates.

Head of State (Yang di-Pertuan Negara): Inche Yusof bin Ishak (sworn in 3 Dec. 1959).

The election held on 21 Sept. 1963 resulted in a Legislative Assembly composed of 37 People's Action Party, 13 Barisan Socialists and 1 United People's Party.

The People's Action Party cabinet, formed on 19 Oct. 1963, is composed as follows:

Prime Minister: Lee Kuan Yew. *Deputy Prime Minister:* Dr. Toh Chin Chye.

Finance: Dr Goh Keng Swee. *Culture:* S. Rajaratnam. *Education:* Ong Pang Boon. *Health:* Yong Nyuk Lin. *National Development:* Lim Kim San. *Labour:* Jek Yuen Thong. *Home Affairs and Social Welfare:* Othman Wok.

AREA AND POPULATION. The state of Singapore consists of Singapore Island itself, with some adjacent islets.

Singapore Island is situated off the southern extremity of the Malay

peninsula, to which it is joined by a causeway carrying a road and railway. The straits between the island and the mainland are about three-quarters of a mile wide. The island is some 26 miles in length and 14 miles in breadth, and about 224.5 sq. miles (581.5 sq. km) in area, including the adjacent islets. Estimated population by race, Dec. 1961: 1,287,700 Chinese, 240,200 Malays and Indonesians, 142,900 Indians and Pakistanis, 13,800 Europeans, 13,300 Eurasians and 14,700 others; total 1,712,600.

EDUCATION. Statistics of registered institutions for 1961:

Classification	Schools	Enrolment	Teachers
Government schools	204	205,017	6,849
Government aided schools	290	183,264	5,929
Non-aided schools	74	13,306	467
Other registered institutions	81	20,000	365
Total	649	421,587	13,610

The seeming reduction from the 1960 figures is due to a re-definition of the term 'school'.

On 1 Jan. 1962 the Singapore division of the University of Malaya was constituted as the University of Singapore; it contains faculties of arts, science, medicine (including dentistry and pharmacy), engineering and law. It numbered 1,561 male and 573 female students in 1962-63. The Nanyang University, established in 1956, has 3 faculties (arts, science, commerce) with 2,110 students in 1962. The Singapore Polytechnic had 1,465 full-time and 1,270 part-time students in 1962-63.

Cinemas. Singapore had, in 1962, 70 cinemas with a seating capacity of 50,000.

Newspapers (1962). There were 4 Chinese daily newspapers (circulation 198,000), 2 English (136,000) and one each in Malay (32,000), Tamil (22,000) and Malayalam (6,000). Sunday newspapers: 3 Chinese (198,000), 2 English (182,000), 1 Malay (35,000).

Ministry of Education, *First Educational Triennial Survey, 1955-7*. Singapore, 1959.

JUSTICE. The Supreme Court is a court of record and consists of (a) the High Court, which exercises original criminal and civil jurisdiction and appellate criminal and civil jurisdiction in appeals from subordinate courts; (b) the Court of Appeal and (c) the Court of Criminal Appeal, which exercise appellate civil and criminal jurisdiction respectively in appeals from the High Court. The Supreme Court is composed of a Chief Justice and 5 puisne judges. An appeal lies from the Supreme Court to the Privy Council. There are also district, magistrates', juvenile and coroners' courts.

FINANCE. Public revenue and expenditure for calendar years, in Malayan dollars (\$1.00 = 2s. 4d.):

	1959	1960	1961	1962
Revenue	274,819,527	311,264,200	397,432,446	391,109,000
Expenditure	253,825,769	243,376,143	384,721,090	394,026,200

Public debt on 31 Dec. 1961 amounted to \$200m. (i.e., Straits Settlements 3% loan, 1962-72, \$30m.; Singapore 3% rehabilitation loan, 1962-70,

SABAH

HISTORY. North Borneo was in 1877-78 ceded by the Sultans of Brunei and Sulu and various other rulers to a British syndicate, which in 1881 was chartered as the North Borneo Company. The sovereign rights and assets of the North Borneo Company were transferred to the Crown with effect.

from 15 July 1946. On that date, the island of Labuan (ceded to Britain in 1846 by the Sultan of Brunei) became part of the new Colony of North Borneo and the first Colonial Government assumed the administration of the territory. On 16 Sept. 1963 North Borneo joined the new Federation of Malaysia and is now known as the State of Sabah.

GOVERNMENT AND CONSTITUTION. The constitution of the State of Sabah provides for a Head of State, called the Yang di-Pertua Negara. The Executive authority is vested in the Yang di-Pertua Negara, who is advised by a State Cabinet in the exercise of his functions.

Head of State: Datu Mustapha bin Datu Harun, OBE.

The Cabinet consists of a Chief Minister, 6 Ministers and 3 *ex-officio* members.

Chief Minister: Donald Stephens.

Communications and Works: Khoo Siak Chiew. *Social Welfare:* Pang Tet Tshung. *Health:* G. S. Sundang. *Local Government:* Inche Harris bin Mohammed Salleh. *Agriculture and Fisheries:* Inche Mohammed Said bin Keruak. *Land and Natural Resources:* Richard E. Yap.

State Secretary: R. N. Turner, CMG. *State Attorney-General:* W. K. H. Jones. *State Financial Secretary:* H. W. Davidson, CMG, MBE.

The Legislative Assembly consists of the Speaker, 3 *ex-officio* members, 18 nominated members and not more than 6 additional nominated members.

AREA AND POPULATION. Area, about 29,388 sq. miles (80,500 sq. km), with a coastline of about 900 miles. The interior is mountainous, Mount Kinabalu being 13,455 ft (4,175 metres) high. Population (1960 census), 454,421, of whom 306,498 were natives, 104,542 Chinese, 1,896 Europeans and Eurasians and 41,485 others. The native population comprises Kadazans (mainly agricultural), Bajaus and Bruneis (agriculture and fishing) Muruts (hill tribes), Suluks (mostly seafaring) and several smaller tribes.

The island of Labuan, 35 sq. miles (75 sq. km) in area, lying 6 miles off the north-west coast of Borneo, has a fine port, Victoria Harbour, safe and easy of access.

The principal towns are situated on or near the coast. They include Jesselton (the capital; 1960 census population, 21,497), Sandakan (29,291), Beaufort, Kudat, Tawau on the mainland and Victoria on the island of Labuan.

EDUCATION. There are 110 government and 344 grant-aided primary schools and 6 government and 23 grant-aided secondary schools. Government also maintains a trade school, a teachers' training college and a training centre for rural school teachers. A number of adult evening classes in science, languages, mathematics, shorthand and book-keeping are conducted. Primary education is provided in Malay, Chinese, English and to a very small degree in Kadazan, the language of the largest indigenous community. Secondary education is principally in English.

In 1962 the enrolment in primary schools was 58,046, of whom 35,612 were boys and 22,434 were girls. This constitutes 70% of the estimated primary age group in North Borneo. There were 5,615 pupils in secondary

schools, of whom 3,734 were boys and 1,781 were girls. The expenditure by the Education Department from colony funds in 1962 was \$5,935,545.

Newspapers. There are 3 English and 6 Chinese daily newspapers.

HEALTH. The principal diseases are malaria, pulmonary tuberculosis and intestinal infestations.

There are 2 general hospitals (671 beds) and 7 cottage hospitals (542 beds). Thirty-two dispensaries in outlying districts are staffed by senior dressers under the supervision of district medical officers. During 1962 there were 398,869 new outpatients and 25,031 new inpatients at these institutions. A new hospital at Tawau (with eventually 640 beds) is being built.

There is a mental hospital at Sandakan (160 beds). There are maternal and child health centres at Sandakan, Jesselton, Labuan and Keningau; 68 subsidiary rural health clinics are in various parts of the country. Rural health nurse/midwives are being trained at Jesselton and in the surrounding rural areas, and traditional midwives are also receiving short training courses at hospitals.

JUSTICE. The courts functioning throughout the Colony for the administration of civil and criminal law are the Supreme Court of Sarawak, North Borneo and Brunei, comprising the Court of Appeal and the High Court, and magistrate's courts of the first, second and third class. The Supreme Court has unlimited jurisdiction, while the powers of magistrates are limited according to class.

There are also 35 native courts with jurisdiction in cases concerning Islamic law and local native customs. Appeal from these courts lies to administrative officers, with a final appeal to the Native Court of Appeal.

In 1962, 4,791 convictions were obtained in 4,841 cases taken to court. Strength of police force on 31 Dec. 1962 was 25 officers and 1,006 men. Strength of prison service was 2 officers, 65 men and 3 women.

SARAWAK

HISTORY. The government of part of the present territory was obtained on 24 Sept. 1841 by Sir James Brooke from the Sultan of Brunei. Various accessions were made between 1861 and 1905. In 1888 Sarawak was placed under British protection. On 16 Dec. 1941 Sarawak was occupied by the Japanese. After the liberation the Rajah took over his administration from the British military authorities on 15 April 1946 and ceded Sarawak to the British Crown on 1 July 1946.

On 24 Sept. 1941 the Rajah began to rule through a constitution. Since 1855 two bodies, known as the Supreme Council and the Council Negri, had been in existence. By the constitution of 1941 they were given, by the Rajah, powers roughly corresponding to those of a colonial executive council and legislative council respectively. The Council Negri, on 17 May 1946, authorized the Act of Cession to the British Crown by 19 to 16 votes. On 16 Sept. 1963 Sarawak joined the new Federation of Malaysia.

CONSTITUTION AND GOVERNMENT. Sarawak has retained a considerable measure of local autonomy in state affairs. The Council Negri or Legislature, consists of 36 elected members, 3 *ex-officio* members (the State Secretary, Financial Secretary and Attorney-General); 3 nominated members and a Speaker.

A ministerial system of government was introduced in 1962. The Chief Minister presides over the Supreme Council, which contains 5 other elected members, 4 of whom are Ministers, plus the 3 *ex-officio* members.

Elections to the Council Negri on 15 July 1963 returned 19 members of the Sarawak Alliance, 10 of the Sarawak United People's Party and the Party Negara coalition and 7 independents who support the Alliance.

Governor: Datu Abang Haji Openg, OBE.

Chief Minister: Stephen Kalong Ningkan.

Natural Resources: Teo Kui Seng. *Communications and Works:* Inche Abdul Taib bin Mahmud. *Local Government:* Dunstan Endawi anak Enchana. *Ministers of State:* Awang Hipni bin Pengiran Annu; James Wong Kim Ming (*Deputy Chief Minister*).

State Secretary: G. A. T. Shaw. *State Attorney-General:* P. E. H. Pike.

State Financial Secretary: B. A. Hepburn.

AREA AND POPULATION. The area is about 48,250 sq. miles (121,900 sq. km), with a coastline of 450 miles and many navigable rivers.

Estimated population at the end of June 1962 was 776,990, including 244,435 Chinese; 241,544 Sea Dayaks; 136,232 Malays; 60,890 Land Dayaks; 45,976 Melanaus; 39,262 other indigenous; 6,914 non-indigenous; 1,737 Europeans.

The chief towns are the capital, Kuching, about 21 miles inland, on the Sarawak River (population 50,679), Sibu, 80 miles up the Rejang River, which is navigable by large steamers (population 29,630), and Miri, the headquarters of the Sarawak Shell Oilfields, Ltd (population 13,500).

RELIGION. There are Church of England, Roman Catholic, American Methodist, Seventh Day Adventist and Borneo Evangelical missions. There is a large Moslem population.

FEDERATION OF NIGERIA

HISTORY. The Federation comprises a number of areas formerly under separate administrations. Lagos, ceded in Aug. 1861 by a local king, was placed under the Governor of Sierra Leone in 1866. In 1874 it was detached, together with the Gold Coast Colony, and formed part of the latter until Jan. 1886, when a separate 'colony and protectorate of Lagos' was constituted. Meanwhile the National African Company had established British interests in the Niger valley, and in July 1886 the company obtained a charter under the name of the Royal Niger Company. This company surrendered its charter to the Crown in 1899, and on 1 Jan. 1900 the greater part of its territories was formed into the new protectorate of Northern Nigeria. Along the coast the Oil Rivers protectorate had been declared in June, 1885. This was enlarged and renamed the Niger Coast protectorate in 1893; and on 1 Jan. 1900, on its absorbing the remainder of the territories of the Royal Niger Company, it became the protectorate of Southern Nigeria. In Feb. 1906 Lagos and Southern Nigeria were united into the 'colony and protectorate of Southern Nigeria', and on 1 Jan. 1914 the latter was amalgamated with the protectorate of Northern Nigeria to form the 'colony and protectorate of Nigeria', under a Governor. On 1 Oct. 1954 Nigeria became a federation under a Governor-General.

CONSTITUTION. On 1 Oct. 1960, the Federation of Nigeria became sovereign and independent and a member of the Commonwealth of Nations. On 1 Oct. 1963 Nigeria became a republic.

Nigeria is comprised of the 3 Regions of Northern Nigeria, Western Nigeria and Eastern Nigeria and the Federal Territory of Lagos. Changes of the number of regions and/or the boundaries between regions require the approval of two-thirds of the Federal Parliament and the concurrence of two of the Regional legislatures, one of which has to be the Region affected by the change.

On 13 July 1963, 89% of the Midwest voters voted in a referendum for the creation of a fourth region to be called the Midwest.

Each Region of the Federation is self-governing and has its own constitution. The executive authority of each Region includes the execution and maintenance of the constitution of the Region and all matters with respect to which the legislature of the Region has power to make laws, but such authority must be exercised so as not to impede or prejudice the executive authority of the Federation or to endanger the continuance of the Federal Government in Nigeria.

The Federal Parliament comprises the Senate or Upper House of 44 nominated members from all regions and a House of Representatives of 312 members elected by full adult suffrage in Eastern and Western Nigeria and by adult male suffrage in Northern Nigeria. The Senate, presided over by a President, who may be elected from outside its members, possesses powers to review bills sent to it from the House of Representatives and to initiate bills not dealing with money. It has limited powers to delay all but money bills sent to it from the lower House. The House of Representatives is conducted on the pattern of the House of Commons with a Speaker elected from among its members.

The executive is a Council of Ministers of 27 Federal Ministers under the Prime Minister of the Federation. The Prime Minister and 17 Ministers are responsible for Ministries and there are 10 Ministers of State who assist in various capacities.

Each Region has a bicameral legislature consisting of an elected House of Assembly and a nominated House of Chiefs, each house having powers within the Region similar to its counterpart at the centre. The Ministerial executive, called the Executive Council, is presided over by a Premier.

The division of powers and responsibilities between the Government of the Federation and the Governments of the Regions is defined in the exclusive and concurrent legislative lists attached to the Constitution. The Federal Government is solely responsible, for example, for aviation, external borrowing, currency, external affairs, immigration and emigration, maritime shipping and navigation, mines and minerals, defence forces, railways, trunk roads, telecommunications and posts, museums and various institutes of higher education set up outside the Federal territory of Lagos. The concurrent list includes such matters of common concern as antiquities, arms and ammunition, industrial development, chemical services, census, surveys, water power, etc. Regional Governments have complete powers in respect of social services, local taxation, native and customary courts, local government, regional roads, regional development plans and similar matters.

The official language is English.

The territory of the Cameroons under United Kingdom Trusteeship was formerly administered in conjunction with the Federation of Nigeria. The northern portion of the territory was administered as part of Northern Nigeria, while the Southern Cameroons functioned as a Region of the Federation.

In 1961 the northern portion voted to opt for unification with the Cameroons.

President of the Federal Republic: The Rt. Hon. Dr Nnamdi Azikiwe, FC.

Governor, Northern Nigeria: Sir Ibrahim Kashim, KCMG, CBE.

Governor, Eastern Nigeria: Sir Francis Akanu Ibiam.

Governor, Western Nigeria: Chief J. O. Fadahunsi.

The Federal elections, held in Dec. 1959, gave the Northern People's Congress 142 seats, the National Council of Nigerian Citizens and the Cameroons Party 89 seats and the Action Group 71 seats. On 8 Jan. 1964, 8 opposition members joined the Northern People's Congress.

The Cabinet is a coalition of 13 Ministers of the NPC and 11 of the NCNC; 3 Ministers are senators.

Prime Minister of the Federation: The Rt. Hon. Alhaji Sir Abubakar Tafawa Balewa, PC; KBE, MP. *Minister for External Affairs:* Jaja Wachuku, MP.

Premier, Northern Nigeria: Alhaji Sir Ahmadu Bello, KBE, MHA, Sardauna of Sokoto.

Premier, Eastern Nigeria: Dr M. I. Okpara, MHA.

Premier, Western Nigeria: Chief S. L. Akintola, MHA.

Premier, Mid-West Nigeria: Chief Dennis Osadebay.

LOCAL GOVERNMENT. Local government is the main responsibility of a large number of Native Administrations. Throughout the country, in recent years, the influence of British local government institutions has been increasingly marked. The establishment of Native Authorities or Local Government bodies is controlled by legislation enacted on a regional basis. The Regional Government has authority to dismiss or suspend Councils which run into difficulties. The composition and duties of such councils and Native Authorities are defined by law together with procedure for election and appointment of members and officers. In general, the aim has been to retain the traditional rulers and their courts within the framework of local government.

AREA AND POPULATION. Area approximately 356,669 sq. miles (923,773 sq. km). Census population, Nov. 1963, 55,653,821. Northern Nigeria: 281,872 sq. miles, 29,777,986 population. Eastern Nigeria: 29,484 sq. miles, 12,388,646 population. Western Nigeria: 45,376 sq. miles, 10,278,500 population. Mid-West Nigeria: 2,533,337 population. Lagos: 27 sq. miles, 675,352 population. A census was held in May 1962, but its results were declared null and void in Feb. 1963. A fresh census was held in Nov. 1963.

The populations of the largest towns are estimated as follows: Ibadan, 600,000; Lagos, 450,000; Ogbomosho, 140,000; Kano, 130,000; Oshogbo, 123,000; Ife, 111,000; Iwo, 100,000; Abeokuta, 84,000; Onitsha, 77,000; Ilesha, 72,000; Oyo, 72,000; Port Harcourt, 72,000; Enugu, 63,000; Aba, 58,000; Yerwa-Maiduguri, 57,000; Benin, 54,000; Zaria, 54,000; Katsina, 53,000.

Topography and Climate. A belt of mangrove swamp forest lies along the entire coastline. North of this there is a zone of tropical rain forest and oil-palm bush some 50-100 miles wide. Farther inland the country rises and the vegetation changes to open woodland and savannah. In the extreme north the country is almost desert. There are few mountains except along the eastern boundary and on the northern plateau where peaks of over 5,000 ft. occur. The Niger, Benue and Cross are the main rivers.

The climate varies with the types of country, but Nigeria lies wholly within the tropics, and temperatures are high. Temperatures of over 100° are common in the north; coast temperatures are seldom over 90°, but the humidity at the coast is much higher than in the north. Most of the

rain falls between April and Sept. in the north and between March and Nov. in the south; rainfall varies from under 25 in. a year to 150 in. During the dry-season the 'harmattan' wind, laden with fine particles of dust, blows from the north-east.

RELIGION. The 1952-53 census figures were: Moslems, 13.8m.; Christians, 6.8m.; others, 10.5m.; for details see *THE STATESMAN'S YEAR-BOOK*, 1962, p. 529. The 1962 census figures are expected to show considerable alterations of these figures. Protestants in 1962 numbered 1.3m.

The main Christian missionary societies represent the Roman Catholic, Anglican, Scottish, Methodist and Baptist Churches. In addition, there are several inter-denominational Protestant societies, such as the Sudan Interior Mission, the Sudan United Mission and the Qua Iboe Mission.

EDUCATION. On 1 Oct. 1954 education became the responsibility of the Regional Governments, the Federal Government retaining responsibility for education in Lagos and for those institutions of higher learning which have Nigerian significance, such as the University College at Ibadan, King's College and the Man o' War Bay Training Centre. Free education for all primary schoolchildren within the 6-12 year age group was implemented in Western Nigeria in Jan. 1955 and in Lagos and Eastern Nigeria in Jan. 1957.

In 1961 there were more than 3m. out of about 5m. children of primary school age at school. The demand for secondary education continues to exceed the number of places available, particularly in Eastern and Western Nigeria and in Lagos. There are more than 800 secondary schools, including a large number of secondary modern schools. All external examinations of the Universities of London and Cambridge have been taken over by the West African Examination Council.

Teacher-training institutions totalled 318 in 1961. There were also 23 trade centres and vocational training institutes for sub-professional technicians' and tradesmen.

University College, Ibadan, was founded in 1948, and is an autonomous University College in special relationship with the University of London. Its graduates are prepared for degrees of the University of London in Arts, Science, Medicine and Agriculture. In 1960-61 there were over 1,300 students in residence. A 500-bed teaching hospital, associated with the College, was opened in 1957.

The University of Nigeria, opened Oct. 1960, had 1,200 students 1962-63.

The University of Northern Nigeria was opened in Oct. 1962 at Zaria on the site previously built for the Nigerian College of Technology.

The University of Ife, in Western Nigeria, founded in Oct. 1961 and formally opened in 1962, includes the Ibadan branch of the Nigerian College of Arts, Science and Technology.

The University of Lagos, concentrating initially on law, medicine and business administration, was opened in Oct. 1962.

Cinemas. (1960). There were 38 cinemas, with a seating capacity of 20,000. Mobile cinemas are used by the Federal and Regional Information Services.

Newspapers. There are 18 daily and 16 weekly and bi-weekly papers; the highest circulation of a daily is 116,000 and of a weekly, 125,000. They include English language and vernacular papers.

HEALTH. Most tropical diseases are endemic to Nigeria. Blindness, yaws, leprosy, sleeping sickness, worm infections, malaria are major health problems which, however, are yielding to remedial and preventative

measures. In co-operation with the World Health Organization river blindness and malaria are being tackled on a large scale, while annual campaigns are undertaken against the danger of smallpox epidemics. Dispensaries and travelling dispensaries are found in most parts of the country.

The teaching hospital at Lagos University has 350 beds and a nursing school.

JUSTICE. The chief court is the Federal Supreme Court, which consists of the Chief Justice of the Federation, not less than 3 Federal Judges and the Chief Justice of each Region. It has original jurisdiction in any dispute between the Federation and any Region or between Regions; and to hear and determine appeals from any of the High Courts and from any court or tribunal established by Parliament. It may be given powers of advisory jurisdiction by Parliament in respect of the exercise of the prerogative of mercy by the Governor-General or by the Governors of a Region.

High Courts, presided over by a Chief Justice, are established in each Region and the Federal territory of Lagos. Magistrates courts are established throughout the Federation, and customary law courts through Western and Eastern Nigeria. In Northern Nigeria there are the Sharia Court of Appeal and the Court of Resolution. Moslem Law has been codified in a Penal Code and is applied through alkalid courts.

Each territory has a Judicial Service Commission which has powers of appointment and discipline.

FINANCE. Central government revenue, expenditure and public debt, in £1,000 sterling for fiscal years ending 31 March:

	1958-59	1959-60	1960-61	1961-62	1962-63	1963-64
Revenue	77,315	83,923	95,207	105,767	124,768	121,333

Public debt	17,050	36,221	36,742	70,790	70,790	97,609

¹ Approved estimates.

² Estimates.

Regional revenues and expenditure (in £1,000 sterling), including share of appropriations, for the fiscal year ending 31 March 1963 are estimated at: Revenue, Eastern 20,660, Northern 21,838, Western 22,328; expenditure (not including capital expenditure), Eastern 19,204; Northern 21,689; Western 20,305.

DEFENCE. The defence forces consist of the Army (about 7,000), the Navy and the Police (13,000).

Navy. The Navy includes 1 seaward defence boat, 2 minesweeping motor launches, 1 seaward defence motor launch, 1 landing craft, 3 surveying vessels, 1 despatch vessel; a frigate is being built in the Netherlands. Personnel, 80 officers and 800 ratings.

PRODUCTION. The main industries are agricultural. Groundnuts, cotton, hides and skins, columbite and tin come mainly or wholly from the north, palm produce, cocoa, timber and rubber from the south.

There are important tin and coalmining industries at Jos and Enugu respectively. In 1961 tin production amounted to 10,513 tons; columbite, 2,346 tons; gold, 679 fine oz.; tantalite ore, 16 tons; 597,355 tons of coal were produced and used mainly in the country; 1,000,000 tons. Timber and hides and skins are other main products.

Industrial products include soap, cigarettes, beer, margarine, groundnut oil, meat, and cake, concentrated fruit juices, soft drinks, canned food, metal containers, plywood, textiles and ceramic products and cement.

In 1959 there were 3,380 co-operative societies with 183,963 members.

Livestock. - Estimates of the cattle stock vary from 4m. to 10m. About 1m. head of cattle and 6m. sheep and goats are slaughtered annually.

COMMERCE. The principal ports are Lagos, Sapele, Port Harcourt, Calabar and Burutu. There is a great deal of internal commerce in local foodstuffs and imported goods moving by rail, lorry and pack animals overland, and by launches, rafts and canoes along an extensive and complex network of inland waterways. Kano is still, as it has been for centuries, the focus of caravan routes linking a territory which stretches from the Sudan on the east to Senegal in the west, with branches northwards across the Sahara.

COMMUNICATIONS. *Railways.* There are 1,870 route miles of line of 3 ft 6 in. gauge. The north-western main line runs from Lagos to Kano (700 miles) through Abeokuta, Ibadan, Ilorin, Jebba, Minna, Kaduna and Zaria. From Kano the line continues for a further 143 miles in a north-easterly direction to its terminus at Nguru, while a branch line from Zaria *via* Gusau to Kaura Namoda serves north-western Nigeria; this line is, in addition, linked with Sokoto by a scheduled railway road service from Gusau. The eastern line runs from Port Harcourt deep-water quay on the Bonny River through the thickly populated oil-palm area to Enugu, where it serves the collieries; it then crosses the Benue River and joins the north-western line at Kaduna (569 miles). A branch line of 63 miles from Kafanchan serves the tin-mines at Jos. Of the extension from Kuru (near Jos) to Maiduguri (400 miles), to serve the area of Bornu, the first 106 miles were opened to traffic in Oct. 1961.

In 1959-60, 7,989,000 passengers travelled an average distance of 45 miles, 2,811,000 tons of goods were carried an average distance of 447 miles. *Roads* (1961). There are 44,919 miles of maintained roads, of which 5,434 miles are tarred.

At 1 Jan. 1962, 60,669 motor cars and 11,151 motor cycles were registered. Bus services, by private owners, operate in the larger towns and between the main towns in Eastern and Western Nigeria, but the bulk of passenger and goods traffic by road is carried in lorries (mammy wagons). Taxis are available in the large towns.

Post. Postal facilities are provided at 1,428 offices and agencies; telegraph, money order and savings bank services are provided at 273 of these. Most internal letter mail is carried by air at normal postage rates. External telegraph services are owned and operated by Nigerian External Telecommunications, Ltd, at Lagos, from which telegraphic communication is maintained with all parts of the world. There were 47,998 telephones in use in 1962.

Radio and Television. Both federal and regional governments have established commercial corporations for sound and television broadcasting, which are widely used in schools.

Aviation. There is an extensive system of internal and international air routes, serving Europe, South and West Africa. Regular services are operated by Nigerian Airways (WAAC), BOAC, Air France, KLM, SABENA, Swissair, Pan American and other lines. Aircraft arrivals from outside Nigeria in 1961 totalled 3,804, carrying 726 tons of freight. During the year ended 31 March 1962, 60,036 passengers and 924 tons of mail and freight were carried on internal services.

CURRENCY. Since 1 July 1959 a Nigerian currency has been issued by the Central Bank of Nigeria. The denominations are £5, £1, 10s. and 5s. notes and 2s., 1s., 6d., 3d., 1d. and $\frac{1}{2}$ d. coins.

At 14 Dec. 1963 currency in circulation amounted to £N88,371,829.

BANKING. In 1961 the post office savings bank had 287,672 depositors holding £3,455,000.

The Central Bank of Nigeria, the Bank of West Africa, Ltd, Barclays Bank DCO, the National Bank of Nigeria, the African Continental Bank, the Merchants' Bank, Ltd, the United Bank for Africa, Ltd, the Bank of America, the Chase Manhattan Bank, the Bank of the North and the Co-operative Bank are the principal banks operating in Nigeria.

CYPRUS

KYPRIAKI DIMOKRATIA—KIBRIS CUMHURİYETİ

HISTORY. About the middle of the 2nd millenium B.C. Greek colonies were established in Cyprus and later it formed part of the Persian, Roman and Byzantine empires. In 1193 it became a Frankish kingdom, in 1489 a Venetian dependency and in 1571 was conquered by the Turks. They retained possession of it until its cession to England for administrative purposes under a convention concluded with the Sultan at Constantinople, 4 June 1878. On 5 Nov. 1914 the island was annexed by Great Britain and on 1 May 1925 given the status of a Crown Colony.

For the history of Cyprus from 1931 to 1958 see THE STATESMAN'S YEAR-BOOK 1958, pp. 237-38, and 1959, p. 236.

On 19 Feb. 1959, following discussions in Zürich between the Greek and Turkish Foreign Ministers, an agreement was signed in London by the Prime Ministers of Great Britain, Greece and Turkey, and declared acceptable by the representatives of the Greek Cypriot and Turkish Cypriot peoples. This agreement was implemented on 16 Aug. 1960, when Cyprus became an independent republic. By treaties between the Republic of Cyprus, Great Britain, Greece and Turkey both Enosis and partition are precluded; and Britain retains sovereignty over the areas containing her military bases in the island.

When President Makarios mooted the unilateral repeal of the Zurich-London agreements, violent clashes between Greek and Turkish Cypriots broke out on 22 Dec. 1963. At the President's request, British troops were sent to Cyprus to establish a neutral zone and restrain the fighting communities. A UN observer was invited on 6 Jan. 1964, and a constitutional conference, in which the British, Greek and Turkish governments and representatives of the Greek and Turkish Cypriots participated, opened in London on 13 Jan. 1964. The British Government referred the Cyprus question to the UN.

CONSTITUTION AND GOVERNMENT. The legislative power is exercised by the House of Representatives in all matters except those expressly reserved to the Communal Chambers. The number of representatives is 50,

of whom 35 are Greeks and 15 Turks. Its president is Greek and its vice-president Turkish.

The public service shall be composed as to 70% of Greeks and as to 30% of Turks. This relation shall be applied, as far as practically possible, to all grades of the public service.

Each community has its communal chamber which exercises authority in religious, educational and cultural as well as other matters of a purely communal nature.

On 14 Dec. 1959 Archbishop Makarios was proclaimed President of the Republic, having received 144,501 votes in the presidential election (against 71,753 cast for John Clerides, the candidate sponsored by the Left). Dr Fazil Kuchuk was elected Vice-President unopposed.

The elections held on 31 July 1960 returned 30 Patriotic Front members, 15 Turkish Nationalists, 5 Akel Party (Communists).

On 16 Feb. 1961 the House of Representatives decided by 41 to 9 votes to apply for membership of the Commonwealth. Cyprus was admitted on 13 March.

³ Census.

Estimated population, Dec. 1962, 584,000; inhabitants per sq. mile, 163.

Principal towns with populations (1960 census): Nicosia (the capital), 95,500; Limassol, 43,600; Famagusta, 34,800; Larnaca, 19,800; Paphos, 9,100, and Kyrenia, 3,500. There are 6 administrative districts named after these towns.

VITAL STATISTICS (1962). Births, 14,500; deaths, 3,400. These are estimates based on trends in 1952-54.

EDUCATION. Each of the two communities, i.e., the Greek and the Turkish community, runs its own educational affairs separately through its own board of education. These boards come under the jurisdiction of the respective communal chambers.

Greek. In 1962-63 there were 535 elementary schools (67,673 pupils); 15 eighth-class schools (508 pupils); 32 secondary schools (23,163 pupils); 5 private secondary schools (1,164 pupils); 7 technical schools (1,363 pupils), 1 pedagogic academy; 1 agricultural gymnasium; 1 seminary run by the Orthodox Church; 6 institutes for foreign languages and 83 evening schools.

Turkish. In 1962-63 there were 226 elementary schools (16,520 pupils); 15 secondary academic schools (6,088 pupils); 2 technical schools (253 pupils); 5 commercial schools (480 pupils); 1 teacher-training college (57 students); 1 institute for foreign languages, 5 evening technical institutes for girls and 40 village women's courses.

In addition 1 reform school, 1 school for the blind and 1 school for the deaf are run on inter-communal basis.

One English school for boys and girls was run by the British Council; 2 academies, one for boys and one for girls, by an American missionary body;

5 missionary schools by Roman Catholics; 1 educational institute by the Armenians.

There is also a juvenile Welfare Service which includes a probation service.

Greek and Turkish are the official languages. English is widely spoken and understood.

Newspapers (1963). There are 1 English, 4 Turkish and 5 Greek daily newspapers and 12 Greek and 1 Turkish weeklies.

Cinemas (1963). There are 125 winter cinemas (72,500 seats) and 143 open-air cinemas (89,300 seats).

SOCIAL SERVICES. A social insurance scheme was introduced on 7 Jan. 1957, embracing most workers other than those engaged in small-scale agriculture. The scheme provides unemployment and sickness benefits, old age, widows and orphans pensions, maternity, death and marriage grants. A Factories Law on the lines of the UK Factories Acts came into force on 2 April 1957. A Pneumoconiosis Compensation Scheme came into operation in 1961, providing pensions for miners and death grants for their dependants.

JUSTICE. Under the Constitution of the Republic of Cyprus the following judicial institutions are established: The Supreme Constitutional Court of the Republic; the High Court of Justice; the Communal Courts.

The Supreme Constitutional Court is composed of a neutral president and 2 judges, one being Greek and the other Turk. The Supreme Constitutional Court adjudicates exclusively and finally: on any recourse that any law or decision of the House of Representatives or the budget is discriminatory against either of the two Communities; on any conflict of competence between the House of Representatives and the Communal Chambers; on any question whether any law or decision of the House of Representatives or of either Communal Chamber is inconsistent with or repugnant to the provisions of the Constitution; on any question of conflict between the two official texts, the Greek and the Turkish, of the Constitution and on any question of interpretation of the Constitution in case of ambiguity. The Supreme Constitutional Court has also exclusive jurisdiction to decide its own competence.

All judicial power in civil and criminal matters other than that exercised by Communal Courts is exercised by the High Court of Justice and its subordinate courts. The High Court of Justice is composed of a neutral president with 2 votes and 3 Cypriot judges, 2 being Greek and 1 Turk.

The High Court of Justice is the highest appellate court in the Republic and has jurisdiction to hear and determine all appeals from any court other than the Supreme Constitutional Court. It has exclusive jurisdiction to issue orders in the nature of *habeas corpus*, *mandamus*, prohibition, *quo warranto* and *certiorari*. It determines the composition of the court which will try treason and other offences against the security of the Republic or offences against the Constitution and the constitutional order. Such court is always presided over by the President of the High Court.

Subordinate courts must be of mixed composition when the parties appearing before them belong to different communities. Communal courts deal separately with civil disputes relating to personal status and religious matters and come under the respective Communal Chamber.

DEFENCE. The Constitution provides for an army of 2,000 men, of whom 60% shall be Greeks and 40% shall be Turks. Service is voluntary unless the President and the Vice-President of the Republic by common agreement decide to impose compulsory military service. The training of the first 370 recruits began in Sept. 1961.

The security forces consist of the police and the gendarmerie, totalling together 2,000.

FINANCE. Revenue and expenditure for calendar years (in £ sterling):

¹ Estimates.

² Appropriations from ordinary budget, etc.

Main divisions of ordinary revenue (in £1,000) in 1962 (and 1961) were: Import duties, 7,235 (6,142); excise, 2,612 (2,519); income tax, 1,695 (2,338); licences, etc., 1,771 (1,273); rents, royalties and interests, 1,523 (1,204); grant in aid, 2,500 (3,531).

Main divisions of ordinary expenditure (in £1,000 in 1962 (and 1961) were: Personal emoluments, 5,219 (4,827); other charges, 3,118 (2,892); pensions and gratuities, 1,019 (789); grants to Communal Chambers, 2,000 (2,000); transfer to development fund, 2,904 (3,533).

The UK has pledged itself to give £12m. financial aid to the Republic within the first 5 years. By July 1963, £10.5m. had been paid.

The outstanding public debt as at 31 Dec. 1962 was £13,909,522 (1961: £13,946,382) and accumulated sinking funds totalled £5,060,111 (1961: £4,170,490). Outstanding loans as at 31 Dec. 1962, amounted to £20,803,436 (1961: £19,053,293); £8,283,926 to the Electricity Authority of Cyprus, £2,199,915 to the Cyprus Telecommunications Authority and £7,931,264 to local authorities, etc. (1961: £8,569,452).

PRODUCTION. Agriculture. Chief agricultural products in 1962: Wheat, 64,990 tons; barley, 90,000 tons; oats, 2,000 tons; broad beans, 2,000 tons; haricot beans, 1,550 tons; olives, 6,000 tons; carobs, 55,000 tons; potatoes, 115,000 tons; grapes, 125,000 tons; wines, including commandaria, 7,065,000 gallons; beer, 1,080,668 gallons; spirits, 306,692 gallons; oranges, 1,842,000 cases; lemons, 281,000 cases; grapefruit, 400,000 cases; tobacco, 1,000 tons.

Of the island's 2.3m. acres, approximately 1m. are farmed, out of which 570,000 acres are cropped annually. There are two main potato crops:

Livestock in 1960 (in 1,000): Cattle (1962), 33; horses, 2.9; mules, 3.5; donkeys, 44.5; sheep (1962), 409.8; goats (1962), 167; pigs (1962), 38.

Forestry. During 1962 the Forest Department continued preserving and developing existing forests, as well as re-afforesting denuded areas. Total forest area, 670 sq. miles; forest communications network, 592 miles of all-weather earth roads and 427 miles of telephone route. The saw-milling industry expanded to process timber obtained from the forests.

Mining. The principal minerals exported during 1962 were (in long tons): Iron pyrites, 790,020; cupreous concentrates, 92,889; copper cement, 1,667; cupreous pyrites, 105,622; asbestos, 13,879; gypsum, 37,018;

umber, 4,384; chrome ore, 9,526. Cyprus is the second largest exporter of pyrites in the world.

Industry. Cyprus has no heavy industry, but a wide variety of light manufacturing industries, and there is an increasing interest in the establishment of new industries and the expansion of existing ones. The establishment of a Development Bank in 1963 has given further impetus to industrial activity. Manufacturing industry at present contributes about 11% to the gross domestic product and gives employment to 13% of the economically active population.

Trade Unions. Cyprus has trade-union legislation on the lines of the British trade-union Acts. Registration is compulsory. At the end of 1962 the trade unions were distributed as follows: Pancyprian Federation of Labour ('old' trade unions), 37,849 members in 24 unions; Cyprus Workers Confederation ('free' labour syndicates), 12,158 members in 57 unions; Civil Service, 3,286 members, in 3 unions; Cyprus Federation of Independent Trade Unions, 1,740 members, in 13 unions; Cyprus Turkish Trade Unions Federation, 4,069 members, in 38 unions; Cyprus Democratic Labour Federation, 1,189 members, in 19 unions; total 64,789 members, in 179 unions.

The 'old' trade unions are affiliated to the World Federation of Trade Unions, the 'free' labour syndicates and the Turkish Federation are affiliated to the International Confederation of Free Trade Unions (see p. 29 f.).

COMMERCE. The commerce and the shipping, exclusive of coasting trade, for 5 calendar years were (in £ sterling):

	1958	1959	1960	1961	1962
Merchandise:					
Imports	38,847,700	41,103,511	39,130,463	40,416,306	44,952,814

COMMUNICATIONS. *Roads.* The primary system of arterial or main roads totals 944 miles with an asphalt-treated surface. The secondary system of feeder or village roads totals 2,358 miles, including 592 miles of forest roads. The main roads are usable in all weathers. Most of the secondary roads are stone surfaced and can be used by motor vehicles.

Shipping. Regular passenger services are supplied by 4 Greek, 1 Turkish, 2 Italian, 2 Israeli, 2 French and 1 Soviet lines. Cargo services are provided by 5 British, 3 German, 2 Swedish, 2 Norwegian, 1 Dutch, 1 Danish and 1-Yugoslav lines.

Posts (1962). There were 25 post offices, 13 telegraph offices, 29 postal-order agencies and 73 postal agencies. Telephone exchanges numbered 28 with a lines capacity of 16,448; direct exchange lines, village call offices and public telephone kiosks totalled 12,874; wireless sets numbered 101,428 and television sets 5,579.

External communications were taken over from Cable and Wireless, Ltd, by the Cyprus Telecommunications Authority, which runs radio-telephone and telegraph services to most parts of the world. A ship-to-shore telephone and telegraph service is also in operation.

Aviation. The following air companies operate scheduled services to and from Cyprus: Cyprus Airways (in association with BEA), Olympic Airways, Turkish Airlines, Middle East Airlines, Air Liban, EL AL Israel Airlines, United Arab Airlines and Syrian Arab Airlines. They provide connexions with Adana, Ankara, Athens, Beirut, Cairo, Damascus, Istanbul, London, Rome, Tel Aviv.

CURRENCY. The Cyprus £ is equivalent to the £ sterling; it is divided into 1,000 *mils*. Notes of the following denominations are in circulation: £5, £1, 500 *mils*, 250 *mils*. Coins in circulation: Cupro-nickel: 100, 50, 25 *mils*; bronze: 5 and 3 *mils*.

Currency in circulation at 31 Dec. 1963, £10,921,000.

BANKING. The banks which carry on business in Cyprus are: Ottoman Bank, Barclays Bank DCO, Chartered Bank, National Bank of Greece and Athens, Bank of Cyprus, Popular Bank of Limassol, Turkish Bank of Nicosia, Turkiye Ish Bank, Agricultural Bank of Cyprus, Greek Co-operative Central Bank of Cyprus, Turkish Co-operative Central Bank of Cyprus, Lombard Bank Cyprus Ltd.

WEIGHTS AND MEASURES. Cyprus weights and measures follow the standard weights and measures of Great Britain. The metric system may also be lawfully used. In internal trade the following special Cyprus weights

and measures are in use: 1 *pic* = $\frac{2}{3}$ yd; 1 *oke* = 2.8 lb.; 1 *kilé* = 8 Imperial gallons. The Cyprus *donum* is approximately $\frac{1}{3}$ acre.

SIERRA LEONE

HISTORY. The Colony of Sierra Leone originated in the sale and cession, in 1787, by native chiefs to English settlers, of a piece of land intended as a home for natives of Africa who were waifs in London, and later it was used as a settlement for Africans rescued from slave-ships.

CONSTITUTION AND GOVERNMENT. On 27 April 1961 the Colony and Protectorate of Sierra Leone became an independent and sovereign member of the Commonwealth of Nations, to which the Commonwealth Prime Ministers had accepted it on 16 March. Sierra Leone was admitted to the United Nations as the 100th member.

Constitutional developments following upon independence are universal adult suffrage, the creation of a Sierra Leone citizenship, a new Constitution with fundamental rights entrenched, an independent audit service, Public Service and Judicial Service Commissions and overseas diplomatic representation.

In May 1962 general elections were held for the House of Representatives, consisting of 12 Paramount Chiefs and 62 ordinary members; 12 of the latter representing the Western Area and 50 from the Provinces. The Sierra Leone People's Party, which had been the party in power since 1951, won 56 seats; the All People's Congress and Sierra Leone Progressive Independence Movement Alliance, 17; some members of the Alliance have since joined the government party.

The Cabinet consists of 20 Ministers, 2 of whom are without portfolio and 3 are Resident Ministers in the Provinces.

Governor-General: Sir Henry Lightfoot Boston, GCMG.

Prime Minister: Rt. Hon. Sir Milton Margai, Kt, MBE, PC.

LOCAL ADMINISTRATION. The Provinces are administered through the Ministry of Internal Affairs and divided into 146 Chiefdoms, each under the control of a Paramount Chief and Council of Elders known as the Tribal Authority, who are responsible for the maintenance of law and order and for the administration of justice (except for serious crimes). 143 of these Chiefdoms have been organized into local government units, empowered to raise and disburse funds for the development of the Chiefdom concerned. In each administrative district there is a fully elective District Council, with a president elected by the members from their number. District Councils

have now developed into local government units with funds at their disposal for the development of their districts.

AREA AND POPULATION. Sierra Leone is bounded on the north-west, north and north-east by the Republic of Guinea, on the south-east by Liberia and on the south-west by the Atlantic Ocean. The coastline extends from the boundary of the Republic of Guinea to the north of the mouth of the Great Scarcies River to the boundary of Liberia at the mouth of the Mano River, a distance of about 212 miles.

The area of Sierra Leone is 27,925 sq. miles (73,326 sq. km). The former colony proper covers 256 sq. miles. Population (census April 1963, preliminary), 2,183,000. The capital is Freetown, with 128,000 inhabitants.

The administrative divisions have been re-named as follows: The Colony is now the Western Area; the Protectorate, the Provinces, namely, the Eastern Province, the Southern Province and the Northern Province.

EDUCATION (1961-62). There were 629 primary schools, 2 of them being managed by Government, 603 being assisted from public funds and managed by local authorities or missionary bodies; 24 were unassisted. Total enrolment was 98,088. The salaries of teachers in assisted schools were paid in full by Government. Fees paid by pupils largely balanced the expenditure on equipment. In many cases school buildings are the property of churches, but building grants averaging 60% have been made to local authorities and to voluntary agencies from central-government funds.

There were 39 secondary schools with 9,111 pupils.

The government technical schools at Freetown and Kenema, and the new trade centres at Lunsar and Magburaka had 191 full-time and 176 evening-class students.

In the Provinces there were 5 non-graduate teacher-training colleges, viz., government colleges at Magburaka (co-educational) and N'jala (for men), Roman Catholic Mission colleges at Bo (for men) and Kenema (for women) and a United Christian Council college at Bunumbu (co-educational). In

Freetown there was the Freetown Teacher Training College. Total enrolment, 588 students. Teacher training is financed entirely from public funds.

The Fourah Bay College, granted the Royal Charter in Jan. 1960, offers degree courses in arts, theology, science and economics, courses leading to diplomas in engineering, public administration and education, and also honours courses. The total number of enrolled students in 1961-62 was 330.

Total expenditure on education in 1961-62 was about £2.75m., including capital expenditure.

HEALTH. In the Western Area there are 6 government hospitals (541 beds and 44 cots), including a maternity hospital, a children's hospital and a chest hospital near Freetown. A mental hospital at Kissy has accommodation for 138 patients. In the provinces there are 13 government hospitals (601 beds), 6 mission hospitals and 2 hospitals associated with mining companies. Three government, 4 mission and 1 mining hospital train nurses and midwives. There are 84 government dispensaries and health centres and 23 endemic-diseases control-unit treatment centres.

JUSTICE. The Supreme Court has jurisdiction in civil and criminal matters. Subordinate courts are held by magistrates in the various districts. Native Courts apply native law and custom under a criminal and civil jurisdiction. Appeals from the decisions of the Supreme Court are heard by the Sierra Leone Court of Appeal. Appeals from the decisions of magistrates' courts are heard by the Supreme Court. Appeal lies from the Sierra Leone Court of Appeal to the Privy Council.

In 1961, 4,962 persons were convicted in the Supreme and magistrates' courts.

Police. The police force at 1 Aug. 1962 had an authorized strength of 61 superior police officers, 74 junior police officers and 1,848 other ranks. In the Provinces each chiefdom maintains an additional small police force.

PRODUCTION. Agriculture. The main agricultural products are palm kernels, palm-oil, piassava, rice, cocoa, coffee, groundnuts, ginger, kola-nuts and cassava.

Livestock (rough estimate): Cattle, 170,000; goats, 25,000; sheep, 23,500; pigs, 5,000.

Fishing. Inshore fishing is extensive but insufficient to meet the demand in Freetown and the Provinces. The operation of commercial trawlers has greatly increased the local supply of fish. A new tuna base at Freetown handled 13,000 tons of tuna in 1961.

Industry. Four pioneer oil-mills for the expressing of palm-oil are operated by the Sierra Leone Produce Marketing Board. Government also operates 4 rice-mills, and there are a number of privately owned mills. At Kenema the Government Department of Forest Industries produces sawn timber, joinery products (including prefabricated buildings) and high-class furniture. In addition, there is a smaller privately owned sawmill at Panguma and several small furniture workshops throughout the country. All these products are used internally. Village industries include fishing, fish curing and smoking, weaving and hand methods of expressing palm-oil and cracking palm kernels.

Mining. The chief minerals mined are iron ore, diamonds and chrome ore. Small quantities of gold and platinum are also found. Exports in 1962

were as follows: Iron ore, 1,983,025 tons (£5,116,685); diamonds, 1,157,520 carats (£7,108,862); chromite, 9,357 tons (£93,563).

Labour. Over half the population are engaged in agriculture, and about 80,000 workers are in wage-earning employment. Analysed by employer, workers in wage-earning employment were distributed as follows at the end of 1961: Government, 24,273; Native Administrations, 4,320; Service Departments (civilian employees of War Department and Admiralty), 266; larger private and commercial undertakings, 22,405. Analysed by industry or service, these workers were distributed as follows: Building and construction, 11,562; mining, 6,376; transport (road, rail and air), 8,191; the difference is made up of wage-earning employees (for whom no returns are required) and domestic servants, both of which categories have in the past been estimated at 32,500.

The Labour Department has its headquarters in Freetown, offices in Bo, Kenema and Makeni and 7 employment exchanges. Wages and conditions of employment are regulated by 4 Joint Industrial Councils and 4 Wages Boards which together cover the majority of wage-earners in the territory. There are 11 registered trade unions in Sierra Leone. The number of persons registered for employment at the end of 1961 was 4,028, excluding maritime and dock workers who are registered in the Port Labour (Maritime and Harbour) Pools.

FINANCE. Revenue and expenditure (in £ sterling) for years ending 31 March:

PRODUCTION. Agriculture. The main agricultural products are palm kernels, palm-oil, piassava, rice, cocoa, coffee, groundnuts, ginger, kola-nuts and cassava.

Livestock (rough estimate): Cattle, 170,000; goats, 25,000; sheep, 23,500; pigs, 5,000.

Fishing. Inshore fishing is extensive but insufficient to meet the demand in Freetown and the Provinces. The operation of commercial trawlers has greatly increased the local supply of fish. A new tuna base at Freetown handled 13,000 tons of tuna in 1961.

Industry. Four pioneer oil-mills for the expressing of palm-oil are operated by the Sierra Leone Produce Marketing Board. Government also operates 4 rice-mills, and there are a number of privately owned mills. At Kenema the Government Department of Forest Industries produces sawn timber, joinery products (including prefabricated buildings) and high-class furniture. In addition, there is a smaller privately owned sawmill at Panguma and several small furniture workshops throughout the country. All these products are used internally. Village industries include fishing, fish curing and smoking, weaving and hand methods of expressing palm-oil and cracking palm kernels.

Mining. The chief minerals mined are iron ore, diamonds and chrome ore. Small quantities of gold and platinum are also found. Exports in 1962

were as follows: Iron ore, 1,983,025 tons (£5,116,685); diamonds, 1,157,520 carats (£7,108,862); chromite, 9,357 tons (£93,563).

Labour. Over half the population are engaged in agriculture, and about 80,000 workers are in wage-earning employment. Analysed by employer, workers in wage-earning employment were distributed as follows at the end of 1961: Government, 24,273; Native Administrations, 4,320; Service Departments (civilian employees of War Department and Admiralty), 266; larger private and commercial undertakings, 22,405. Analysed by industry or service, these workers were distributed as follows: Building and construction, 11,562; mining, 6,376; transport (road, rail and air), 8,191; the difference is made up of wage-earning employees (for whom no returns are required) and domestic servants, both of which categories have in the past been estimated at 32,500.

The Labour Department has its headquarters in Freetown, offices in Bo, Kenema and Makeni and 7 employment exchanges. Wages and conditions of employment are regulated by 4 Joint Industrial Councils and 4 Wages Boards which together cover the majority of wage-earners in the territory. There are 11 registered trade unions in Sierra Leone. The number of persons registered for employment at the end of 1961 was 4,028, excluding maritime and dock workers who are registered in the Port Labour (Maritime and Harbour) Pools.

FINANCE. Revenue and expenditure (in £ sterling) for years ending 31 March:

COMMUNICATIONS. *Railways.* A government railway, a single line of 2 ft 6 in. gauge, is open from Freetown to Pendembu, near the Liberian frontier (227½ miles). From Bauya Junction, 64½ miles from Freetown, a branch line runs to Makeni (83 miles). The port of Freetown was operated by the railway administration until 1 April 1962 when the port became a separate government department. Total receipts, 1961-62, railway, £763,343; port, £806,450; total ordinary working expenditure, railway, £1,157,938; port, £456,812.

Shipping. During 1961-62 the total tonnage (excluding bulk oil and bunker fuels supplied to shipping) handled by the port of Freetown was 418,315. Including vessels proceeding to Pepel to load iron ore, a total of 2,052 vessels called at Freetown during the year.

Roads. There were 1,775 miles of main trunk roads, maintained by the Public Works Department. Some 2,200 miles of roads are maintained by local councils and other authorities. About 250 miles are surfaced with bitumen.

Motor vehicles licensed during 1960 totalled 5,468 passenger cars, 3,919 buses and trucks and 796 motor cycles.

Post. The Posts and Telecommunications Department maintains a trunk-line network of 3,500 miles of telephone and telegraph routes. Freetown has an automatic telephone exchange, and trunk telephone facilities exist between Freetown, Bo, Kenema, Makeni and other towns by land-line and radio-telephone; number of telephones (1962), 4,610. Telegraphic facilities are provided at 58 offices. There are 131 post offices and postal agencies. A wired broadcasting system operates in Freetown, and at the end of 1961 there were 3,640 subscribers. The number of private wireless-licence holders is 6,007.

Aviation. The international airport for Sierra Leone is at Lungi near Freetown. It is served by Air France (connecting with Dakar and Paris), Air Liban (with Beirut via Tripoli, Casablanca, Accra, Lagos, Khartoum), United Air Transport (with Conakry, Dakar, Marseille, Paris), West African Airways (Nigeria) Ltd (with Lagos, Accra, Abidjan, Robertsfield, Bathurst, Dakar), British United Airways (with London via Lisbon, Bathurst to Accra), Liberian National Airways (with Robertsfield and Monrovia). The Sierra Leone Airways operate within the territory from Hastings (Freetown) to Bo, Kenema, Daru, Magburaka and Port Loko, and once a week to and from London.

MONEY. The West African Currency Board, London, which was established in 1913, is responsible for providing the currency in the territory. It issues notes of 10s., £1 and £5, and nickel coins of 2s., 1s. and 6d., and cupro-nickel coins of 3d., 1d. and ½d. The currency is interchangeable with sterling at par. At 31 Dec. 1961 West African Currency Board notes in circulation were estimated at £11,939,746 and coin at £16,251,414.

BANKING. The Bank of West Africa and Barclays Bank DCO have their headquarters at Freetown; the former has 9 and the latter 10 branches and agencies.

At the end of 1960 there were 72,888 depositors in the 41 branches of the post office savings bank, with £1,589,302 (inclusive of interest) to their credit.

TANGANYIKA

HISTORY. German East Africa was occupied by German colonialists from 1884 and placed under the protection of the German Empire in 1891. It was conquered in the First World War and subsequently divided between the British and Belgians. The latter received the territories of Ruanda and Urundi and the British the remainder, except for the Kionga triangle, which went to Portugal. The country was administered as a League of Nations mandate until 1946 and then as a United Nations trusteeship territory until 9 Dec. 1961.

CONSTITUTION AND GOVERNMENT. Tanganyika achieved responsible government with an elected majority in Sept. 1960 and full self-government on 1 May 1961. On 9 Dec. 1961 Tanganyika became a sovereign independent member state of the Commonwealth of Nations. It adopted a republican form of government on 9 Dec. 1962.

President of the Republic: Dr Julius Nyerere (sworn in 9 Dec. 1962).

Vice-President: Rashidi Kawawa.

The Vice-President has the functions of a Prime Minister. The Cabinet is composed as follows:

Justice: Shaikh Amri K. Abedi. *External Affairs and Defence:* O. S. Kambona. *Agriculture:* D. N. M. Bryceson. *Commerce and Industry:* C. C. Kahama. *Communications, Power and Works:* A. Jamal. *Finance:* P. Bomani. *Development Planning:* A. Z. N. Swai. *Home Affairs:* J. M. Lusindo. *Land, Forests and Wild Life:* Al-Haj T. S. Tewa. *Local Government:* A. K. E. AREA AND POPULATION. Tanganyika extends from the Umba River on the north to the Rovuma River on the south, the coastline being some 500 miles long, and includes the adjacent islands (except Zanzibar and Pemba). The northern boundary runs north-west to Lake Victoria at the intersection of the first parallel of southern latitude with the eastern shore. The boundary on the west follows the Kagera River (the eastern frontier of Rwanda), thence the eastern boundary of Burundi to Lake Tanganyika. The western boundary then follows the middle of Lake Tanganyika to its southern end at the Kalambo River 50 miles south of Kasanga, whence it goes south-east to the northern end of Lake Nyasa. It follows its eastern shore and rather less than half-way down the lake turns east and joins the Rovuma River, whose course it follows to the sea. The total area is 361,800 sq. miles (937,060 sq. km), which includes 20,650 sq. miles (53,480 sq. km) of water. Dar es Salaam is the capital and chief port; population 128,742, including 4,478 Europeans and 93,363 Africans (census 1957).

The country is divided into 17 regions (with capitals of the same name, unless added in brackets): Arusha, Coast (Dar es Salaam), Dodoma, Iringa, Kigoma, Kilimanjaro (Moshi), Mara, Mbeya, Morogoro, Mtwara, Mwanza, Ruvuma (Songea), Shinyanga, Singida, Tabora, Tanga, West Lake (Bukoba). The exact areas and populations of the regions (established in 1963) are not yet available.

Other towns are Moshi, situated on the Tanga railway in the farm country around Mount Kilimanjaro; Kigoma, the principal port on Lake Tanganyika;

Iringa, in the Southern Highlands; Morogoro (Eastern), and Lindi (Southern Province).

The mid-1962 estimate of the European population was 21,400; Indians, Pakistani, Goans; 92,100; Arabs and Africans; 9,285,600. According to German law every native born after 1905 was free, but serfdom continued under German rule. Legislation for the abolition of slavery was enacted in 1922.

The African population of Tanganyika is made up of members of more than 100 tribes, each with a distinctive dialect and varying customs. Most of the tribes are of Bantu origin, although there are considerable Hamitic and Nilo-Hamitic intrusions. In 1962-63 some 12,000 Tutsi refugees from Rwanda were settled in the Muyenzi district of western Tanganyika.

Swahili is generally spoken and understood throughout Tanganyika.

EDUCATION. The educational system has been integrated on non-racial lines. Schools are maintained by the Government, local authorities and voluntary agencies including missions; most of the latter are wholly or partly financed by Government or local authorities.

The development of existing secondary schools and the opening of new ones is given high priority in the 3-year plan for education (1961-64). In 1962, 500,000 children attended primary and middle schools; the middle schools will be abolished and the primary-school course extended to 8 years. Secondary schools had 20,000 pupils in 1964.

Technical and vocational education is provided at 2 government trade schools and at the Dar es Salaam Technical College (300 full-time and 1,000 part-time students).

There were, in 1963, 23 teacher-training centres, including the college at Chang'ombe for secondary-school teachers. About 2,000 students are in training, of whom about 1,100 are annually taking up posts.

Facilities for higher education are provided by the University College of Makerere at Kampala, the Royal Technical College at Nairobi and the University College in Dar es Salaam with faculties of law and arts. These 3 colleges form the University of East Africa, set up in March 1963.

In 1961-62, 208 Tanganyika students attended East African universities and colleges and 1,300 were studying outside Africa, mainly in Britain.

FINANCE. The revenue and expenditure, including development-revenue and expenditure, for financial years ended 30 June were (in £1,000 sterling):

Expenditure	24,802	25,093	26,880	29,157	31,492	38,020

¹ Estimates.

The chief estimated items of revenue for 1962-63 were (in £1,000): Customs and excise, 12,172; licences, taxes, etc., 7,023; revenue from government property, 1,486.5. The chief items of expenditure were (in £1,000): Public works, 2,304; medical, 2,151; education, 4,717; provincial administration, 2,135; pensions and gratuities, 916; agriculture, 1,714; police, 2,804.

Loans were received from the Imperial Government in the years 1920-21 to 1925-26, amounting to £3,135,416, for capital improvements and developments. £1,288,983 were expended upon railway works; other works, £770,955. The loan for railway and other works is being repaid by equated annuities of £100,053, from 31 March 1947 to 31 March 1964. The balance

The loan for railway and other works is being repaid by equated annuities of £100,053, from 31 March 1947 to 31 March 1964. The balance

of £1,075,508, representing the loan to meet deficits on current account and repair of war damage, was paid in 1939. Other loans: 4% Guaranteed loan, 1952-72, £500,000, of which £77,443 was allocated to railway works; Barclays Overseas Development Corporation Loan, June 1948, £250,000, raised for purchasing 250,000 £1-shares in Tanganyika Packers, Ltd (repayment of principal up to 30 June 1959, £40,000); 3½% Inscribed Stock 1970-73, £1.75m. raised in 1951 and £2.28m. raised in 1952; 4½% Inscribed Stock 1967-72, £4.41m., raised in 1953; 4% Lint and Seed Marketing Board 20-year loan £1m. raised locally in 1954; 5¾% Inscribed Stock 1978/82 £4m. raised in 1957; 5½% Registered Stock 1975/79, £1.5m. raised locally in 1957; in 1959, Tanganyika Registered Stock 1966/67 and 1980/83, £1m., and Williamson Diamond Ltd Loan of £1,317,000 (repayment of principal up to 30 June 1960, £258,000); 6½% Tanganyika Registered Stock 1967/68 and 1981/84, £1.5m. and 6% Exchequer Loan, £1.5m. repayable in 25 years, were raised. In 1960, £525,000 5% and 5½% Development Bonds were raised, and in 1961, £3.5m. UK Exchequer loans.

DEFENCE. In Dec. 1961 the 2 battalions of the King's African Rifles in Tanganyika became the Tanganyika Rifles. No naval or air forces are maintained.

PRODUCTION. Agriculture and Forestry. Tanganyika has three natural regions—the coast lowlands, the high plateau and the high mountain slopes around Mount Kilimanjaro and other northern peaks and round Rungwe and the Livingstones in the south. In these regions there are high rainfall areas as also in the foothills of the Ulugurus and Usambaras characterized by the presence of tropical rain-forest. The total area of this type is about 4,000 sq. miles and is insignificant in comparison to the 135,000 sq. miles of savannah forest (miombo woodland). By the end of 1961, 45,472 sq. miles had been set aside as forest reserves. The forests contain some good merchantable timbers in varying quantity, among which camphor, podo, mvule and certain African mahoganies are the most important. In addition, valuable hardwoods occur as single trees or in groups widely scattered throughout the savannah forests, the chief being muninga and African blackwood. Mangroves are valuable as a source of tanning bark and also of poles which are carried by Arab dhows to the Persian Gulf.

The total production of mill-sawn timber for 1961 was 87,166 cu. tons (each of 50 cu. ft), of which 10,660 cu. tons were exported.

Agriculture is the chief occupation. The most important commodity exported is sisal, which constitutes in value approximately one-third of the principal exports. In 1961 Tanganyika produced 200,000 tons (export value, £14,028,000)—nearly one-half of the world's supply.

Livestock (1961). 8,016,000 cattle, 2,986,000 sheep, 4,448,000 goats, 23,000 pigs, 138,900 donkeys.

Minerals. The value of mineral production in 1961 was £7.97m. Principal exports were (in £1,000): Diamonds, 5,780 (1962: 2,373); gold, 1,260; lead concentrates, 22; sheet mica, 88; salt, 271. In 1961 the production of gold was 101,067 troy oz.; export of silver, 64,144 troy oz.

TRADE. There is a uniform customs tariff in Tanganyika, Kenya and Uganda, the three countries being united in a customs union since 1927. In 1962 the main countries of origin were (in £1,000): UK, 13,653; Japan, 5,175; India, 2,789; Netherlands, 1,593; Iran, 2,755; West Germany,

2,012; USA, 2,753. The main countries of destination were: UK, 39.2%; USA, 9.4%; West Germany, 7.1%. For details see pp. 555-57.

Total trade with UK (British Board of Trade returns, in £ sterling):

	1959	1960	1961	1962	1963
Imports to UK	11,455,176	13,301,297	11,806,264	12,520,642	15,711,902
Exports from UK	9,419,483	9,004,535	10,358,850	9,448,716	9,928,898
Re-exports from UK	33,376	51,237	49,539	103,062	108,279

COMMUNICATIONS. Roads. There are nearly 9,000 miles of main roads, 10,800 miles of other roads of varying standard maintained from public funds and over 8,000 miles of roads and tracks maintained by native authorities. In addition, approximately 628 miles of roads are maintained in townships and other settlements.

A comprehensive programme of road construction and improvement is being planned over the 3-year period ending in mid-1964.

Railways, Post and Telecommunications. See pp. 168-69. There were 16,238 telephones in use at 31 Dec. 1961, 7,421 of them in Dar es Salaam.

Aviation. There are in all 51 aerodromes and landing strips maintained or licensed by Government; of these, one is of International Class C standard and 18 are suitable for Dakotas. The East African Airways Corporation provide regular and frequent services to all the more important towns within the territory and the neighbouring countries of Kenya, Uganda and Zanzibar, together with a regular service to the UK, India and Pakistan, the Federation of Rhodesia and Nyasaland and South Africa. Charter services are operated by 2 companies. In 1961, 29,411 aircraft, 247,771 passengers, 2.57m. kg of freight and 453,593 kg of mail were handled.

CURRENCY AND BANKING. For notes and coins see p. 169.

National Overseas & Grindlays Bank, the Standard Bank, Barclays Bank DCO, the Nederlandsche Handel Mij, the Bank of Baroda, the Ottoman Bank, the Bank of India, Ltd, and the Lombard Bank have branches in the country. The Co-operative Bank of Tanganyika opened on 4 Aug. 1962, to finance some 900 co-operative societies.

WESTERN SAMOA

HISTORY. Western Samoa, a former German protectorate (1900 to the First World War), was administered by New Zealand from 1920 to 1961, at first under a League of Nations Mandate and since 1946 under a United

Nations Trusteeship Agreement. In May 1961 a plebiscite held under the supervision of the United Nations on the basis of universal adult suffrage voted overwhelmingly in favour of independence as from 1 Jan. 1962, on the basis of the Constitution, which a Constitutional Convention had adopted in Aug. 1960. In Oct. 1961 the General Assembly of the United Nations passed a resolution to terminate the trusteeship agreement as from 1 Jan. 1962, on which date Western Samoa became an independent sovereign state.

CONSTITUTION AND GOVERNMENT. The Constitution provides for a Head of State known as 'O le Ao o le Mālō', which position from 1 Jan. 1962 was held jointly by the representatives of the two royal lines of Tupua and Malietoa. On the death of H.H. Tupua Tamasese Mea'ole, CBE, on 8 April 1963, H.H. Malietoa Tanumafili II, CBE, became, as provided by the constitution, the sole Head of State for life. Future Heads of State will be elected by the Legislative Assembly and hold office for 5-year terms.

The executive power is vested in the Head of State, who appoints the Prime Minister and, on the Prime Minister's advice, the 8 Ministers to form the Cabinet which has general direction and control of the executive Government.

Parliament comprises the Head of State and the Legislative Assembly. The Legislative Assembly has 47 members elected from territorial constituencies, inclusive of 2 members elected by voters registered on an individual voters' roll.

Head of State: H.H. Malietoa Tanumafili II, CBE.

Prime Minister: Fiamē M.F.M. II, CBE.

AREA AND POPULATION. Western Samoa lies between 13° and 15° S. lat. and 171° and 173° W. long. It comprises the two large islands of Savai'i and Upolu, the small islands of Manono and Apolima, and several uninhabited islets lying off the coast. The total land area is 1,133 sq. miles (2,930 sq. km), of which 703 sq. miles are in Savai'i, and 430 sq. miles in Upolu, including Manono and Apolima. The islands are of volcanic origin, and the coasts are surrounded by coral reefs. Rugged mountain ranges form the core of both main islands and rise to 3,608 ft in Upolu and 6,094 ft in Savai'i. The large area laid waste by lava-flows in Savai'i is a primary cause of that island supporting less than one-third of the population of the islands despite its greater size than Upolu.

The population at the census of 25 Sept. 1961 was 114,427 (58,785 males and 55,642 females), of whom 82,479 were in Upolu (including Manono and Apolima) and 31,948 in Savai'i. The capital and chief port is Apia in Upolu (population 21,699 on 25 Sept. 1961). Estimated population, 31 Dec. 1962, was 117,604.

FINANCE. Revenue for the calendar year 1962 totalled £NZ1,563,150 and expenditure £NZ1,800,570. The New Zealand Government made grants of about £NZ75,000 for education and other Government activities.

COMMERCE. In 1962, imports were valued at £NZ2,861,737 and exports at £NZ2,806,495. Principal exports were copra (12,806 tons; £NZ654,905), bananas (760,935 cases; £NZ908,098) and cocoa (5,258 tons; £NZ1,165,802). Chief imports in 1962 included meat (£NZ175,000), sugar (£NZ105,175) and cotton goods (£NZ86,793).

Total trade between Western Samoa and UK, in £ sterling (British Board of Trade returns):

	1959	1960	1961	1962	1963
Imports to UK	1,695,938	698,853	762,470	874,382	618,262
Exports from UK	286,997	294,093	240,927	249,452	311,192
Re-exports from UK	404	925	1,958	611	1,916

COMMUNICATIONS. *Roads.* Western Samoa has 422 miles of main roads (including 84 miles bitumen-sealed), 118 miles of secondary roads, and 40 miles of plantation roads fit for light traffic. In 1961, there were 621 passenger cars and 602 commercial vehicles.

Shipping. There is a regular fortnightly shipping communication from New Zealand and Fiji, connecting also with Japan, UK and USA.

Aviation. Western Samoa is linked by daily air service with American Samoa, which is on the route of the weekly New Zealand-Tahiti regional air service, and with Fiji, Australia, USA and Europe.

Telecommunication. There is a radio communication station at Apia. Telephone subscribers numbered 983 at Dec. 1962.

MONEY AND BANKING. The currency in circulation consists of Samoan Treasury notes and New Zealand coinage. In 1959 the Bank of Western Samoa was established with a capital of £100,000 of which £55,000 was subscribed by the Bank of New Zealand and £45,000 by the Government of Western Samoa. In 1961 the bank became the note-issuing authority of Western Samoa.

JAMAICA

HISTORY. Jamaica was discovered by Columbus in 1494, and remained in the possession of the Spaniards until it was taken by the English in 1655, and their possession was confirmed by the Treaty of Madrid, 1670. Self-government was introduced in 1944 and gradually extended until Jamaica achieved complete independence on 6 Aug. 1962.

CONSTITUTION AND GOVERNMENT. The constitution, embodied in the Jamaica (Constitution) Order in Council, 1962, came into force on the attainment of independence on 6 Aug. 1962. The Parliament of Jamaica consists of the Governor-General as the Sovereign's representative, the Senate and the House of Representatives.

The Senate consists of 21 senators appointed by the Governor-General; 13 on the advice of the Prime Minister, 8 on the advice of the Leader of the Opposition. The House of Representatives (45 members) is elected by universal suffrage for a 5-year period. Electors and elected must be Jamaican Commonwealth citizens and resident in Jamaica for 12 months before an election. The powers and procedure of Parliament correspond to those of the British Parliament.

The Privy Council consists of 6 members appointed by the Governor-General on the advice of the Prime Minister.

Governor-General: Sir Clifford Campbell, GCMG.

The elections to the House of Representatives, held on 10 April 1962, returned 26 members of the Jamaica Labour Party and 19 members of the People's National Party.

Prime Minister: Sir Alexander Bustamante, PC.

Deputy Prime Minister and Minister of Finance: D. B. S. Sangster. *Trade and Industry:* R. C. Lightbourne. *Development and Welfare:* E. P. G. Seaga. *Housing:* D. C. Tavares. *Agriculture:* J. P. TRINIDAD AND TOBAGO

HISTORY. Trinidad was discovered by Columbus in 1498 and colonized by the Spaniards in the 16th century. During the French Revolution a large number of French families settled in the island. In 1797, Great Britain being at war with Spain, Trinidad was occupied by the British and ceded to Great Britain by the Treaty of Amiens in 1802. Trinidad and Tobago were joined in 1889.

Under the Bases Agreement concluded between the Governments of the UK and the USA on 27 March 1941, and the concomitant Trinidad-US Bases Lease of 22 April 1941, defence bases were leased to the US Government for 99 years. On 8 Dec. 1960 the US agreed to abandon 21,000 acres of leased land; the area retained is for a period of 17 years.

CONSTITUTION AND GOVERNMENT. On 31 Aug. 1962 Trinidad and Tobago became an independent member state of the British Commonwealth.

The constitution provides for a bicameral legislature of a Senate and a House of Representatives. The Senate consists of 24 members appointed by the Governor-General, 13 of them on the advice of the Prime Minister, 4 on the advice of the Leader of the Opposition and 7 from religious, economic and social bodies the Prime Minister considers should be represented.

The House of Representatives consists of 30 elected members.

The Cabinet consists of the Prime Minister and the Governor-General, and other Ministers, including the Governor-General (14 in 1963).

The elections held on 4 Dec. 1961 gave the People's National Movement 20 seats and the Democratic Labour Party 10 seats.

Governor-General: Sir Solomon Hochoy, GCMG, OBE (appointed 31 Aug. 1962).

Prime Minister and Minister of External Affairs: Dr Eric Williams, PC.

PRODUCTION. Of the total area of 1,267,236 acres (Trinidad, 1,192,844 acres, and Tobago, 74,392 acres), about half has been alienated. Acres under cultivation and care include (1963): Forest, 694,792; sugar, 83,108; cocoa, 120,000; coconuts, 35,000; citrus, 13,000; tonca beans, 1,735. Sugar production in 1963 was 227,346 (1962: 201,120) tons. The territory is still largely dependent on imported food supplies, especially flour, dairy products, meat, rice and fish. Areas are being irrigated for rice, and soil and forest conservation is practised.

Oil production is one of Trinidad's leading industries and an important source of revenue. Commercial production began in 1909; production in 1961 was 45,767,772 bbls; in 1962, 48,876,144 bbls. Trinidad also possesses 2 refineries, with total capacity of 16.2m. bbls annually; some crude oil is imported from Venezuela and refined in Trinidad. Besides oil, Trinidad's natural resources include the 'Pitch Lake', an important source of asphalt; production, 1961, 175,326 tons; 1962, 162,613 tons.

In Dec. 1962 there were 83 workers' and 17 employers' unions with a total membership of 75,997.

COMMUNICATIONS. *Roads.* There are 2,527 miles of main and local roads. Motor vehicles at the end of 1962 numbered 53,681, including 36,928 private cars, 8,844 hiring cars, 320 rented cars, 310 buses, 11,279 goods vehicles, 2,824 tractors and trailers, 2,032 motor cycles.

Railways. Government railway: 109 miles of 4 ft. 8½ in. gauge.

Shipping. In 1962, 5,422 vessels arrived with a total tonnage of cargo of 19,374,000.

Telecommunications. Communication by cable with the UK, Europe, North America and other parts of the world is maintained by Cable and Wireless (West Indies), Ltd; 119 miles of telegraph. Number of post offices (1962), 200; number of telephones (1963), 33,554, of which over 18,000 are in Port-of-Spain.

Four wireless stations are maintained by the Trinidad Government and 3 by airline companies. A meteorological station is maintained at Piarco airport.

Aviation. The following airlines operate scheduled passages, air-mail and freight services through the Colony: British West Indian Airways, Ltd; Trans-Canada Airlines, Pan American Airways, KLM, Linea Aeropostal Venezolana, Aerolinas Argentinas, Leeward Islands Air Transport, Air France and BOAC.

CURRENCY. On 1 April 1962 the British Caribbean Currency Board had in circulation in Trinidad and Tobago notes amounting to \$43,533,887; coins to \$2,162,121.

BANKING. Banks operating: Barclays Bank DCO; Royal Bank of Canada; Canadian Imperial Bank of Commerce; Bank of Nova Scotia; Trinidad Co-operative Bank, Ltd; Bank of London and Montreal; Chase Manhattan Bank.

Government savings banks are established in 56 offices, with a head office in Port of Spain, the amount of deposits at the end of 1962 being \$11,123,000 and the total number of depositors 135,861.

Tobago is situated about 21 miles north-east of Trinidad. Main town is Scarborough.

Principal goods shipped from Tobago to Trinidad are copra, cocoa, livestock and poultry, fresh vegetables, coconut oil and coconut fibre.

UGANDA

HISTORY. The territories now forming Uganda came under British influence in 1890, and a portion of them was for a time administered by the Imperial British East Africa Company. In 1894 a British protectorate was declared over the kingdom of Buganda and some of the adjoining territories.

CONSTITUTION AND GOVERNMENT. Uganda became a fully independent member of the Commonwealth on 9 Oct 1962. Full sovereign status was granted by the Uganda Independence Act, 1962, and the Constitution is embodied in the Uganda (Independence) Order in Council, 1962. This Constitution provides for a Governor-General as the Queen's representative, a Prime Minister and Cabinet of Ministers and a National Assembly. The National Assembly consists of the Speaker and 92 members (82 elected, 9 specially elected and the Attorney-General *ex-officio*).

On 9 Oct. 1963 the post of governor-general was superseded by that of president, elected as head of state by the national assembly for a 5-year term.

President: H.H. Sir Edward Mutesa II, Kabaka of Buganda.

Vice-President: Sir William Nadiope, Kyabazinga of Busoga.

At the elections to the National Assembly held on 25 April 1962, the Uganda People's Congress obtained 37 seats; the Kabaka Yekka Movement in Buganda, 21 seats; the Democratic Party, 24 seats. The government is a coalition of Uganda People's Congress and Kabaka Yekka.

Prime Minister, Defence and Foreign Affairs: M. A. Obote.

Minister of State: G. B. K. Magezi. *Justice:* G. S. K. Ibingira. *Finance:* A. K. Sempa. *Internal Affairs:* F. K. Onama. *Education:* Dr J. S. L. Zake. *Commerce:* J. S. Mayanja-Nkangi. *Health:* Dr E. B. S. Lumu.

Binaisa, QC.

The Constitution also provides for a federal relationship between the central government and Buganda and also with the kingdoms of Toro, Bunyoro and Ankole and the territory of Busoga.

The capital of Uganda is Kampala, and the official language is English.

For administrative purposes Uganda is divided into 4 regions: (1) the Eastern Region, comprising the districts of Bugisu, Bukedi, Busoga, Mbale Township, and Teso; (2) the Western Region, comprising the districts of Bunyoro, Toro, Ankole and Kigezi; (3) Buganda Region, with islands in Lake Victoria, comprising the districts of Mengo, Masaka and Mubende; and (4) the Northern Region, comprising the districts of Karamoja, Lango, Acholi and West Nile.

The region of Buganda is recognized as a kingdom under a 'Kabaka', with the title of 'His Highness'. The districts of Bunyoro, Ankole and Toro also have hereditary rulers. In all 4 kingdoms the ruler has Ministers and a Lukiko or assembly on which sits chiefs and elected members.

AREA AND POPULATION. Total area 93,981 sq. miles (243,410 sq. km), including 13,680 sq. miles of swamp and water.

The population of Uganda is 6,523,628 (census of 1959), composed as follows: Africans, 6,436,570; Indians, 69,103; Goans, 2,830; Arabs, 4,259; Europeans, 10,866. Among the Africans 1,044,000 are Baganda, the tribe from which the country takes its name, and which was the most powerful and civilized at the time when the first explorers visited the country. In 1962-63 some 40,000 Tutsi refugees from Rwanda were settled in Uganda.

About 3m. Africans speak Bantu languages; there are a few Congo pygmies living near the Semliki River; the rest of the Africans belong to the Hamitic, Nilotic and Sudanese groups.

EDUCATION. In 1962 the responsibility for education at the junior secondary level was devolved upon local authorities to whom primary education had been transferred in 1955. The Ministry of Education retains responsibility for overall policy, school curricula and examinations, also for senior secondary education and teacher training, except in Buganda. African primary and junior secondary education is still largely in the hands of the religious voluntary agencies, who were entirely responsible until 1925,

but their work is to be linked with the local education authorities. From 1 Jan. 1964 Government ceased to give grants to the maintenance of the denominational education secretariats, and the work of the denominational supervisors will be integrated into the Area Education Offices.

European children of secondary school age attend schools in Kenya or elsewhere, but an increasing number are being admitted to schools predominantly Asian or African, but now open to all races and denominations.

The total recurrent expenditure on education in 1962-63 was £5,440,895; in addition, £1,414,000 was spent on capital works. The 1963-64 estimates are £5,896,271 recurrent and £2,718,340 capital.

At 31 Dec. 1962 there were grant-aided primary schools: 2,352 African with 387,966 pupils (including 133,655 girls); 83 predominantly Asian with 23,241 pupils (including 10,531 girls) and 12 predominantly European with 1,180 pupils (including 635 girls). Junior secondary education (7th and 8th years) was provided in 339 grant-aided African schools with 25,729 pupils (including 5,779 girls); 38 predominantly Asian schools with 4,294 pupils (including 1,907 girls). Predominantly European schools had 213 pupils (including 39 girls) in their 7th year. There were 35 grant-aided senior secondary schools for both Asian and African pupils with an enrolment of 7,840 (including 1,778 girls); 12 had 6th forms with 429 pupils (including 65 girls) studying for H.S.C.

There was one technical institute with 424 students (including 23 women), 12 junior technical schools with 1,056 pupils, 37 rural trade schools with 1,378 pupils, 6 farm schools with 186 pupils and 11 homecraft centres with 393 girl pupils. In 1963 the junior technical schools were reorganized in 5 schools.

The University College of East Africa at Makerere (Kampala) was established in 1939 as an independent self-governing institution catering for all the East African territories. From 1953 to 1963 the College was in special relationship with London University, but this was severed when in June 1963 Makerere, the Royal College, Nairobi, and University College, Dar es Salaam were merged in the 'University of East Africa'. In 1963-64 there were 375 students from Uganda attending Makerere College; 170 attending Royal College, Nairobi, and 22 attending University College, Dar es Salaam. In addition, approximately 1,500 Uganda students were receiving scholarships or bursaries and attending courses of higher education overseas.

JUSTICE. The High Court of Uganda, presided over by the Chief Justice and 6 puisne judges, exercises original and appellate jurisdiction throughout Uganda. The High Court of Buganda exercises similar jurisdiction within the kingdom of Buganda. District courts presided over by magistrates exercise limited civil and criminal jurisdiction in each district. The Court of Appeal for Eastern Africa was re-established on 9 Dec. 1962 as the Court of Appeal for Uganda; it hears appeals from the High Courts.

African courts whose jurisdiction equates with subordinate courts of the 2nd and 3rd class deal with criminal and civil cases between Africans. Some African courts have jurisdiction over all races, and a law school has been established at Entebbe to train them for this. The African courts are to be integrated with the Central Government Courts so that a unified courts system will be established.

The courts are supervised by the Senior Courts Adviser, the Judicial Adviser, Buganda and 3 Courts Advisers in each of the Regions.

FINANCE. The revenue and expenditure (exclusive of loan disbursements) for fiscal years (1 July-30 June) were (in £ sterling):

	1959-60	1960-61	1961-62 ¹	1962-63	1963-64 ²
Revenue	19,836,587	20,587,402	17,641,968	22,181,552	23,465,670
Expenditure	20,503,303	21,812,346	20,344,359	20,019,762	23,540,180
<i>Capital budget</i>					
Revenue	2,421,058	1,749,837	1,562,194	3,126,000	3,402,980
Expenditure	5,578,709	5,127,940	4,823,855	4,787,000	3,729,860

¹ Accounting basis changed.

² Estimate.

In 1962-63 (and estimate 1963-64) income tax amounted to £3.71m. (£3.66m.) and other direct taxation to £196,535 (£63,600). Public debt June 1962, £27,867,900.

In 1962-63 Uganda contributed £1,265,388 (1963-64 estimate, £1,346,830) to the East Africa Common Services Organization Distributable Pool Fund, from which Uganda received £672,681 (1963-64 estimate, £613,000).

PRODUCTION. *Agriculture.* Cotton and coffee are the principal exports, the former being grown entirely and the latter very largely by African farmers. 1,803,500 acres were planted to cotton in 1962-63, yielding 357,000 bales (of 400 lb.); the average production is 334,000 bales. The 1962 coffee crop amounted to 118,000 tons, of which 107,000 tons was *robusta* (record figures). Other cash crops produced in 1962 were tea (13.9m. lb.; 1963: 13.6m. lb.), tobacco (4.8m. lb.), groundnuts (7,500 tons exported), maize (10,000 tons exported), castor seed (2,600 tons exported), sisal and sugar (104,300 tons; 1963: 122,005 tons).

Forestry. Exploitable forests consist almost entirely of hardwoods. Internal consumption is rising rapidly, and most of the timber available for export is absorbed by the other East African territories, from which in return the bulk of the softwood imports are obtained. In 1962-63 some 20,000 tons of sawn timber were produced.

Fishery. With its 13,600 sq. miles of lakes and many rivers, Uganda possesses one of the largest fresh-water fisheries in the world. In 1962 fish production was 63,500 tons with a retail value of £3.5m. Fish farming (especially carp and tilapia) is a growing industry.

Minerals. With the opening of the Kilembe mine in 1956, copper has become Uganda's most valuable mineral export. In 1961 the principal minerals exported were copper (13,163 long tons; £2,875,000; 1962: 15,331 long tons, £3.49m.), wolfram (115 tons, £50,900; 1963: 10.7 long tons, £2,470), tin (46 long tons, £27,000; 1962: 104 long tons, £59,718); beryl (1,015 long tons, £128,000; 1962: 906 long tons, £133,497).

Power. Industrial expansion is based on hydro-electric power provided by the Owen Falls scheme, of which the first 8 of the 10 15,000-kw. turbo-alternator sets are in commission. The eventual capacity of the plant will be 150,000 kw. A supply line to Nairobi was opened in Jan. 1958, supplying Kenya (in 1963) with 15.6m. units a month.

COMMERCE. Since 1927 Uganda has been united in a customs union with Kenya and Tanganyika (see p. 186). The principal countries of origin in 1962 were UK (33.5%), Japan (16.3%), Western German (6.5%), Iran (6.2%), India (3.8%), USA (3.5%). The principal countries of destination were USA (26.7%), UK (19.7%), India (12%), Western Germany (5.6%).

Total trade between Uganda and UK in £ sterling (British Board of Trade returns):

	1959	1960	1961	1962	1963
Imports to UK	5,892,176	5,322,499	5,397,176	6,477,050	6,405,572
Exports from UK	4,972,910	5,034,628	4,973,727	4,472,112	4,930,979
Re-exports from UK	24,129	27,052	38,447	21,469	18,872

COMMUNICATIONS. Lake, marine, road and railway services are operated by the East African Railways and Harbours Administration (see p. 557). In May 1963 the line Mombasa-Gulu was opened.

Roads. There are 3,342 miles of all-weather roads maintained by the Ministry of Works, of which 739 miles are two-lane bitumenized highways, and some 11,000 miles of other roads, maintained by local governments.

Post. For posts see p. 558. There were 15,745 telephones in use at 1 Sept. 1963.

Aviation. Entebbe has a first-class international airport and has direct flights to Europe, West Africa, Southern Rhodesia, Sudan, Kenya, Tanganyika and the Congo Republic by BOAC, BUA, EAA, Sudan Airways, Air Congo, SABENA and many charter companies. Entebbe airport was used by 92,544 passengers in 1963. Ten other government airfields are used for internal communications.

CURRENCY. For notes and coins see p. 558.

BANKING. Barclays Bank DCO has 11 branches and 7 agencies; National & Grindlays Bank Ltd has 12 branches and 12 agencies; the Standard Bank Ltd has 6 branches and 2 agencies; the Bank of Baroda Ltd has 3 branches; the Bank of India Ltd has 2 branches. Other banks operating in Uganda are the Netherlands Trading Society, the Ottoman Bank and the Uganda Credit and Savings Bank.

ZANZIBAR

HISTORY. At the end of the 17th century the inhabitants of Zanzibar drove out the Portuguese with the assistance of the Arabs of Oman. Thereafter an Arab governor from Oman was sent to Zanzibar, but the government of the interior remained in the hands of a local ruler, latterly known as the Mwinyi Mkuu. In 1832 Seyyid Said bin Sultan, ruler of Oman, established his capital at Zanzibar, and thereafter the whole of that island and the island of Pemba together with a large strip of the East African mainland coast came under his effective rule. Seyyid Said died in 1856. Five years later his former African possessions were, under an arbitration award made by Lord Canning (then Governor-General of India), declared to be independent of Oman. In 1887 the Sultan of Zanzibar handed over

the administration of his possessions to the north of Vanga on the African continent to the British East Africa Association. The administration of these territories eventually passed to the British Government and are now part of Kenya. In 1888 a similar concession was granted to the German East Africa Association of the Sultan's mainland territories between the river Umba and Cape Delgado. In 1890 the German Government bought these territories outright for 4m. marks. In 1892 the administration of the Benadir Ports (which had in 1889 been conceded to the British East Africa Association) was, with the consent of the Sultan, transferred to the Italian Government in consideration of a quarterly payment of Rs 40,000. The Sultan renounced in 1886 in favour of Portugal all claims to the coast to the south of Cape Delgado.

In 1890 the islands of Zanzibar and Pemba were placed under British protection by the Sultan, Seyyid Ali bin Said; a regular form of government was set up in 1891.

CONSTITUTION AND GOVERNMENT. On 24 June 1963 Zanzibar became an internal self-governing state and on 9 Dec. 1963 she became independent.

In June 1963 a Cabinet consisting of a Prime Minister and 7 Ministers was established. On 24 June 1963 the Legislative Council was replaced by a National Assembly which consists of the Speaker and 31 elected members.

The elections, held in July 1963, returned 13 Afro-Shirazi Party, 12 Zanzibar Nationalist Party and 6 Zanzibar and Pemba People's Party members.

On 12 Jan. 1964 the sultanate was overthrown and the sultan sent into exile by a revolt of the Afro-Shirazi Party leaders who established the People's Republic of Zanzibar.

President of the Republic: Shaikh Abeid Amani Karume.

Vice-President and Prime Minister: Shaikh Abdulla Kassim Hanga.

Minister of External Affairs: Shaikh Abdul Rahman Muhammad Babu.

British High Commissioner: T. L. Crosthwait, MBE

AREA AND POPULATION. The island of Zanzibar is situated in 6° S. lat., and is separated from the mainland by a channel 22½ miles across at its narrowest part. It is the largest coralline island on the African coast, being 50 miles long by 24 broad, and having an area of 640 sq. miles (1,658 sq. km). To the north-east, at a distance of some 25 miles, lies the island of Pemba in 5° S. lat., 42 miles long by 14 broad, having an area of 380 sq. miles (984 sq. km). The average annual rainfall is about 60 in. in Zanzibar and nearly 80 in. in Pemba.

The population of Zanzibar and Pemba, at the 1958 census, was 299,111 (Zanzibar, 165,253; Pemba, 133,858). The African population is composed of the indigenous Watumbatu, Wahadimū and Wapemba, and other Africans comprising at least 50 mainland tribes. The racial composition of the population was as follows in 1958: Indigenous inhabitants, Arabs, Comorians and mainland Africans, 279,935; Asians other than Arabs, 18,334; Euro-507; others, 335. Zanzibar town had a population of 57,923.

N. Most of the residents are Moslems (Sunnis of the Shafi the Sultan and a few Arab families from Oman are of the Ibadhi

3 Christian Missions: the Universities Mission to Central
the Mission of the Holy Ghost (Roman Catholic)
Mission (Quakers).

EDUCATION. In 1962 there were 74 primary schools (including 62 government, 10 government-aided, and 2 private schools), and 12 secondary and continuation schools (6 government and government-aided and 6 private schools); aggregate enrolment (excluding private schools) was 21,605 pupils in primary schools and 1,104 in secondary schools. There are 2 government training colleges for men and women primary teachers. Higher education is provided at institutes in other East African territories and in the UK, India, Pakistan, Sudan, Canada and USA. Expenditure on education from local revenue was £422,338 in 1962.

JUSTICE. In the cases in which persons subject to the Zanzibar Order-in-council, 1924, are parties, justice is administered by the High Court and the courts subordinate thereto. Subordinate courts are presided over by *resident magistrates, administrative officers, Kathis and Mudirs*. There are also juvenile courts comprising male and female members selected from panels. Appeals lie to the Court of Appeal for Eastern Africa and thence to the Privy Council.

FINANCE. Revenue and expenditure (in £ sterling) for calendar years until 31. Dec. 1960 and for fiscal years, 1 July–30 June, from 1961:

	1960	1961-62	1962-63	1963-64 ⁴
Revenue from customs ¹	1,734,069	1,568,706	1,484,204	1,537,150
Total revenue ²	2,573,318	2,732,217	2,617,838	3,035,487
Expenditure ³	2,525,292	3,386,535	3,271,858	3,796,602

¹ Gross; includes duties on imports and clove export duty.

² Excludes loans, includes development revenue.

³ Includes development expenditure.

⁴ Estimates.

Besides customs, the chief sources of revenue in 1962-63 were: Interest and redemption, £124,051; licences and internal revenue, £281,555; earnings and sales, 288,033.

The chief heads of expenditure in 1962-63 were: Agriculture, £132,679; education, £417,642; health, £304,654; pensions, £346,106; police, £255,406; port and marine, £135,014; district administration, £70,236; public works, £305,135.

In 1962-63 Zanzibar contributed £44,256 to the non-self-contained services of the East African Common Services Organization.

PRODUCTION. Zanzibar provides the greater part of the world's supply of cloves. There are about 80,000 acres under cloves with about 4m. trees; five-sixths of the clove output is produced on Pemba. Cloves and clove oil (distilled from the stems) form more than half Zanzibar's exports.

The coconut industry ranks next in importance. There are about 5.5m. bearing trees in both islands. The cultivation of chillies, cocoa and limes for export is being expanded; other tropical fruits and coil tobacco are also exported. The chief food crops are rice, bananas, cassava, pulses, maize and sorghum. Cattle provide meat and milk for home consumption; while hides are exported.

Fisheries. A Fisheries Development Company, in which the Government has a financial interest, is catching sardines and tuna for export.

Manufactures. Manufactures are principally coir fibre, bags and rope, soap, jewellery, ivory and ebony ornaments, and metalware.

COMMERCE. Total imports and exports (including bullion and specie; in £ sterling) and shipping entered (gross tons):

	1957	1958	1959	1960	1961	1962
Imports	6,529,100	5,346,755	5,509,128	5,351,117	6,318,091	6,658,133
Exports	5,938,782	5,203,100	4,775,596	5,726,859	5,226,932	5,858,835
Shipping	2,878,570	3,436,132	3,704,834	3,857,435	2,172,983	2,211,840

The principal articles of import in 1962 were: Rice and grain, £898,643; maize flour, wheat meal and flour, £271,672; cotton piece-goods, £185,896; artificial silk piece-goods, £192,708; motor spirit, £157,320; motor cars and lorries, £90,348; tobacco and cigarettes, £140,228. Exports (1962): Cloves, 7,626 metric tons (£2,079,635); clove oil, 120 tons (£98,437); coconut oil, 2,536 tons (£212,371); coconuts, 3,129 tons (£73,547); copra, 7,621 tons (£387,710; 1961: £403,362); coir fibre, 4,108 tons (£98,609).

The trade between Zanzibar (and Pemba) and UK (British Board of Trade returns) for calendar years is given as follows (in £ sterling):

	1959	1960	1961	1962	1963
Imports to UK	228,389	327,590	300,389	222,670	237,419
Exports from UK	791,042	721,769	788,476	667,874	709,997
Re-exports from UK	10,505	12,554	11,370	6,864	5,833

COMMUNICATIONS. *Shipping.* The vessels of many British and foreign steamship companies visit the port. The Zanzibar Government steamers operate services to Pemba and Dar es Salaam, and occasional trips to Mombasa.

Ocean-going shipping in 1962, 456 vessels (2,073,777 NRT); coastwise, 258 vessels (138,063 NRT). Cargo handled in 1962: inwards, 72,446 long tons; outwards, 55,477 long tons. Excellent water supplied at 3.5 tons per minute is available for shipping.

Roads. There are in Zanzibar 279 miles of tarmac roads and 70 miles of all-weather unsealed roads; in Pemba there are 86 miles of tarmac roads and 184 miles of dry-weather earth roads.

Post. The Government maintains a telephone system in the town of Zanzibar, which is connected with the district and agricultural stations in the country. A telephone service in the island of Pemba connects the 3 main townships, i.e., Wete, Chake Chake and Mkoani. There are 7 post offices and 1,750 telephones in the two islands. The government savings bank at the end of 1962 had 35,413 depositors, with £514,349 on deposit.

There is cable communication with Europe either *via* Aden or *via* Durban and a wireless telephone communication with the other East African territories.

Aviation. There is an all-weather landing-ground in Zanzibar and a smaller all-weather landing-ground in Pemba.

CURRENCY. Since 1 Jan. 1936 the East African Currency Board shilling (*see* p. 558) has been the unit of currency in Zanzibar.

An important local unit of weight is the *frasla* (or *frasila*) = 35 lb. av.

KENYA

HISTORY. Until Kenya became independent on 12 Dec. 1963, it consisted of the colony and the protectorate. The protectorate comprised the mainland dominions of the Sultan of Zanzibar, viz., a coastal strip of territory 10 miles wide, to the northern branch of the Tana River; also Mau, Kipini and the Island of Lamu, and all adjacent islands between the rivers Umba and Tana. These territories were, in 1895, placed under British administration by the Sultan, who received an annuity of £16,000. The Sultan on 8 Oct. 1963 ceded the 'coastal strip' to Kenya with effect from 12 Dec. 1963.

The colony and protectorate, formerly known as the East African Protectorate, were, on 1 April 1905, transferred from the Foreign Office to the Colonial Office, and in Nov. 1906 the protectorate was placed under the control of a Governor and C.-in-C. and (except the Sultan of Zanzibar's dominions) was annexed to the Crown as from 23 July 1920 under the name of 'The Colony of Kenya', thus becoming a Crown Colony. The territories on the coast became the Kenya Protectorate.

A treaty was signed (15 July 1924) with Italy under which Great Britain ceded to Italy the Juba River and a strip from 50 to 100 miles wide on the British side of the river. Cession took place on 29 June 1925. The northern boundary is defined by an agreement with Ethiopia in 1947, which supersedes the original agreement of 1908.

GOVERNMENT. A constitution conferring internal self-government was brought into force on 1 June 1963, and full independence was achieved on 12 Dec. 1963.

The central legislature comprises the House of Representatives of 117 members elected by universal adult suffrage and 12 specially elected members elected by the House sitting as an electoral college, and a Senate of 41 senators all elected by universal adult suffrage.

The country is administratively divided into 7 regions, in each of which an elected Regional Assembly has certain legislative and executive powers. The regions are named: Coast, Central, Eastern, Rift Valley, Western, Nyanza, North-East.

Governor-General: Malcolm MacDonald (sworn in 4 Jan. 1963 as Governor, 12 Dec. 1963 as Governor-General).

As a result of the elections in May 1963, the seats in the central legislature were held as follows: *House of Representatives:* Kenya African National Union (KANU), 75; Kenya African Democratic Union (KADU), 33; African Peoples Party (APP), 8; independents, 8. *Senate:* KANU, 19; KADU, 16; APP, 1; independents, 2. In the North-East Region the elections for both houses were boycotted and no members were returned.

The following KANU cabinet was sworn in on 12 Dec. 1963:

Prime Minister, External Affairs and Defence: Jomo Kenyatta.

Home Affairs: A. O. Odinga. *Justice and Constitutional Affairs:* T. J. Mboya. *Finance and Economic Planning:* J. S. Gichuru. *Prime Minister's Office:* J. Murumbi. *Education:* J. D. Otiende. *Local Government:* S. O. Ayodo. *Commerce and Industry:* Dr J. G. Kiano. *Works, Communications and Power:* D. Mwanyumba. *Labour and Social Services:* E. N. Mwendwa. *Natural Resources:* L. G. Sagini. *Health and Housing:* Dr N. Mungai. *Information, Broadcasting and Tourism:* R. Achieng-Oneko. *Pan African Affairs:* P. M. Koinange. *Agriculture and Animal Husbandry:* B. R. McKenzie. *Lands and Settlement:* J. H. Angaine.

In the Regional Assemblies KANU secured majorities in the Central, Eastern and Nyanza Regions, while KADU secured majorities in the Central Rift, Coast and Western Regions. In the North-East Region, elections were again boycotted and the Governor had to take over responsibility for the Region.

AREA AND POPULATION. The total area of Kenya is 224,960 sq. miles (582,600 sq. km), of which 219,790 sq. miles is land area. According to the 1962 census the population was 8,626,163, of whom 8,355,942 were Africans. Of the total non-African population of 270,321, 176,613 were Asians, 55,759 Europeans, 34,048 Arabs and 3,901 others.

On the coast the Arabs and Swahili predominate; further inland are races speaking Bantu languages, and non-Bantu tribes such as the Luo, the Nandi and Kipsigis, the Masai, the Somali and the Gallas.

Mombasa harbour is situated on the eastern side of an island of the same name, and is the terminus of the railway. Kilindini harbour on the south-western side of the island is the finest land-locked and sheltered harbour on the east coast of Africa, and is accessible to vessels of deep draught. The principal river in the north is the Tana, which flows into the Indian Ocean.

Nairobi, the capital, was given a Royal charter on 30 March 1950; it had, as at 1 July 1961, an estimated population of 297,000, including 24,000 Europeans and 98,000 Asians.

RELIGION. The indigenous African background is pagan, but Christianity is making an important contribution to the life of the whole territory, not only through the educational and medical services of Christian missions, but by the growth of churches under African leadership, and by its impact on the thought and policy of the country. The Roman Catholic Church (about 920,000 adherents) has been developed by mainly British, Italian and French mission societies and is now organized in 9 dioceses under the archbishop of Nairobi. The Protestant Churches (about 600,000 adherents) were started mainly by British and American mission societies; most of them are now linked together by the Christian Council of Kenya.

An Anglican Church Province of East Africa with the bishop of Mombasa as archbishop, was inaugurated on 3 Aug. 1960.

The Society of Friends had 75,749 adherents in 1962, its largest membership in the world.

The Arabs on the coast are Moslems, and Islam has spread among some of the African coastal tribes and in the cities. The Asians are Hindus and Moslems, with the exception of the Goans, who are Roman Catholics.

EDUCATION (1962). *European.* 44 primary schools (20 government, 1 local government, 10 aided, 13 unaided) with together 6,836 pupils; 17 secondary schools (2 government, 8 aided and 7 unaided) with together 3,369 pupils.

Asian (including Goan and mixed races). 121 primary schools (32 government, 87 aided and 2 unaided) with together 40,622 pupils; 39 secondary schools (14 government, 11 aided and 14 unaided) with together 13,141 pupils; 3 government teacher-training centres with together 226 students.

African. 4,609 primary schools (14 government, 4,327 aided and 268 unaided) with together 637,170 pupils; 1,412 intermediate schools (9 government, 1,385 aided and 18 unaided) with together 247,635 pupils; 84 secondary schools (68 aided, 16 unaided) with together 9,055 pupils; 38 teacher-training centres (37 aided and 1 unaided) with together 3,727 students.

Arab. 12 primary schools (9 government and 3 aided) with together 3,503 pupils; 1 aided secondary school with 263 pupils. In addition, 75 pupils were studying in Asian schools, 28 boys and 9 girls in Asian primary schools.

Higher Education. The University of East Africa was inaugurated on 28 June 1963. It has 3 constituent Colleges, Makerere University College in Kampala, Uganda, the Royal College in Nairobi, Kenya, and University College in Dar es Salaam, Tanganyika. The 3 Colleges are jointly supported by the Governments of Kenya, Uganda, Tanganyika and Zanzibar and provide courses in arts, science, education, agriculture, medicine, art, architecture, engineering, veterinary science, law and domestic science. There were 536 Kenya students at these Colleges in 1963.

In addition, about 2,800 students were taking courses of higher education at institutions outside East Africa, most of them assisted by the Kenya Government, by Local Authorities in Kenya, by the Rattansi Educational Trust or by the British Government. The largest groups of Kenya students abroad were in Britain (1,478) and in the United States (849).

Technical and Trade Schools. Six technical and trade schools were administered by the Education Department in 1963. The schools situated at Kabete near Nairobi, Thika in the Central Province, Sigalgala in Nyanza Province, at Kwale in the Coast Province, at Machakos and Eldoret had a total student population of about 1,150 in 1963.

Mawego rural training centre, a grant-in-aid institution managed by a voluntary agency, was upgraded to the status of a technical and trades school.

The Kenya Polytechnic had some 850 students. The Mombasa Institute of Moslem Education had some 300 full-time and evening students. Evening classes in Nairobi, Mombasa and Nakuru had a total enrolment of 426.

Government expenditure on education in 1962-63 was: Gross, £7,645,862; net, £6,511,923; appropriations-in-aid, £1,133,939.

Cinemas. In 1962 there were 30 cinemas.

HEALTH. In 1962 beds in hospitals (including mission and non-government hospitals) totalled 11,203. In-patients in government hospitals totalled 146,740 and out-patients, 1,316,631. At the end of 1962, 145 health centres were in operation. Total expenditure of the Ministry of Health for the financial year 1961-62 was £2,727,930, together with Development expenditure of £168,390.

JUSTICE. The courts of justice comprise the Supreme Court, established in 1921, with full jurisdiction both civil and criminal over all persons and all matters in Kenya including Admiralty jurisdiction arising on the high seas and elsewhere, and Subordinate Courts constituted under the provisions of the Courts Ordinance. The Supreme Court has its headquarters at Nairobi and consists of the Chief Justice and 11 puisne judges; it sits continuously at Nairobi, Mombasa and Kisumu; civil and criminal sessions are held regularly at Nakuru, Eldoret, Nyeri, Kitale, Kisii and Kericho.

The Subordinate Courts are presided over by Senior Resident, Resident or other Magistrates and are established throughout all regions. In the exercise of their criminal jurisdiction they sit throughout the year.

There are also Moslem Subordinate Courts established in areas where the local population is predominantly Mohammedan; they exercise limited civil and criminal jurisdiction.

African courts are regulated by the African Courts Ordinance, 1951; they exercise restricted jurisdiction in African customary law.

FINANCE. Revenue and expenditure (in £1,000 sterling) for fiscal years 1 July-30 June:

	1959-60	1960-61	1961-62	1962-63 ¹	1963-64 ¹
Net revenue	32,997	34,249	34,979	33,945	36,856
Net expenditure	31,671	31,262	33,289	36,487	40,352
Development revenue	8,087	8,762	8,923	14,130	14,142
Development expenditure	9,695	9,151	19,320	14,116	14,142

¹ Estimates.

These figures have been arrived at after deducting appropriations-in-aid (consisting mainly of departmental revenue) from the gross revenue and expenditure tables. Revenue figures for 1959-60 include assistance by H.M. Government towards the cost of the emergency.

Of the revenue in 1962-63, customs and excise accounted for £18m.; income tax, £10.6m.; other licences, duties and taxes, £4.1m.; EACSO distributable pool; £666,000. Of the 1962-63 development receipts £3,715,215, came from the CDW vote, £5,386,000 from UK exchequer loans, £635,648 from an International Bank Loan.

Funded public debt at 30 June 1962: £49,246,000 (colony, £42,549,900; railway, £6,696,100).

PRODUCTION. Agriculture. As agriculture is possible from sea-level to altitudes of over 9,000 ft, climatic conditions are extremely varied, and tropical, sub-tropical and temperate crops are grown. The main producing areas are in the Highlands, Central Province and Nyanza Province, where coffee, maize, wheat, sisal, tea and pyrethrum are crops of major importance. At lower altitudes, where conditions are tropical, maize, sisal, sugar, coconuts, cashew nuts and cotton are crops of principal importance. The live-stock industry is important, and considerable quantities of butter, bacon, ham and hides and skins are exported.

Groundnuts, simsim, potatoes, beans, essential oils and other miscellaneous crops are grown according to elevation and rainfall both for export and home consumption.

Forestry. The total area of gazetted forest reserves in Kenya amounts to 6,719 sq. miles, of which the greater part is situated in the higher altitudes. The crown forest (land) reserve is 5,240 sq. miles, crown forest (mangrove) reserve is 209 sq. miles, and native forest reserve 1,395 sq. miles.

The high-altitude forests are mostly situated on Mount Kenya, the Aberdares, Mount Elgon, Tinderet, Londiani, Mau watershed, Elgeyo and Cherangani ranges at altitudes of between 6,000 and 11,000 ft above sea-level. These forests may be roughly divided into coniferous forests and broad-leaved tree species. The upper parts of these high-altitude forests are mainly bamboo, which occurs mostly between altitudes of 8,000 and 10,000 ft and occupies some 12% of the total area of the high-altitude forests.

The whole of the gazetted land forests serve the role of protective forests, for most of them are situated on the main water-catchment areas of Kenya. Water therefore is the main product to be harvested from Kenya forests, while timber, though essential, is by comparison of secondary importance.

In 1962, 50,391 tons (50 cu. ft true measure per ton) of indigenous softwoods (*Juniperus procera* and *Podocarpus spp.*), 35,779 tons of exotic softwoods (*Cupressus lusitanica*, *Pinus radiata* and *P. patula*) and 11,710 tons of hardwoods were sold from forest reserves. Domestic exports of timber and timber products amounted to £340,423 in 1962.

Mining. The mineral resources are not yet fully explored, but by the end of 1962 approximately 146,600 sq. miles (65% of the area of Kenya) had been geologically surveyed and mapped. One special oil prospecting licence and one oil prospecting licence were extant at the end of 1962, together covering about 29,000 sq. miles.

Mineral production during 1962, excluding much building material, was valued at £5,080,537. The main products were: Cement, 340,905 long tons (£2,653,385); soda ash, 122,120 long tons (£1,346,470); copper, 2,190 long tons (£505,000); salt, 18,568 long tons (£150,497); gold (refined), 8,917 troy oz. (£110,958); limestone products (other than those used in cement manufacture), 17,995 long tons (£109,578); diatomite, 2,863 long tons (£41,084); carbon dioxide (natural), 458 long tons (£30,603). Other minerals produced in 1962 had a total value of £67,840 and comprised asbestos, columbite, coral, kaolin, mica, pumice, quartz, sandstone (for reconstitution), sapphires, silver (refined), soda (raw crushed), vermiculite.

COMMERCE. Since 1949, Kenya has been united in a customs union with Uganda and Tanganyika (see p. 555). In addition to the items listed on p. 557, Kenya in 1962 also exported 3,339 long tons of butter and ghee (£927,000). The chief countries of destination in 1962 were: UK, 26.8%; West Germany, 19.9%; USA, 9.9%; chief countries of origin: UK, 33.2%; Japan, 10.5%; Iran, 8.4%; USA, 7.2%; West Germany, 5.47%; South Africa, 3.57%.

Total trade between Kenya and UK, in £ sterling (British Board of Trade returns):

	1959	1960	1961	1962	1963
Imports to UK	14,349,602	13,128,982	12,443,912	15,223,916	18,560,304
Exports from UK	23,918,560	31,400,233	28,921,242	29,572,452	30,244,478
Re-exports from UK	212,573	221,103	226,250	256,191	380,632

COMMUNICATIONS. **Roads.** In June 1963 there were about 26,000 miles of public roads, of which 1,112 miles were bitumen-surfaced. The main roads (3,871 miles), where not bitumenized, are gravel-surfaced and are, for the most part, all weather, except during excessive rains. Secondary roads

(6,657 miles, of which 300 are bitumen) are mostly gravel-surfaced, but are more subject to closure to heavy traffic in wet weather. A £4m. Contractor-Finance Scheme for the bitumenization of trunk roads which started in 1959, and a £1m. International Bank Loan Scheme for the improvement of roads in African areas of high agricultural potential which started in 1960 were completed in 1963.

For railways, see p. 557. For post and telecommunications, see p. 558.

Broadcasting. The Kenya Broadcasting Corporation operates 3 national services (English, Asian and African) from Nairobi and regional services in the vernaculars of Nyanza from Kisumu; in Somali, Kamba, Massai and Kikuyu from Nairobi; and in Swahili and Arabic from Mombasa.

The Corporation also operates a television service from a transmitter 18 miles from Nairobi.

CURRENCY AND BANKING. For notes and coins see p. 558.

Banks operating in the colony: the National and Grindlays Bank, Ltd; the Standard Bank, Ltd; Barclays Bank DCO; Nederlandsche Handel Mij; Bank of India, Ltd; Bank of Baroda, Ltd; Habib Bank (Overseas), Ltd; Ottoman Bank; Commercial Bank of Africa.

EAST AFRICAN COMMON SERVICES ORGANIZATION

ON 9 Dec. 1961, with the achievement of full independence by Tanganyika, the East Africa High Commission was re-organized under the name of the East African Common Services Organization. This was agreed at a conference held in London in June 1961 to consider how the services of the High Commission could be made available to Tanganyika without infringing her sovereignty.

EACSO continues the general administration of the social, research, scientific and economic services the High Commission has controlled since its inception on 1 Jan. 1948. The Governments of Tanganyika, Uganda and Kenya remain responsible for all basic public services, such as administration, police, health, education, agriculture, animal health, forestry, labour and public works.

The Organization is controlled by the President of Tanganyika and the Prime Ministers of Uganda and Kenya (or their delegates). These form the East African Common Services Authority, and are responsible for its policy; 5 committees of 3 ministers (one from each territory) control the 5 groups of services, namely, Communications (including railways and harbours, posts and telecommunications, civil aviation and meteorology); Finance, including responsibility for collecting income tax and customs and excise (but not for fixing the rates of taxes and duty) and for the finances of the General Fund Services; Commercial and Industrial Co-ordination; Social and Research Services; Labour, which includes industrial relations and co-ordination of labour matters.

The Central Legislative Assembly remains responsible for passing the legislation for the administration of the services. It consists of the Speaker, 15 ministers (the 5 committees); 9 members from each state, elected by their legislatures and 2 official members, the secretary-general, who is the principal executive officer, and the legal secretary.

Secretary-General: D. A. Omari.

Legal Secretary: A. M. Akiwumi.

FINANCE. Revenue in respect of the non-self-contained services, 1958-59, £4,586,266; 1959-60, £3,830,655; 1960-61, £4,835,465; 1961-62, £6,512,897; 1962-63, £5,217,966. The financial year runs from 1 July to 30 June.

In 1963-64 the main items of estimated expenditure were: Customs and Excise, £1,139,593; Income Tax, £736,086; Civil Aviation, £714,261; Natural Resources, £628,729; Meteorological Department, £424,707.

COMMERCE. Kenya, Tanganyika and Uganda form a single trade unit and there is, apart from licensing control in respect of certain commodities, virtual freedom of trade between them. Power to legislate fiscally is vested in the territorial governments and the revenue is allocated between them by means of a system of transfer forms. The customs and excise revenue is collected by the East African Customs and Excise, a Common Service, established on 1 Jan. 1949.

COMMUNICATIONS. The East African Railways and Harbours Administration is a service of the East African Common Services Organization.

Revenue, 1962, from railways, inland waterways and road services, £20,118,000; from harbours, £5,431,000. Expenditure (excluding contribution to renewals fund), 1962, on railways, £15,285,000; on harbours, £3,983,000.

Railways. The railways comprise 3,568 route miles of single metre-gauge track. Main lines: Mombasa-Kasese, 1,036 miles; Dar es Salaam-Kigoma, 779 miles; Tanga-Moshi-Arusha, 273 miles. Principal branch lines: Nakuru-Kisumu, 131 miles; Nairobi-Nanyuki, 145 miles; Tororo-Gulu, 233 miles; Voi-Kahe, 94 miles; Tabora-Mwanza, 236 miles; Mnyusi-Ruvu, 117 miles. Minor branch lines: Gilgil-Thomson's Falls, 48 miles; Rongai-Solai, 27 miles; Leseru-Kitale, 41 miles; Busembatia-Jinja via Mbulamuti, 93 miles; Kisumu-Butere, 43 miles; Port Bell-Kampala, 6 miles; Kilosa-Mikumi, 44 miles; Kaljua-Mpanda, 131 miles; Konza-Magadi, 91 miles.

In 1962, 5,457,000 tons of goods and 3.84m. passengers were carried by the railway.

Shipping. The principal harbours are: Mombasa (Kilindini) in Kenya; Tanga, Dar es Salaam and Mtwara in Tanganyika. Kilindini has 11 deep-water berths, bulk oil jetty and lighterage quays. There are 3 deep-water berths at Dar es Salaam and 2 at Mtwara.

Steamer services are operated on lakes Victoria and Tanganyika, and on the river Nile. In 1962, 278,000 tons and 479,000 passengers were transported over 3,606 route miles on the lakes.

Roads. Road services operate in Uganda over approximately 200 miles connecting Kampala with Masindi, and Pakwach on the river Nile with the Northern Extension railhead at Gulu. Road services in Tanganyika over approximately 1,800 miles serve the Southern Highlands from the Central (Dar es Salaam-Kigoma) line. A railway link between the Tanga and Central lines, completed in 1963, replaces the road services north of the Central line.

Posts and Telecommunications. The East African Posts and Telecommunications Administration operates as a self-contained service with its own capital account. Capital assets (1963), £16.1m. The total revenue earned during 1963 was £7.3m.; working expenditure, £7.1m.; capital expenditure, £0.8m. At the end of 1963 there were 592 post offices and 285 telephone exchanges. East African External Communications Ltd operate the overseas telegraph and telephone services; cables from Mombasa and Dar es Salaam connect at Zanzibar with the world cable network, and there is a radio-telephone service providing telephone communication with most countries in the world and with certain ships at sea. An international telex service is also operating.

CURRENCY. The currency of the Common Services Territories as well as that of Zanzibar and Aden is controlled by the East African Currency Board with headquarters in Nairobi. The standard coin is the East African shilling of 100 cents (20 shillings = 1 East African £), introduced as from 1 Jan. 1922. The subsidiary coinage consists of 50 (cupro-nickel), 10 and 5 cents (bronze). The paper currency consists of notes of 1, 5, 10, 20, 100, 200, 1,000 and 10,000 shillings; but Aden does not issue 1,000- and 10,000-shilling notes. The 1-shilling and 200-shilling notes are being withdrawn.

PART III

THE UNITED STATES OF AMERICA

UNITED STATES OF AMERICA

GOVERNMENT

The Declaration of Independence of the 13 states of which the American Union then consisted was adopted by Congress on 4 July 1776. On 30 Nov. 1782 Great Britain acknowledged the independence of the USA, and on 3 Sept. 1783 the treaty of peace was concluded.

CONSTITUTION. The form of government of the USA is based on the constitution of 17 Sept. 1787.

By the constitution the government of the nation is composed of three co-ordinate branches, the executive, the legislative and the judicial.

The National Government has authority in matters of general taxation, treaties and other dealings with foreign Powers, foreign and inter-state commerce, bankruptcy, postal service, coinage, weights and measures, patents and copyright, the armed forces (including, to a certain extent, the militia), and crimes against the USA; it has sole legislative authority over the District of Columbia and the possessions of the US.

The 5th article of the constitution provides that Congress may, on a two-thirds vote of both houses, propose amendments to the constitution, or, on the application of the legislatures of two-thirds of all the states, call a convention for proposing amendments, which in either case shall be valid as part of the constitution when ratified by the legislatures of three-fourths of the several states, or by conventions in three-fourths thereof, whichever mode of ratification may be proposed by Congress. Ten amendments (called collectively 'the Bill of Rights') to the constitution were added 15 Dec. 1791; two in 1795 and 1804; a 13th amendment, 6 Dec. 1865, abolishing slavery; a 14th in 1868, including the important 'due process' clause; a 15th, 3 Feb. 1870, establishing equal voting rights for white and coloured; a 16th, 3 Feb. 1913, authorizing the income tax; a 17th, 8 April 1913, providing for popular election of senators; an 18th, 16 Jan. 1919, prohibiting alcoholic liquors; a 19th, 18 Aug. 1920, establishing woman suffrage; a 20th, 23 Jan. 1933, advancing the date of the President's and Vice-President's inauguration and abolishing the 'lame-duck' sessions of Congress; a 21st, 5 Dec. 1933, repealing the 18th amendment; a 22nd, 26 Feb. 1951, limiting a President's tenure of office to 2 terms, or to 2 terms plus 2 years in the case of a Vice-President who has succeeded to the office of a President; a 23rd, 30 March 1961, granting citizens of the District of Columbia the right to vote in national elections.

The 24th amendment, banning the use of the poll-tax in federal elections, was passed by Congress in 1962 and became part of the constitution on 4 Feb. 1964.

National flag: Seven red and 6 white alternating stripes, horizontal; with a blue canton, extending down to the lower edge of the 4th red stripe from the top, and displaying 50 white 5-pointed stars, one for each state. The stars have one point directed vertically upward, and they are arranged in 6 rows of 5 each, alternating with 5 rows of 4 each. On the admission of additional states, stars are added, effective on 4 July following the date of admission. Congress, by law of 22 Dec. 1942, has codified 'existing rules and customs' pertaining to the display of the flag, for civilians.

National anthem: The Star-spangled Banner, 'Oh say, can you see by the dawn's early light' (words by F. S. Key, 1814; tune by J. S. Smith; formally adopted by Congress 3 March 1931).

National motto: 'In God we trust'; formally adopted by Congress 30 July 1956.

PRESIDENCY. The executive power is vested in a president, who holds office for 4 years, and is elected, together with a vice-president chosen for the same term, by electors from each state, equal to the whole number of senators and representatives to which the state may be entitled in the Congress. The President must be a natural-born citizen, resident in the country for 14 years, and at least 35 years old.

The presidential election is held every fourth (leap) year on the Tuesday after the first Monday in November. Technically, this is an election of presidential electors, not of a president directly; the electors thus chosen meet and give their votes (for the candidate to whom they are pledged, in some states by law, but in most states by custom and prudent politics) at their respective state capitals on the first Monday after the second Wednesday in December next following their election; and the votes of the electors of all the states are opened and counted in the presence of both Houses of Congress on the sixth day of January. The total electorate vote is one for each senator and representative.

If the successful candidate for President dies before taking office, the Vice-President-elect becomes President; if no candidate has a majority or if the successful candidate fails to qualify, then, by the twentieth amendment, the Vice-President acts as President until a president qualifies. The duties of the Presidency, in absence of the President and Vice-President by reason of death, resignation, removal, inability or failure to qualify, devolve upon the Speaker of the House under legislation enacted 18 July 1947. And in case of absence of a Speaker for like reason, the presidential duties devolve upon the President *pro tem.* of the Senate and successively upon those members of the Cabinet in order of precedence, who have the constitutional qualifications for President.

The presidential term, by the 20th amendment to the constitution, begins at noon on 20 Jan. of the inaugural year. This amendment also instals the newly elected Congress in office on 3 Jan. instead of—as formerly—in the following December. The President's salary is \$100,000 per year, plus \$50,000 for travelling expenses and official entertainment. The office of Vice-President (vacant until 1965) normally carries a salary of \$35,000, plus \$10,000 allowance for travel.

The President is C.-in-C. of the Army, Navy and Air Force, and of the militia when in the service of the Union. The Vice-President is *ex-officio* President of the Senate, and in the case of 'the removal of the President, or of his death, resignation, or inability to discharge the powers and duties of his office', he becomes the President for the remainder of the term. In case of the death or resignation of the Vice-President, the President *pro tem.* continues as *presiding officer of the Senate* and the office of Vice-President remains vacant.

President of the United States: Lyndon Baines Johnson, of Texas, born near Stonewall, Texas, 27 Aug. 1908; member, House of Representatives, 1937-48; Lieut.-Cmdr, US Naval Reserve, 1941-42; Senator, 1948-60;

Vice-President of the USA, 1961 until succeeding to the Presidency on the assassination of John F. Kennedy, 22 Nov. 1963.

In Nov. 1960 those of voting age in the USA numbered about 102·7m. At the Presidential election on 8 Nov. 1960 total vote cast, including men and women in the armed services, was 68,832,778, of which John F. Kennedy (D.) received 34,221,531 (49·7%) (303 electoral college votes), while Richard M. Nixon (R.) received 34,108,474 (49·5%) (219 electoral votes); Orval E. Faubus polled 227,881; others, 94,248.

¹ Position vacant thereafter until commencement of the next presidential term.

Cabinet. The administrative business of the nation has been traditionally vested in several executive departments, the heads of which, unofficially and *ex officio*, formed the President's Cabinet. Beginning with the Interstate Commerce Commission in 1887, however, an increasing amount of executive business has been entrusted to some 60 so-called independent agencies, such as the Veterans Administration, Atomic Energy Commission, Housing and Home Finance Agency, Tariff Commission, etc.

All heads of departments and of the 60 or more administrative agencies are appointed by the President, but must be confirmed by the Senate.

The Cabinet consists of the following:

1. *Secretary of State* (created 1789). Dean Rusk, of Georgia; Director, Office of UN Affairs, Department of State, 1947-49; Deputy Under Secretary of State, 1949-50; Assistant Secretary of State for Far Eastern Affairs, 1950-51; President of the Rockefeller Foundation, 1952-61; born 1909.

2. *Secretary of the Treasury* (1789). C. Douglas Dillon, of New Jersey; investment banker; ambassador to France, 1953-57; Deputy Under Secretary of State, 1957-59, and Under Secretary of State for Economic Affairs, 1959-61; born 1909.
3. *Secretary of Defense* (1947). Robert McNamara, of California; automobile manufacturer; born 1916.
4. *Attorney-General* (Department of Justice, 1870). Robert F. Kennedy, of Massachusetts; lawyer; born 1925.
5. *Postmaster-General* (1792). John A. Gronowski, of Wisconsin; economist and former state government official; born 1920.
6. *Secretary of the Interior* (1849). Stewart L. Udall, of Arizona; member of the House of Representatives, 1954-61; born 1920.
7. *Secretary of Agriculture* (1889). Orville L. Freeman, of Minnesota; lawyer; Governor of Minnesota, 1955-61; born 1918.
8. *Secretary of Commerce* (1903). Luther H. Hodges, of North Carolina; textile manufacturer; Lieut.-Governor, 1952-54, and Governor of North Carolina, 1954-61; born 1898.
9. *Secretary of Labor* (1913). William W. Wirtz, of Illinois; lawyer; Under Secretary of State in the Department of Labor, 1961-62; born 1912.
10. *Secretary of Health, Education and Welfare* (1953). Anthony Celebrezze, of Ohio; lawyer; Mayor of Cleveland, 1953-62; born 1910.

Each of the above Cabinet officers receives an annual salary of \$25,000 and holds office during the pleasure of the President; the Postmaster-General alone must be re-appointed and confirmed at the beginning of a president's second term, the others merely continuing in office.

CONGRESS. The legislative power is vested by the Constitution in a Congress, consisting of a Senate and House of Representatives.

Electorate. By amendments of the constitution, disqualification of voters on the ground of race, colour or sex is forbidden. Accordingly the electorate consists theoretically of all citizens of both sexes over 21 years of age (in Georgia and Kentucky, over 18 years; in Alaska over 19 years, and in Hawaii over 20 years), but the franchise is not universal. There are requirements of residence varying in the several states as to length from 6 months to 2 years; differing requirements as to registration; in some states the payment of taxes (called 'poll-taxes' is necessary to qualify for the suffrage). In 20 states the ability to read (usually an extract from the constitution) is required—in Alaska the ability to read English; in Hawaii, English or Hawaiian; in Louisiana, English or one's native tongue. In Alabama the voter must take an 'anti-Communist oath' and fill out a questionnaire to the satisfaction of the registrars. In some southern states voters are required to give a reasonable explanation of what they read. The National Association for Advancement of Coloured People (unofficial) estimated the number of Negroes registered in 1952 at 1,267,500 for the 12 states of Ala., Ark., Fla., Ga., La., Miss., N.C., Okla., S.C., Tex., Tenn. and Va.¹ Their estimate for 1948 was 750,000. In most states convicts

¹ In 1958 the number registered in these states (excluding Okla.) was estimated at 1,303,000.

are excluded from the franchise; in some states duellists and fraudulent voters.

Legislation designed to discourage the rise of third parties has been adopted in a few states. In Illinois a new party must present a petition signed by at least 25,000 voters, including at least 200 in each of 50 of the 102 counties.

The method of balloting varies greatly. Seventeen states use different ballots for federal, state and local elections. In Delaware and South Carolina the various political parties furnish their own ballot-papers to the voter as he or she enters the polling-booth.

Senate. The Senate consists of 2 members from each state, chosen by popular vote for 6 years, one-third retiring or seeking re-election every 2 years. Senators must be not less than 30 years of age; must have been citizens of the USA for 9 years, and be residents in the states for which they are chosen. The Senate has complete freedom to initiate legislation, except revenue bills (which must originate in the House of Representatives); it may, however, amend or reject any legislation originating in the lower house. The Senate is also entrusted with the power of giving or withholding its 'advice and consent' to the ratification of all treaties initiated by the President with foreign Powers, a two-thirds majority of senators present being required for approval. (However, it has no control over 'international executive agreements' made by the President with foreign governments; such 'agreements', representing an important but very recent development, cover a wide range and are actually more numerous than formal treaties.) It also has the power of confirming or rejecting major appointments to office made by the President, but it has no direct control over the appointment by the President of 'personal representatives' or 'personal envoys' on missions abroad. Members of the Senate constitute a High Court of Impeachment, with power, by a two-thirds vote, to remove from office and disqualify any civil officer of the USA impeached by the House of Representatives, which has the sole power of impeachment.

The Senate has 17 Standing Committees to which all bills are referred for study, revision or rejection. The House of Representatives has 21 such committees. In both Houses each Standing Committee has a chairman and a majority representing the majority party of the whole House; each has numerous sub-committees. The jurisdictions of these Committees correspond largely to those of the appropriate executive departments and agencies. Both Houses also have a few special Committees with limited duration. There are some Joint Committees of both Houses.

House of Representatives. The House of Representatives consists of 435 members elected every second year. The number of each state's representatives is determined by the decennial census, in the absence of specific Congressional legislation affecting the basis. The states, as the result of the 1960 census, have the following representatives:

Alabama . . .	8	Connecticut . . .	6	Illinois . . .	24	Maine . . .	2
Alaska . . .	1	Delaware . . .	1	Indiana . . .	11	Maryland . . .	8
Arizona . . .	3	Florida . . .	12	Iowa . . .	8	Massachusetts . . .	12
Arkansas . . .	4	Georgia . . .	10	Kansas . . .	5	Michigan . . .	19
California . . .	38	Hawaii . . .	2	Kentucky . . .	7	Minnesota . . .	8
Colorado . . .	4	Idaho . . .	2	Louisiana . . .	8	Mississippi . . .	5

Missouri . . . 10	New York . . . 41	Rhode Island . . . 2	Virginia . . . 10
Montana . . . 2	North Carolina 11	South Carolina 6	Washington . . . 7
Nebraska . . . 3	North Dakota 2	South Dakota . . . 2	West Virginia . . . 5
Nevada . . . 1	Ohio . . . 24	Tennessee . . . 9	Wisconsin . . . 10
New Hampshire 2	Oklahoma . . . 6	Texas . . . 23	Wyoming . . . 1
New Jersey . . . 15	Oregon . . . 4	Utah . . . 2	
New Mexico . . . 2	Pennsylvania . 27	Vermont . . . 1	

The average constituency contains between 300,000 and 400,000 population (of which about two-thirds are of voting age), but there are 32 districts (7% of the total) with 250,000 or less and 33 with populations exceeding 450,000. By almost invariable custom the representative lives in the district from which he is elected.

Representatives must be not less than 25 years of age, citizens of the USA for 7 years, and residents in the states from which they are chosen. The House also admits a 'resident commissioner' from Puerto Rico, who has the right to speak on any subject and to make motions, but not to vote; he is elected in the same manner as the representatives but for a 4-year term. Each of the two Houses of Congress is sole 'judge of the elections, returns and qualifications of its own members'; and each of the Houses may, with the concurrence of two-thirds, expel a member. The period usually termed 'a Congress' in legislative language continues for 2 years, terminating at noon on 3 Jan.

The salary of a senator or representative, also that of a resident commissioner in Congress, is \$22,500 per annum, with tax-free expense allowance and allowances for travelling expenses and for clerical hire. The salary of the Speaker of the House of Representatives is \$35,000 per annum, with a taxable allowance of \$10,000.

No senator or representative can, during the time for which he is elected, be appointed to any *civil* office under authority of the USA which shall have been created or the emoluments of which shall have been increased during such time; and no person holding *any* office under the USA can be a member of either House during his continuance in office. No religious test may be required as a qualification to any office or public trust under the USA or in any state.

The 88th Congress (1963-65) was constituted (March 1964) as follows: Senate, 67 Democrats, 33 Republicans; House of Representatives, 258 Democrats, 177 Republicans. In the 87th Congress the House of Representatives had 15 women members and the Senate 2; the House had 4 Negro members. About 63% of the Senate and 56% of the House were lawyers (in the British House of Commons, lawyers number 101 or 16%).

A new development, arousing comment, is the practice of Congressional committees and sub-committees of holding secret sessions from which press and public are excluded. In 1959 about 30% of all Congressional committee meetings were closed; in 1954, 41%.

INDIANS. By an Act passed on 2 June 1924 full citizenship was granted to all Indians born in the USA, though those remaining in tribal units were still under special federal jurisdiction. Those remaining in tribal units constitute from one-half to three-fourths of the Indian population. The Indian Reorganization Act of 1934 gave the tribal Indians, at their own option, substantial opportunities of self-government and of self-controlled corporate enterprises empowered to borrow money, buy land, machinery and equipment; these corporations are controlled by democratically elected tribal councils; by 1945 roughly a third of the Indians had taken advantage

of this Act. Recently a trend towards releasing Indians from federal supervision has resulted in legislation terminating supervision over specific tribes. Indian lands (1962) amounted to 55,241,000 acres, of which about 70% was tribally owned and 21% in trust allotments, with the remainder owned by the Government. Indian lands are held free of taxes. Indian population under jurisdiction of the Indian Bureau was about 343,000 in 1950; nearly one-half were in the three states of Oklahoma, Arizona and New Mexico. Total Indian population at the 1960 census (the first at which individuals were responsible for their own classification by race) was 523,591, of which Oklahoma, Arizona and New Mexico accounted for 40%.

STATE AND LOCAL GOVERNMENT

The Union comprises 13 original states, 7 states which were admitted without having been previously organized as territories, and 30 states which had been territories—50 states in all. Each state has its own constitution (which the USA guarantees shall be republican in form), deriving its authority, not from Congress, but from the people of the state. Admission of states into the Union has been granted by special Acts of Congress, either (1) in the form of 'enabling Acts' providing for the drafting and ratification of a state constitution by the people, in which case the territory becomes a state as soon as the conditions are fulfilled, or (2) accepting a constitution already framed, and at once granting admission.

Each state is provided with a legislature of two Houses (except Nebraska, which since 1937 has had a single-chamber legislature), a governor and other executive officials, and a judicial system. Both Houses of the legislature are elective, but the senators (having larger electoral districts usually covering 2 or 3 counties compared with the single county or, in some states, the town, which sends one representative to the Lower House) are less numerous than the representatives, while in 35 states their terms are 4 years and in a few the Senate is only partially renewed at each election. Members of both Houses are paid at the same rate, which varies from \$200 per biennium (New Hampshire) to \$20,000 per annual session (New York) or from \$5 to \$30 per day during session, plus mileage, etc. In 1962, 327 women—a record number—were serving in the state legislatures, 34 in state senates and 293 in the lower houses. Only 5 states had no women legislators, Alabama, Georgia, Louisiana, Oklahoma and Wisconsin. In about two-thirds of the states sessions are biennial, the Governor having power to summon an extraordinary session, but not to dissolve or adjourn. The duties of the two Houses are similar, but in many states money bills must be introduced first in the Lower House. The Senate sits as a court for the trial of officials impeached by the other House, and often has power to confirm or reject appointments made by the Governor.

State legislatures are competent to deal with all matters not reserved for the federal government by the federal constitution nor specifically prohibited by the federal or state constitutions. Among their powers are the determination of the qualifications for the right of suffrage, and the control of all elections to public office, including elections of members of Congress and electors of President and Vice-President; the criminal law, both in its enactment and in its execution, with unimportant exceptions, and the administration of prisons; the civil law, including all matters pertaining to the possession and transfer of, and succession to, property; marriage and divorce, and all other civil relations; the chartering and control of all manufacturing, trading, transportation and other corporations, subject

only to the right of Congress to regulate commerce passing from one state to another; labour; education; charities; licensing; fisheries within state waters, and game laws (apart from the hunting of migratory birds, which is a federal concern under treaties with Canada and Mexico). Taxes on income were left to the states until 1913, when the 16th amendment authorized the imposition of federal taxes on income without regard to apportionment.

The Governor is chosen by direct vote of the people over the whole state. His term of office varies in the several states from 2 to 4 years, and his salary from \$10,000 (Arkansas and North Dakota) to \$50,000 (New York). His duty is to see to the faithful administration of the law, and he has command of the military forces of the state. He may recommend measures but does not present bills to the legislature. In some states he presents estimates. In all but one of the states (North Carolina) the Governor has a veto upon legislation, which may, however, be overridden by the two Houses, in some states by a simple majority, in others by a three-fifths or two-thirds majority. In some states the Governor, on his death or resignation, is succeeded by a Lieut.-Governor who was elected at the same time and has been presiding over the state Senate. In several states the Speaker of the Lower House succeeds the Governor.

The chief officials by whom the administration of state affairs is carried on (secretaries, treasurers, members of boards of commissioners, etc.) are usually chosen by the people at the general state elections for terms similar to those for which governors hold office. State employees, Oct. 1962, numbered 1,628,000, earning \$634.8m. monthly; education accounted for 556,000 employees (33%).

LOCAL GOVERNMENT

The chief unit of local government is the county, of which there are 3,043 with definite functions; in addition, Rhode Island has 5 'counties' which have no functions; Alaska does not have 'counties' as such and, since Oct. 1960, there has been no active county government in Connecticut. The counties maintain public order through the sheriff and his deputies, who may, in a crisis, be drawn temporarily from willing citizens; in many states the counties maintain the smaller local highways; other functions are the granting of licences and the apportionment and collection of taxes. In a few states they also manage the schools.

The unit of local government in New England is the rural township, governed directly by the voters, who assemble annually or oftener if necessary, and legislate in local affairs, levy taxes, make appropriations and appoint and instruct the local officials (selectmen, clerk, school-committee, etc.). Townships are grouped to form counties. Where cities exist, the township government is superseded by the city government. On 1 Jan. 1958, 1,533 cities and 17 counties had 'city managers' or 'council-managers' with large executive powers.

Including the 3,043 counties, there were (1962) 17,997 municipalities, 17,144 townships, 34,678 school districts and 18,323 special districts; total, including US Government and the 50 state governments, 91,236 units.

The District of Columbia, ceded by the State of Maryland for the purposes of government in 1791, is the seat of the US Government. It includes the city of Washington, and embraces a land area of 61 sq. miles. The District has no municipal legislative body, and its citizens have no right to vote either in national or municipal concerns, Congress having sole plenary

legislative authority; however, a constitutional amendment conferring the right to vote in national elections passed Congress in 1960 and was ratified 30 March 1961. By an Act of Congress of 1878, its municipal government is administered by 3 commissioners, appointed by the President; for some years there has been considerable agitation for some degree of 'home rule' which would at the same time relieve Congress of much local detail.

The Commonwealth of Puerto Rico, Guam and the Virgin Islands each have a local legislature, whose acts may be modified or annulled by Congress, though in practice this has seldom been done. The President appoints the Governor and federal judges in Guam and the Virgin Islands. Puerto Rico since its attainment of commonwealth status on 25 July 1952, enjoys practically complete self-government, including the election of its governor and other officials. The conduct of foreign relations, however, is still a federal function and federal bureaus and agencies still operate in the island.

General supervision of territorial administration is exercised by the Office of Territories in the Department of Interior.

¹ Seventeen southern states (including D.C.) in 1960 had 11,311,607 Negroes (60% of the total Negro population); in 1950, 10,225,407 (68%); in 1940, 9,904,619 (77%); in 1920, 8,912,231 (85.2%); in 1900, 7,922,969 (89.7%).

² 1870: 63,199 Chinese, 55 Japanese and 25,731 Indians; 1880, 105,465 Chinese, 148 Japanese and 66,407 Indians; 1890, 107,488 Chinese, 2,039 Japanese and 248,253 Indians; 1900, 89,863 Chinese, 24,326 Japanese and 237,196 Indians; 1910, 71,531 Chinese, 72,157 Japanese, 265,683 Indians and 3,175 other races; 1920, 61,639 Chinese, 111,010 Japanese, 244,437 Indians and 9,488 other races; 1930, 332,397 Indians, 74,954 Chinese, 138,834 Japanese and 50,467 other races; 1940, 141,768 Japanese, 117,629 Chinese, 110,240 other races; 1950, 150,697 Chinese (including 203,455 in Hawaii), 237,292 Japanese and 387 other races (114,405).

³ Enumeration in 1870 incomplete. Figures in italics represent estimated corrected population.

⁴ Between the 1910 census (15 April 1910) and the 1920 census (1 Jan. 1920), the period covered was 116½ months (less than a full decade). Adjusting for this, the exact rate of increase for the decade was 15.4%. Similarly correcting for the 123 months between the 1920 and 1930 censuses, the true rate of increase was 15.7%.

⁵ Figures for 1930 have been revised to include Mexicans (1,422,533), who were classified with 'Other Races' in the 1930 census reports.

⁶ Figures for 1960 strictly comparable with those given for other years (i.e., excluding Alaska and Hawaii) are: White, 153,454,956; Negroes, 18,860,117; other races, 1,149,103; total, 173,464,236; decennial increase, 18.4%.

Total population in 1960 at 179,323,175 comprised 88,331,494 males and 90,991,681 females; 125,268,750 were urban and 54,054,425 were rural. Negroes had 9,113,408 males, and other races, 850,937 males. In 1950 native-born Whites were 124,780,860 (61,952,802 males); foreign-born Whites, 10,161,168 (5,176,390 males).

Estimated population, including Alaska and Hawaii, and armed forces overseas, on 1 July 1950, 152,271,000; 1955, 165,931,000; 1960, 180,676,000; 1961, 183,742,000; 1962, 186,591,000; 1963, 189,278,000.

The age distribution by sex of the total population of the US and outlying areas (including US population abroad, but excluding Trust Territory of the Pacific Islands, and miscellaneous small islands of sovereignty or jurisdiction) at the 1960 census was as follows (in 1,000):

VITAL STATISTICS

Vital statistics are based on records of births, deaths, foetal deaths, marriages and divorces filed with registration officials of states and cities. Figures for the US include Alaska beginning with 1959 and Hawaii beginning with 1960.

Annual collection of mortality records from a national death-registration area was inaugurated in 1900. A national birth-registration area was established in 1915. These areas, which at their inception comprised 10 states and the District of Columbia, expanded gradually until 1933, when both the birth- and death-registration areas covered the entire continental US. Marriage and divorce statistics are compiled from reports furnished by state and local officials. Data on annulments are included in the divorce statistics. The marriage-registration area was established in 1957 with 29 states and 4 other areas. The divorce-registration area was established in 1958 with 14 states and 3 other areas. In July 1963 the marriage-registration area included 35 states and 3 other areas, and the divorce-registration area included 22 states and one other area.

¹ Figures through 1959 include adjustment for under-registration (the 1959 registered count was 4,244,796); beginning 1960 figures represent number registered.

² Excluding foetal deaths and deaths among the armed forces overseas 1940-60.

³ Includes estimates for 1900-20 and 1957-62; includes estimates and marriage licences for some states for all years.

⁴ Includes reported annulments. Estimated for all years except 1930.

⁵ Deaths from deliveries and complications of pregnancy, childbirth and the puerperium. Deaths for 1958-62 were classified according to the Seventh Revision of the International Lists of Diseases and Causes of Death, those for 1949-57 according to the Sixth Revision and those for 1939-48 according to the Fifth Revision.

⁶ Excluding foetal deaths.

⁷ Based on a 50% sample.

⁸ Provisional.

The crude birth rate, based on total live-birth estimates per 1,000 total population, fell from 29.5 in 1915 to 18.4 in 1933; it rose to a peak of 26.6 in 1947—its highest for 25 years. This peak reflects demobilization (1945-46), the record number of marriages that followed, and the high levels of employment and income. The decrease in the following 3 years was moderate. In 1951 the rate moved upward and levelled off in 1957 at about 25 per 1,000 population. Since 1957 the crude birth rate has declined every year to 22.4 live births per 1,000 population in 1962. The crude birth rate for both whites (21.4) and non-whites (30.5) declined from that of the previous year. The estimated number of illegitimate births in 1962 was 245,100, a rate of 58.8 illegitimate births per 1,000 registered live births.

Deaths, excluding foetal deaths (per 1,000 population), declined from 17.2 in 1900 to 10 in 1946. The death rate has been below 10 per 1,000 since 1947, fluctuating slightly from year to year, mainly under the impact of occurrences of outbreaks of severe respiratory diseases. Since the record low of 9.2 in 1954 the rate has ranged only between 9.3 and 9.6. The rate for 1962 was 9.5.

Leading causes of death, 1962, per 100,000 population and percentage of total: Diseases of heart, 370.3 (39.2); malignant neoplasms, 149.9 (15.9); vascular lesions affecting the nervous system, 106.3 (11.2); accidents, 52.3 (5.5); diseases of early infancy, 34.6 (3.7). Suicides in 1962 were 10.9 per 100,000 population; homicides, 4.9.

The marriage rate per 1,000 population for selected years are: 1920, 12; 1932, 7.9; 1946, 16.4; 1951, 10.4; 1955, 9.3; 1958, 8.4; 1959, 8.5; 1960, 8.5; 1961 (provisional), 8.5; 1962 (provisional), 8.5.

The divorce rates per 1,000 population for selected years are: 1920, 1.6; 1946, 4.3; 1951, 2.5; 1955, 2.3; 1958, 2.1; 1959, 2.2; 1960, 2.2; 1961 (provisional), 2.2; 1962 (provisional), 2.2.

Maternal mortality rates (deaths of mothers from conditions associated with deliveries and complications of pregnancy, childbirth and the puerperium) per 100,000 live births, were 1915-19, 727.9 and thereafter declined: 493.9 for 1935-39; 376 for 1940; 207.2 for 1945; 83.3 for 1950; 61.1 for 1953, and from 1953 to 1962 dropped 44% to 35.2. The 1962 rate for white women was 23.8 and for non-white women 95.9. By state, the average

maternal rate for 1960-62 was highest for Mississippi (88.9) and lowest for Rhode Island (12.7).

The infant mortality rate, 99.9 per 1,000 live births in 1915, fell to 85.8 in 1920, 71.7 in 1925; 64.6 in 1930; 38.3 in 1945; 29.2 in 1950; 26.4 in 1955; 27.1 in 1958; 26.4 in 1959 and to 25.3 in 1961 and 1962. In 1962 the rate for whites was 22.3; for non-whites, 41.4.

IMMIGRATION

Immigration, naturalization and citizenship is regulated by the Immigration and Nationality Act of 1952, with amendments. Other legislation since 1952 provided for additional admissions of refugees, orphans, skilled aliens and specified relatives of citizens and resident aliens.

In the year ended 30 June 1963, a total of 1,813,351 aliens were admitted as immigrants and documented non-immigrants (1,615,146 during the preceding fiscal year). Of these aliens, 306,260 immigrants were admitted for permanent residence (283,763 in fiscal year 1962) and 1,507,091 non-immigrants entered for temporary periods. Of the immigrants, 103,036 were admitted under the quotas (28,291 charged to the quota of Great Britain and Northern Ireland and 26,533 to the quota of Germany) and 203,224 as non-quota immigrants. The latter group included 147,744 natives of the Western Hemisphere countries and their spouses and children, 30,606 spouses and children of US citizens, 12,672 aliens admitted under the Act of 24 Oct. 1962, and 7,257 other persons admitted non-quota under special legislation.

Immigrant aliens admitted to US for permanent residence, by country or region of birth, years ended 30 June:

The total number of alien immigrants admitted from 1820 up to 30 June 1963 was 42,702,328; this included 9,335,105 from UK and Ireland,

6,798,313 from Germany, 5,017,625 from Italy, 4,280,863 from Austria-Hungary, 3,344,998 from USSR, 3,697,649 from Canada and 1,160,758 from Asia.

During the year ended 30 June 1963, 7,454 aliens were deported and 69,392 other deportable aliens were required to depart from the US.

In accordance with the Immigration and Nationality Act, 3,236,684 aliens filed address-report cards in Jan. 1963; of these, 344,669 were in the US as other than permanent residents. Included in the 2,892,015 permanent resident aliens were 577,895 nationals of Mexico, 339,659 of Canada, 247,811 of UK, 247,805 of Germany and 228,766 of Italy.

In the year ended 30 June 1963, 124,178 persons became US citizens through naturalization; these included 19,165 from Germany, 12,171 from Italy, 10,989 from UK and 9,944 from Canada.

RELIGION

For details of the 1936 Census of Religious Bodies, see THE STATESMAN'S YEAR-BOOK, 1948, p. 493.

The Yearbook of American Churches for 1964 (issued Jan. 1964), published by the National Council of the Churches of Christ in the USA, New York, N.Y., presents a table of church membership reflecting the latest figures available from official statisticians of church bodies. The large majority of the reports are for the calendar year 1962, or a fiscal year ending in 1962. The reports indicate that there were 117,946,002 members in 252 religious bodies of US, in 319,240 local churches. There were 246,600 clergymen having local congregations. The figure for membership represented a gain of 1,836,078 persons over the reports in the previous *Yearbook*. The principal religious bodies (numerically or historically) or groups of religious bodies are shown below:

Denominations	Local churches	Total membership

EDUCATION

Under the system of government in the USA, education is committed in the main to the several states. Each of the 50 states has a system of free public schools established by law, comprising elementary schools, junior high schools and high schools, with courses covering 12 years; in addition, all but 8 states have kindergartens and some states have 2-year junior colleges and 4-year teacher colleges as part of the free public school system. Each state has delegated control of public elementary and secondary education largely to local school districts (numbering 35,650), each with a board of education (usually 3 to 7 members) elected locally and serving mostly without pay. But their school policies must accord with state laws and the regulations of

the state Department of Education. Almost every state has compulsory school attendance laws; in 37 states children are required to attend school until the age of 16 years; in 6 states until 17 and in 4 states until 18.

The Census Bureau estimates that in April 1960 only 3,055,000 or 2.4% of the 126m. persons who were 14 years of age or older were unable to read and write; in 1930 the percentage was 4.8. In 1940 a new category was established—the 'functionally illiterate', meaning those 25 years of age or over who had completed fewer than 5 years of elementary schooling; this percentage was 7.8 in March 1962 (for the non-white population alone it was 22.1%); it was 2.4% for the 25–29-year-old group. In March 1962, 65.9% of the 25–29-year-old group had completed 12 or more years of school, and 13.1% were college graduates; for all persons over 25 years the figures were 46.3% and 8.9% respectively.

In the autumn of 1962, 4,207,000 students (2,603,000 men and 1,604,000 women) were enrolled in 2,043 colleges and universities; 1,039,000 were first-time students. Total enrolment represents a number equal to 39 per 100 persons between the ages of 18 and 21.

Public school revenue is supplied largely from county and other local sources, 56.7% in 1961–62. State sources accounted for 39% and federal sources for 4.3%. However, the tendency is for the counties and local units to contribute less and for the state and federal sources to contribute more. In 1961–62 the amount, including interest, expended on public elementary and secondary schools was \$15,286m., representing an annual cost per pupil of \$415. In addition, \$2,883m. or \$83 per pupil was expended for capital outlay. Estimated expenditures for private elementary and secondary schools in 1961–62 were \$2,980m. In 1961–62 the 2,044 universities, colleges, teachers' colleges and professional schools expended an estimated \$5,640m., of which about \$3,140m. was spent by institutions under public control. This does not include auxiliary enterprises and activities, other non-educational expenditures and capital outlay. Federal funds for higher education amounted to \$1,400m.; educational and general income from state governments totalled \$1,700m.; and students contributed in fees \$1,500m.

Vocational education below college grade, including the training of teachers to conduct such education, has been federally-aided since 1918. During the school year 1961–62 enrolments in these vocational classes were: Agriculture, 822,664; distributive occupations, 321,065; home economics, 1,725,660; trade and industry, 1,005,383; practical nursing, 48,985; technical education, 148,920. Federal support funds were \$51,438,000.

³ Enrolment data for 1957-58; figures have been adjusted to include Alaska and Hawaii.

School enrolment, Oct. 1962, embraced 66.8% of the 4,101,000 who were 5 years old; 97.9% of the 3,995,000 aged 6; 99.3% of the 25,819,000 aged 7 to 13 years; 92% of the 12,759,000 aged 14 to 17; 41.8% of the 5.13m. aged 18 and 19; 15.6% of the 11,023,000 aged 20 to 24 years.

The US Office of Education estimates the total enrolment in the autumn of 1963 of all the country's educational institutions (public and private) at 51.5m. (49.8m. in the autumn of 1962); this was 27.2% of the total population of the USA as of 1 Sept. 1963:

Kindergarten through grade 8: Public school system, 29.4m. (28.7m. in 1962); non-public schools, 5.4m. (5.2m); special, 200,000 (200,000); total, 35m. (34.1m.).

Grades 9 to 12: Public school system, 10.7m. (10.1m.); non-public, 1.3m. (1.3m.); special, 100,000 (100,000); total, 12.1m. (11.5m.).

Higher education: Universities, colleges, junior colleges, normal schools and teachers' colleges, 4.4m. (4.2m.).

The Office estimates that the teachers needed for elementary and secondary students will be 1.8m., as compared with 1.7m. one year earlier.

On 17 May 1954 the Supreme Court of the USA ruled that segregation in the public schools is unconstitutional, concluding in one of the cases 'that in the field of public education the doctrine of "separate but equal" has no place. Separate educational facilities are inherently unequal.' On 31 May 1955 the Supreme Court issued final decrees which gave states and local communities wide latitude in respect to time and method in implementing the decision. In a large part of the USA Negro and white children share the same schools, but in 17 Southern and border states and the District of Columbia only 7.9% of Negro children were attending public schools with white children in the spring of 1963; in Nov. 1963, in one southern state (Mississippi) there were no Negroes attending white schools.

In 1962-63 the teachers' average salary, by states, ranged from \$3,610

per annum in Mississippi to \$7,050 in California; the average for the country was \$5,735, which was about 12% more than the average salary of all persons working for salaries or wages. Only 4 states paid an average salary of less than \$4,000; 7 states paid an average of more than \$6,300.

All states require at least a bachelor's degree and 3 states require 5 years of college work to secure a certificate to teach in secondary schools; 49 states require at least graduation from a normal school or 2 years of college work for elementary school teachers and 40 states and the District of Columbia require a bachelor's degree. All states have some legislation affecting teacher welfare; all states make provision for teacher retirement; a majority have minimum salary schedules and 19 have sick-leave benefits.

In 27 states, the District of Columbia and Puerto Rico the teachers in all public-supported schools are required to take an oath of allegiance or otherwise satisfy the authorities that they are loyal.

Public education is secular, most state constitutions forbidding the appropriation of public moneys for the support of church-controlled schools. However, some states have required daily Bible-reading in the schools without denominational comment. On 9 March 1948 the Supreme Court held that the holding of religious education classes in public school buildings during school hours is unconstitutional.

About one-seventh of the elementary and secondary school children attend non-public (private) schools; about 90% of these schools are affiliated with religious denominations, the Roman Catholics operating about 70% of the non-public schools. Such schools are supported by church funds, by endowments, and by tuition fees. In Oct. 1961 the Roman Catholics maintained 10,631 elementary schools with 4,445,288 pupils, 2,376 secondary schools with 937,671 pupils, 277 colleges with 329,917 students and 402 seminaries with 42,349 seminarists studying for the priesthood.

Newspapers. Of the daily newspapers being published in the USA in 1962, 318 were morning papers with a circulation of 24,562,000, and 1,451 were evening papers with a circulation of 35,285,000. The 538 Sunday papers had a total circulation of 48,887,000.

Broadcasting. On 1 Jan. 1961 there were in the USA and Territories, 4,645 authorized radio stations, of which 4,328 were on the air; authorized television stations numbered 624. In May 1960, 88% of households had television sets.

Cinemas. Cinemas increased from 17,003 (1940) to 20,239 in 1950: total, 1958, was 12,291 (excluding 4,063 'drive-in cinemas'), of which about 9,000 had seating capacity for over 400 persons.

JUSTICE

Legal controversies may be decided in two systems of courts: the federal courts, with jurisdiction confined to certain matters enumerated in Article III of the Constitution, and the state courts, with jurisdiction in all other proceedings. The federal courts have jurisdiction exclusive of the state courts in criminal prosecutions for the violation of federal statutes, in civil cases involving the government, in bankruptcy cases and in admiralty proceedings, and have jurisdiction concurrent with the state courts over suits between parties from different states, and certain suits involving questions of federal law.

The highest court is the Supreme Court of the United States which reviews cases from the lower federal courts and certain cases originating in state courts involving questions of federal law. This court, consisting of 9 justices who receive salaries of \$35,000 a year (the Chief Justice, \$35,500), meets from October until June every year and disposes of about 2,300 cases, deciding about 300 on their merits and declining to review the remainder. A few suits, usually brought by state governments, originate in the Supreme Court, but issues of fact are mostly referred to a master.

The United States courts of appeals number 11 (in 10 circuits composed of 3 or more states and 1 circuit for the District of Columbia); the 78 circuit judges receive salaries of \$25,500 a year. Any party to a suit in a lower federal court usually has a right of appeal to one of these courts which decide about 5,000 cases a year.

The trial courts are the United States district courts, of which there are 87 in the 50 states, 1 in the District of Columbia and 1 each in the territories of Puerto Rico, Virgin Islands, Canal Zone and Guam. Each state has at least 1 United States district court, and 2 states have 4 apiece. Each district court has from 1 to 24 judgeships. There are 307 United States district judges (\$22,500 a year), who handle about 63,600 civil cases and 36,000 criminal defendants every year.

The judges of all these courts are appointed by the President with the approval of the Senate; to assure their independence, they hold office during good behaviour and cannot have their salaries reduced. This does not apply to the territorial judges, who hold their offices for a term of years. The judges may retire with full pay at the age of 70 years if they have served a period of 10 years, or at 65 if they have 15 years of service, but they are subject to call for such judicial duties as they are willing to undertake. Only 9 United States judges up to 1964 have been involved in impeachment proceedings, of whom 3 district judges and 1 commerce judge were convicted and removed from office.

Of the 36,168 criminal defendants in the federal courts in the year ending 30 June, 1963, about 2,500 were charged with alleged infractions of the immigration laws; 5,754, the transport of stolen motor vehicles; about 3,000, larceny and theft; 5,533, embezzlement and fraud; about 5,100, liquor laws, and 1,877, narcotics laws.

Persons convicted of federal crimes are either fined, released on probation under the supervision of the probation officers of the federal courts, confined in prison for a period of 6 months and then put on probation (known as split sentencing) or confined in one of 6 federal penitentiaries, 5 prison camps, 5 reformatories, 8 correctional institutions, 5 institutions for juvenile and youth offenders, 2 detention centres, or 1 hospital. Federal prisoners for the year ending 30 June 1963 numbered 24,589.

The state courts have jurisdiction over all civil and criminal cases arising

under state laws, but decisions of the state courts of last resort as to the validity of treaties or of laws of the United States, or on other questions arising under the Constitution, are subject to review by the Supreme Court of the United States. The highest court in each state is usually called the Supreme Court or Court of Appeals with a Chief Justice and Associate Justices, usually elected but sometimes appointed by the Governor with the advice and consent of the State Senate or other advisory body; they usually hold office for a term of years, but in some instances for life or during good behaviour. Their salaries range from \$4,200 to \$40,000 a year. The lowest tribunals are usually those of Justices of the Peace; many towns and cities have municipal and police courts, with power to commit for trial in criminal matters and to determine misdemeanours for violation of the municipal ordinances; they frequently try civil cases involving limited amounts.

The Federal Bureau of Investigation estimates the number of major crimes in the United States and its possessions as follows:

Crime index classification	1959-61 average	1962	Crime index classification	1959-61 average	1962
Murder	8,670	8,400	Burglary	789,300	892,800
Forcible rape	15,860	16,310	Larceny over \$50	464,300	539,900
Robbery	87,570	95,260	Motor car theft	312,000	356,100
Aggravated assault	129,400	139,600			
			Total	1,807,100	2,048,370

The death penalty is illegal in Maine, Minnesota and Wisconsin; in Michigan it is legal only for treason; in North Dakota only for treason and first-degree murder committed by a prisoner serving a life sentence for first-degree murder and in Rhode Island only for murder committed by a prisoner serving a life sentence.

In 1962 there were 47 persons executed under civil authority. Of this number 41 were for murder, 4 for rape, one for robbery with firearms and one for assault by a life convict. The total includes 28 white persons and 22 Negroes. On 31 Dec. 1962, 267 prisoners were reported under sentence of death.

The total number of civilian executions carried out in the US from 1930 to 1962 was 3,812, including 1,722 white persons (20 women), 2,049 Negroes (12 women) and 41 persons of other races.

Federal 'Political' Crimes. Prosecutions for what may be loosely described as 'political' offences, or crimes directed towards the overthrow by violence of the federal government, which were somewhat numerous in the early 1950s, have been greatly reduced. During the fiscal year 1962-63 the following number of defendants appeared in federal courts: Espionage, 3; Subversive Activities Control Act, 1950, 1; contempt of Congress, 10.

In the years since 1940 there have been a number of statutory enactments of a civil nature which in some measure control possible subversive activity. The Alien Registration Act of 1940 requires the registration of all aliens. The Labor-Management Relations Act of 1947 (Taft-Hartley Act) requires non-communist affidavits from union officials who represent workers in negotiations under the provisions of the Act. The Subversive Activities Control Act of 1950 established a commission and provides a procedure under which an organization after a full and complete hearing, which is subject to judicial review, must be registered under the provisions of that Act. The Immigration and Nationality Act of 1952 (McCarran-Walter Act) among other things excludes from the country aliens who are mem-

bers of certain groups listed as subversive or totalitarian. Finally, the Communist Party has been outlawed by the Communist Control Act of 1954.

HEALTH AND SOCIAL WELFARE

Admission to the practice of medicine (for both doctors of medicine and doctors of osteopathic medicine) is controlled in each state by examining boards directly representing the profession and acting with authority conferred by state law. Usual time now required to complete basic training is 8 years beyond secondary school with an additional year of internship training. Certification as a specialist may require as much as 4 more years of hospital training plus experience in practice. In 1962 the 92 US schools (including 5 osteopathic, 1 medical developing a 4-year programme and 3 basic science with 2-year programmes after which the students complete their training in a medical school) graduated 7,530 physicians. Women students average 6% of the total. In 1962 the total number of physicians (MD and DO—private practitioners, salaried, and retired) in the US, Puerto Rico and outlying US areas was 273,770 (1 to 691 inhabitants). The distribution of physicians throughout the country is uneven: New York state had 1 physician for every 506 inhabitants; South Dakota, 1 for 1,334 inhabitants.

In 1961 the 47 dental schools graduated 3,290 dentists. Dentists in 1961 numbered 103,995. New York state had 1 to 1,226 population and South Carolina, 1 to 4,513; national average, 1 to 1,791.

In 1961 schools of professional nursing numbered 1,123 with 30,267 graduates that year. In 1960 there were an estimated 504,000 full- or part-time professional nurses (1 to 355 inhabitants), ranging in 1958 from 1 per 263 in New York state to 1 per 876 in Arkansas.

Number of hospitals listed by the American Hospital Association, in 1962, was 7,028 with 1,689,414 beds and 26,531,365 admissions during the year; average daily census was 1,406,818. Of the total, 447 hospitals with 177,677 beds were operated by the federal government; 1,968 with 954,690 beds by state and local government; 3,623 with 507,108 beds by non-profit organizations (including church groups); 990 with 49,939 beds are proprietary. Chief categories of hospitals are 5,564 short-term general and special hospitals with 676,795 beds; 323 long-term general and special hospitals with 73,474 beds; 491 psychiatric hospitals with 716,781 beds; 203 tuberculosis hospitals with 44,687 beds. Distribution of short-term general facilities among states ranges from 3 to 5 hospital beds per 1,000 population; the national average is 4. It was estimated that, on 1 Jan. 1963, more than 1,116,000 additional beds for in-patient care, including 532,000 beds in nursing homes and chronic disease hospitals, were needed to bring state levels up to current standards.

Social welfare legislation was chiefly the province of the various states until the adoption of the Social Security Act of 14 Aug. 1935. This as amended provides for a federal system of old-age, survivors and disability

insurance; federal-state unemployment insurance; and federal grants to states for public assistance (old-age assistance, medical assistance for the aged, aid to families with dependent children, and aid to the permanently and totally disabled) and for maternal and child-health and child-welfare services. The Social Security Administration (of the Department of Health, Education and Welfare) has responsibility for the only completely federal programme under the Act—old-age, survivors and disability insurance. The Welfare Administration (an agency of the same Department) has federal responsibility for all other programmes except unemployment insurance, which is the responsibility of the Department of Labor.

There were no major amendments to the Social Security Act during 1963.

In March 1963 about 59.8m. persons were in employment covered by old-age, survivors and disability insurance (including about 840,000 covered jointly by that programme and railroad retirement). Monthly benefits paid during the year totalled \$13,649m., including \$1,171m. paid to disabled workers and their dependants; lump-sum death payments totalled \$195m. In Aug. 1963 about 18,790,500 beneficiaries were on the rolls, and the average benefit paid to a retired worker (not counting any paid to his dependants) was \$76.79.

Total expenditures for public assistance during the fiscal year 1962-63 amounted to \$4,607m. In Aug. 1963, 28 states, the District of Columbia, Guam, Puerto Rico and the Virgin Islands were making payments under the programme of medical assistance for the aged, which averaged \$199.66 for the 148,500 recipients. About 3,912,300 persons (adults and children) were receiving payments under aid to families with dependent children (average, \$30.92). Average payments of \$73.16 were going to 2,194,300 old-age assistance recipients. Payments to 98,100 needy blind averaged \$81.62, and 470,160 permanently and totally disabled persons received an average of \$75.35. The federal government shares in the financing of all these state-administered programmes. General assistance, financed entirely by state and local governments, went to 326,000 cases (767,000 persons) and averaged \$65.63 per case.

During the fiscal year 1962-63 federal grants amounting to \$25,704,000 were made to the states for maternal and child health services; grants for crippled children's services totalled \$23.83m., and grants for child welfare services amounted to \$25,704,000.

FINANCE

FEDERAL

Since 10 June 1921 a National Annual Budget System and an independent Audit of Government Accounts have been installed.

The following table gives net 'administrative budget' receipts and expenditures of the federal government and receipts and expenditures of trust and related accounts. The 'administrative budget' accounts comprise the general and special accounts and the checking accounts of government corporations; combined 'administrative budget' receipts include money

received by the Treasury from income, excise and other taxes, customs, and from miscellaneous sources such as collections on certain loans (including foreign loans), rents, fines, fees and sales; 'administrative budget' expenditures cover disbursements of government departments and agencies for various activities, including national defence programmes, foreign loans and grants, veterans' benefits, aids to agriculture, interest on public debt, space research and technology, programmes for labour and welfare, commerce and transportation, natural resources, etc.; postal service expenditures are included in the budget on a net basis. Trust fund and debt transactions of the Government are excluded from 'administrative budget' transactions.

In general, 'trust' accounts relate to moneys received by the Government, which by law are not available for general governmental purposes, but must be held in trust for later payment to individuals or to state and local governments only for the purposes specified in the law. Included with expenditures from 'trust' accounts are net expenditures from special deposit accounts; and, when the Treasurer of the US serves as fiscal agent, expenditures for redemption (less receipts from sale) of securities of government corporations and enterprises, in the market, net.

¹ Less than \$50m.

From 30 June 1945 to 30 June 1962 the US extended to foreign countries net foreign grants, credits and other assistance (through net accumulation of foreign currency claims for agricultural products sold), totalling \$84,796m., after allowing for collections on principal, reverse grants and returns on grants, and the currencies disbursed by the US. Net grants represented \$68,156m., net credits \$13,514m. and net other assistance \$3,125m. of this total. If subscriptions to the International Monetary Fund, the Bank for Reconstruction and Development, the Inter-American Development Bank, the International Development Association, and the International Finance Corporation, amounting to \$5,120m., be added, the net total is \$89,916m.

Net foreign grants, credits and other assistance in fiscal year 1962 (with those of fiscal 1961 in parentheses), were (in \$1m.): Military supplies, services and contributions to NATO, 1,713 (1,656); other grants, 1,890 (1,838); credits, 1,357 (-28); other assistance, 176 (403).

The gross public debt and guaranteed obligations on 30 June 1963 was (in \$1m.) 306,466, made up as follows: Debt bearing no interest, 3,595 (including 2,922 held by International Monetary Fund); matured debt on which interest has ceased, 310, and interest-bearing debt, 301,594 plus 607 of obligations of governmental corporations and credit agencies guaranteed by the US Government as to principal and interest.

National direct debt excluding guaranteed obligations (in \$1,000), and per capita debt (in \$) on 30 June of the years shown:

	Gross debt	Per capita ¹		Gross debt	Per capita ²

¹ On 31 Aug. 1919 gross debt reached its First World War (1914-18) peak of \$26,596,702,000, which was the highest ever reached up to 1934; on 31 Dec. 1930 it had declined to \$16,026m., the lowest it has been since the First World War. On 30 Nov. 1941, just preceding Pearl Harbour, debt stood at \$55,039,820,000. The highest Second World War debt was \$279,213,559,000 on 28 Feb. 1946.

² Per capita figures, beginning with 1960, have been revised; they are based on the Census Bureau's estimates of the total population of the US, including Alaska and Hawaii.

The permanent statutory debt limit is \$285,000m.; a temporary limit of \$309,000m. was in effect until 30 Nov. 1963.

STATE AND LOCAL FINANCE

Revenue of the 50 states and all local governments (91,236) from their own sources amounted to \$61,474m. in fiscal year 1962; in addition they received \$7,900m. in revenue from fiscal aid, shared revenues and reimbursements from the federal government, bringing total revenue from all sources to \$69,374m. Of the revenue from state and local sources, taxes provided \$41,191m., of which property taxes (mainly imposed by local governments) yielded \$18,752m. or 46% of all tax revenue; and sales taxes, both general sales taxes and selective excises, provided \$13,511m. (33%).

State tax revenue totalled \$20,561m. in fiscal year 1962. Largest sources of state tax revenue are general sales taxes (imposed during 1962 by 37 states), motor fuel sales taxes (50 states), motor vehicle and operators' licences (49 states), corporation income (37 states), individual income (35 states), tobacco products (47 states) and alcoholic beverage sales taxes (50 states).

General revenue of local units from own sources in fiscal year 1962 totalled \$26,307m. In addition they received \$11,512m. from state and federal aids. Property taxes provided 48% of total general revenue.

Total expenditures of state and local governments were \$70,112m. in 1962, of which approximately 60% was for current operation. Education took \$21,927m. in current and capital expenditure; highways, \$10,321m.; welfare (chiefly public assistance), \$5,007m., and health and hospitals, \$4,301m. Capital outlays (construction, equipment and land purchases) totalled \$16,972m.

Gross debt of state and local governments totalled \$81,128m. or \$437 per capita at the close of their 1962 fiscal year. Cities had about \$26,819m., states \$21,971m., the remainder, about \$32,338m., representing special districts, counties, school districts and townships. Total cash and investment assets of state and local governments were \$63,942m., about 23% being in cash and the remainder in investments, mainly federal securities.

In Oct. 1962 there were 5,945,000 state and local civil employees (full-time equivalent); the payroll for the fiscal year 1962 amounted to \$28,550m.

NATIONAL DEFENCE

The President is C.-in-C. of the Army, Navy and Air Force.

The National Security Act of 1947 provides for the unification of the Army, Navy and Air Forces under a single Secretary of Defense with cabinet rank. The President is also advised by a National Security Council and the Office of Civil and Defense Mobilization.

The major components of the Department of Defense are the Office of the Secretary of Defense and the Joint Chiefs of Staff, who provide immediate staff assistance and advice to the Secretary; the departments of the Army, Navy and Air Force, each separately organized under a civilian head (not of cabinet rank); and the unified and specified commands.

ARMY

Secretary of the Army: Stephen Ailes.

Central Administration. The Secretary of the Army is the head of the Department of the Army. Subject to the authority of the President as C.-in-C. and of the Secretary of Defense, he is responsible for all affairs of the Department.

The Secretary of the Army is assisted by the Under Secretary of the Army, 3 Assistant Secretaries of the Army (Financial Management; Installations Logistics; Research and Development), the General Counsel, an Administrative Assistant, Chief of Legislative Liaison, Chief of Public Information and the Army Staff headed by the Chief of Staff, US Army.

The Chief of Staff is the principal military adviser of the Secretary of the Army, and performs his duties under the direction of the Secretary of the Army, except as otherwise prescribed by law, by the President or by the Secretary of Defense. He has supervision of all members and organization of the Army. The Vice Chief of Staff assists and advises the Chief of Staff.

The Army Staff furnishes professional assistance to the Secretary of the Army. The Army General Staff is the principal element of the Army Staff, and includes the offices of the Chief of Staff, the 3 Deputy Chiefs of Staff (Military Operations, Personnel and Logistics), the Chief of Research and Development, the Comptroller of the Army, the Chief: Office Reserve Components, the Assistant Chief of Staff (Intelligence), the Assistant Chief of Staff (Force Development) and the General Staff Committees on National Guard and Army Reserve Policy (resident members only). Other elements of the Army Staff are the offices of Judge Advocate General, Inspector General, Chief of Information, Chief National Guard Bureau, Chief Army Reserve and ROTC Affairs, Chief of Military History, Adjutant General, Provost Marshal General, Chief of Finance, Chief of Chaplains, Chief of Personnel Operations, Surgeon General, Chief US Army Audit Agency, Chief Signal Officer, Chief of Engineers, Chief of Support Services and Chief of Transportation.

The Army includes the Regular Army, the Army National Guard of the US and the Army Reserve; all persons appointed to, enlisted or inducted into, the Army without component; and all persons serving under call or conscription, including members of the National Guard of the States, etc., when in the service of the US.

Department of the Army strength, including cadets, was 975,916, as of 30 June 1963, comprised, in major combat units, of 16 divisions, also brigades, combat commands, battle groups and regiments.

The Continental Army Command has responsibility for all installations of the 6 Continental US Armies and the Military District of Washington, D.C. The headquarters of the Continental US Armies are: First Army, Governors Island, N.Y.; Second Army, Fort George G. Meade, Md.; Third Army, Fort McPherson, Ga.; Fourth Army, Fort Sam Houston, Texas; Fifth Army, Chicago, Ill.; Sixth Army, Presidio of San Francisco, Cal.

The Commanding General, US Continental Army Command, with headquarters at Fort Monroe, Va., reports directly to the Chief of Staff.

Some 40% of the Army is deployed overseas in 75 countries. Headquarters of US Seventh and Eighth Armies are in Europe and Korea respectively.

Operational Commands and Weapons. The larger commands are the army group, the field army and the corps. A typical army group may consist of 2 field armies. A typical field army may consist of 3 corps; security forces of armour and infantry; artillery (280-mm gun and *Redstone*, *Nike* and *Hawk* missile battalions); combat support forces of aviation, engineer and signal elements; and administration support forces. A typical corps may consist of 3 infantry divisions; one armoured division; one armoured cavalry regiment; corps artillery (105-mm. howitzer, 155-mm howitzer, 8-in. howitzer, *Honest John* rocket and *Lacrosse* and *Corporal* guided-missile battalions), and an observation battalion; combat support and administrative support forces.

A re-organization of divisional structure throughout the US Army to meet the need for greater flexibility is being undertaken. The object is to provide 4 types of Reorganization Objective Army Division (ROAD), each having a common division base (containing command, divisional artillery, combat and combat support units) and a varying mixture of 'combat maneuver battalion' (usually 10 or 11 in number in 3 brigades) to make up airborne, infantry, armoured or mechanized divisions; a fifth type, air assault, is being tested. Divisions can in this way be 'tailored' to fit a variety of strategic or tactical situations. The infantry division (ROAD), with 15,850 men, has 8 infantry battalions, 2 armoured battalions and 1 aviation battalion; the mechanized division (ROAD), with 15,900 men, has 7 infantry battalions, 3 armoured battalions and 1 aviation battalion; the armoured division (ROAD), with 15,900 men, has 5 infantry battalions, 6 armoured battalions and 1 aviation battalion; and the airborne division, with 14,600 men, has 9 infantry battalions, 1 armoured battalion and 1 aviation battalion.

Small arms include the M-14, which fires the 7.62-mm NATO cartridge either automatically or semi-automatically; this rifle, issue of which began in 1960, is replacing the semi-automatic M-1 (Garand), the Browning automatic rifle and the carbine. The standard general-purpose machine-gun is the M-60 (23 lb.; 550 rounds of 7.62 mm per minute). New infantry weapons are the M-79 grenade launcher, which fires a 40-mm grenade up to 400 metres, and the XM-72 rocket grenade, a light anti-tank weapon.

The approved calibres of artillery are: light, 105-mm howitzer; medium, 155-mm howitzer; heavy, 175-mm gun and 8-in. howitzer; very heavy, 280-mm gun. The 4.2-in. mortar complements the 8.1-mm mortar and

supplements the light howitzer. The 106-mm recoilless is the present anti-tank weapon for infantry use; it will be replaced by an anti-tank guided missile. Airborne units have a self-propelled 90-mm gun for anti-tank use. Air defence weapons are now almost exclusively of the missile type. *Redeye*, a lightweight, hand-held, infra-red homing air defence rocket is in development.

The Army has two categories of missiles—surface-to-surface (artillery) and surface-to-air (air defence artillery). Surface-to-surface missiles are: a guided, close-support anti-tank missile, under test; *Little John*, free-flight, medium-range, self-propelled on towed launcher, atomic or HE warhead, operational; *Lacrosse*, guided, close-support, atomic or HE warhead, operational; *Honest John*, free flight, equivalent to long-range artillery, atomic or HE warhead, highly mobile, operational; *Sergeant*, guided, atomic or HE warhead, units activated, under development; *Corporal*, guided, range about 75 miles, atomic or HE warhead, operational; *Redstone*, guided; range about 200 miles, atomic warhead, operational, and *Pershing*, smaller than *Redstone*, guided, range about 400 miles, under development. Surface-to-air missiles, for air defence, are: *Nike-Ajax*, guided, field or fixed installation, operational; *Nike-Hercules*, guided, field or fixed installation, operational; *Hawk*, homing type, low-altitude, field, operational; and *Nike-Zeus*, anti-missile missile, under development.

Enlistment, Draft and Terms of Service. Enlistments are for optional periods of 3, 4, 5 or 6 years.

All male citizens and all male aliens admitted for permanent residence are required to register at age 18. Men between 18½ and 26 may be drafted by any of the Armed Forces for a period of 24 months active service. Men eligible for the draft may enlist for a period of 2 years to discharge their active service obligations. All men subject to such draft incur a service obligation of either 6 or 8 years, dependent upon circumstances, and must serve in the reserve any part of the period not served on active duty.

The Women's Army Corps is composed of volunteers in the Regular and Reserve components of the Army. They are eligible for military duties (other than of a combat nature) in all the Army's occupational areas.

The Army National Guard is a civilian force with a dual status and role. Enlistment is voluntary. The members are recruited by each state, but are equipped and paid by the federal government. Training is supervised by the active Army and unit organization parallels that for the active army; training facilities are provided jointly by the USA and each State. As the organized militia of the several states, the District of Columbia and Puerto Rico, the Guard may be called into service for local emergencies by the sovereigns in those jurisdictions; and may be called into federal service by the President to thwart invasion or rebellion or to enforce federal law. In its role as a reserve component of the Army, the Guard is subject to the order of the President in the event of national emergency. Some units man air-defence missile positions in certain critical areas from Hawaii to the East Coast.

The Army Reserve is designed to supply qualified and experienced units and individuals in an emergency. Members are assigned to one of 3 categories: the Ready, Standby or Retired Reserve. A limited number of Ready Reservists is subject to call by the President in case of national emergency without declaration of war by Congress. The Standby Reserve and the Retired Reserve may be called only after declaration of war or

national emergency by Congress. The US Army area commanders are responsible for Army Reserve personnel and units.

NAVY

Secretary of the Navy: Paul H. Nitze.

The affairs of the Navy Department are directed by the Secretary of the Navy, who has as his principal advisers the Under Secretary of the Navy, 3 Assistant Secretaries of the Navy, the Chief of Naval Operations, the Vice-Chief of Naval Operations, 3 Assistant Chiefs of Naval Operations, 6 Deputy Chiefs of Naval Operations, the Chiefs of the 6 Bureaus, the Judge-Advocate-General of the Navy, the Comptroller, and the Commandant, United States Marine Corps.

The principal divisions of the Department are as follows: Executive Office of the Secretary, Office of Chief of Naval Operations, Bureau of Yards and Docks, Bureau of Naval Personnel, Bureau of Naval Weapons, Bureau of Ships, Bureau of Supplies and Accounts, Bureau of Medicine and Surgery, Judge Advocate General and Headquarters, US Marine Corps.

There are 14 Naval Districts and 2 River Naval Commands (Potomac and Severn).

The US Navy has 11 shipyards, 27 stations, 8 training centres, 54 air stations, 2 amphibious bases and 2 submarine bases. Under an agreement dated 2 Sept. 1940 the British Government granted leases for naval and air bases in Newfoundland, Bermuda, the Bahamas, Jamaica, St Lucia, Trinidad, Antigua and British Guiana; but these are not all now active.

Naval appropriations in recent years have been as follows: 1956, \$9,648m.; 1957, \$10,478m.; 1958, \$10,696m.; 1959, \$11,958m.; 1960, \$11,326m.; 1961, \$12,276m.; 1962, \$14,771m.; 1963, \$15,270m.

The total personnel on duty on 30 June 1963 was 665,315 officers and enlisted men, exclusive of the Marine Corps (190,000). Naval aviation is an integral part of the Fleet.

The following is a tabulated statement of US vessels existing on 31 Dec.:

The US Fleet consists of a total of 3,250 naval vessels, 873 of which are active.

The new construction programmes include 2 large aircraft carriers, 2 amphibious assault ships (helicopter-carriers), 2 nuclear-powered guided-missile frigates, 9 guided-missile frigates (destroyer leaders), 3 guided-missile destroyers, 6 guided-missile escort ships, 20 escort ships, 55 nuclear-powered submarines and many small craft and auxiliaries.

Of the 55 new nuclear-powered submarines, 28 will carry 'Polaris' fleet ballistic missiles and 27 will be attack submarines; 31 nuclear-powered submarines were completed by the end of 1963.

The US Coast Guard operates under the Treasury Department in time of peace and as a part of the Navy in time of war. Its peace-time duties embrace generally law enforcement upon the sea and navigable waters of US, the maintenance of navigational aids and the saving of life and property. Its authorized personnel at the end of 1963 comprised 34,129 officers and men. An Academy is maintained for the education of cadets for careers as commissioned officers.

AIR FORCE

Secretary of the Air Force: Eugene M. Zuckert.

The Department of the Air Force was activated within the Department of Defense on 18 Sept. 1947, coequal with the Army and the Navy under the terms of the National Security Act of 1947. It is headed by a Secretary of the Air Force, assisted by an Under Secretary and 3 Assistant Secretaries.

The US Air Force, under the administration of the Department of the Air Force, is commanded by a Chief of Staff, who is a member of the Joint Chiefs of Staff. He is assisted by a Vice Chief of Staff, Assistant Vice Chief of Staff, 5 Deputy Chiefs of Staff and a Comptroller.

The USAF consists of the Regular Air Force, the Air Force Reserve and the Air National Guard of the USA. For operational purposes the service is organized into 20 commands. The Air Defense Command is responsible for the air defence of the USA. It is in turn responsible to the North American Air Defense Command (NORAD), a joint agency which has available US and Canadian Air Force, and US Army and Navy air defence units for air defence of North America. The Strategic Air Command, equipped with long-range bombers based both in the USA and overseas, and with intercontinental guided missiles, is maintained primarily for strategic air operations anywhere on the globe. The Tactical Air Command operates fighters, fighter-bombers, tactical bombers, photo-reconnaissance and weather reconnaissance aircraft, transports and troop-carriers.

The other functional commands, all supporting organizations, are the Air Force Logistics Command, the Continental Air Command, the Air Force Systems Command, the Air Training Command, the Air University, the Military Air Transport Service, the Air Force Academy, the Air Force Finance Center, the Office of Aerospace Research, the Aeronautical Chart and Information Center, the Air Force Communications Service, the USAF Security Service and the Headquarters Command. The oversea commands are the Pacific Air Forces, the US Air Forces in Europe, the Alaskan Air Command and the Caribbean Air Command. These oversea commands are operationally responsible to joint theatre commands normally headed by an officer of a service with primary interests.

Of the fighter types in service, the F-100 Super Sabre, F-101 Voodoo, F-102 Delta Dagger, F-104 Starfighter, F-105 Thunderchief and F-106 Delta Dart can all fly faster than sound in level flight and carry missile armament, including nuclear weapons. Main strategic bombers are the B-52 Stratofortress heavy bomber, B-47 Stratojet medium bomber and the B-58 Hustler supersonic bomber. Tactical bombers include the B-57 and B-66 Destroyer. Latest transport types are the KC-135 Stratotanker jet tanker-transport, C-135 Stratolifter jet transport and the turboprop-powered C-130 Hercules and C-133 Cargomaster. Guided missiles in USAF service include Atlas, Titan and Minuteman intercontinental ballistic missiles, Matador and Mace tactical missiles, and the Bomarc pilotless interceptor.

In mid-1963, the Air Force was composed of 88 combat wings and 135 support squadrons, manned by approximately 887,000 personnel. Total aircraft strength is about 15,500.

The total budget appropriated for the Air Force for the 1964 fiscal year is approximately \$18,500m.

PRODUCTION

The Census of Population (1 April 1960) showed that the total labour force was 69,877,481 (55.3% of those 14 years and over); the armed forces accounted for 1,733,402 and the civilian labour force for 68,144,079, of whom 64,639,252 were employed and 3,504,827—or 5.1%—were unemployed. The following table shows employment by industry group and sex of the employed civilian labour force and percentage distribution of the total:

Industry Group	Male	Female	Total	Percentage distribution
Employed (1,000 persons):	43,467	21,172	64,639	100.0

Public administration	2,289	914	3,203	5.0
Industry not reported	1,583	1,025	2,608	4.0

The Bureau of Labor Statistics estimated the average total labour force (including armed forces) during 1963 at 75,713,000; of the civilian labour force (72,975,000), 4,166,000 persons (5.7%) were unemployed; 4,946,000 were working in agriculture and 63,863,000 in non-agricultural industries. The Bureau estimated that an average of 17,036,000 persons were employed in manufacturing, 11,863,000 in trade and 9,534,000 in civilian government service.

AGRICULTURE

Since its beginning in the USA, agriculture has been characterized by rapid expansion, abundant production and improvident use of soil and water resources in many areas. A successful conservation programme, highly co-ordinated and on a national scale—to restore the native fertility of damaged land, prevent erosion of both crop land and grazing land, and adjust land uses to the production capabilities of soils—has been in operation since early in the 1930s. More than a third of the farmers and ranchers now use soil- and water-conservation methods. Increases in per-acre yields are permitting changes in land use required to prevent further land damage.

There has been a remarkable increase in total farm output due to a higher degree of mechanization; greater use of lime and fertilizer, cover crops and other conservation practices; improved varieties such as hybrid maize and grain sorghums; a better balanced feeding of livestock; more effective control of insects and disease; a reduction in farm-produced power (horses and mules and the feed to keep them), and improved breeds of livestock and poultry. Since 1910 farm output has doubled; in 1962 it was about 69% above the 1935-39 level.

Farms are divided into two broad groups, *commercial farms* and *other farms*. *Commercial farms* (i.e., those operated to provide the major source of income) include: (1) Large-scale, highly mechanized farms, which use considerable hired labour and with farm sales per farm (1959 census) of \$20,000 or more, make up 8% of all farms and account for 50% of the value of farm products sold; (2) commercial family farms, approximately 47% of all farms, ranging from \$2,500 to \$20,000 in value of products reported and account for 45% of the value of farm products sold; and (3) small-scale farms (9% of all farms) with reported farm sales of \$50 to \$1,199 and with operator working off the farm less than 100 days, and with income from farm sales greater than that from other sources.

Other farms (35% of the total) include part-time farms with farm sales from \$50 to \$2,500 and with the operator working 100 or more days off

the farm or with income of the farm family from non-farm sources exceeding sales from the farm, part-retirement farms with operator 65 years of age or older and sales of \$50 to \$2,500, and abnormal farms, such as experimental farms.

Figures for Oct.-Nov. 1959 census of agriculture (with the 1954 figures in parentheses) are: Number of farms, 3,703,894 (4,782,416); area of land in farms, 1,120,157,789 acres (1,158,191,511); crop land harvested in 1959, 311,476,141 acres (332,870,479 acres in 1954); average farm, 302.4 acres (242.2 acres). The figures for number of farms at the two censuses are not strictly comparable; in 1959, 231,862 farms were dropped on account of a change in definition.

Farms operated by owners, 1959, were 2,925,626 (3,593,884); by all tenants, 757,513 (1,167,885); proportion of farms operated by tenants, 20.5%, which is the lowest since 1880 (26.8% in 1950); farms with white operators, 3,417,839 (4,298,766); with non-white operators, 285,803 (483,650).

Regarding equipment the 1959 census shows: Farms with telephones, 2,404,677 (2,332,309 in 1954); 2,173,419 farms had 2,825,493 motor trucks (2,212,892 farms had 2,702,811); 2,677,658 farms had 5,134,385 tractors (2,876,572 farms had 4,692,341); virtually all farms had electricity.

In 1959, 240,733 farms had a size of under 10 acres; 811,202, of 10-49 acres; 657,685, of 50-99 acres; 997,760, of 100-219 acres; 660,250, of 220-499 acres; 199,965, of 500-999 acres; 136,299, of 1,000 acres and over.

In April 1962, 14,313,000 farm residents comprised 7.7% of the total population.

Hired farm workers in 1962 averaged about 1.8m., and farm family workers, including operators, averaged about 4.9m. (yearly average of the numbers working on farms each month).

About one-third of farm residents are employed in non-agricultural industries. A larger proportion of women than men, among farm residents, do non-farm work; more than half of the employed women were working in non-agricultural industries in 1962.

Cash receipts from farm marketings and government payments (in \$lm.):

	Crops	Livestock and livestock products	Government payments	Total
1932	1,996	2,752	—	4,748
1945	9,655	12,008	742	22,405
1950	12,410	16,102	283	28,795
1959	14,656	18,856	682	34,194

1962	15,935	19,986	1,736	37,657

Realized gross farm income (including government payments), in \$lm., was 40,792 in 1962, compared with 39,550 in 1961; net income of farm operators, 12,590 (12,459). Farm-mortgage debt, on 1 Jan. 1963, was estimated at \$15,372m.; increase in 1962 was about 10.7%.

US agricultural exports, fiscal year, totalled: 1956-57, \$4,724m.; 1957-58, \$4,001m.; 1958-59, \$3,719m.; 1959-60, \$4,527m.; 1960-61, \$4,946m.; 1961-62, \$5,139m.; 1962-63, \$5,084m.

Total area of farm land under irrigation in 1959 was 33,021,799 acres (306,532 farms); in 1954: 29,552,135 acres and 320,236 farms.

Federal income taxes paid by farm people was \$15m. in 1941, \$1,365m. in 1948, \$1,415m. in 1954, \$1,075m. in 1956 and \$1,425m. in 1961. Total taxes levied on farm real estate in 1962 was \$1,329m. (\$974 in 1956).

According to census returns and estimates of the Economic Research Service, the acreage and specified values of farms has been as follows (area in 1,000 acres; value in \$1,000):

	Farm area ¹	Crop land available for crops ²	Value, land, bldgs, machinery, livestock	Value of products in preceding year ³
1910.	878,798	431,000	41,089,000	(unavailable)

¹ Acreages are for the preceding year except for 1954 and 1959.

² Also includes any crop land used only for pasture. Ploughable pasture not in rotation with crops is not included as land available for crops.

³ Value of all farm products sold in the preceding year except for 1954.

The areas and production of the principal crops for 2 years and the average for 10 years, 1952-61, were:

Wheat. The chief wheat-growing states (1962) were (estimated yield in 1,000 bushels): Kansas, 211,171; N. Dakota, 158,500; Montana, 78,297; Oklahoma, 71,953; Washington, 66,825; Nebraska, 53,820; Illinois, 49,465; Texas, 43,696; Indiana, 38,908; Ohio, 38,688; Idaho, 36,692; Colorado, 36,207; Michigan, 29,965; S. Dakota, 29,824; Missouri, 26,352.

Cotton. Production is moving west of the Mississippi River. In 1962 the 4 western-most states producing cotton (Texas, New Mexico, Arizona and California) furnished 53% of the crop. Production, 1962, by state (in 1,000 bales, 500 lb. gross) was: Texas, 4,726; California, 1,912; Mississippi, 1,696; Arkansas, 1,450; Arizona, 942; Alabama, 696; Tennessee, 555; Louisiana, 547; Georgia, 534; Missouri, 466; S. Carolina, 449; Oklahoma, 311; N. Carolina, 275; New Mexico, 268; others, 40.

Cotton acreage and production (excluding 'linters') were:

Total value of livestock, excluding poultry and, from 1961, horses and mules (in \$1m.) on farms in the USA on 1 Jan. was: 1930, 6,061; 1933 (low point of the agricultural depression), 2,733; average, 1952-61, 13,630; 1961, 15,095; 1962, 15,958.

In 1962 the production of shorn wool was 248.5m. lb. from 29.5m. sheep (average in 1952-61, 245.4m. lb. from 29.1m. sheep); of pulled wool, 29.9m. lb. (1952-61, 36.8m. lb.).

FORESTS AND FORESTRY

In 1953 the US forest lands, including coastal Alaska, capable of producing timber for commercial use, covered 488,609,000 acres (about one-fourth of the land area), classified as follows: Saw-timber stands, 182,708,000 acres; pole timber stands, 169,483,000 acres; seedling and sapling stands, 94,784,000 acres; non-stocked and other areas, 41,634,000 acres. Ownership of commercial forest land is distributed as follows: Federal government, 103,124,000 acres; state, county and municipal, 27,216,000 acres; privately owned, 358,269,000 acres, including 165,217,000 acres on farms. Of the live saw-timber stand (2,056,847,000m. bd ft) Douglas fir constitutes 26%; Western yellow (ponderosa) pine, 11%; Southern yellow pine, 8%; other softwoods, 35%; hardwoods, 20%. In 1952 timber cut amounted to 10,756,773m. cu. ft compared to net annual growth of about 14,243,000m. cu. ft. In live saw-timber stands, timber cut amounted to 48,839,829m. bd ft against an annual growth of 47,397,000m. bd ft. The net area of the 154 national forests and other areas in USA and Puerto Rico administered by the US Forest Service, including commercial and non-commercial forest land, was on 30 June 1963, 186,203,183 acres.

Fire takes a heavy annual toll in the forest; total area burned over in 1962 was 4,078,894 acres, of which 53% was unprotected land; 97% (774,816,000 acres) of total forest area is now under organized fire-protection service. In 1962, 1,402,115 acres of land were planted in trees (1961: 1,796,206).

The two world wars and record levels of industrial production have hastened the depletion of once abundant supplies of metal and US is increasingly an importer. US is wholly or almost wholly dependent upon imports for industrial diamonds, quartz, tin, chromite, nickel, strategic-grade mica and long-fibre asbestos; it imports the bulk of its tantalum, platinum, manganese, mercury, cadmium, tungsten, cobalt and flake graphite, and substantial quantities of antimony, bauxite, arsenic, lead, fluorspar, zinc, gypsum, bismuth and copper.

The precious metals are mined mainly in Utah, Arizona, Colorado, Montana and Idaho (in order of combined output of gold and silver). US output of gold (troy oz.), 1930-39, 31,453,370; 1940-49, 24,171,646; 1950-59, 18,817,241; total 1792-1962, 305,662,531. Output of silver (troy oz.), 1930-39, 466,412,499; 1940-49, 434,656,631; 1950-59, 374,055,521; total 1792-1962, 4,501,290,555.

MANUFACTURES

The following table presents general statistics of manufactures as reported at various censuses from 1909 through 1958 and from the Annual Survey of Manufactures for years in which no census was taken. The figures for 1958 include data for home establishments previously classified as non-manufacturing. The figures for 1939, but not for earlier years, have been revised to exclude data for establishments classified as non-manufacturing in 1954. The figures for 1909-33 were previously revised by the deduction of data for industries excluded from manufacturing during that period.

The statistics for 1947, 1954 and 1958 relate to all establishments employing 1 or more persons any time during the year; for 1950-53, 1955-57 and 1959-61, on a representative sample of manufacturing establishments of 1 or more employees; for 1929 through 1939, those reporting products valued at \$5,000 or more; and for 1909 and 1919, those reporting products valued at \$500 or more. These differences in the minimum size of establishments included in the census effect only very slightly the year-to-year comparability of the figures.

The annual Surveys of Manufactures carry forward the key measures of which are covered in detail by the Census of Manufactures for 1952-53 are based on reports for approximately 45,000 plants out of a total of more than 260,000 operating manufacturing establishments; those for 1955-57 on about 50,000, and those for 1959-61 on about 60,000 out of about 300,000. Included are all large plants and representative sample of the much more numerous small plants. The large plants in the surveys account for approximately two-thirds of the total employment in operating manufacturing establishments in the US.

¹ For the period 1954-61 value added represents adjusted value added and for earlier years, unadjusted value added. Unadjusted value is obtained by subtracting cost of materials, supplies and containers, fuel, electricity and contract work from the value of shipments for products manufactured plus receipts for services rendered. Adjusted value added also takes into account value added by merchandizing operations plus net change in finished goods and work-in-process inventories between the beginning and end of the year.

For comparison of broad types of manufacturing, the industries covered by the Census of Manufactures have been divided into 20 general groups according to the *Standard Industrial Classification*. This was revised in 1957; 1954 figures are not therefore strictly comparable.

¹ The sum of these 4 items should equal the total in the preceding column; any difference appearing is due to the very small production of crucible steel, omitted prior to 1950.

² 'Boom' year.

³ Low point of the depression.

⁴ Peak year of war production.

⁵ Includes crucible production beginning 1950.

Wholesale price index of iron and steel (1957-59 = 100) was: 1939, 38; 1944, 38.5; 1950, 66.9; 1955, 83.2; 1960, 100.6; 1962, 99.3; 1963, 103.6.

Leading producers of pig-iron (including ferro-alloys) in 1962 were: Pennsylvania, 15,727,558 net tons; Ohio, 11,625,415; Indiana, 8,776,108; Illinois, 4,716,314.

Consumption of ore, 1962, was 108,073,676 net tons, of which blast-furnaces took, 61,876,603 tons; steel producing furnaces, 7,522,137 tons, and sintering plants, 38,642,454 tons.

The iron and steel industry in 1962 employed 402,622 wage-earners (compared with 449,888 in 1960), who worked an average of 36.6 hours per week (46.6 in peak year 1944) and earned an average of \$3.62 per hour (compared with the average of \$1.17 during 1942 to 1945); total wages were \$2,783m. and total salaries for 117,876 employees was \$1,120m.

Apparent *per capita* US consumption of steel, 1961, was 1,067 lb. (1,099 lb. in 1960).

In 1962 (preliminary figures) electric utilities produced for public use 792,039m. kwh.; 640,189m. kwh. was produced with fuel as the prime mover and 151,850 kwh. with water. Industrial plants produced 86,673m. kwh.

TENNESSEE VALLEY AUTHORITY

Established by Act of Congress, 1933, the TVA is a multiple-purpose federal agency which carries out its duties in an area embracing some 41,000 sq. miles, in 125 counties (aggregate population, about 3.7m.) in the 7 Tennessee River Valley states: Tennessee, Kentucky, Mississippi, Alabama, North Carolina, Georgia and Virginia. In addition, 74 counties outside the Valley are now served by TVA power distributors. Its 3 directors are appointed by the President, with the consent of the Senate; headquarters are in Knoxville, Tenn. There were 18,075 employees at 1 July 1963.

Under the Act its chief duties are flood control; the maintenance of navigation; generation, transmission and sale of electric power; and the development and production of fertilizers and munitions. There are now 32 major dams and reservoirs (21 built by TVA) controlling the flow of the river. A navigable channel 650 miles long, connecting with the American system of inland waterways, in the calendar year 1962 carried more than 2,268m. ton-miles of traffic in iron and steel products, grains, coal, petroleum, chemicals and forest products. Flood damages averted by river control exceed \$300m.

Growing out of this has been the production and distribution of electric power, totalling 68,548m. kwh. in fiscal year 1963; the same region used 1,500m. kwh. in 1933 before TVA operations began. Installed capacity, 1963, was 12,711,215 kw. (3,987,215 kw. in hydro plants, 8,724,000 kw. in steam). Power is distributed to about 1.5m. consumers by 157 local distributors who purchased 25,530m. kwh. from TVA in fiscal 1963. Rates are kept low to encourage consumption; average cost to residential consumers served by distributors of TVA power is 0.94 cent per kwh. (national average, about 2.39 cents); average residential consumer used 10,406 kwh. in fiscal 1963 (national average, 4,336 kwh.). The federal government is the largest user of TVA power; purchases by the Atomic Energy Commission and other government agencies amounted to 25,211m. kwh. in 1963. Net income, fiscal year 1963, \$55.1m.

A fourth activity is experimentation in the development and manufacture of mineral fertilizers accompanied by programmes designed to encourage proper fertilizer use in all parts of the country. The TVA works closely with other federal agencies, and with state and local authorities in combating soil erosion, improving forest resources, the conversion of farms, in whole or in part, from row-crops, such as maize, to livestock, and to the development of local industries based on natural resources. In the depression year, 1933, the average *per capita* income in the Valley region was \$168 compared with the national average of \$375; in 1961 the region's *per capita* income had multiplied 9 times to \$1,494 while the national average had increased 6 times to \$2,263.

Total fixed assets, before depreciation, 30 June 1963, was \$2,702m., of

which \$213m. was devoted to navigation, \$185m. to flood control, \$44m. to fertilizers and about \$2,236m. to the financially separate and self-supporting development of power. At 30 June 1963 TVA had paid \$397m. of power revenue to the US Treasury, including \$65m. in redemption of bonds issued in 1938-39. It had also paid \$41m. of non-power proceeds. In July 1955 Congress amended the TVA Act to authorize TVA to issue up to \$750m. of power revenue bonds to finance additions of generating capacity. The amendment also required TVA to repay \$1,000m. of the remaining Treasury investment of \$1,199m. in the power system within 54 years and to pay a return on the unpaid balance equal to the average interest rate on marketable public obligations. In fiscal year 1963 TVA repaid \$10m. on the power investment and paid \$38.8m. as a return. Total appropriations for TVA to 30 June 1963 were \$2,070m.

Tariffs. The American tariff system has ceased to be an important revenue-raising device. In 1789-91 customs duties (plus the tonnage tax) furnished 99.5% of the government revenue; in 1859, just preceding the Civil War, 92.6%; in 1939 (excluding the tonnage tax), 6.1%; and now provides about 1%.

During the 5-year period 1956-60 annual imports for consumption averaged \$13,570m. (as compared with \$10,784m. during 1951-55 and \$2,440m. during 1936-40). Of 1956-60 imports, 43.1% (\$5,843m.) entered duty free and the remainder (\$7,727m.) paid duties averaging \$882m. or 11.4% of dutiable imports and 6.5% of total imports for consumption. Imports increased each year from 1955 to 1958, levelled off in 1958, rose again in 1959, levelled off in 1960 and 1961, and rose again in 1962.

Exports of US merchandise, including aid and relief shipments, during the same period, 1956-60, averaged \$19,029m. compared with \$15,196m. in 1951-55 and \$3,167m. in 1936-40.

Per capita exports fell from \$41.77 in 1929 (the 'boom year' when American investors lent heavily abroad) to a low of \$12.42 in the depression year of 1932, rising to \$23.44 in 1939, and to \$103.63 in 1947 (including civilian supplies donated abroad); thereafter they stood at: 1950, \$65.65; 1955, \$91.68; 1957, \$118.63 (an all-time high); 1959, \$96.80; 1960, \$111.17; 1961, \$110.82; 1962, \$112.98 (all years including economic and military aid shipments). *Per capita* imports (for consumption) were as follows: 1929, \$35.14; 1932, \$10.44; 1939, \$17.08; 1947, \$38.57; 1950, \$56.59; 1955, \$67.41; 1957, \$74.32; 1959, \$83.23; 1960, \$80.04; 1961, \$77.13; 1962, \$85.95.

The average rate of duty actually collected on US dutiable imports has declined markedly since the early 1930s, as a result both of reductions in US import duties by trade agreements and of the great advance in prices. In the depression years of 1930-33 the average rate under the Hawley-Smoot Law was 52.8%. The rate on dutiable goods declined to 37.3% in 1939, then to an average of 28.2% in the 5 years, 1943-47, then to 14.3% in 1948 (the first year the majority of the Geneva concessions were in effect). Rates since have been: an average of 12.1% in 1951-55, 11.3% in 1956, 10.8% in 1957, 11.1% in 1958, 11.5% in 1959, 12.2% in 1960, 12.1% in 1961. In 1949 the average rate of duty on total US imports—both dutiable and free—was 5.8%; in 1951-55, an average of 5.4%; in 1956, 5.7%; in 1957, 5.8%; in 1958, 6.4%; in 1959, 7.1%; in 1960 and 1961, 7.4%.

NATIONAL INCOME

The Office of Business Economics of the Department of Commerce prepares detailed estimates on the national income and product of the United States. The *National Income*, 1954 edition, contains detailed national income and product estimates covering the period 1929-45. A revised and expanded set of estimates for the period 1949-57 was presented in *US Income and Output* (a supplement, 1959, to the Commerce Department's monthly *Survey of Current Business*). Calculations are carried forward in the July issues of the *Survey*. These latest figures¹ in \$1,000m. for various years are as follows:

COST OF LIVING

The Department of Labour compiles an index of consumer prices as felt by city wage-earner and clerical-worker families in 46 large, medium and small cities. Averages for 1957-59 = 100. The index for 'housing' has 5 sub-groups; in the table below only that for rent is given.

LABOUR

The American trade unions comprise 182 national and international unions and 50 state and territorial organizations. In 1962 total membership was approximately 17.6m., including 1,044,000 Canadian workers affiliated with American unions and 79,000 outside the USA. The American Federation of Labor (founded 1881 and taking its name in 1886) and the Congress of Industrial Organizations merged into one organization, named the AFL-CIO, in Dec. 1955, representing 14.5m. workers (excluding 3 expelled unions) late in 1962.

Four Railroad Brotherhoods (2 members of the AFL-CIO and 2 unaffiliated) covering operating staffs embracing engine-drivers, firemen, conductors and trainmen, had over 310,000 in 1960. Unaffiliated or independent unions, inter-state in scope, including those organizing coalminers and government workers, had an estimated total membership of about 3.1m. (including 3 unions expelled from the AFL-CIO).

The Labor-Management Relations (Taft-Hartley) Act, 1947, applicable to industries affecting inter-state commerce, prohibits the closed shop, but permits union shop arrangements except where forbidden by state laws. Statutes regulating, restricting or prohibiting closed shop or other types of union security agreements are in effect in 24 states, of whom 20 ban all

types of union security agreements (Alabama, Arizona, Arkansas, Florida, Georgia, Indiana, Iowa, Kansas, Mississippi, Nebraska, Nevada, North Carolina, North Dakota, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia and Wyoming); a 21st state, Louisiana, has such an act applicable only to agricultural labourers and workers engaged in processing certain agricultural products; Colorado and Wisconsin ban all-union agreements unless a certain percentage of employees have voted for them; in Hawaii an all-union agreement may be entered into unless a majority of employees vote against it. Thirteen states have acts to prevent industrial disputes between public utilities and their employees by means of compulsory arbitration or seizure; however, a number of these laws have been declared unconstitutional in so far as industries in inter-state commerce are concerned. Laws to restrict or regulate picketing or other strike activities have been enacted in over half the states. About one-third of the states also prohibit certain types of strikes, such as 'sit down', jurisdictional or sympathy strikes. About two-thirds of the states have 'criminal syndicalism' laws in some form or other.¹

Minimum-wage laws governing private employers have been enacted in 33 states, the District of Columbia and Puerto Rico. The laws of 15 states and Puerto Rico cover men, women and, usually, minors; in the other states they cover only women or women and minors. The minimum wage rate under federal law is \$1.25 per hour for employees in inter-state commerce or producing goods for inter-state commerce previously covered by the federal minimum, and \$1 for other employees brought under the law for the first time in 1961.

A total of 3,614 strikes and lockouts occurred in 1962, involving 1.2m. workers and 18.6m. idle man-days; the number of idle-man-days was 0.16% of the year's total working time of all workers in non-agricultural establishments, excluding government.

There are 3 federal agencies which provide formal machinery for the adjustment of labour disputes: (1) The Federal Mediation and Conciliation Service (now an independent agency, formerly the Conciliation Service of the Department of Labor), whose services are available 'in any labor dispute in any industry affecting commerce . . . whenever in its judgment such dispute threatens to cause a substantial interruption of commerce'. Its aim is to prevent and minimize work stoppages. (2) The National Mediation Board (1934) provides much the same facilities for the railroad and air-transport industries pursuant to the Railway Labor Act. (3) The National Railroad Adjustment Board (1934) acts as a board of final appeal for grievances arising over the interpretation of existing collective agreements under the Railway Labor Act; its decisions are binding upon both sides and enforceable by the courts.

The National Labor Relations Act, as amended by the Labor-Management Relations (Taft-Hartley) Act, 1947 (*see THE STATESMAN'S YEAR-BOOK*, 1955, p. 617), was again amended by the Labor-Management Reporting and Disclosure Act, 1959. This requires extensive reporting and disclosure of certain financial and administrative practices of labour organizations, em-

¹ The Idaho Act (1925) may be taken as representative. The primary offence, punishable as a felony, is the advocacy, by word of mouth or in writing, of the 'doctrine of criminal syndicalism', which is defined as 'the doctrine which wilfully and maliciously advocates crime, sabotage, violence or unlawful methods of terrorism as a means of accomplishing industrial or political reform'. The Act defines 'sabotage': 'Sabotage for the purpose of this chapter is defined to mean damage, injury or destruction of real or personal property; work done in an improper manner; tampering with or disabling machinery; improper use of materials; loitering at work; slack work; slowing down work or production; scamped work; waste of property; the publication of trade secrets.'

ployers and labour relations consultants. In addition, certain powers are vested in the Secretary of Labor to prevent abuses in the administration of trusteeships by labour organizations and to provide standards and procedures for the election and removal of officers of such organizations. Other provisions impose a fiduciary responsibility upon union officers and provide for the exclusion of former Communists and felons from office for specified periods; more stringently regulate secondary boycotts and banning of 'hot' cargo agreements; put limitations upon organizational and recognition picketing and permit States to assert jurisdiction over labour disputes where the National Labor Relations Board declines to act. The Act also contains a 'Bill of Rights' for union members (enforceable directly by them) dealing with such things as equal rights within the organization; freedom of speech and assembly subject to reasonable union rules, and safeguards against improper disciplinary action.

COMMUNICATIONS

SHIPPING

On 30 June 1963 the US merchant marine included 2,665 sea-going vessels of 1,000 gross tons or over, with aggregate dead-weight tonnage of 30,534,000. This included 386 tankers of 7,776,000 dead-weight tons.

On 30 June 1963 US merchant ocean-going vessels were employed as follows: Active, 920 of 13.59m. dead-weight tons, of which 582 of 7.18m. tons were in foreign trade, 15 of 164,000 in foreign to foreign, 299 of 5,479,000 tons in domestic trade and 34 of 766,000 tons in other US agency operations. Inactive vessels totalled 1,745 of 16,941,000 dead-weight tons, of which 35 of 501,000 tons were temporarily inactive; 54 of 768,000 tons privately owned were laid up and 1,656 of 15,671,000 tons were in the Maritime Administration's reserve fleet. Of the total vessels in the US fleet, 983 of 14.59m. dead-weight tons were privately owned. US exports and imports carried on dry cargo and tanker vessels in the year 1962 totalled 293,686,000 long tons, of which 27,945,000 long tons were carried in US flag vessels.

ROADS

As of 1 Jan. 1963 the total US highway mileage, including rural and urban roads, amounted to 3,599,581 miles, of which 2,646,549 miles were surfaced roads. The total mileage cited includes 673,139 miles of rural roads under control of the states, 2,351,435 miles of local roads, 119,763 miles of federal park and forest roads, and 455,244 miles of municipal roads and streets. Expenditures for construction and maintenance amounted to \$10,080m. in 1962.

By the end of 1962, toll roads, financed by private capital through bond issues and administered by state toll authorities, totalled 4,189 miles (including some under construction) compared with 344 miles in 1940. Only a few major toll-road programmes are contemplated at present.

Motor vehicles registered in the calendar year 1962 were (US Bureau of Public Roads) 79,022,916 including 65,928,547 automobiles, 285,219 buses and 12,809,150 trucks.

Road haulage of goods by motor lorries and trucks in 1962 used 12,809,150 vehicles (250,048 in 1916). The industry (1962) employed 8m. workers, or 1 out of every 9 employed in the USA. Motor carriers of passengers and property earned, in the calendar year 1962, \$9,107m. compared with the railways' \$9,563m.

Inter-city truckers (private and for hire) averaged 320,000m. revenue net ton-miles in 1962. Of the 285,219 buses in service in 1962, 209,682 were school buses (including some church, industrial, etc. buses), 26,500 were in inter-city service, and 50,000 were classed as local and inter-urban, including trolley buses in city transit service. Inter-city buses ran a total of 1,300m. bus-miles and earned a total of \$570m. in 1962.

There were 40,900 deaths in road accidents in 1962.

RAILWAYS

Railway history in the USA commences in 1828, but the first railway to convey both freight and passengers in regular service (between Baltimore and Ellicott's Mills, Md., 13 miles) dates from 24 May 1830. Mileage rose to 52,922 miles in 1870; to 167,191 miles in 1890, and to a peak of 266,381 miles in 1916, falling thereafter to 261,871 in 1925; 246,739 in 1940 and 230,815 in 1960 (these include some duplication under trackage rights and some mileage operated in Canada by US companies). The ordinary gauge is 4 ft 8½ in. (about 99.6% of total mileage). The USA has about 29% of the world's railway mileage.

The following table, based on the figures of the Interstate Commerce Commission, shows some railway statistics for 5 calendar years:

	1940	1950	1955	1960	1962
Mileage owned (first main tracks)	233,670	223,779	220,670	217,552	215,090
Revenue freight originated (1m. short tons)	1,069	1,421	1,456	1,301	1,294
Freight ton-mileage (1m. ton-miles)	375,369	591,550	626,892	575,360	595,774
Passengers carried (1,000)	456,088	488,019	433,308	327,172	313,084
Passenger-miles (1m.)	23,816	31,790	28,526	21,234	19,926
Operating expenses (\$1m.)	4,355	9,587	10,230	9,642	9,563
Depreciation (\$1m.)	3,132	7,135	7,724	7,657	7,508
Income before taxes (\$1m.)	691	1,055	1,144	595	735
Net income after fixed charges (\$1m.)	243	855	959	473	600

Equipment in service, Dec. 1962 (with figures for 1950 in brackets) was: Locomotives (Class I railways), 28,639 (40,494) of which steam locomotives numbered 51 (25,640); freight-train cars (exclusive of caboose cars), 1,550,067 (1,721,269); passenger-train cars, 23,346 (57,146). Average number of employees, 1961, on Class I railways was 700,146 (1,220,784 in 1950), who earned an average \$128.06 per week (\$72.59).

POSTS AND TELEGRAPHS

International cable and radio telegraph services, providing connexions with all parts of the world, are operated by 9 companies; in addition the international radio telephone circuits, as well as circuits through various ocean telephone cables, are operated by the American Telephone and Telegraph Company. In 1962 there were 24.8m. transoceanic telegraph messages (24.5m. in 1961); in addition, receipts for the new international customer-to-customer teleprinter service amounted to \$12.1m. (1961: \$10m.). Transoceanic telephone calls, 1962, numbered 4.5m. (1961: 3.9m.). The international cable and radio telegraph services had on 31 Dec. 1962 a gross communications plant investment of \$163.4m. and 10,522 employees.

The telegraphs of the USA are largely in the hands of the Western Union Telegraph Company, which (excluding its ocean cable system) on 31 Dec. 1962 had 6,855 offices, a gross communications plant investment of \$54.1m., 30,021 employees and handled 112.5m. telegraph messages in 1962.

The telephones of the USA are largely in the hands of the American Telephone and Telegraph Company and its chief telephone subsidiaries, which together form the Bell Telephone System. There are, however, more than 2,800 other telephone systems not a part of the Bell Telephone System but which connect with it.

The following table shows the number of telephones in use by all the telephone systems in the USA, including the Bell Telephone System, and the chief operating statistics of the Bell Telephone System (including the international telephone facilities) as of 31 Dec. of each year:

	1945	1950	1960 ¹	1962
All systems:				
Total telephones ²	27,867,000	43,004,000	74,342,000	80,969,000
<i>Bell Telephone System</i>				
Number of central offices	7,374	8,470	10,978	11,438
Telephones	22,445,500	35,343,400	60,735,100	65,987,000

Employees, number	387,300	523,251	580,405	563,861

¹ Includes Alaska and Hawaii.

² Since 1961 all telephones have interconnected with the Bell System.

³ Figures are adjusted to a basis of 1 Jan. 1963 for changes in classification between local (exchange) and toll calls due to enlargement of local calling areas.

Postal business for the years ended 30 June included the following items:

	1960	1961	1962	1963
Number of post offices, on 30 June	35,238	34,955	34,797	34,498
Postal revenue (\$1,000) ¹	3,277,000	3,423,000	3,557,041	3,879,123
Postal expenditure (\$1,000) ²	3,874,000	4,249,000	4,331,617	4,698,523
Postal savings deposits (\$1,000), on 30 June ³	835,800	699,528	581,177	483,504

¹ Beginning 1963, revenues include operating reimbursements and are stated without deduction for certain costs previously deducted as being financed by revenue.

² Beginning 1963, expenditures are stated on the basis of accrued expense rather than appropriation obligations.

³ Postal savings started in 1911; peak was \$3,302.8m. in 1947.

AVIATION

In civil aviation there were, on 1 Jan. 1963, 830,220 certified pilots (365,971 active) and 117,904 registered civil aircraft (86,287 active):

Airports on 30 June 1962: Air carrier, 728; general aviation, 6,713; total conventional land-based, 7,441. There were also, 1 Jan. 1963, 311 seaplane bases and 332 heliports.

Data of the Civil Aeronautics Board indicate that in 1962 the US domestic certified air carriers flew 833,304,000 revenue miles, with 55,950,000 revenue passengers; revenue passenger-miles in scheduled domestic operations, 33,622,638. American-flag air carriers in scheduled international and territorial air transport operations flew 176.48m. revenue aircraft-miles (6,598,000 revenue passengers) and 10,137,777,000 revenue passenger-miles.

BANKING

On 29 June 1963 there were 13,993 domestic banks doing a general deposit business with the public and having aggregate deposits of \$309,423m. Of these, 4,537 with deposits of \$145,513m. were national banks operating under charters granted by the federal government; the remaining banks, including trust companies and savings banks, were organized under the laws of the various states. Of the total number, 6,058 were members of the Federal Reserve System, namely, all the 4,537 national banks and 1,521 state banks admitted to membership.

The Federal Reserve System, established under the Act of 1913, comprises the Board of 7 Governors, the 12 regional Federal Reserve Banks with their 24 branches, 6,058 member banks, the Federal Open Market Committee and the Federal Advisory Council. The Governors, appointed by the President with the consent of the Senate, determine monetary, credit and operating policies. Each Governor holds office for 14 years, one Governor's term expiring every 2 years. No two may come from the same Federal Reserve District. The Board supervises the Reserve Banks and the issue and retirement of Federal Reserve notes; it appoints 3 of the 9 directors of each Reserve Bank; it passes on the admission of state banks to the System and has power to remove the directors or officers of member banks for continued unsafe or unsound banking practices; and it has power to control the expansion of bank holding companies and to require divestment of their non-banking interests. The Board and 5 representatives of the Reserve Banks constitutes the Federal Open Market Committee, which directs the purchase and sale of Government obligations made by the Reserve Banks to influence the general credit conditions of the country. The Board also influences credit conditions through powers to set member-bank reserve requirements, to approve discount rates at Federal Reserve Banks and to fix margin requirements on stock-market credit.

The 12 Reserve Banks (one for each district) implement Federal Reserve policies, chiefly through their dealings with member banks, which, although outnumbered by non-member banks, hold about 85% of the country's total commercial banking resources. The Reserve Banks hold bank reserves, advance funds to member banks, provide currency for circulation, act as fiscal agent for the Government, and afford nation-wide cheque-clearing and fund transfer arrangements. They may issue notes, fully secured; discount paper for member banks; increase or reduce the country's supply of reserve funds by buying or selling Government securities and other obligations at the direction of the Open Market Committee. Their capital stock is held by the member banks, but it carries no voting rights except in the election of directors.

Every member bank is required to subscribe to stock in the Reserve Bank of its district in an amount equal to 6% of its paid-up capital and surplus. Only one-half of the par value of the stock is paid in, the other half remaining subject to call by the Board of Governors. However, no call has been made for the second half of the subscription. The reserve balances which member banks must carry with Reserve Banks are based on the volume of their net demand and time deposits. The Board of Governors has the power to alter these requirements within limits.

The Federal Advisory Council consists of 12 members (one from each district); it meets in Washington four times a year (or oftener) to advise the Board of Governors on general business and financial conditions.

Banks which participate in the federal deposit insurance fund have their deposits insured against loss up to \$10,000 for each depositor. The fund is administered by the Federal Deposit Insurance Corporation established in 1933; it obtains resources through annual assessments on participating banks.
